COMMUNITY SUPPORTS AND CONTINUING CARE

Section 1. Minnesota Statutes 2017 Supplement, section 245A.03, subdivision 7, is amended to read:

Subd. 7. **Licensing moratorium.** (a) The commissioner shall not issue an initial license for child foster care licensed under Minnesota Rules, parts 2960.3000 to 2960.3340, or adult foster care licensed under Minnesota Rules, parts 9555.5105 to 9555.6265, under this chapter for a physical location that will not be the primary residence of the license holder for the entire period of licensure. If a license is issued during this moratorium, and the license holder changes the license holder's primary residence away from the physical location of the foster care license, the commissioner shall revoke the license according to section 245A.07. The commissioner shall not issue an initial license for a community residential setting licensed under chapter 245D. When approving an exception under this paragraph, the commissioner shall consider the resource need determination process in paragraph (h), the availability of foster care licensed beds in the geographic area in which the licensee seeks to operate, the results of a person's choices during their annual assessment and service plan review, and the recommendation of the local county board. The determination by the commissioner is final and not subject to appeal. Exceptions to the moratorium include:

(1) foster care settings that are required to be registered under chapter 144D;

(2) foster care licenses replacing foster care licenses in existence on May 15, 2009, or community residential setting licenses replacing adult foster care licenses in existence on

December 31, 2013, and determined to be needed by the commissioner under paragraph (b);

(3) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for the closure of a nursing facility, ICF/DD, or regional treatment center; restructuring of state-operated services that limits the capacity of state-operated facilities; or allowing movement to the community for people who no longer require the level of care provided in state-operated facilities as provided under section 256B.092, subdivision 13, or 256B.49, subdivision 24;

(4) new foster care licenses or community residential setting licenses determined to be needed by the commissioner under paragraph (b) for persons requiring hospital level care;

(5) new foster care licenses or community residential setting licenses determined to be needed by the commissioner for the transition of people from personal care assistance to the home and community-based services;

(6) new foster care licenses or community residential setting licenses determined to be needed by the commissioner for the transition of people from the residential care waiver services to foster care services. This exception applies only when:

(i) the person's case manager provided the person with information about the choice of service, service provider, and location of service to help the person make an informed choice; and

(ii) the person's foster care services are less than or equal to the cost of the person's services delivered in the residential care waiver service setting as determined by the lead agency; ~~or~~

(7) new foster care licenses or community residential setting licenses for people receiving services under chapter 245D and residing in an unlicensed setting before May 1, 2017, and for which a license is required. This exception does not apply to people living in their own home. For purposes of this clause, there is a presumption that a foster care or community residential setting license is required for services provided to three or more people in a dwelling unit when the setting is controlled by the provider. A license holder subject to this exception may rebut the presumption that a license is required by seeking a reconsideration of the commissioner's determination. The commissioner's disposition of a request for reconsideration is final and not subject to appeal under chapter 14. The exception is available until June 30, 2018 2019. This exception is available when:

(i) the person's case manager provided the person with information about the choice of service, service provider, and location of service, including in the person's home, to help the person make an informed choice; and

(ii) the person's services provided in the licensed foster care or community residential setting are less than or equal to the cost of the person's services delivered in the unlicensed setting as determined by the lead agency; or

(8) a vacancy in a setting granted an exception under clause (7), created between January 1, 2017, and the date of the exception request, by the departure of a person receiving services under chapter 245D and residing in the unlicensed setting between January 1, 2017, and May 1, 2017. This exception is available when the lead agency provides documentation to the commissioner on the eligibility criteria being met. This exception is available until June 30, 2019.

(b) The commissioner shall determine the need for newly licensed foster care homes or community residential settings as defined under this subdivision. As part of the determination, the commissioner shall consider the availability of foster care capacity in the area in which the licensee seeks to operate, and the recommendation of the local county board. The determination by the commissioner must be final. A determination of need is not required for a change in ownership at the same address.

(c) When an adult resident served by the program moves out of a foster home that is not the primary residence of the license holder according to section 256B.49, subdivision 15, paragraph (f), or the adult community residential setting, the county shall immediately inform the Department of Human Services Licensing Division. The department may decrease the statewide licensed capacity for adult foster care settings.

(d) Residential settings that would otherwise be subject to the decreased license capacity established in paragraph (c) shall be exempt if the license holder's beds are occupied by residents whose primary diagnosis is mental illness and the license holder is certified under the requirements in subdivision 6a or section 245D.33.

(e) A resource need determination process, managed at the state level, using the available reports required by section 144A.351, and other data and information shall be used to determine where the reduced capacity determined under section 256B.493 will be implemented. The commissioner shall consult with the stakeholders described in section 144A.351, and employ a variety of methods to improve the state's capacity to meet the informed decisions of those people who want to move out of corporate foster care or community residential settings, long-term service needs within budgetary limits, including

4.1 seeking proposals from service providers or lead agencies to change service type, capacity,
4.2 or location to improve services, increase the independence of residents, and better meet
4.3 needs identified by the long-term services and supports reports and statewide data and
4.4 information.

4.5 (f) At the time of application and reapplication for licensure, the applicant and the license
4.6 holder that are subject to the moratorium or an exclusion established in paragraph (a) are
4.7 required to inform the commissioner whether the physical location where the foster care
4.8 will be provided is or will be the primary residence of the license holder for the entire period
4.9 of licensure. If the primary residence of the applicant or license holder changes, the applicant
4.10 or license holder must notify the commissioner immediately. The commissioner shall print
4.11 on the foster care license certificate whether or not the physical location is the primary
4.12 residence of the license holder.

4.13 (g) License holders of foster care homes identified under paragraph (f) that are not the
4.14 primary residence of the license holder and that also provide services in the foster care home
4.15 that are covered by a federally approved home and community-based services waiver, as
4.16 authorized under section 256B.0915, 256B.092, or 256B.49, must inform the human services
4.17 licensing division that the license holder provides or intends to provide these waiver-funded
4.18 services.

4.19 (h) The commissioner may adjust capacity to address needs identified in section
4.20 144A.351. Under this authority, the commissioner may approve new licensed settings or
4.21 delicense existing settings. Delicensing of settings will be accomplished through a process
4.22 identified in section 256B.493. Annually, by August 1, the commissioner shall provide
4.23 information and data on capacity of licensed long-term services and supports, actions taken
4.24 under the subdivision to manage statewide long-term services and supports resources, and
4.25 any recommendations for change to the legislative committees with jurisdiction over the
4.26 health and human services budget.

4.27 (i) The commissioner must notify a license holder when its corporate foster care or
4.28 community residential setting licensed beds are reduced under this section. The notice of
4.29 reduction of licensed beds must be in writing and delivered to the license holder by certified
4.30 mail or personal service. The notice must state why the licensed beds are reduced and must
4.31 inform the license holder of its right to request reconsideration by the commissioner. The
4.32 license holder's request for reconsideration must be in writing. If mailed, the request for
4.33 reconsideration must be postmarked and sent to the commissioner within 20 calendar days
4.34 after the license holder's receipt of the notice of reduction of licensed beds. If a request for

reconsideration is made by personal service, it must be received by the commissioner within 20 calendar days after the license holder's receipt of the notice of reduction of licensed beds.

(j) The commissioner shall not issue an initial license for children's residential treatment services licensed under Minnesota Rules, parts 2960.0580 to 2960.0700, under this chapter for a program that Centers for Medicare and Medicaid Services would consider an institution for mental diseases. Facilities that serve only private pay clients are exempt from the moratorium described in this paragraph. The commissioner has the authority to manage existing statewide capacity for children's residential treatment services subject to the moratorium under this paragraph and may issue an initial license for such facilities if the initial license would not increase the statewide capacity for children's residential treatment services subject to the moratorium under this paragraph.

EFFECTIVE DATE. This section is effective June 29, 2018.

Sec. 2. Minnesota Statutes 2017 Supplement, section 245A.11, subdivision 2a, is amended to read:

Subd. 2a. **Adult foster care and community residential setting license capacity.** (a) The commissioner shall issue adult foster care and community residential setting licenses with a maximum licensed capacity of four beds, including nonstaff roomers and boarders, except that the commissioner may issue a license with a capacity of five beds, including roomers and boarders, according to paragraphs (b) to (g).

(b) The license holder may have a maximum license capacity of five if all persons in care are age 55 or over and do not have a serious and persistent mental illness or a developmental disability.

(c) The commissioner may grant variances to paragraph (b) to allow a facility with a licensed capacity of up to five persons to admit an individual under the age of 55 if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed facility is located.

(d) The commissioner may grant variances to paragraph (a) to allow the use of an additional bed, up to five, for emergency crisis services for a person with serious and persistent mental illness or a developmental disability, regardless of age, if the variance complies with section 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed facility is located.

(e) The commissioner may grant a variance to paragraph (b) to allow for the use of an additional bed, up to five, for respite services, as defined in section 245A.02, for persons

with disabilities, regardless of age, if the variance complies with sections 245A.03, subdivision 7, and 245A.04, subdivision 9, and approval of the variance is recommended by the county in which the licensed facility is located. Respite care may be provided under the following conditions:

(1) staffing ratios cannot be reduced below the approved level for the individuals being served in the home on a permanent basis;

(2) no more than two different individuals can be accepted for respite services in any calendar month and the total respite days may not exceed 120 days per program in any calendar year;

(3) the person receiving respite services must have his or her own bedroom, which could be used for alternative purposes when not used as a respite bedroom, and cannot be the room of another person who lives in the facility; and

The provider must give 60 days' notice in writing to the residents and their legal representatives prior to accepting the first respite placement. Notice must be given to residents at least two days prior to service initiation, or as soon as the license holder is able if they receive notice of the need for respite less than two days prior to initiation, each time a respite client will be served, unless the requirement for this notice is waived by the resident or legal guardian.

(f) The commissioner may issue an adult foster care or community residential setting license with a capacity of five adults if the fifth bed does not increase the overall statewide capacity of licensed adult foster care or community residential setting beds in homes that are not the primary residence of the license holder, as identified in a plan submitted to the commissioner by the county, when the capacity is recommended by the county licensing agency of the county in which the facility is located and if the recommendation verifies that:

(1) the facility meets the physical environment requirements in the adult foster care licensing rule;

(2) the five-bed living arrangement is specified for each resident in the resident's:

(i) individualized plan of care;

(ii) individual service plan under section 256B.092, subdivision 1b, if required; or

(iii) individual resident placement agreement under Minnesota Rules, part 9555.5105, subpart 19, if required;

(3) the license holder obtains written and signed informed consent from each resident or resident's legal representative documenting the resident's informed choice to remain living in the home and that the resident's refusal to consent would not have resulted in service termination; and

(4) the facility was licensed for adult foster care before ~~March 1, 2011~~ June 30, 2016.

(g) The commissioner shall not issue a new adult foster care license under paragraph (f) after June 30, ~~2019~~ 2021. (b) At least once per year, the license holder, in coordination with the person's support team or expanded support team, must meet with the person, the person's legal representative, and the case manager to discuss how technology might be used to meet the person's desired outcomes. 28.26 (m) If an eligibility update is completed within 90 days of the previous face-to-face
28.27 assessment and documented in the department's Medicaid Management Information System
28.28 (MMIS), the effective date of eligibility for programs included in paragraph (k) is the date

29.9 Reassessments provide information to support the person's informed choice and opportunities
29.10 to express choice regarding activities that contribute to quality of life, as well as information
29.11 and opportunity to identify goals related to desired employment, community activities, and
29.12 preferred living environment. Reassessments ~~allow for~~ require a review of the most recent
29.13 assessment, review of the current coordinated service and support plan's effectiveness,

29.16 and provide an opportunity for quality assurance of service delivery. Face-to-face assessments
29.17 reassessments must be conducted annually or as required by federal and state laws and rules.
29.18 For reassessments, the certified assessor and the individual responsible for developing the
29.19 coordinated service and support plan must ensure the continuity of care for the person

(c) The commissioner shall work with lead agencies responsible for conducting long-term consultation services to develop a set of measurable benchmarks sufficient to demonstrate quarterly improvement in the average time per assessment and other mutually agreed upon measures of increasing efficiency. The commissioner shall collect data on these benchmarks and provide to the lead agencies and the chairs and ranking minority members of the legislative committees with jurisdiction over human services an annual trend analysis of the data in order to demonstrate the commissioner's compliance with the requirements of this subdivision.

(1) determine the number of shared staffing and individual direct staff hours to meet a recipient's needs provided on site or through monitoring technology;

(2) personnel hourly wage rate must be based on the 2009 Bureau of Labor Statistics Minnesota-specific rates or rates derived by the commissioner as provided in subdivision 5. This is defined as the direct-care rate;

(3) for a recipient requiring customization for deaf and hard-of-hearing language accessibility under subdivision 12, add the customization rate provided in subdivision 12 to the result of clause (2). This is defined as the customized direct-care rate;

(4) multiply the number of shared and individual direct staff hours provided on site or through monitoring technology and nursing hours by the appropriate staff wages in subdivision 5, paragraph (a), or the customized direct-care rate;

(5) multiply the number of shared and individual direct staff hours provided on site or through monitoring technology and nursing hours by the product of the supervision span of control ratio in subdivision 5, paragraph (b), clause (1), and the appropriate supervision wage in subdivision 5, paragraph (a), clause (21);

(6) combine the results of clauses (4) and (5), excluding any shared and individual direct staff hours provided through monitoring technology, and multiply the result by one plus the employee vacation, sick, and training allowance ratio in subdivision 5, paragraph (b), clause (2). This is defined as the direct staffing cost;

(7) for employee-related expenses, multiply the direct staffing cost, excluding any shared and individual direct staff hours provided through monitoring technology, by one plus the employee-related cost ratio in subdivision 5, paragraph (b), clause (3);

(8) for client programming and supports, the commissioner shall add \$2,179; and

(9) for transportation, if provided, the commissioner shall add \$1,680, or \$3,000 if customized for adapted transport, based on the resident with the highest assessed need.

(b) The total rate must be calculated using the following steps:

(1) subtotal paragraph (a), clauses (7) to (9), and the direct staffing cost of any shared and individual direct staff hours provided through monitoring technology that was excluded in clause (7);

(2) sum the standard general and administrative rate, the program-related expense ratio, and the absence and utilization ratio; and

(3) divide the result of clause (1) by one minus the result of clause (2). This is the total payment amount; ~~and~~.

~~(4) adjust the result of clause (3) by a factor to be determined by the commissioner to adjust for regional differences in the cost of providing services.~~

(c) The payment methodology for customized living, 24-hour customized living, and residential care services must be the customized living tool. Revisions to the customized living tool must be made to reflect the services and activities unique to disability-related recipient needs.

(d) For individuals enrolled prior to January 1, 2014, the days of service authorized must meet or exceed the days of service used to convert service agreements in effect on December 1, 2013, and must not result in a reduction in spending or service utilization due to conversion during the implementation period under section 256B.4913, subdivision 4a. If during the implementation period, an individual's historical rate, including adjustments required under section 256B.4913, subdivision 4a, paragraph (c), is equal to or greater than the rate determined in this subdivision, the number of days authorized for the individual is 365.

(e) The number of days authorized for all individuals enrolling after January 1, 2014, in residential services must include every day that services start and end.

EFFECTIVE DATE. This section is effective July 1, 2022.
