89A.05 [TIMBER HARVESTING AND FOREST MANAGEMENT GUIDELINES.]

Subdivision 1. [DEVELOPMENT.] The council shall coordinate the development of comprehensive timber harvesting and forest management guidelines. The guidelines must address the water, air, soil, biotic, recreational, and aesthetic resources found in forest ecosystems by focusing on those impacts commonly associated with applying site-level forestry practices. The guidelines must reflect a range of practical and sound practices based on the best available scientific information, and be integrated to minimize conflicting recommendations while being easy to understand and implement. Best management practices previously developed for forest management must be incorporated into the guidelines. By June 30, 2003, the council shall periodically review and, when if deemed necessary, update the guidelines. Changes to the guidelines must be peer reviewed prior to final adoption by the council. By December 1999, the council must undertake a peer review of the recommendations in the forest management guidelines adopted in December 1998 for protecting forest riparian areas and seasonal ponds.

Subd. 2. [ECONOMIC CONSIDERATIONS.] Before the implementation of timber harvesting and forest management guidelines, new site-level practices and landscape-level programs, the council shall analyze the costs and benefits of new site-level practices and landscape-level programs. When the analysis concludes that new landscape-level programs and site-level practices will result in adverse economic effects, including decreased timber supply and negative effects on tourism, opportunities to offset those effects must be explored. The council shall also:

1. identify and quantify forest and timberland acreages that will no longer be available for harvest; and

2. encourage public resource agencies to provide sustainable, predictable supplies of high-quality forest resource benefits, including timber supplies that are consistent with their multiple mandates and diverse management objectives. These benefits should be provided by public resource agencies in proportion to their forest land's capability to do so.
Subd. 2a. [REVIEW.] In reviewing the guidelines, the council must consider information from forest resources, practices, compliance, and effectiveness monitoring programs of the department. The council’s recommendations relating to revisions to the forest management guidelines must be subject to peer reviewers appointed by the council. The council must consider recommendations of peer reviewers prior to final adoption of revisions to the guidelines.

Subd. 3. [APPLICATION.] The timber harvesting and forest management guidelines are voluntary. Prior to their actual use, the council shall develop guideline implementation goals for each major forest land ownership category. If the information developed as a result of the forest resources, practices, compliance, and effectiveness monitoring programs established in section 89A.07 conducted by the department or other information obtained by the council indicates the implementation goals for the guidelines are not being met and the council determines significant adverse impacts are occurring, the council shall recommend to the governor additional measures to address those impacts. The council shall incorporate the recommendations as part of the council’s biennial report required by section 89A.03, subdivision 6.

Subd. 4. [MONITORING RIPARIAN FORESTS.] The commissioner, with program advice from the council, must accelerate monitoring the extent and condition of riparian forests, the extent to which harvesting occurs within riparian management zones and seasonal ponds, and the use and effectiveness of timber harvesting and forest management guidelines applied in riparian management zones and seasonal ponds. This information shall, to the extent possible, be consistent with the monitoring programs identified in section 89A.07. Information gathered on riparian forests and timber harvesting in riparian management zones and seasonal ponds as specified in this subdivision shall be presented to the legislature by February 2001 and in subsequent reports required in section 89A.03, subdivision 6.

Sec. 6. Minnesota Statutes 1998, section 89A.06, is amended to read:

89A.06 [LANDSCAPE-LEVEL FOREST RESOURCE PLANNING AND COORDINATION.]

(1) identification of the landscapes within which long-range strategic planning of forest resources can occur, provided that the landscapes must be delineated based on broadly defined ecological units and existing classification systems, yet recognize existing political and administrative boundaries and planning processes;

(2) a statement of principles and goals for landscape-based forest resource planning; and

(3) identification of a general process by which landscape-based forest resource planning can occur, provided that the process must give considerable latitude to design planning processes that fit the unique needs and resources of each landscape; reflect a balanced consideration of the economic, social, and environmental conditions and needs of each landscape; and interface and establish formats that are compatible with other landscape-based forest resource plans.

Subd. 2. [REGIONAL FOREST RESOURCE COMMITTEES.] To foster landscape-based forest resource planning, the council shall establish regional forest resource committees. Each regional committee must:

(1) include representative interests in a particular region that are committed to and involved in landscape planning and coordination activities;

(2) serve as a forum for landowners, managers, and representative interests to discuss landscape forest resource issues;
(3) identify and implement an open and public process whereby landscape-based strategic planning of forest resources can occur;

(4) integrate its report with existing public and private landscape planning efforts in the region;

(5) facilitate landscape coordination between existing regional landscape planning efforts of land managers, both public and private;

(6) identify and facilitate opportunities for public participation in existing landscape planning efforts in this region;

(7) identify sustainable forest resource goals for the landscape and strategies to achieve those goals; and

(8) provide a regional perspective to the council with respect to council activities.

Subd. 2a. [REGIONAL FOREST COMMITTEE REPORTING.] The council must report annually on the activities and progress made by the regional forest committees established under subdivision 2, including the following:

(1) by December 1, 1999, the regional committee for the council's northeast landscape must complete the identification of draft desired future outcomes, key issues, and strategies for the landscape;

(2) by July 1, 2000, the council must complete assessments for the council's north central and southeast landscape regions;

(3) by July 1, 2001, the regional committees for the north central and southeast landscapes must complete draft desired future outcomes, key issues, and strategies for their respective landscapes; and

(4) the council must establish timelines for additional regional landscape committees and activities as staffing and funding allow.

Subd. 3. [REGIONAL COMMITTEE OFFICERS AND STAFF.] Each regional committee shall elect a chair from among its members. The council chair may appoint a chair from the regional committee participants. The council shall ensure that each regional committee has sufficient staff resources to carry out its mission as defined in this section.

Subd. 4. [REPORT.] Each regional committee must report to the council its work activities and accomplishments.

Sec. 7. Minnesota Statutes 1998, section 89A.07, subdivision 3, is amended to read:

Subd. 3. [EFFECTIVENESS MONITORING.] The commissioner, in cooperation with other research and land management organizations, shall evaluate the effectiveness of practices to mitigate impacts of timber harvesting and forest management activities on the state's forest resources. The council shall provide oversight and program direction for the development and implementation of this monitoring program. The commissioner shall report to the council on the effectiveness of these practices.

Sec. 8. Minnesota Statutes 1998, section 89A.07, subdivision 5, is amended to read:

Subd. 5. [CITIZEN CONCERNS.] The council shall facilitate the establishment of a process to accept comments from the public on negligent timber harvesting or forest management practices. Comments must also be directed to the organization administering the certification program.
Sec. 9. Minnesota Statutes 1998, section 89A.10, is amended to read:

89A.10 [CONTINUING EDUCATION; CERTIFICATION.]

It is the policy of the state to encourage timber harvesters and forest resource professionals to establish voluntary certification and continuing education programs within their respective professions that promote sustainable forest management. The council shall, where appropriate, facilitate the development of these programs.

126C.11 [TRAINING AND EXPERIENCE INDEX.]

The training and experience index for fiscal year 1999 and later must be constructed in the following manner:

(a) The department must construct a matrix that classifies teachers by the extent of training received in accredited institutions of higher education and by the years of experience that districts take into account in determining teacher salaries.

(b) The average salary for each cell of the matrix must be computed as follows using data from fiscal year 1997 the second year of the previous biennium:

(1) For each district, multiply the salary paid to full-time equivalent teachers with that combination of training and experience according to the district's teacher salary schedule by the number of resident pupil units in that district.

(2) Add the amounts computed in clause (1) for all districts in the state and divide the resulting sum by the total number of resident pupil units in all districts in the state that employ teachers.

(c) For each cell in the matrix, compute the ratio of the average salary in that cell to the average salary for all teachers in the state during fiscal year 1997 the second year of the previous biennium.

(d) The index for each district that employs teachers equals the sum of: (i) for teachers employed in that district during fiscal year 1997 and the current fiscal year, the ratios for each teacher computed using data for fiscal year 1997, and (ii) for teachers employed in that district during the current fiscal year but not during fiscal year 1997, the ratio for teachers who are in their first year of teaching and who have no additional credits or degrees above a bachelor's degree divided by the number of teachers in that district. The index for a district that employs no teachers is zero.

(e) For fiscal year 2001 only, the index for each district must be proportionately increased until statewide, the training and experience revenue under section 126C.10, subdivision 5, has been increased by $15,000,000.

(Effective Date: Section 21 (126C.11) is effective for revenue for fiscal year 2002 and later.)"

MOTIONS AND RESOLUTIONS

House Resolution No. 6 was reported to the House.

HOUSE RESOLUTION NO. 6

A house resolution honoring the Veterans of Foreign Wars on the occasion of its Centennial celebration.

Whereas, America's victory in the Spanish American War meant that Cuba was freed from Spanish rule and America rose to become a world power, taking possession of the Philippines, Guam, and Puerto Rico; and

Whereas, after this triumph, however, many U. S. veterans returned home wounded or sick to find that there was no medical care or veterans pensions available to them, leaving them to care for themselves; and

Whereas, seeing a need, many of these veterans banded together to form organizations such as the American Veterans of Foreign Service in Ohio and the Society of the Army of the Philippines in Colorado, which would both later merge with other similar organizations, and by the start of World War I the name "Veterans of Foreign Wars of the United States" was adopted; and
Whereas, the VFW grew rapidly, was instrumental in the creation of what is now called the Department of Veterans Affairs, and today is the nation’s oldest major veterans organization, boasting over 2 million members; and

Whereas, the VFW continues to provide assistance to veterans and their families by helping them to obtain entitlements, working with Congress in writing and passing veterans legislation, and providing such services as: college scholarships through its Voice of Democracy program; disaster relief to flood, hurricane, and earthquake victims; memorials commemorating veterans’ contributions to America; contributing time to numerous volunteer community service projects; raising money for needy veterans; and collecting millions of dollars for cancer research through the Ladies Auxiliary to the VFW; Now, Therefore,

Be It Resolved by the House of Representatives of the State of Minnesota that it extends congratulations to the VFW on its 100th anniversary, and that it recognizes the Veterans of Foreign Wars for its noble and valuable contributions to our nation and its veterans.

Be It Further Resolved that the Chief Clerk of the House of Representatives is directed to prepare an enrolled copy of this resolution, to be authenticated by his signature and that of the Speaker, and transmit it to the Veterans of Foreign Wars national headquarters.

McCollum moved that House Resolution No. 6 be now adopted. The motion prevailed and House Resolution No. 6 was adopted.
