

City LGA under updated Division report compared to current law

The attached run shows certified LGA for Pay 2007 and projected LGA for Pay 2008 under current law and under the LGA program included in H.F. 3 – the division report. This run differs slightly from the “drlgaa1” run in that the tax base used in the division report calculation has been updated to reflect changes in the class rates of utility property and the early recognition of utility property revaluation.

The bill does the following:

- Increases the inflation factor used in calculating city need to reflect inflation since 2000;
- Replaces the current small city need measure with a simplified need measure based strictly on population equal to:

$NEED = \$300 + (.31 \times \text{city population in excess of 100})$ with a maximum NEED per capita of \$500

- Includes the volatility fix supported by the city groups and contained in H.F. 1115;
- Removes the taconite aid offset in the current formula;
- Adds additional city aid base for the cities of Newport, Taylors Falls, Rockville, and Brown’s Valley;
- Adds \$60 million to the LGA formula for Pay 2008 and adjusts the caps on increases for that year to 25% of the previous year’s levy to allow the new money to be distributed via the formula.

Please know that final information for some of variables in the LGA formula are not yet available; the final certifications will be different.

The columns contain the following information:

- **Column 1:** 2005 Population
- **Column 2:** Certified Pay 2007 LGA
- **Column 3:** Projected Pay 2008 LGA based on current law
- **Column 4:** Projected Pay 2008 LGA under proposed division report
- **Column 5:** Increase in 2008 LGA under proposed division report compared to 2008 LGA under current law
- **Column 6:** Per capita Change in projected 2008 LGA under proposed division report compared to under current law
