If a license is issued during this moratorium, and the license holder changes the license holder's primary residence away from the physical location of the foster care license, the commissioner shall revoke the license according to section 245A.07. The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. When approving an exception under this paragraph, the commissioner shall consider the resource need determination process in paragraph (h), the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of a person's choices during their annual assessment and service plan review, and the recommendation of the local county board. (4) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for persons requiring hospital level care;

(6) new foster care licenses or community residential setting licenses determined to be needed by the commissioner for the transition of people from the residential care waiver services to foster care services. This exception applies only when:

(i) the person's case manager provided the person with information about the choice of service, service provider, and location of service to help the person make an informed choice; and

(ii) the person's foster care services are less than or equal to the cost of the person's services delivered in the residential care waiver service setting as determined by the lead agency; ~~or~~

A license holder subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, ~~2018~~ 2019. (i) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and

(ii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the unlicensed setting as determined by the lead agency; ~~or~~

(8) a vacancy in a setting granted an exception under clause (7), may receive an exception created by a person receiving services under chapter 245D and residing in the unlicensed setting between January 1, 2017, and May 1, 2017, for which a vacancy occurs between January 1, 2017, and the date of the exception request. This exception is available when the lead agency provides documentation to the commissioner on the eligibility criteria being met. This exception is available until June 30, 2019.

(b) The commissioner shall determine the need for newly licensed foster care homes or community residential settings as defined under this subdivision. As part of the determination, the commissioner shall consider the availability of foster care capacity in the area in which the licensee seeks to operate, and the recommendation of the local county board. The determination by the commissioner must be final. A determination of need is not required for a change in ownership at the same address.

(c) When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to section 256B.49, subdivision 15, paragraph (f), or the adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for adult foster care settings.

(d) Residential settings that would otherwise be subject to the decreased license capacity established in paragraph (c) shall be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.

(e) A resource need determination process, managed at the state level, using the available reports required by section 144A.351, and other data and information shall be used to determine where the reduced capacity determined under section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including seeking proposals from service providers or lead agencies to change service type, capacity, or location to improve services, increase the independence of residents, and better meet needs identified by the long-term services and supports reports and statewide data and information.

(f) At the time of application and reapplication for licensure, the applicant and the license holder that are subject to the moratorium or an exclusion established in paragraph (a) are required to inform the commissioner whether the physical location where the foster care will be provided is or will be the primary residence of the license holder for the entire period of licensure. If the primary residence of the applicant or license holder changes, the applicant or license holder must notify the commissioner immediately. The commissioner shall print on the foster care license certificate whether or not the physical location is the primary residence of the license holder.

(g) License holders of foster care homes identified under paragraph (f) that are not the primary residence of the license holder and that also provide services in the foster care home that are covered by a federally approved home and community-based services waiver, as authorized under section 256B.0915, 256B.092, or 256B.49, must inform the human services licensing division that the license holder provides or intends to provide these waiver-funded services.

(h) The commissioner may adjust capacity to address needs identified in section 144A.351. Under this authority, the commissioner may approve new licensed settings or delicense existing settings. Delicensing of settings will be accomplished through a process identified in section 256B.493. Annually, by August 1, the commissioner shall provide information and data on capacity of licensed long-term services and supports, actions taken under the subdivision to manage statewide long-term services and supports resources, and any recommendations for change to the legislative committees with jurisdiction over the health and human services budget.

(i) The commissioner must notify a license holder when its corporate foster care or community residential setting licensed beds are reduced under this section. The notice of reduction of licensed beds must be in writing and delivered to the license holder by certified mail or personal service. The notice must state why the licensed beds are reduced and must inform the license holder of its right to request reconsideration by the commissioner. The license holder's request for reconsideration must be in writing. If mailed, the request for reconsideration must be postmarked and sent to the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds. If a request for reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

(j) The commissioner shall not issue an initial license for children's residential treatment services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter for a program that Centers for Medicare and Medicaid Services would consider an institution for mental diseases. Facilities that serve only private pay clients are exempt from the moratorium described in this paragraph. The commissioner has the authority to manage existing statewide capacity for children's residential treatment services subject to the moratorium under this paragraph and may issue an initial license for such facilities if the initial license would not increase the statewide capacity for children's residential treatment services subject to the moratorium under this paragraph."

No offices may be voted on at a mail election-, except in overlapping school and municipality jurisdictions, where a mail election may include an office when one of the jurisdictions also has a question on the ballot. Notice of the election must be given to the county auditor at least 74 days prior to the election. This notice shall also fulfill the requirements of Minnesota Rules, part 8210.3000. The special mail ballot procedures must be posted at least six weeks prior to the election. Not more than 46 nor later than 14 days prior to the election, the auditor or clerk shall mail ballots by nonforwardable mail to all voters registered in the county, municipality, or school district. No later than 14 days before the election, the auditor or clerk must make a subsequent mailing of ballots to those voters who register to vote after the initial mailing but before the 20th day before the election. Eligible voters not registered at the time the ballots are mailed may apply for ballots pursuant to chapter 203B. The auditor or clerk must appoint a ballot board to examine the mail and absentee ballot return envelopes and mark them "Accepted" or "Rejected" within three days of receipt if there are 14 or fewer days before election day, or within five days of receipt if there are more than 14 days before election day. The board may consist of deputy county auditors, deputy municipal clerks, or deputy school district clerks who have received training in the processing and counting of mail ballots, who need not be affiliated with a major political party. Election judges performing the duties in this section must be of different major political parties, unless they are exempt from that requirement under section 205.075, subdivision 4, or section 205A.10. If an envelope has been rejected at least five days before the election, the ballots in the envelope must remain sealed and the auditor or clerk must provide the voter with a replacement ballot and return envelope in place of the spoiled ballot. If the ballot is rejected within five days of the election, the envelope must remain sealed and the official in charge of the ballot board must attempt to contact the voter by telephone or e-mail to notify the voter that the voter's ballot has been rejected. The official must document the attempts made to contact the voter.

If the ballot is accepted, the county auditor or municipal clerk must mark the roster to indicate that the voter has already cast a ballot in that election. After the close of business on the seventh day before the election, the ballots from return envelopes marked "Accepted" may be opened, duplicated as needed in the manner provided by section 206.86, subdivision 5, initialed by the ballot board, and deposited in the appropriate ballot box.

In all other respects, the provisions of the Minnesota Election Law governing deposit and counting of ballots apply.

Sec. 10. Minnesota Statutes 2016, section 204C.21, subdivision 1, is amended to read:

Subdivision 1. **Method.** The election judges shall take all the ballots of the same kind and count the votes cast for each office or question, beginning with the first office or question on the ballot. They shall make one pile of the ballots for each candidate who received votes for that office, or one pile for the "Yes" votes and one pile for the "No" votes on a question. They shall make a pile of totally defective ballots and a pile of totally blank ballots. They shall make a pile of ballots that are not totally defective but are defective with respect to the office or question being counted and a pile of ballots that are not totally blank but are blank with respect to the office or question being counted. After the separation into piles, the election judges shall examine each pile and remove and place in the proper pile any ballots that are found in the wrong pile. The election judges shall count the totally blank and totally defective ballots and set them aside until the counting is over for that ballot. In conducting the count of blank ballots, election judges may presume that the total count provided for prepackaged ballots is correct. The election judges may pile ballots crosswise in groups of 25 in the same pile to facilitate counting. When their counts agree, the election judges shall announce the number of ballots in each pile, and shall write the number in the proper place on the summary statements.

The election judges shall then return all the counted ballots, and all the partially defective or partially blank ballots, to the original pile to be separated and counted in the same manner for the next office or question.

Sec. 11. Minnesota Statutes 2016, section 204C.24, subdivision 1, is amended to read:

Subdivision 1. **Information requirements.** Precinct summary statements shall be submitted by the election judges in every precinct. For all elections, the election judges shall complete three or more copies of the summary statements, and each copy shall contain the following information for each kind of ballot:

(1) the number of ballots delivered to the precinct as adjusted by the actual count made by the election judges, the number of unofficial ballots made, and the number of absentee ballots delivered to the precinct;

(2) the number of votes each candidate received or the number of yes and no votes on each question, the number of undervotes, the number of overvotes, and the number of defective ballots with respect to each office or question;

(3) the number of spoiled ballots, the number of duplicate ballots made, the number of absentee ballots rejected, and the number of unused ballots, presuming that the total count provided on each package of unopened prepackaged ballots is correct;

(4) the number of voted ballots indicating only a voter's choices as provided by section 206.80, paragraph (b), clause (3);

(5) the number of individuals who voted at the election in the precinct which must equal the total number of ballots cast in the precinct, as required by sections 204C.20 and 206.86, subdivision 1;

~~(5)~~ (6) the number of voters registering on election day in that precinct; and

~~(6)~~ (7) the signatures of the election judges who counted the ballots certifying that all of the ballots cast were properly piled, checked, and counted; and that the numbers entered by the election judges on the summary statements correctly show the number of votes cast for each candidate and for and against each question.

At least two copies of the summary statement must be prepared for elections not held on the same day as the state elections.

Sec. 12. Minnesota Statutes 2016, section 204C.36, subdivision 1, is amended to read:

Subdivision 1. **Publicly funded recounts.** (a) Except as provided in paragraphs (b) and (c), a losing candidate for nomination or election to a county, municipal, or school district office may request a recount of the votes cast for the nomination or election to that office if the difference between the vote cast for that candidate and for a winning candidate for nomination or election is less than one-quarter of one percent of the total votes counted for that office. In case of offices where two or more seats are being filled from among all the candidates for the office, the one-quarter of one percent difference is between the elected candidate with the fewest votes and the candidate with the most votes from among the candidates who were not elected.

(b) A losing candidate for nomination or election to a county, municipal, or school district office may request a recount of the votes cast for nomination or election to that office if the difference between the votes cast for that candidate and for a winning candidate for nomination or election is less than one-half of one percent, and the total number of votes cast for the nomination or election of all candidates is more than 400 but less than 50,000. In cases of offices where two or more seats are being filled from among all the candidates for the office, the one-half of one percent difference is between the elected candidate with the fewest votes and the candidate with the most votes from among the candidates who were not elected.

(c) A losing candidate for nomination or election to a county, municipal, or school district office may request a recount of the votes cast for nomination or election to that office if the difference between the vote cast for that candidate and for a winning candidate for nomination or election is ten votes or less, and the total number of votes cast for the nomination or election of all candidates is no more than 400. In cases of offices where two or more seats are being filled from among all the candidates for the office, the ten vote difference is between the elected candidate with the fewest votes and the candidate with the most votes from among the candidates who were not elected.

(d) Candidates for county offices shall file a written request for the recount with the county auditor. Candidates for municipal or school district offices shall file a written request with the municipal or school district clerk as appropriate. All requests under this paragraph shall be filed ~~by~~ between the close of the canvass of a primary or special primary and 5:00 p.m. on the fifth day after the canvass of a primary or special primary or ~~by~~ between the close of the canvass of a special or general election and 5:00 p.m. on the seventh day of the canvass of a special or general election for which a recount is sought.

(e) Upon receipt of a request made pursuant to this section, the county auditor shall recount the votes for a county office at the expense of the county, the governing body of the municipality shall recount the votes for a municipal office at the expense of the municipality, and the school board of the school district shall recount the votes for a school district office at the expense of the school district.

Subd. 2. **Executive agency appropriations; targeted reductions; transfer.** (a) By October 31, 2018, the commissioner of management and budget must, with the approval of the governor and after consulting the Legislative Advisory Commission, reduce general fund appropriations for executive agency operating expenditures by \$10,000,000 for the biennium ending June 30, 2019. In making reductions, the commissioner must prioritize reductions to any increased central operating or administrative expenses within an agency that resulted from the enactment of operating adjustments for that agency for the biennium ending June 30, 2019, compared to appropriations enacted for the agency for the biennium ending June 30, 2017. The commissioner must not reduce appropriations for client-facing health care, corrections, public safety, mental health programs, or other services that are provided directly to members of the public.

(b) By June 30, 2018, the commissioner of management and budget must transfer \$10,000,000 from the general fund to the driver services operating account in the special revenue fund.

Subd. 3. **Project schedule; performance measures.** (a) By the first business day after 21 days following the effective date of this section, the commissioner of management and budget, in consultation with the commissioner of public safety and the state chief information officer, must (1) establish a project schedule for the driver and vehicle information system known as the Minnesota Licensing and Registration System (MNLARS), with specific deadlines and milestones and based on the MNLARS Project Roadmap proposed in January 2018, and (2) develop performance measures for the MNLARS project.

(b) At a minimum, the performance measures must provide specific metrics to monitor MNLARS development and implementation activities, including measures of:

- (1) the extent to which MNLARS defects have been resolved;
- (2) the extent to which gaps in MNLARS functionality have been resolved;

(c) The commissioner must submit the performance measures to the members and staff of the legislative committees with jurisdiction over transportation policy and finance, state government finance, and technology and responsive government.

(d) The performance measures under this subdivision are not administrative rules and are not subject to Minnesota Statutes, chapter 14.

Subd. 4. Progress reporting. (a) On a monthly basis, the commissioner of public safety and the state chief information officer must jointly provide progress reports on the Minnesota Licensing and Registration System (MNLARS) project. (2) an overview of project activity during the preceding month and the total amount spent on each activity;

(3) information on project staffing and contractors including, separately, the amount spent for state employees and the amount spent for private contractors in the preceding month, itemized by the number of employees and contractors, the duties of each related to the project, and the agency responsible for their work;

(4) a summary of any new challenges or risks that were identified in the preceding month;

(5) a summary of any additional or unexpected costs that were identified in the preceding month, including a detailed explanation of the costs and why the costs had not been identified previously, the source and an itemization of funds expected to be used to cover the costs, and the specific steps taken to reduce costs in other project activities to ensure the overall project cost remains within the budget appropriated by law;

(6) details on the status for each performance measure established under subdivision 3; and

(7) a clear statement, signed separately by the commissioner and the state chief information officer, that certifies whether, as of the time of the report, the project is on schedule and within the budget appropriated by law, and that includes the following: "I affirm that the statements submitted to the Legislature in this document are complete and truthful to the best of my knowledge."

(b) The commissioner of management and budget must submit each progress report under paragraph (a) to the chairs, ranking minority members, and staff of the legislative committees with jurisdiction over transportation policy and finance, state government finance, and technology and responsive government.

(b) The request for information must solicit advice on procuring a replacement driver and vehicle information system that:

(1) is cost-effective, reliable, consumer- and user-friendly, and implemented in a timely manner; and

(2) contains functionality that substantially matches the functionality and features of the legacy information technology system in place prior to initial implementation of MNLARS.

(c) The request for information must be designed to obtain implementation information that includes:

(1) feasibility, costs, and a preliminary estimated timeline or schedule for implementation;

(2) a breakdown of costs and implementation timelines between driver services and vehicle services functionality, including costs of integrating a vehicle services information system with a separately developed driver services information system; and

(3) capacity and experience of a potential vendor.

(d) The request for information under this section must be published in the state register and on the Web site of the Department of Administration at least 14 days prior to closing. The request must otherwise be administered according to the requirements of Minnesota Statutes, chapter 16C, to the extent applicable, provided that a vendor's submission does not constitute a response to a solicitation, as defined in Minnesota Statutes, section 16C.02, subdivision 14, and may not be used by the commissioner to enter a contract unless the terms of the submission are later included in a vendor's response to a formal solicitation, as defined in Minnesota Statutes, section 16C.02, subdivision 7.

(e) No later than August 1, 2018, the commissioner must submit a report to the chairs, ranking minority members, and staff of the legislative committees with jurisdiction over transportation policy and finance, state government finance, and technology and responsive government, that summarizes the responses received from qualified vendors under this section.

This written statement must be treated in the same manner as the votes of the members present at the meeting. The notice must be submitted to all members prior to the start of the meeting where the vote will take place.

(e) The Legislative Coordinating Commission must provide meeting space and administrative services for the committee.

(1) a proposed progress timeline for the development and implementation of MNLARS that includes specific deadlines and performance measures that must be met quarterly;

Subd. 5. **Review of MNLARS appropriation.** (a) Funds appropriated to the Department of Public Safety for MNLARS are divided into four equal quarters. The commissioner must allot a quarter of the funds on July 1, October 1, January 1, and April 1, unless directed otherwise by the committee as provided in this section. Twenty days prior to the start of a quarter, the commissioner must submit the proposed funding allotment to the members of the committee for review and recommendation. The commissioner of public safety and the state chief information officer must provide information to the committee to enable the committee members to determine whether the deadlines and performance measures have been met for the quarter. The committee members have 20 days from the receipt of the proposal to determine whether the Department of Public Safety and the Office of MN.IT Services have met the deadlines and performance measures established in subdivision 4. If no recommendation is made during the 20-day review period, the commissioner may allot the quarterly funds to the Department of Public Safety for MNLARS. If a majority of the committee members make a negative recommendation based on the failure to meet deadlines or performance measures or recommend further review to determine whether deadlines and performance measures have been met during the 20-day review period, the committee may defer all future payments, slow the next allotment, or condition the next allotment. Accordingly, the commissioner must defer, slow, or condition the quarterly funds to the Department of Public Safety for MNLARS.

(b) A committee member, by written notice to the commissioner, may withdraw a negative recommendation or a recommendation for further review within 20 days of making the recommendation. (c) If a quarterly allotment is not made pursuant to paragraph (a), the commissioner must allot to the Department of Public Safety an amount sufficient to fund an additional 30 days for contracted technical staff working on MNLARS. If negative recommendations or recommendations for further review are withdrawn pursuant to paragraph (b) after the partial allotment is made under this paragraph, the commissioner must allot the remainder of the quarterly allotment.

Subd. 6. **Resubmission of proposal.** If a proposed allotment receives a negative recommendation or a recommendation for further review under subdivision 3, and all of the negative recommendations and recommendations for further review are not withdrawn, the commissioner may submit proposed legislation to the chairs of the house of representatives Ways and Means Committee and the senate Finance Committee for consideration during the 2019 legislative session.

EFFECTIVE DATE. This section is effective the day following final enactment and applies to any fiscal year 2019 appropriation for MNLARS in this act or any subsequent act.
