H. F. No. 804, A bill for an act relating to traffic regulations; regulating gross weights on vehicles and combinations hauling raw or unfinished farm or forest products under certain circumstances; proposing coding for new law in Minnesota Statutes, chapter 169.

Reported the same back with the following amendments:

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 2003 Supplement, section 168.013, subdivision 3, is amended to read:

Subd. 3. [APPLICATION; CANCELLATION; EXCESSIVE GROSS WEIGHT FORBIDDEN.] (a) The applicant for all licenses based on gross weight shall state the unloaded weight of the motor vehicle, trailer, or semitrailer and the maximum load the applicant proposes to carry on it, the sum of which constitutes the gross weight upon which the license tax must be paid. However, the declared gross weight upon which the tax is paid must not be less than 1-1/4 times the declared unloaded weight of the motor vehicle, trailer, or semitrailer to be registered, except recreational vehicles taxed under subdivision 1g, school buses taxed under subdivision 18, and tow trucks or towing vehicles defined in section 169.01, subdivision 52. The gross weight of a tow truck or towing vehicle is the actual weight of the tow truck or towing vehicle fully equipped, but does not include the weight of a wrecked or disabled vehicle towed or drawn by the tow truck or towing vehicle.

(b) The gross weight of a motor vehicle, trailer, or semitrailer must not exceed the gross weight upon which the license tax has been paid by more than four percent or 1,000 pounds, whichever is greater; provided that, a vehicle transporting unfinished forest products on a highway, other than a highway that is part of the system of interstate and defense highways, unless a federal exemption is granted, in accordance with paragraph (d)(3):
(1) shall not exceed its gross vehicle weight upon which the license tax has been paid, or gross axle weight on any axle, by more than five percent and, notwithstanding other law to the contrary, is not subject to any fee, fine, or other assessment or penalty for exceeding a gross vehicle or axle weight by up to five percent, except during winter weight increase periods; and

(2) between the dates set by the commissioner in accordance with section 169.826, subdivision 1, is not subject to any provision of paragraph (d) or chapter 169 limiting the gross axle weight of any individual axle unless the entire vehicle also exceeds its gross vehicle weight plus its weight allowance allowed in clause (1) and plus any weight allowance permitted under section 169.826, in which case the vehicle is subject to all applicable penalties for excess weight violations.

(c) The gross weight of the motor vehicle, trailer, or semitrailer for which the license tax is paid must be indicated by a distinctive character on the license plate or plates except as provided in subdivision 12 and the plate or plates must be kept clean and clearly visible at all times.

(d) The owner, driver, or user of a motor vehicle, trailer, or semitrailer, upon conviction for transporting a gross weight in excess of the gross weight for which it was registered or for operating a vehicle with an axle weight exceeding the maximum lawful axle load weight, is guilty of a misdemeanor and subject to increased registration or reregistration according to the following schedule:

(1) Upon conviction for transporting a gross weight in excess of the gross weight for which a motor vehicle, trailer, or semitrailer is registered by more than the allowance set forth in paragraph (b) but less than 25 percent, or for operating or using a motor vehicle, trailer, or semitrailer with an axle weight exceeding the maximum lawful axle load as provided in sections 169.822 to 169.829 by more than the allowance set forth in paragraph (b) but less than 25 percent, the owner, driver, or user of the motor vehicle, trailer, or semitrailer used to commit the violation, in addition to any penalty imposed for the misdemeanor, shall apply to the registrar to increase the authorized gross weight to be carried on the vehicle to a weight equal to or greater than the gross weight the owner, driver, or user was convicted of carrying. The increase is computed for the balance of the calendar year on the basis of 1/12 of the annual tax for each month remaining in the calendar year beginning with the first day of the month in which the violation occurred. If the additional registration tax computed upon that weight, plus the tax already paid, amounts to more than the regular tax for the maximum gross weight permitted for the vehicle under sections 169.822 to 169.829, that additional amount must nevertheless be paid into the highway fund, but the additional tax thus paid does not authorize or permit any person to operate the vehicle with a gross weight in excess of the maximum legal weight as provided by sections 169.822 to 169.829. Unless the owner within 30 days after a conviction applies to increase the authorized weight and pays the additional tax as provided in this section, the registrar shall revoke the registration on the vehicle and demand the return of the registration card and plates issued on that registration.

(2) Upon conviction of an owner, driver, or user of a motor vehicle, trailer, or semitrailer for transporting a gross weight in excess of the gross weight for which the motor vehicle, trailer, or semitrailer was registered by 25 percent or more or for operating or using the vehicle or trailer with an axle weight exceeding the maximum lawful axle load as provided in sections 169.822 to 169.829 by 25 percent or more, and in addition to any penalty imposed for the misdemeanor, the registrar shall either (i) cancel the reciprocity privileges on the vehicle involved if the vehicle is being operated under reciprocity or (ii) if the vehicle is not being operated under reciprocity, cancel the certificate of registration on the vehicle operated and demand the return of the registration certificate and registration plates. The registrar may not cancel the registration or reciprocity privileges for any vehicle found in violation of seasonal load restrictions imposed under section 169.87 unless the axle weight exceeds the year-round weight limit for the highway on which the violation occurred. The registrar may investigate any allegation of gross weight violations and demand that the operator show cause why all future operating privileges in the state should not be revoked unless the additional tax assessed is paid.
(3) Clause (1) does not apply to the first haul of unprocessed or raw farm products or unfinished forest products, when the registered gross weight is not exceeded by more than ten percent. For purposes of this clause, "first haul" means (i) the first, continuous transportation of unprocessed or raw farm products from the place of production or on-farm storage site to any other location within 50 miles of the place of production or on-farm storage site, or (ii) the continuous or noncontinuous transportation of unfinished forest products from the place of production to the place of final processing or manufacture located within 200 miles of the place of production.

(4) When the registration on a motor vehicle, trailer, or semitrailer is revoked by the registrar according to this section, the vehicle must not be operated on the highways of the state until it is registered or reregistered, as the case may be, and new plates issued, and the registration fee is the annual tax for the total gross weight of the vehicle at the time of violation. The reregistration pursuant to this subdivision of any vehicle operating under reciprocity agreements pursuant to section 168.181 or 168.187 must be at the full annual registration fee without regard to the percentage of vehicle miles traveled in this state.

Sec. 2. [169.8261] [GROSS WEIGHT LIMITATIONS; FOREST PRODUCTS.]

A vehicle or combination of vehicles hauling raw or unfinished forest products or the first haul from the place of manufacture of paper, oriented strand board, treated and untreated lumber, laminated strand lumber, wood chips, and pallets by the most direct route from the place of production to the nearest highway that has been designated under section 169.832, subdivision 11, may be operated on any highway with gross weights permitted under sections 169.822 to 169.829 without regard to load restrictions imposed on that highway, except that such vehicles must:

(1) comply with seasonal load restrictions in effect between the dates set by the commissioner under section 169.87, subdivision 2;

(2) comply with bridge load limits posted under section 169.84;

(3) be equipped and operated with six axles and brakes;

(4) not exceed 90,000 pounds gross weight, or 98,000 pounds gross weight during the time when seasonal increases are authorized under section 169.826;

(5) not be operated on interstate and defense highways;

(6) obtain an annual permit from the commissioner of transportation; and

(7) obey all road postings.

Sec. 3. Minnesota Statutes 2003 Supplement, section 169.86, subdivision 5, is amended to read:

Subd. 5. [FEE: PROCEEDS TO TRUNK HIGHWAY FUND.] The commissioner, with respect to highways under the commissioner's jurisdiction, may charge a fee for each permit issued. All such fees for permits issued by the commissioner of transportation shall be deposited in the state treasury and credited to the trunk highway fund. Except for those annual permits for which the permit fees are specified elsewhere in this chapter, the fees shall be:

(a) $15 for each single trip permit.

(b) $36 for each job permit. A job permit may be issued for like loads carried on a specific route for a period not to exceed two months. "Like loads" means loads of the same product, weight, and dimension.
(c) $60 for an annual permit to be issued for a period not to exceed 12 consecutive months. Annual permits may be issued for:

(1) motor vehicles used to alleviate a temporary crisis adversely affecting the safety or well-being of the public;

(2) motor vehicles which travel on interstate highways and carry loads authorized under subdivision 1a;

(3) motor vehicles operating with gross weights authorized under section 169.826, subdivision 1a;

(4) special pulpwood vehicles described in section 169.863;

(5) motor vehicles bearing snowplow blades not exceeding ten feet in width; and

(6) noncommercial transportation of a boat by the owner or user of the boat.

(d) $120 for an oversize annual permit to be issued for a period not to exceed 12 consecutive months. Annual permits may be issued for:

(1) mobile cranes;

(2) construction equipment, machinery, and supplies;

(3) manufactured homes;

(4) implements of husbandry when the movement is not made according to the provisions of paragraph (i);

(5) double-deck buses;

(6) commercial boat hauling.

(e) For vehicles which have axle weights exceeding the weight limitations of sections 169.822 to 169.829, an additional cost added to the fees listed above. However, this paragraph applies to any vehicle described in section 168.013, subdivision 3, paragraph (b), but only when the vehicle exceeds its gross weight allowance set forth in that paragraph, and then the additional cost is for all weight, including the allowance weight, in excess of the permitted maximum axle weight. The additional cost is equal to the product of the distance traveled times the sum of the overweight axle group cost factors shown in the following chart:

Overweight Axle Group Cost Factors

Cost Per Mile For Each Group Of:
The amounts added are rounded to the nearest cent for each axle or axle group. The additional cost does not apply to paragraph (c), clauses (1) and (3).

For a vehicle found to exceed the appropriate maximum permitted weight, a cost-per-mile fee of 22 cents per ton, or fraction of a ton, over the permitted maximum weight is imposed in addition to the normal permit fee. Miles must be calculated based on the distance already traveled in the state plus the distance from the point of detection to a transportation loading site or unloading site within the state or to the point of exit from the state.

(f) As an alternative to paragraph (e), an annual permit may be issued for overweight, or oversize and overweight, construction equipment, machinery, and supplies. The fees for the permit are as follows:

If the gross weight of the vehicle is more than 145,000 pounds the permit fee is determined under paragraph (e).

(g) For vehicles which exceed the width limitations set forth in section 169.80 by more than 72 inches, an additional cost equal to $120 added to the amount in paragraph (a) when the permit is issued while seasonal load restrictions pursuant to section 169.87 are in effect.

(h) $85 for an annual permit to be issued for a period not to exceed 12 months, for refuse-compactor vehicles that carry a gross weight of not more than: 22,000 pounds on a single rear axle; 38,000 pounds on a tandem rear axle; or, subject to section 169.828, subdivision 2, 46,000 pounds on a tridem rear axle. A permit issued for up to 46,000 pounds on a tridem rear axle must limit the gross vehicle weight to not more than 62,000 pounds.

(i) For vehicles exclusively transporting implements of husbandry, an annual permit fee of $24. A vehicle operated under a permit authorized by this paragraph may be moved at the discretion of the permit holder without prior route approval by the commissioner if:

1. the total width of the transporting vehicle, including load, does not exceed 14 feet;
2. the vehicle is operated only between sunrise and 30 minutes after sunset, and is not operated at any time after 12:00 noon on Sundays or holidays;
3. the vehicle is not operated when visibility is impaired by weather, fog, or other conditions that render persons and other vehicles not clearly visible at 500 feet;
(4) the vehicle displays at the front and rear of the load or vehicle a pair of flashing amber lights, as provided in section 169.59, subdivision 4, whenever the overall width of the vehicle exceeds 126 inches; and

(5) the vehicle is not operated on a trunk highway with a surfaced roadway width of less than 24 feet unless such operation is authorized by the permit.

(j) $300 for a motor vehicle described in section 169.8261.

A permit under this paragraph authorizes movements of the permitted vehicle on an interstate highway, and movements of 75 miles or more on other highways."

84A.02 [DEPARTMENT TO MANAGE PRESERVE.]

(a) The Department of Natural Resources shall manage and control the Red Lake Game Preserve. The department may adopt and enforce rules for the care, preservation, protection, breeding, propagation, and disposition of all species of wildlife in the preserve. The department may adopt and enforce rules for the regulation, issuance, sale, and revocation of special licenses or special permits for hunting, fishing, camping, and other uses of this area, consistent with sections 84A.01 to 84A.11. The department may by rule set the terms, conditions, and charges for these licenses and permits.

(b) The rules may specify and control the terms under which wildlife may be taken, captured, or killed in the preserve, and under which fur-bearing animals, or animals and fish otherwise having commercial value, may be taken, captured, trapped, killed, sold, and removed from it. These rules may also provide for (1) the afforestation and reforestation of state lands in the preserve, (2) the sale of merchantable timber from these lands when, in the opinion of the department, it can be sold and removed without damage or injury to the further use and development of the land for wildlife and game in the preserve, and (3) the purposes for which the preserve is established by sections 84A.01 to 84A.11.

(c) The department may provide for the policing of the preserve as necessary for its proper development and use for the purposes specified. The commissioner of natural resources may employ and designate individuals according to section 85.04 84.0835 to enforce laws governing the use of the preserve.
(d) The department shall also adopt and enforce rules concerning the burning of grass, timber slashings, and other flammable matter, and the clearing, development, and use of lands in the preserve as necessary to prevent forest fires and grass fires that would injure the use and development of this area for wildlife preservation and propagation and to protect its forest and wooded areas.

(e) Lands within the preserve are subject to the rules, whether owned by the state or privately, consistent with the rights of the private owners and with applicable state law. The rules may establish areas and zones within the preserve where hunting, fishing, trapping, or camping is prohibited or specially regulated, to protect and propagate particular wildlife in the preserve.

(f) Rules adopted under sections 84A.01 to 84A.11 must be posted on the boundaries of the preserve.

Sec. 6. Minnesota Statutes 2003 Supplement, section 84A.21, is amended to read:

(c) The department may provide for the policing of each project as needed for the proper development, use, and protection of the project and its purposes. The commissioner of natural resources may employ and designate individuals according to section 85.04 84.0835 to enforce laws governing the use of the projects.

(d) Lands within a project are subject to these rules, whether owned by the state or privately, consistent with the rights of the private owners or with applicable state law. The rules must be published once in one qualified newspaper in each county affected and take effect after publication. They must also be posted on the boundaries of each project affected.

Rules must not interfere with, destroy, or damage any privately owned property without just compensation being made to the owner of the private property by purchase or in lawful condemnation proceedings. The rules may relate to the care, preservation, protection, breeding, propagation, and disposition of any species of wildlife in the projects and the regulation, issuance, sale, and revocation of special licenses or special permits for hunting, fishing, camping, or other uses of these areas consistent with applicable state law.

(b) The department may provide for the policing of each project as necessary for the proper development, use, and protection of the project, and of its purpose. The commissioner of natural resources may employ and designate individuals according to section 85.04 84.0835 to enforce laws governing the use of the projects.
(c) Lands within the project are subject to these rules, whether owned by the state, or privately, consistent with the constitutional rights of the private owners or with applicable state law. The department may exclude from the operation of the rules any lands owned by private individuals upon which taxes are delinquent for three years or less. Rules must be published once in the official newspaper of each county affected and take effect 30 days after publication. They must also be posted on each of the four corners of each township of each project affected.

(d) In the management, operation, and control of areas taken for afforestation, reforestation, flood control projects, and wild game and fishing reserves, nothing shall be done that will in any manner obstruct or interfere with the operation of ditches or drainage systems existing within the areas, or damage or destroy existing roads or highways within these areas or projects, unless the ditches, drainage systems, roads, or highways are first taken under the right of eminent domain and compensation made to the property owners and municipalities affected and damaged. Each area or project shall contribute from the funds of the project, in proportion of the state land within the project, for the construction and maintenance of roads and highways necessary within the areas and projects to give the settlers and private owners within them access to their land. The department may construct and maintain roads and highways within the areas and projects as it considers necessary.
