H. F. No. 2570, A bill for an act relating to insurance; providing that automobile insurance may cover damage to automotive glass on the same basis as damage to other parts of an automobile; appropriating money; amending Minnesota Statutes 2000, section 72A.201, subdivision 6; repealing Minnesota Statutes 2000, section 72A.202.

"Section 1. Minnesota Statutes 2000, section 72A.201, subdivision 6, is amended to read:

Subd. 6. [STANDARDS FOR AUTOMOBILE INSURANCE CLAIMS HANDLING, SETTLEMENT OFFERS, AND AGREEMENTS.] In addition to the acts specified in subdivisions 4, 5, 7, 8, and 9, the following acts by an insurer, adjuster, or a self-insured or self-insurance administrator constitute unfair settlement practices:

(1) if an automobile insurance policy provides for the adjustment and settlement of an automobile total loss on the basis of actual cash value or replacement with like kind and quality and the insured is not an automobile dealer, failing to offer one of the following methods of settlement:

(a) comparable and available replacement automobile, with all applicable taxes, license fees, at least pro rata for the unexpired term of the replaced automobile's license, and other fees incident to the transfer or evidence of ownership of the automobile paid, at no cost to the insured other than the deductible amount as provided in the policy;

(b) a cash settlement based upon the actual cost of purchase of a comparable automobile, including all applicable taxes, license fees, at least pro rata for the unexpired term of the replaced automobile's license, and other fees incident to transfer of evidence of ownership, less the deductible amount as provided in the policy. The costs must be determined by:

(i) the cost of a comparable automobile, adjusted for mileage, condition, and options, in the local market area of the insured, if such an automobile is available in that area; or

(ii) one of two or more quotations obtained from two or more qualified sources located within the local market area when a comparable automobile is not available in the local market area. The insured shall be provided the information contained in all quotations prior to settlement; or

(iii) any settlement or offer of settlement which deviates from the procedure above must be documented and justified in detail. The basis for the settlement or offer of settlement must be explained to the insured;"
(2) if an automobile insurance policy provides for the adjustment and settlement of an automobile partial loss on the basis of repair or replacement with like kind and quality and the insured is not an automobile dealer, failing to offer one of the following methods of settlement:

(a) to assume all costs, including reasonable towing costs, for the satisfactory repair of the motor vehicle. Satisfactory repair includes repair of both obvious and hidden damage as caused by the claim incident. This assumption of cost may be reduced by applicable policy provision; or

(b) to offer a cash settlement sufficient to pay for satisfactory repair of the vehicle. Satisfactory repair includes repair of obvious and hidden damage caused by the claim incident, and includes reasonable towing costs;

(3) regardless of whether the loss was total or partial, in the event that a damaged vehicle of an insured cannot be safely driven, failing to exercise the right to inspect automobile damage prior to repair within five business days following receipt of notification of claim. In other cases the inspection must be made in 15 days;

(4) regardless of whether the loss was total or partial, requiring unreasonable travel of a claimant or insured to inspect a replacement automobile, to obtain a repair estimate, to allow an insurer to inspect a repair estimate, to allow an insurer to inspect repairs made pursuant to policy requirements, or to have the automobile repaired;

(5) regardless of whether the loss was total or partial, if loss of use coverage exists under the insurance policy, failing to notify an insured at the time of the insurer's acknowledgment of claim, or sooner if inquiry is made, of the fact of the coverage, including the policy terms and conditions affecting the coverage and the manner in which the insured can apply for this coverage;

(6) regardless of whether the loss was total or partial, failing to include the insured's deductible in the insurer's demands under its subrogation rights. Subrogation recovery must be shared at least on a proportionate basis with the insured, unless the deductible amount has been otherwise recovered by the insured, except that when an insurer is recovering directly from an uninsured third party by means of installments, the insured must receive the full deductible share as soon as that amount is collected and before any part of the total recovery is applied to any other use. No deduction for expenses may be made from the deductible recovery unless an attorney is retained to collect the recovery, in which case deduction may be made only for a pro rata share of the cost of retaining the attorney. An insured is not bound by any settlement of its insurer's subrogation claim with respect to the deductible amount, unless the insured receives, as a result of the subrogation settlement, the full amount of the deductible. Recovery by the insurer and receipt by the insured of less than all of the insured's deductible amount does not affect the insured's rights to recover any unreimbursed portion of the deductible from parties liable for the loss;

(7) requiring as a condition of payment of a claim that repairs to any damaged vehicle must be made by a particular contractor or repair shop or that parts, other than window glass, must be replaced with parts other than original equipment parts;

(8) where liability is reasonably clear, failing to inform the claimant in an automobile property damage liability claim that the claimant may have a claim for loss of use of the vehicle;

(9) failing to make a good faith assignment of comparative negligence percentages in ascertaining the issue of liability;

(10) failing to pay any interest required by statute on overdue payment for an automobile personal injury protection claim;

(11) if an automobile insurance policy contains either or both of the time limitation provisions as permitted by section 65B.55, subdivisions 1 and 2, failing to notify the insured in writing of those limitations at least 60 days prior to the expiration of that time limitation;
(12) if an insurer chooses to have an insured examined as permitted by section 65B.56, subdivision 1, failing to notify the insured of all of the insured's rights and obligations under that statute, including the right to request, in writing, and to receive a copy of the report of the examination;

(13) failing to provide, to an insured who has submitted a claim for benefits described in section 65B.44, a complete copy of the insurer's claim file on the insured, excluding internal company memoranda, all materials that relate to any insurance fraud investigation, materials that constitute attorney work-product or that qualify for the attorney-client privilege, and medical reviews that are subject to section 145.64, within ten business days of receiving a written request from the insured. The insurer may charge the insured a reasonable copying fee. This clause supersedes any inconsistent provisions of sections 72A.49 to 72A.505;

(14) if an automobile policy provides for the adjustment or settlement of an automobile loss due to damaged window glass, failing to provide payment to the insured's chosen vendor based on a competitive price that is fair and reasonable within the local industry at large. Where facts establish that a different rate in a specific geographic area actually served by the vendor is required by that market, that geographic area must be considered. If the insurer disputes the amount charged by the vendor, the price shall be as established by the commissioner through a market survey to determine a fair and reasonable market price for similar services. The survey shall be:

(a) an annual survey using accepted industry standards;

(b) a statistically significant sample of auto glass vendors; and

(c) of work actually done.

The commissioner shall consult with interested parties in designing the survey document. Reasonable deviation from the market price determined by survey is allowed when based on the facts in each case. This clause does not prohibit an insurer from recommending a vendor to the insured or from agreeing with a vendor to perform work at an agreed-upon price, provided, however, that before recommending a vendor, the insurer shall offer its insured the opportunity to choose the vendor. The insurer must not recommend a vendor to the insured unless requested by the insured;

(15) requiring that the repair or replacement of motor vehicle glass and related products and services be made in a particular place or shop or by a particular entity, or by otherwise limiting the ability of the insured to select the place, shop, or entity to repair or replace the motor vehicle glass and related products and services; or

(16) engaging in any act or practice of intimidation, coercion, threat, incentive, or inducement for or against an insured to use a particular company or location to provide the motor vehicle glass repair or replacement services or products. For purposes of this section, a warranty shall not be considered an inducement or incentive.

(1) condition the availability of an eye examination or the release of a prescription to a patient on a requirement that the patient agree to purchase ophthalmic goods from the optometrist or physician who performed the eye examination or from another specified optometrist or physician; or

(2) charge a patient a fee in addition to the optometrist's or physician's examination fee as a condition of releasing the prescription to the patient. An optometrist or physician may charge a reasonable additional fee for verifying ophthalmic goods dispensed by another practitioner if that fee is imposed at the time the verification is performed.

Subd. 2. [CONTRAINDICATIONS FOR CONTACT LENSES.] If an optometrist or physician determines that a patient's ocular health presents a contraindication for contact lenses, the optometrist or physician must orally inform the patient of the contraindication and must document the contraindication in the patient's records. An optometrist or physician may exclude categories of contact lenses where clinically indicated.

Subd. 3. [WAIVERS OF LIABILITY PROHIBITED.] No optometrist or physician may place on a patient's prescription, require a patient to sign, or deliver to a patient a form or notice waiving liability or responsibility for the accuracy of the eye examination or the accuracy of the ophthalmic goods and ophthalmic services dispensed by another practitioner. Prohibiting waivers of liability under this subdivision does not impose liability on an optometrist or physician for the ophthalmic goods or ophthalmic services dispensed by another practitioner pursuant to the optometrist's or physician's prescription."

Subd. 2. [THIRD PARTY REIMBURSEMENT.] (a) Beginning July 1, 2000, districts shall seek reimbursement from insurers and similar third parties for the cost of services provided by the district whenever the services provided by the district are otherwise covered by the child's health coverage. Districts shall request, but may not require, the child's family to provide information about the child's health coverage when a child with a disability begins to receive services from the district of a type that may be reimbursable, and shall request, but may not require, updated information after that as needed.

(b) For children eligible for medical assistance under chapter 256B or MinnesotaCare under chapter 256L, who have no other health coverage, a district shall provide an initial written notice to the enrolled child's parent or legal representative of its intent to seek reimbursement from medical assistance or MinnesotaCare for the individual education plan health-related services provided by the district.

(c) The district shall give the parent or legal representative annual written notice of:

(1) the district's intent to seek reimbursement from medical assistance or MinnesotaCare for individual education plan health-related services provided by the district;
(2) the right of the parent or legal representative to request a copy of all records concerning individual education plan health-related services disclosed by the district to any third party; and

(3) the right of the parent or legal representative to withdraw consent for disclosure of a child’s records at any time without consequence.

The written notice shall be provided as part of the written notice required by Code of Federal Regulations, title 34, section 300.503.

Districts shall request, but may not require, the child’s parent or legal representative to sign a consent form permitting the school district to apply for and receive reimbursement directly from the insurer or other similar third party, to the extent permitted by the insurer or other third party and subject to their networking credentialing, prior authorization, and determination of medical necessity criteria.

(d) In order to access the private health care coverage of a child who is covered by private health care coverage in whole or in part, a district must:

(1) obtain annual written informed consent from the parent or legal representative, in compliance with subdivision 5; and

(2) inform the parent or legal representative that a refusal to permit the district or state Medicaid agency to access their private health care coverage does not relieve the district of its responsibility to provide all services necessary to provide free and appropriate public education at no cost to the parent or legal representative.

(e) If the commissioner of human services obtains federal approval to exempt covered individual education plan health-related services from the requirement that private health care coverage refuse payment before medical assistance may be billed, paragraphs (b), (c), and (d), shall also apply to students with a combination of private health care coverage and health care coverage through medical assistance or MinnesotaCare.

(f) In the event that Congress or any federal agency or the Minnesota legislature or any state agency establishes lifetime limits, limits for any health care services, cost-sharing provisions, or otherwise provides that individual education plan health-related services impact benefits for persons enrolled in medical assistance or MinnesotaCare, the amendments to this subdivision adopted in 2002 are repealed on the effective date of any federal or state law or regulation that imposes the limits. In that event, districts must obtain informed consent consistent with this subdivision as it existed prior to the 2002 amendments and subdivision 5, before seeking reimbursement for children eligible for medical assistance under chapter 256B or MinnesotaCare under chapter 256L who have no other health care coverage.

NONPROFIT CORPORATIONS

Section 1. Minnesota Statutes 2000, section 317A.011, is amended by adding a subdivision to read:

Subd. 3a. [AUTHENTICATED.] "Authenticated" means, with respect to an electronic communication, that the communication is delivered to the principal place of business of the corporation, or to an officer or agent of the corporation authorized by the corporation to receive the communication, and that the communication sets forth information from which the corporation can reasonably conclude that the communication was sent by the purported sender.
Sec. 2. Minnesota Statutes 2000, section 317A.011, is amended by adding a subdivision to read:

Subd. 7a. [ELECTRONIC COMMUNICATION.] "Electronic communication" means any form of communication, not directly involving physical transmission of paper, that creates a record that may be retained, retrieved, and reviewed by a recipient of the communication, and that may be directly reproduced in paper form by the recipient through an automated process.

Sec. 3. Minnesota Statutes 2000, section 317A.011, is amended by adding a subdivision to read:

Subd. 18a. [REMOTE COMMUNICATION.] "Remote communication" means communication via electronic communication, conference telephone, video conference, the Internet, or such other means by which persons not physically present in the same location may communicate with each other on a substantially simultaneous basis.

Sec. 4. [317A.015] [LEGAL RECOGNITION OF ELECTRONIC RECORDS AND SIGNATURES.]

Subdivision 1. [DEFINITIONS.] (a) For purposes of this section, the words, terms, and phrases defined in this subdivision have the meanings given them.

(b) "Electronic" means relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.

(c) "Electronic record" means a record created, generated, sent, communicated, received, or stored by electronic means.

(d) "Electronic signature" means an electronic sound, symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

(e) "Record" means information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form.

Subd. 2. [ELECTRONIC RECORDS AND SIGNATURES.] For purposes of this chapter:

(1) a record or signature may not be denied legal effect or enforceability solely because it is in electronic form;

(2) a contract may not be denied legal effect or enforceability solely because an electronic record was used in its formation;

(3) if a provision requires a record to be in writing, an electronic record satisfies the requirement; and

(4) if a provision requires a signature, an electronic signature satisfies the requirement.

Sec. 5. Minnesota Statutes 2000, section 317A.231, is amended to read:

317A.231 [BOARD MEETINGS.]

Subdivision 1. [TIME; PLACE.] Meetings of the board may be held as provided in the articles or bylaws in or out of this state. Unless the articles or bylaws provide otherwise, a meeting of the board must be held at least once per year. If the articles or bylaws or the board fail to select a place for a meeting, the meeting must be held at the registered office. The board of directors may determine under subdivision 2 that a meeting of the board of directors shall be held solely by means of remote communication.
Subd. 2.  [ELECTRONIC COMMUNICATIONS MEETINGS SOLELY BY MEANS OF REMOTE COMMUNICATION.] (a) A conference meeting among directors may be conducted solely by one or more means of remote communication through which all of the directors may simultaneously hear each other during a conference call meeting, if the same notice is given of the conference as would be required for a meeting by subdivision 3, and if the number of directors participating in the conference meeting is sufficient to constitute a quorum at a meeting. Participation in a meeting by this means constitutes presence at the meeting.

(b) Subd. 3. [PARTICIPATION IN MEETINGS BY MEANS OF REMOTE COMMUNICATION.] A director may participate in a board meeting by any means of conference telephone or, if authorized by the board, by such other means of remote communication, in each case through which the director, other directors so participating, and all directors physically present at the meeting may simultaneously hear participate with each other during the meeting. Participation in a meeting by this means constitutes presence at the meeting.

Subd. 3 4. [CALLING MEETINGS; NOTICE.] (a) Unless the articles or bylaws provide otherwise, a director may call a board meeting by giving five days' notice to all directors of the date, time, and place of the meeting. The notice need not state the purpose of the meeting unless the articles or bylaws require it.

(b) If the day or date, time, and place of a board meeting have been provided in the articles or bylaws, or announced at a previous meeting of the board, notice is not required. Notice of an adjourned meeting need not be given other than by announcement at the meeting at which adjournment is taken.

Subd. 4 5. [WAIVER OF NOTICE.] A director may waive notice of a meeting of the board. A waiver of notice by a director entitled to notice is effective whether given before, at, or after the meeting, and whether given in writing, orally, or by attendance. Attendance by a director at a meeting is a waiver of notice of that meeting, unless the director objects at the beginning of the meeting to the transaction of business because the meeting is not lawfully called or convened and does not participate in the meeting.

Sec. 6. Minnesota Statutes 2000, section 317A.239, subdivision 1, is amended to read:

Subdivision 1. [METHOD.] An action required or permitted to be taken at a board meeting may be taken by written action signed, or consented to by authenticated electronic communication, by all of the directors. If the articles so provide, an action, other than an action requiring member approval, may be taken by written action signed, or consented to by authenticated electronic communication, by the number of directors that would be required to take the same action at a meeting of the board at which all directors were present.

Sec. 7. Minnesota Statutes 2000, section 317A.239, subdivision 2, is amended to read:

Subd. 2. [EFFECTIVE TIME.] The written action is effective when signed, or consented to by authenticated electronic communication, by the required number of directors, unless a different effective time is provided in the written action.

If a place is not stated or if a demand for a meeting is made under subdivision 2, the meeting must be held in the county where the corporation's registered office is located. To the extent authorized in articles or bylaws, the board of directors may determine that an annual meeting of the members shall be held solely by means of remote communication in accordance with section 317A.450, subdivision 2.
Sec. 9. Minnesota Statutes 2000, section 317A.433, subdivision 3, is amended to read:

Subd. 3. [TIME; PLACE.] Special meetings of members may be held in or out of this state at the place stated in or fixed in accordance with the articles, bylaws, or by the president or the board. If a special meeting is demanded by the members, the meeting must be held in the county where the corporation's registered office is located. To the extent authorized in the articles or bylaws, the board of directors may determine that a special meeting of the members shall be held solely by means of remote communication in accordance with section 317A.450, subdivision 2.

Sec. 10. Minnesota Statutes 2000, section 317A.445, is amended to read:

317A.445 [UNANIMOUS ACTION WITHOUT A MEETING.]

An action required or permitted to be taken at a meeting of the members may be taken without a meeting by written action signed, or consented to by authenticated electronic communication, by all of the members entitled to vote on that action. The written action is effective when it has been signed, or consented to by authenticated electronic communication, by all of those members, unless a different effective time is provided in the written action. When this chapter requires a certificate concerning an action to be filed with the secretary of state, the officers signing the certificate must indicate that the action was taken under this section.

Sec. 11. [317A.450] [REMOTE COMMUNICATIONS FOR MEMBER MEETINGS.]

Subdivision 1. [CONSTRUCTION AND APPLICATION.] This section shall be construed and applied to:

(1) facilitate remote communication consistent with other applicable law; and

(2) be consistent with reasonable practices concerning remote communication and with the continued expansion of those practices;

Subd. 2. [MEMBER MEETINGS HELD SOLELY BY MEANS OF REMOTE COMMUNICATION.] To the extent authorized in the articles or bylaws and determined by the board, an annual or special meeting of members may be held solely by one or more means of remote communication, if notice of the meeting is given to every member entitled to vote, and if the number of voting members participating in the meeting is sufficient to constitute a quorum at a meeting. Participation by a member by that means constitutes presence at the meeting in person or by proxy if all the other requirements of section 317A.453 are met.

Subd. 3. [PARTICIPATION IN MEMBER MEETINGS BY MEANS OF REMOTE COMMUNICATION.] To the extent authorized in the articles or bylaws and determined by the board, a member not physically present in person or by proxy at an annual or special meeting of members may, by means of remote communication, participate in a meeting of members held at a designated place. Participation by a member by that means constitutes presence at the meeting in person or by proxy if all the other requirements of section 317A.453 are met.

Subd. 4. [REQUIREMENTS FOR MEETINGS HELD SOLELY BY MEANS OF REMOTE COMMUNICATION AND FOR PARTICIPATION BY MEANS OF REMOTE COMMUNICATION.] In any meeting of members held solely by means of remote communication under subdivision 2 or in any meeting of members held at a designated place in which one or more members participate by means of remote communication under subdivision 3:

(1) the corporation shall implement reasonable measures to verify that each person deemed present and entitled to vote at the meeting by means of remote communication is a member; and
(2) the corporation shall implement reasonable measures to provide each member participating by means of remote
communication with a reasonable opportunity to participate in the meeting, including an opportunity to:

(i) read or hear the proceedings of the meeting substantially concurrently with those proceedings;

(ii) if allowed by the procedures governing the meeting, have the member's remarks heard or read by other
participants in the meeting substantially concurrently with the making of those remarks; and

(iii) if otherwise entitled, vote on matters submitted to the members.

Subd. 5. [NOTICE TO MEMBERS.] (a) Any notice to members given by the corporation under any provision
of this chapter, the articles, or the bylaws by a form of electronic communication consented to by the member to
whom the notice is given is effective when given. The notice is deemed given:

(1) if by facsimile communication, when directed to a telephone number at which the member has consented to
receive notice;

(2) if by electronic mail, when directed to an electronic mail address at which the member has consented to
receive notice;

(3) if by a posting on an electronic network on which the member has consented to receive notice, together with
separate notice to the member of the specific posting, upon the later of:

(i) the posting; and

(ii) the giving of the separate notice; and

(4) if by any other form of electronic communication by which the member has consented to receive notice, when
directed to the member.

An affidavit of the secretary, other authorized officer, or authorized agent of the corporation, that the notice has been
given by a form of electronic communication is, in the absence of fraud, prima facie evidence of the facts stated in
the affidavit.

(b) Consent by a member to notice given by electronic communication may be given in writing or by authenticated
electronic communication. The corporation is entitled to rely on any consent so given until revoked by the member,
provided that no revocation affects the validity of any notice given before receipt by the corporation of revocation
of the consent.

Subd. 6. [WAIVER.] Waiver of notice by a member of a meeting by means of authenticated electronic
communication may be given in the manner provided in section 317A.435, subdivision 3. Participation in a meeting
by means of remote communication described in subdivisions 2 and 3 is a waiver of notice of that meeting, except
where the member objects at the beginning of the meeting to the transaction of business because the meeting is not
lawfully called or convened, or objects before a vote on an item of business because the item may not lawfully be
considered at the meeting and does not participate in the consideration of the item at that meeting.

Sec. 12. Minnesota Statutes 2000, section 317A.453, subdivision 1, is amended to read:

Subdivision 1. [AUTHORIZATION.] If the articles or bylaws permit proxy voting, a member may appoint a proxy
to cast or authorize the casting of a vote or otherwise act for the member by signing an (1) filing a nonelectronic
written appointment form either personally or by a proxy, signed by the member, with an attorney in fact officer of
the corporation at or before the meeting at which the appointment is to be effective, or (2) telephonic transmission
or authenticated electronic communication, whether or not accompanied by written instructions of the member, of
an appointment of a proxy with the corporation or the corporation's duly authorized agent at or before the meeting
at which the appointment is to be effective.
Sec. 13. Minnesota Statutes 2000, section 317A.733, subdivision 3, is amended to read:

Subd. 3. [EFFECTIVE DATE.] When the articles of dissolution have been filed with the secretary of state, or on a later date or a later time each within 30 days after filing if the articles of dissolution so provide, the corporation is dissolved.

Sec. 14. Minnesota Statutes 2000, section 317A.733, subdivision 4, is amended to read:

The provider shall be allowed 90 days to review the complete contract before being required to sign the contract.

Subd. 2. [PROPOSED AMENDMENTS.] (a) Any amendment or change in the terms of an existing contract between a health plan company and a provider must be disclosed to the provider at least 90 days prior to the effective date of the proposed change, with the exception of amendments required of the health plan company by law or governmental regulatory authority where notice shall be given when received.

If the legislature is then in regular session or, if it is not, if the governor concurrently with the proclamation declaring the emergency issues a call convening immediately both houses of the legislature, the governor and commissioner of health, as applicable, may exercise for a period not to exceed 30 days the powers and duties conferred and imposed by sections 12.31 to 12.37 or 12.375 to 12.39. The lapse of these emergency powers does not, as regards any act occurring or committed within the 30-day period, deprive any person, political subdivision, municipal corporation, or body politic of any right to compensation or reimbursement that it may have under this chapter.

Sec. 19. Minnesota Statutes 2000, section 12.31, subdivision 2, is amended to read:

Subd. 2. [DECLARATION OF PEACETIME EMERGENCY.] (a) The governor may declare a peacetime emergency. A peacetime declaration of emergency may be declared only when an act of nature, a technological failure or malfunction, a terrorist incident, a public health emergency, an industrial accident, a hazardous materials accident, or a civil disturbance endangers life and property and local government resources are inadequate to handle the situation. A peacetime emergency must not be continued for more than five days unless extended by resolution of the executive council up to 30 days. An order, or proclamation declaring, continuing, or terminating an emergency must be given prompt and general publicity and filed with the secretary of state.
Sec. 20. Minnesota Statutes 2000, section 12.32, is amended to read:

12.32 GOVERNOR'S ORDERS AND RULES, EFFECT.

Orders and rules promulgated by the governor under authority of section 12.21, subdivision 3, clause (1), when approved by the executive council and filed in the office of the secretary of state, have, during a national security, peacetime, or energy supply emergency, the full force and effect of law issued under the authority of this chapter, is suspended during the period of time and to the extent that the emergency exists.

Sec. 21. Minnesota Statutes 2000, section 12.34, subdivision 1, is amended to read:

Subdivision 1. EMERGENCY POWERS. When necessary to save life, property, or the environment during a national security emergency or a peacetime emergency declared due to a public health emergency, the governor, the state director, or a member of a class of members of a state or local emergency management organization designated by the governor, may:

1. require any person, except members of the federal or state military forces and officers of the state or a political subdivision, to perform services for emergency management purposes as directed by any of the persons described above;
2. commandeer during a national security emergency any motor vehicle, tools, appliances, medical supplies, or other personal property; and any facilities or other real property; and
3. control entrance to and exit from any stricken or threatened public area, the movement of people in the area, and the occupancy of premises in the area, if such action is reasonable and necessary for emergency response.

Sec. 22. IMMUNITY.

(a) The following shall be immune from civil liability for injuring or causing the death of any person or any damage to property, except in the case of gross negligence or willful misconduct:

1. a person who owns or controls real estate or other premises and who grants a license or privilege or otherwise permits the designation or use of all or any part of the real estate or premises for the purpose of sheltering persons during a national security or peacetime emergency, together with that person's successors in interest, if any;
2. a person in the performance of a contract with and under the direction of the state or its political subdivisions under this chapter; and
3. a person who renders assistance or advice at the request or direction of the state or its political subdivisions under this chapter.

(b) The immunities granted in this section do not apply to a person whose act or omission caused, in whole or in part, an emergency and who would otherwise be liable therefor.
Sec. 23. [12.375] [DECLARATION DUE TO PUBLIC HEALTH EMERGENCY.]

Subdivision 1. [CONSULTATION REQUIRED.] Before declaring a national security or peacetime emergency due to a public health emergency, the governor shall consult with the commissioner of health and may consult with additional public health experts and other experts as needed. If the public health emergency is on Indian lands, the governor shall consult with tribal authorities before making such a declaration. Nothing in this section shall be construed to limit the governor’s authority to act without such consultation when the situation calls for prompt and timely action.

Subd. 2. [EFFECT OF DECLARATION.] A declaration of a national security or peacetime emergency due to a public health emergency invokes the necessary portions of the state emergency operations plan developed pursuant to section 12.21, subdivision 3, relating to response and recovery aspects and may authorize aid and assistance under the plan.

Sec. 24. [12.376] [TERMINATION OF DECLARATION; PUBLIC HEALTH EMERGENCY.]

Subdivision 1. [AUTOMATIC TERMINATION; RENEWAL.] Notwithstanding any other provision of this chapter, a national security or peacetime emergency declared due to a public health emergency is terminated automatically 30 days after its original declaration unless the emergency is renewed by the governor. Any renewal is terminated automatically after 30 days unless again renewed by the governor.

Subd. 2. [TERMINATION BY LEGISLATURE.] By a majority vote of each house of the legislature, the legislature may terminate a national security or peacetime emergency declared due to a public health emergency at any time from the date of original declaration, upon finding that the occurrence of a qualifying health condition no longer poses a substantial risk of a significant number of human fatalities or incidents of permanent or long-term disability or that the imminent risk of such an occurrence has passed. A termination by the legislature under this subdivision overrides any renewal by the governor under subdivision 1.

Sec. 25. [12.377] [SUCCESSION OF DUTIES OF COMMISSIONER OF HEALTH; DELEGATION.]

Subdivision 1. [SUCCESSION.] If the commissioner of health is unable to discharge the commissioner’s powers and duties under sections 12.31 to 12.389 and 145.9805 to 145.9809 during a national security or peacetime emergency due to a public health emergency, the state epidemiologist shall discharge these powers and duties. If both the commissioner of health and the state epidemiologist are unable to discharge these powers and duties, these powers and duties shall be discharged by a subordinate employee who the commissioner has designated to discharge them in this circumstance.

Subd. 2. [DELEGATION.] The commissioner of health may delegate to a board of health or a county public health officer any of the commissioner’s powers and duties under sections 12.31 to 12.389 and 145.9805 to 145.9809. If the commissioner delegates powers and duties to a board of health, the delegation must comply with section 145A.07.

Sec. 26. [12.38] [SAFE DISPOSITION OF DEAD HUMAN BODIES.]

Subdivision 1. [POWERS FOR SAFE DISPOSITION.] Notwithstanding chapter 149A, in connection with deaths related to a public health emergency, the commissioner of health may:

1) direct measures to provide for the safe disposition of dead human bodies as may be reasonable and necessary for emergency response. Measures may include, but are not limited to, transportation, preparation, temporary mass burial and other interment, disinterment, and cremation of dead human bodies. Insofar as the emergency circumstances allow, the commissioner shall respect the religious rites, cultural customs, family wishes, and predeath directives of a decedent concerning final disposition. The commissioner may limit visitations or funeral ceremonies based on public health risks;
(2) consult with coroners and medical examiners, take possession or control of any dead human body, and order an autopsy of the body;

(3) request any business or facility authorized to embalm, bury, cremate, inter, disinter, transport, or otherwise provide for disposition of a dead human body under the laws of this state to accept any dead human body or provide the use of its business or facility if the actions are reasonable and necessary for emergency response and are within the safety precaution capabilities of the business or facility;

(4) procure by condemnation or otherwise the temporary control of a business or facility described in clause (3), in cooperation with the division, for as long as the public health emergency requires, if the commissioner of health finds that the public health emergency has left the business or facility unable to carry out its customary level of work; and

(5) procure real property by condemnation or otherwise, in cooperation with the division, for morgue and burial purposes, if the commissioner of health finds that the businesses or facilities in a locality providing those services have been overwhelmed by the number of casualties or that the communicable disease risk from dead human bodies is so great that precautions are required beyond the safety precaution capability of the business or facility. Insofar as the emergency circumstances allow, the commissioner of health shall not undertake procurement without first conferring with state and federal emergency management officials and the metropolitan airports commission on alternative facilities for these purposes.

Subd. 2. [IDENTIFICATION OF BODIES.] A person in charge of the body of a person believed to be infected with a communicable disease or other health danger for which the public health emergency was declared shall maintain a written record of the body and all available information to identify the decedent, the circumstances of death, and disposition of the body. If a body cannot be identified, a qualified person shall, prior to disposition and to the extent possible, take fingerprints and one or more photographs of the remains and collect a DNA specimen from the body. All information gathered under this subdivision shall be promptly forwarded to the commissioner of health.

Sec. 27. [12.381] [CONTROL OF HEALTH CARE SUPPLIES AND FACILITIES.]

Subd. 1. [PROCUREMENT AND DISTRIBUTION.] During a national security or peacetime emergency declared due to a public health emergency, the governor may delegate to the commissioner of health and other state officials the authority to commandeer with right of immediate possession, purchase, or distribute antitoxins, sera, vaccines, immunizing agents, antibiotics, and other pharmaceutical agents or medical supplies and equipment that the governor or delegated official deems advisable to prepare for or control a public health emergency, without additional legislative authorization. These powers may be exercised under the authority of this chapter and any other law.

Subd. 2. [RATIONING; SUPPLIES AND SERVICES.] If a public health emergency results in a statewide or regional shortage or threatened shortage of any product specified in subdivision 1, whether or not the product has been purchased by the state, the commissioner of health may control, restrict, and regulate by rationing and using quotas, prohibitions on shipments, price fixing, allocation or other means, the use, sale, dispensing, distribution, or transportation of the relevant product necessary to protect the health, safety, and welfare of the people of the state. In making rationing or other supply and distribution decisions, the commissioner of health shall give preference to health care providers, disaster response personnel, and mortuary staff who are responding to a public health emergency.

Subd. 3. [SURPLUS.] Upon determining that any product obtained under subdivision 1 is no longer needed for the public health emergency, the commissioner of health may direct the further disposition of remaining useful product with a preference for restocking any facility from which the product was obtained.
Subd. 4. [USE OF HEALTH CARE FACILITIES.] During a national security or peacetime emergency declared due to a public health emergency, the commissioner of health may request, and if necessary shall order, a health care facility to provide services or the use of its facility if the services or use are reasonable and necessary for emergency response. The use of the health care facility may include transferring the management and supervision of the health care facility to the commissioner of health for a limited or unlimited period of time, except the time period for which management and supervision are transferred shall not exceed the termination of the national security or peacetime emergency.

Sec. 28. [12.3815] [COMPENSATION.]

Owners of property that is taken or appropriated under section 12.38 or 12.381 shall be compensated for such takings or appropriations in accordance with section 12.34, subdivision 2.

Sec. 29. [12.382] [DESTRUCTION OF PROPERTY.]

To the extent practicable and consistent with the protection of public health, prior to the destruction of any property under sections 12.377 to 12.381, the state shall institute appropriate civil proceedings against the property to be destroyed according to existing laws and rules of the courts of this state or any rules that may be developed by the courts for use during a national security or peacetime emergency. Property acquired by the state through such proceedings shall, after entry of the decree, be disposed of by destruction as the court may direct.

Sec. 30. [12.383] [LIMITATIONS ON PUBLIC GATHERINGS AND TRANSPORTATION.]

During a national security or peacetime emergency declared due to a public health emergency, the governor may act to limit risks of the spread of a communicable disease or exposure to toxic agents by ordering temporary restrictions on assembly of people in workplaces, child care facilities, schools and other educational institutions, religious and fraternal buildings, sport and entertainment facilities, and other places where large numbers of people congregate. The governor may also suspend or curtail operations of buses, trains, airlines, and other means of public transportation. Whenever possible, the governor shall first consult with the division and the commissioners of health and transportation before issuing an order. Nothing in this section shall be construed to limit the governor's authority to act without such consultation when the situation calls for prompt and timely action.

Sec. 31. [12.384] [MEDICAL EXAMINATIONS.]

Subdivision 1. [INDIVIDUAL EXAMINATION AND TESTING.] (a) During a national security or peacetime emergency declared due to a public health emergency, the commissioner of health may direct a person to submit to a physical examination or testing as necessary to diagnose the person when the commissioner of health has reasonable belief that the person may be infected with a communicable disease or may have been exposed to a toxic agent for which the emergency is declared, provided that the commissioner of health must not direct any examination or testing procedure reasonably likely to result in serious harm to the affected individual.

(b) A person excused from a medical examination or testing because of a risk of serious harm or a person refusing to submit to the examination or testing may be ordered by the commissioner of health to be placed in isolation or quarantine under section 12.385. A person so isolated or quarantined may seek review of isolation or quarantine status as provided in section 12.386.

Subd. 2. [HEALTH CARE PROVIDERS; PENALTY.] (a) During a national security or peacetime emergency declared due to a public health emergency, the commissioner of health may require a physician or other health care provider personnel, according to the individual's scope of practice, to perform a medical examination or testing under subdivision 1. Refusal to perform a medical examination or testing under this subdivision may be reported by the commissioner of health to the individual's respective licensing board.
(b) A licensing board may not take action against the license, registration, or credential of health care provider personnel pursuant to a report under this subdivision if adequate protection, such as vaccine protective equipment or prophylactic medication, has not been made available to the health care provider personnel.

Subd. 3. [REVIEW OF MEDICAL RECORDS.] During a national security or peacetime emergency declared due to a public health emergency, the commissioner of health may review individual medical records in order to ascertain the existence of cases or possible exposures of a qualifying health condition, investigate all such cases or such cases for sources of infection and to ensure that they are subject to proper control measures, and determine the scope of the qualifying health condition. Data collected are health data under section 13.3805.

Subd. 4. [ENFORCEMENT.] An order of the commissioner of health made under this section is immediately enforceable by the commissioner of public safety, the adjutant general, and any other peace officer.

Sec. 32. [12.385] [ISOLATION AND QUARANTINE.]

Subdivision 1. [GENERAL REQUIREMENTS.] (a) The commissioner of health and all other government entities, and any person acting under their authority, shall comply with paragraphs (b) to (i) when isolating or quarantining individuals or groups of individuals.

(b) Isolation and quarantine must be by the least restrictive means necessary to prevent the spread of a communicable or potentially communicable disease to others and may include, but are not limited to, confinement to private homes or other private or public premises.

(c) Isolated individuals must be confined separately from quarantined individuals.

(d) The health status of isolated and quarantined individuals must be monitored regularly to determine if they require continued isolation or quarantine.

(e) If a quarantined individual subsequently becomes infectious or is reasonably believed to have become infectious with a communicable or potentially communicable disease, the individual must be isolated.

(f) Isolated and quarantined individuals must be immediately released when they pose no known risk of transmitting a communicable or potentially communicable disease to others.

(g) The needs of persons isolated and quarantined shall be addressed in a systematic and competent fashion, including, but not limited to, providing adequate food, clothing, shelter, means of communication between those in isolation or quarantine and those outside these settings, medication, and competent medical care.

(h) Premises used for isolation and quarantine shall be maintained in a safe and hygienic manner and be designed to minimize the likelihood of further transmission of infection or other harms to persons isolated and quarantined.

(i) To the extent possible, cultural and religious beliefs should be considered in addressing the needs of individuals and establishing and maintaining isolation and quarantine premises.

Subd. 2. [AUTHORITY TO ISOLATE OR QUARANTINE.] Consistent with subdivision 1, the commissioner of health may by order, during a national security or peacetime emergency declared due to a public health emergency:

1. establish and maintain isolation and quarantine areas; and

2. require isolation or quarantine of any person or group of persons infected with or reasonably believed by the commissioner of health to be infected with or exposed to a communicable disease or toxic agent for which the national security or peacetime emergency is declared.
Subd. 3. [INDIVIDUAL COOPERATION.] A person subject to isolation or quarantine shall:

(1) obey the commissioner of health’s orders;

(2) remain within the isolation or quarantine area; and

(3) avoid contact with any person not subject to isolation or quarantine, other than a physician or other health care provider, public health official, or other person authorized by the commissioner of health to enter an isolation or quarantine area.

Subd. 4. [UNAUTHORIZED ENTRY.] No person, other than a person authorized by the commissioner of health, shall enter an isolation or quarantine area. If, by reason of an unauthorized entry into an isolation or quarantine area, a person poses a danger to public health, the person may be subject to isolation or quarantine according to this section and section 12.386.

Subd. 5. [TERMINATION.] The commissioner of health shall terminate the isolation or quarantine of a person when the commissioner of health determines that isolation or quarantine of the person is no longer necessary to protect the public health.

Subd. 6. [FAILURE TO COOPERATE.] Failure to obey the requirements of subdivision 3 is grounds for the commissioner of health to order a more restrictive isolation or quarantine.

Sec. 33. [12.386] [DUE PROCESS.]

Subdivision 1. [ORDER FOR ISOLATION OR QUARANTINE.] (a) Before isolating or quarantining a person or group of persons, the commissioner of health shall obtain a written, ex parte order authorizing the isolation or quarantine from a district court. The court shall grant the order upon a finding that probable cause exists to believe isolation or quarantine is warranted under sections 12.375 to 12.39.

(b) The order must recite the facts justifying isolation or quarantine. The commissioner of health shall provide a copy of the authorizing order to each person isolated or quarantined, the commissioner of public safety, and other peace officers known to the commissioner to have jurisdiction over the site of the isolation or quarantine. With the order, the commissioner of health shall give each person notice that the person has a right to a hearing under this section and, if feasible, an estimate of the expected period of isolation or quarantine.

(c) One order shall suffice to isolate or quarantine a group of persons believed to have been commonly infected or exposed to a communicable disease or toxic agent. If it is impracticable to provide individual copies to large groups isolated or quarantined, a copy of the order and notice may be posted in a conspicuous place:

(1) in the isolation or quarantine premises, but only if the persons to be isolated or quarantined are already at the isolation or quarantine premises and have adequate access to the order posted there; or

(2) in another location where the group of persons to be isolated or quarantined is located, such that the persons have adequate access to the order posted there.

Subd. 2. [TEMPORARY HOLD UPON COMMISSIONER’S ORDER.] Notwithstanding subdivision 1, the commissioner of health may by order isolate or quarantine a person or group of persons without first obtaining a written, ex parte order from the court if a delay in imposing the isolation or quarantine of the person or group of persons would significantly jeopardize the commissioner of health’s ability to prevent or limit the transmission of a communicable or potentially communicable disease to others. Following the imposition of isolation or quarantine under this subdivision, the commissioner of health shall within 72 hours apply for a written, ex parte order from the court authorizing the isolation or quarantine.
Subd. 3. [COURT HEARING.] A person isolated or quarantined under subdivision 1 or 2, or the person’s representative, may request in writing a court hearing to contest the ex parte order. If the person, or the person’s representative, requests a hearing, the hearing shall be held within 72 hours of receipt of the request, excluding Saturdays, Sundays, and legal holidays. A request for a hearing does not stay the order of isolation or quarantine. At the hearing, the commissioner of health must show that the isolation or quarantine is warranted under sections 12.375 to 12.39.

Subd. 4. [HEARING ON CONTINUATION OF ISOLATION OR QUARANTINE.] On or after the 30th day following a hearing under subdivision 3, or the 30th day following imposition of isolation or quarantine if no hearing is requested under subdivision 3, a person isolated or quarantined under section 12.385 may request in writing a court hearing to contest continued isolation or quarantine. The hearing shall be held within 72 hours of receipt of the request, excluding Saturdays, Sundays, and legal holidays. A request for a hearing does not alter the order of isolation or quarantine. At the hearing, the commissioner of health must show that continuation of the isolation or quarantine is warranted under sections 12.375 to 12.39. If, upon a hearing, the court finds that isolation or quarantine of the individual is not warranted under sections 12.375 to 12.39, the person shall be released from isolation or quarantine.

Subd. 5. [HEARING ON CONDITIONS OF ISOLATION OR QUARANTINE.] A person isolated or quarantined under section 12.385 may request a hearing in district court for remedies regarding the treatment during and the terms and conditions of isolation or quarantine. Upon receiving a request for a hearing under this subdivision, the court shall fix a date for a hearing that is within ten days of the receipt of the request by the court. The request for a hearing does not alter the order of isolation or quarantine. If the court finds that the isolation or quarantine of the individual is not in compliance with section 12.385, subdivision 1, the court may fashion remedies appropriate to the circumstances of the public health emergency and in keeping with this chapter.

Subd. 6. [JUDICIAL DECISIONS.] Judicial decisions on confinement under subdivision 3, 4, or 5 shall be based upon clear and convincing evidence and a written record of the disposition of the case shall be made and retained. The petitioner has the right to be represented by counsel or other lawful representative. The manner in which the request for a hearing is filed and acted upon shall be in accordance with the existing laws and rules of the courts of this state or any rules that are developed by the courts for use during a national security or peacetime emergency.

Sec. 34. [12.387] [VACCINATION AND TREATMENT.]

Subdivision 1. [VACCINATIONS.] (a) During a national security or peacetime emergency declared due to a public health emergency, the commissioner of health may by order direct a person to be vaccinated as protection against communicable disease and to prevent the spread of a communicable or potentially communicable disease according to this subdivision.

(b) Vaccinations may be performed by (i) a person licensed to do so in the absence of an emergency, (ii) a person retired from a medical practice in this state or licensed in another state or Canadian province as provided in section 12.42, or (iii) a person designated in writing by a person identified in clause (i) or (ii). The person performing the vaccination shall promptly report the vaccination to the commissioner of health on forms or in a manner prescribed by the commissioner.

(c) A vaccination must not be given if the person administering the vaccine has reason to know that a particular individual has a known contraindication to the vaccination.

Subd. 2.
