Page 1, delete lines 6 to 25 and insert:

"Whereas, over 25 years ago, the federal government required states to provide children with disabilities an appropriate education, and for 25 years, the government has failed to meet its promise to pay 40 percent of the cost; and

Whereas, since 1997 the yearly average of federal funding has been about 13 percent; and

Whereas, on May 3, 2000, the United States House of Representatives overwhelmingly approved the Individuals with Disabilities Education Act (IDEA) Full Funding Act (H.R. 4055) by a 421 to 3 vote; and

Whereas, the bill increased funding in \$2 billion increments for the next ten years until the federal government fulfills its original obligation; and

Whereas, in September 2000, a Senate committee passed S. 2341, its version of the IDEA Full Funding Act of 2000; and

Whereas, the legislation that survived the final days of the session increases the federal percentage of funding only slightly; and

Whereas, appropriate special education services are being provided to all eligible children in the state of Minnesota; and

Whereas, Minnesota must provide substantial state funding to fill the gaps left by Congress's unfunded promise; and

Whereas, the recent increases in federal funds for schools, including the increases in special education funding, have come with substantial mandates and limitations on the use of funds; and

Whereas, during his campaign, President Bush went on record as supporting increased special education funding with the goal of meeting the federal obligation as mandated under IDEA; *Now, Therefore*,

Be It Resolved by the Legislature of the State of Minnesota that it memorializes Congress to pass legislation speeding up the timetable for full funding, and authorizing and appropriating the funds necessary to make good on its past promise to fund 40 percent of the cost of average per pupil expenditures.

Be It Further Resolved that the legislature urges Congress and the executive branch to end the federal policy that requires states to use additional federal funds only to increase spending and not to replace state funds already being spent. The cost of special education now forces states to subsidize special education with state and local general education funds, and the "supplement-not-supplant" policy requires that they continue this subsidy, even if federal funding for special education is increased. The federal requirement that federal funds be used only to supplement other funds obligates states and local school districts to continue to use state and local general education funds for the 40 percent of costs appropriately covered by federal funds.

Be It Further Resolved that the Secretary of State of the State of Minnesota is directed to prepare copies of this memorial and transmit them to those standing committees of the United States Senate and the United States House of Representatives with jurisdiction over education, and to Minnesota's Senators and Representatives in Congress."

Subdivision 1. A testing laboratory shall conduct a confirmatory test on all samples that produced a positive test result on an initial screening test. A laboratory shall disclose to the employer a written test result report for each sample tested within three working days after a negative test result on an initial screening test or, when the initial screening test produced a positive test result, within three working days after a confirmatory test. A test report must indicate the drugs, alcohol, or drug or alcohol metabolites

tested for and whether the test produced negative or positive test results. A laboratory shall retain and properly store for at least six months all samples that produced a positive test result. For the purposes of this subdivision, a test performed by a testing laboratory on a sample that has already produced a positive result in an on-site test is a confirmatory test and not an initial screening test.

Sec. 8. Minnesota Statutes 2000, section 181.953, subdivision 4, is amended to read:

Subd. 4. [PROHIBITIONS ON EMPLOYERS.] An employer may not conduct drug or alcohol testing of its own employees and job applicants using a testing laboratory owned and operated by the employer; except that, one agency of the state may test the employees of another agency of the state. Except as provided in subdivision 9, an employer may not request or require an employee or job applicant to contribute to, or pay the cost of, drug or alcohol testing under sections 181.950 to 181.954. Nothing in this subdivision prevents an employer from conducting an on-site test that complies with the requirements of section 181.9535.

Sec. 9. Minnesota Statutes 2000, section 181.953, subdivision 5, is amended to read:

Subd. 5. [EMPLOYER CHAIN-OF-CUSTODY PROCEDURES.] An employer shall establish its own reliable chain-of-custody procedures to ensure proper record keeping, handling, labeling, and identification of the samples to be tested. The procedures must require the following:

(1) possession of a sample must be traceable to the employee from whom the sample is collected, from the time the sample is collected through the time the sample is delivered to the laboratory or, in the case of an on-site test that produces a negative result, otherwise disposed of by the employer or other person conducting the test;

(2) the sample must always be in the possession of, must always be in view of, or must be placed in a secured area by a person authorized to handle the sample;

(3) a sample must be accompanied by a written chain-of-custody record; and

(4) individuals relinquishing or accepting possession of the sample must record the time the possession of the sample was transferred and must sign and date the chain-of-custody record at the time of transfer.

Sec. 10. Minnesota Statutes 2000, section 181.953, is amended by adding a subdivision to read:

Subd. 5a. [ADULTERATION PROHIBITED.] No employer or other party having control over a sample collected from an employee shall adulterate, tamper with, or change the chemical composition of a sample with the intent of affecting the test results. This subdivision does not prohibit any action that is taken in accordance with the manufacturer instructions of an on-site test or is performed by a laboratory in the normal course of its testing procedures.

Sec. 11. Minnesota Statutes 2000, section 181.953, subdivision 7, is amended to read:

Subd. 7. [NOTICE OF TEST RESULTS.] (a) Within three working days after receipt of a test result report from ~~the~~ a testing laboratory, an employer shall inform in writing an employee or job applicant who has undergone drug or alcohol testing of (1) a negative test result on an initial screening test or of a negative or positive test result on a confirmatory test and (2) the right provided in subdivision 8. In the case of a positive test result on a confirmatory test, the employer shall also, at the time of this notice, inform the employee or job applicant in writing of the rights provided in subdivisions 6, paragraph (b), 9, and either subdivision 10 or 11, whichever applies.

(b) No later than the first business day after an employer or other person completes an on-site test, the person shall inform an employee or job applicant who has undergone drug or alcohol testing of (1) the positive or negative result of the on-site test; and (2) in the case of a positive result, the fact that the original sample is being sent to a testing laboratory where a confirmatory test will be completed.

(c) All information required to be given to an employee under sections 181.950 to 181.957 must be provided in the employee's predominant language, if that language is known to the employer. The employer or other person administering the test may use printed information, translators, or interpreters as appropriate to the particular circumstances.

Sec. 12. [181.9535] [ON-SITE TESTING.]

Subdivision 1. [SCOPE.] Any employer who conducts an on-site test must comply with the requirements of this section. An employer may not discharge, discipline, discriminate against, or request or require rehabilitation of an employee on the basis of a positive test result from an on-site test that does not comply with these requirements.

Subd. 2. [EMPLOYEES COVERED BY COLLECTIVE BARGAINING AGREEMENT.] On-site testing may not be used to test any employee who is covered by a collective bargaining agreement, unless the collective bargaining agreement expressly authorizes the use of on-site testing.

Subd. 3. [PERSON ADMINISTERING TEST.] An employer may use an on-site test either by conducting the test at the worksite or by having the test performed elsewhere by a person authorized by the employer to perform the test, provided that any third party performing a test on an employer's behalf must comply with the requirements of this subdivision. An on-site test may be administered only by an individual who:

(1) has been trained by the manufacturer of the test, or a trainer authorized by the manufacturer, on the proper procedure for administering the test and accurate evaluation of test results, including: instruction on the contents of the manufacturer's package insert as submitted and approved by the Food and Drug Administration; completion of the manufacturer's self-test and written examination; and performance of ten on-site tests using both negative and positive drug-fortified specimens and interpreting the results;

(2) has been certified in writing by the manufacturer or the trainer authorized by the manufacturer as competent to administer and evaluate the on-site test;

(3) has been trained by the manufacturer or the trainer authorized by the manufacturer to recognize adulteration and dilution of a sample to be used in on-site testing;

(4) has agreed in writing with the employer to hold all information related to any phase of the drug test confidential in accordance with state law; and

(5) has received information from the employer regarding the employer's drug and alcohol testing policy, the collection and handling methods to be used, and the protections available to the employee.

The person performing the test shall post, in a conspicuous location near the test site, the certification documentation provided pursuant to clause (2).

Subd. 4. [TEST TO BE CONDUCTED ACCORDING TO MANUFACTURER'S INSTRUCTIONS.] An on-site test must be conducted according to the instructions provided by the manufacturer of the testing product or products being used. If a manufacturer recommends particular procedures to maximize the reliability of the test, those practices must be followed by the employer.

Subd. 5. [COLLECTION SITE.] The employer or other person administering the on-site test must provide a safe, private, and clean site for collection of the sample. The person administering the test may not directly observe the employee or job applicant while the employee or applicant is providing the sample.

Subd. 6. [REQUIREMENTS FOR SAMPLE CONTAINER.] Employers may use on-site testing only if the testing process provides for collection of the sample using a container that:

(1) can be securely closed by the employee once the initial screen testing process has been completed, and then cannot be opened except at the laboratory as part of a confirmatory testing process;

(2) when closed after the sample is provided, has no holes or other openings that would allow access to the sample; and

(3) is otherwise designed in such a way that the employer or person administering the test has no direct access to the sample at any time after the initial process is completed and before the sample is disposed of or the container is opened by a testing laboratory as part of a confirmatory test.

Subd. 7. [ADULTERATION TESTING BY EMPLOYER.] No employer may open or bring any substance or object in contact with any sample that has been provided by an employee in a collection device that has been closed according to the manufacturer's instructions. If a sample is tested for adulterants, the employee or applicant must be allowed to observe the procedure.

Subd. 8. [EMPLOYEE CONTROL OVER DISPOSABLE ITEMS.] If an on-site test uses any disposable, single-use equipment, such as collection containers or items used to test for adulteration of the sample, those items must be individually packaged and must remain sealed until immediately before use. With respect to any such item, the person administering the test must permit the employee to:

(1) inspect the item while it is still sealed, and observe the unsealing of the package; and

(2) observe the item at all times between when it is opened and when its use is completed.

Before any on-site testing is performed, an employer must inform an employee both orally and in writing of the employee's rights under this subdivision.

Subd. 9. [RECORDING RESULTS.] If the on-site test does not create a permanent record documenting the result, then the person administering the test must immediately document the result of the test by creating a written document describing the test result. This document must not only state whether the result was positive or negative, but must describe what was observed, such as changes in color or the appearance of marks or symbols, that led the individual administering the test to conclude that the result was positive or negative.

If the on-site test is designed to create a permanent record of the result, or if the employer creates any written record of a test result, then that record must be retained by the employer for at least three years, and a copy of the record must be available to the employee if copying is practical.

Subd. 10. [HANDLING OF SAMPLE.] The employer or other person administering the test must employ chain-of-custody procedures in compliance with section 181.953, subdivision 5, in connection with any on-site testing. If the result of an on-site test is negative, the person administering the test shall immediately dispose of the sample. If the result of an on-site test is positive, the person administering the test shall transport the original sample to a testing laboratory which shall perform a confirmatory test. In conducting the confirmatory test, the testing laboratory must comply in all respects with the requirements of section 181.953.

Subd. 11. [FREEDOM TO COLLECTIVELY BARGAIN.] The provisions of section 181.955 apply to all on-site testing and on-site testing policies of employers.

S. F. No. 258 was reported to the House.

Sertich moved to amend S. F. No. 258 as follows:

Page 1, delete everything after line 4, and insert:

"Whereas, the current crisis in the domestic steel industry has led to the closure of LTV Steel Mining Company and to reductions in production at most other mining facilities in Minnesota, causing job losses at mines and for vendors and resulting in hardship in communities across the entire state of Minnesota; and

Whereas, this crisis has been generated by surges in United States imports of steel, both from countries whose currencies have depreciated and from steel-producing countries that are no longer able to export steel to the countries in economic crisis; and

Whereas, foreign government trade restrictions and private restraints of trade distort international trade and investment patterns and result in burdens on United States commerce, including absorption of a disproportionate share of diverted steel trade, which ultimately have a detrimental effect on this state's economy; and

Whereas, there is a well-recognized need for improvements in the enforcement of United States trade laws to provide an effective response to these situations; *Now, Therefore*,

Be It Resolved by the Legislature of the State of Minnesota that it requests the President of the United States to commence immediate action to determine the entry into the customs territory of the United States of all steel products that are the product of or are manufactured in Australia, China, South Africa, Ukraine, Kazakhstan, Indonesia, India, Japan, Russia, South Korea, Mexico, or Brazil to determine whether the governments of those countries are abiding by the spirit and letter of international trade agreements with respect to imports of steel products into the United States, and take all actions necessary to enforce applicable trade agreements and laws of the United States pertaining to steel imports.

Be It Further Resolved that the Legislature requests the President of the United States to immediately impose a one-year ban on imports of all steel products that are the products of or are manufactured in Australia, China, South Africa, Ukraine, Kazakhstan, Indonesia, India, Japan, Russia, South Korea, Mexico, or Brazil if the President finds that the governments of those countries are not abiding by the spirit and letter of international trade agreements with respect to imports of steel products into the United States.

Be It Further Resolved that the Legislature requests the President of the United States to immediately consider taconite pellets produced in the United States to be an article like or directly competitive with imported semifinished steel slabs within the restrictions of section 201 of the Trade Act of 1974, United States Code, title 19, sections 2251 to 2253.

Be It Further Resolved that the Secretary of State of the State of Minnesota is directed to prepare copies of this memorial and transmit them to the President of the United States and to Minnesota's Senators and Representatives in Congress."

The motion prevailed and the amendment was adopted.
