**Date** March 1, 2022

## Overview

School districts are required to adopt and use a uniform system of records and accounting. The adopted system, a modified accrual accounting system, is known as Uniform Financial Accounting and Reporting System (UFARS). Under UFARS every district must maintain a number of operating funds (e.g., general fund, food service, community service) and nonoperating funds (e.g., building construction, debt service, trust, and agency). UFARS, statutory reserves, and the Minnesota's public indebtedness statutes prohibit certain types of fund transfers among funds and from certain reserved accounts.

Independent School District No. 191, Burnsville-Eagan-Savage, has determined that it has excess school facility space and the school board has developed a plan to right-size its facilities.

H.F. 2117 authorizes the Burnsville-Eagan-Savage school district to proceed with its facilities plan and allows the district to redirect funds received from lease payments of the underutilized school facilities and from the sale of certain school properties to its unreserved general fund. Requires that after the sale of a facility, before the district transfers money to the general fund, that the district first deposits an amount in the debt redemption fund sufficient to satisfy any outstanding principal and interest on bonds ascribed to that facility.
