The bill was passed, as amended, and its title agreed to.

H. F. No. 1155 was reported to the House.

Abeler, Rukavina, Luther and Davids moved to amend H. F. No. 1155, the second engrossment, as follows:

Page 1, after line 9, insert:

"Section 1. Minnesota Statutes 2000, section 62Q.07, is amended to read:

62Q.07 [ACTION PLANS.]

Subdivision 1. [ACTION PLANS REQUIRED.] (a) To increase public awareness and accountability of health plan companies, all health plan companies that issue or renew a health plan, as defined in section 62Q.01 managed care plan, as defined in section 62U.01, must annually file with the applicable commissioner an action plan that satisfies the requirements of this section beginning July 1, 1994, as a condition of doing business in Minnesota. For purposes of this subdivision, "health plan" includes the coverages described in section 62A.011, subdivision 3, clause (10). Each health plan company must also file its action plan with the information clearinghouse. Action plans are required solely to provide information to consumers, purchasers, and the larger community as a first step toward greater accountability of health plan companies. The sole function of the commissioner in relation to the action plans is to ensure that each health plan company files a complete action plan, that the action plan is truthful and not misleading, and that the action plan is reviewed by appropriate community agencies.

(b) If the commissioner responsible for regulating a health plan company required to file an action plan under this section has reason to believe an action plan is false or misleading, the commissioner may conduct an investigation to determine whether the action plan is truthful and not misleading, and may require the health plan company to submit any information that the commissioner reasonably deems necessary to complete the investigation. If the commissioner determines that an action plan is false or misleading, the commissioner may require the health plan company to file an amended plan or may take any action authorized under chapter 72A.

Subd. 2. [CONTENTS OF ACTION PLANS.] (a) An action plan must include a detailed description of all of the health plan company's methods and procedures, standards, qualifications, criteria, and credentialing requirements for designating the providers who are eligible to participate in the health plan company's provider network, including any limitations on the numbers of providers to be included in the network. This description must be updated by the health plan company and filed with the applicable agency on a quarterly basis.

(b) An action plan must include the number of full-time equivalent physicians, by specialty, nonphysician providers, and allied health providers used to provide services. The action plan must also describe how the health plan company intends to encourage the use of nonphysician providers, midlevel practitioners, and allied health professionals, through at least consumer education, physician education, and referral and advisement systems. The annual action plan must also include data that is broken down by type of provider, reflecting actual utilization of midlevel practitioners and allied professionals by enrollees of the health plan company during the previous year. Until July 1, 1995, a health plan company may use estimates if actual data is not available. For purposes of this paragraph, "provider" has the meaning given in section 62J.03, subdivision 8.
(c) An action plan must include a description of the health plan company's policy on determining the number and the type of providers that are necessary to deliver cost-effective health care to its enrollees. The action plan must also include the health plan company's strategy, including provider recruitment and retention activities, for ensuring that sufficient providers are available to its enrollees.

(d) An action plan must include a description of actions taken or planned by the health plan company to ensure that information from report cards, outcome studies, and complaints is used internally to improve quality of the services provided by the health plan company.

(e) An action plan must include a detailed description of the health plan company's policies and procedures for enrolling and serving high risk and special needs populations. This description must also include the barriers that are present for the high risk and special needs population and how the health plan company is addressing these barriers in order to provide greater access to these populations. "High risk and special needs populations" includes, but is not limited to, recipients of medical assistance, general assistance medical care, and MinnesotaCare; persons with chronic conditions or disabilities; individuals within certain racial, cultural, and ethnic communities; individuals and families with low income; adolescents; the elderly; individuals with limited or no English language proficiency; persons with high-cost preexisting conditions; homeless persons; chemically dependent persons; persons with serious and persistent mental illness; children with severe emotional disturbance; and persons who are at high risk of requiring treatment. For purposes of this paragraph, "provider" has the meaning given in section 62J.03, subdivision 8.

(f) An action plan must include a general description of any action the health plan company has taken and those it intends to take to offer health coverage options to rural communities and other communities not currently served by the health plan company.

(g) A health plan company other than a large managed care plan company may satisfy any of the requirements of the action plan in paragraphs (a) to (f) by stating that it has no policies, procedures, practices, or requirements; either written or unwritten; or formal or informal; and has undertaken no activities or plans on the issues required to be addressed in the action plan, provided that the statement is truthful and not misleading. For purposes of this paragraph, "large managed care plan company" means a health maintenance organization or other health plan company that employs or contracts with health care providers, that has more than 50,000 enrollees in this state. If a health plan company employs or contracts with providers for some of its health plans and does not do so for other health plans that it offers, the health plan company is a large managed care plan company if it has more than 50,000 enrollees in this state in health plans for which it does employ or contract with providers.
