

## Homestead Credit Refund Program

***What is the homestead credit refund program?***

The homestead credit refund is a state-paid refund that provides tax relief to homeowners whose property taxes are high relative to their incomes. The program was previously known as the homeowner's property tax refund program, or PTR, and sometimes popularly called the "circuit breaker." If the property tax exceeds a threshold percentage of income, the refund equals a percentage of the tax over the threshold, up to a maximum amount. As income increases:

- the threshold percentage increases,
- the share of tax over the threshold that the taxpayer must pay (the "copay percentage") increases, and
- the maximum refund decreases.

The program uses household income, a broad measure that includes most types of income, including income that is not subject to income tax. Deductions are allowed for dependents and for claimants who are over age 65 or disabled. The refund is based on taxes payable after subtracting any targeting refund claimed by the homeowner.

***What aspects of the program have changed recently?***

The 2011 and 2013 tax laws both expanded the refund program. The 2011 changes increased the maximum refund for homeowners with incomes under about \$37,000, and decreased the copayment percentage for most homeowners. The 2013 changes, effective for refunds based on taxes payable in 2014, lowered the threshold percentage for determining eligibility from 3.5 percent of income to 2.0 percent of income for homeowners with household incomes from \$19,530 to \$65,049, and to 2.5 percent for those at higher income levels.

***What are the maximums?***

For refund claims filed in 2017, based on property taxes payable in 2017 and 2016 household income, the maximum refund is \$2,660. Homeowners whose income exceeds \$108,659 are not eligible for a refund.

***How are claims filed?***

Refund claims are filed using the Minnesota Department of Revenue (DOR) Schedule M1PR, which is filed separately from the individual income tax form. Claims based on taxes payable in 2017 that are filed before August 15, 2017, will be paid beginning in late September 2017; claims filed electronically may be paid a month earlier. The deadline for filing claims based on taxes payable in 2017 is August 15, 2018; taxpayers filing claims after that date will not receive a refund.

***How many homeowners receive refunds, and what is the total amount paid?***

Based on payable 2015 property taxes and 2014 incomes, 440,840 homeowners received refunds. The average refund was \$847, and the total dollar amount of refunds paid statewide was \$373.3 million. The average refund for senior and disabled claimants (\$876) was slightly higher than the average for those under age 65 and not disabled (\$827).

***How do refunds vary depending upon the filer's income and property tax?***

The following table shows the refund calculations for four example families with different incomes—two families in the metro area and two in Greater Minnesota. Although the program parameters are the same statewide, the average residential homestead property tax in the metro area is higher than in Greater Minnesota. The example metro area families have homes valued at \$265,000 and payable 2017 property taxes of \$3,500, typical amounts for the metro area. The example families in Greater Minnesota have homes valued at \$165,000 and payable 2017 property taxes of \$1,700, typical amounts for Greater Minnesota. Taxpayers who are over age 65, disabled, or have dependents are allowed a subtraction from income in determining the refund.
