

Comparison of certified 2008 City LGA with the end of the 2007 session projections

The attached run shows certified (paid) 2007 LGA, the projected 2008 LGA as of the end of the 2007 legislative session, and the certified 2008 LGA as of August 1, 2007.

Because of the veto of the omnibus tax bill, there was no change in the formula for calculating city LGA. The projected 2008 LGA was based on the best data available in May. Updated population, household size, and accident rates all became available in July and account for the differences between the projected LGA amounts and the certified LGA amounts. Because of the large amount of money distributed via the formula, small changes in a single variable can have a large impact on the aid paid to an individual city.

Additionally, the omnibus state department's bill (Ch. 148, art. 2, sec 68) increased the amount that the office of the state auditor can deduct from the total LGA appropriation to cover costs related to various auditing functions. This accounts for most of the \$409,000 difference between the total projected LGA and the total certified LGA shown at the bottom of page 25.
