City Levy, LGA, and MV Credits – Preliminary CY 2003

The attached run shows city preliminary levies, certified LGA, and estimated city shares of market value credits for calendar year 2003. It also shows this data on a per capita basis. The information used in constructing this printout is as follows:

- **2001 Population** is city population in 2001 as estimated by the state demographer and the metropolitan council.
- **2003 TnT Levy** is the preliminary levy that cities certified in 2002 for Truth in taxation hearings. The final city levy cannot exceed this amount although it may be reduced from this amount. Certified levies will be available in early February.
- **2003 LGA** is the total 2003 city LGA as certified to cities in September 2002.
- **2003 MV credits** is the Department estimate of the city's share of both homestead and agricultural market value credits

For further information contact: Pat Dalton 651-296-7434

Note: The cities are grouped by type for comparison purposes. The groups are different from the ones used by House Research for the last eight years. The new groups were developed by the League of Minnesota cities (LMC) in 2002 using 2000 census data and are based on a methodology used by House Research in developing previous grouping schemes. For information on the groups you can contact Eric Willette at the LMC.
