This bill appropriates an amount to be filled in to the Town Road Sign Replacement Program. The funds may be used for any local match required to receive federal funds. Any amount not used by July 1, 2008 reverts to the general fund.

The Town Road Sign Replacement Program was established in 2005 in order to inventory, evaluate, replace, and maintain signs along town roads, in compliance with uniform design and safety standards. The program is effective once there is a federal or state appropriation for it.
