## Overview

This bill repeals various obsolete reports to the legislature the commissioner of human services was required to submit. In 2021, legislation was enacted to automatically make ongoing mandated reports expire after a specified period of time.

Mandated reports requiring the submission of an annual or more frequent report that were enacted prior to January 1, 2021, expired on January 1, 2023.

Mandated reports requiring the submission of a biennial or less frequent report that were enacted prior to January 1, 2021, expired on January 1, 2024. For mandated reports that were enacted on or after January 1, 2021, expiration of the reporting requirement is as follows:

- Three years after the date of enactment if the mandate requires the submission of an annual or more frequent report; and
- Five years after the date of enactment if the mandate requires the submission of a biennial or less frequent report.
