"ARTICLE 4

COUNTY STATE-AID HIGHWAY FUND DISTRIBUTION

Section 1. Minnesota Statutes 2006, section 162.07, subdivision 1, is amended to read:

Subdivision 1. Formula. After deducting for administrative costs and for the disaster account and research account and state park roads as heretofore provided, the remainder of the total sum provided for in section 162.06, subdivision 1, shall be identified as the apportionment sum and shall be apportioned by the commissioner to the several counties on the basis of the needs of the counties as determined in accordance with the following formula:

(a) An amount equal to ten percent of the apportionment sum shall be apportioned equally among the 87 counties.

(b) An amount equal to ten percent of the apportionment sum shall be apportioned among the several counties so that each county shall receive of such amount the percentage that its motor vehicle registration for the calendar year preceding the one last past, determined by residence of registrants, bears to the total statewide motor vehicle registration.

(c) An amount equal to 30 percent of the apportionment sum shall be apportioned among the several counties so that each county shall receive of such amount the percentage that its total lane miles of approved county state-aid highways bears to the total lane miles of approved statewide county state-aid highways. In 1997 and subsequent years no county may receive, as a result of an apportionment under this clause based on lane miles rather than miles of approved county state-aid highways, an apportionment that is less than its apportionment in 1996.

(d) An amount equal to 50 percent of the apportionment sum shall be apportioned among the several counties so that each county shall receive of such amount the percentage that its money needs bears to the sum of the money needs of all of the individual counties; provided, that the percentage of such amount that each county is to receive shall be adjusted so that each county shall receive in 1958 a total apportionment at least ten percent greater than its total 1956 apportionments from the state road and bridge fund; and provided further that those counties whose money needs are thus adjusted shall never receive a percentage of the apportionment sum less than the percentage that such county received in 1958."
