"Sec. 20.  Minnesota Statutes 2004, section 273.13, subdivision 23, is amended to read:

Subd. 23.  [CLASS 2.] (a) Class 2a property is agricultural land including any improvements that is homesteaded.  The market value of the house and garage and immediately surrounding one acre of land has the same class rates as class 1a property under subdivision 22.  The value of the remaining land including improvements up to and including $600,000 market value $750,000 has a net class rate of 0.55 percent of market value.  The remaining property value over $600,000 market value $750,000 has a class rate of one percent of market value.

(b) Class 2b property is (1) real estate, rural in character and used exclusively for growing trees for timber, lumber, and wood and wood products; (2) real estate that is not improved with a structure and is used exclusively for growing trees for timber, lumber, and wood and wood products, if the owner has participated or is participating in a cost-sharing program for afforestation, reforestation, or timber stand improvement on that particular property, administered or coordinated by the commissioner of natural resources; (3) real estate that is nonhomestead agricultural land; or (4) a landing area or public access area of a privately owned public use airport.  Class 2b property has a net class rate of one percent of market value.

(c) Agricultural land as used in this section means contiguous acreage of ten acres or more, used during the preceding year for agricultural purposes. "Agricultural purposes" as used in this section means the raising or cultivation of agricultural products. "Agricultural purposes" also includes enrollment in the Reinvest in Minnesota program under sections 103F.501 to 103F.535 or the federal Conservation Reserve Program as contained in Public Law 99-198 if the property was classified as agricultural (i) under this subdivision for the assessment year 2002 or (ii) in the year prior to its enrollment.  Contiguous acreage on the same parcel, or contiguous acreage on an immediately adjacent parcel under the same ownership, may also qualify as agricultural land, but only if it is pasture, timber, waste, unusable wild land, or land included in state or federal farm programs.  Agricultural classification for property shall be determined excluding the house, garage, and immediately surrounding one acre of land, and shall not be based upon the market value of any residential structures on the parcel or contiguous parcels under the same ownership."
(d) Real estate, excluding the house, garage, and immediately surrounding one acre of land, of less than ten acres which is exclusively and intensively used for raising or cultivating agricultural products, shall be considered as agricultural land.

Land shall be classified as agricultural even if all or a portion of the agricultural use of that property is the leasing to, or use by another person for agricultural purposes.

Classification under this subdivision is not deterministic for qualifying under section 273.111.

The property classification under this section supersedes, for property tax purposes only, any locally administered agricultural policies or land use restrictions that define minimum or maximum farm acreage.

(e) The term "agricultural products" as used in this subdivision includes production for sale of:

(1) livestock, dairy animals, dairy products, poultry and poultry products, fur-bearing animals, horticultural and nursery stock, fruit of all kinds, vegetables, forage, grains, bees, and apiary products by the owner;

(2) fish bred for sale and consumption if the fish breeding occurs on land zoned for agricultural use;

(3) the commercial boarding of horses if the boarding is done in conjunction with raising or cultivating agricultural products as defined in clause (1);

(4) property which is owned and operated by nonprofit organizations used for equestrian activities, excluding racing;

(5) game birds and waterfowl bred and raised for use on a shooting preserve licensed under section 97A.115;

(6) insects primarily bred to be used as food for animals;

(7) trees, grown for sale as a crop, and not sold for timber, lumber, wood, or wood products; and

(8) maple syrup taken from trees grown by a person licensed by the Minnesota Department of Agriculture under chapter 28A as a food processor.

(f) If a parcel used for agricultural purposes is also used for commercial or industrial purposes, including but not limited to:

(1) wholesale and retail sales;

(2) processing of raw agricultural products or other goods;

(3) warehousing or storage of processed goods; and

(4) office facilities for the support of the activities enumerated in clauses (1), (2), and (3),

the assessor shall classify the part of the parcel used for agricultural purposes as class 1b, 2a, or 2b, whichever is appropriate, and the remainder in the class appropriate to its use. The grading, sorting, and packaging of raw agricultural products for first sale is considered an agricultural purpose. A greenhouse or other building where horticultural or nursery products are grown that is also used for the conduct of retail sales must be classified as agricultural if it is primarily used for the growing of horticultural or nursery products from seed, cuttings, or roots and occasionally as a showroom for the retail sale of those products. Use of a greenhouse or building only for the display of already grown horticultural or nursery products does not qualify as an agricultural purpose.
The assessor shall determine and list separately on the records the market value of the homestead dwelling and the one acre of land on which that dwelling is located. If any farm buildings or structures are located on this homesteaded acre of land, their market value shall not be included in this separate determination.

(g) To qualify for classification under paragraph (b), clause (4), a privately owned public use airport must be licensed as a public airport under section 360.018. For purposes of paragraph (b), clause (4), "landing area" means that part of a privately owned public use airport properly cleared, regularly maintained, and made available to the public for use by aircraft and includes runways, taxiways, aprons, and sites upon which are situated landing or navigational aids. A landing area also includes land underlying both the primary surface and the approach surfaces that comply with all of the following:

(i) the land is properly cleared and regularly maintained for the primary purposes of the landing, taking off, and taxiing of aircraft; but that portion of the land that contains facilities for servicing, repair, or maintenance of aircraft is not included as a landing area;

(ii) the land is part of the airport property; and

(iii) the land is not used for commercial or residential purposes.

The land contained in a landing area under paragraph (b), clause (4), must be described and certified by the commissioner of transportation. The certification is effective until it is modified, or until the airport or landing area no longer meets the requirements of paragraph (b), clause (4). For purposes of paragraph (b), clause (4), "public access area" means property used as an aircraft parking ramp, apron, or storage hangar, or an arrival and departure building in connection with the airport.

Sec. 13. Minnesota Statutes 2004, section 3A.02, subdivision 1, is amended to read:

Subdivision 1. [QUALIFICATIONS.] (a) A former legislator is entitled, upon written application to the director, to receive a retirement allowance monthly, if the person:

(1) has either served at least six full years, without regard to the application of section 3A.10, subdivision 2, or has served during all or part of four regular sessions as a member of the legislature, which service need not be continuous;

(2) has attained the normal retirement age;

(3) has retired as a member of the legislature; and

(4) has made all contributions provided for in section 3A.03, has made payments for past service under subdivision 2, or has made payments in lieu of contributions under Minnesota Statutes 1992, section 3A.031, prior to before July 1, 1994.

(b) This paragraph applies to members of the legislature who terminate service as a legislator before July 1, 1997. For service rendered before the beginning of the 1979 legislative session, but not to exceed eight years of service, the retirement allowance is an amount equal to five percent per year of service of that member’s average monthly salary. For service in excess of eight years rendered before the beginning of the 1979 legislative session, and for service rendered after the beginning of the 1979 legislative session, unless the former legislator has legislative service before January 1, 1979, the retirement allowance is an amount equal to 2-1/2 percent per year of service of that member’s average monthly salary.
(c) This paragraph applies to members of the legislature who terminate service as a legislator after June 30, 1997. The retirement allowance is an amount equal to the applicable rate or rates under paragraph (b) per year of service of the member's average monthly salary and adjusted for that person on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent. The adjustment must be calculated by or, alternatively, the adjustment procedure must be specified by, the actuary retained by the Legislative Commission on Pensions and Retirement under section 356.214. The purpose of this adjustment is to ensure that the total amount of benefits that the actuary predicts an individual member will receive over the member's lifetime under this paragraph will be the same as the total amount of benefits the actuary predicts the individual member would receive over the member's lifetime under the law in effect before enactment of this paragraph. If the former legislator has legislative service before January 1, 1979, the person's benefit must include the additional benefit amount in effect on January 1, 1979, and adjusted as otherwise provided in this paragraph.

(d) The retirement allowance accrues beginning with the first day of the month of receipt of the application, but not before age 60, and for the remainder of the former legislator's life, if the former legislator is not serving as a member of the legislature or as a constitutional officer or commissioner as defined in section 352C.021, subdivisions 2 and 3 section 3A.01, subdivision 1c. The annuity does not begin to accrue prior to before the person's retirement as a legislator. No annuity payment may be made retroactive for more than 180 days before the date that the annuity application is filed with the director.

(e) Any member who has served during all or part of four regular sessions is considered to have served eight years as a member of the legislature.

(f) The retirement allowance ceases with the last payment that accrued to the retired legislator during the retired legislator's lifetime, except that the surviving spouse, if any, is entitled to receive the retirement allowance of the retired legislator for the calendar month in which the retired legislator died.

Sec. 14. Minnesota Statutes 2004, section 3A.02, subdivision 1b, is amended to read:

Subd. 1b. [REDUCED RETIREMENT ALLOWANCE.] (a) Upon separation from service after the beginning of the 1981 legislative session, a former member of the legislature who has attained the age set by the board of directors of the Minnesota State Retirement System and who is otherwise qualified in accordance with under subdivision 1 is entitled, upon making written application on forms supplied a form prescribed by the director, to a reduced retirement allowance. The reduced retirement allowance is an amount equal to the retirement allowance specified in subdivision 1, paragraph (b), that is reduced so that the reduced annuity allowance is the actuarial equivalent of the annuity allowance that would be payable if the former member of the legislature deferred receipt of the annuity allowance and the annuity allowance amount was augmented at an annual rate of three percent compounded annually from the date the annuity allowance begins to accrue until age 62.

(b) The age set by the board of directors under paragraph (a) cannot be less an earlier age than the early retirement age under section 352.116, subdivision 1a.

(c) If there is an actuarial cost to the plan of resetting the early retirement age under paragraph (a), the retired legislator is required to pay an additional amount to cover the full actuarial value. The additional amount must be paid in a lump sum within 30 days of the certification of the amount by the executive director.

(d) The executive director of the Minnesota State Retirement System shall report to the Legislative Commission on Pensions and Retirement on the utilization of this provision annually on or before September 1, 2000.
Sec. 15. Minnesota Statutes 2004, section 3A.02, subdivision 3, is amended to read:

Subd. 3. [APPROPRIATION.] The amounts required for payment of retirement allowances provided by this section are appropriated annually to the director from the participation of the legislators retirement plan in the Minnesota postretirement investment fund and shall. The retirement allowance must be paid monthly to the recipients entitled thereto to those retirement allowances.

Sec. 16. Minnesota Statutes 2004, section 3A.02, subdivision 4, is amended to read:

Subd. 4. [DEFERRED ANNUITIES AUGMENTATION.] (a) The deferred annuity retirement allowance of any former legislator must be augmented as provided herein.

(b) The required reserves applicable to the deferred annuity retirement allowance, determined as of the date the benefit begins to accrue using an appropriate mortality table and an interest assumption of six percent, must be augmented from the first of the month following the termination of active service, or July 1, 1973, whichever is later, to the first day of the month in which the annuity allowance begins to accrue, at the following annually compounded rate of five percent per annum compounded annually until January 1, 1981, and thereafter at the rate of three percent per annum compounded annually until January 1 of the year in which the former legislator attains age 55. From that date to the effective date of retirement, the rate is five percent compounded annually, or rates:

(b) The retirement allowance of, or the survivor benefit payable on behalf of, a former member of the legislature who terminated service before July 1, 1997, which is not first payable until after June 30, 1997, must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and tables adopted by the board of directors of the Minnesota State Retirement System and approved by the actuary retained by the Legislative Commission on Pensions and Retirement.

Sec. 17. Minnesota Statutes 2004, section 3A.02, subdivision 5, is amended to read:

Subd. 5. [OPTIONAL ANNUITIES.] (a) The board of directors shall establish an optional retirement annuity in the form of a joint and survivor annuity and an optional retirement annuity in the form of a period certain and life thereafter. Except as provided in paragraph (b), these optional annuity forms must be actuarially equivalent to the normal annuity allowance computed under this section, plus the actuarial value of any surviving spouse benefit otherwise potentially payable at the time of retirement under section 3A.04, subdivision 1. An individual selecting an optional annuity under this subdivision waives and the person's spouse waives any rights to surviving spouse benefits under section 3A.04, subdivision 1.
(b) If a retired legislator selects the joint and survivor annuity option, the retired legislator must receive a normal single-life annuity allowance if the designated optional annuity beneficiary dies before the retired legislator and no reduction may be made in the annuity to provide for restoration of the normal single-life annuity allowance in the event of the death of the designated optional annuity beneficiary.

(b) The refund of contributions as provided in paragraph (a) terminates all rights of a former member of the legislature and the survivors of the former member under this chapter.

(c) Amounts provided to an employee by the employer through a grievance proceeding or a legal settlement are salary only if the settlement is reviewed by the executive director and the amounts are determined by the executive director to be consistent with paragraph (a) and prior determinations.

Sec. 8. Minnesota Statutes 2004, section 353.01, is amended by adding a subdivision to read:

Subd. 17a. [AVERAGE SALARY.] (a) "Average salary," for purposes of calculating a retirement annuity under section 353.29, subdivision 3, means an amount equivalent to the average of the highest salary of the member, police officer, or firefighter, whichever applies, upon which employee contributions were paid for any five successive years of allowable service, based on dates of salary periods as listed on salary deduction reports. Average salary must be based upon all allowable service if this service is less than five years.

   (b) "Average salary" may not include any reduced salary paid during a period in which the employee is entitled to benefit payments from workers' compensation for temporary disability, unless the average salary is higher, including this period.

Sec. 9. Minnesota Statutes 2004, section 353.29, subdivision 3, is amended to read:

Subd. 3. [RETIREMENT ANNUITY FORMULA.] (a) This paragraph, in conjunction with section 353.30, subdivisions 1, 1a, 1b, and 1c, applies to any member who first became a public employee or a member of a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, unless paragraph (b), in conjunction with section 353.30, subdivision 5, produces a higher annuity amount, in which case paragraph (b) will apply. The average
salary as defined in section 353.01, subdivision 2 17a, multiplied by the percent specified in section 356.315, subdivision 3, for each year of allowable service for the first ten years and thereafter by the percent specified in section 356.315, subdivision 4, per year of allowable service and completed months less than a full year for the "basic member," and the percent specified in section 356.315, subdivision 1, for each year of allowable service for the first ten years and thereafter by the percent specified in section 356.315, subdivision 2, per year of allowable service and completed months less than a full year for the "coordinated member," shall determine the amount of the "normal" retirement annuity.

(b) This paragraph applies to a member who has become at least 55 years old and first became a public employee after June 30, 1989, and to any other member whose annuity amount, when calculated under this paragraph and in conjunction with section 353.30, subdivision 5, is higher than it is when calculated under paragraph (a), in conjunction with section 353.30, subdivisions 1, 1a, 1b, and 1c. The average salary, as defined in section 353.01, subdivision 2 17a, multiplied by the percent specified in section 356.315, subdivision 4, for each year of allowable service and completed months less than a full year for a basic member and the percent specified in section 356.315, subdivision 2, per year of allowable service and completed months less than a full year for a coordinated member, shall determine the amount of the normal retirement annuity.

Sec. 10. Minnesota Statutes 2004, section 353.33, subdivision 3, is amended to read:

Subd. 3. [COMPUTATION OF BENEFITS.] This disability benefit is an amount equal to the normal annuity payable to a member who has reached normal retirement age with the same number of years of allowable service and the same average salary, as provided in section 353.01, subdivision 17a, and section 353.29, subdivisions 2 and 3.

A basic member shall receive a supplementary monthly benefit of $25 to age 65 or the five-year anniversary of the effective date of the disability benefit, whichever is later.

If the disability benefits under this subdivision exceed the average salary as defined in section 353.29 353.01, subdivision 2 17a, the disability benefits must be reduced to an amount equal to said the average salary.

Sec. 11. Minnesota Statutes 2004, section 353.651, subdivision 3, is amended to read:

Subd. 3. [RETIREMENT ANNUITY FORMULA.] The average salary as defined in section 353.01, subdivision 2 17a, multiplied by the percent specified in section 356.315, subdivision 6, per year of allowable service determines the amount of the normal retirement annuity. If the member has earned allowable service for performing services other than those of a police officer or firefighter, the annuity representing such that service is must be computed under sections 353.29 and 353.30.

Sec. 12. Minnesota Statutes 2004, section 353.656, subdivision 1, is amended to read:

Subdivision 1. [IN LINE OF DUTY; COMPUTATION OF BENEFITS.] A member of the police and fire plan who becomes disabled and physically unfit to perform duties as a police officer, firefighter, or paramedic as defined under section 353.64, subdivision 10, as a direct result of an injury, sickness, or other disability incurred in or arising out of any act of duty, which has or is expected to render the member physically or mentally unable to perform the duties as a police officer, firefighter, or paramedic as defined under section 353.64, subdivision 10, for a period of at least one year, shall receive disability benefits during the period of such disability. The benefits must be in an amount equal to 60 percent of the "average salary" as defined in section 353.654 353.01, subdivision 2 17a, plus an additional percent specified in section 356.315, subdivision 6, of that average salary for each year of service in excess of 20 years. If the disability under this subdivision occurs before the member has at least five years of allowable service credit in the police and fire plan, the disability benefit must be computed on the "average salary" from which deductions were made for contribution to the police and fire fund.
Sec. 13. Minnesota Statutes 2004, section 354.05, is amended by adding a subdivision to read:

Subd. 13a. [AVERAGE SALARY.] (a) "Average salary," for the purpose of determining the member’s retirement annuity, means the average salary upon which contributions were made for the highest five successive years of formula service credit.

(b) "Average salary" may not include any more than the equivalent of 60 monthly salary payments.

(c) "Average salary" must be based upon all years of formula service credit if this service credit is less than five years.

Sec. 14. Minnesota Statutes 2004, section 354.44, subdivision 6, is amended to read:

Subd. 6. [COMPUTATION OF FORMULA PROGRAM RETIREMENT ANNUITY.] (a) The formula retirement annuity must be computed in accordance with the applicable provisions of the formulas stated in paragraph (b) or (d) on the basis of each member’s average salary under section 354.05, subdivision 13a, for the period of the member’s formula service credit.

For all years of formula service credit, "average salary," for the purpose of determining the member’s retirement annuity, means the average salary upon which contributions were made and upon which payments were made to increase the salary limitation provided in Minnesota Statutes 1971, section 354.511, for the highest five successive years of formula service credit provided, however, that such "average salary" shall not include any more than the equivalent of 60 monthly salary payments. Average salary must be based upon all years of formula service credit if this service credit is less than five years.

(b) This paragraph, in conjunction with paragraph (c), applies to a person who first became a member of the association or a member of a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, unless paragraph (d), in conjunction with paragraph (e), produces a higher annuity amount, in which case paragraph (d) applies. The average salary as defined in paragraph (a) section 354.05, subdivision 13a, multiplied by the following percentages per year of formula service credit shall determine the amount of the annuity to which the member qualifying therefor is entitled:

(c)(i) This paragraph applies only to a person who first became a member of the association or a member of a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, and whose annuity is higher when calculated under paragraph (b), in conjunction with this paragraph than when calculated under paragraph (d), in conjunction with paragraph (e).
(ii) Where any member retires prior to normal retirement age under a formula annuity, the member shall be paid a retirement annuity in an amount equal to the normal annuity provided in paragraph (b) reduced by one-quarter of one percent for each month that the member is under normal retirement age at the time of retirement except that for any member who has 30 or more years of allowable service credit, the reduction shall be applied only for each month that the member is under age 62.

(iii) Any member whose attained age plus credited allowable service totals 90 years is entitled, upon application, to a retirement annuity in an amount equal to the normal annuity provided in paragraph (b), without any reduction by reason of early retirement.

(d) This paragraph applies to a member who has become at least 55 years old and first became a member of the association after June 30, 1989, and to any other member who has become at least 55 years old and whose annuity amount when calculated under this paragraph and in conjunction with paragraph (e), is higher than it is when calculated under paragraph (b), in conjunction with paragraph (c). The average salary, as defined in paragraph (a), section 354.05, subdivision 13a, multiplied by the percent specified by section 356.315, subdivision 4, for each year of service for a basic member and by the percent specified in section 356.315, subdivision 2, for each year of service for a coordinated member shall determine the amount of the retirement annuity to which the member is entitled.

(e) This paragraph applies to a person who has become at least 55 years old and first becomes a member of the association after June 30, 1989, and to any other member who has become at least 55 years old and whose annuity is higher when calculated under paragraph (d) in conjunction with this paragraph than when calculated under paragraph (b), in conjunction with paragraph (c). An employee who retires under the formula annuity before the normal retirement age shall be paid the normal annuity provided in paragraph (d) reduced so that the reduced annuity is the actuarial equivalent of the annuity that would be payable to the employee if the employee deferred receipt of the annuity and the annuity amount were augmented at an annual rate of three percent compounded annually from the day the annuity begins to accrue until the normal retirement age.

(f) No retirement annuity is payable to a former employee with a salary that exceeds 95 percent of the governor's salary unless and until the salary figures used in computing the highest five successive years average salary under paragraph (a) have been audited by the Teachers Retirement Association and determined by the executive director to comply with the requirements and limitations of section 354.05, subdivisions 35 and 35a.

Sec. 15. Minnesota Statutes 2004, section 354A.011, is amended by adding a subdivision to read:

Subd. 7a. [AVERAGE SALARY.] "Average salary," for purposes of computing a normal coordinated program retirement annuity under section 354A.31, subdivision 4 or 4a, means an amount equal to the average salary upon which contributions were made for the highest five successive years of service credit but may not, in any event, include any more than the equivalent of 60 monthly salary payments. Sec. 16. Minnesota Statutes 2004, section 354A.31, subdivision 4, is amended to read:

Subd. 4. [COMPUTATION OF THE NORMAL COORDINATED RETIREMENT ANNUITY; MINNEAPOLIS AND ST. PAUL FUNDS.] (a) This subdivision applies to the coordinated programs of the Minneapolis Teachers Retirement Fund Association and the St. Paul Teachers Retirement Fund Association.

(b) The normal coordinated retirement annuity shall be an amount equal to a retiring coordinated member's average salary under section 354A.011, subdivision 7a, multiplied by the retirement annuity formula percentage. Average salary for purposes of this section shall mean an amount equal to the average salary upon which contributions were made for the highest five successive years of service credit, but which shall not in any event include any more than the equivalent of 60 monthly salary payments. Average salary must be based upon all years of service credit if this service credit is less than five years.
(c) This paragraph, in conjunction with subdivision 6, applies to a person who first became a member or a member in a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, unless paragraph (d), in conjunction with subdivision 7, produces a higher annuity amount, in which case paragraph (d) will apply. The retirement annuity formula percentage for purposes of this paragraph is the percent specified in section 356.315, subdivision 1, per year for each year of coordinated service for the first ten years and the percent specified in section 356.315, subdivision 2, for each year of coordinated service thereafter.

(d) This paragraph applies to a person who has become at least 55 years old and who first becomes a member after June 30, 1989, and to any other member who has become at least 55 years old and whose annuity amount, when calculated under this paragraph and in conjunction with subdivision 7 is higher than it is when calculated under paragraph (c), in conjunction with the provisions of subdivision 6. Average salary for purposes of this section means an amount equal to the average salary upon which contributions were made for the highest five successive years of service credit, but may not in any event include any more than the equivalent of 60 monthly salary payments. Average salary must be based upon all years of service credit if this service credit is less than five years.

(c) This paragraph, in conjunction with subdivision 6, applies to a person who first became a member or a member in a pension fund listed in section 356.30, subdivision 3, before July 1, 1989, unless paragraph (d), in conjunction with subdivision 7, produces a higher annuity amount, in which case paragraph (d) applies. The retirement annuity formula percentage for purposes of this paragraph is the percent specified in section 356.315, subdivision 1, per year for each year of coordinated service for the first ten years and the percent specified in section 356.315, subdivision 2, for each subsequent year of coordinated service.

(e) For a relief association in which the governing bylaws provide for a monthly benefit service pension as an alternative form of service pension payment to a lump sum service pension, the maximum service pension amount for each pension payment type must be determined using the applicable table contained in this subdivision.

(f) If a relief association establishes a service pension in compliance with the applicable maximum contained in paragraph (c) or (d) and the minimum average amount of available financing per active covered firefighter is subsequently reduced because of a reduction in fire state aid or because of an increase in the number of active firefighters, the relief association may continue to provide the prior service pension amount specified in its bylaws, but may not increase the service pension amount until the minimum average amount of available financing per firefighter under the table in paragraph (c) or (d), whichever applies, permits.

(g) No relief association is authorized to provide a service pension in an amount greater than the largest applicable flexible service pension maximum amount even if the amount of available financing per firefighter is greater than the financing amount associated with the largest applicable flexible service pension maximum.

Sec. 11. Minnesota Statutes 2004, section 424A.02, subdivision 4, is amended to read:

Subd. 4. [DEFINED CONTRIBUTION LUMP SUM SERVICE PENSIONS.] (a) If the bylaws governing the relief association so provide exclusively, the relief association may pay a defined contribution lump sum service pension in lieu of any defined benefit service pension governed by subdivision 2.
An individual account for each firefighter who is a member of the relief association shall must be established. To each individual active member account shall must be credited a right to an equal share of: (a) (1) any amounts of fire state aid received by the relief association; (b) (2) any amounts of municipal contributions to the relief association raised from levies on real estate or from other available revenue sources exclusive of fire state aid; and (c) (3) any amounts equal to the share of the assets of the special fund to the credit of: (i) any former member who terminated active service with the fire department to which the relief association is associated prior to before meeting the minimum service requirement provided for in subdivision 1 and has not returned to active service with the fire department for a period no shorter than five years; or (ii) any retired member who retired prior to before obtaining a full nonforfeitable interest in the amounts credited to the individual member account pursuant to under subdivision 2 and any applicable provision of the bylaws of the relief association. In addition, any interest or investment income earned return on the assets of the special fund shall must be credited in proportion to the share of the assets of the special fund to the credit of each individual active member account through the date on which the investment return is recognized by and credited to the special fund.

(c) At the time of retirement pursuant to under subdivision 1 and any applicable provision of the bylaws of the relief association, a retiring member shall be is entitled to that portion of the assets of the special fund to the credit of the member in the individual member account which is nonforfeitable pursuant to under subdivision 2 and any applicable provision of the bylaws of the relief association based on the number of years of service to the credit of the retiring member.

Sec. 12. Minnesota Statutes 2004, section 424A.02, subdivision 7, is amended to read:

Subd. 7. [DEFERRED SERVICE PENSIONS.] (a) A member of a relief association to which this section applies is entitled to a deferred service pension if the member:

(1) has completed the lesser of the minimum period of active service with the fire department specified in the bylaws or 20 years of active service with the fire department;

(2) has completed at least five years of active membership in the relief association; and

(3) separates from active service and membership before reaching age 50 or the minimum age for retirement and commencement of a service pension specified in the bylaws governing the relief association if that age is greater than age 50.

(b) The deferred service pension is payable when the former member reaches age 50, or the minimum age specified in the bylaws governing the relief association if that age is greater than age 50, and when the former member makes a valid written application.

(c) A relief association that provides a lump sum service pension governed by subdivision 3 may, when its governing bylaws so provide, pay interest on the deferred lump sum service pension during the period of deferral. If provided for in the bylaws, interest must be paid in one of the following manners:

(1) at the investment performance rate actually earned on that portion of the assets if the deferred benefit amount is invested by the relief association in a separate account established and maintained by the relief association or if the deferred benefit amount is invested in a separate investment vehicle held by the relief association;

(2) at the interest rate of up to five percent, compounded annually, as set by the board of directors and approved as provided in subdivision 10; or
(3) at a rate equal to the actual time weighted total rate of return investment performance of the special fund as reported by the Office of the State Auditor under section 356.219, up to five percent, compounded annually, and applied consistently for all deferred service pensioners.

(d) A relief association may not use the method provided for in paragraph (c), clause (3), until it has modified its bylaws to be consistent with that clause.

(d) Interest under paragraph (c), clause (2) or (3), is payable from the first day of the month next following the date on which the municipality has approved the deferred service pension interest rate established by the board of trustees or from the first day of the month next following the date on which the member separated from active fire department service and relief association membership, whichever is later, to the last day of the month immediately before the month in which the deferred member becomes eligible to begin receipt of the service pension and applies for the deferred service pension.

(e) A relief association that provides a defined contribution service pension may, if its governing bylaws so provide, credit interest or additional investment performance on the deferred lump sum service pension during the period of deferral. If provided for in the bylaws, the interest must be paid in one of the manners specified in paragraph (c) or alternatively the relief association may credit any investment return on the assets of the special fund of the defined contribution volunteer firefighter relief association in proportion to the share of the assets of the special fund to the credit of each individual deferred member account through the date on which the investment return is recognized by and credited to the special fund.

The actuary shall calculate the expected change in the present value of the future benefits payable from the survivor benefit fund attributable to this article, using the actuarial method and assumptions applicable to the Minneapolis Employees Retirement Fund, from the prior actuarial valuation and shall compare that result with the actual change in the present value of future benefits payable from the survivor benefit fund attributable to this article from the prior actuarial valuation.

(c) The executive director shall assess each participating employer, other than the state of Minnesota, its proportional share of the net increase amount calculated under paragraph (b). The assessment must be made on the first business day of the following February, plus compound interest at an annual rate of six percent on the amount from the actuarial valuation date to the date of payment.

ARTICLE 13
LOCAL RETIREMENT PLANS

Section 1. Minnesota Statutes 2004, section 69.77, subdivision 4, is amended to read:

Subd. 4. [RELIEF ASSOCIATION FINANCIAL REQUIREMENTS; MINIMUM MUNICIPAL OBLIGATION.] (a) The officers of the relief association shall determine the financial requirements of the relief association and minimum obligation of the municipality for the following calendar year in accordance with the requirements of this subdivision. The financial requirements of the relief association and the minimum obligation of the municipality must be determined on or before the submission date established by the municipality under subdivision 5.

(b) The financial requirements of the relief association for the following calendar year must be based on the most recent actuarial valuation or survey of the special fund of the association if more than one fund is maintained by the association, or of the association, if only one fund is maintained, prepared in accordance with sections 356.215, subdivisions 4 to 15, and 356.216, as required under subdivision 10. If an actuarial estimate is prepared by the actuary of the relief association as part of obtaining a modification of the benefit plan of the relief association and the modification is implemented, the actuarial estimate must be used in calculating the subsequent financial requirements of the relief association.

(c) If the relief association has an unfunded actuarial accrued liability as reported in the most recent actuarial valuation or survey, the total of the amounts calculated under clauses (1), (2), and (3), constitute the financial requirements of the relief association for the following year. If the relief association does not have an unfunded actuarial accrued liability as reported in the most recent actuarial valuation or survey, the amount calculated under clauses (1) and (2) constitute the financial requirements of the relief association for the following year. The financial requirement elements are:

(1) the normal level cost requirement for the following year, expressed as a dollar amount, which must be determined by applying the normal level cost of the relief association as reported in the actuarial valuation or survey and expressed as a percentage of covered payroll to the estimated covered payroll of the active membership of the relief association, including any projected change in the active membership, for the following year;

(2) for the Bloomington Fire Department Relief Association, the Fairmont Police Relief Association, and the Virginia Fire Department Relief Association, to the dollar amount of normal cost determined under clause (1) must be added an amount equal to the dollar amount of the administrative expenses of the special fund of the association if more than one fund is maintained by the association, or of the association if only one fund is maintained, for the most recent year, multiplied by the factor of 1.035. The administrative expenses are those authorized under section 69.80. No amount of administrative expenses under this clause are to be included in the financial requirements of the Minneapolis Firefighters Relief Association or the Minneapolis Police Relief Association; and

(3) to the dollar amount of normal cost and expenses determined under clauses (1) and (2) must be added an amount equal to the level annual dollar amount which is sufficient to amortize the unfunded actuarial accrued liability by December 31, 2010, for the Bloomington Fire Department Relief Association, the Fairmont Police Relief Association, the Minneapolis Firefighters Relief Association, and the Virginia Fire Department Relief Association.
and by December 31, 2020, for the Minneapolis Police Relief Association, as determined from the actuarial valuation or survey of the fund, using an interest assumption set at the applicable rate specified in section 356.215, subdivision 8. The amortization date specified in this clause applies to all local police or salaried firefighters’ relief associations and that date supersedes any amortization date specified in any applicable special law.

(d) The minimum obligation of the municipality is an amount equal to the financial requirements of the relief association reduced by the estimated amount of member contributions from covered salary anticipated for the following calendar year and the estimated amounts anticipated for the following calendar year from the applicable state aid program established under sections 69.011 to 69.051 receivable by the relief association after any allocation made under section 69.031, subdivision 5, paragraph (b), clause (2), or 423A.01, subdivision 2, clause (6), from the local police and salaried firefighters’ relief association amortization aid program established under section 423A.02, subdivision 1, from the supplementary amortization state-aid program established under section 423A.02, subdivision 1a, and from the additional amortization state aid under section 423A.02, subdivision 1b.

Sec. 2. Minnesota Statutes 2004, section 356.215, subdivision 8, is amended to read:

The select calculation is:

during the ten-year select period, a designated percent is multiplied by the result of ten minus T, where T is the number of completed years of service, and is added to the applicable future salary increase assumption. The designated percent is 0.2 percent for the correctional state employees retirement plan, the State Patrol retirement plan, the public employees police and fire plan, and the local government correctional service plan; 0.3 percent for the general state employees retirement plan, the general public employees retirement plan, the teachers retirement plan, the Duluth Teachers Retirement Fund Association, and the St. Paul Teachers Retirement Fund Association; and 0.4 percent for the Minneapolis Teachers Retirement Fund Association.
The ultimate future salary increase assumption is:

(b) For the Minneapolis Firefighters Relief Association or the Minneapolis Police Relief Association, the following provisions additionally apply:

(1) in calculating the actuarial balance sheet, unfunded actuarial accrued liability, and amortization contribution of the relief association, "current assets" means the value of all assets at cost, including realized capital gains and losses, plus or minus, whichever applies, the average value of total unrealized capital gains or losses for the most recent three-year period ending with the end of the plan year immediately preceding the actuarial valuation report transmission date; and

Sec. 15. Minnesota Statutes 2004, section 423B.15, subdivision 3, is amended to read:

Subd. 3. [AMOUNT OF ANNUAL POSTRETIRED PAYMENT.] The amount determined under subdivision 2 must be applied in accordance with this subdivision. When the actuarial value of assets of the fund according to the most recent annual actuarial valuation prepared in accordance with sections 356.215 and 356.216 is less than 102 percent of its total actuarial liabilities, the relief association shall apply the first one-half of excess investment income to the payment of an annual postretirement payment as specified in this subdivision and the second one-half of excess investment income up to one-half of one percent of the assets of the fund must be applied to reduce the state amortization state aid or supplementary amortization state aid payments otherwise due to the relief association under section 423A.02 for the current calendar year. When the actuarial value of assets of the fund according to the most recent annual actuarial valuation prepared in accordance with sections 356.215 and 356.216 is less than 102 percent funded and other conditions are met, the relief association shall pay an annual postretirement payment to all eligible members in an amount not to exceed one-half of one percent of the assets of the fund. Payment of the annual postretirement payment may be made only if the average time weighted total rate of return for the most recent prior five two years exceeds by two percent the actual average percentage increase in the current monthly salary of a top grade patrol officer in the most recent prior five two fiscal years. The total amount of all payments to members may not exceed one-half of one percent of the assets of the fund. Payment of the annual postretirement payment must be in a lump sum amount on June 1 following the determination date in any year. The total amount of all payments to members may not exceed the amount determined under this subdivision. Payment to each eligible member must be calculated by dividing the total number of pension units to which eligible members are entitled into the excess investment income available for distribution to members, and then multiplying that result by the number of units to which each eligible member is entitled to determine each eligible member's annual postretirement payment. When the actuarial value of assets of the fund according to the most recent annual actuarial valuation prepared in accordance with sections 356.215 and 356.216 is less than 102 percent of its actuarial accrued liabilities, payment to each eligible member may not exceed

When the actuarial value of assets of the fund according to the most recent annual actuarial valuation prepared in accordance with sections 356.215 and 356.216 is greater than 102 percent of its actuarial accrued liabilities, payment to each eligible member must not exceed the member’s proportionate share of 1-1/2 percent of the assets of the fund.

A person who received a pension or benefit for the entire 12 months before the determination date is eligible for a full annual postretirement payment. A person who received a pension or benefit for less than 12 months before the determination date is eligible for a prorated annual postretirement payment.

Non-service-related disability pension benefits that were recomputed at full 25-year service pensions shall remain in effect.

Sec. 18. [NO REDUCTION OF BENEFITS.]

Once a pension benefit is properly paid in accordance with the laws governing the Minneapolis Police Relief Association to any member, the dollar amount of the pension a member received shall not be reduced if the city of Minneapolis and the collective bargaining agent representing active police officers enter into or are required to abide by an agreement that would otherwise require the association to reduce the dollar amount of a pension that had properly been paid to any member.

(2) for the service rendered after the effective date of the consolidation, the service pension amount is the highest dollar amount service pension of any of the consolidating volunteer firefighters relief associations under the articles of incorporation or bylaws in effect immediately before the consolidation; and

(3) after consolidation, increases in the amounts established in clauses (1) and (2) may be implemented if consistent with applicable requirements of Minnesota Statutes, chapters 69 and 424A.

Sec. 20. [EVELETH RETIRED POLICE AND FIRE TRUST FUND; AD HOC POSTRETIREDMENT ADJUSTMENT.]

(a) In addition to the current pensions and other retirement benefits payable, the pensions and retirement benefits payable to retired police officers and firefighters and their surviving spouses by the Eveleth police and fire trust fund are increased by $100 per month. Increases are retroactive from January 1, 2005.
(b) Following the January 1, 2005, effective date of the benefit increase provided under paragraph (a), every two years thereafter, to be effective no earlier than the applicable January 1, the city council of the city of Eveleth is authorized to provide permanent, uniform benefit increases, not less than $10 per month nor to exceed $100 per month, to any remaining retirees and survivors receiving benefits from the Eveleth police and fire trust fund. Any given benefit improvement under this paragraph is not effective unless the city council passes a resolution approving the increase.

The transfer of the assets from the Maplewood Firefighters Relief Association to the Oakdale Fire Department Relief Association must be in an amount representing the cumulative value of the service credit earned by the members of the Oakdale Fire Department Relief Association who are currently eligible to receive a combined service pension for firefighting service in both associations for the service credit that they accrued while working for the Maplewood Fire Department. The amount of the assets, liabilities, and service credit to be transferred must be specified in a joint agreement negotiated by the secretaries of the two relief associations and ratified by the boards of trustees of both relief associations and of the cities of Maplewood and Oakdale.
