This bill requires that starting January 1, 2007, at least 30 minutes of time in a driver education program be devoted to organ and tissue donation. It directs the commissioner of public safety to update the curriculum rules accordingly, without needing to follow the standard requirements of the Administrative Procedure Act.

It also removes the sunset date of June 10, 2006, for provisions of law discontinuing an insurance coverage sampling program, making discontinuation permanent.
