Emmer moved to amend H. F. No. 6, the third engrossment, as amended, as follows:

Page 55, after line 33, insert:

"Sec. 20. Minnesota Statutes 2006, section 122A.40, subdivision 13, is amended to read:

Subd. 13. Immediate discharge. (a) Except as otherwise provided in paragraph (b), a board may discharge a continuing-contract teacher, effective immediately, upon any of the following grounds:

(1) immoral conduct, insubordination, or conviction of a felony;

(2) conduct unbecoming a teacher which requires the immediate removal of the teacher from classroom or other duties;

(3) failure without justifiable cause to teach without first securing the written release of the school board;

(4) gross inefficiency which the teacher has failed to correct after reasonable written notice;

(5) willful neglect of duty; or

(6) continuing physical or mental disability subsequent to a 12 months leave of absence and inability to qualify for reinstatement in accordance with subdivision 12.

For purposes of this paragraph, conduct unbecoming a teacher includes an unfair discriminatory practice described in section 363A.13.

Prior to discharging a teacher under this paragraph, the board must notify the teacher in writing and state its ground for the proposed discharge in reasonable detail. Within ten days after receipt of this notification the teacher may make a written request for a hearing before the board and it shall be granted before final action is taken. The board may, however, suspend a teacher with pay pending the conclusion of the hearing and determination of the issues raised in the hearing after charges have been filed which constitute ground for discharge. If a teacher has been charged with a felony and the underlying conduct that is the subject of the felony charge is a ground for a proposed immediate discharge, the suspension pending the conclusion of the hearing and determination of the issues may be without pay. If a hearing under this paragraph is held, the board must reimburse the teacher for any salary or compensation withheld if the final decision of the board or the arbitrator does not result in a penalty on or suspension, termination, or discharge of the teacher.
(b) A board must discharge a continuing-contract teacher, effective immediately, upon receipt of notice under section 122A.20, subdivision 1, paragraph (b), that the teacher's license has been revoked due to a conviction for child abuse or sexual abuse.

Page 3, after line 34 insert:

"Sec. 3. Minnesota Statutes 2006, section 124D.11, subdivision 4, is amended to read:

Subd. 4. **Building lease aid.** When a charter school finds it economically advantageous to rent or lease a building or land for any instructional purposes and it determines that the total operating capital revenue under section 126C.10, subdivision 13, is insufficient for this purpose, it may apply to the commissioner for building lease aid for this purpose. The commissioner must review and either approve or deny a lease aid application using the following criteria:
(1) the reasonableness of the price based on current market values;

(2) the extent to which the lease conforms to applicable state laws and rules; and

(3) the appropriateness of the proposed lease in the context of the space needs and financial circumstances of the charter school.

A charter school must not use the building lease aid it receives for custodial, maintenance service, utility, or other operating costs. The amount of building lease aid per pupil unit served for a charter school for any year shall not exceed the lesser of (a) 90 percent of the approved cost or (b) the product of the pupil units served for the current school year times the greater of the charter school's building lease aid per pupil unit served for fiscal year 2003, excluding the adjustment under Laws 2002, chapter 392, article 6, section 4, or $1,200 $1,500."

Financial penalty.** If the school board and the exclusive representative of the teachers in a district fail to enter into a contract before the first student contact day or 90 days after the date on which the governor signs the bill providing for elementary and secondary school funding, whichever is later, unless subdivision 2 applies, the school board and the exclusive representative of the teachers must cease negotiating until April 1 of the following calendar year, and the education commissioner must withhold from the district all district general education revenue increases under section 126C.10 that are allowed over the previous fiscal year until the school board and the exclusive representative of the teachers enter into a contract.

Peppin moved to amend H. F. No. 6, the third engrossment, as amended, as follows:

Page 62, after line 35, insert:

"Sec. 28. **ELECTION TO DETACH LAND FOR A NEW SCHOOL DISTRICT.**

Subdivision 1. **Detachment ballot question; school board general election.** The school board of an independent school district may, on its own motion or upon a petition signed by at least 50 electors of the district or ten percent of the votes cast in the most recent school board general election, whichever number is larger, place on the ballot at the next school district general election the question whether, as of the date when a new board can be elected and qualified under subdivision 2, to detach from the school district a clearly and accurately described land area located within the boundaries of the district and, consequently, to classify that detached area as a new independent school district for which the education commissioner must assign an identification number. If the voters approve detaching the described land area and, consequently, classifying that detached area as a new independent school district for which the education commissioner must assign an identification number, then the detachment must be accomplished according to this section.

Subd. 2. **School board elections.** (a) The county auditor of the county that contains the greatest land area for the newly constituted school district and the county auditor of the county that contains the greatest land area for the newly reconstituted school district must determine a date, not less than 30 nor more than 60 days after the voters approve the detachment ballot question under subdivision 1, to hold a special election in the district for the purpose of electing a board of six members for terms of four years and until successors are elected and qualified under the applicable provisions in chapter 205A. The provisions of section 123A.48, subdivision 20, paragraphs (a) to (e), governing school board elections in consolidating districts shall apply to the newly constituted and newly reconstituted districts under this section.

(b) Notwithstanding any law to the contrary, the terms of the board members of the school district from which land is being detached continue until the first school board members are elected and qualified under this subdivision.

(c) Notwithstanding any law to the contrary, an individual may serve on the school board of the school district from which land is being detached and subsequently, if a resident of the district, on a school board elected and qualified under this subdivision."
Subd. 3. Tax liability for existing bonded debt. All taxable property in the area detached under subdivision 1 remains obligated for any bonded debt of the school district from which the property was detached and to which that detached property was subject before the date of the detachment. In addition, all taxable property in a newly classified district is taxable for payment of school district obligations authorized on or after the date of the detachment by the school board or the voters of that school district.

Subd. 4. Current assets and liabilities; distribution of assets; real property. (a) If the voters approve detachment under subdivision 1, the commissioner shall issue an order for dividing and distributing the current assets and liabilities, real and personal, and the legally valid and enforceable claims and contractual obligations of the school district from which the property was detached, so that the two newly classified districts can independently operate.

(b) The commissioner's order under paragraph (a) must transfer the real property interests from the school district subject to the detachment to the two newly classified districts. The commissioner must determine the distribution of and the amount, if any, paid for the real property. The commissioner's order may impose in favor of one of the two newly classified districts a specified dollar amount as a claim against the other newly classified district receiving real property interests under the order. The claim must be paid and enforced according to the law governing payment of judgments against a school district.

Subd. 5. Licensed and nonlicensed employees. (a) The obligations of both newly classified districts to licensed employees are governed by section 123A.75.

(b) The nonlicensed employees of the school district from which the property was detached under subdivision 1 may apply to remain in the newly reconstituted district or may apply to move to the newly constituted district. Subdivision 1. School boards may require fees. (a) For purposes of this subdivision, "home school" means a home school as defined in sections 120A.22 and 120A.24 with five or fewer students receiving instruction."
(b) A school board is authorized to require payment of fees in the following areas:

(1) in any program where the resultant product, in excess of minimum requirements and at the pupil's option, becomes the personal property of the pupil;

(2) admission fees or charges for extracurricular activities, where attendance is optional and where the admission fees or charges a student must pay to attend or participate in an extracurricular activity is the same for all students, regardless of whether the student is enrolled in a public or a home school;

(3) a security deposit for the return of materials, supplies, or equipment;

(4) personal physical education and athletic equipment and apparel, although any pupil may personally provide it if it meets reasonable requirements and standards relating to health and safety established by the board;

(5) items of personal use or products that a student has an option to purchase such as student publications, class rings, annuals, and graduation announcements;

(6) fees specifically permitted by any other statute, including but not limited to section 171.05, subdivision 2; provided (i) driver education fees do not exceed the actual cost to the school and school district of providing driver education, and (ii) the driver education courses are open to enrollment to persons between the ages of 15 and 18 who reside or attend school in the school district;

Subd. 4. Board control of extracurricular activities. (a) The board may take charge of and control all extracurricular activities of the teachers and children of the public schools in the district. Extracurricular activities means all direct and personal services for pupils for their enjoyment that are managed and operated under the guidance of an adult or staff member. The board shall allow all resident pupils receiving instruction in a home school as defined in section 123B.36, subdivision 1, paragraph (a), and all resident pupils receiving instruction in a charter school as defined in section 124D.10 to be eligible to fully participate in extracurricular activities on the same basis as public school students enrolled in the district’s schools. A charter school student must give the enrolling charter school and the resident school district at least a 30-day notice of the student’s intent to participate in an extracurricular activity in the resident district. Before a charter school student begins participating in an extracurricular activity in the resident district, the charter school must agree in writing to pay the direct and indirect costs attributable to that student that the district may charge to the charter school under paragraph (f). A charter school student is not eligible to participate in an extracurricular activity in the resident district if that extracurricular activity is offered by the enrolling charter school or the extracurricular activity is not controlled by the high school league under chapter 128C. Charter school students participating in extracurricular activities must meet the academic and student conduct requirements of the resident district. The charter school must:

(1) collect the same information that a district collects on a student's eligibility to participate in an extracurricular activity;

(2) transmit that information to the district at least ten days before a student begins to participate in the extracurricular activity; and

(3) immediately transmit to the district any additional information affecting the student's eligibility.

(b) Extracurricular activities have all of the following characteristics:

(1) they are not offered for school credit nor required for graduation;

(2) they are generally conducted outside school hours, or if partly during school hours, at times agreed by the participants, and approved by school authorities;

(3) the content of the activities is determined primarily by the pupil participants under the guidance of a staff member or other adult.

(c) If the board does not take charge of and control extracurricular activities, these activities shall be self-sustaining with all expenses, except direct salary costs and indirect costs of the use of school facilities, met by dues, admissions, or other student fund-raising events. The general fund must reflect only those salaries directly related to and readily identified with the activity and paid by public funds. Other revenues and expenditures for extracurricular activities must be recorded according to the Manual for Activity Fund Accounting. Extracurricular activities not under board control must have an annual financial audit and must also be audited annually for compliance with this section.

(d) If the board takes charge of and controls extracurricular activities, any or all costs of these activities may be provided from school revenues and all revenues and expenditures for these activities shall be recorded in the same manner as other revenues and expenditures of the district.
(e) If the board takes charge of and controls extracurricular activities, the teachers or pupils in the district must not participate in such activity, nor shall the school name or any allied name be used in connection therewith, except by consent and direction of the board.

(f) School districts may charge charter schools their proportional share of the direct and indirect costs of the extracurricular activities that are not covered by student fees under section 123B.36, subdivision 1, ticket revenues, fund-raising efforts, sponsorships, or other income generated for those activities for which the charter school is charged. A district may charge charter school students the same fees it charges enrolled students to participate in an extracurricular activity. All charges to a charter school and charter school students must be paid when the charter school students are selected to participate in the activity. A district is not required to provide transportation from the charter school to the resident district for a charter school student who participates in an extracurricular activity in the resident district.
