---

This bill appropriates a total of \$400 million from the trunk highway fund in the 2018-2019 biennium for the Corridors of Commerce program.

The Corridors of Commerce program was established by the legislature in 2013 for capacity and freight movement projects on the state's trunk highway system. To date the program has been funded through a combination of trunk highway bonding authorization and appropriations from the trunk highway fund, but is not a part of the MnDOT base budget.
