H. F. No. 1396, A bill for an act relating to domestic abuse; authorizing courts to include pets and companion animals in protective orders; amending Minnesota Statutes 2008, section 518B.01, subdivisions 6, 7.

Reported the same back with the following amendments:

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 2008, section 518B.01, subdivision 6, is amended to read:

Subd. 6. Relief by court. (a) Upon notice and hearing, the court may provide relief as follows:

(1) restrain the abusing party from committing acts of domestic abuse;

(2) exclude the abusing party from the dwelling which the parties share or from the residence of the petitioner;

(3) exclude the abusing party from a reasonable area surrounding the dwelling or residence, which area shall be described specifically in the order;

(4) award temporary custody or establish temporary parenting time with regard to minor children of the parties on a basis which gives primary consideration to the safety of the victim and the children. In addition to the primary safety considerations, the court may consider particular best interest factors that are found to be relevant to the temporary custody and parenting time award. Findings under section 257.025, 518.17, or 518.175 are not required with respect to the particular best interest factors not considered by the court. If the court finds that the safety of the victim or the children will be jeopardized by unsupervised or unrestricted parenting time, the court shall condition or restrict parenting time as to time, place, duration, or supervision, or deny parenting time entirely, as needed to guard the safety of the victim and the children. The court's decision on custody and parenting time shall in no way delay the issuance of an order for protection granting other relief provided for in this section. The court must not enter a parenting plan under section 518.1705 as part of an action for an order for protection;

(5) on the same basis as is provided in chapter 518 or 518A, establish temporary support for minor children or a spouse, and order the withholding of support from the income of the person obligated to pay the support according to chapter 518A;
(6) provide upon request of the petitioner counseling or other social services for the parties, if married, or if there are minor children;

(7) order the abusing party to participate in treatment or counseling services, including requiring the abusing party to successfully complete a domestic abuse counseling program or educational program under section 518B.02;

(8) award temporary use and possession of property and restrain one or both parties from transferring, encumbering, concealing, or disposing of property except in the usual course of business or for the necessities of life, and to account to the court for all such transfers, encumbrances, dispositions, and expenditures made after the order is served or communicated to the party restrained in open court;

(9) exclude the abusing party from the place of employment of the petitioner, or otherwise limit access to the petitioner by the abusing party at the petitioner's place of employment;

(10) order the abusing party to have no contact with the petitioner whether in person, by telephone, mail, or electronic mail or messaging, through a third party, or by any other means;

(11) order the abusing party to pay restitution to the petitioner;

(12) order the continuance of all currently available insurance coverage without change in coverage or beneficiary designation; and

(13) order, in its discretion, other relief as it deems necessary for the protection of a family or household member, including orders or directives to the sheriff or other law enforcement or corrections officer as provided by this section;

(14) direct the care, possession, or control of a pet or companion animal owned, possessed, or kept by the petitioner or respondent or a child of the petitioner or respondent; and

(15) direct the respondent to refrain from physically abusing or injuring any pet or companion animal, without legal justification, known to be owned, possessed, kept, or held by either party or a minor child residing in the residence or household of either party as an indirect means of intentionally threatening the safety of such person.

(b) Any relief granted by the order for protection shall be for a period not to exceed two years, except when the court determines a longer period is appropriate. When a referee presides at the hearing on the petition, the order granting relief becomes effective upon the referee's signature.

(c) An order granting the relief authorized in paragraph (a), clause (1), may not be vacated or modified in a proceeding for dissolution of marriage or legal separation, except that the court may hear a motion for modification of an order for protection concurrently with a proceeding for dissolution of marriage upon notice of motion and motion. The notice required by court rule shall not be waived. If the proceedings are consolidated and the motion to modify is granted, a separate order for modification of an order for protection shall be issued.

(d) An order granting the relief authorized in paragraph (a), clause (2) or (3), is not voided by the admittance of the abusing party into the dwelling from which the abusing party is excluded.

(e) If a proceeding for dissolution of marriage or legal separation is pending between the parties, the court shall provide a copy of the order for protection to the court with jurisdiction over the dissolution or separation proceeding for inclusion in its file.

(f) An order for restitution issued under this subdivision is enforceable as civil judgment.
Sec. 2. Minnesota Statutes 2008, section 518B.01, subdivision 7, is amended to read:

Subd. 7. **Ex parte order.** (a) Where an application under this section alleges an immediate and present danger of domestic abuse, the court may grant an ex parte order for protection and granting relief as the court deems proper, including an order:

1. restraining the abusing party from committing acts of domestic abuse;

2. excluding any party from the dwelling they share or from the residence of the other except by further order of the court;

3. excluding the abusing party from the place of employment of the petitioner or otherwise limiting access to the petitioner by the abusing party at the petitioner’s place of employment;

4. ordering the abusing party to have no contact with the petitioner whether in person, by telephone, mail, e-mail, through electronic devices, or through a third party; and

5. continuing all currently available insurance coverage without change in coverage or beneficiary designation;

6. directing the care, possession, or control of a pet or companion animal owned, possessed, or kept by a party or a child of a party; and

7. directing the respondent to refrain from physically abusing or injuring any pet or companion animal, without legal justification, known to be owned, possessed, kept, or held by either party or a minor child residing in the residence or household of either party as an indirect means of intentionally threatening the safety of such person.

(b) A finding by the court that there is a basis for issuing an ex parte order for protection constitutes a finding that sufficient reasons exist not to require notice under applicable court rules governing applications for ex parte relief.

(c) Subject to paragraph (d), an ex parte order for protection shall be effective for a fixed period set by the court, as provided in subdivision 6, paragraph (b), or until modified or vacated by the court pursuant to a hearing. When signed by a referee, the ex parte order becomes effective upon the referee’s signature. Upon request, a hearing, as provided by this section, shall be set. Except as provided in paragraph (d), the respondent shall be personally served forthwith a copy of the ex parte order along with a copy of the petition and, if requested by the petitioner, notice of the date set for the hearing. If the petitioner does not request a hearing, an order served on a respondent under this subdivision must include a notice advising the respondent of the right to request a hearing, must be accompanied by a form that can be used by the respondent to request a hearing and must include a conspicuous notice that a hearing will not be held unless requested by the respondent within five days of service of the order.

(d) Service of the ex parte order may be made by published notice, as provided under subdivision 5, provided that the petitioner files the affidavit required under that subdivision. If personal service is not made or the affidavit is not filed within 14 days of issuance of the ex parte order, the order expires. If the petitioner does not request a hearing, the petition mailed to the respondent’s residence, if known, must be accompanied by the form for requesting a hearing and notice described in paragraph (c). Unless personal service is completed, if service by published notice is not completed within 28 days of issuance of the ex parte order, the order expires.

(e) If the petitioner seeks relief under subdivision 6 other than the relief described in paragraph (a), the petitioner must request a hearing to obtain the additional relief.

(f) Nothing in this subdivision affects the right of a party to seek modification of an order under subdivision 11."

H. F. No. 2899, A bill for an act relating to data practices; providing an administrative remedy for certain data practices law violations; providing civil penalties; appropriating money; amending Minnesota Statutes 2008, sections 13.072, subdivision 2; 13.08, subdivision 4; proposing coding for new law in Minnesota Statutes, chapter 13.

Reported the same back with the following amendments:

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 2008, section 13.072, subdivision 2, is amended to read:

Subd. 2. Effect. Opinions issued by the commissioner under this section are not binding on the government entity or members of a body subject to chapter 13D whose data or performance of duties is the subject of the opinion, but an opinion described in subdivision 1, paragraph (a), must be given deference by a court or other tribunal in a proceeding involving the data. The commissioner shall arrange for public dissemination of opinions"
issued under this section. This section does not preclude a person from bringing any other action under this chapter or other law in addition to or instead of requesting a written opinion. A government entity, members of a body subject to chapter 13D, or person that acts in conformity with a written opinion of the commissioner issued to the government entity, members, or person or to another party is not liable for compensatory or exemplary damages or awards of attorneys fees in actions for violations arising under section 13.08 or 13.085, or for a penalty under section 13.09 or for fines, awards of attorney fees, or any other penalty under chapter 13D. A member of a body subject to chapter 13D is not subject to forfeiture of office if the member was acting in reliance on an opinion.

Sec. 2. Minnesota Statutes 2008, section 13.08, subdivision 4, is amended to read:

Subd. 4. Action to compel compliance. (a) Actions to compel compliance may be brought either under section 13.085 or this subdivision. For actions under this subdivision, in addition to the remedies provided in subdivisions 1 to 3 or any other law, any aggrieved person seeking to enforce the person's rights under this chapter or obtain access to data may bring an action in district court to compel compliance with this chapter and may recover costs and disbursements, including reasonable attorney's fees, as determined by the court. If the court determines that an action brought under this subdivision is frivolous and without merit and a basis in fact, it may award reasonable costs and attorney fees to the responsible authority. If the court issues an order to compel compliance under this subdivision, the court may impose a civil penalty of up to $1,000 against the government entity. This penalty is payable to the state general fund and is in addition to damages under subdivision 1. The matter shall be heard as soon as possible. In an action involving a request for government data under section 13.03 or 13.04, the court may inspect in camera the government data in dispute, but shall conduct its hearing in public and in a manner that protects the security of data classified as not public. If the court issues an order to compel compliance under this subdivision, the court shall forward a copy of the order to the commissioner of administration.

(b) In determining whether to assess a civil penalty under this subdivision, the court or other tribunal shall consider whether the government entity has substantially complied with general data practices under this chapter, including but not limited to, whether the government entity has:

(1) designated a responsible authority under section 13.02, subdivision 16;

(2) designated a data practices compliance official under section 13.05, subdivision 13;

(3) prepared the public document that names the responsible authority and describes the records and data on individuals that are maintained by the government entity under section 13.05, subdivision 1;

(4) developed public access procedures under section 13.03, subdivision 2; procedures to guarantee the rights of data subjects under section 13.05, subdivision 8; and procedures to ensure that data on individuals are accurate and complete and to safeguard the data's security under section 13.05, subdivision 5;

(5) acted in conformity with an opinion issued under section 13.072 that was sought by a government entity or another person; or

(6) provided ongoing training to government entity personnel who respond to requests under this chapter.

(c) The court shall award reasonable attorney fees to a prevailing plaintiff who has brought an action under this subdivision if the government entity that is the defendant in the action was also the subject of a written opinion issued under section 13.072 and the court finds that the opinion is directly related to the cause of action being litigated and that the government entity did not act in conformity with the opinion.
Sec. 3. [13.085] ADMINISTRATIVE REMEDY.

Subdivision 1. Definition. As used in this section, "office" means the Office of Administrative Hearings.

Subd. 2. Complaints. (a) A complaint alleging a violation of this chapter for which an order to compel compliance is requested may be filed with the office. An action to compel compliance does not include procedures pursuant to section 13.04, subdivision 4 or 4a. An action may not be filed under this section in matters involving requests for educational data classified under section 13.32.

(b) The complaint must be filed with the office within two years after the occurrence of the act or failure to act that is the subject of the complaint, except that if the act or failure to act involves concealment or misrepresentation by a government entity that could not be discovered during that period, the complaint may be filed with the office within one year after the concealment or misrepresentation is discovered.

(c) The complaint must be made in writing, submitted under oath, and detail the factual basis for the claim that a violation of law has occurred. The office may prescribe a standard form for the complaint. The complaint must be accompanied by a filing fee of $1,000 or a bond to guarantee the payment of this fee.

(d) Upon receipt of a filed complaint, the office must immediately notify the respondent and, if known, the applicable government entity's responsible authority, if the responsible authority is not otherwise named as the respondent. The office must provide the respondent with a copy of the complaint by the most expeditious means available. Notice to a responsible authority must be delivered by certified mail. The office must also notify, to the extent practicable, any individual or entity that is the subject of all or part of the data in dispute.

(e) The office must notify the commissioner of administration of an action filed under this section. Proceedings under this section must be dismissed if a request for an opinion from the commissioner was accepted on the matter under section 13.072 before the complaint was filed, and the complainant's filing fee must be refunded.

(f) The respondent must file a response to the complaint within 15 business days of receipt of the notice. For good cause shown, the office may extend the time for filing a response.

Subd. 3. Probable cause review. (a) The chief administrative law judge must assign an administrative law judge to review each complaint. Within 20 business days after a response is filed, or the respondent's time to file the response, including any extension, has expired, the administrative law judge must make a preliminary determination for its disposition as follows:

(1) If the administrative law judge determines that the complaint and any timely response of the respondent agency do not present sufficient facts to believe that a violation of this chapter has occurred, the complaint must be dismissed.

(2) If the administrative law judge determines that the complaint and any timely response of the respondent agency do present sufficient facts to believe that a violation of this chapter has occurred, the judge must schedule a hearing as provided in subdivision 4.

(b) The office must notify all parties of the determination made under paragraph (a). The notice must provide as follows:

(1) If the complaint is scheduled for a hearing, the notice must identify the time and place of the hearing and inform all parties that they may submit evidence, affidavits, documentation, and argument for consideration by the administrative law judge.
(2) If the complaint is dismissed for failure to present sufficient facts to believe that a violation of this chapter has occurred, the notice must inform the parties of the right of the complainant to seek reconsideration of the decision on the record by the chief administrative law judge, as provided in paragraph (c).

(c) A petition for reconsideration may be filed no later than five business days after a complaint is dismissed for failure to present sufficient facts to believe that a violation of this chapter has occurred. The chief administrative law judge must review the petition and make a final ruling within ten business days after its receipt. If the chief administrative law judge determines that the assigned administrative law judge made a clear material error, the chief administrative law judge must schedule the matter for a hearing as provided in subdivision 4.

Subd. 4. *Hearing; procedure.* (a) A hearing on a complaint must be held within 30 business days after the parties are notified that a hearing will be held. An oral hearing to resolve questions of law may be waived upon consent of all parties and the presiding administrative law judge. For good cause shown, the judge may delay the date of a hearing by no more than ten business days. The judge may continue a hearing to enable the parties to submit additional evidence or testimony.

(b) The administrative law judge must consider any evidence and argument submitted until the hearing record is closed, including affidavits and documentation.

(c) All hearings, and any records relating to the hearing, must be open to the public, except that the judge may inspect in camera any government data in dispute and shall otherwise conduct the hearing and maintain records in a manner that protects the security of data classified or alleged to be classified as not public. A hearing may be conducted by conference telephone call or interactive audio/video system, at the discretion of the presiding judge, and upon consent of all parties.

Subd. 5. *Disposition.* (a) Following a hearing, the judge must determine whether the violation alleged in the complaint occurred and must make at least one of the following dispositions. The judge may:

1. dismiss the complaint;
2. find that an act or failure to act constituted a violation of this chapter;
3. impose a civil penalty against the respondent of up to $300;
4. issue an order compelling the respondent to comply with a provision of law that has been violated, and may establish a deadline for production of data, if necessary; and
5. refer the complaint to the appropriate prosecuting authority for consideration of criminal charges.

(b) In determining whether to assess a civil penalty, the office shall consider the factors described in section 13.08, subdivision 4.

(c) The judge must render a decision on a complaint within ten business days after the hearing record closes. If the judge determines that a government entity has violated a provision of law and issues an order to compel compliance, the office shall forward a copy of the order to the commissioner of administration. Any order issued pursuant to this section is enforceable through the district court for the district in which the respondent is located.

(d) A party aggrieved by a final decision on a complaint filed under this section is entitled to judicial review as provided in sections 14.63 to 14.69. Proceedings on a complaint are not a contested case within the meaning of chapter 14 and are not otherwise governed by chapter 14. An action in district court to enforce an order of the office may not be brought until at least 30 days after the order is issued.
(e) A decision of the office under this section is not controlling in any subsequent action brought in district court alleging the same violation and seeking damages.

(f) A government entity or person that releases not public data pursuant to an order under this section is immune from civil and criminal liability for that release. A government entity or person that acts in conformity with an order issued under this section to the government entity or to any other person is not liable for compensatory or exemplary damage or awards of attorney fees for acting in conformity with that order in actions under this section or section 13.08, or for a penalty under section 13.09.

Subd. 6. Costs; attorney fees. (a) A rebuttable presumption shall exist that a complainant who substantially prevails on the merits in an action brought under this section is entitled to an award of reasonable attorney fees, not to exceed $5,000. An award of attorney fees may be denied if the judge determines that the violation is merely technical or that there is a genuine uncertainty about the meaning of the governing law.

(b) Reasonable attorney fees, not to exceed $5,000, must be awarded to a substantially prevailing complainant if the government entity that is the respondent in the action was also the subject of a written opinion issued under section 13.072 and the administrative law judge finds that the opinion is directly related to the matter in dispute and that the government entity did not act in conformity with the opinion.

(c) The office shall refund the filing fee of a substantially prevailing complainant in full, less $50, and the office's costs in conducting the matter shall be billed to the respondent, not to exceed $1,000.

(d) A complainant who does not substantially prevail on the merits is entitled to a refund of the filing fee, less any costs incurred by the office in conducting the matter.

(e) If the administrative law judge determines that a complaint is frivolous, or brought for purposes of harassment, the judge must order that the complainant pay the respondent's reasonable attorney fees, not to exceed $5,000. The complainant is not entitled to a refund of the filing fee.

(f) The court shall award the complainant costs and attorney fees incurred in bringing an action in district court to enforce an order of the office under this chapter.

Subd. 7. Special account; appropriation. Proceeds collected by the office from filing fees and bonds submitted under this section shall be deposited into the administrative hearings account in the state treasury and are appropriated to the office for use in administering the requirements of this section. By September 1 each year, the chief administrative law judge must report to the chairs and ranking minority members of the house of representatives and senate finance divisions with jurisdiction over the office on receipt and expenditure of money under this section in the prior fiscal year.

(c) If the employee was under age 55 and has credit for at least three years of allowable service credit on the date of death if the employee was employed before July 1, 2010, or for at least five years of allowable service if the employee was employed after June 30, 2010, but did not yet qualify for retirement, the surviving spouse may elect to receive a 100 percent joint and survivor annuity based on the age of the employee and surviving spouse at the time of death. (a) An employee who has at least three years of allowable service if employed before July 1, 2010, or who has at least five years of allowable service if employed after June 30, 2010, when termination occurs may elect to leave the accumulated contributions in the fund and thereby be entitled to a deferred retirement annuity. The annuity must be computed under the law in effect when state service terminated, on the basis of the allowable service credited to the person before the termination of service.

(b) An employee on layoff or on leave of absence without pay, except a leave of absence for health reasons, and who does not return to state service must have an annuity, deferred annuity, or other benefit to which the employee may become entitled computed under the law in effect on the employee's last working day.

(c) No application for a deferred annuity may be made more than 60 days before the time the former employee reaches the required age for entitlement to the payment of the annuity. The deferred annuity begins to accrue no earlier than 60 days before the date the application is filed in the office of the system, but not (1) before the date on which the employee reaches the required age for entitlement to the annuity nor (2) before the day following the termination of state service in a position which is not covered by the retirement system.

(d) Application for the accumulated contributions left on deposit with the fund may be made at any time following the date of the termination of service.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 7. Minnesota Statutes 2008, section 352.72, subdivision 1, is amended to read:

Subdivision 1. Entitlement to annuity. (a) Any person who has been an employee covered by a retirement system listed in paragraph (b) is entitled when qualified to an annuity from each fund if total allowable service in all funds or in any two of these funds totals three or more years if employed before July 1, 2010, or totals five or more years if employed after June 30, 2010.

(b) This section applies to the Minnesota State Retirement System, the Public Employees Retirement Association including the Public Employees Retirement Association police and fire fund, the Teachers Retirement Association, the State Patrol Retirement Association, or any other public employee retirement system in the state with a similar provision, except as noted in paragraph (c).

(c) This section does not apply to other funds providing benefits for police officers or firefighters.

(d) No portion of the allowable service upon which the retirement annuity from one fund is based shall be again used in the computation for benefits from another fund. No refund may have been taken from any one of these funds since service entitling the employee to coverage under the system or the employee's membership in any of the
associations last terminated. The annuity from each fund must be determined by the appropriate provisions of the law except that the requirement that a person must have at least a specific number of years of allowable service in the respective system or association does not apply for the purposes of this section if the combined service in two or more of these funds equals at least the longest period of allowable service of any of the applicable retirement plans.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 8. Minnesota Statutes 2008, section 352.72, subdivision 2, is amended to read:

Subd. 2. Computation of deferred annuity. (a) The deferred annuity, if any, accruing under subdivision 1, or section 352.22, subdivision 3, must be computed as provided in section 352.22, subdivision 3, on the basis of allowable service before termination of state service and augmented as provided herein. The required reserves applicable to a deferred annuity or to an annuity for which a former employee was eligible but had not applied or to any deferred segment of an annuity must be determined as of the date the benefit begins to accrue and augmented by interest compounded annually from the first day of the month following the month in which the employee ceased to be a state employee, or July 1, 1971, whichever is later, to the first day of the month in which the annuity begins to accrue. The rates of interest used for this purpose must be five percent compounded annually until January 1, 1981, and three percent compounded annually thereafter until January 1 of the year following the year in which the former employee attains age 55 or until January 1, 2011, whichever is earlier, and from that date the January 1 next following the attainment of age 55 to the effective date of retirement or until January 1, 2011, whichever is earlier, the rate is five percent compounded annually if the employee became an employee before July 1, 2006, and at 2.5 percent compounded annually until January 1, 2011, if the employee becomes an employee after June 30, 2006, and two percent compounded annually after December 31, 2010, irrespective of when the employee became a state employee. If a person has more than one period of uninterrupted service, the required reserves related to each period must be augmented by interest under this subdivision. The sum of the augmented required reserves so determined is the present value of the annuity. "Uninterrupted service" for the purpose of this subdivision means periods of covered employment during which the employee has not been separated from state service for more than two years. If a person repays a refund, the service restored by the repayment must be considered continuous with the next period of service for which the employee has credit with this system. The formula percentages used for each period of uninterrupted service must be those applicable to a new employee. The mortality table and interest assumption used to compute the annuity must be those in effect when the employee files application for annuity. This section does not reduce the annuity otherwise payable under this chapter.

(b) The retirement annuity or disability benefit of, or the survivor benefit payable on behalf of, a former state employee who terminated service before July 1, 1997, which is not first payable until after June 30, 1997, must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and the tables adopted by the board and approved by the actuary retained under section 356.214.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 9. Minnesota Statutes 2009 Supplement, section 352.75, subdivision 4, is amended to read:

Subd. 4. Existing deferred retirees. Any former member of the former Metropolitan Transit Commission-Transit Operating Division employees retirement fund is entitled to a retirement annuity from the Minnesota State Retirement System if the employee:

(1) is not an active employee of the Transit Operating Division of the former Metropolitan Transit Commission on July 1, 1978; (2) has at least ten years of active continuous service with the Transit Operating Division of the former Metropolitan Transit Commission as defined by the former Metropolitan Transit Commission-Transit
Operating Division employees retirement plan document in effect on December 31, 1977; (3) has not received a refund of contributions; (4) has not retired or begun receiving an annuity or benefit from the former Metropolitan Transit Commission-Transit Operating Division employees retirement fund; (5) is at least 55 years old; and (6) submits a valid application for a retirement annuity to the executive director of the Minnesota State Retirement System.

The person is entitled to a retirement annuity in an amount equal to the normal old age retirement allowance calculated under the former Metropolitan Transit Commission-Transit Operating Division employees retirement fund plan document in effect on December 31, 1977, subject to an early retirement reduction or adjustment in amount on account of retirement before the normal retirement age specified in that former Metropolitan Transit Commission-Transit Operating Division employees retirement fund plan document.

The deferred retirement annuity of any person to whom this subdivision applies must be augmented. The required reserves applicable to the deferred retirement annuity, determined as of the date the allowance begins to accrue using an appropriate mortality table and an interest assumption of five percent, must be augmented by interest at the rate of five percent per year compounded annually from January 1, 1978, to January 1, 1981, and three percent per year compounded annually from January 1, 1981, until the date that the annuity begins to accrue or June 30, 2010, whichever is earlier, and two percent after June 30, 2010, to the first day of the month in which the annuity begins to accrue. After the commencement of the retirement annuity, the annuity is eligible for postretirement adjustments under section 356.415. On applying for a retirement annuity under this subdivision, the person is entitled to elect a joint and survivor optional annuity under section 352.116, subdivision 3.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

The optional annuity forms must be actuarially equivalent to the normal single life annuity form provided in subdivision 2. (1) a contribution sufficiency exists if the total of the employee contribution under subdivision 2, the employer contribution under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement. For purposes of this section, and

(2) a contribution deficiency exists if the total of the employee contributions under subdivision 2, the employer contributions under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision is less than the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

(b) Employee and employer contributions under subdivisions 2 and 3 must be adjusted:
(1) If, on or after July 1, 2010, the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicates that there is a contribution sufficiency under paragraph (a) equal to or greater than 0.5 one percent of covered payroll and that the sufficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be decreased as determined under paragraph (c) to a level such that the sufficiency equals is no more greater than 0.25 one percent of covered payroll based on the most recent actuarial valuation; or

(2) If, on or after July 1, 2010, the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicates that there is a contribution deficiency equal to or greater than 0.5 percent of covered payroll and that the deficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be increased as determined under paragraph (c) to a level such that no deficiency exists based on the most recent actuarial valuation.

(c) The contribution rate increase or decrease must be determined by the executive director of the Public Employees Retirement Association, must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement on or before the next February 1, and, if the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, is effective on the next July 1 following the determination by the executive director that a contribution deficiency or sufficiency has existed for two consecutive fiscal years based on the most recent actuarial valuations under section 356.215. If the actuarially required contribution exceeds or is less than the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, by more than 0.5 one percent of covered payroll, the coordinated program employee and employer contribution rates under subdivisions 2 and 3 must be adjusted decreased incrementally over one or more years by no more than 0.25 percent of pay each for employee and employer matching contribution rates to a level such that there remains a contribution sufficiency of no more than 0.25 at least one percent of covered payroll. No contribution rate decrease may be made until at least two years have elapsed since any adjustment under this subdivision has been fully implemented.

(d) If the actuarially required contribution exceeds the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, the employee and matching employer contribution rates must be increased equally to eliminate that contribution deficiency. If the contribution deficiency is:

(3) Greater than four percent, the incremental increase may be up to 0.75 percent for the employee and matching employer contribution.

(e) Any recommended adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following receipt of the most recent annual actuarial valuation prepared under section 356.215. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the recommended adjustment becomes effective on the first day of the first full payroll period in the fiscal year following receipt of the most recent actuarial valuation that gave rise to the adjustment.
(f) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially required contributions that are more than the total combined employee and employer contributions under subdivisions 2, 3, and 3a.

(g) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be recommended, the executive director must review any need for a change in actuarial assumptions, as recommended by the actuary retained under section 356.214 in the most recent experience study of the general employees retirement plan prepared under section 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement that may result in an increase in the actuarially required contribution and must report to the Legislative Commission on Pensions and Retirement any recommendation by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.

(h) No contribution sufficiency in excess of one percent of covered pay may be proposed to be used to increase benefits, and no benefit increase may be proposed that would initiate an automatic adjustment to increase contributions under this subdivision. Any proposed benefit improvement must include a recommendation, prepared by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the Legislative Commission on Pensions and Retirement as provided under section 356.214, subdivision 4, on how the benefit modification will be funded.

(a) The deferred annuity accruing under subdivision 1, or under sections 353.34, subdivision 3, and 353.68, subdivision 4, must be computed on the basis of allowable service prior to the termination of public service and augmented as provided in this paragraph subdivision. The required reserves applicable to a deferred annuity, or to any deferred segment of an annuity must be determined as of the first day of the month following the month in which the former member ceased to be a public employee, or July 1, 1971, whichever is later. annuity must be augmented at the following applicable rate of or rates:

whichever is later, until January 1 of the year following the year in which the former member attains age 55 and;

percent compounded annually if the employee became an employee before July 1, 2006, and at 2.5 percent

refund, the restored service must be considered as continuous with the next period of service for which the employee
has credit with this association. This section must not reduce the annuity otherwise payable under this chapter. This
paragraph applies to individuals who become deferred annuitants on or after July 1, 1971. For a member who

The required reserves for the annuity which had accrued when the member ceased to render teaching service must be augmented, as further specified in this subdivision, by the applicable interest rate compounded annually from the first day of the month following the month during which the member ceased to render teaching service to the effective date of retirement.

(c) No augmentation is not creditable if the deferral period is less than three months or if deferral commenced before July 1, 1971.

For the purposes of this subdivision, "period of uninterrupted service" means a period of covered teaching service during which the member has not been separated from active service for more than one fiscal year.

(g) If a person repays a refund, the service restored by the repayment must be considered as continuous with the next period of service for which the person has allowable service credit in the Teachers Retirement Association.

(h) If a person does not render teaching service in any one fiscal year or more consecutive fiscal years and then resumes teaching service, the formula percentages used from the date of the resumption of teaching service must be those applicable to new members.

(i) The mortality table and interest rate actuarial assumption used to compute the annuity must be the applicable mortality table established by the board under section 354.07, subdivision 1, and the interest rate actuarial assumption under section 356.215 in effect when the member retires.

(j) In no case may the annuity payable under this subdivision be less than the amount of annuity payable under section 354.44, subdivision 6.

EFFECTIVE DATE. This section is effective July 1, 2010.

Sec. 60. Minnesota Statutes 2008, section 354A.27, subdivision 6, is amended to read:

Subd. 6. Additional increase Calculation of postretirement adjustments; transitional provision. (a) In addition to the postretirement increases granted under subdivision 5, an additional percentage increase must be computed and paid under this subdivision.

(b) The board of trustees shall determine the number of annuitants or benefit recipients who have been receiving an annuity or benefit for at least 12 months as of the current June 30. These recipients are entitled to receive the surplus investment earnings additional postretirement increase.

(c) Annually, as of each June 30, the board shall determine the five-year annualized rate of return attributable to the assets of the Duluth Teachers Retirement Fund Association under the formula or formulas specified in section 11A.04, clause (11).
(d) The board shall determine the amount of excess five year annualized rate of return over the preretirement interest assumption as specified in section 356.215.

(e) The additional percentage increase must be determined by multiplying the quantity one minus the rate of contribution deficiency, as specified in the most recent actuarial report of the actuary retained under section 356.214, times the rate of return excess as determined in paragraph (d).

(f) The additional increase is payable to all eligible annuitants or benefit recipients on the following January 1.

(a) For purposes of computing postretirement adjustments after the effective date of this section for eligible benefit recipients of the Duluth Teachers Retirement Fund Association, the funding ratio of the plan, as determined by dividing the market value of assets by the actuarial accrued liability as reported in the most recent actuarial valuation prepared under sections 356.214 and 356.215, determines the postretirement increase as follows:

<table>
<thead>
<tr>
<th>Funding Ratio</th>
<th>Postretirement Increase</th>
</tr>
</thead>
<tbody>
<tr>
<td>less than 80 percent</td>
<td>0 percent</td>
</tr>
<tr>
<td>at least 80 percent but less than 90%</td>
<td>1 percent</td>
</tr>
<tr>
<td>at least 90 percent</td>
<td>2 percent</td>
</tr>
</tbody>
</table>

(b) If the funding ratio of the plan based on actuarial value, rather than market value, is at least 90 percent as reported in the most recent actuarial valuation prepared under sections 356.214 and 356.215, this subdivision expires and subsequent postretirement increases must be paid as specified under subdivision 7.

EFFECTIVE DATE. This section is effective July 1, 2010.

Sec. 61. Minnesota Statutes 2008, section 354A.27, is amended by adding a subdivision to read:

Subd. 7. Calculation of postretirement adjustments. (a) This subdivision applies if subdivision 6 has expired.

(b) A percentage adjustment must be computed and paid under this subdivision to eligible persons under subdivision 5. This adjustment is determined by reference to the Consumer Price Index for urban wage earners and clerical workers all items index as reported by the Bureau of Labor Statistics within the United States Department of Labor each year as part of the determination of annual cost-of-living adjustments to recipients of federal old-age, survivors, and disability insurance. For calculations of cost-of-living adjustments under paragraph (c), the term "average third quarter Consumer Price Index value" means the sum of the monthly index values as initially reported by the Bureau of Labor Statistics for the months of July, August, and September, divided by 3.

(c) Before January 1 of each year, the executive director must calculate the amount of the cost-of-living adjustment by dividing the most recent average third quarter index value by the same average third quarter index value from the previous year, subtract one from the resulting quotient, and express the result as a percentage amount, which must be rounded to the nearest one-tenth of one percent.

(d) The amount calculated under paragraph (c) is the full cost-of-living adjustment to be applied as a permanent increase to the regular payment of each eligible member on January 1 of the next calendar year. For any eligible member whose effective date of benefit commencement occurred during the calendar year before the cost-of-living adjustment is applied, the full increase amount must be prorated on the basis of whole calendar quarters in benefit payment status in the calendar year prior to the January 1 on which the cost-of-living adjustment is applied, calculated to the third decimal place.

(e) The adjustment must not be less than zero nor greater than five percent.
(f) If the funding ratio of the plan as determined in the most recent actuarial valuation using the actuarial value of assets is less than 80 percent there will be no postretirement adjustment the following January 1.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 62. Minnesota Statutes 2008, section 354A.31, subdivision 1, is amended to read:

Subdivision 1. **Age and service requirements.** Any coordinated member or former coordinated member of the St. Paul Teachers Retirement Fund Association who has ceased to render teaching service for the school district in which the teachers retirement fund association exists and who has either attained the age of at least 55 years with not less than three years of allowable service credit or received credit for not less than 30 years of allowable service regardless of age, shall be entitled upon written application to a retirement annuity. Any coordinated member or former coordinated member of the Duluth Teachers Retirement Fund Association who has ceased to render teaching service for the school district in which the teacher retirement fund association exists and who has either attained the age of at least 55 years with not less than three years of allowable service credit if the member became an employee before July 1, 2010, or not less than five years of allowable service credit if the member became an employee after June 30, 2010, or received service credit for not less than 30 years of allowable service regardless of age, shall be entitled upon written application to a retirement annuity.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 63. Minnesota Statutes 2008, section 354A.35, subdivision 1, is amended to read:

Subdivision 1. **Death before retirement; refund.** If a coordinated member or former coordinated member dies prior to retirement or prior to the receipt of any retirement annuity or other benefit payment which is or may be payable and a surviving spouse optional annuity is not payable pursuant to subdivision 2, a refund shall be paid to the person's surviving spouse, or if there is none, to the person's designated beneficiary, or if there is none, to the legal representative of the person's estate. For a coordinated member or former coordinated member of the St. Paul Teachers Retirement Fund Association, the refund shall be in an amount equal to the person's accumulated employee contributions plus interest at the rate of six percent per annum compounded annually. For a coordinated member or former coordinated member of the Duluth Teachers Retirement Fund Association, the refund shall be in an amount equal to the person's accumulated employee contributions plus interest at the rate of six percent per annum compounded annually to July 1, 2010, and four percent per annum compounded annually thereafter.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 64. Minnesota Statutes 2008, section 354A.37, subdivision 2, is amended to read:

Subd. 2. **Eligibility for deferred retirement annuity.** (a) Any coordinated member who ceases to render teaching services for the school district in which the teachers retirement fund association is located, with sufficient allowable service credit to meet the minimum service requirements specified in section 354A.31, subdivision 1, shall be entitled to a deferred retirement annuity in lieu of a refund pursuant to subdivision 1. The deferred retirement annuity shall be computed pursuant to section 354A.31 and shall be augmented as provided in this subdivision. The deferred annuity shall commence upon application after the person on deferred status attains at least the minimum age specified in section 354A.31, subdivision 1.

(b) The monthly annuity amount that had accrued when the member ceased to render teaching service must be augmented from the first day of the month following the month during which the member ceased to render teaching service to the effective date of retirement. There is no augmentation if this period is less than three months. For a member of the St. Paul Teachers Retirement Fund Association, the rate of augmentation is three percent compounded annually until January 1 of the year following the year in which the former member attains age 55, and
five percent compounded annually after that date to the effective date of retirement if the employee became an employee before July 1, 2006, and at 2.5 percent compounded annually if the employee becomes an employee after June 30, 2006. For a member of the Duluth Teachers Retirement Fund Association, the rate of augmentation is three percent compounded annually until January 1 of the year following the year in which the former member attains age 55, five percent compounded annually after that date to July 1, 2010, and two percent compounded annually after that date to the effective date of retirement if the employee became an employee before July 1, 2006, and at 2.5 percent compounded annually to July 1, 2010, and two percent compounded annually after that date to the effective date of retirement if the employee becomes an employee after June 30, 2006. If a person has more than one period of uninterrupted service, a separate average salary determined under section 354A.31 must be used for each period, and the monthly annuity amount related to each period must be augmented as provided in this subdivision. The sum of the augmented monthly annuity amounts determines the total deferred annuity payable. If a person repays a refund, the service restored by the repayment must be considered as continuous with the next period of service for which the person has credit with the fund. If a person does not render teaching services in any one fiscal year or more consecutive fiscal years and then resumes teaching service, the formula percentages used from the date of resumption of teaching service are those applicable to new members. The mortality table and interest assumption used to compute the annuity are the table established by the fund to compute other annuities, and the interest assumption under section 356.215 in effect when the member retires. A period of uninterrupted service for the purpose of this subdivision means a period of covered teaching service during which the member has not been separated from active service for more than one fiscal year.

(c) The augmentation provided by this subdivision applies to the benefit provided in section 354A.35, subdivision 2. The augmentation provided by this subdivision does not apply to any period in which a person is on an approved leave of absence from an employer unit.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 65. Minnesota Statutes 2008, section 354A.37, subdivision 3, is amended to read:

Subd. 3. **Computation of refund amount.** A former coordinated member of the St. Paul Teachers Retirement Fund Association who qualifies for a refund pursuant to subdivision 1 shall receive a refund equal to the amount of the former coordinated member's accumulated employee contributions with interest at the rate of six percent per annum compounded annually. A former coordinated member of the Duluth Teachers Retirement Fund Association who qualifies for a refund under subdivision 1 shall receive a refund equal to the amount of the former coordinated member's accumulated employee contributions with interest at the rate of six percent per annum compounded annually to July 1, 2010, and four percent per annum compounded annually thereafter.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 66. Minnesota Statutes 2008, section 354A.37, subdivision 4, is amended to read:

Subd. 4. **Certain refunds at normal retirement age.** Any coordinated member who has attained the normal retirement age with less than ten years of allowable service credit and has terminated active teaching service shall be entitled to a refund in lieu of a proportionate annuity pursuant to section 356.32. The refund for a member of the St. Paul Teachers Retirement Fund Association shall be equal to the coordinated member's accumulated employee contributions plus interest at the rate of six percent compounded annually. The refund for a member of the Duluth Teachers Retirement Fund Association shall be equal to the coordinated member's accumulated employee contributions plus interest at the rate of six percent compounded annually to July 1, 2010, and four percent per annum compounded annually thereafter.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

The select calculation is: during the designated select period, a designated percentage rate is multiplied by the result of the designated integer minus T, where T is the number of completed years of service, and is added to the applicable future salary increase assumption. The designated select period is five years and the designated integer is five for the general state employees retirement plan and the general public employees retirement plan. The designated select period is ten years and the designated integer is ten for all other retirement plans covered by this clause. The designated percentage rate is: (1) 0.2 percent for the correctional state employees retirement plan, the State Patrol retirement plan, the public employees police and fire plan, and the local government correctional service plan; (2) 0.6 percent for the general state employees retirement plan and the general public employees retirement plan; and (3) 0.3 percent for the teachers retirement plan, the Duluth Teachers Retirement Fund Association, and the St. Paul Teachers Retirement Fund Association. The select calculation for the Duluth Teachers Retirement Fund Association is 8.00 percent per year for service years one through seven, 7.25 percent per year for service years seven and eight, and 6.50 percent per year for service years eight and nine.

(d) After July 1, 2010, the assumptions set forth in paragraphs (b) and (c) continue to apply, unless a different salary assumption or a different payroll increase assumption:

(1) has been proposed by the governing board of the applicable retirement plan;

(2) is accompanied by the concurring recommendation of the actuary retained under section 356.214, subdivision 1, if applicable, or by the approved actuary preparing the most recent actuarial valuation report if section 356.214 does not apply; and

(3) has been approved or deemed approved under subdivision 18.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 68. Minnesota Statutes 2009 Supplement, section 356.215, subdivision 11, is amended to read:

Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating the level normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial reporting purposes indicating the additional annual contribution sufficient to amortize the unfunded actuarial accrued liability and must contain an exhibit for contribution determination purposes indicating the additional contribution sufficient to amortize the unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph (c), the additional contribution must be calculated on a level percentage of covered payroll basis by the established date for full funding in effect when the valuation is prepared, assuming annual payroll growth at the applicable percentage rate set forth in subdivision 8, paragraph (c). For all other retirement plans, the additional annual contribution must be calculated on a level annual dollar amount basis.

(b) For any retirement plan other than the Minneapolis Employees Retirement Fund, the general employees retirement plan of the Public Employees Retirement Association, the general state employees retirement plan of the Minnesota State Retirement System, and the St. Paul Teachers Retirement Fund Association, if there has not been a change in the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, which change or changes, by itself or by themselves and without inclusion of any other items of increase or decrease produce a net increase in the unfunded actuarial accrued liability of the fund, the established date for full funding is the first actuarial valuation date occurring after June 1, 2020.

(c) For any retirement plan other than the Minneapolis Employees Retirement Fund and the general employees retirement plan of the Public Employees Retirement Association, if there has been a change in any or all of the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by itself or by themselves without inclusion of any other items of increase or decrease produce a net increase in the unfunded actuarial accrued liability in the fund, the established date for full funding must be determined using the following procedure:

(i) the unfunded actuarial accrued liability of the fund must be determined in accordance with the plan provisions governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;
(ii) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the unfunded actuarial accrued liability amount determined under item (i) by the established date for full funding in effect before the change must be calculated using the interest assumption specified in subdivision 8 in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective must be calculated using the applicable interest assumption specified in subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the level annual dollar amortization contribution or level percentage calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by the total level annual dollar or level percentage amortization contribution computed under item (v) must be calculated using the interest assumption specified in subdivision 8 in effect after any applicable change, rounded to the nearest integral number of years, but not to exceed 30 years from the end of the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and not to be less than the period of years beginning in the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before the change; and

(vii) the period determined under item (vi) must be added to the date as of which the actuarial valuation was prepared and the date obtained is the new established date for full funding.

(d) For the Minneapolis Employees Retirement Fund, the established date for full funding is June 30, 2020.

(e) For the general employees retirement plan of the Public Employees Retirement Association, the established date for full funding is June 30, 2031.

(f) For the Teachers Retirement Association, the established date for full funding is June 30, 2037.

(g) For the correctional state employees retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2038.

(h) For the judges retirement plan, the established date for full funding is June 30, 2038.

(i) For the public employees police and fire retirement plan, the established date for full funding is June 30, 2038.

(j) For the St. Paul Teachers Retirement Fund Association, the established date for full funding is June 30 of the 25th year from the valuation date. In addition to other requirements of this chapter, the annual actuarial valuation shall contain an exhibit indicating the funded ratio and the deficiency or sufficiency in annual contributions when comparing liabilities to the market value of the assets of the fund as of the close of the most recent fiscal year.
(k) For the general state employees retirement plan of the Minnesota State Retirement System, the established
date for full funding is June 30, 2040.

(l) For the retirement plans for which the annual actuarial valuation indicates an excess of valuation assets over
the actuarial accrued liability, the valuation assets in excess of the actuarial accrued liability must be recognized as a
reduction in the current contribution requirements by an amount equal to the amortization of the excess expressed as
a level percentage of pay over a 30-year period beginning anew with each annual actuarial valuation of the plan.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 69. Minnesota Statutes 2008, section 356.30, subdivision 1, is amended to read:

Subdivision 1. Eligibility; computation of annuity. (a) Notwithstanding any provisions of the laws governing
the retirement plans enumerated in subdivision 3, a person who has met the qualifications of paragraph (b) may elect
to receive a retirement annuity from each enumerated retirement plan in which the person has at least one-half year
of allowable service, based on the allowable service in each plan, subject to the provisions of paragraph (c).

(b) A person may receive, upon retirement, a retirement annuity from each enumerated retirement plan in which
the person has at least one-half year of allowable service, and augmentation of a deferred annuity calculated at the
appropriate rate under the laws governing each public pension plan or fund named in subdivision 3, based on the
date of the person's initial entry into public employment from the date the person terminated all public service if:

(1) the person has allowable service totaling an amount that allows the person to receive an annuity in any two or
more of the enumerated plans;

(2) the person has sufficient allowable service in total that equals or exceeds the applicable service credit vesting
requirement of the retirement plan with the longest applicable service credit vesting requirement; and

(3) the person has not begun to receive an annuity from any enumerated plan or the person has made
application for benefits from each applicable plan and the effective dates of the retirement annuity with each plan
under which the person chooses to receive an annuity are within a one-year period.

(c) The retirement annuity from each plan must be based upon the allowable service, accrual rates, and average
salary in the applicable plan except as further specified or modified in the following clauses:

(1) the laws governing annuities must be the law in effect on the date of termination from the last period of
public service under a covered retirement plan with which the person earned a minimum of one-half year of
allowable service credit during that employment;

(2) the "average salary" on which the annuity from each covered plan in which the employee has credit in a
formula plan must be based on the employee's highest five successive years of covered salary during the entire
service in covered plans;

(3) the accrual rates to be used by each plan must be those percentages prescribed by each plan's formula as
continued for the respective years of allowable service from one plan to the next, recognizing all previous allowable
service with the other covered plans;

(4) the allowable service in all the plans must be combined in determining eligibility for and the application of
each plan's provisions in respect to reduction in the annuity amount for retirement prior to normal retirement
age; and
(5) the annuity amount payable for any allowable service under a nonformula plan of a covered plan must not be affected, but such service and covered salary must be used in the above calculation.

(d) This section does not apply to any person whose final termination from the last public service under a covered plan was before May 1, 1975.

(e) For the purpose of computing annuities under this section, the accrual rates used by any covered plan, except the public employees police and fire plan, the judges retirement fund, and the State Patrol retirement plan, must not exceed the percent specified in section 356.315, subdivision 4, per year of service for any year of service or fraction thereof. The formula percentage used by the judges retirement fund must not exceed the percentage rate specified in section 356.315, subdivision 8, per year of service for any year of service or fraction thereof. The accrual rate used by the public employees police and fire plan and the State Patrol retirement plan must not exceed the percentage rate specified in section 356.315, subdivision 6, per year of service for any year of service or fraction thereof. The accrual rate or rates used by the legislators retirement plan must not exceed 2.5 percent, but this limit does not apply to the adjustment provided under section 3A.02, subdivision 1, paragraph (c).

(f) Any period of time for which a person has credit in more than one of the covered plans must be used only once for the purpose of determining total allowable service.

(g) If the period of duplicated service credit is more than one-half year, or the person has credit for more than one-half year, with each of the plans, each plan must apply its formula to a prorated service credit for the period of duplicated service based on a fraction of the salary on which deductions were paid to that fund for the period divided by the total salary on which deductions were paid to all plans for the period.

(h) If the period of duplicated service credit is less than one-half year, or when added to other service credit with that plan is less than one-half year, the service credit must be ignored and a refund of contributions made to the person in accord with that plan's refund provisions.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 70. Minnesota Statutes 2008, section 356.302, subdivision 3, is amended to read:

Subd. 3. **General employee plan eligibility requirements.** A disabled member of a covered retirement plan who has credit for allowable service in a combination of general employee retirement plans is entitled to a combined service disability benefit if the member:

(1) is less than the normal retirement age on the date of the application for the disability benefit;

(2) has become totally and permanently disabled;

(3) has credit for allowable service in any combination of general employee retirement plans totaling at least three years the number of years required by the applicable retirement plan with the longest service credit requirement for disability benefit receipt:

(4) has credit for at least one-half year of allowable service with the current general employee retirement plan before the commencement of the disability;

(5) has at least three continuous years of allowable service credit by the general employee retirement plan or has at least a total of three years of allowable service credit by a combination of general employee retirement plans in a 72-month period during which no interruption of allowable service credit from a termination of employment exceeded 29 days; and
(6) was not receiving a retirement annuity or disability benefit from any covered general employee retirement plan at the time of the commencement of the disability.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 71. Minnesota Statutes 2008, section 356.302, subdivision 4, is amended to read:

1. has become occupationally disabled;
2. has credit for allowable service in any combination of public safety employee retirement plans totaling at least one year the minimum period of service credit required by the applicable retirement plan with the longest service credit eligibility requirement for the receipt of a duty-related disability benefit if the disability is duty-related or totaling at least three years the minimum period of service credit required by the applicable retirement plan with the longest service credit eligibility requirement for a disability benefit that is not duty-related;
3. has credit for at least one-half year of allowable service with the current public safety employee retirement plan before the commencement of the disability; and
4. was not receiving a retirement annuity or disability benefit from any covered public safety employee retirement plan at the time of the commencement of the disability.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 72. Minnesota Statutes 2008, section 356.302, subdivision 5, is amended to read:

Subd. 5. **General and public safety plan eligibility requirements.** A disabled member of a covered retirement plan who has credit for allowable service in a combination of both a public safety employee retirement plan and general employee retirement plan must meet the qualifying requirements in subdivisions 3 and 4 to receive a combined service disability benefit from the applicable general employee and public safety employee retirement plans, except that the person need only be a member of a covered retirement plan at the time of the commencement of the disability, that the person must have allowable service credit for the applicable retirement plan with the longest service credit eligibility requirement for the receipt of a disability benefit, and that the minimum allowable service requirements of subdivisions 3, clauses (3) and (4), and 4, clauses (3) and (4), may be met in any combination of covered retirement plans.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 73. Minnesota Statutes 2008, section 356.303, subdivision 2, is amended to read:

1. had credit for sufficient allowable service in any combination of covered retirement plans to meet any the minimum allowable service credit requirement of the applicable covered retirement fund with the longest allowable service credit requirement for qualification for a survivor benefit or annuity;
(2) had credit for at least one-half year of allowable service with the most recent covered retirement plan before the date of death and was an active member of that covered retirement plan on the date of death; and

(3) was not receiving a retirement annuity from any covered retirement plan on the date of death.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 74. Minnesota Statutes 2008, section 356.315, subdivision 5, is amended to read:

Subd. 5. **Correctional plan members.** The applicable benefit accrual rate is 2.4 percent if employed as a correctional state employee before July 1, 2010, or 2.2 percent if employed as a correctional state employee after June 30, 2010.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 75. Minnesota Statutes 2009 Supplement, section 356.415, subdivision 1, is amended to read:

Subdivision 1. **Annual postretirement adjustments; generally.** (a) Except as otherwise provided in subdivision 1a, 1b, 1c, or 1d, retirement annuity, disability benefit, or survivor benefit recipients of a covered retirement plan are entitled to a postretirement adjustment annually on January 1, as follows:

(1) a postretirement increase of 2.5 percent must be applied each year, effective January 1, to the monthly annuity or benefit of each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months prior to the January 1 increase; and

(2) for each annuitant or benefit recipient who has been receiving an annuity or a benefit amount for at least one full month, an annual postretirement increase of 1/12 of 2.5 percent for each month that the person has been receiving an annuity or benefit must be applied, effective on January 1 following the calendar year in which the person has been retired for less than 12 months.

(b) The increases provided by this section subdivision commence on January 1, 2010.

(c) An increase in annuity or benefit payments under this section must be made automatically unless written notice is filed by the annuitant or benefit recipient with the executive director of the covered retirement plan requesting that the increase not be made.

(d) The retirement annuity payable to a person who retires before becoming eligible for Social Security benefits and who has elected the optional payment as provided in section 353.29, subdivision 6, or 354.35 must be treated as the sum of a period certain retirement annuity and a life retirement annuity for the purposes of any postretirement adjustment. The period certain retirement annuity plus the life retirement annuity must be the annuity amount payable until age 62 for section 353.29, subdivision 6, or age 62, 65, or normal retirement age, as selected by the member at retirement, for an annuity amount payable under section 354.35. A postretirement adjustment granted on the period certain retirement annuity must terminate when the period certain retirement annuity terminates.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

under section 352.116, subdivision 1, paragraph (a), to age 55 and one-half of the early retirement reduction from
age 55 to the age payment begins.

(c) If the employee was under age 55 and has credit for at least three years of allowable service credit on the date
of death if the employee was employed before July 1, 2010, or for at least five years of allowable service if the

Sec. 6. Minnesota Statutes 2008, section 352.22, subdivision 3, is amended to read:

Subd. 3. **Deferred annuity.** (a) An employee who has at least three years of allowable service if employed
before July 1, 2010, or who has at least five years of allowable service if employed after June 30, 2010, when
termination occurs may elect to leave the accumulated contributions in the fund and thereby be entitled to a deferred
retirement annuity. The annuity must be computed under the law in effect when state service terminated, on the
basis of the allowable service credited to the person before the termination of service.
(b) An employee on layoff or on leave of absence without pay, except a leave of absence for health reasons, and who does not return to state service must have an annuity, deferred annuity, or other benefit to which the employee may become entitled computed under the law in effect on the employee's last working day.

(c) No application for a deferred annuity may be made more than 60 days before the time the former employee reaches the required age for entitlement to the payment of the annuity. The deferred annuity begins to accrue no earlier than 60 days before the date the application is filed in the office of the system, but not (1) before the date on which the employee reaches the required age for entitlement to the annuity nor (2) before the day following the termination of state service in a position which is not covered by the retirement system.

(d) Application for the accumulated contributions left on deposit with the fund may be made at any time following the date of the termination of service.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 7. Minnesota Statutes 2008, section 352.72, subdivision 1, is amended to read:

Subdivision 1. **Entitlement to annuity.** (a) Any person who has been an employee covered by a retirement system listed in paragraph (b) is entitled when qualified to an annuity from each fund if total allowable service in all funds or in any two of these funds totals three or more years if employed before July 1, 2010, or totals five or more years if employed after June 30, 2010.

(b) This section applies to the Minnesota State Retirement System, the Public Employees Retirement Association including the Public Employees Retirement Association police and fire fund, the Teachers Retirement Association, the State Patrol Retirement Association, or any other public employee retirement system in the state with a similar provision, except as noted in paragraph (c).

(c) This section does not apply to other funds providing benefits for police officers or firefighters.

(d) No portion of the allowable service upon which the retirement annuity from one fund is based shall be again used in the computation for benefits from another fund. No refund may have been taken from any one of these funds since service entitling the employee to coverage under the system or the employee's membership in any of the associations last terminated. The annuity from each fund must be determined by the appropriate provisions of the law except that the requirement that a person must have at least three a specific number of years of allowable service in the respective system or association does not apply for the purposes of this section if the combined service in two or more of these funds equals three or more years, at least the longest period of allowable service of any of the applicable retirement plans.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 8. Minnesota Statutes 2008, section 352.72, subdivision 2, is amended to read:

Subd. 2. **Computation of deferred annuity.** (a) The deferred annuity, if any, accruing under subdivision 1, or section 352.22, subdivision 3, must be computed as provided in section 352.22, subdivision 3, on the basis of allowable service before termination of state service and augmented as provided herein. The required reserves applicable to a deferred annuity or to an annuity for which a former employee was eligible but had not applied to or any deferred segment of an annuity must be determined as of the date the benefit begins to accrue and augmented by interest compounded annually from the first day of the month following the month in which the employee ceased to be a state employee, or July 1, 1971, whichever is later, to the first day of the month in which the annuity begins to accrue. The rates of interest used for this purpose must be five percent compounded annually until January 1, 1981, and three percent compounded annually thereafter until January 1 of the year following the year in which the former
employee attains age 55 or until January 1, 2012, whichever is earlier, and from that date the January 1 next following the attainment of age 55 to the effective date of retirement or until January 1, 2012, whichever is earlier. The rate is five percent compounded annually if the employee became an employee before July 1, 2006, and at 2.5 percent compounded annually until January 1, 2012, if the employee becomes an employee after June 30, 2006, and two percent compounded annually after December 31, 2011, irrespective of when the employee became a state employee. If a person has more than one period of uninterrupted service, the required reserves related to each period must be augmented by interest under this subdivision. The sum of the augmented required reserves so determined is the present value of the annuity. "Uninterrupted service" for the purpose of this subdivision means periods of covered employment during which the employee has not been separated from state service for more than two years. If a person repays a refund, the service restored by the repayment must be considered continuous with the next period of service for which the employee has credit with this system. The formula percentages used for each period of uninterrupted service must be those applicable to a new employee. The mortality table and interest assumption used to compute the annuity must be those in effect when the employee files application for annuity. This section does not reduce the annuity otherwise payable under this chapter.

(b) The retirement annuity or disability benefit of, or the survivor benefit payable on behalf of, a former state employee who terminated service before July 1, 1997, which is not first payable until after June 30, 1997, must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and the tables adopted by the board and approved by the actuary retained under section 356.214.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 9. Minnesota Statutes 2009 Supplement, section 352.75, subdivision 4, is amended to read:

Subd. 4. Existing deferred retirees. Any former member of the former Metropolitan Transit Commission-Transit Operating Division employees retirement fund is entitled to a retirement annuity from the Minnesota State Retirement System if the employee:

(1) is not an active employee of the Transit Operating Division of the former Metropolitan Transit Commission on July 1, 1978; (2) has at least ten years of active continuous service with the Transit Operating Division of the former Metropolitan Transit Commission as defined by the former Metropolitan Transit Commission-Transit Operating Division employees retirement plan document in effect on December 31, 1977; (3) has not received a refund of contributions; (4) has not retired or begun receiving an annuity or benefit from the former Metropolitan Transit Commission-Transit Operating Division employees retirement fund; (5) is at least 55 years old; and (6) submits a valid application for a retirement annuity to the executive director of the Minnesota State Retirement System.

The person is entitled to a retirement annuity in an amount equal to the normal old age retirement allowance calculated under the former Metropolitan Transit Commission-Transit Operating Division employees retirement fund plan document in effect on December 31, 1977, subject to an early retirement reduction or adjustment in amount on account of retirement before the normal retirement age specified in that former Metropolitan Transit Commission-Transit Operating Division employees retirement fund plan document.

The deferred retirement annuity of any person to whom this subdivision applies must be augmented. The required reserves applicable to the deferred retirement annuity, determined as of the date the allowance begins to accrue using an appropriate mortality table and an interest assumption of five percent, must be augmented by interest at the rate of five percent per year compounded annually from January 1, 1978, to January 1, 1981, and three percent per year compounded annually from January 1, 1981, until the date that the annuity begins to accrue or June 30, 2011, whichever is earlier, and two percent after June 30, 2011, to the first day of the month in which the
annuity begins to accrue. After the commencement of the retirement annuity, the annuity is eligible for postretirement adjustments under section 356.415. On applying for a retirement annuity under this subdivision, the person is entitled to elect a joint and survivor optional annuity under section 352.116, subdivision 3.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

1. a contribution sufficiency exists if the total of the employee contribution under subdivision 2, the employer contribution under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement. For purposes of this section,

2. a contribution deficiency exists if the total of the employee contributions under subdivision 2, the employer contributions under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision is less than the total of the normal cost, the administrative expenses, and the amortization contribution of the retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

(b) Employee and employer contributions under subdivisions 2 and 3 must be adjusted:

1. if, on or after July 1, 2010, the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicates that there is a contribution sufficiency under paragraph (a) equal to or greater than 0.5 percent of covered payroll and that the sufficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be decreased as determined under paragraph (c) to a level such that the sufficiency equals no more than 0.25 percent of covered payroll based on the most recent actuarial valuation; or

2. if, on or after July 1, 2010, the regular actuarial valuation of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicates that there is a contribution deficiency equal to or greater than 0.5 percent of covered payroll and that the deficiency has existed for at least two consecutive years, the coordinated program employee and employer contribution rates must be increased as determined under paragraph (c) to a level such that no deficiency exists based on the most recent actuarial valuation.
(c) The contribution rate increase or decrease must be determined by the executive director of the Public Employees Retirement Association, must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement on or before the next February 1, and, if the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, is effective on the next July 1 following the determination by the executive director that a contribution deficiency or sufficiency has existed for two consecutive fiscal years based on the most recent actuarial valuations under section 356.215. If the actuarially required contribution exceeds or is less than the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, by more than 0.5 one percent of covered payroll, the coordinated program employee and employer contribution rates under subdivisions 2 and 3 must be adjusted decreased incrementally over one or more years by no more than 0.25 percent of pay each for employee and employer matching contribution rates to a level such that there remains a contribution sufficiency of no more than 0.25 at least one percent of covered payroll. No contribution rate decrease may be made until at least two years have elapsed since any adjustment under this subdivision has been fully implemented.

(d) If the actuarially required contribution exceeds the total support provided by the combined employee and employer contribution rates under subdivisions 2, 3, and 3a, the employee and matching employer contribution rates must be increased equally to eliminate that contribution deficiency. If the contribution deficiency is:

1. less than two percent, the incremental adjustment increase may exceed be up to 0.25 percent for either the coordinated program employee and matching employer contribution rates per year in which any adjustment is implemented. A contribution rate adjustment under this subdivision must not be made until at least two years have passed since fully implementing a previous adjustment under this subdivision;

2. greater than 1.99 percent and less than 4.01 percent, the incremental increase may be up to 0.5 percent for the employee and matching employer contribution rates; or

3. greater than four percent, the incremental increase may be up to 0.75 percent for the employee and matching employer contribution rates.

(e) Any recommended adjustment to the contribution rates must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement by January 15 following receipt of the most recent annual actuarial valuation prepared under section 356.215. If the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, the recommended adjustment becomes effective on the first day of the first full payroll period in the fiscal year following receipt of the most recent actuarial valuation that gave rise to the adjustment.

(f) A contribution sufficiency of up to one percent of covered payroll must be held in reserve to be used to offset any future actuarially required contributions that are more than the total combined employee and employer contributions under subdivisions 2, 3, and 3a.

(g) Before any reduction in contributions to eliminate a sufficiency in excess of one percent of covered pay may be recommended, the executive director must review any need for a change in actuarial assumptions, as recommended by the actuary retained under section 356.214 in the most recent experience study of the general employees retirement plan prepared under section 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement that may result in an increase in the actuarially required contribution and must report to the Legislative Commission on Pensions and Retirement any recommendation by the board to use the sufficiency exceeding one percent of covered payroll to offset the impact of an actuarial assumption change recommended by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the commission under section 356.214, subdivision 4.
(h) No contribution sufficiency in excess of one percent of covered pay may be proposed to be used to increase benefits, and no benefit increase may be proposed that would initiate an automatic adjustment to increase contributions under this subdivision. Any proposed benefit improvement must include a recommendation, prepared by the actuary retained under section 356.214, subdivision 1, and reviewed by the actuary retained by the Legislative Commission on Pensions and Retirement as provided under section 356.214, subdivision 4, on how the benefit modification will be funded.

Sec. 55. Minnesota Statutes 2009 Supplement, section 354.55, subdivision 11, is amended to read:

Subd. 11. Deferred annuity; augmentation. (a) Any person covered under section 354.44, subdivision 6, who ceases to render teaching service, may leave the person’s accumulated deductions in the fund for the purpose of receiving a deferred annuity at retirement.

(b) The amount of the deferred retirement annuity is determined by section 354.44, subdivision 6, and augmented as provided in this subdivision. The required reserves for the annuity which had accrued when the member ceased to render teaching service must be augmented, as further specified in this subdivision, by the applicable interest rate compounded annually from the first day of the month following the month during which the member ceased to render teaching service to the effective date of retirement.
(c) No augmentation is not creditable if the deferral period is less than three months or if deferral commenced before July 1, 1971.

(d) For persons who became covered employees before July 1, 2006, with a deferral period commencing after June 30, 1971, the annuity must be augmented using as follows:

(1) five percent interest compounded annually until January 1, 1981, and;

(2) three percent interest compounded annually thereafter from January 1, 1981 until January 1 of the year following the year in which the deferred annuitant attains age 55;

From that date (3) five percent interest compounded annually from the date established in clause (2) to the effective date of retirement, or until June 30, 2012, whichever is earlier; and

(4) two percent interest compounded annually after June 30, 2012.

(e) For persons who become covered employees after June 30, 2006, the interest rate used to augment the deferred annuity is 2.5 percent interest compounded annually until June 30, 2012, or until the effective date of retirement, whichever is earlier, and two percent interest compounded annually after June 30, 2012.

(f) If a person has more than one period of uninterrupted service, a separate average salary determined under section 354.44, subdivision 6, must be used for each period and the required reserves related to each period must be augmented as specified in this subdivision. The sum of the augmented required reserves is the present value of the annuity. For the purposes of this subdivision, "period of uninterrupted service" means a period of covered teaching service during which the member has not been separated from active service for more than one fiscal year.

(g) If a person repays a refund, the service restored by the repayment must be considered as continuous with the next period of service for which the person has allowable service credit in the Teachers Retirement Association.

(h) If a person does not render teaching service in any one fiscal year or more consecutive fiscal years and then resumes teaching service, the formula percentages used from the date of the resumption of teaching service must be those applicable to new members.

(i) The mortality table and interest rate actuarial assumption used to compute the annuity must be the applicable mortality table established by the board under section 354.07, subdivision 1, and the interest rate actuarial assumption under section 356.215 in effect when the member retires.

(j) In no case may the annuity payable under this subdivision be less than the amount of annuity payable under section 354.44, subdivision 6.

(k) The requirements and provisions for retirement before normal retirement age contained in section 354.44, subdivision 6, also apply to an employee fulfilling the requirements with a combination of service as provided in section 354.60.

(l) The augmentation provided by this subdivision applies to the benefit provided in section 354.46, subdivision 2.

(m) The augmentation provided by this subdivision does not apply to any period in which a person is on an approved leave of absence from an employer unit covered by the provisions of this chapter.
(n) The retirement annuity or disability benefit of, or the survivor benefit payable on behalf of, a former teacher who terminated service before July 1, 1997, which is not first payable until after June 30, 1997, must be increased on an actuarial equivalent basis to reflect the change in the postretirement interest rate actuarial assumption under section 356.215, subdivision 8, from five percent to six percent under a calculation procedure and tables adopted by the board as recommended by an approved actuary and approved by the actuary retained under section 356.214.

(d) The board shall determine the amount of excess five-year annualized rate of return over the preretirement interest assumption as specified in section 356.215.

(e) The additional percentage increase must be determined by multiplying the quantity one minus the rate of contribution deficiency, as specified in the most recent actuarial report of the actuary retained under section 356.214, times the rate of return excess as determined in paragraph (d).
(f) The additional increase is payable to all eligible annuitants or benefit recipients on the following January 1.

For calculations of cost-of-living adjustments under paragraph (c), the term "average third quarter Consumer Price Index value" means the sum of the monthly index values as initially reported by the Bureau of Labor Statistics for the months of July, August, and September, divided by 3.

(c) Before January 1 of each year, the executive director must calculate the amount of the cost-of-living adjustment by dividing the most recent average third quarter index value by the same average third quarter index value from the previous year, subtract one from the resulting quotient, and express the result as a percentage amount, which must be rounded to the nearest one-tenth of one percent.

(d) The amount calculated under paragraph (c) is the full cost-of-living adjustment to be applied as a permanent increase to the regular payment of each eligible member on January 1 of the next calendar year. For any eligible member whose effective date of benefit commencement occurred during the calendar year before the cost-of-living adjustment is applied, the full increase amount must be prorated on the basis of whole calendar quarters in benefit payment status in the calendar year prior to the January 1 on which the cost-of-living adjustment is applied, calculated to the third decimal place.

(e) The adjustment must not be less than zero nor greater than five percent.

(f) If the funding ratio of the plan as determined in the most recent actuarial valuation using the actuarial value of assets is less than 80 percent there will be no postretirement adjustment the following January 1.

For a coordinated member or former coordinated member of the Duluth Teachers Retirement Fund Association, the refund shall be in an amount equal to the person’s accumulated employee contributions plus interest at the rate of six percent per annum compounded annually to July 1, 2010, and four percent per annum compounded annually thereafter.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 64. Minnesota Statutes 2008, section 354A.37, subdivision 2, is amended to read:

Subd. 2. **Eligibility for deferred retirement annuity.** (a) Any coordinated member who ceases to render teaching services for the school district in which the teachers retirement fund association is located, with sufficient allowable service credit to meet the minimum service requirements specified in section 354A.31, subdivision 1, shall be entitled to a deferred retirement annuity in lieu of a refund pursuant to subdivision 1. The deferred retirement annuity shall be computed pursuant to section 354A.31 and shall be augmented as provided in this subdivision. The deferred annuity shall commence upon application after the person on deferred status attains at least the minimum age specified in section 354A.31, subdivision 1.

(b) The monthly annuity amount that had accrued when the member ceased to render teaching service must be augmented from the first day of the month following the month during which the member ceased to render teaching service to the effective date of retirement. There is no augmentation if this period is less than three months. For a member of the St. Paul Teachers Retirement Fund Association, the rate of augmentation is three percent compounded annually until January 1 of the year following the year in which the former member attains age 55, and five percent compounded annually after that date to the effective date of retirement if the employee became an employee before July 1, 2006, and at 2.5 percent compounded annually if the employee becomes an employee after June 30, 2006. If a person has more than one period of uninterrupted service, a separate average salary determined under section 354A.31 must be used for each period, and the monthly annuity amount related to each period must be augmented as provided in this subdivision. The sum of the augmented monthly annuity amounts determines the total deferred annuity payable. If a person repays a refund, the service restored by the repayment must be considered as continuous with the next period of service for which the person has credit with the fund. If a person does not render teaching services in any one fiscal year or more consecutive fiscal years and then resumes teaching service, the formula percentages used from the date of resumption of teaching service are those applicable to new members. The mortality table and interest assumption used to compute the annuity are the table established by the fund to compute other annuities, and the interest assumption under section 356.215 in effect when the member retires. A period of uninterrupted service for the purpose of this subdivision means a period of covered teaching service during which the member has not been separated from active service for more than one fiscal year.

(c) The augmentation provided by this subdivision applies to the benefit provided in section 354A.35, subdivision 2. The augmentation provided by this subdivision does not apply to any period in which a person is on an approved leave of absence from an employer unit.

The select calculation is: during the designated select period, a designated percentage rate is multiplied by the result of the designated integer minus T, where T is the number of completed years of service, and is added to the applicable future salary increase assumption. The designated select period is five years and the designated integer is five for the general state employees retirement plan and the general public employees retirement plan. The designated select period is ten years and the designated integer is ten for all other retirement plans covered by this clause. The designated percentage rate is: (1) 0.2 percent for the correctional state employees retirement plan, the State Patrol retirement plan, the public employees police and fire plan, and the local government correctional service plan; (2) 0.6 percent for the general state employees retirement plan and the general public employees retirement plan; and (3) 0.3 percent for the teachers retirement plan, the Duluth Teachers Retirement Fund Association, and the St. Paul Teachers Retirement Fund Association. The select calculation for the Duluth Teachers Retirement Fund Association is 8.00 percent per year for service years one through seven, 7.25 percent per year for service years seven and eight, and 6.50 percent per year for service years eight and nine.

The ultimate future salary increase assumption is:

(d) After July 1, 2010, the assumptions set forth in paragraphs (b) and (c) continue to apply, unless a different
salary assumption or a different payroll increase assumption:

(1) has been proposed by the governing board of the applicable retirement plan;

(2) is accompanied by the concurring recommendation of the actuary retained under section 356.214, subdivision
1, if applicable, or by the approved actuary preparing the most recent actuarial valuation report if section 356.214
does not apply; and

(3) has been approved or deemed approved under subdivision 18.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 68. Minnesota Statutes 2009 Supplement, section 356.215, subdivision 11, is amended to read:

Subd. 11. **Amortization contributions.** (a) In addition to the exhibit indicating the level normal cost, the
actuarial valuation of the retirement plan must contain an exhibit for financial reporting purposes indicating the
additional annual contribution sufficient to amortize the unfunded actuarial accrued liability and must contain an
exhibit for contribution determination purposes indicating the additional contribution sufficient to amortize the
unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph (c), the additional
contribution must be calculated on a level percentage of covered payroll basis by the established date for full
funding in effect when the valuation is prepared, assuming annual payroll growth at the applicable percentage rate
set forth in subdivision 8, paragraph (c). For all other retirement plans, the additional annual contribution must be
calculated on a level annual dollar amount basis.

(b) For any retirement plan other than the Minneapolis Employees Retirement Fund, the general employees
retirement plan of the Public Employees Retirement Association, the general state employees retirement plan of the
Minnesota State Retirement System, and the St. Paul Teachers Retirement Fund Association, if there has not been a
change in the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the
benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in
calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, which change
or changes by itself or by themselves without inclusion of any other items of increase or decrease produce a net
increase in the unfunded actuarial accrued liability of the fund, the established date for full funding is the first
actuarial valuation date occurring after June 1, 2020.

(c) For any retirement plan other than the Minneapolis Employees Retirement Fund and the general employees
retirement plan of the Public Employees Retirement Association, if there has been a change in any or all of the
actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan
governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the
actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by
itself or by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the
unfunded actuarial accrued liability in the fund, the established date for full funding must be determined using the
following procedure:

(i) the unfunded actuarial accrued liability of the fund must be determined in accordance with the plan provisions
governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;
(ii) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the unfunded actuarial accrued liability amount determined under item (i) by the established date for full funding in effect before the change must be calculated using the interest assumption specified in subdivision 8 in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;

(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year in which the applicable change is effective must be calculated using the applicable interest assumption specified in subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the level annual dollar amortization contribution or level percentage calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by the total level annual dollar or level percentage amortization contribution computed under item (v) must be calculated using the interest assumption specified in subdivision 8 in effect after any applicable change, rounded to the nearest integral number of years, but not to exceed 30 years from the end of the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and not to be less than the period of years beginning in the plan year in which the determination of the established date for full funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before the change; and

(vii) the period determined under item (vi) must be added to the date as of which the actuarial valuation was prepared and the date obtained is the new established date for full funding.

(d) For the Minneapolis Employees Retirement Fund, the established date for full funding is June 30, 2020.

(e) For the general employees retirement plan of the Public Employees Retirement Association, the established date for full funding is June 30, 2031.

(f) For the Teachers Retirement Association, the established date for full funding is June 30, 2037.

(g) For the correctional state employees retirement plan of the Minnesota State Retirement System, the established date for full funding is June 30, 2038.

(h) For the judges retirement plan, the established date for full funding is June 30, 2038.

(i) For the public employees police and fire retirement plan, the established date for full funding is June 30, 2038.

(j) For the St. Paul Teachers Retirement Fund Association, the established date for full funding is June 30 of the 25th year from the valuation date. In addition to other requirements of this chapter, the annual actuarial valuation shall contain an exhibit indicating the funded ratio and the deficiency or sufficiency in annual contributions when comparing liabilities to the market value of the assets of the fund as of the close of the most recent fiscal year.
(k) For the general state employees retirement plan of the Minnesota State Retirement System, the established
date for full funding is June 30, 2040.

(l) For the retirement plans for which the annual actuarial valuation indicates an excess of valuation assets over
the actuarial accrued liability, the valuation assets in excess of the actuarial accrued liability must be recognized as a
reduction in the current contribution requirements by an amount equal to the amortization of the excess expressed as
a level percentage of pay over a 30-year period beginning anew with each annual actuarial valuation of the plan.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 69. Minnesota Statutes 2008, section 356.30, subdivision 1, is amended to read:

Subdivision 1. Eligibility; computation of annuity. (a) Notwithstanding any provisions of the laws governing
the retirement plans enumerated in subdivision 3, a person who has met the qualifications of paragraph (b) may elect
to receive a retirement annuity from each enumerated retirement plan in which the person has at least one-half year
of allowable service, based on the allowable service in each plan, subject to the provisions of paragraph (c).

(b) A person may receive, upon retirement, a retirement annuity from each enumerated retirement plan in which
the person has at least one-half year of allowable service, and augmentation of a deferred annuity calculated at the
appropriate rate under the laws governing each public pension plan or fund named in subdivision 3, based on the
date of the person's initial entry into public employment from the date the person terminated all public service if:

(1) the person has allowable service totaling an amount that allows the person to receive an annuity
in any two or
more of the enumerated plans;

(2) the person has sufficient allowable service in total that equals or exceeds the applicable service credit vesting
requirement of the retirement plan with the longest applicable service credit vesting requirement; and

(3) the person has not begun to receive an annuity from any enumerated plan or the person has made
application for benefits from each applicable plan and the effective dates of the retirement annuity with each plan
under which the person chooses to receive an annuity are within a one-year period.

(c) The retirement annuity from each plan must be based upon the allowable service, accrual rates, and average
salary in the applicable plan except as further specified or modified in the following clauses:

(1) the laws governing annuities must be the law in effect on the date of termination from the last period of
public service under a covered retirement plan with which the person earned a minimum of one-half year of
allowable service credit during that employment;

(2) the "average salary" on which the annuity from each covered plan in which the employee has credit in a
formula plan must be based on the employee's highest five successive years of covered salary during the entire
service in covered plans;

(3) the accrual rates to be used by each plan must be those percentages prescribed by each plan's formula as
continued for the respective years of allowable service from one plan to the next, recognizing all previous allowable
service with the other covered plans;

(4) the allowable service in all the plans must be combined in determining eligibility for and the application of
each plan's provisions in respect to reduction in the annuity amount for retirement prior to normal retirement
age; and
(5) the annuity amount payable for any allowable service under a nonformula plan of a covered plan must not be affected, but such service and covered salary must be used in the above calculation.

(g) If the period of duplicated service credit is more than one-half year, or the person has credit for more than one-half year, with each of the plans, each plan must apply its formula to a prorated service credit for the period of duplicated service based on a fraction of the salary on which deductions were paid to that fund for the period divided by the total salary on which deductions were paid to all plans for the period.

(h) If the period of duplicated service credit is less than one-half year, or when added to other service credit with that plan is less than one-half year, the service credit must be ignored and a refund of contributions made to the person in accord with that plan's refund provisions.

For purposes of this section, "plan" means the Minnesota state deferred compensation plan, unless the context clearly indicates otherwise. The Minnesota State Retirement System shall administer the plan.

(b) The purpose of the plan is to provide a means for a public employee to contribute a portion of the employee’s compensation to a tax-deferred investment account. The plan is an eligible tax-deferred compensation plan under section 457(b) of the Internal Revenue Code, United States Code, title 26, section 457(b), and the applicable regulations under Code of Federal Regulations, title 26, parts 1.457-3 to 1.457-10.

(d) The executive director, with the approval of the board of directors, shall adopt and amend, as required to maintain tax-qualified status, a written plan document specifying the material terms and conditions for eligibility, benefits, applicable limitations, and the time and form under which benefit distributions can be made. With the approval of the board of directors, the executive director may also establish policies and procedures necessary for the administration of the deferred compensation plan.

(e) The plan document must include provisions that are necessary to cause the plan to be an eligible deferred compensation plan within the meaning of section 457(b) of the Internal Revenue Code. The plan document may provide additional administrative and substantive provisions consistent with state law, provided that those provisions will not cause the plan to fail to be an eligible deferred compensation plan within the meaning of section 457(b) of the Internal Revenue Code and may include provisions for certain optional features and services.

(f) The board of directors may authorize the executive director to establish and administer a Roth 457 plan if authorized by the Internal Revenue Code or a Roth individual retirement account as defined under section 408A of the Internal Revenue Code.

(g) All amounts contributed to the deferred compensation plan and all earnings on those amounts must be held in trust, in custodial accounts, or in qualifying annuity contracts for the exclusive benefit of the plan participants and beneficiaries, as required by section 457(g) of the Internal Revenue Code and in accordance with sections 356.001 and 356A.06, subdivision 1.

(h) The information and data maintained in the accounts of the participants and beneficiaries are private data and shall not be disclosed to anyone other than the participant or beneficiary pursuant to a court order or pursuant to section 356.49.

(i) The plan document is not subject to the rule adoption process under the Administrative Procedures Act, including section 14.386, but must conform with applicable federal and state laws.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

(b) The amount to be deferred must be as provided in a written agreement between the officer or employee and the public employer plan sponsor. The agreement must be in a form specified by the executive director of the Minnesota State Retirement System and must be consistent with the requirements for an eligible plan under federal and state tax laws, regulations, and rulings.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

(1) service in a month during which a member is paid a salary from which a member contribution is deducted, deposited, and credited in the State Patrol retirement fund;

(2) for members defined in subdivision 10, clause (1), service in any month for which payments have been made to the State Patrol retirement fund under law; and

(3) for members defined in subdivision 10, clauses (2) and (3), service for which payments have been made to the State Patrol retirement fund under law, service for which payments were made to the State Police officers retirement fund under law after June 30, 1961, and all prior service which was credited to a member for service on or before June 30, 1961; and

(4) any period of authorized leave of absence without pay that does not exceed one year and for which the employee obtains credit by payment to the fund under section 352B.013; and

(5) eligible periods of uniformed service for which the member obtained service credit by payment under section 352B.086 to the fund.

(b) Allowable service also includes any period of absence from duty by a member who, by reason of injury incurred in the performance of duty, is temporarily disabled and for which disability the state is liable under the workers' compensation law, until the date authorized by the executive director for commencement of payment of a disability benefit or until the date of a return to employment.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 9. [352B.013] **AUTHORIZED LEAVE OF ABSENCE SERVICE CREDIT PURCHASE PROCEDURE.**

Subdivision 1. **Application.** This section specifies the procedure for purchasing service credit in the State Patrol retirement plan for authorized leaves of absence under section 352B.011, subdivision 3, unless an alternative payment procedure is specified in law for a particular form of leave or break in service.

Subd. 2. **Purchase procedure.** (a) An employee covered by the plan specified in this chapter may purchase credit for allowable service in the plan for a period specified in subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever applies. The employing unit, at its option, may pay the employer portion of the amount specified in paragraph (b) on behalf of its employees.
(b) If payment is received by the executive director within one year from the date the employee returned to work following the authorized leave, the payment amount is equal to the employee and employer contribution rates specified in section 352B.02 at the end of the leave period multiplied by the employee's hourly rate of salary on the date of return from the leave of absence and by the days and months of the leave of absence for which the employee is eligible for allowable service credit. The payment must include compound interest at a monthly rate of 0.71 percent from the last day of the leave period until the last day of the month in which payment is received. If payment is received by the executive director after one year from the date the employee returned to work following the authorized leave, the payment amount is the amount determined under section 356.551. Payment under this paragraph must be made before the date of termination from public employment covered under this chapter.

(c) If the employee terminates employment covered by this chapter during the leave or following the leave rather than returning to covered employment, payment must be received by the executive director within 30 days after the termination date. The payment amount is equal to the employee and employer contribution rates specified in section 352B.02 on the day prior to the termination date, multiplied by the employee's hourly rate of salary on that date and by the days and months of the leave of absence prior to termination.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 10. Minnesota Statutes 2008, section 352B.02, is amended by adding a subdivision to read:

Subd. 3. *Correction of plan coverage errors.* If erroneous employee deductions and employer contributions are caused by an error in plan coverage involving the State Patrol retirement plan and any other plan specified in section 356.99, that section applies.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 11. Minnesota Statutes 2008, section 353.27, subdivision 7a, is amended to read:

Subd. 7a. *Deductions or contributions transmitted by error.* (a) If employee deductions and employer contributions were erroneously transmitted to the association, but should have been transmitted to another Minnesota public pension plan covered by chapter 352D, 353D, 354B, or 354D, the executive director shall transfer the erroneous employee deductions and employer contributions to the appropriate retirement fund or individual account, as applicable, without interest. The time limitations specified in subdivisions 7 and 12 do not apply. The transfer to the applicable defined contribution plan account must include interest at the rate of 0.71 percent per month, compounded annually, from the first day of the month following the month in which coverage was commenced in the defined contribution plan until the end of the month in which the transfer occurs.

(b) For purposes of this subdivision, a Minnesota public pension plan means a plan specified in section 356.30, subdivision 3, or the plan governed by chapters 353D and 354B.

(c) A potential transfer under paragraph (a) that is reasonably determined to cause the plan to fail to be a qualified plan under section 401(a) of the federal Internal Revenue Code, as amended, must not be made by the executive director of the association. Within 30 days after being notified by the Public Employees Retirement Association of an unmade potential transfer under this paragraph, the employer of the affected person must transmit an amount representing the applicable salary deductions and employer contributions, without interest, to the retirement fund of the appropriate Minnesota public pension plan, or to the applicable individual account if the proper coverage is by a defined contribution plan. The association must provide the employing unit a credit for the amount of the erroneous salary deductions and employer contributions against future contributions from the employer. If the employing unit receives a credit under this paragraph, the employing unit is responsible for refunding to the applicable employee any amount that had been erroneously deducted from the person's salary.
(c) If erroneous employee deductions and employer contributions reflect a plan coverage error involving any Public Employees Retirement Association plan specified in section 356.99 and any other plan specified in that section, section 356.99 applies.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 12. Minnesota Statutes 2008, section 353.37, subdivision 3a, is amended to read:

(b) If a reemployed annuitant whose annuity is suspended is having insurance premium amounts withheld under section 356.87, subdivision 2, insurance premium amounts must continue to be withheld and transferred from the suspended portion of the annuity. The balance of the annual retirement annuity after cessation, after deduction of the insurance premium amounts, must be treated as specified in paragraph (a).

**EFFECTIVE DATE.** This section is effective January 1, 2010.

Sec. 13. Minnesota Statutes 2008, section 354.42, subdivision 7, is amended to read:

Subd. 7. **Erroneous salary deductions or direct payments.** (a) Any deductions taken from the salary of an employee for the retirement fund in excess of amounts required must be refunded to the employee upon the discovery of the error and after the verification of the error by the employing unit making the deduction. The corresponding employer contribution and additional employer contribution amounts attributable to the erroneous salary deduction must be refunded to the employing unit.

(b) If salary deductions and employer contributions were erroneously transmitted to the retirement fund and should have been transmitted to another Minnesota public pension plan covered by chapter 352D, 353D, 354B, or 354D, the executive director must transfer these salary deductions and employer contributions to the account of the appropriate public pension fund without interest. For purposes of this paragraph, a Minnesota public pension plan means a plan specified in section 356.30, subdivision 3, or the plan governed by chapter 354B—person under the applicable plan. The transfer to the applicable defined contribution plan account must include interest at the rate of 0.71 percent per month, compounded annually, from the first day of the month following the month in which coverage should have commenced in the defined contribution plan until the end of the month in which the transfer occurs.

(c) A potential transfer under paragraph (b) that would cause the plan to fail to be a qualified plan under section 401(a) of the Internal Revenue Code, as amended, must not be made by the executive director. Within 30 days after being notified by the Teachers Retirement Association of an unmade potential transfer under this paragraph, the employer of the affected person must transmit an amount representing the applicable salary deductions and employer contributions, without interest, to the retirement fund of the appropriate Minnesota public pension plan fund account of the applicable person under the appropriate plan. The retirement association must provide a credit for the amount of the erroneous salary deductions and employer contributions against future contributions from the employer.

(d) If a salary warrant or check from which a deduction for the retirement fund was taken has been canceled or the amount of the warrant or if a check has been returned to the funds of the employing unit making the payment, a refund of the amount deducted, or any portion of it that is required to adjust the salary deductions, must be made to the employing unit.
(e) Erroneous direct payments of member-paid contributions or erroneous salary deductions that were not refunded during the regular payroll cycle processing must be refunded to the member, plus interest computed using the rate and method specified in section 354.49, subdivision 2.

(f) Any refund under this subdivision that would cause the plan to fail to be a qualified plan under section 401(a) of the Internal Revenue Code, as amended, may not be refunded and instead must be credited against future contributions payable by the employer. The employer is responsible for refunding to the applicable employee any amount that was erroneously deducted from the salary of the employee, with interest as specified in paragraph (e).

(g) If erroneous employee deductions and employer contributions are caused by an error in plan coverage involving the plan and any other plan specified in section 356.99, that section applies.

**EFFECTIVE DATE.** This section is effective July 1, 2010.

Sec. 14. Minnesota Statutes 2008, section 354A.12, is amended by adding a subdivision to read:

CORRECTION OF PLAN COVERAGE ERRORS

Sec. 17. [356.99] CORRECTION OF ERRONEOUS DEFINED BENEFIT PLAN COVERAGE.

Subdivision 1. Definitions. (a) For purposes of this section, the terms in paragraphs (b) to (e) have the meanings given them.

(b) "Chief administrative officer" means the person selected or elected by the governing board of a covered pension plan with primary responsibility to administer the covered pension plan, or that person’s designee or representative.

(c) "Covered pension plan" means a plan enumerated in section 356.30, subdivision 3, except clauses (3), (5), (6), and (11).

(d) "Governing board" means the governing board of the Minnesota State Retirement System, the Public Employees Retirement Association, the Teachers Retirement Association, the Duluth Teachers Retirement Fund Association, or the St. Paul Teachers Retirement Fund Association.

(e) "Member" means an active plan member in a covered pension plan.

Subd. 2. Treatment of terminated employee coverage error. Any person who terminated the erroneously covered service before a chief administrative officer determined the covered pension plan coverage was in error retains the coverage with the plan that originally credited the service.

Subd. 3. Active employee correction of prospective service coverage. Upon determination by a chief administrative officer that a member is covered by the wrong pension plan, the employer must stop remitting the erroneous employee deductions and employer contributions and report the employee to the correct covered pension plan for all subsequent service.

Subd. 4. Active employee treatment of past service. Any plan member, with past service credited in an erroneous plan, retains the coverage for that past service with the plan that originally credited that service if the reporting error began earlier than two fiscal years prior to the current fiscal year in which the error was determined by the chief administrative officer. If the reporting error began within two fiscal years prior to the current fiscal year, the pension plan coverage for that past service must be corrected as provided in subdivision 5.

Subd. 5. Past service transfer procedure. (a) For cases under subdivision 4 requiring correction of prior service coverage, on behalf of the applicable member the chief administrative officer of the covered pension plan fund that has received erroneous employee deductions and employer contributions must transfer to the appropriate covered retirement plan fund an amount which is the lesser of all contributions made by or on behalf of the member for the period of erroneous membership, or the specific amount requested by the chief administrative officer of the other covered pension plan which represents the employee deductions and employer contributions that would have been made had the member been properly reported.
(b) If excess employee deductions remain in the member's account after the transfer of funds, the remaining erroneous amount must be refunded to the person with interest at the rate provided under the general refund law of the applicable covered pension plan. The chief administrative officer must also return any remaining excess employer contributions by providing to the employer a credit against future contributions payable by that employer.

(c) If the contributions transferred to the correct covered pension plan fund are less than the amounts required for the period being corrected, the chief administrative officer of the correct covered pension plan fund must collect the remaining employee deductions and employer contributions from the employer under laws for recovering deficient contributions applicable to the correct covered pension plan, except that no interest is chargeable if the additional amounts due under this paragraph are received by the chief administrative officer within 30 days of notifying the employer of the amount due.

(d) A potential transfer under this section that would cause a plan to fail to be a qualified plan under section 401(a) of the Internal Revenue Code, as amended, must not be made. Within 30 days after being notified by a chief administrative officer of an unmade potential transfer under this section, the employer of the member must transmit an amount representing the applicable salary deductions and employer contributions, without interest, to the fund of the appropriate covered pension plan. The chief administrative officer of the covered pension plan which erroneously provided coverage must provide to the employer a credit for the amount of the erroneous salary deductions and employer contributions against future contributions from that employer.

(e) Upon transfer of the required assets, or payment from the employer under paragraph (d), whichever is applicable, allowable service and salary credit for the period being transferred is forfeited in the erroneous plan and is granted in the correct plan.

EFFECTIVE DATE. This section is effective July 1, 2010.

Sec. 18. Minnesota Statutes 2008, section 490.123, is amended by adding a subdivision to read:

Subd. 4. Correction of contribution errors. (a) If erroneous employee deductions and employer contributions are caused by an error in plan coverage involving the judges retirement plan and any other plan specified in section 356.99, that section applies.

(b) The provisions of section 352.04, subdivisions 8 and 9, apply to the judges' retirement plan, except that if employee deductions or contributions are erroneously transmitted to the judges' retirement fund for service rendered after the service credit limit under section 490.121, subdivision 22, has been attained, consistent with section 352D.04, subdivision 2, no employer contributions may be transferred.

EFFECTIVE DATE. This section is effective July 1, 2010.

Sec. 19. REPEALER.

Minnesota Statutes 2008, sections 352.91, subdivision 5; and 353.88, are repealed.

EFFECTIVE DATE. This section is effective July 1, 2010.

(5) employees of the Port Authority of the city of St. Paul on January 1, 2003, who were at least age 45 on that date, and who elected to participate by filing a written election for membership.

(b) Membership in the association is optional by action of the governmental subdivision for the employees of the following governmental subdivisions under the conditions specified:

(1) the Minnesota Association of Townships if the board of that association, at its option, certifies to the executive director that its employees who meet the conditions set forth in subdivision 2a are to be included for purposes of retirement coverage, in which case the status of the association as a participating employer is permanent;

(2) a county historical society if the county in which the historical society is located, at its option, certifies to the executive director that the employees of the historical society who meet the conditions set forth in subdivision 2a are to be considered county employees for purposes of retirement coverage under this chapter. The status as a county employee must be accorded to all similarly situated county historical society employees and, once established, must continue as long as a person is an employee of the county historical society; and

(3) Hennepin Healthcare System, Inc., a public corporation, with respect to employees other than paramedics, emergency medical technicians, and protection officers, if the corporate board establishes alternative retirement plans for certain classes of employees of the corporation and certifies to the association the applicable employees to be excluded from future retirement coverage.

For employees who are covered by paragraph (a), clause (4), if the necessary election is not made, the employee must become a member and have retirement coverage under the applicable provisions of this chapter. For employees specified in paragraph (b), clause (3), membership continues until the exclusion option is exercised for the designated class of employee.

EFFECTIVE DATE. This section is effective July 1, 2010.

Sec. 5. Minnesota Statutes 2009 Supplement, section 353.01, subdivision 16, is amended to read:

Subd. 16. Allowable service; limits and computation. (a) "Allowable service" means:

(1) service during years of actual membership in the course of which employee deductions were withheld from salary and contributions were made at the applicable rates under section 353.27, 353.65, or 353E.03;

(2) periods of service covered by payments in lieu of salary deductions under sections 353.27, subdivision 12, and 353.35;

(3) service in years during which the public employee was not a member but for which the member later elected, while a member, to obtain credit by making payments to the fund as permitted by any law then in effect;

(4) a period of authorized leave of absence with pay from which deductions for employee contributions are made, deposited, and credited to the fund;
(5) a period of authorized personal, parental, or medical leave of absence without pay, including a leave of absence covered under the federal Family Medical Leave Act, that does not exceed one year, and for which a member obtained service credit for each month in the leave period by payment under section 353.0161 to the fund made in place of salary deductions. An employee must return to public service and render a minimum of three months of allowable service in order to be eligible to make payment under section 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the employee must be granted allowable service credit for the purchased period;

(6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent a year, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

(7) an authorized temporary or seasonal layoff under subdivision 12, limited to three months allowable service per authorized temporary or seasonal layoff in one calendar year. An employee who has received the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;

(8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service is _must_ be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary, excluding overtime pay, during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate, excluding overtime pay, during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee
contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at a rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

(9) a period specified under subdivision 40.

(b) For calculating benefits under sections 353.30, 353.31, 353.32, and 353.33 for state officers and employees displaced by the Community Corrections Act, chapter 401, and transferred into county service under section 401.04, "allowable service" means the combined years of allowable service as defined in paragraph (a), clauses (1) to (6), and section 352.01, subdivision 11.

(c) For a public employee who has prior service covered by a local police or firefighters relief association that has consolidated with the Public Employees Retirement Association or to which section 353.665 applies, and who has elected the type of benefit coverage provided by the public employees police and fire fund either under section 353A.08 following the consolidation or under section 353.665, subdivision 4, "applicable service" is a period of service credited by the local police or firefighters relief association as of the effective date of the consolidation based on law and on bylaw provisions governing the relief association on the date of the initiation of the consolidation procedure.

(d) No member may receive more than 12 months of allowable service credit in a year either for vesting purposes or for benefit calculation purposes.

(e) MS 2002 [Expired]

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 6. Minnesota Statutes 2008, section 353.0161, subdivision 2, is amended to read:

Subd. 2. Purchase procedure. (a) An employee covered by a plan specified in subdivision 1 may purchase credit for allowable service in that plan for a period specified in subdivision 1 if the employee makes a payment as specified in paragraph (b) or (c), whichever applies. The employing unit, at its option, may pay the employer portion of the amount specified in paragraph (b) on behalf of its employees.

(b) If payment is received by the executive director within one year from the date the member returned to work following the authorized leave, or within 30 days after the date of termination of public service if the member did not return to work, the payment amount is equal to the employee and employer contribution rates specified in law for the applicable plan at the end of the leave period, or at termination of public service, whichever is earlier, multiplied by the employee's average monthly salary, excluding overtime, upon which deductions were paid during the six months, or portion thereof, before the commencement of the leave of absence and by the number of months of the leave of absence for which the employee wants allowable service credit. Payments made under this paragraph must include compound interest at a monthly rate of 0.71 percent from the last day of the leave period until the last day of the month in which payment is received.
(c) If payment is received by the executive director after one year, the payment amount is the amount determined under section 356.551. Payment under this paragraph must be made before the date the person terminates public service under section 353.01, subdivision 11a.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

(a) A member may purchase additional salary credit for a period specified in this section.

(b) The applicable period is a period during which the member is receiving a reduced salary from the employer while the member is:

(1) receiving temporary workers' compensation payments related to the member's service to the public employer;

(2) on an authorized medical leave of absence; or

(3) on an authorized partial paid leave of absence as a result of a budgetary or salary savings program offered or mandated by a governmental subdivision.

(c) The differential salary amount is the difference between the average monthly salary received by the member during the period of reduced salary under this section and the average monthly salary of the member, excluding overtime, on which contributions to the applicable plan were made during the period of the last six months of covered employment occurring immediately before the period of reduced salary, applied to the member's normal employment period, measured in hours or otherwise, as applicable.

(d) To receive eligible salary credit, the member shall pay an amount equal to:

(1) the applicable employee contribution rate under section 353.27, subdivision 2; 353.65, subdivision 2; or 353E.03, subdivision 1, as applicable, multiplied by the differential salary amount;

(2) plus an employer equivalent payment equal to the applicable employer contribution rate in section 353.27, subdivision 3; 353.65, subdivision 3; or 353E.03, subdivision 2, as applicable, multiplied by the differential salary amount;

(3) plus, if applicable, an equivalent employer additional amount equal to the additional employer contribution rate in section 353.27, subdivision 3a, multiplied by the differential salary amount.

(e) The employer, by appropriate action of its governing body and documented in its official records, may pay the employer equivalent contributions and, as applicable, the equivalent employer additional contributions on behalf of the member.

(f) Payment under this section must include interest on the contribution amount or amounts, whichever applies, at an 8.5 percent annual rate, prorated for applicable months from the date on which the period of reduced salary specified under this section terminates to the date on which the payment or payments are received by the executive director. Payment under this section must be completed within the earlier of 30 days from termination of public service by the employee under section 353.01, subdivision 11a, or one year after the termination of the period specified in paragraph (b), as further restricted under this section.

(g) The period for which additional allowable salary credit may be purchased is limited to the period during which the person receives temporary workers' compensation payments or for those business years in which the governmental subdivision offers or mandates a budget or salary savings program, as certified to the executive
director by a resolution of the governing body of the governmental subdivision. For an authorized medical leave of absence, the period for which allowable salary credit may be purchased may not exceed 12 consecutive months of authorized medical leave.

(h) To purchase salary credit for a subsequent period of temporary workers' compensation benefits or subsequent authorized medical leave of absence, the member must return to public service and render a minimum of three months of allowable service.

EFFECTIVE DATE. This section is effective July 1, 2010. Purchase of reduced salary credit may be made for a period mandated or offered by a governmental subdivision for purposes of budget or salary savings on or after July 1, 2009.

If an employer fails to comply with the reporting requirements under this paragraph, the executive director may assess a fine of $25 for each failure if the association staff has notified the employer of the noncompliance and attempted to obtain the missing data or form from the employer for a period of more than three months.

(d) The employer shall furnish data, forms, and reports as may be required by the executive director for proper administration of the retirement system. Before implementing new or different computerized reporting requirements, the executive director shall give appropriate advance notice to governmental subdivisions to allow time for system modifications.

Sec. 10. Minnesota Statutes 2009 Supplement, section 353.27, subdivision 7, is amended to read:

Subd. 7. Adjustment for erroneous receipts or disbursements. (a) Except as provided in paragraph (b), erroneous employee deductions and erroneous employer contributions and additional employer contributions for a person, who otherwise does not qualify for membership under this chapter, are considered:

(1) valid if the initial erroneous deduction began before January 1, 1990. Upon determination of the error by the association, the person may continue membership in the association while employed in the same position for which erroneous deductions were taken, or file a written election to terminate membership and apply for a refund upon termination of public service or defer an annuity under section 353.34; or

(2) invalid, if the initial erroneous employee deduction began on or after January 1, 1990. Upon determination of the error, the association shall refund all erroneous employee deductions and all erroneous employer contributions as specified in paragraph (e). No person may claim a right to continued or past membership in the association based on erroneous deductions which began on or after January 1, 1990.

(b) Erroneous deductions taken from the salary of a person who did not qualify for membership in the association by virtue of concurrent employment before July 1, 1978, which required contributions to another retirement fund or relief association established for the benefit of officers and employees of a governmental subdivision, are invalid. Upon discovery of the error, the association shall remove allowable service credit for all invalid service if forfeited and, upon termination of public service, the association shall refund all erroneous employee deductions to the person, with interest as determined under section 353.34, subdivision 2, and all erroneous employer contributions without interest to the employer. This paragraph has both retroactive and prospective application.
(c) Adjustments to correct employer contributions and employee deductions taken in error from amounts which are not salary under section 353.01, subdivision 10, must be made as specified in paragraph (e). The period of adjustment must be limited to the fiscal year in which the error is discovered by the association and the immediate two preceding fiscal years.

(d) If there is evidence of fraud or other misconduct on the part of the employee or the employer, the board of trustees may authorize adjustments to the account of a member or former member to correct erroneous employee deductions and employer contributions on invalid salary and the recovery of any overpayments for a period longer than provided for under paragraph (c).

(e) Upon discovery of the receipt of erroneous employee deductions and employer contributions under paragraph (a), clause (2), or paragraph (c), the association must require the employer to discontinue the erroneous employee deductions and erroneous employer contributions reported on behalf of a member. Upon discontinuation, the association must:

(1) for a member, provide a refund or credit to the employer in the amount of the invalid employee deductions with interest on the invalid employee deductions at the rate specified under section 353.34, subdivision 2, from the received date of each invalid salary transaction through the date the credit or refund is made; and the employer must pay the refunded employee deductions plus interest to the member;

(2) for a former member who:

(i) is not receiving a retirement annuity or benefit, return the erroneous employee deductions to the former member through a refund with interest at the rate specified under section 353.34, subdivision 2, from the received date of each invalid salary transaction through the date the credit or refund is made; or

(ii) is receiving a retirement annuity or disability benefit, or a person who is receiving an optional annuity or survivor benefit, for whom it has been determined an overpayment must be recovered, adjust the payment amount and recover the overpayments as provided under this section; and

(3) return the invalid employer contributions reported on behalf of a member or former member to the employer by providing a credit against future contributions payable by the employer.

(f) In the event that a salary warrant or check from which a deduction for the retirement fund was taken has been canceled or the amount of the warrant or check returned to the funds of the department making the payment, a refund of the sum deducted, or any portion of it that is required to adjust the deductions, must be made to the department or institution.

(g) If the accrual date of any retirement annuity, survivor benefit, or disability benefit is within the limitation period specified in paragraph (c), and an overpayment has resulted by using invalid service or salary, or due to any erroneous calculation procedure, the association must recalculate the annuity or benefit payable and recover any overpayment as provided under subdivision 7b.

(h) Notwithstanding the provisions of this subdivision, the association may apply the Revenue Procedures defined in the federal Internal Revenue Service Employee Plans Compliance Resolution System and not issue a refund of erroneous employee deductions and employer contributions or not recover a small overpayment of benefits if the cost to correct the error would exceed the amount of the member refund or overpayment.

(i) Any fees or penalties assessed by the federal Internal Revenue Service for any failure by an employer to follow the statutory requirements for reporting eligible members and salary must be paid by the employer.

Subd. 2. **Refunds of employee deductions.** (a) The executive director shall refund to active employees or former members who are not receiving retirement annuities or benefits all erroneous employee deductions identified by the city of Duluth or, by the Duluth Airport Authority, or by the city of Virginia as deductions taken from amounts determined to be invalid salary. The remaining erroneous employer contributions, if any, must be credited against future employer contributions required to be paid by the applicable governmental subdivision. Section 1. Minnesota Statutes 2008, section 69.051, subdivision 3, is amended to read:

Subd. 3. **Report by certain municipalities.** (a) Each municipality which has an organized fire department but which does not have a firefighters' relief association governed by section 69.77 or sections 69.771 to 69.775 and which is not exempted under paragraph (b) shall annually prepare a detailed financial report of the receipts and disbursements by the municipality for fire protection service during the preceding calendar year, on a form prescribed by the state auditor. The financial report shall contain any information which the state auditor deems necessary to disclose the sources of receipts and the purpose of disbursements for fire protection service. The financial report shall be signed by the municipal clerk or clerk-treasurer of the municipality. The financial report shall be filed by the municipal clerk or clerk-treasurer with the state auditor on or before July 1 annually. The state auditor shall forward one copy to the county auditor of the county wherein the municipality is located. The municipality shall not qualify initially to receive, or be entitled subsequently to retain, state aid pursuant to this chapter if the financial reporting requirement or the applicable requirements of this chapter or any other statute or special law have not been complied with or are not fulfilled.

(b) Each municipality that has an organized fire department and provides retirement coverage to its firefighters through the voluntary statewide lump-sum volunteer firefighter retirement plan under chapter 353G qualifies to have fire state aid transmitted to and retained in the statewide lump-sum volunteer firefighter retirement fund without filing a detailed financial report if the executive director of the Public Employees Retirement Association certifies compliance by the municipality with the requirements of sections 353G.04 and 353G.08, paragraph (e), and by the applicable fire chief with the requirements of section 353G.07.

**EFFECTIVE DATE.** This section is effective retroactively from January 1, 2010.

Sec. 2. Minnesota Statutes 2009 Supplement, section 353G.05, subdivision 2, is amended to read:

Subd. 2. **Election of coverage.** (a) The process for electing coverage of volunteer firefighters by the retirement plan is initiated by a request to the executive director for a cost analysis of the prospective retirement coverage.

(b) If the volunteer firefighters are currently covered by a volunteer firefighters' relief association governed by chapter 424A, the cost analysis of the prospective retirement coverage must be requested jointly by the secretary of the volunteer firefighters' relief association, following approval of the request by the board of the volunteer firefighters' relief association, and the chief administrative officer of the entity associated with the relief association, following approval of the request by the governing body of the entity associated with the relief association. If the relief association is associated with more than one entity, the chief administrative officer of each associated entity must execute the request. If the volunteer firefighters are not currently covered by a volunteer firefighters' relief association, the cost analysis of the prospective retirement coverage must be requested by the chief administrative officer of the entity operating the fire department. The request must be made in writing and must be made on a form prescribed by the executive director.
(c) The cost analysis of the prospective retirement coverage by the statewide retirement plan must be based on the service pension amount under section 353G.11 closest to the service pension amount provided by the volunteer firefighters' relief association, if there is one. The relief association is a lump-sum defined benefit plan, or the amount equal to 95 percent of the most current average account balance per relief association member if the relief association is a defined contribution plan, or to the lowest service pension amount under section 353G.11 if there is no volunteer firefighters' relief association, rounded up, and any other service pension amount designated by the requester or requesters. The cost analysis must be prepared using a mathematical procedure certified as accurate by an approved actuary retained by the Public Employees Retirement Association.

(d) If a cost analysis is requested and a volunteer firefighters' relief association exists that has filed the information required under section 69.051 in a timely fashion, upon request by the executive director, the state auditor shall provide the most recent data available on the financial condition of the volunteer firefighters' relief association, the most recent firefighter demographic data available, and a copy of the current relief association bylaws. If a cost analysis is requested, but no volunteer firefighters' relief association exists, the chief administrative officer of the entity operating the fire department shall provide the demographic information on the volunteer firefighters serving as members of the fire department requested by the executive director.

(e) If a cost analysis is requested, the executive director of the State Board of Investment shall review the investment portfolio of the relief association, if applicable, for compliance with the applicable provisions of chapter 11A and for appropriateness for retention under the established investment objectives and investment policies of the State Board of Investment. If the prospective retirement coverage change is approved under paragraph (f), the State Board of Investment may require that the relief association liquidate any investment security or other asset which the executive director of the State Board of Investment has determined to be an ineligible or inappropriate investment for retention by the State Board of Investment. The security or asset liquidation must occur before the effective date of the transfer of retirement plan coverage. If requested to do so by the chief administrative officer of the relief association, the executive director of the State Board of Investment shall provide advice about the best means to conduct the liquidation.

(f) Upon receipt of the cost analysis, the governing body of the municipality or independent nonprofit firefighting corporation associated with the fire department shall either approve or disapprove the retirement coverage change within 90 days. If the retirement coverage change is not acted upon within 90 days, it is deemed to be disapproved. If the retirement coverage change is approved by the applicable governing body, coverage by the voluntary statewide lump-sum volunteer firefighter retirement plan is effective on the next following January 1.

**EFFECTIVE DATE.** This section is effective retroactively from January 1, 2010.

Sec. 3. Minnesota Statutes 2009 Supplement, section 353G.06, subdivision 1, is amended to read:

Subdivision 1. **Special fund disestablishment.** (a) On the date immediately prior to the effective date of the coverage change, the special fund of the applicable volunteer firefighters' relief association, if one exists, ceases to exist as a pension fund of the association and legal title to the assets of the special fund transfers to the State Board of Investment, with the beneficial title to the assets of the special fund remaining in the applicable volunteer firefighters.

(b) If the market value of the special fund of the volunteer firefighters' relief association for which retirement coverage changed under this chapter declines in the interval between the date of the most recent financial report or statement, and the special fund disestablishment date, the applicable municipality shall transfer an additional amount to the State Board of Investment equal to that decline. If more than one municipality is responsible for the direct management of the fire department, the municipalities shall allocate the additional transfer amount among the various applicable municipalities one-half in proportion to the population of each municipality and one-half in proportion to the market value of each municipality.

**EFFECTIVE DATE.** This section is effective retroactively from January 1, 2010.
Sec. 4. Minnesota Statutes 2009 Supplement, section 353G.08, is amended to read:

**353G.08 RETIREMENT PLAN FUNDING; DISBURSEMENTS.**

Subdivision 1. Annual funding requirements. (a) Annually, the executive director shall determine the funding requirements of each account in the voluntary statewide lump-sum volunteer firefighter retirement plan on or before August 1. The funding requirements as directed under this section, must be determined using a mathematical procedure developed and certified as accurate by an approved actuary retained by the Public Employees Retirement Association and based on present value factors using a six percent interest rate, without any decrement assumptions. The funding requirements must be certified to the entity or entities associated with the fire department whose active firefighters are covered by the retirement plan.

(b) The overall funding balance of each account for the current calendar year must be determined in the following manner:

1. The total accrued liability for all active and deferred members of the account as of December 31 of the current year must be calculated based on the good time service credit of active and deferred members as of that date.

2. The total present assets of the account projected to December 31 of the current year, including receipts by and disbursements from the account anticipated to occur on or before December 31, must be calculated. To the extent possible, the market value of assets must be utilized in making this calculation.

3. The amount of the total present assets calculated under clause (2) must be subtracted from the amount of the total accrued liability calculated under clause (1). If the amount of total present assets exceeds the amount of the total accrued liability, then the account is considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the account is considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund is considered to be fully funded.

(c) The financial requirements of each account for the following calendar year must be determined in the following manner:

1. The total accrued liability for all active and deferred members of the account as of December 31 of the calendar year next following the current calendar year must be calculated based on the good time service used in the calculation under paragraph (b), clause (1), increased by one year.

2. The increase in the total accrued liability of the account for the following calendar year over the total accrued liability of the account for the current year must be calculated.

3. The amount of anticipated future administrative expenses of the account must be calculated by multiplying the dollar amount of the administrative expenses for the most recent prior calendar year by the factor of 1.035.

4. If the account is fully funded, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3).

5. If the account has a deficit from full funding, the financial requirement of the account for the following calendar year is the total of the amounts calculated under clauses (2) and (3) plus an amount equal to one-tenth of the amount of the deficit from full funding of the account.

6. If the account has a surplus over full funding, the financial requirement of the account for the following calendar year is the financial requirement of the account calculated as though the account was fully funded under clause (4) and, if the account has also had a surplus over full funding during the prior two years, additionally reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the account.
(d) The required contribution of the entity or entities associated with the fire department whose active firefighters are covered by the retirement plan is the annual financial requirements of the account of the retirement plan under paragraph (c) reduced by the amount of any fire state aid payable under sections 69.011 to 69.051 reasonably anticipated to be received by the retirement plan attributable to the entity or entities during the following calendar year, and an amount of interest on the assets projected to be received during the following calendar year calculated at the rate of six percent per annum. The required contribution must be allocated between the entities if more than one entity is involved. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

(e) The required contribution calculated in paragraph (d) must be paid to the retirement plan on or before December 31 of the year for which it was calculated. If the contribution is not received by the retirement plan by December 31, it is payable with interest at an annual compound rate of six percent from the date due until the date payment is received by the retirement plan. If the entity does not pay the full amount of the required contribution, the executive director shall collect the unpaid amount under section 353.28, subdivision 6.

Subd. 2. Cash flow funding requirement. If the executive director determines that an account in the voluntary statewide lump-sum volunteer firefighter retirement plan has insufficient assets to meet the service pensions determined payable from the account, the executive director shall certify the amount of the potential service pension shortfall to the municipality or municipalities and the municipality or municipalities shall make an additional employer contribution to the account within ten days of the certification. If more than one municipality is associated with the account, unless the municipalities agree to a different allocation, the municipalities shall allocate the additional employer contribution one-half in proportion to the population of each municipality and one-half in proportion to the market value of the property of each municipality.

Subd. 3. Authorized account disbursements. (f) The assets of the retirement fund may only be disbursed for:

(1) the administrative expenses of the retirement plan;

(2) the investment expenses of the retirement fund;

(3) the service pensions payable under section 353G.10, 353G.11, 353G.14, or 353G.15; and

(4) the survivor benefits payable under section 353G.12; and

(5) the disability benefit coverage insurance premiums under section 353G.115.

EFFECTIVE DATE. This section is effective retroactively from January 1, 2010.

Sec. 5. Minnesota Statutes 2009 Supplement, section 353G.09, subdivision 3, is amended to read:

Subd. 3. Alternative pension eligibility and computation. (a) An active member of the retirement plan is entitled to an alternative lump-sum service pension from the retirement plan if the person:

(1) has separated from active service with the fire department for at least 30 days;

(2) has attained the age of at least 50 years or the age for receipt of a service pension under the benefit plan of the applicable former volunteer firefighters' relief association as of the date immediately prior to the election of the retirement coverage change, whichever is later;

(3) has completed at least five years of active service with the fire department and at least five years in total as a member of the applicable former volunteer firefighters' relief association or of the retirement plan, but has not rendered at least five years of good time service credit as a member of the retirement plan; and
(4) applies in a manner prescribed by the executive director for the service pension.

(b) If retirement coverage prior to statewide retirement plan coverage was provided by a defined benefit plan volunteer firefighters relief association, the alternative lump-sum service pension is the service pension amount specified in the bylaws of the applicable former volunteer firefighters' relief association either as of the date immediately prior to the election of the retirement coverage change or as of the date immediately before the termination of firefighting services, whichever is earlier, multiplied by the total number of years of service as a member of that volunteer firefighters' relief association and as a member of the retirement plan. If retirement coverage prior to statewide retirement plan coverage was provided by a defined contribution plan volunteer firefighters relief association, the alternative lump-sum service pension is an amount equal to the person's account balance as of the date immediately prior to the date on which statewide retirement plan coverage was first provided to the person plus six percent annual compound interest from that date until the date immediately prior to the date of retirement.

EFFECTIVE DATE. This section is effective retroactively from January 1, 2010.

Sec. 6. Minnesota Statutes 2009 Supplement, section 353G.11, subdivision 1, is amended to read:

If any portion of a member’s salary is paid from other than public funds, the member’s employee contribution must be based on the total salary received by the member from all sources.

Subd. 3. General employees retirement plan; employer contribution. (a) For a basic member of the general employees retirement plan of the Public Employees Retirement Association, the employer contribution is 9.10 percent of salary. For a coordinated member of the general employees retirement plan of the Public Employees Retirement Association, the employer contribution is six percent of salary plus any contribution rate adjustment under subdivision 3b.

(b) This contribution must be made from funds available to the employing subdivision by the means and in the manner provided in section 353.28.

Subd. 3a. Additional employer contribution. (a) An additional employer contribution to the general employees retirement fund of the Public Employees Retirement Association must be made equal to the following applicable percentage of the total salary amount for "basic members" and for "coordinated members":
Basic Program | Coordinated Program
---|---
Effective before January 1, 2006 | 2.68 | .43
Effective January 1, 2006 | 2.68 | .50
Effective January 1, 2009 | 2.68 | .75
Effective January 1, 2010 | 2.68 | 1.00

These contributions must be made from funds available to the employing subdivision by the means and in the manner provided in section 353.28.

(b) The coordinated program contribution rates set forth in paragraph (a) effective for January 1, 2009, or January 1, 2010, must not be implemented if, following receipt of the July 1, 2008, or July 1, 2009, annual actuarial valuation report under section 356.215, respectively, the actuarially required contributions are equal to or less than the total rates under this section in effect as of January 1, 2008.

(c) This subdivision is repealed once the actuarial value of the assets of the general employees retirement plan of the Public Employees Retirement Association equal or exceed the actuarial accrued liability of the plan as determined by the actuary retained under sections 356.214 and 356.215. The repeal is effective on the first day of the first full pay period occurring after March 31 of the calendar year following the issuance of the actuarial valuation upon which the repeal is based.

Subd. 3b. Change in employee and employer contributions in certain instances. (a) For purposes of this section, a contribution sufficiency exists if the total of the employee contribution under subdivision 2, the employer contribution under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision exceeds the total of the normal cost, the administrative expenses, and the amortization contribution of the general employees retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement. For purposes of this section, a contribution deficiency exists if the total of the employee contributions under subdivision 2, the employer contributions under subdivision 3, the additional employer contribution under subdivision 3a, and any additional contribution previously imposed under this subdivision is less than the total of the normal cost, the administrative expenses, and the amortization contribution of the general employees retirement plan as reported in the most recent actuarial valuation of the retirement plan prepared by the actuary retained under section 356.214 and prepared under section 356.215 and the standards for actuarial work of the Legislative Commission on Pensions and Retirement.

(b) Employee and employer contributions to the general employees retirement plan under subdivisions 2 and 3 must be adjusted:

(1) if, after July 1, 2010, the regular actuarial valuations of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicate that there is a contribution sufficiency under paragraph (a) equal to or greater than 0.5 percent of covered payroll for two consecutive years, the coordinated program employee and employer contribution rates must be decreased as determined under paragraph (c) to a level such that the sufficiency equals no more than 0.25 percent of covered payroll based on the most recent actuarial valuation; or

(2) if, after July 1, 2010, the regular actuarial valuations of the general employees retirement plan of the Public Employees Retirement Association under section 356.215 indicate that there is a deficiency equal to or greater than 0.5 percent of covered payroll for two consecutive years, the coordinated program employee and employer contribution rates must be increased as determined under paragraph (c) to a level such that no deficiency exists based on the most recent actuarial valuation.
(c) The general employees retirement plan contribution rate increase or decrease must be determined by the executive director of the Public Employees Retirement Association, must be reported to the chair and the executive director of the Legislative Commission on Pensions and Retirement on or before the next February 1, and, if the Legislative Commission on Pensions and Retirement does not recommend against the rate change or does not recommend a modification in the rate change, is effective on the next July 1 following the determination by the executive director that a contribution deficiency or sufficiency has existed for two consecutive fiscal years based on the most recent actuarial valuations under section 356.215. If the actuarially required contribution of the general employees retirement plan exceeds or is less than the total support provided by the combined employee and employer contribution rates by more than 0.5 percent of covered payroll, the general employees retirement plan coordinated program employee and employer contribution rates must be adjusted incrementally over one or more years to a level such that there remains a contribution sufficiency of no more than 0.25 percent of covered payroll.

(d) No incremental adjustment may exceed 0.25 percent for either the general employees retirement plan coordinated program employee and employer contribution rates per year in which any adjustment is implemented. A general employees retirement plan contribution rate adjustment under this subdivision must not be made until at least two years have passed since fully implementing a previous adjustment under this subdivision.

(e) The general employees retirement plan contribution sufficiency or deficiency determination under paragraphs (a) to (d) must be made without the inclusion of the contributions to, the funded condition of, or the actuarial funding requirements of the MERF division.

Subd. 4. Employer reporting requirements; contributions; member status. (a) A representative authorized by the head of each department shall deduct employee contributions from the salary of each employee who qualifies for membership in the general employees retirement plan of the Public Employees Retirement Association or in the public employees police and fire retirement plan under this chapter and remit payment in a manner prescribed by the executive director for the aggregate amount of the employee contributions, the employer contributions and the additional employer contributions to be received within 14 calendar days. The head of each department or the person's designee shall for each pay period submit to the association a salary deduction report in the format prescribed by the executive director. Data required to be submitted as part of salary deduction reporting must include, but are not limited to:

(1) the legal names and Social Security numbers of employees who are members;

(2) the amount of each employee's salary deduction;

(3) the amount of salary from which each deduction was made;

(4) the beginning and ending dates of the payroll period covered and the date of actual payment; and

(5) adjustments or corrections covering past pay periods.

(b) Employers must furnish the data required for enrollment for each new employee who qualifies for membership in the general employees retirement plan of the Public Employees Retirement Association or in the public employees police and fire retirement plan in the format prescribed by the executive director. The required enrollment data on new employees must be submitted to the association prior to or concurrent with the submission of the initial employee salary deduction. The employer shall also report to the association all member employment status changes, such as leaves of absence, terminations, and death, and shall report the effective dates of those changes, on an ongoing basis for the payroll cycle in which they occur. The employer shall furnish data, forms, and reports as may be required by the executive director for proper administration of the retirement system. Before implementing new or different computerized reporting requirements, the executive director shall give appropriate advance notice to governmental subdivisions to allow time for system modifications.
(c) Notwithstanding paragraph (a), the association executive director may provide for less frequent reporting and payments for small employers.

Subd. 7. Adjustment for erroneous receipts or disbursements. (a) Except as provided in paragraph (b), erroneous employee deductions and erroneous employer contributions and additional employer contributions to the general employees retirement plan of the Public Employees Retirement Association or to the public employees police and fire retirement plan for a person, who otherwise does not qualify for membership under this chapter, are considered:

(1) valid if the initial erroneous deduction began before January 1, 1990. Upon determination of the error by the association, the person may continue membership in the association while employed in the same position for which erroneous deductions were taken, or file a written election to terminate membership and apply for a refund upon termination of public service or defer an annuity under section 353.34; or

(2) invalid, if the initial erroneous employee deduction began on or after January 1, 1990. Upon determination of the error, the association shall refund all erroneous employee deductions and all erroneous employer contributions as specified in paragraph (e). No person may claim a right to continued or past membership in the association based on erroneous deductions which began on or after January 1, 1990.

(b) Erroneous deductions taken from the salary of a person who did not qualify for membership in the general employees retirement plan of the Public Employees Retirement Association or in the public employees police and fire retirement plan by virtue of concurrent employment before July 1, 1978, which required contributions to another retirement fund or relief association established for the benefit of officers and employees of a governmental subdivision, are invalid. Upon discovery of the error, the association shall remove all invalid service and, upon termination of public service, the association shall refund all erroneous employee deductions to the person, with interest as determined under section 353.34, subdivision 2, and all erroneous employer contributions without interest to the employer. This paragraph has both retroactive and prospective application.

(c) Adjustments to correct employer contributions and employee deductions taken in error from amounts which are not salary under section 353.01, subdivision 10, must be made as specified in paragraph (e). The period of adjustment must be limited to the fiscal year in which the error is discovered by the association and the immediate two preceding fiscal years.

(d) If there is evidence of fraud or other misconduct on the part of the employee or the employer, the board of trustees may authorize adjustments to the account of a member or former member to correct erroneous employee deductions and employer contributions on invalid salary and the recovery of any overpayments for a period longer than provided for under paragraph (c).

(e) Upon discovery of the receipt of erroneous employee deductions and employer contributions under paragraph (a), clause (2), or paragraph (c), the association must require the employer to discontinue the erroneous employee deductions and erroneous employer contributions reported on behalf of a member. Upon discontinuation, the association must:

(1) for a member, provide a refund or credit to the employer in the amount of the invalid employee deductions with interest on the invalid employee deductions at the rate specified under section 353.34, subdivision 2, from the received date of each invalid salary transaction through the date the credit or refund is made; and the employer must pay the refunded employee deductions plus interest to the member;

(2) for a former member who:

(i) is not receiving a retirement annuity or benefit, return the erroneous employee deductions to the former member through a refund with interest at the rate specified under section 353.34, subdivision 2, from the received date of each invalid salary transaction through the date the credit or refund is made; or
(ii) is receiving a retirement annuity or disability benefit, or a person who is receiving an optional annuity or survivor benefit, for whom it has been determined an overpayment must be recovered, adjust the payment amount and recover the overpayments as provided under this section; and

(3) return the invalid employer contributions reported on behalf of a member or former member to the employer by providing a credit against future contributions payable by the employer.

(f) In the event that a salary warrant or check from which a deduction for the retirement fund was taken has been canceled or the amount of the warrant or check returned to the funds of the department making the payment, a refund of the sum deducted, or any portion of it that is required to adjust the deductions, must be made to the department or institution.

(g) If the accrual date of any retirement annuity, survivor benefit, or disability benefit is within the limitation period specified in paragraph (c), and an overpayment has resulted by using invalid service or salary, or due to any erroneous calculation procedure, the association must recalculate the annuity or benefit payable and recover any overpayment as provided under subdivision 7b.

(h) Notwithstanding the provisions of this subdivision, the association may apply the Revenue Procedures defined in the federal Internal Revenue Service Employee Plans Compliance Resolution System and not issue a refund of erroneous employee deductions and employer contributions or not recover a small overpayment of benefits if the cost to correct the error would exceed the amount of the member refund or overpayment.

(i) Any fees or penalties assessed by the federal Internal Revenue Service for any failure by an employer to follow the statutory requirements for reporting eligible members and salary must be paid by the employer.

Subd. 7a.  
Deductions or contributions transmitted by error.  (a) If employee deductions and employer contributions under this section, section 353.50, 353.65, or 353E.03 were erroneously transmitted to the association, but should have been transmitted to another Minnesota public pension plan, the executive director shall transfer the erroneous employee deductions and employer contributions to the appropriate retirement fund or individual account, as applicable, without interest.  The time limitations specified in subdivisions 7 and 12 do not apply.

(b) For purposes of this subdivision, a Minnesota public pension plan means a plan specified in section 356.30, subdivision 3, or the plans governed by chapters 353D and 354B.

(c) A potential transfer under paragraph (a) that is reasonably determined to cause the plan to fail to be a qualified plan under section 401(a) of the federal Internal Revenue Code, as amended, must not be made by the executive director of the association.  Within 30 days after being notified by the Public Employees Retirement Association of an unmade potential transfer under this paragraph, the employer of the affected person must transmit an amount representing the applicable salary deductions and employer contributions, without interest, to the retirement fund of the appropriate Minnesota public pension plan, or to the applicable individual account if the proper coverage is by a defined contribution plan.  The association must provide the employing unit a credit for the amount of the erroneous salary deductions and employer contributions against future contributions from the employer.  If the employing unit receives a credit under this paragraph, the employing unit is responsible for refunding to the applicable employee any amount that had been erroneously deducted from the person's salary.

Subd. 7b.  
Recovery of overpayments.  (a) In the event the executive director determines that an overpaid annuity or benefit that from the general employees retirement plan of the Public Employees Retirement Association, the public employees police and fire retirement plan, or the local government correctional employees retirement plan is the result of invalid salary included in the average salary used to calculate the payment amount must be recovered, the association must determine the amount of the employee deductions taken in error on the invalid salary, with interest determined in the manner provided for a former member under subdivision 7, paragraph (e), clause (2), item (i), and must subtract that amount from the total annuity or benefit overpayment, and the remaining balance of the overpaid annuity or benefit, if any, must be recovered.
(b) If the invalid employee deductions plus interest exceed the amount of the overpaid benefits, the balance must be refunded to the person to whom the benefit or annuity is being paid.

(c) Any invalid employer contributions reported on the invalid salary must be credited to the employer as provided in subdivision 7, paragraph (e).

(d) If a member or former member, who is receiving a retirement annuity or disability benefit for which an overpayment is being recovered, dies before recovery of the overpayment is completed and a joint and survivor optional annuity is payable, the remaining balance of the overpaid annuity or benefit must continue to be recovered from the payment to the optional annuity beneficiary.

(e) If the association finds that a refund has been overpaid to a former member, beneficiary or other person, the amount of the overpayment must be recovered for the benefit of the respective retirement fund or account.

(f) The board of trustees shall adopt policies directing the period of time and manner for the collection of any overpaid retirement or optional annuity, and survivor or disability benefit, or a refund that the executive director determines must be recovered as provided under this section.

Subd. 7c. Limitation on additional plan coverage. No deductions for any plan under this chapter or chapter 353E may be taken from the salary of a person who is employed by a governmental subdivision under section 353.01, subdivision 6, and who is receiving disability benefit payments from any plan under this chapter or chapter 353E unless the person waives the right to further disability benefit payments.

Subd. 8. District court reporters; salary deductions. Deductions from the salary of a district court reporter in a judicial district consisting of two or more counties must be made by the auditor of the county in which the bond and official oath of such district court reporter are filed, from the portion of salary paid by such county.

Subd. 9. Fee officers; contributions; obligations of employers. Any appointed or elected officer of a governmental subdivision who was or is a "public employee" within the meaning of section 353.01 and was or is a member of the general employees retirement plan of the Public Employees Retirement Association and whose salary was or is paid in whole or in part from revenue derived by fees and assessments, shall pay employee contribution in the amount, at the time, and in the manner provided in subdivisions 2 and 4. This subdivision does not apply to district court reporters. The employer contribution as provided in subdivision 3, and the additional employer contribution as provided in subdivision 3a, with respect to such service shall be paid by the governmental subdivision. This subdivision shall have both retroactive and prospective application as to all such members; and every employing governmental subdivision is deemed liable, retroactively and prospectively, for all employer and additional employer contributions for every such member of the general employees retirement plan in its employ. Delinquencies under this section shall be governed in all respects by section 353.28.

Subd. 10. Employer exclusion reports. The head of a department shall annually furnish the executive director with an exclusion report listing only those employees in potentially PERA-eligible general employees retirement plan-eligible positions who were not reported as members of the association general employees retirement plan and who worked during the school year for school employees and calendar year for nonschool employees. The department head must certify the accuracy and completeness of the exclusion report to the association. The executive director shall prescribe the manner and forms, including standardized exclusion codes, to be used by a governmental subdivision in preparing and filing exclusion reports. The executive director shall also check the exclusion report to ascertain whether any omissions have been made by a department head in the reporting of new public employees for membership. The executive director may delegate an association employee under section 353.03, subdivision 3a, paragraph (b), clause (5), to conduct a field audit to review the payroll records of a governmental subdivision.
Subd. 11. **Employers; required to furnish requested information.** (a) All governmental subdivisions shall furnish promptly such other information relative to the employment status of all employees or former employees, including, but not limited to, payroll abstracts pertaining to all past and present employees, as may be requested by the executive director, including schedules of salaries applicable to various categories of employment.

(b) In the event payroll abstract records have been lost or destroyed, for whatever reason or in whatever manner, so that such schedules of salaries cannot be furnished therefrom, the employing governmental subdivision, in lieu thereof, shall furnish to the association an estimate of the earnings of any employee or former employee for any period as may be requested by the executive director. If the association is provided a schedule of estimated earnings, the executive director is authorized to use the same as a basis for making whatever computations might be necessary for determining obligations of the employee and employer to the general employees retirement fund plan, the public employees police and fire retirement plan, or the local government correctional employees retirement plan. If estimates are not furnished by the employer at the request of the executive director, the executive director may estimate the obligations of the employee and employer to the general employees retirement fund plan, the public employees police and fire retirement plan, or the local government correctional employees retirement plan based upon those records that are in its possession.

Subd. 12. **Omitted salary deductions; obligations.** (a) In the case of omission of required deductions for the general employees retirement plan, the public employees police and fire retirement plan, or the local government correctional employees retirement plan from the salary of an employee, the department head or designee shall immediately, upon discovery, report the employee for membership and deduct the employee deductions under subdivision 4 during the current pay period or during the pay period immediately following the discovery of the omission. Payment for the omitted obligations may only be made in accordance with reporting procedures and methods established by the executive director.

(b) When the entire omission period of an employee does not exceed 60 days, the governmental subdivision may report and submit payment of the omitted employee deductions and the omitted employer contributions through the reporting processes under subdivision 4.

(c) When the omission period of an employee exceeds 60 days, the governmental subdivision shall furnish to the association sufficient data and documentation upon which the obligation for omitted employee and employer contributions can be calculated. The omitted employee deductions must be deducted from the employee's subsequent salary payment or payments and remitted to the association for deposit in the applicable retirement fund. The employee shall pay omitted employee deductions due for the 60 days prior to the end of the last pay period in the omission period during which salary was earned. The employer shall pay any remaining omitted employee deductions and any omitted employer contributions, plus cumulative interest at an annual rate of 8.5 percent compounded annually, from the date or dates each omitted employee contribution was first payable.

(d) An employer shall not hold an employee liable for omitted employee deductions beyond the pay period dates under paragraph (c), nor attempt to recover from the employee those employee deductions paid by the employer on behalf of the employee. Omitted deductions due under paragraph (c) which are not paid by the employee constitute a liability of the employer that failed to deduct the omitted deductions from the employee's salary. The employer shall make payment with interest at an annual rate of 8.5 percent compounded annually. Omitted employee deductions are no longer due if an employee terminates public service before making payment of omitted employee deductions to the association, but the employer remains liable to pay omitted employer contributions plus interest at an annual rate of 8.5 percent compounded annually from the date the contributions were first payable.

(e) The association may not commence action for the recovery of omitted employee deductions and employer contributions after the expiration of three calendar years after the calendar year in which the contributions and deductions were omitted. Except as provided under paragraph (b), no payment may be made or accepted unless the association has already commenced action for recovery of omitted deductions. An action for recovery commences on the date of the mailing of any written correspondence from the association requesting information from the governmental subdivision upon which to determine whether or not omitted deductions occurred.
Subd. 12a. Terminated employees: omitted deductions. A terminated employee who was a member of the general employees retirement plan of the Public Employees Retirement Association, the public employees police and fire retirement plan, or the local government correctional employees retirement plan and who has a period of employment in which previously omitted employer contributions were made under subdivision 12 but for whom no, or only partial, omitted employee contributions have been made, or a member who had prior coverage in the association for which previously omitted employer contributions were made under subdivision 12 but who terminated service before required omitted employee deductions could be withheld from salary, may pay the omitted employee deductions for the period on which omitted employer contributions were previously paid plus interest at an annual rate of 8.5 percent compounded annually. A terminated employee may pay the omitted employee deductions plus interest within six months of an initial notification from the association of eligibility to pay those omitted deductions. If a terminated employee is reemployed in a position covered under a public pension fund under section 356.30, subdivision 3, and elects to pay omitted employee deductions, payment must be made no later than six months after a subsequent termination of public service.

Subd. 12b. Terminated employees: immediate eligibility. If deductions were omitted from salary adjustments or final salary of a terminated employee who was a member of the general employees retirement plan, the public employees police and fire retirement plan, or the local government correctional employees retirement plan and who is immediately eligible to draw a monthly benefit, the employer shall pay the omitted employer and employer additional contributions plus interest on both the employer and employee amounts due at an annual rate of 8.5 percent compounded annually. The employee shall pay the employee deductions within six months of an initial notification from the association of eligibility to pay omitted deductions or the employee forfeits the right to make the payment.

Subd. 13. Certain warrants canceled. A warrant payable from the general employees retirement fund, the public employees police and fire retirement fund, or the local government correctional retirement fund remaining unpaid for a period of six months must be canceled into the applicable retirement fund and not canceled into the state's general fund.

Subd. 14. Periods before initial coverage date. (a) If an entity is determined to be a governmental subdivision due to receipt of a written notice of eligibility from the association with respect to the general employees retirement plan, the public employees police and fire retirement plan, or the local government correctional retirement plan, that employer and its employees are subject to the requirements of subdivision 12, effective retroactively to the date that the executive director of the association determines that the entity first met the definition of a governmental subdivision, if that date predates the notice of eligibility.

(b) If the retroactive time period under paragraph (a) exceeds three years, an employee is authorized to purchase service credit in the applicable Public Employees Retirement Association plan for the portion of the period in excess of three years, by making payment under section 356.551. Notwithstanding any provision of section 356.551, subdivision 2, to the contrary, regarding time limits on purchases, payment of a service credit purchase amount may be made anytime before the termination of public service.

(c) This subdivision does not apply if the applicable employment under paragraph (a) included coverage by any public or private defined benefit or defined contribution retirement plan, other than a volunteer firefighters relief association. If this paragraph applies, an individual is prohibited from purchasing service credit from a Public Employees Retirement Association plan for any period or periods specified in paragraph (a).

Sec. 8. Minnesota Statutes 2008, section 353.34, subdivision 1, is amended to read:

Subdivision 1. Refund or deferred annuity. (a) A former member is entitled to a refund of accumulated employee deductions under subdivision 2, or to a deferred annuity under subdivision 3. Application for a refund may not be made before the date of termination of public service. Except as specified in paragraph (b), a refund must be paid within 120 days following receipt of the application unless the applicant has again become a public employee required to be covered by the association.
(b) If an individual was placed on layoff under section 353.01, subdivision 12 or 12c, a refund is not payable before termination of service under section 353.01, subdivision 11a.

(c) An individual who terminates public service covered by the Public Employees Retirement Association general employees retirement plan, the MERF division, the Public Employees Retirement Association police and fire retirement plan, or the public employees local government corrections service retirement plan, and who is employed by a different employer and who becomes an active member covered by one of the other two plans, may receive a refund of employee contributions plus six percent interest compounded annually from the plan from which the member terminated service.

Sec. 9. Minnesota Statutes 2008, section 353.34, subdivision 6, is amended to read:

Subd. 6. Additions to fund. The board of trustees may credit to the general employees retirement fund any money received in the form of contributions, donations, gifts, appropriations, bequests, or otherwise.

Sec. 10. Minnesota Statutes 2008, section 353.37, subdivision 1, is amended to read:

Subdivision 1. Salary maximums. (a) The annuity of a person otherwise eligible for an annuity under this chapter from the general employees retirement plan of the Public Employees Retirement Association, the public employees police and fire retirement plan, or the local government correctional employees retirement plan must be suspended under subdivision 2 or reduced under subdivision 3, whichever results in the higher annual annuity amount, if the person reenters public service as a nonelective employee of a governmental subdivision in a position covered by this chapter or returns to work as an employee of a labor organization that represents public employees who are association members under this chapter or chapter 353E.

(b) The provisions of paragraph (a) do not apply to the members of the MERF division.

Sec. 11. Minnesota Statutes 2008, section 353.37, subdivision 2, is amended to read:

Subd. 2. Suspension of annuity. (a) The association shall suspend the annuity on the first of the month after the month in which the salary of the reemployed annuitant described in subdivision 1, paragraph (a), exceeds the maximums set in subdivision 1, paragraph (a), based only on those months in which the annuitant is actually employed in nonelective public service in a position covered by this chapter or employment with a labor organization that represents public employees who are association members of a retirement plan under this chapter or chapter 353E.

(b) An annuitant who is elected to public office after retirement may hold that office and receive an annuity otherwise payable from a retirement plan administered by the association.

Sec. 12. Minnesota Statutes 2008, section 353.37, subdivision 3, is amended to read:

Subd. 3. Reduction of annuity. (a) The association shall reduce the amount of the annuity of a person who has not reached the retirement age by one-half of the amount in excess of the applicable reemployment income maximum under subdivision 1, paragraph (a).
(b) There is no reduction upon reemployment, regardless of income, for a person who has reached the retirement age.

Sec. 13. Minnesota Statutes 2008, section 353.37, subdivision 4, is amended to read:

Subd. 4. Resumption of annuity. The association shall resume paying a full annuity to the reemployed annuitant described in subdivision 1, paragraph (a), at the start of each calendar year until the salary exceeds the maximums under subdivision 1, paragraph (a), or on the first of the month following the termination of the employment which resulted in the suspension of the annuity. The executive director may adopt policies regarding the suspension and reduction of annuities under this section.

Sec. 14. Minnesota Statutes 2008, section 353.37, subdivision 5, is amended to read:

Subd. 5. Effect on annuity. Except as provided under this section, public service performed by an annuitant described in subdivision 1, paragraph (a), subsequent to retirement under this chapter from the general employees retirement plan, the public employees police and fire retirement plan, or the local government correctional employees retirement plan does not increase or decrease the amount of an annuity. The annuitant shall not make any further contributions to the association's defined benefit plan administered by the association by reason of this subsequent public service.

Sec. 15. Minnesota Statutes 2008, section 353.46, subdivision 2, is amended to read:

Sec. 16. Minnesota Statutes 2008, section 353.46, subdivision 6, is amended to read:

Subd. 6. Computation of benefits for certain coordinated members. Subdivision 1. Administrative consolidation. (a) Notwithstanding any provision of this chapter or chapter 422A to the contrary, the administration of the Minneapolis Employees Retirement Fund as the MERF division is transferred to the Public Employees Retirement Association board of trustees. The assets, service credit, and benefit liabilities of the Minneapolis Employees Retirement Fund transfer to the MERF division account within the general employees retirement plan of the Public Employees Retirement Association established by section 353.27, subdivision 1a, on July 1, 2010.

(b) The creation of the MERF division must not be construed to alter the Social Security or Medicare coverage of any member of the former Minneapolis Employees Retirement Fund on June 29, 2010, while the person is employed in a position covered under the MERF division of the Public Employees Retirement Association.

Subd. 2. Membership transfer. Effective June 30, 2010, the active, inactive, and retired members of the Minneapolis Employees Retirement Fund are transferred to the MERF division administered by the Public Employees Retirement Association and are no longer members of the Minneapolis Employees Retirement Fund.

Subd. 3. Service credit and benefit liability transfer. (a) All allowable service credit and salary credit of the members of the Minneapolis Employees Retirement Fund as specified in the records of the Minneapolis Employees Retirement Fund through June 30, 2010, are transferred to the MERF division of the Public Employees Retirement Association and are credited by the MERF division. Annuities or benefits of persons who are active members of the former Minneapolis Employees Retirement Fund on June 30, 2010, must be calculated under Minnesota Statutes 2008, sections 422A.11; 422A.12; 422A.13; 422A.14; 422A.15; 422A.151; 422A.155; 422A.156; 422A.16; 422A.17; 422A.18; 422A.19; 422A.20; and 422A.23, but are only eligible for automatic postretirement adjustments after December 31, 2010, under section 356.415.

(b) The liability for the payment of annuities and benefits of the Minneapolis Employees Retirement Fund retirees and benefit recipients as specified in the records of the Minneapolis Employees Retirement Fund on June 29, 2010, is transferred to the MERF division of the Public Employees Retirement Association on June 30, 2010.

Subd. 4. Records transfer. On June 30, 2010, the executive director of the Minneapolis Employees Retirement Fund shall transfer all records and documents relating to the Minneapolis Employees Retirement Fund and its benefit plan to the executive director of the Public Employees Retirement Association. To the extent possible, original copies of all records and documents must be transferred.

Subd. 5. Transfer of title to assets. On June 30, 2010, legal title to the assets of the Minneapolis Employees Retirement Fund transfers to the State Board of Investment and the assets must be invested under section 11A.14, as assets of the MERF division of the Public Employees Retirement Association. The MERF division is the successor in interest to all claims that the former Minneapolis Employees Retirement Fund may have or may assert against any person and is the successor in interest to all claims which could have been asserted against the former Minneapolis
Employees Retirement Fund, but the MERF division is not liable for any claim against the former Minneapolis Employees Retirement Fund, its former governing board, or its former administrative staff acting in a fiduciary capacity under chapter 356A or under common law, which is founded upon a claim of breach of fiduciary duty, but where the act or acts constituting the claimed breach were not undertaken in good faith, the Public Employees Retirement Association may assert any applicable defense to any claim in any judicial or administrative proceeding that the former Minneapolis Employees Retirement Fund, its former board, or its former administrative staff would otherwise have been entitled to assert, and the Public Employees Retirement Association may assert any applicable defense that it has in its capacity as a statewide agency.

Subd. 6. **Benefits.** (a) The annuities and benefits of, or attributable to, retired, disabled, deferred, or inactive Minneapolis Employees Retirement Fund members with that status as of June 30, 2010, with the exception of post-December 31, 2010, postretirement adjustments, which are governed by paragraph (b), as calculated under Minnesota Statutes 2008, sections 422A.11; 422A.12; 422A.13; 422A.14; 422A.15; 422A.151; 422A.155; 422A.156; 422A.16; 422A.17; 422A.18; 422A.19; 422A.20; and 422A.23, continue in force after the administrative consolidation under this article.

(b) After December 31, 2010, annuities and benefits from the MERF division are eligible for annual automatic postretirement adjustments solely under section 356.415.

Subd. 7. **MERF division account contributions.** (a) After June 30, 2010, the member and employer contributions to the MERF division account are governed by this subdivision.

(b) An active member covered by the MERF division must make an employee contribution of 9.75 percent of the total salary of the member as defined in section 353.01, subdivision 10. The employee contribution must be made by payroll deduction by the member's employing unit under section 353.27, subdivision 4, and is subject to the provisions of section 353.27, subdivisions 7, 7a, 7b, 12, 12a, and 12b.

(c) The employer regular contribution to the MERF division account with respect to an active MERF division member is 9.75 percent of the total salary of the member as defined in section 353.01, subdivision 10.

(d) The employer additional contribution to the MERF division account with respect to an active member of the MERF division is 2.68 percent of the total salary of the member as defined in section 353.01, subdivision 10, plus the employing unit's share of $3,900,000 that the employing unit paid or is payable to the former Minneapolis Employees Retirement Fund under Minnesota Statutes 2008, section 422A.101, subdivision 1a, 2, or 2a, during calendar year 2009, as was certified by the former executive director of the former Minneapolis Employees Retirement Fund.

(e) Annually after June 30, 2012, The employer supplemental contribution to the MERF division account by the city of Minneapolis, Special School District No. 1, Minneapolis, a Minneapolis-owned public utility, improvement, or municipal activity, Hennepin county, the Metropolitan Council, the Metropolitan Airports Commission, and the Minnesota State Colleges and Universities system is the amount by which the total actuarial required contribution determined under section 356.215 by the approved actuary retained by the Public Employees Retirement Association in the most recent actuarial valuation of the MERF division and based on a June 30, 2031, amortization date, after subtracting the contributions under paragraphs (b), (c), and (d), exceeds $36,500,000. Unless the various employing units agree to a different allocation and file that agreement with the executive director by August 15 for the following calendar year, each employing unit's share of the total employer supplemental contribution amount is equal to its percentage share of the total amount allocated under Minnesota Statutes 2008, section 422A.101, subdivision 3, payable for calendar year 2009. The initial total actuarial required contribution after June 30, 2012, must be calculated using the mortality assumption change recommended on September 30, 2009, for the Minneapolis Employees Retirement Fund by the approved consulting actuary retained by the Minneapolis Employees Retirement Fund board.
(f) Notwithstanding any provision of paragraph (c), (d), or (e) to the contrary, as of August 1 annually, if the amount of the retirement annuities and benefits paid from the MERF division account during the preceding fiscal year, multiplied by the factor of 1.035, exceeds the market value of the assets of the MERF division account on the preceding June 30, plus state aid of $9,000,000 or $36,500,000, whichever applies, plus the amounts payable under paragraphs (b), (c), (d), and (e) during the preceding fiscal year, multiplied by the factor of 1.035, the balance calculated is a special additional employer contribution. The special additional employer contribution under this paragraph is payable in addition to any employer contribution required under paragraphs (c), (d), and (e), and is payable on or before the following June 30. The special additional employer contribution under this paragraph must be allocated between the city of Minneapolis, Special School District No. 1, Minneapolis, any Minneapolis-owned public utility, improvement, or municipal activity, the Minnesota State Colleges and Universities system, Hennepin County, the Metropolitan Council, and the Metropolitan Airports Commission in proportion to their share of the actuarial accrued liability of the former Minneapolis Employees Retirement Fund as of July 1, 2009, as calculated by the approved actuary retained under section 356.214 as part of the actuarial valuation prepared as of July 1, 2009, under section 356.215 and the Standards for Actuarial Work adopted by the Legislative Commission on Pensions and Retirement.

(g) The employer contributions under paragraphs (c), (d), and (e) must be paid as provided in section 353.28.

(h) Contributions under this subdivision are subject to the provisions of section 353.27, subdivisions 4, 7, 7a, 7b, 11, 12, 12a, 12b, 13, and 14.

Subd. 7a. Minneapolis Municipal Retirement Association dues. If authorized by an annuitant or retirement benefit recipient in writing on a form prescribed by the executive director of the Public Employees Retirement Association, the executive director shall deduct the dues for the Minneapolis Municipal Retirement Association from the person's annuity or retirement benefit. This dues deduction authority expires upon the eventual full consolidation of the MERF account under subdivision 8.

Subd. 8. Eventual full consolidation. (a) Once the fiscal year end market value of assets of the MERF division account equals or exceeds 80 percent of the actuarial accrued liability of the MERF division as calculated by the approved actuary retained by the Public Employees Retirement Association under section 356.215 and the Standards for Actuarial Work adopted by the Legislative Commission on Pensions and Retirement, the MERF division must be merged with the general employees retirement plan of the Public Employees Retirement Association and the MERF division account ceases as a separate account within the general employees retirement fund of the Public Employees Retirement Association.

(b) If the market value of the MERF division account is less than 100 percent of the actuarial accrued liability of the MERF division under paragraph (a), the total employer contribution of employing units referenced in subdivision 7, paragraph (e), for the period after the full consolidation and June 30, 2031, to amortize on a level annual dollar payment the remaining unfunded actuarial accrued liability of the former MERF division account on the full consolidation date by June 30, 2031, shall be calculated by the consulting actuary retained under section 356.214 using the applicable postretirement interest rate actuarial assumption for the general employees retirement plan under section 356.215. The actuarial accrued liability of the MERF division must be calculated using the healthy retired life mortality assumption applicable to the general employees retirement plan.

(c) The merger shall occur as of the first day of the first month after the date on which the triggering actuarial valuation report is filed with the executive director of the Legislative Commission on Pensions and Retirement.

(d) The executive director of the Public Employees Retirement Association shall prepare proposed legislation fully implementing the merger and updating the applicable provisions of chapters 353 and 356 and transmit the proposed legislation to the executive director of the Legislative Commission on Pensions and Retirement by the following February 15.
Subd. 9. **Merger of former MERF membership groups into PERA-general.** If provided for in an agreement between the board of trustees of the Public Employees Retirement Association and the governing board of an employing unit formerly with retirement coverage provided for its employees by the former Minneapolis Employees Retirement Fund, an employing unit may transfer sufficient assets to the general employees retirement fund to cover the anticipated actuarial accrued liability for its current or former employees that is in excess of MERF division account assets attributable to those employees, have those employees be considered full members of the general employees retirement plan, and be relieved of any further contribution obligation to the general employees retirement plan for those employees under this section. Any agreement under this subdivision and any actuarial valuation report related to a merger under this subdivision must be submitted to the executive director of the Legislative Commission on Pensions and Retirement for comment prior to the final execution.

Sec. 18. Minnesota Statutes 2008, section 353.64, subdivision 7, is amended to read:

Subd. 7. **Pension coverage for certain public safety employees of the Metropolitan Airports Commission.** Any person first employed as either a full-time firefighter or a full-time police officer by the Metropolitan Airports Commission after June 30, 1978, who is not eligible for coverage under the agreement signed between the state and the secretary of the federal Department of Health and Human Services making the provisions of the federal Old Age, Survivors, and Disability Insurance Act applicable to municipal employees because that position is excluded from application pursuant to Title 42, United States Code, Sections 418 (d) (5) (A) and 418 (d) (8) (D) and section 355.07, shall not be a member of the Minneapolis Employees Retirement Fund but shall be a member of the public employees police and fire fund and shall be deemed to be a firefighter or a police officer within the meaning of this section. The Metropolitan Airports Commission shall make the employer contribution required pursuant to section 353.65, subdivision 3, with respect to each of its firefighters or police officers covered by the public employees police and fire fund and shall meet the employers recording and reporting requirements set forth in section 353.65, subdivision 4.

Sec. 19. Minnesota Statutes 2008, section 356.215, subdivision 8, is amended to read:

Subd. 8. **Interest and salary assumptions.** (a) The actuarial valuation must use the applicable following preretirement interest assumption and the applicable following postretirement interest assumption:

The select calculation is: during the designated select period, a designated percentage rate is multiplied by the result of the designated integer minus T, where T is the number of completed years of service, and is added to the applicable future salary increase assumption. The designated select period is five years and the designated integer is five for the general state employees.

The designated percentage rate is: (1) 0.2 percent for the correctional state employees retirement plan, the State Patrol retirement plan, the public employees police and fire plan, and the local government correctional service plan; (2) 0.6 percent for the general state employees retirement plan and the general public employees retirement plan; and (3) 0.3 percent for the teachers retirement plan, the Duluth Teachers Retirement Fund Association, and the St. Paul Teachers Retirement Fund Association. The select calculation for the Duluth Teachers Retirement Fund Association is 8.00 percent per year for service years one through seven, 7.25 percent per year for service years seven and eight, and 6.50 percent per year for service years eight and nine.

### Salary Assumptions

(c) Before July 2, 2010, the actuarial valuation must use the applicable following payroll growth assumption for calculating the amortization requirement for the unfunded actuarial accrued liability where the amortization of retirement is calculated as a level percentage of an increasing payroll.

(d) After July 1, 2010, the assumptions set forth in paragraphs (b) and (c) continue to apply, unless a different salary assumption or a different payroll increase assumption:

(1) has been proposed by the governing board of the applicable retirement plan;
(2) is accompanied by the concurring recommendation of the actuary retained under section 356.214, subdivision 1, if applicable, or by the approved actuary preparing the most recent actuarial valuation report if section 356.214 does not apply; and

(3) has been approved or deemed approved under subdivision 18.

Sec. 20. Minnesota Statutes 2009 Supplement, section 356.215, subdivision 11, is amended to read:

Subd. 11. Amortization contributions. (a) In addition to the exhibit indicating the level normal cost, the actuarial valuation of the retirement plan must contain an exhibit for financial reporting purposes indicating the additional annual contribution sufficient to amortize the unfunded actuarial accrued liability and must contain an exhibit for contribution determination purposes indicating the additional contribution sufficient to amortize the unfunded actuarial accrued liability. For the retirement plans listed in subdivision 8, paragraph (c), but excluding the MERF division of the Public Employees Retirement Association, the additional contribution must be calculated on a level percentage of covered payroll basis by the established date for full funding in effect when the valuation is prepared, assuming annual payroll growth at the applicable percentage rate set forth in subdivision 8, paragraph (c). For all other retirement plans and for the MERF division of the Public Employees Retirement Association, the additional annual contribution must be calculated on a level annual dollar amount basis.

(b) For any retirement plan other than the Minneapolis Employees Retirement Fund, the general employees retirement plan of the Public Employees Retirement Association, and the St. Paul Teachers Retirement Fund Association, if there has not been a change in the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, which change or changes, by itself or by themselves without inclusion of any other items of increase or decrease produce a net increase in the unfunded actuarial accrued liability of the fund, the established date for full funding is the first actuarial valuation date occurring after June 1, 2020.

(c) For any retirement plan other than the Minneapolis Employees Retirement Fund and the general employees retirement plan of the Public Employees Retirement Association, if there has been a change in any or all of the actuarial assumptions used for calculating the actuarial accrued liability of the fund, a change in the benefit plan governing annuities and benefits payable from the fund, a change in the actuarial cost method used in calculating the actuarial accrued liability of all or a portion of the fund, or a combination of the three, and the change or changes, by itself or by themselves and without inclusion of any other items of increase or decrease, produce a net increase in the unfunded actuarial accrued liability in the fund, the established date for full funding must be determined using the following procedure:

(i) the unfunded actuarial accrued liability of the fund must be determined in accordance with the plan provisions governing annuities and retirement benefits and the actuarial assumptions in effect before an applicable change;

(ii) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the unfunded actuarial accrued liability amount determined under item (i) by the established date for full funding in effect before the change must be calculated using the interest assumption specified in subdivision 8 in effect before the change;

(iii) the unfunded actuarial accrued liability of the fund must be determined in accordance with any new plan provisions governing annuities and benefits payable from the fund and any new actuarial assumptions and the remaining plan provisions governing annuities and benefits payable from the fund and actuarial assumptions in effect before the change;
(iv) the level annual dollar contribution or level percentage, whichever is applicable, needed to amortize the
difference between the unfunded actuarial accrued liability amount calculated under item (i) and the unfunded
actuarial accrued liability amount calculated under item (iii) over a period of 30 years from the end of the plan year
in which the applicable change is effective must be calculated using the applicable interest assumption specified in
subdivision 8 in effect after any applicable change;

(v) the level annual dollar or level percentage amortization contribution under item (iv) must be added to the
level annual dollar amortization contribution or level percentage calculated under item (ii);

(vi) the period in which the unfunded actuarial accrued liability amount determined in item (iii) is amortized by
the total level annual dollar or level percentage amortization contribution computed under item (v) must be
calculated using the interest assumption specified in subdivision 8 in effect after any applicable change, rounded to
the nearest integral number of years, but not to exceed 30 years from the end of the plan year in which the
determination of the established date for full funding using the procedure set forth in this clause is made and not to
be less than the period of years beginning in the plan year in which the determination of the established date for full
funding using the procedure set forth in this clause is made and ending by the date for full funding in effect before
the change; and

(vii) the period determined under item (vi) must be added to the date as of which the actuarial valuation was
prepared and the date obtained is the new established date for full funding.

(d) For the Minneapolis Employees Retirement Fund MERF division of the Public Employees Retirement
Association, the established date for full funding is June 30, 2020 2031.

(e) For the general employees retirement plan of the Public Employees Retirement Association, the established
date for full funding is June 30, 2031.

(f) For the Teachers Retirement Association, the established date for full funding is June 30, 2037.

(g) For the correctional state employees retirement plan of the Minnesota State Retirement System, the
established date for full funding is June 30, 2038.

(h) For the judges retirement plan, the established date for full funding is June 30, 2038.

(i) For the public employees police and fire retirement plan, the established date for full funding is
June 30, 2038.

(j) For the St. Paul Teachers Retirement Fund Association, the established date for full funding is June 30 of the
25th year from the valuation date. In addition to other requirements of this chapter, the annual actuarial valuation
shall contain an exhibit indicating the funded ratio and the deficiency or sufficiency in annual contributions
when comparing liabilities to the market value of the assets of the fund as of the close of the most recent fiscal year.

(k) For the retirement plans for which the annual actuarial valuation indicates an excess of valuation assets over
the actuarial accrued liability, the valuation assets in excess of the actuarial accrued liability must be recognized as a
reduction in the current contribution requirements by an amount equal to the amortization of the excess expressed as
a level percentage of pay over a 30-year period beginning anew with each annual actuarial valuation of the plan.

Sec. 21. Minnesota Statutes 2008, section 422A.101, subdivision 3, is amended to read:

Subd. 3. State contributions. (a) Subject to the limitation set forth in paragraph (c), the state shall pay to the
MERF division account of the Public Employees Retirement Association with respect to the former Minneapolis
Employees Retirement Fund annually an amount equal to the amount calculated under paragraph (b).
(b) The payment amount is an amount equal to the financial requirements of the Minneapolis Employees Retirement Fund MERF division of the Public Employees Retirement Association reported in the actuarial valuation of the fund general employees retirement plan of the Public Employees Retirement Association prepared by the actuary retained under section 356.214 consistent with section 356.215 for the most recent year but based on a target date for full amortization of the unfunded actuarial accrued liabilities by June 30, 2020, less the amount of employee contributions required under section 422A.10, subdivision 7, paragraph (b), and the amount of employer contributions required under subdivisions 1a, 2, and 2a section 353.50, subdivision 7, paragraphs (c) and (d). Payments shall must be made September 15 annually.

(c) The annual state contribution under this subdivision may not exceed $9,000,000, plus the cost of the annual supplemental benefit determined under Minnesota Statutes 2008, section 356.43, through June 30, 2012, and may not exceed $9,000,000, plus the cost of the annual supplemental benefit determined under Minnesota Statutes 2008, section 356.43, plus $27,500,000 annually after June 30, 2012, and until June 30, 2031.

(d) Annually and after June 30, 2012, if the amount determined under paragraph (b) exceeds $9,000,000, the applicable maximum amount specified in paragraph (c), the excess must be allocated to and paid to the fund by the employers identified in Minnesota Statutes 2008, section 422A.101, subdivisions 1a and 2, other than units of metropolitan government and 2a. Each employer's share of the excess is proportionate to the employer's share of the fund's unfunded actuarial accrued liability as disclosed in the annual actuarial valuation prepared by the actuary retained under section 356.214 compared to the total unfunded actuarial accrued liability as of July 1, 2009, attributed to all employers identified in Minnesota Statutes 2008, section 422A.101, subdivisions 1a and 2, other than units of metropolitan government. Payments must be made in equal installments as set forth in paragraph (b).

(e) State contributions under this section end on September 15, 2031, or on September 1 following the first date on which the current assets of the MERF division of the Public Employees Retirement Association equal or exceed the actuarial accrued liability of the MERF division of the Public Employees Retirement Association, whichever occurs earlier.

(a) The administrative consolidation of the former Minneapolis Employees Retirement Fund into the general employees retirement plan of the Public Employees Retirement Association and the merger of the MERF division of the Public Employees Retirement Association into the general employees retirement plan of the Public Employees Retirement Association does not affect the function of the Minneapolis Municipal Retirement Association, a nonprofit corporation, to monitor the administration of the retirement coverage for former members of the former Minneapolis Employees Retirement Fund.

Subd. 9.  Political subdivision compensation limit.  (a) The salary and the value of all other forms of compensation of a person employed by a political subdivision of this state, excluding a school district, or employed under section 422A.03 may not exceed 110 percent of the salary of the governor as set under section 15A.082, except as provided in this subdivision. The limit shall equal the limit for the prior year increased by the percentage increase, if any, in the Consumer Price Index for all-urban consumers from October of the second prior year to October of the immediately prior year.

(c) Deferred compensation and payroll allocations to purchase an individual annuity contract for an employee are included in determining the employee's salary.  Other forms of compensation which shall be included to determine an employee's total compensation are all other direct and indirect items of compensation which are not specifically excluded by this subdivision.  Other forms of compensation which shall not be included in a determination of an employee's total compensation for the purposes of this subdivision are:

(e) The commissioner may increase the limitation in this subdivision for a position that the commissioner has determined requires special expertise necessitating a higher salary to attract or retain a qualified person.  The commissioner shall review each proposed increase giving due consideration to salary rates paid to other persons with similar responsibilities in the state and nation.  The commissioner may not increase the limitation until the commissioner has presented the proposed increase to the Legislative Coordinating Commission and received the commission's recommendation on it.  The recommendation is advisory only.  If the commission does not give its recommendation on a proposed increase within 30 days from its receipt of the proposal, the commission is deemed
to have made no recommendation. If the commissioner grants an increase under this paragraph, the new limitation shall must be adjusted beginning in August 2005 and in each subsequent calendar year in January by the percentage increase equal to the percentage increase, if any, in the Consumer Price Index for all-urban consumers from October of the second prior year to October of the immediately prior year.

general fund, administered and distributed as provided in subdivision 11.

Sec. 8. Minnesota Statutes 2009 Supplement, section 69.031, subdivision 5, is amended to read:

Subd. 5. Deposit of state aid. (a) If the municipality or the independent nonprofit firefighting corporation
is covered by the voluntary statewide lump-sum volunteer firefighter retirement plan under chapter 353G, the
executive director shall credit the fire state aid against future municipal contribution requirements under section
353G.08 and shall notify the municipality or independent nonprofit firefighting corporation of the fire state aid so
credited at least annually. If the municipality or the independent nonprofit firefighting corporation is not covered
by the voluntary statewide lump-sum volunteer firefighter retirement plan, the municipal treasurer shall, within 30 days
after receipt, transmit the fire state aid to the treasurer of the duly incorporated firefighters’ relief association if there
is one organized and the association has filed a financial report with the municipality. If the relief association has
not filed a financial report with the municipality, the municipal treasurer shall delay transmission of the fire state aid
to the relief association until the complete financial report is filed. If the municipality or independent nonprofit
firefighting corporation is not covered by the voluntary statewide lump-sum volunteer firefighter retirement plan, if
there is no relief association organized, or if the association has dissolved or has been removed as trustees of state
aid, then the treasurer of the municipality shall deposit the money in the municipal treasury and the money may be
disbursed only for the purposes and in the manner set forth in section 424A.08 or for the payment of the employer
contribution requirement with respect to firefighters covered by the public employees police and fire retirement plan
under section 353.65, subdivision 3.

(b) The municipal treasurer, upon receipt of the police state aid, shall disburse the police state aid in the
following manner:

(1) For a municipality in which a local police relief association exists and all peace officers are members of the
association, the total state aid must be transmitted to the treasurer of the relief association within 30 days of the date
of receipt, and the treasurer of the relief association shall immediately deposit the total state aid in the special fund
of the relief association;
(2) For a municipality in which police retirement coverage is provided by the public employees police and fire fund and all peace officers are members of the fund, including municipalities covered by section 353.665, the total state aid must be applied toward the municipality's employer contribution to the public employees police and fire fund under sections 353.65, subdivision 3, and 353.665, subdivision 8, paragraph (b), if applicable; or

(3) For a municipality other than a city of the first class with a population of more than 300,000 in which both a police relief association exists and police retirement coverage is provided in part by the public employees police and fire fund, the municipality may elect at its option to transmit the total state aid to the treasurer of the relief association as provided in clause (1), to use the total state aid to apply toward the municipality's employer contribution to the public employees police and fire fund subject to all the provisions set forth in clause (2), or to allot the total state aid proportionately to be transmitted to the police relief association as provided in this subdivision and to apply toward the municipality's employer contribution to the public employees police and fire fund subject to the provisions of clause (2) on the basis of the respective number of active full-time peace officers, as defined in section 69.011, subdivision 1, clause (g).

For a city of the first class with a population of more than 300,000, in addition, the city may elect to allot the appropriate portion of the total police state aid to apply toward the employer contribution of the city to the public employees police and fire fund based on the covered salary of police officers covered by the fund each payroll period and to transmit the balance to the police relief association; or

(4) For a municipality in which police retirement coverage is provided in part by the public employees police and fire fund and in part by a local police consolidation account governed by chapter 353A and established before March 2, 1999, for which the municipality declined merger under section 353.665, subdivision 1, or established after March 1, 1999, the total police state aid must be applied towards the municipality's total employer contribution to the public employees police and fire fund and to the local police consolidation account under sections 353.65, subdivision 3, and 353A.09, subdivision 5.

(c) The county treasurer, upon receipt of the police state aid for the county, shall apply the total state aid toward the county's employer contribution to the public employees police and fire fund under section 353.65, subdivision 3.

(d) The designated Metropolitan Airports Commission official, upon receipt of the police state aid for the Metropolitan Airports Commission, shall apply the total police state aid first toward the commission's employer contribution for police officers to the Minneapolis Employees Retirement Fund under section 422A.101, subdivision 2a, and, if there is any amount of police state aid remaining, shall apply that remainder toward the commission's employer contribution for police officers to the public employees police and fire plan under section 353.65, subdivision 3.

(e) The police state aid apportioned to the Departments of Public Safety and Natural Resources under section 69.021, subdivision 7a, is appropriated to the commissioner of management and budget for transfer to the funds and accounts from which the salaries of peace officers certified under section 69.011, subdivision 2a, are paid. The commissioner of revenue shall certify to the commissioners of public safety, natural resources, and management and budget the amounts to be transferred from the appropriation for police state aid. The commissioners of public safety and natural resources shall certify to the commissioner of management and budget the amounts to be credited to each of the funds and accounts from which the peace officers employed by their respective departments are paid. Subd. 6. Certain purposes. Any municipality may issue bonds for paying judgments against it; for refunding outstanding bonds; for funding floating indebtedness; for funding actuarial liabilities to pay postemployment benefits to employees or officers after their termination of service; or for funding all or part of the municipality's current and future unfunded liability for a pension or retirement fund or plan referred to in section 356.20, subdivision 2, as those liabilities are most recently computed pursuant to sections 356.215 and 356.216. The board of trustees or directors of a pension fund or relief association referred to in section 69.77 or chapter 422A must consent and must be a party to any contract made under this section with respect to the fund held by it for the benefit of and in trust for its members. For purposes of this section, the term "postemployment benefits" means benefits giving rise to a liability under Statement No. 45 of the Governmental Accounting Standards Board.

Sec. 42. Minnesota Statutes 2009 Supplement, section 480.181, subdivision 2, is amended to read:

Subd. 2. Election to retain insurance and benefits; retirement. (a) Before a person is transferred to state employment under this section, the person may elect to do either or both of the following:

(1) keep life insurance; hospital, medical, and dental insurance; and vacation and sick leave benefits and accumulated time provided by the county instead of receiving benefits from the state under the judicial branch personnel rules; or

(2) remain a member of the general employees retirement plan of the Public Employees Retirement Association or the Minneapolis employees retirement fund MERF division of the Public Employees Retirement Association instead of joining the Minnesota State Retirement System.
Employees who make an election under clause (1) remain on the county payroll, but the state shall reimburse the county on a quarterly basis for the salary and cost of the benefits provided by the county. The state shall make the employer contribution to the general employees retirement plan of the Public Employees Retirement Association or the employer contribution under section 422A.104, subdivision 4a, paragraphs (c) and (d), to the Minneapolis Employees Retirement Fund MERF division of the Public Employees Retirement Association on behalf of employees who make an election under clause (2).

(b) An employee who makes an election under paragraph (a), clause (1), may revoke the election, once, at any time, but if the employee revokes the election, the employee cannot make another election. An employee who makes an election under paragraph (a), clause (2), may revoke the election at any time within six months after the person becomes a state employee. Once an employee revokes this election, the employee cannot make another election.

(c) The Supreme Court, after consultation with the Judicial Council, the commissioner of management and budget, and the executive directors of the Public Employees Retirement Association and the Minnesota State Retirement Association, shall adopt procedures for making elections under this section.

d) The Supreme Court shall notify all affected employees of the options available under this section. The executive directors of the Public Employees Retirement Association and the Minnesota State Retirement System shall provide counseling to affected employees on the effect of making an election to remain a member of the Public Employees Retirement Association.

Sec. 43. EFFECTIVE DATE.

Sections 1 to 42 are effective June 30, 2010.

ARTICLE 14

VOLUNTEER FIREFIGHTER RELIEF ASSOCIATION MODIFICATIONS

Section 1. Minnesota Statutes 2009 Supplement, section 69.772, subdivision 6, is amended to read:

Subd. 6. Municipal ratification for plan amendments. If the special fund of the relief association does not have a surplus over full funding pursuant to subdivision 3, clause (2), subclause (e), or if the municipality is required to provide financial support to the special fund of the relief association pursuant to this section, the adoption of or any amendment to the articles of incorporation or bylaws of a relief association which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of any relief association to which this section applies is not effective until it is ratified by the governing body of the municipality in which the relief association is located and the officers of a relief association shall not seek municipal ratification prior to preparing and certifying an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the amendment. If the special fund of the relief association has a surplus over full funding pursuant to subdivision 3, clause (2), subclause (e), and if the municipality is not required to provide financial support to the special fund of the relief association pursuant to this section, the relief association may adopt or amend its articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of the relief association which are effective without municipal ratification so long as this does not cause the amount of the resulting increase in the accrued liability of the special fund of the relief association to exceed 90 percent of the amount of the surplus over full funding reported in the prior year and this does not result in the financial requirements of the special fund of the relief association exceeding the expected amount of the future fire state aid to be received by the relief association as determined by the board of trustees following the preparation of an estimate of the expected increase in the accrued liability and annual accruing liability.
of the relief association attributable to the change. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification pursuant to this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund of the relief association pursuant to this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification is no longer effective without municipal ratification and any service pensions or retirement benefits payable after that date may be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 2. Minnesota Statutes 2009 Supplement, section 69.773, subdivision 6, is amended to read:

Subd. 6. **Municipal ratification for plan amendments.** If the special fund of the relief association does not have a surplus over full funding pursuant to subdivision 4, or and if the municipality is required to provide financial support to the special fund of the relief association pursuant to this section, the adoption of or any amendment to the articles of incorporation or bylaws of a relief association which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of any relief association to which this section applies is not effective until it is ratified by the governing body of the municipality in which the relief association is located. If the special fund of the relief association has a surplus over full funding pursuant to subdivision 4, and if the municipality is not required to provide financial support to the special fund of the relief association pursuant to this section, the relief association may adopt or amend its articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of the relief association which are effective without municipal ratification so long as this does not cause the amount of the resulting increase in the accrued liability of the special fund of the relief association to exceed 90 percent of the amount of the surplus over full funding reported in the prior year and this does not result in the financial requirements of the special fund of the relief association exceeding the expected amount of the future fire state aid to be received by the relief association as determined by the board of trustees following the preparation of an updated actuarial valuation including the proposed change or an estimate of the expected actuarial impact of the proposed change prepared by the actuary of the relief association. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification pursuant to this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund of the relief association pursuant to this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification is no longer effective without municipal ratification and any service pensions or retirement benefits payable after that date may be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 3. Minnesota Statutes 2008, section 356A.06, subdivision 8, is amended to read:

Subd. 8. **Minimum liquidity requirements.** A covered pension plan described by subdivision 6, paragraph (a) or 7, in order to pay benefits as they come due, shall invest a portion of its assets in authorized short-term debt obligations that can be immediately liquidated without accrual of a substantial determinable penalty or loss and that have an average maturity of no more than 90 days. The chief administrative officer of the plan shall determine the minimum liquidity requirement of the plan and shall retain appropriate documentation of that determination for three years from the date of determination.

**EFFECTIVE DATE.** This section is effective the day following final enactment.
Sec. 4. Minnesota Statutes 2009 Supplement, section 424A.01, subdivision 1, is amended to read:

Subdivision 1. Minors. (a) No volunteer firefighters' relief association associated with a municipality or an independent nonprofit firefighting corporation may include as a relief association member a minor serving as a firefighter, except for members of a youth, civic, or educational organization or program who participate with uninterrupted adult supervision, as allowed by federal law and by section 181A.04. Such organizations or programs include, but are not limited to, Boy Scout Explorer programs or firefighting degree programs.

(b) No volunteer firefighters' relief association associated with a municipality or an independent nonprofit firefighting corporation may include as a relief association member a minor serving as a volunteer firefighter.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 5. Minnesota Statutes 2009 Supplement, section 424A.01, subdivision 6, is amended to read:

Subd. 6. Return to active firefighting after break in service. (a) The requirements of this section apply to all breaks in service, except breaks in service mandated by federal or state law.

(b)(1) If a former active firefighter who has ceased to perform or supervise fire suppression and fire prevention duties for at least 60 days resumes performing active firefighting with the fire department associated with the relief association, if the bylaws of the relief association so permit, the person firefighter may again become an active member of the relief association. A firefighter who returns to active service and membership is subject to the service pension calculation requirements under this section.

(2) A firefighter who has been granted an approved leave of absence not exceeding one year by the fire department or by the relief association is exempt from the minimum period of resumption service requirement of this section.

(3) A person who has a break in service not exceeding one year but has not been granted an approved leave of absence and who has not received a service pension or disability benefit may be made exempt from the minimum period of resumption service requirement of this section by the relief association bylaws.

(4) If the bylaws so provide, a firefighter who returns to active relief association membership under this paragraph may continue to collect a monthly service pension, notwithstanding the service pension eligibility requirements under chapter 424A.

(b) (c) If a former firefighter who has received a service pension or disability benefit returns to active relief association membership under paragraph (a) (b), the firefighter may qualify for the receipt of a service pension from the relief association for the resumption service period if the firefighter meets a minimum period of resumption service specified in the relief association bylaws and the service requirements of section 424A.016, subdivision 3 or 424A.02, subdivision 2.

(d) If a former firefighter who has not received a service pension or disability benefit returns to active relief association membership under paragraph (b), the firefighter may qualify for the receipt of a service pension from the relief association for the resumption service period if the firefighter meets the minimum period of resumption service specified in the relief association bylaws and the service requirements of section 424A.016, subdivision 3 or 424A.02, subdivision 2.

(e) A firefighter who returns to active lump-sum relief association membership and who qualifies for a service pension under paragraph (b) (c) or (d) must have, upon a subsequent cessation of duties, any service pension for the resumption service period calculated as a separate benefit. If a lump-sum service pension had been paid to
the firefighter upon the firefighter's previous cessation of duties, a second lump-sum service pension for the
resumption service period must be calculated to apply the service pension amount in effect on the date of the
firefighter's termination of the resumption service for all years of the resumption service. No firefighter may be paid
a service pension twice for the same period of service. If a lump-sum service pension had not been paid to the
firefighter upon the firefighter's previous cessation of duties and the firefighter meets the minimum service
requirement of section 424A.016, subdivision 3, or 424A.02, subdivision 2, a service pension must be calculated to
apply the service pension amount in effect on the date of the firefighter's termination of the resumption service for
all years of service credit.

(d) (f) A firefighter who had not been paid a lump-sum service pension returns to active relief association
membership under paragraph (a) (b), who does not qualify for a service pension under paragraph (b) (d), but who
does meet the minimum service requirement of section 424A.016, subdivision 3, or 424A.02, subdivision 2, based
on the firefighter's previous years of active service, must have, upon a subsequent cessation of duties, a service
pension calculated for the previous years of service based on the service pension amount in effect on the date of the
firefighter's termination of the resumption service, or, if the bylaws so provide, based on the service pension amount
in effect on the date of the firefighter's previous cessation of duties.

(e) (g) If a firefighter receiving a monthly benefit service pension returns to active monthly benefit relief
association membership under paragraph (a) (b), and if the relief association bylaws do not allow for the firefighter
to continue collecting a monthly service pension, any monthly benefit service pension payable to the firefighter is
suspended as of the first day of the month next following the date on which the firefighter returns to active
membership. If the firefighter was receiving a monthly benefit service pension, and qualifies for a service pension
under paragraph (d) (c), the firefighter is entitled to an additional monthly benefit service pension upon a subsequent
cessation of duties calculated based on the resumption service credit and the service pension accrual amount in
effect on the date of the termination of the resumption service. The suspended initial service pension resumes as
of the first of the month next following the termination of the resumption service. If the firefighter was not
receiving a monthly benefit service pension and meets the minimum service requirement of section 424A.02,
subdivision 2, a service pension must be calculated to apply the service pension amount in effect on the date of the
firefighter's termination of the resumption service for all years of service credit.

(f) (h) A firefighter who was not receiving a monthly benefit service pension returns to active relief association
membership under paragraph (a) (b), who does not qualify for a service pension under paragraph (b) (d), but who
does meet the minimum service requirement of section 424A.02, subdivision 2, based on the firefighter's previous
years of active service, must have, upon a subsequent cessation of duties, a service pension calculated for the
previous years of service based on the service pension amount in effect on the date of the firefighter's termination of
the resumption service, or, if the bylaws so provide, based on the service pension amount in effect on the date of the
firefighter's previous cessation of duties.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 6. Minnesota Statutes 2009 Supplement, section 424A.015, is amended by adding a subdivision to read:

Subd. 5. Minnesota deferred compensation plan transfers. A relief association may directly transfer on an
institution-to-institution basis the eligible member's lump-sum pension amount to the requesting member's account
in the Minnesota deferred compensation plan, if:

(1) the governing articles of incorporation or bylaws so provide;

(2) the volunteer firefighter participates in the Minnesota deferred compensation plan at the time of
retirement; and

(3) the applicable retiring firefighter requests in writing that the relief association do so.

EFFECTIVE DATE. This section is effective the day following final enactment.
Sec. 7. Minnesota Statutes 2009 Supplement, section 424A.016, subdivision 4, is amended to read:

Subd. 4. Individual accounts. (a) An individual account must be established for each firefighter who is a member of the relief association.

(b) To each individual active member account must be credited an equal share of:

(1) any amounts of fire state aid received by the relief association;

(2) any amounts of municipal contributions to the relief association raised from levies on real estate or from other available municipal revenue sources exclusive of fire state aid; and

(3) any amounts equal to the share of the assets of the special fund to the credit of:

(i) any former member who terminated active service with the fire department to which the relief association is associated before meeting the minimum service requirement provided for in subdivision 2, paragraph (b), and has not returned to active service with the fire department for a period no shorter than five years; or

(ii) any retired member who retired before obtaining a full nonforfeitable interest in the amounts credited to the individual member account under subdivision 2, paragraph (b), and any applicable provision of the bylaws of the relief association. In addition, any investment return on the assets of the special fund must be credited in proportion to the share of the assets of the special fund to the credit of each individual active member account. Administrative expenses of the relief association payable from the special fund may be deducted from individual accounts in a manner specified in the bylaws of the relief association.

(c) If the bylaws so permit and as the bylaws define, the relief association may credit any investment return on the assets of the special fund to the accounts of inactive members.

(d) Amounts to be credited to individual accounts must be allocated uniformly for all years of active service and allocations must be made for all years of service, except for caps on service credit if so provided in the bylaws of the relief association. The allocation method may utilize monthly proration for fractional years of service, as the bylaws or articles of incorporation of the relief association so provide. The bylaws or articles of incorporation may define a "month," but the definition must require a calendar month to have at least 16 days of active service. If the bylaws or articles of incorporation do not define a "month," a "month" is a completed calendar month of active service measured from the member's date of entry to the same date in the subsequent month.

(e) At the time of retirement under subdivision 2 and any applicable provision of the bylaws of the relief association, a retiring member is entitled to that portion of the assets of the special fund to the credit of the member in the individual member account which is nonforfeitable under subdivision 3 and any applicable provision of the bylaws of the relief association based on the number of years of service to the credit of the retiring member.

(f) Annually, the secretary of the relief association shall certify the individual account allocations to the state auditor at the same time that the annual financial statement or financial report and audit of the relief association, whichever applies, is due under section 69.051.

EFFECTIVE DATE. This section is effective the day following final enactment.
Sec. 8. Minnesota Statutes 2009 Supplement, section 424A.016, subdivision 7, is amended to read:

Subd. 7. **Limitation on ancillary benefits.** (a) A defined contribution relief association may only pay an ancillary benefit which would constitute an authorized disbursement as specified in section 424A.05. The ancillary benefit for active members must equal the vested or and nonvested amount of the individual account of the member.

(b) For deferred members, the ancillary benefit must equal the vested amount of the individual account of the member. For the recipient of installment payments of a service pension, the ancillary benefit must equal the remaining balance in the individual account of the recipient.

(c)(1) If a survivor or death benefit is payable under the articles of incorporation or bylaws, the benefit must be paid:

(i) as a survivor benefit to the surviving spouse of the deceased firefighter;

(ii) as a survivor benefit to the surviving children of the deceased firefighter if no surviving spouse;

(iii) as a survivor benefit to a designated beneficiary of the deceased firefighter if no surviving spouse or surviving children; or

(iv) as a death benefit to the estate of the deceased active or deferred firefighter if no surviving spouse, no surviving children, and no beneficiary designated.

(2) If there are no surviving children, the surviving spouse may waive, in writing, wholly or partially, the spouse's entitlement to a survivor benefit.

(d) For purposes of this section, for a defined contribution volunteer fire relief association, a trust created under chapter 501B may be a designated beneficiary. If a trust payable to the surviving children organized under chapter 501B has been established as authorized by this section and there is no surviving spouse, the survivor benefit may be paid to the trust, notwithstanding the requirements of this section.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 9. Minnesota Statutes 2009 Supplement, section 424A.02, subdivision 9, is amended to read:

Subd. 9. **Limitation on ancillary benefits.** A defined benefit relief association, including any volunteer firefighters relief association governed by section 69.77 or any volunteer firefighters division of a relief association governed by chapter 424, may only pay ancillary benefits which would constitute an authorized disbursement as specified in section 424A.05 subject to the following requirements or limitations:

(1) with respect to a defined benefit relief association in which governing bylaws provide for a lump-sum service pension to a retiring member, no ancillary benefit may be paid to any former member or paid to any person on behalf of any former member after the former member (i) terminates active service with the fire department and active membership in the relief association; and (ii) commences receipt of a service pension as authorized under this section; and

(2) with respect to any defined benefit relief association, no ancillary benefit paid or payable to any member, to any former member, or to any person on behalf of any member or former member, may exceed in amount the total earned service pension of the member or former member. The total earned service pension must be calculated by multiplying the service pension amount specified in the bylaws of the relief association at the time of death or disability, whichever applies, by the years of service credited to the member or former member. The years of
service must be determined as of (i) the date the member or former member became entitled to the ancillary benefit; or (ii) the date the member or former member died entitling a survivor or the estate of the member or former member to an ancillary benefit. The ancillary benefit must be calculated without regard to whether the member had attained the minimum amount of service and membership credit specified in the governing bylaws. For active members, the amount of a permanent disability benefit or a survivor benefit must be equal to the member's total earned service pension except that the bylaws of a defined benefit relief association may provide for the payment of a survivor benefit in an amount not to exceed five times the yearly service pension amount specified in the bylaws on behalf of any member who dies before having performed five years of active service in the fire department with which the relief association is affiliated.

(3)(i) If a lump sum survivor or death benefit is payable under the articles of incorporation or bylaws, the benefit must be paid:

(A) as a survivor benefit to the surviving spouse of the deceased firefighter;

(B) as a survivor benefit to the surviving children of the deceased firefighter if no surviving spouse;

(C) as a survivor benefit to a designated beneficiary of the deceased firefighter if no surviving spouse or surviving children; or

(D) as a death benefit to the estate of the deceased active or deferred firefighter if no surviving children and no beneficiary designated.

(ii) If there are no surviving children, the surviving spouse may waive, in writing, wholly or partially, the spouse's entitlement to a survivor benefit.

(4)(i) If a monthly benefit survivor or death benefit is payable under the articles of incorporation or bylaws, the benefit must be paid:

(A) as a survivor benefit to the surviving spouse of the deceased firefighter;

(B) as a survivor benefit to the surviving children of the deceased firefighter if no surviving spouse;

(C) as a survivor benefit to a designated beneficiary of the deceased firefighter if no surviving spouse or surviving children; or

(D) as a death benefit to the estate of the deceased active or deferred firefighter if no surviving spouse, no surviving children, and no beneficiary designated.

(ii) If there are no surviving children, the surviving spouse may waive, in writing, wholly or partially, the spouse's entitlement to a survivor benefit.

(iii) For purposes of this clause, if the relief association bylaws authorize a monthly survivor benefit payable to a designated beneficiary, the relief association bylaws may limit the total survivor benefit amount payable.

(5) For purposes of this section, for a monthly benefit volunteer fire relief association or for a combination lump-sum and monthly benefit volunteer fire relief association where a monthly benefit service pension has been elected by or a monthly benefit is payable with respect to a firefighter, a designated beneficiary must be a natural person. For purposes of this section, for a lump-sum volunteer fire relief association or for a combination lump-sum and monthly benefit volunteer fire relief association where a lump-sum service pension has been elected by or a lump-sum benefit is payable with respect to a firefighter, a trust created under chapter 501B may be a designated
beneficiary. If a trust is payable to the surviving children organized under chapter 501B as authorized by this section and there is no surviving spouse, the survivor benefit may be paid to the trust, notwithstanding a requirement of this section to the contrary.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 10. Minnesota Statutes 2009 Supplement, section 424A.02, subdivision 10, is amended to read:

Subd. 10. **Local approval of bylaw amendments; filing requirements.** (a) Each defined benefit relief association to which this section applies must file a revised copy of its governing bylaws with the state auditor upon the adoption of any amendment to its governing bylaws by the relief association or upon the approval of any amendment to its governing bylaws granted by the governing body of each municipality served by the fire department to which the relief association is directly associated. Failure of the relief association to file a copy of the bylaws or any bylaw amendments with the state auditor disqualifies the municipality from the distribution of any future fire state aid until this filing requirement has been completed.

(b) If the special fund of the relief association does not have a surplus over full funding under section 69.772, subdivision 3, clause (2), subclause (e), or 69.773, subdivision 4, and if the municipality is required to provide financial support to the special fund of the relief association under section 69.772 or 69.773, no bylaw amendment which would affect the amount of, the manner of payment of, or the conditions for qualification for service pensions or ancillary benefits or disbursements other than administrative expenses authorized under section 69.80 payable from the special fund of the relief association is effective until it has been ratified by the governing body or bodies of the appropriate municipalities as required under section 69.772, subdivision 6, or 69.773, subdivision 6. If the special fund of the relief association has a surplus over full funding under section 69.772, subdivision 3, or 69.773, subdivision 4, and if the municipality is not required to provide financial support to the special fund under this section, the relief association may adopt or amend without municipal ratification its articles of incorporation or bylaws which increase or otherwise affect the service pensions or ancillary benefits payable from the special fund so long as the changes do not cause the amount of the resulting increase in the accrued liability of the special fund to exceed 90 percent of the amount of the surplus over full funding reported in the prior year and the changes do not result in the financial requirements of the special fund exceeding the expected amount of the subsequent calendar year’s fire state aid to be received by the relief association if authorized under section 69.772, subdivision 6, or 69.773, subdivision 6.

(c) If the relief association pays only a lump-sum pension, the financial requirements are to be determined by the board of trustees following the preparation of an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the change. If the relief association pays a monthly benefit service pension, the financial requirements are to be determined by the board of trustees following either an updated actuarial valuation including the proposed change or an estimate of the expected actuarial impact of the proposed change prepared by the actuary of the relief association. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification under this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund under this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification is no longer effective without municipal ratification, and any service pensions or ancillary benefits payable after that date must be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 11. Minnesota Statutes 2009 Supplement, section 424A.05, subdivision 3, is amended to read:

Subd. 3. **Authorized disbursements from the special fund.** (a) Disbursements from the special fund may not be made for any purpose other than one of the following:
(1) for the payment of service pensions to retired members of the relief association if authorized and paid under law and the bylaws governing the relief association;

(2) for the purchase of an annuity for the applicable person under section 424A.015, subdivision 3, for the transfer of service pension or benefit amounts to the applicable person’s individual retirement account under section 424A.015, subdivision 4, or to the applicable person’s account in the Minnesota deferred compensation plan under section 424A.015, subdivision 5;

(2) (3) for the payment of temporary or permanent disability benefits to disabled members of the relief association if authorized and paid under law and specified in amount in the bylaws governing the relief association;

(3) (4) for the payment of survivor benefits to surviving spouses and surviving children, or if none, to designated beneficiaries, of deceased members of the relief association, and if no survivors and if no designated beneficiary, or for the payment of a death benefit to the estate of the deceased active or deferred firefighter, if authorized by and paid under law and specified in amount in the bylaws governing the relief association;

(4) (5) for the payment of the fees, dues and assessments to the Minnesota State Fire Department Association and to the Minnesota Area Relief Association Coalition in order to entitle relief association members to membership in and the benefits of these associations or organizations;

(5) (6) for the payment of insurance premiums to the state Volunteer Firefighters Benefit Association, or an insurance company licensed by the state of Minnesota offering casualty insurance, in order to entitle relief association members to membership in and the benefits of the association or organization; and

(6) (7) for the payment of administrative expenses of the relief association as authorized under section 69.80.

(b) For purposes of this chapter, for a monthly benefit volunteer fire relief association or for a combination lump-sum and monthly benefit volunteer fire relief association where a monthly benefit service pension has been elected by or a monthly benefit is payable with respect to a firefighter, a designated beneficiary must be a natural person. For purposes of this chapter, for a defined contribution volunteer fire relief association, for a lump-sum volunteer fire relief association, or for a combination lump-sum and monthly benefit volunteer fire relief association where a lump-sum service pension has been elected by or a lump-sum benefit is payable with respect to a firefighter, a designated beneficiary may be a trust created under chapter 501B.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 12. Minnesota Statutes 2009 Supplement, section 424A.05, is amended by adding a subdivision to read:

Subd. 3a. **Corrections of erroneous special fund deposits.** Upon notification of funds deposited in error in the special fund and after presentation of evidence that the error occurred in good faith, the state auditor may require the relief association to provide a written legal opinion concluding that the transfer of funds from the special fund is consistent with federal and state law. Taking into consideration the evidence of good faith presented and the legal opinion, if any, provided, the state auditor may order the transfer from the special fund to the appropriate fund or account an amount equal to the funds deposited in error.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 13. **REPEALER.**

(a) Minnesota Statutes 2009 Supplement, section 424A.001, subdivision 6, is repealed.
(b) Laws 2009, chapter 169, article 10, section 32, is repealed.

**EFFECTIVE DATE.** Paragraph (a) is effective the day following final enactment. Paragraph (b) is effective retroactively from July 1, 2009.

(c) The period of uncredited service authorized for purchase is the period of August 26, 1985, until August 31, 1986, during which no member contributions for the general employees retirement plan of the Public Employees Retirement Association were deducted from the eligible person’s salary by Independent School District No. 199, Inver Grove Heights.

(d) The purchase payment amount payable by the eligible person is four percent of the eligible person’s salary under Minnesota Statutes 1984, section 353.01, subdivision 10, from Independent School District No. 199, Inver Grove Heights, during the period of August 26, 1985, until August 31, 1986, plus annual compound interest on that amount at the rate of 8.5 percent from March 1, 1986, until the date on which payment is made to the Public Employees Retirement Association. The purchase payment amount payable by Independent School District No. 199, Inver Grove Heights, is the balance of the full actuarial value prior service credit purchase payment amount determined under Minnesota Statutes, section 356.551, as of the first day of the month next following the receipt of the eligible person’s payment that is remaining after deducting the purchase payment amount payable by the eligible person.

(e) The school district purchase payment amount payable under paragraph (d) must be made on or before the 15th of the month next following the receipt of the eligible person’s payment under paragraph (d). If the school district purchase payment amount is not paid in a timely fashion, the amount due accrues compound monthly interest at the rate of 0.71 percent per month from the first day of the month next following the receipt of the eligible
person's payment until the school district purchase payment amount is received by the Public Employees Retirement Association. If the school district purchase payment amount is not paid to the Public Employees Retirement Association 90 days after the receipt of the eligible person's payment, the executive director shall notify the commissioner of management and budget, the commissioner of education, and the commissioner of revenue of that unpaid obligation and the unpaid obligation must be deducted from any state aid otherwise payable to the school district, plus interest.

(f) The eligible person must provide the executive director of the Public Employees Retirement Association with any relevant requested information pertaining to this service credit purchase.

(g) Authority to make a service credit purchase under this section expires on June 30, 2011, or upon the termination from public employment under Minnesota Statutes, section 353.01, subdivision 11a, whichever occurs earlier.

(b) An eligible person is a person who:

1. was born on July 19, 1948;
2. was employed by Mankato State University in 1969, with retirement coverage in the general state employees retirement plan of the Minnesota State Retirement System, for which a refund of member contributions and interest was taken before 2007;

(c) An election to change retirement coverage from the Minnesota State Colleges and Universities System individual retirement account plan to the Teachers Retirement Association must be made by July 1, 2010, and is retroactive to September 9, 2007. If the election is made, Minnesota Statutes, section 356.551, applies to the purchase of past service except for subdivision 1, paragraph (c), of that provision, which requires all refunds to be paid before the service credit purchase. The eligible person's account in the individual retirement account plan must be liquidated by transfer to the Teachers Retirement Association fund by August 1, 2010, and used to cover part of the service credit purchase payment amount. Any remaining payment amount must be paid in a lump sum to the executive director of the Teachers Retirement Association for deposit in the Teachers Retirement Association fund by September 1, 2010. Retroactive service credit in the Teachers Retirement Association must be granted to the eligible person once the transfers and payments required under this paragraph have been made.
(d) If an eligible person under paragraph (b) elects Teachers Retirement Association coverage but fails to make the full payment required under paragraph (c), the election of Teachers Retirement Association coverage is voided and the individual retains coverage by the Minnesota State Colleges and Universities System individual retirement account plan. If amounts were transferred under paragraph (c) from the individual retirement account plan, those amounts must be returned to the individual's account or accounts under that plan.

"Section 1. Minnesota Statutes 2009 Supplement, section 120B.30, subdivision 1, is amended to read:

Subdivision 1. **Statewide testing.** (a) The commissioner, with advice from experts with appropriate technical qualifications and experience and stakeholders, consistent with subdivision 1a, shall include in the comprehensive assessment system, for each grade level to be tested, state-constructed tests developed from and aligned with the state's required academic standards under section 120B.021, include multiple choice questions, and be administered annually to all students in grades 3 through 8. State-developed high school tests aligned with the state's required academic standards under section 120B.021 and administered to all high school students in a subject other than writing must include multiple choice questions. The commissioner shall establish one or more months during which schools shall administer the tests to students each school year. For students enrolled in grade 8 before the 2005-2006 school year, Minnesota basic skills tests in reading, mathematics, and writing must include multiple choice questions. The passing scores of basic skills tests in reading and mathematics are the equivalent of 75 percent correct for students entering grade 9 based on the first uniform test administered in February 1998. Students who have not successfully passed a Minnesota basic skills test by the end of the 2011-2012 school year must pass the graduation-required assessments for diploma under paragraph (b).

(b) The state assessment system must be aligned to the most recent revision of academic standards as described in section 120B.023 in the following manner:

(1) mathematics;

(i) grades 3 through 8 beginning in the 2010-2011 school year; and

(ii) high school level beginning in the 2013-2014 2014-2015 school year;

(2) science; grades 5 and 8 and at the high school level beginning in the 2011-2012 school year; and

(3) language arts and reading; grades 3 through 8 and high school level beginning in the 2012-2013 school year.

(c) For students enrolled in grade 8 in the 2005-2006 school year and later, only the following options shall fulfill students' state graduation test requirements:

(1) for reading and mathematics:
(i) obtaining an achievement level equivalent to or greater than proficient as determined through a standard setting process on the Minnesota comprehensive assessments in grade 10 for reading and grade 11 for mathematics or achieving a passing score as determined through a standard setting process on the graduation-required assessment for diploma in grade 10 for reading and grade 11 for mathematics or subsequent retests;

(ii) achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in reading and the mathematics test for English language learners or the graduation-required assessment for diploma equivalent of those assessments for students designated as English language learners;

(iii) achieving an individual passing score on the graduation-required assessment for diploma as determined by appropriate state guidelines for students with an individual education plan or 504 plan;

(iv) obtaining achievement level equivalent to or greater than proficient as determined through a standard setting process on the state-identified alternate assessment or assessments in grade 10 for reading and grade 11 for mathematics for students with an individual education plan; or

(v) achieving an individual passing score on the state-identified alternate assessment or assessments as determined by appropriate state guidelines for students with an individual education plan; and

(2) for writing:

(i) achieving a passing score on the graduation-required assessment for diploma;

(ii) achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in writing for students designated as English language learners;

(iii) achieving an individual passing score on the graduation-required assessment for diploma as determined by appropriate state guidelines for students with an individual education plan or 504 plan; or

(iv) achieving an individual passing score on the state-identified alternate assessment or assessments as determined by appropriate state guidelines for students with an individual education plan.

(d) Students enrolled in grade 8 in any school year from the 2005-2006 school year to the 2009-2010 school year who do not pass the mathematics graduation-required assessment for diploma under paragraph (b) are eligible to receive a high school diploma with a passing state notation if they:

(1) complete with a passing score or grade all state and local coursework and credits required for graduation by the school board granting the students their diploma;

(2) participate in district-prescribed academic remediation in mathematics; and

(3) fully participate in at least two retests of the mathematics GRAD test or until they pass the mathematics GRAD test, whichever comes first. A school, district, or charter school must place a student's highest assessment score for each of the following assessments on the student's high school transcript: the mathematics Minnesota Comprehensive Assessment, reading Minnesota Comprehensive Assessment, and writing Graduation-Required Assessment for Diploma, and when applicable, the mathematics Graduation-Required Assessment for Diploma and reading Graduation-Required Assessment for Diploma.

In addition, the school board granting the students their diplomas may formally decide to include a notation of high achievement on the high school diplomas of those graduating seniors who, according to established school board criteria, demonstrate exemplary academic achievement during high school.
(e) The 3rd through 8th grade and high school test results shall be available to districts for diagnostic purposes affecting student learning and district instruction and curriculum, and for establishing educational accountability. The commissioner must disseminate to the public the high school test results upon receiving those results.

(f) The 3rd through 8th grade and high school tests must be aligned with state academic standards. The commissioner shall determine the testing process and the order of administration. The statewide results shall be aggregated at the site and district level, consistent with subdivision 1a.

(g) In addition to the testing and reporting requirements under this section, the commissioner shall include the following components in the statewide public reporting system:

1. Uniform statewide testing of all students in grades 3 through 8 and at the high school level that provides appropriate, technically sound accommodations or alternate assessments;

2. Educational indicators that can be aggregated and compared across school districts and across time on a statewide basis, including average daily attendance, high school graduation rates, and high school drop-out rates by age and grade level;

3. State results on the American College Test; and

4. State results from participation in the National Assessment of Educational Progress so that the state can benchmark its performance against the nation and other states, and, where possible, against other countries, and contribute to the national effort to monitor achievement.

Sec. 2. Minnesota Statutes 2009 Supplement, section 120B.30, is amended by adding a subdivision to read:

Subd. 1b. High school assessments. (a) Notwithstanding other law to the contrary, the commissioner shall establish a system of high school assessments for students entering grade 8 in the 2010-2011 school year and later that provides information on the college and career readiness of Minnesota students and fulfills federal accountability requirements, consistent with this subdivision and related rules. For purposes of this subdivision, "college and career readiness" means the knowledge and skills that a high school graduate needs to do either credit-bearing coursework at a two-year or four-year college or university or career-track employment that pays a living wage, provides employment benefits, and offers clear pathways for advancement through further education and training.

(b) The commissioner shall establish and administer a high school reading and writing exam at the end of grade 10. The reading and writing exam must conform with the following:

1. Align to the most recently revised academic content standards under section 120B.023, subdivision 2;

2. Produce independent scores for each content area;

3. Include both multiple-choice and open-ended items on the reading portion of the exam to assess skills defined in the state's academic content standards;

4. Be designed for computer administration and scoring so that, beginning the second year a computerized test is administered and as soon as practicable during the first year a computerized test is administered, the exam results of students who take computerized tests are available to the school or district within three full school days after the exam is administered, among other design characteristics;

5. Allow for remediation and frequent computer retests of the reading and writing portions of the exam;
(6) use achievement level descriptors in reading and writing that define a student's readiness for college or a career;

(7) require all general education students, as a condition of graduating, to achieve passing scores in reading and writing established through a professionally recognized methodology, consistent with this paragraph;

(8) require general education students to participate in a locally developed remediation plan if they do not achieve a passing score after two retest opportunities;

(9) provide a state-level student appeals process that accommodates alternative measures to demonstrate students' college and career readiness and is available only to those limited number of students in the second semester of their senior year who are unable to demonstrate reading or writing proficiency on the assessment but can demonstrate equivalent levels of knowledge and skill based on the alternative measures; and

(10) allow an eligible student to meet this exam requirement through an alternative method:

(i) for high school students who transfer into Minnesota from another state where the high school reading and writing course and graduation requirements are of equal or greater rigor, meet that state's federal accountability exams requirements in reading or writing, as applicable;

(ii) allow a student who has an active individualized education program to achieve a passing status at an individual level as prescribed by the commissioner;

(iii) waive the required exam for a high school student who is an English language learner under section 124D.59 and who has been enrolled for four or fewer school years in a school in which English is the primary language of instruction; or

(iv) other alternative methods recommended by the Assessment Advisory Committee, if subsequently specifically authorized by law to allow other alternative methods.

All general education students must receive a passing score in both reading and writing to graduate, consistent with paragraph (e). A score below "passing" means that there is a high likelihood that the student does not have the reading and writing skills needed to succeed in postsecondary education or the work place. The commissioner must establish the passing score based on: the recommendations of both K-12 and postsecondary educators with relevant language arts expertise and employers and other community leaders who understand the knowledge and skills that individuals need for work and citizenship; and an established statistical relationship between two consecutive years of students' exam results and other indicators of college and career readiness that the commissioner develops in consultation with the Assessment Advisory Committee under section 120B.365.

(c) The commissioner shall establish statewide end-of-course exams in subjects equivalent to high school algebra and biology. These exams must conform with the following:

(1) align with the most recently revised academic content standards under section 120B.023, subdivision 2;

(2) include both multiple-choice and open-ended items that assess the appropriate algebra and biology knowledge and skills contained in the state's academic content standards;

(3) be designed for computer administration and scoring so that, beginning the second year a computerized test is administered and as soon as practicable during the first year a computerized test is administered, the exam results of students who take computerized tests are available to the school or district within three full school days after the exam is administered, among other design characteristics;
(4) be administered at regular intervals that align with the most common high school schedules in Minnesota;

(5) generate achievement levels established through a professionally recognized methodology;

(6) use achievement level descriptors that define a student's college and career readiness;

(7) comprise 25 percent of the student's overall course grade in the corresponding course, except a school that is identified as highly misaligned under clause (11) for two consecutive school years or more shall make the exam results a component of and equivalent to 50 percent of the student's overall course grade in algebra or biology, as applicable;

(8) require a student who does not pass a high school algebra or biology course to (i) retake the course or complete a district-authorized credit recovery class, (ii) opt, at the student's election, to retake the end-of-course assessment within a regularly scheduled administration window, and (iii) have the student select the exam score on the initial test or the retest to count as the equivalent of 25 percent of the student's overall course grade, or the equivalent of 50 percent if the school has been identified as highly misaligned for two consecutive school years or more, consistent with clause (7);

(9) allow an eligible student to meet this requirement through an alternative method that demonstrates the student's college and career readiness:

(i) for high school students who transfer into Minnesota from another state where the algebra or biology course content, as applicable, is of equal or greater rigor, pass that state's high school course and graduation requirements in algebra or biology, as applicable;

(ii) allow a student who has an active individualized education program to achieve a passing status at an individual level as prescribed by the commissioner;

(iii) waive the required exam for a high school student who is an English language learner under section 124D.59 and who has been enrolled for four or fewer years in a school in which English is the primary language of instruction; or

(iv) other alternative methods recommended by the Assessment Advisory Committee, if subsequently specifically authorized by law to allow other alternative methods;

(10) use three consecutive school years of research and analysis through the 2014-2015 school year, as prescribed by the commissioner, to calculate and report an alignment index that compares students' final grades in these courses with their end-of-course exam scores;

(11) subsequent to calculating and reporting the alignment index under clause (10), require schools that are highly misaligned for two or more consecutive school years to transmit written notice of the misalignment to all parents of students enrolled in the school, as prescribed by the commissioner; and

(12) when schools are highly misaligned for two or more consecutive years under clause (11), use school district funds under section 122A.60, subdivision 1a, paragraph (a), to correct the misalignment.

A highly misaligned school that must count a student's algebra or biology exam score, as applicable, as the equivalent of 50 percent of the student's overall course grade under clause (7) or (8) may again count a student's exam score as the equivalent of 25 percent of the student's overall course grade when the school is not identified as highly misaligned in two subsequent consecutive school years.
(d) The requirements of this subdivision apply to students in public schools, including charter schools, who enter grade 8 in the 2010-2011 school year or later. The commissioner may establish a transition period where students who enter grade 8 in the 2010-2011 or 2011-2012 school year graduate either under the Graduation-Required Assessment for Diploma requirements under section 120B.30, subdivision 1, or through a staggered implementation of this subdivision. During the transition period, the proficiency of any federal or state-required interim passing score in reading or writing must be comparable in rigor to the passing scores currently required for reading and writing under the Graduation-Required Assessment for Diploma. The commissioner may seek authority from the legislature to adjust the time line under this paragraph if circumstances such as changes in federal law governing educational accountability and assessment warrant such an adjustment.

(e) To fully implement this subdivision and enable school districts to provide intervention and support to struggling students and improve instruction for all students, the commissioner must provide districts with:

(i) benchmark assessments that are aligned with the high school reading and writing assessment and algebra and biology end-of-course exams; and

(ii) an item bank available to teachers for creating formative assessments to help students prepare for the high school reading and writing assessment and algebra and biology end-of-course exams. The benchmark assessments must be available to districts for at least two full school years before students are required to achieve a passing score on the reading and writing exam to graduate from high school.

(f) The commissioner shall expand the membership and purpose of the Assessment Advisory Committee established under section 120B.365 to include assessment experts and practitioners from both secondary and postsecondary education systems and other appropriate stakeholders to monitor the implementation of and student outcomes based on the end-of-course exams and policies and the state support available to districts, including small or rural districts, under this subdivision. This committee shall report annually by February 15 to the commissioner and the legislature on the implementation of and student outcomes based on the exams and policies under this subdivision. Notwithstanding section 15.059, subdivision 3, committee members shall not receive compensation, per diem payments, or reimbursement for expenses.

(g) Using a solicitation process that includes a "request for proposal" process and multiple responses, the commissioner shall contract for at least two independent studies at two-year intervals to evaluate (1) the implementation of the requirements and (2) the availability and efficacy of resources to support and improve student outcomes based on student achievement data under this subdivision. The commissioner must submit the results of the first study to the education policy and finance committees of the legislature by February 15, 2015. The commissioner must submit the results of the second study to the legislature by February 15, 2017.

(h) The commissioner must not begin to develop additional statewide end-of-course exams in geometry, chemistry, or physics until specifically authorized in law to do so.

(i) A district or charter school must indicate on a student's transcript the student's level of college and career readiness in reading, writing, algebra, and biology under this subdivision after the levels have been established through a professionally recognized methodology.

EFFECTIVE DATE. This section is effective the day following final enactment.

The Assessment Advisory Committee, among other alternative methods and if consistent with federal educational accountability law, must consider allowing students to:

(c) The Assessment Advisory Committee, in the context of the high school assessments under Minnesota Statutes, section 120B.30, subdivision 1b, may develop recommendations on integrating universal design principles to improve access to learning and assessments for all students, more accurately understand what students know and can do, provide Minnesota with more cost-effective assessments, and provide educators with more valid inferences about students' achievement levels.

(d) The Assessment Advisory Committee, for purposes of fully implementing the high school assessment system under Minnesota Statutes, section 120B.30, subdivision 1b, also must develop recommendations for:

(1) the administrative structure, criteria, and processes for implementing the state-level student appeals process;

(2) calculating the alignment index, including how questions about validity and reliability are resolved; and

(3) defining "misaligned" and "highly misaligned" and when and under what specific circumstances misalignments occur.

(e) By February 15, 2011, the Assessment Advisory Committee must submit its recommendations under this section to the education commissioner and the education policy and finance committees of the legislature.

(f) The commissioner must not implement any element of any recommendation under paragraphs (a) to (e) related to the high school assessment system under Minnesota Statutes, section 120B.30, subdivision 1b, without first receiving specific legislative authority to do so.

(2) fees for consulting, development, professional, construction, and operations and maintenance services paid to qualifying beneficiaries;

Subd. 3. Plan for 90 percent reduction required. A public utility that elects to be regulated under this section must file a mercury emissions-reduction plan that is designed to achieve total mercury reduction at targeted and supplemental units owned by the utility equivalent to a goal of 90 percent reduction of mercury emissions at the utility's targeted units by December 31, 2018."
Sec. 3. Minnesota Statutes 2008, section 216B.6851, subdivision 5, is amended to read:

Subd. 5. Early action; wet scrubbed units. (a) The utility electing for regulation under this section shall file an initial plan for mercury emissions reduction at one of its two wet scrubbed units on or before December 31, 2007. The plan must provide for mercury emissions reduction to be implemented at that unit by December 31, 2010. If the plan is approved by the commission, and implemented by the utility, the utility may have until July 1, 2014, to file its plans for reduction at its other wet scrubbed unit at the qualifying facility, and may have until December 31, 2018, to implement mercury emissions reduction at that unit.

(b) Until the utility files its plans for the other wet scrubbed unit, the utility must submit to the commission and agency, by July 1 each year, beginning in 2011, a report containing the following information:

(1) mercury control plans for units subject to this section, including how elements of the plans may affect the performance and cost-effectiveness of emission controls for air pollutants other than mercury;

(2) an assessment of the impacts of federal laws regulating various air pollutants emitted by coal-fired power plants that can reasonably be expected to be enacted by 2018 on the utility's units subject to this section, and potential utility responses to those laws, including, but not limited, to:

(i) installing pollution control equipment;

(ii) using pollution allowances to achieve regulatory compliance; and

(iii) retiring or repowering the plant that is the subject of the filing with cleaner fuels considering the costs of complying with state and federal environmental regulations.

For each potential response, the report must include an analysis of the impacts on ratepayers, the utility's financial position, and utility operations, including the impacts on the service life of affected units.

(c) The utility shall consult with the agency, the Department of Commerce, and other interested stakeholders to determine which future federal laws to assess under paragraph (b), clause (2), and the scope of the assessment of the impact of those laws.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 4. Minnesota Statutes 2008, section 216B.6851, subdivision 6, is amended to read:

Subd. 6. Agency review and commission approval. (a) The agency shall review the utility's plans as provided in section 216B.684.

(b) The Public Utilities Commission shall review and evaluate a utility's mercury emissions-reduction plans submitted under this section. In its review, the commission shall consider the environmental and public health benefits, the agency's determination of technical feasibility, competitiveness of customer rates, and cost-effectiveness of the utility's proposed mercury-control initiatives in light of the Pollution Control Agency's review under paragraph (a). Within 180 days of receiving the agency's report, the commission shall approve a utility's mercury emissions-reduction plan that the commission reasonably expects will come closest to achieving total mercury reductions at targeted and supplemental units owned by the utility equivalent to a goal of 90 percent reduction of mercury emissions at the utility's targeted units by December 31, 2014, in a manner that provides for increased environmental and public health benefits without imposing excessive costs on the utility's customers. If the commission is unable to approve the utility's 90 percent reduction plan filed under subdivision 3, the commission, in consultation with the Pollution Control Agency, shall order the utility to implement the most stringent mercury-control alternative proposed by the utility under this section that provides for increased environmental and public health benefits without imposing excessive costs on the utility's customers.
(c) At each targeted and supplemental unit included in a plan under this section, a utility shall propose to implement mercury emissions-control measures that will result in the greatest reduction of mercury emitted from that unit that is technically feasible without imposing excessive costs."
