Growth in City Levies Pay 2003-2004 (based on TnT levies)

The attached run compares the total certified city levies for Pay 2003 with the total proposed Truth-in-taxation (TnT) city levies for Pay 2004. Final Pay 2004 city levies may be less than the proposed TnT levies but cannot exceed these amounts, except via a referendum held by the November general election. Only one city (Mounds View) passed a referendum to exceed TnT levies and levy limits.

The total levies include both levies spread on net tax capacity and on market value. Cities with a population of 2,500 more are subject to levy limits. Levy growth in these cities was limited to 60 percent of the cities aid loss in CY 2004, compared to certified 2003 amounts, plus growth in special levies. Special levies, outside of levy limits are included in the total levies.

The printout also compares levy increases to the amount of LGA and market value credit that the city loses in Pay 2004. If a city's levy growth exceeds 60 percent of its 2004 aid and credit loss and the city is subject to levy limits, the growth is occurring in special levies outside of the limits. There is no limit on levy increases for cities with a population less than 2,500.

The columns contain the following information:

- **Column 1:** 2002 population
- **Column 2:** Total Pay 2003 levies spread on both net tax capacity and market value
- **Column 3:** Total Proposed 2004 TnT levies spread on both net tax capacity and market value
- **Column 4:** The dollar change between 2003 actual levies and proposed 2004 TnT levies
- **Column 5:** The percent change between 2003 actual levies and proposed 2004 TnT levies
- **Column 6:** The total 2004 LGA loss, compared to 2003 certified LGA, plus the 2004 market value credit loss
- **Column 7:** The change between 2003 actual levies and proposed 2004 TnT levies as a percent of 2004 LGA and mv credit losses

For further information contact: Pat Dalton 651-296-7434
