Sec. 3. Minnesota Statutes 2008, section 122A.60, subdivision 1a, is amended to read:

Subd. 1a. **Effective staff development activities.** (a) Staff development activities must:

(1) focus on the school classroom and research-based strategies that improve student learning;

(2) provide opportunities for teachers to practice and improve their instructional skills over time;

(3) provide opportunities for teachers to use student data as part of their daily work to increase student achievement;

(4) enhance teacher content knowledge and instructional skills;

(5) align with state and local academic standards;

(6) provide opportunities to build professional relationships, foster collaboration among principals and staff who provide instruction, and provide opportunities for teacher-to-teacher mentoring; and

Staff development activities may include curriculum development and curriculum training programs, and activities that provide teachers and other members of site-based teams training to enhance team performance and basic first aid, focusing on certification for CPR and the use of automatic external defibrillators. The school district also may implement other staff development activities required by law and activities associated with professional teacher compensation models.

(b) Release time provided for teachers to supervise students on field trips and school activities, or independent tasks not associated with enhancing the teacher’s knowledge and instructional skills, such as preparing report cards, calculating grades, or organizing classroom materials, may not be counted as staff development time that is financed with staff development reserved revenue under section 122A.61.

Sec. 4. Minnesota Statutes 2008, section 122A.61, subdivision 1, is amended to read:

Subdivision 1. **Staff development revenue.** A district is required to reserve an amount equal to at least two percent of the basic revenue under section 126C.10, subdivision 2, for in-service education for programs under section 120B.22, subdivision 2, for staff development plans, including plans for challenging instructional activities and experiences under section 122A.60, and for curriculum development and programs, other in-service education, teachers' workshops, teacher conferences, the cost of substitute teachers staff development purposes, preservice and in-service education for special education professionals and paraprofessionals, and other related costs for staff development efforts. A district may annually waive the requirement to reserve their basic revenue under this section if a majority vote of the licensed teachers in the district and a majority vote of the school board agree to a resolution to waive the requirement. A district in statutory operating debt is exempt from reserving basic revenue according to this section. Districts may expend an additional amount of unreserved revenue for staff development based on their needs. With the exception of amounts reserved for staff development from revenues allocated directly to school sites and any amounts spent for first aid or CPR and automatic external defibrillator training, the board must initially allocate 50 percent of the remaining reserved revenue to each school site in the district on a per teacher basis, which must be retained by the school site until used. The board may retain 25 percent to be used for district wide staff development efforts. The remaining 25 percent of the revenue must be used to make grants to school sites for best practices methods. A grant may be used for any purpose authorized under section 120B.22, subdivision 2, 122A.60, or for the costs of curriculum development and programs, other in-service education, teachers' workshops, teacher conferences, substitute teachers for staff development purposes, and other staff development efforts, and determined by the site professional development team. The site professional development team must demonstrate to the school board the extent to which staff at the site have met the outcomes of the program. The board may withhold a portion of initial allocation of revenue if the staff development outcomes are not being met.

An audited financial statement prepared in a form which will allow comparison with and correction of material differences in the unaudited financial data shall be submitted to the commissioner and the state auditor by December 31. The audited financial statement must also provide a statement of assurance pertaining to uniform financial accounting and reporting standards compliance and a copy of the management letter submitted to the district by the school district's auditor.

(b) By January 15 of the calendar year following the submission of the unaudited financial data, the commissioner shall convert the audited financial data required by this subdivision into the consolidated financial statement format required under subdivision 1a and publish the information on the department's Web site.

Sec. 6. Minnesota Statutes 2008, section 123B.83, subdivision 3, is amended to read:

Subd. 3. Failure to limit expenditures. If a district does not limit its expenditures in accordance with this section, the commissioner may so notify the appropriate committees of the legislature by no later than January 15 of the year following the end of that fiscal year.

Sec. 7. Minnesota Statutes 2008, section 125A.11, subdivision 1, is amended to read:

Subdivision 1. Nonresident tuition rate; other costs. (a) For fiscal year 2006, when a school district provides instruction and services outside the district of residence, board and lodging, and any tuition to be paid, shall be paid by the district of residence. The tuition rate to be charged for any child with a disability, excluding a pupil for whom tuition is calculated according to section 127A.47, subdivision 7, paragraph (d), must be the sum of (1) the actual cost of providing special instruction and services to the child including a proportionate amount for special transportation and unreimbursed building lease and debt service costs for facilities used primarily for special education, plus (2) the amount of general education revenue and referendum aid attributable to the pupil, minus (3) the amount of special education aid for children with a disability received on behalf of that child, minus (4) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum aid, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom. If the boards involved do not agree upon the tuition rate, either board may apply to the commissioner to fix the rate. Notwithstanding chapter 14, the commissioner must then set a date for a hearing or request a written statement from each board, giving each board at least ten days' notice, and after the hearing or review of the written statements the commissioner must make an order fixing the tuition rate, which is binding on both school districts. General education revenue and referendum equalization aid attributable to a pupil must be calculated using the resident district's average general education revenue and referendum equalization aid per adjusted pupil unit.

(b) For fiscal year 2007 and later, when a school district provides special instruction and services for a pupil with a disability as defined in section 125A.02 outside the district of residence, excluding a pupil for whom an adjustment to special education aid is calculated according to section 127A.47, subdivision 7, paragraph (e), special education aid paid to the resident district must be reduced by an amount equal to (1) the actual cost of providing special instruction and services to the pupil, including a proportionate amount for special transportation and unreimbursed building lease and debt service costs for facilities used primarily for special education, plus (2) the amount of general education revenue and referendum equalization aid attributable to that pupil, calculated using the resident
district's average general education revenue and referendum equalization aid per adjusted pupil unit excluding basic skills revenue, elementary sparsity revenue and secondary sparsity revenue, minus (3) the amount of special education aid for children with a disability received on behalf of that child, minus (4) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum equalization aid, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, calculated using the resident district's average general education revenue and referendum equalization aid per adjusted pupil unit excluding basic skills revenue, elementary sparsity revenue and secondary sparsity revenue and the serving district's basic skills revenue, elementary sparsity revenue and secondary sparsity revenue per adjusted pupil unit. Notwithstanding clauses (1) and (4), for pupils served by a cooperative unit without a fiscal agent school district, the general education revenue and referendum equalization aid attributable to a pupil must be calculated using the resident district's average general education revenue and referendum equalization aid excluding compensatory revenue, elementary sparsity revenue, and secondary sparsity revenue. Special education aid paid to the district or cooperative providing special instruction and services for the pupil must be increased by the amount of the reduction in the aid paid to the resident district. Amounts paid to cooperatives under this subdivision and section 127A.47, subdivision 7, shall be recognized and reported as revenues and expenditures on the resident school district's books of account under sections 123B.75 and 123B.76. If the resident district's special education aid is insufficient to make the full adjustment, the remaining adjustment shall be made to other state aid due to the district.

(c) Notwithstanding paragraphs (a) and (b) and section 127A.47, subdivision 7, paragraphs (d) and (e), a charter school where more than 30 percent of enrolled students receive special education and related services, a site approved under section 125A.515, an intermediate district, a special education cooperative, or a school district that served as the applicant agency for a group of school districts for federal special education aids for fiscal year 2006 may apply to the commissioner for authority to charge the resident district an additional amount to recover any remaining unreimbursed costs of serving pupils with a disability. The application must include a description of the costs and the calculations used to determine the unreimbursed portion to be charged to the resident district. Amounts approved by the commissioner under this paragraph must be included in the tuition billings or aid adjustments under paragraph (a) or (b), or section 127A.47, subdivision 7, paragraph (d) or (e), as applicable.

(d) For purposes of this subdivision and section 127A.47, subdivision 7, paragraphs (d) and (e), "general education revenue and referendum equalization aid" means the sum of the general education revenue according to section 126C.10, subdivision 1, excluding alternative teacher compensation revenue, plus the referendum equalization aid according to section 126C.17, subdivision 7, as adjusted according to section 127A.47, subdivision 7, paragraphs (a) to (c).

Sec. 8. Minnesota Statutes 2008, section 126C.05, subdivision 2, is amended to read:

Subd. 2. Foreign exchange pupils. Notwithstanding section 124D.02, subdivision 3, or any other law to the contrary, a foreign exchange pupil enrolled in a district under a cultural exchange program registered with the Office of the Secretary of State under section 5A.02 may be counted as a resident pupil for the purposes of this chapter and chapters 120B, 122A, 123A, 123B, 124D, 125A, and 127A, even if the pupil has graduated from high school or the equivalent.

Sec. 9. Minnesota Statutes 2008, section 126C.15, subdivision 2, is amended to read:

Subd. 2. Building allocation. (a) A district must allocate its compensatory revenue to each school building in the district where the children who have generated the revenue are served unless the school district has received permission under Laws 2005, First Special Session chapter 5, article 1, section 50, to allocate compensatory revenue according to student performance measures developed by the school board.
(b) Notwithstanding paragraph (a), a district may allocate up to five percent of the amount of compensatory revenue that the district receives to school sites according to a plan adopted by the school board. The money reallocated under this paragraph must be spent for the purposes listed in subdivision 1, but may be spent on students in any grade, including students attending school readiness or other prekindergarten programs.

(c) For the purposes of this section and section 126C.05, subdivision 3, "building" means education site as defined in section 123B.04, subdivision 1.

(d) If the pupil is served at a site other than one owned and operated by the district, the revenue shall be paid to the district and used for services for pupils who generate the revenue. Notwithstanding section 123A.26, subdivision 1, compensatory revenue generated by students served at a cooperative unit shall be paid to the cooperative unit.

(e) A district with school building openings, school building closings, changes in attendance area boundaries, or other changes in programs or student demographics between the prior year and the current year may reallocate compensatory revenue among sites to reflect these changes. A district must report to the department any adjustments it makes according to this paragraph and the department must use the adjusted compensatory revenue allocations in preparing the report required under section 123B.76, subdivision 3, paragraph (c).

Sec. 10. Minnesota Statutes 2008, section 126C.15, subdivision 4, is amended to read:

Subd. 4. Separate accounts. Each district and cooperative unit that receives basic skills revenue shall maintain separate accounts to identify expenditures for salaries and programs related to basic skills revenue.

Sec. 11. Minnesota Statutes 2008, section 126C.17, subdivision 9, is amended to read:

Subd. 9. Referendum revenue. (a) The revenue authorized by section 126C.10, subdivision 1, may be increased in the amount approved by the voters of the district at a referendum called for the purpose. The referendum may be called by the board or shall be called by the board upon written petition of qualified voters of the district. The referendum must be conducted one or two calendar years before the increased levy authority, if approved, first becomes payable. Only one election to approve an increase may be held in a calendar year. Unless the referendum is conducted by mail under subdivision 11, paragraph (a), the referendum must be held on the first Tuesday after the first Monday in November. The ballot must state the maximum amount of the increased revenue per resident marginal cost pupil unit. The ballot may state a schedule, determined by the board, of increased revenue per resident marginal cost pupil unit that differs from year to year over the number of years for which the increased revenue is authorized or may state that the amount shall increase annually by the rate of inflation. For this purpose, the rate of inflation shall be the annual inflationary increase calculated under subdivision 2, paragraph (b).

"BY VOTING "YES" ON THIS BALLOT QUESTION, YOU ARE VOTING TO EXTEND AN EXISTING PROPERTY TAX REFERENDUM THAT IS SCHEDULED TO EXPIRE."

The ballot may contain a textual portion with the information required in this subdivision and a question stating substantially the following:

"Shall the increase in the revenue proposed by (petition to) the board of ........., School District No. .., be approved?"
If approved, an amount equal to the approved revenue per resident marginal cost pupil unit times the resident marginal cost pupil units for the school year beginning in the year after the levy is certified shall be authorized for certification for the number of years approved, if applicable, or until revoked or reduced by the voters of the district at a subsequent referendum.

(b) The board must prepare and deliver by first class mail at least 15 days but no more than 30 days before the day of the referendum to each taxpayer a notice of the referendum and the proposed revenue increase. The board need not mail more than one notice to any taxpayer. For the purpose of giving mailed notice under this subdivision, owners must be those shown to be owners on the records of the county auditor or, in any county where tax statements are mailed by the county treasurer, on the records of the county treasurer. Every property owner whose name does not appear on the records of the county auditor or the county treasurer is deemed to have waived this mailed notice unless the owner has requested in writing that the county auditor or county treasurer, as the case may be, include the name on the records for this purpose. The notice must project the anticipated amount of tax increase in annual dollars for typical residential homesteads, agricultural homesteads, apartments, and commercial-industrial property within the school district.

The notice for a referendum may state that an existing referendum levy is expiring and project the anticipated amount of increase over the existing referendum levy in the first year, if any, in annual dollars for typical residential homesteads, agricultural homesteads, apartments, and commercial-industrial property within the district.

The notice must include the following statement: "Passage of this referendum will result in an increase in your property taxes." However, in cases of renewing existing levies, the notice may include the following statement: "Passage of this referendum extends an existing operating referendum at the same amount per pupil as in the previous year."

(c) A referendum on the question of revoking or reducing the increased revenue amount authorized pursuant to paragraph (a) may be called by the board and shall be called by the board upon the written petition of qualified voters of the district. A referendum to revoke or reduce the revenue amount must state the amount per resident marginal cost pupil unit by which the authority is to be reduced. Revenue authority approved by the voters of the district pursuant to paragraph (a) must be available to the school district at least once before it is subject to a referendum on its revocation or reduction for subsequent years. Only one revocation or reduction referendum may be held to revoke or reduce referendum revenue for any specific year and for years thereafter.

(d) A petition authorized by paragraph (a) or (c) is effective if signed by a number of qualified voters in excess of 45 percent of the registered voters of the district on the day the petition is filed with the board. A referendum invoked by petition must be held on the date specified in paragraph (a).

(e) The approval of 50 percent plus one of those voting on the question is required to pass a referendum authorized by this subdivision.

(f) At least 15 days before the day of the referendum, the district must submit a copy of the notice required under paragraph (b) to the commissioner and to the county auditor of each county in which the district is located. Within 15 days after the results of the referendum have been certified by the board, or in the case of a recount, the certification of the results of the recount by the canvassing board, the district must notify the commissioner of the results of the referendum.

EFFECTIVE DATE. This section is effective for petitions filed after July 1, 2009.

Sec. 12. Minnesota Statutes 2008, section 126C.40, subdivision 6, is amended to read:

Subd. 6. Lease purchase; installment buys. (a) Upon application to, and approval by, the commissioner in accordance with the procedures and limits in subdivision 1, paragraphs (a) and (b), a district, as defined in this subdivision, may:
(1) purchase real or personal property under an installment contract or may lease real or personal property with an option to purchase under a lease purchase agreement, by which installment contract or lease purchase agreement title is kept by the seller or vendor or assigned to a third party as security for the purchase price, including interest, if any; and

(2) annually levy the amounts necessary to pay the district's obligations under the installment contract or lease purchase agreement.

(b) The obligation created by the installment contract or the lease purchase agreement must not be included in the calculation of net debt for purposes of section 475.53, and does not constitute debt under other law. An election is not required in connection with the execution of the installment contract or the lease purchase agreement.

(c) The proceeds of the levy authorized by this subdivision must not be used to acquire a facility to be primarily used for athletic or school administration purposes.

(d) For the purposes of this subdivision, "district" means:

(1) a school district required to have a comprehensive plan for the elimination of segregation which is eligible for revenue under section 124D.86, subdivision 3, clause (1), (2), or (3), and whose plan has been determined by the commissioner to be in compliance with Department of Education rules relating to equality of educational opportunity and school desegregation and, for a district eligible for revenue under section 124D.86, subdivision 3, clause (4) or (5), where the acquisition of property under this subdivision is determined by the commissioner to contribute to the implementation of the desegregation plan; or

(2) a school district that participates in a joint program for interdistrict desegregation with a district defined in clause (1) if the facility acquired under this subdivision is to be primarily used for the joint program and the commissioner determines that the joint programs are being undertaken to implement the districts' desegregation plan.

(e) Notwithstanding subdivision 1, the prohibition against a levy by a district to lease or rent a district-owned building to itself does not apply to levies otherwise authorized by this subdivision.

(f) For the purposes of this subdivision, any references in subdivision 1 to building or land shall include personal property.

Sec. 13. Minnesota Statutes 2008, section 126C.41, subdivision 2, is amended to read:

Subd. 2. Retired employee health benefits. (a) A district may levy an amount up to the amount the district is required by the collective bargaining agreement in effect on March 30, 1992, to pay for health insurance or unreimbursed medical expenses for licensed and nonlicensed employees who have terminated services in the employing district and withdrawn from active teaching service or other active service, as applicable, before July 1, 1998, if a sunset clause is in effect for the current collective bargaining agreement. The total amount of the levy each year may not exceed $600,000.

(b) In addition to the levy authority granted under paragraph (a), a school district may levy for other postemployment benefits expenses. For purposes of this subdivision "postemployment benefits" means benefits giving rise to a liability under Statement No. 45 of the Government Accounting Standards Board. A district seeking levy authority under this subdivision must:

(1) create or have created an actuarial liability to pay postemployment benefits to employees or officers after their termination of service;
(2) have a sunset clause in effect for the current collective bargaining agreement as required by paragraph (a); and

(3) apply for the authority in the form and manner required by the commissioner of education.

If the total levy authority requested under this paragraph exceeds the amount established in paragraph (c), the commissioner must proportionately reduce each district's maximum levy authority under this subdivision.

(c) The maximum levy authority under paragraph (b) must not exceed the following amounts:

(1) $24,000,000 for taxes payable in 2010;

(2) $50,000,000 for taxes payable in 2011; and

(3) for taxes payable in 2012 and later, the maximum levy authority must not exceed the sum of the previous year's authority and $19,000,000.

Sec. 14. Minnesota Statutes 2008, section 126C.44, is amended to read:

126C.44 SAFE SCHOOLS LEVY.

(a) Each district may make a levy on all taxable property located within the district for the purposes specified in this section. The maximum amount which may be levied for all costs under this section shall be equal to $30 multiplied by the district's adjusted marginal cost pupil units for the school year. The proceeds of the levy must be reserved and used for directly funding the following purposes or for reimbursing the cities and counties who contract with the district for the following purposes: (1) to pay the costs incurred for the salaries, benefits, and transportation costs of peace officers and sheriffs for liaison in services in the district's schools; (2) to pay the costs for a drug abuse prevention program as defined in section 609.101, subdivision 3, paragraph (e), in the elementary schools; (3) to pay the costs for a gang resistance education training curriculum in the district's schools; (4) to pay the costs for security in the district's schools and on school property; (5) to pay the costs for other crime prevention, drug abuse, student and staff safety, voluntary opt-in suicide prevention tools, and violence prevention measures taken by the school district; or (6) to pay costs for licensed school counselors, licensed school nurses, licensed school social workers, licensed school psychologists, and licensed alcohol and chemical dependency counselors to help provide early responses to problems. For expenditures under clause (1), the district must initially attempt to contract for services to be provided by peace officers or sheriffs with the police department of each city or the sheriff's department of the county within the district containing the school receiving the services. If a local police department or a county sheriff's department does not wish to provide the necessary services, the district may contract for these services with any other police or sheriff's department located entirely or partially within the school district's boundaries.

(b) A school district that is a member of an intermediate school district may include in its authority under this section the costs associated with safe schools activities authorized under paragraph (a) for intermediate school district programs. This authority must not exceed $10 times the adjusted marginal cost pupil units of the member districts. This authority is in addition to any other authority authorized under this section. Revenue raised under this paragraph must be transferred to the intermediate school district.

(c) A school district must set aside at least $3 per adjusted marginal cost pupil unit of the safe schools levy proceeds for the purposes authorized under paragraph (a), clause (6). The district must annually certify either that: (1) its total spending on services provided by the employees listed in paragraph (a), clause (6), is not less than the sum of its expenditures for these purposes, excluding amounts spent under this section, in the previous year plus the amount spent under this section; or (2) that the district's full-time equivalent number of employees listed in paragraph (a), clause (6), is not less than the number for the previous year.

EFFECTIVE DATE. This section is effective for revenue for fiscal years 2010 and later.
Sec. 15. Minnesota Statutes 2008, section 127A.47, subdivision 7, is amended to read:

Subd. 7. **Alternative attendance programs.** The general education aid and special education aid for districts must be adjusted for each pupil attending a nonresident district under sections 123A.05 to 123A.08, 124D.03, 124D.08, and 124D.68. The adjustments must be made according to this subdivision.

(a) General education aid paid to a resident district must be reduced by an amount equal to the referendum equalization aid attributable to the pupil in the resident district.

(b) General education aid paid to a district serving a pupil in programs listed in this subdivision must be increased by an amount equal to the greater of (1) the referendum equalization aid attributable to the pupil in the nonresident district; or (2) the product of the district's open enrollment concentration index, the maximum amount of referendum revenue in the first tier, and the district's net open enrollment pupil units for that year. A district's open enrollment concentration index equals the greater of: (i) zero, or (ii) the lesser of 1.0, or the difference between the district's ratio of open enrollment pupil units served to its resident pupil units for that year and 0.2. This clause does not apply to a school district where more than 50 percent of the open enrollment students are enrolled solely in online learning courses.

(c) If the amount of the reduction to be made from the general education aid of the resident district is greater than the amount of general education aid otherwise due the district, the excess reduction must be made from other state aids due to the district.

(d) For fiscal year 2006, the district of residence must pay tuition to a district or an area learning center, operated according to paragraph (f), providing special instruction and services to a pupil with a disability, as defined in section 125A.02, or a pupil, as defined in section 125A.51, who is enrolled in a program listed in this subdivision. The tuition must be equal to (1) the actual cost of providing special instruction and services to the pupil, including a proportionate amount for special transportation and unreimbursed building lease and debt service costs for facilities used primarily for special education, minus (2) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum aid attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, minus (3) special education aid attributable to that pupil, that is received by the district providing special instruction and services. For purposes of this paragraph, general education revenue and referendum equalization aid attributable to a pupil must be calculated using the serving district's average general education revenue and referendum equalization aid per adjusted pupil unit.

(e) For fiscal year 2007 and later, special education aid paid to a resident district must be reduced by an amount equal to (1) the actual cost of providing special instruction and services, including special transportation and unreimbursed building lease and debt service costs for facilities used primarily for special education, for a pupil with a disability, as defined in section 125A.02, or a pupil, as defined in section 125A.51, who is enrolled in a program listed in this subdivision, minus (2) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum equalization aid attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, minus (3) special education aid attributable to that pupil, that is received by the district providing special instruction and services. For purposes of this paragraph, general education revenue and referendum equalization aid attributable to a pupil must be calculated using the serving district's average general education revenue and referendum equalization aid per adjusted pupil unit. Special education aid paid to the district or cooperative providing special instruction and services for the pupil, or to the fiscal agent district for a cooperative, must be increased by the amount of the reduction in the aid paid to the resident district. If the resident district's special education aid is insufficient to make the full adjustment, the remaining adjustment shall be made to other state aids due to the district.
(f) An area learning center operated by a service cooperative, intermediate district, education district, or a joint powers cooperative may elect through the action of the constituent boards to charge the resident district tuition for pupils rather than to have the general education revenue paid to a fiscal agent school district. Except as provided in paragraph (d) or (e), the district of residence must pay tuition equal to at least 90 percent of the district average general education revenue per pupil unit minus an amount equal to the product of the formula allowance according to section 126C.10, subdivision 2, times .0485, calculated without basic skills compensatory revenue and transportation sparsity revenue, times the number of pupil units for pupils attending the area learning center, plus the amount of compensatory revenue generated by pupils attending the area learning center.

The data shall be supplied upon forms prescribed by the state auditor, and all public officials so called upon shall fill out properly and return promptly all forms so transmitted. The state auditor or assistants, may examine local records in order to complete or verify the information.

Subd. 2. Examples of good government in procurement and shared services; clearinghouse. The state auditor may seek funds from local units of government and nongovernmental sources to establish an online clearinghouse of examples of good government in procurement and shared services among political subdivisions. If established, the clearinghouse shall be designed to allow political subdivisions to submit examples of good government in procurement and shared services in a form prescribed by the state auditor.

Sec. 2. Minnesota Statutes 2008, section 120B.02, is amended to read:

120B.02 EDUCATIONAL EXPECTATIONS FOR MINNESOTA'S STUDENTS.

(a) The legislature is committed to establishing rigorous academic standards for Minnesota's public school students. To that end, the commissioner shall adopt in rule statewide academic standards. The commissioner shall not prescribe in rule or otherwise the delivery system, classroom assessments, or form of instruction that school sites must use. For purposes of this chapter, a school site is a separate facility, or a separate program within a facility that a local school board recognizes as a school site for funding purposes.

(b) All commissioner actions regarding the rule must be premised on the following:

(1) the rule is intended to raise academic expectations for students, teachers, and schools;

(2) any state action regarding the rule must evidence consideration of school district autonomy; and

(3) the Department of Education, with the assistance of school districts, must make available information about all state initiatives related to the rule to students and parents, teachers, and the general public in a timely format that is appropriate, comprehensive, and readily understandable.

(c) When fully implemented, the requirements for high school graduation in Minnesota must require students to satisfactorily complete, as determined by the school district, the course credit requirements under section 120B.024 and all state academic standards or local academic standards where state standards do not apply and:

(1) for students enrolled in grade 8 before the 2005-2006 school year, to pass the basic skills test requirements; and

(2) for students enrolled in grade 8 in the 2005-2006 school year and later, to pass the Minnesota Comprehensive Assessments Second Edition (MCA-IIIs).
(d) The commissioner shall periodically review and report on the state's assessment process.

(e) School districts are not required to adopt specific provisions of the federal School-to-Work programs.

**EFFECTIVE DATE.** This section is effective August 1, 2012, and applies to students entering the 9th grade in the 2012-2013 school year and later.

For purposes of applicable federal law, the academic standards for language arts, mathematics, and science apply to all public school students, except the very few students with extreme cognitive or physical impairments for whom an individualized education plan team has determined that the required academic standards are inappropriate. An individualized education plan team that makes this determination must establish alternative standards with appropriate alternate achievement standards based on these academic standards for students with individualized education plans described under federal law.

A school district, no later than the 2007-2008 school year, must adopt graduation requirements that meet or exceed state graduation requirements established in law or rule. A school district that incorporates these state graduation requirements before the 2007-2008 school year must provide students who enter the 9th grade in or before the 2003-2004 school year the opportunity to earn a diploma based on existing locally established graduation requirements in effect when the students entered the 9th grade. District efforts to develop, implement, or improve instruction or curriculum as a result of the provisions of this section must be consistent with sections 120B.10, 120B.11, and 120B.20.

Programs under this paragraph must encompass indigenous American Indian languages and cultures, among other world languages and cultures. The department shall consult with postsecondary institutions in developing related professional development opportunities.

(c) Any Minnesota public, charter, or nonpublic school may award Minnesota World Language Proficiency Certificates or Minnesota World Language Proficiency High Achievement Certificates, consistent with this subdivision.

The Minnesota World Language Proficiency Certificate recognizes students who demonstrate listening, speaking, reading, and writing language skills at the American Council on the Teaching of Foreign Languages' Intermediate-Low level on a valid and reliable assessment tool. For languages listed as Category 3 by the United States Foreign Service Institute or Category 4 by the United States Defense Language Institute, the standard is Intermediate-Low for listening and speaking and Novice-High for reading and writing.

120B.13 ADVANCED PLACEMENT AND INTERNATIONAL BACCALAUREATE, AND CONCURRENT ENROLLMENT PROGRAMS.

Subdivision 1. Program structure; training programs for teachers. (a) The advanced placement and international baccalaureate, and concurrent enrollment programs are well-established academic programs for mature, academically directed high school students. These programs, in addition to providing academic rigor, offer sound curricular design, accountability, comprehensive external assessment, feedback to students and teachers, and the opportunity for high school students to compete academically on a global level. Advanced placement and international baccalaureate, and concurrent enrollment programs allow students to leave high school with the academic skills and self-confidence to succeed in college and beyond. The advanced placement and international baccalaureate, and concurrent enrollment programs help provide Minnesota students with world-class educational opportunity.

(b) Critical to schools' educational success is ongoing advanced placement/international baccalaureate approved teacher training for teachers instructing students in the advanced placement, international baccalaureate, and concurrent enrollment programs. A secondary teacher assigned by a district to teach an advanced placement or international baccalaureate course or other interested educator may participate in a training program offered by The College Board or International Baccalaureate North America, Inc. A secondary teacher assigned by a district to teach a concurrent enrollment course, or other interested educator, may participate in a training program offered by the eligible public postsecondary institution with which the district has entered into an agreement according to section 124D.09, subdivision 3, paragraph (a). The state may pay a portion of the tuition, room, board, and out-of-state travel costs a teacher or other interested educator incurs in participating in a training program. The commissioner shall determine application procedures and deadlines, select teachers and other interested educators to participate in the training program, and determine the payment process and amount of the subsidy. The procedures determined by the commissioner shall, to the extent possible, ensure that advanced placement and international baccalaureate, and concurrent enrollment courses become available in all parts of the state and that a variety of course offerings are available in school districts. This subdivision does not prevent teacher or other interested educator participation in training programs offered by The College Board or International Baccalaureate North America, Inc., when tuition is paid by a source other than the state.
(c) The commissioner may award state-funded competitive grants designed to create advanced placement summer training institutes for secondary teachers. Two-year grants, beginning and ending on October 1, may be awarded to Minnesota institutions of higher education that comply with the training requirements outlined by the College Board. The commissioner shall determine award criteria and the selection process.

Subd. 2. Support programs. The commissioner shall provide support programs during the school year for teachers who attended the training programs and teachers experienced in teaching advanced placement or international baccalaureate or concurrent enrollment courses. The support programs shall provide teachers with opportunities to share instructional ideas with other teachers. The state may pay the costs of participating in the support programs, including substitute teachers, if necessary, and program affiliation costs.

Subd. 3. Subsidy for examination fees. The state may pay all or part of the fee for advanced placement or international baccalaureate examinations. The commissioner shall pay all examination fees for all public and nonpublic students of low-income families, as defined by the commissioner, and to the limit of the available appropriation, shall also pay a portion or all of the examination fees for other public and nonpublic students sitting for an advanced placement examination, international baccalaureate examination, or both. The commissioner shall determine procedures for state payments of fees.

Subd. 3a. College credit. The colleges and universities of the Minnesota State Colleges and Universities system must award, and the University of Minnesota and private postsecondary institutions are encouraged to award, college credit to high school students who receive a score of three or higher on an advanced placement or four or higher on the international baccalaureate program examination.

Subd. 4. Information. The commissioner shall submit the following information to the education committees of the legislature each year by February 1:

(1) the number of pupils enrolled in advanced placement and international baccalaureate and concurrent enrollment courses in each school district;

(2) the number of teachers in each district attending training programs offered by the college board or International Baccalaureate North America, Inc.;

(3) the number of teachers in each district participating in support programs;

(4) recent trends in the field of advanced placement and international baccalaureate and concurrent enrollment programs;

(5) expenditures for each category in this section; and

(6) other recommendations for the state program.

Sec. 8. Minnesota Statutes 2008, section 120B.132, is amended to read:

120B.132 RAISED ACADEMIC ACHIEVEMENT; ADVANCED PLACEMENT AND INTERNATIONAL BACCALAUREATE, AND CONCURRENT ENROLLMENT PROGRAMS.

Subdivision 1. Establishment; eligibility. A program is established to raise kindergarten through grade 12 academic achievement through increased student participation in preadvanced placement, advanced placement, and international baccalaureate, and concurrent enrollment programs, consistent with section 120B.13. Schools and charter schools eligible to participate under this section:
(1) must have a three-year plan approved by the local school board to establish a new international baccalaureate program leading to international baccalaureate authorization, expand an existing program that leads to international baccalaureate authorization, or expand an existing authorized international baccalaureate program; or

(2) must have a three-year plan approved by the local school board to create a new or expand an existing program to implement the college board advanced placement courses and exams or preadvanced placement initiative; and or

(3) must have a three-year plan approved by the local school board to create a new or expand an existing concurrent enrollment program; and

(4) must propose to further raise students' academic achievement by:

(i) increasing the availability of and all students' access to advanced placement, international baccalaureate, or concurrent enrollment courses or programs;

(ii) expanding the breadth of advanced placement, international baccalaureate, or concurrent enrollment courses or programs that are available to students;

(iii) increasing the number and the diversity of the students who participate in advanced placement, international baccalaureate, or concurrent enrollment courses or programs and succeed;

(iv) providing low-income and other disadvantaged students with increased access to advanced placement, international baccalaureate, or concurrent enrollment courses and programs; or

(v) increasing the number of high school students, including low-income and other disadvantaged students, who receive college credit by successfully completing advanced placement, international baccalaureate, or concurrent enrollment courses or programs and achieving satisfactory scores on related exams.

Subd. 2. Application and review process; funding priority. (a) Charter schools and school districts in which eligible schools under subdivision 1 are located may apply to the commissioner, in the form and manner the commissioner determines, for competitive funding to further raise students' academic achievement. The application must detail the specific efforts the applicant intends to undertake in further raising students' academic achievement, consistent with subdivision 1, and a proposed budget detailing the district or charter school's current and proposed expenditures for advanced placement, preadvanced placement, and international baccalaureate, and concurrent enrollment courses and programs. The proposed budget must demonstrate that the applicant's efforts will support implementation of advanced placement, preadvanced placement, and international baccalaureate, and concurrent enrollment courses and programs. Expenditures for administration must not exceed five percent of the proposed budget. The commissioner may require an applicant to provide additional information.

(b) When reviewing applications, the commissioner must determine whether the applicant satisfied all the requirements in this subdivision and subdivision 1. The commissioner may give funding priority to an otherwise qualified applicant that demonstrates:

(1) a focus on developing or expanding preadvanced placement, advanced placement, international baccalaureate, or concurrent enrollment courses or programs or increasing students' participation in, access to, or success with the courses or programs, including the participation, access, or success of low-income and other disadvantaged students;

(2) a compelling need for access to preadvanced placement, advanced placement, international baccalaureate, or concurrent enrollment courses or programs;
(3) an effective ability to actively involve local business and community organizations in student activities that are integral to preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs;

(4) access to additional public or nonpublic funds or in-kind contributions that are available for preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs; or

(5) an intent to implement activities that target low-income and other disadvantaged students.

Subd. 3. **Funding; permissible funding uses.** (a) The commissioner shall award grants to applicant school districts and charter schools that meet the requirements of subdivisions 1 and 2. The commissioner must award grants on an equitable geographical basis to the extent feasible and consistent with this section. Grant awards must not exceed the lesser of:

1. $85 times the number of pupils enrolled at the participating sites on October 1 of the previous fiscal year; or

2. the approved supplemental expenditures based on the budget submitted under subdivision 2. For charter schools in their first year of operation, the maximum funding award must be calculated using the number of pupils enrolled on October 1 of the current fiscal year. The commissioner may adjust the maximum funding award computed using prior year data for changes in enrollment attributable to school closings, school openings, grade level reconfigurations, or school district reorganizations between the prior fiscal year and the current fiscal year.

(b) School districts and charter schools that submit an application and receive funding under this section must use the funding, consistent with the application, to:

1. provide teacher training and instruction to more effectively serve students, including low-income and other disadvantaged students, who participate in preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs;

2. further develop preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs;

3. improve the transition between grade levels to better prepare students, including low-income and other disadvantaged students, for succeeding in preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs;

4. purchase books and supplies;

5. pay course or program fees;

6. increase students' participation in and success with preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs;

7. expand students' access to preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs through online learning;

8. hire appropriately licensed personnel to teach additional advanced placement or international baccalaureate, or concurrent enrollment courses or programs; or

9. engage in other activity directly related to expanding students' access to, participation in, and success with preadvanced placement, advanced placement, or international baccalaureate, or concurrent enrollment courses or programs, including low-income and other disadvantaged students.
Subd. 4. **Annual reports.** (a) Each school district and charter school that receives a grant under this section annually must collect demographic and other student data to demonstrate and measure the extent to which the district or charter school raised students' academic achievement under this program and must report the data to the commissioner in the form and manner the commissioner determines. The commissioner annually by February 15 must make summary data about this program available to the education policy and finance committees of the legislature.

(b) Each school district and charter school that receives a grant under this section annually must report to the commissioner, consistent with the Uniform Financial Accounting and Reporting Standards, its actual expenditures for advanced placement, preadvanced placement, and international baccalaureate, and concurrent enrollment courses and programs. The report must demonstrate that the school district or charter school has maintained its effort from other sources for advanced placement, preadvanced placement, and international baccalaureate, and concurrent enrollment courses and programs compared with the previous fiscal year, and the district or charter school has expended all grant funds, consistent with its approved budget.

Subd. 5. **Accreditation of concurrent enrollment programs.** (a) To establish a uniform standard by which concurrent enrollment courses and professional development activities may be measured, postsecondary institutions are encouraged to apply for accreditation by the National Alliance of Concurrent Enrollment Partnership.

(b) Beginning in fiscal year 2011, districts offering a concurrent enrollment program according to an agreement under section 124D.09, subdivision 10, are only eligible for aid under this section and section 120B.13, if the college or university concurrent enrollment courses offered by the district are accredited by the National Alliance of Concurrent Enrollment Partnership, in the process of being accredited, or are shown by clear evidence to be of comparable standard to accredited courses.

Sec. 9. **[120B.299] DEFINITIONS.**

**Subdivision 1. Definitions.** The definitions in this section apply to this chapter.

**Subd. 2. Growth.** "Growth" compares the difference in a student's achievement score at two or more distinct points in time.

**Subd. 3. Value added.** "Value added" is the amount of achievement a student demonstrates above an established baseline. The difference between the student's score and the baseline defines value added.

**Subd. 4. Value-added growth.** "Value-added growth" is based on a student's growth score. In a value-added growth system, the student's first test is the baseline, and the difference between the student's first and next test scores within a defined period is the measure of value added. Value-added growth models use student-level data to measure what portion of a student's growth can be explained by inputs related to the educational environment.

**Subd. 5. Adequate yearly progress.** A school or district makes "adequate yearly progress" if, for every student subgroup under the federal 2001 No Child Left Behind Act in the school or district, its proficiency index or other approved adjustments for performance, based on statewide assessment scores, meets or exceeds federal expectations. To make adequate yearly progress, the school or district also must satisfy applicable federal requirements related to student attendance, graduation, and test participation rates.

**Subd. 6. State growth target.** (a) "State growth target" is the average year-two assessment scores for students with similar year-one assessment scores.

(b) The state growth targets for each grade and subject are benchmarked as follows until the assessment scale changes:
beginning in the 2008-2009 school year, the state growth target for grades 3 to 8 is benchmarked to 2006-2007 and 2007-2008 school year data;

(2) beginning in the 2008-2009 school year the state growth target for grade 10 is benchmarked to 2005-2006 and 2006-2007 school year data;

(3) for the 2008-2009 school year, the state growth target for grade 11 is benchmarked to 2005-2006 school year data; and

(4) beginning in the 2009-2010 school year, the state growth target for grade 11 is benchmarked to 2005-2006 and 2006-2007 school year data.

(c) Each time before the assessment scale changes, a stakeholder group that includes assessment and evaluation directors and staff and researchers must recommend a new state growth target that the commissioner must consider when revising standards under section 120B.023, subdivision 2.

Subd. 7. Low growth. "Low growth" is an assessment score one-half standard deviation below the state growth target.

Subd. 8. Medium growth. "Medium growth" is an assessment score within one-half standard deviation above or below the state growth target.

Subd. 9. High growth. "High growth" is an assessment score one-half standard deviation or more above the state growth target.

Subd. 10. Proficiency. "Proficiency" for purposes of reporting growth on school performance report cards under section 120B.36, subdivision 1, means those students who, in the previous school year, scored at or above "meets standards" on the statewide assessments under section 120B.30. Each year, school performance report cards must separately display: (1) the numbers and percentages of students who achieved low growth, medium growth, and high growth and achieved proficiency in the previous school year; and (2) the numbers and percentages of students who achieved low growth, medium growth, and high growth and did not achieve proficiency in the previous school year.

Subd. 11. Growth and progress toward proficiency. The categories of low growth, medium growth, and high growth shall be used to indicate both (1) growth and (2) progress toward grade-level proficiency that is consistent with subdivision 10.

EFFECTIVE DATE. This section is effective the day following final enactment.
must include both machine-scoreable multiple choice and constructed response questions. The commissioner shall establish one or more months during which schools shall administer the tests to students each school year. Schools that the commissioner identifies for stand-alone field testing or other national sampling must participate as directed. Superintendents or charter school directors may appeal in writing to the commissioner for an exemption from a field test based on undue hardship. The commissioner's decision regarding the appeal is final. For students enrolled in grade 8 before the 2005-2006 school year, only Minnesota basic skills tests in reading, mathematics, and writing shall fulfill students' basic skills testing requirements for a passing state notation. The passing scores of basic skills tests in reading and mathematics are the equivalent of 75 percent correct for students entering grade 9 in 1997 and thereafter, as based on the first uniform test administration of administered in February 1998. Students who have not successfully passed a Minnesota basic skills test by the end of the 2011-2012 school year must pass the graduation-required assessments for diploma under paragraph (b).

(b) For students enrolled in grade 8 in the 2005-2006 school year and later, only the following options shall fulfill students' state graduation test requirements:

(1) for reading and mathematics:

(i) obtaining an achievement level equivalent to or greater than proficient as determined through a standard setting process on the Minnesota comprehensive assessments in grade 10 for reading and grade 11 for mathematics or achieving a passing score as determined through a standard setting process on the graduation-required assessment for diploma in grade 10 for reading and grade 11 for mathematics or subsequent retests;

(ii) achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in reading and the mathematics test for English language learners or the graduation-required assessment for diploma equivalent of those assessments for students designated as English language learners;

(iii) achieving an individual passing score on the graduation-required assessment for diploma as determined by appropriate state guidelines for students with an individual education plan or 504 plan;

(iv) obtaining achievement level equivalent to or greater than proficient as determined through a standard setting process on the state-identified alternate assessment or assessments in grade 10 for reading and grade 11 for mathematics for students with an individual education plan; or

(v) achieving an individual passing score on the state-identified alternate assessment or assessments as determined by appropriate state guidelines for students with an individual education plan; and

(2) for writing:

(i) achieving a passing score on the graduation-required assessment for diploma;

(ii) achieving a passing score as determined through a standard setting process on the state-identified language proficiency test in writing for students designated as English language learners;

(iii) achieving an individual passing score on the graduation-required assessment for diploma as determined by appropriate state guidelines for students with an individual education plan or 504 plan; or

(iv) achieving an individual passing score on the state-identified alternate assessment or assessments as determined by appropriate state guidelines for students with an individual education plan.

(c) Students enrolled in grade 8 in any school year from the 2005-2006 school year to the 2009-2010 school year who do not pass the mathematics graduation-required assessment for diploma under paragraph (b) are eligible to receive a high school diploma with a passing state notation if they:
(1) complete with a passing score or grade all state and local coursework and credits required for graduation by
the school board granting the students their diploma;

(2) participate in district-prescribed academic remediation in mathematics; and

(3) fully participate in at least two retests of the mathematics GRAD test or until they pass the mathematics
GRAD test, whichever comes first. A school board issuing a student a high school diploma in any school year from
the 2009-2010 school year through the 2013-2014 school year must record on the student's high school transcript the
student's score as the total number of test items and the number of test items the student answered correctly on the
mathematics graduation-required assessment for diploma under this subdivision.

In addition, the school board granting the students their diplomas may formally decide to include a notation of
high achievement on the high school diplomas of those graduating seniors who, according to established school
board criteria, demonstrate exemplary academic achievement during high school.

(d) The 3rd through 8th grade computer-adaptive assessments and high school level test results shall be available
to districts for diagnostic purposes affecting student learning and district instruction and curriculum, and for
establishing educational accountability. The commissioner must disseminate to the public the computer-adaptive
assessments and high school test results upon receiving those results.

(d) State (e) The 3rd through 8th grade computer-adaptive assessments and high school tests must be constructed
and aligned with state academic standards. The commissioner shall determine the testing process and the order of
administration shall be determined by the commissioner. The statewide results shall be aggregated at the site and
district level, consistent with subdivision 1a.

(e) (f) In addition to the testing and reporting requirements under this section, the commissioner shall include the
following components in the statewide public reporting system:

(1) uniform statewide testing of all students in grades 3 through 8 and at the high school level that provides
appropriate, technically sound accommodations, or alternate assessments, or exemptions consistent with applicable
federal law, only with parent or guardian approval, for those very few students for whom the student's individual
education plan team under sections 125A.05 and 125A.06 determines that the general statewide test is inappropriate
for a student, or for a limited English proficiency student under section 124D.59, subdivision 2;

(2) educational indicators that can be aggregated and compared across school districts and across time on a
statewide basis, including average daily attendance, high school graduation rates, and high school drop-out rates by
age and grade level;

(3) state results on the American College Test; and

(4) state results from participation in the National Assessment of Educational Progress so that the state can
benchmark its performance against the nation and other states, and, where possible, against other countries, and
contribute to the national effort to monitor achievement.

Subd. 1a. Statewide and local assessments; results. (a) For purposes of this section, the following definitions
have the meanings given them.

(1) "Computer-adaptive assessments" means fully adaptive assessments or partially adaptive assessments.

(2) "Fully adaptive assessments" include test items that are on-grade level and items that may be above or below
a student's grade level.
(3) "Partially adaptive assessments" include two portions of test items, where one portion is limited to on-grade level test items and a second portion includes test items that are on-grade level or above or below a student's grade level.

(4) "On-grade level" test items contain subject area content that is aligned to state academic standards for the grade level of the student taking the assessment.

(5) "Above-grade level" test items contain subject area content that is above the grade level of the student taking the assessment and are considered aligned with state academic standards to the extent they are aligned with content represented in state academic standards above the grade level of the student taking the assessment. Notwithstanding the student's grade level, administering above-grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.

(6) "Below-grade level" test items contain subject area content that is below the grade level of the student taking the test and are considered aligned with state academic standards to the extent they are aligned with content represented in state academic standards below the student's current grade level. Notwithstanding the student's grade level, administering below-grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.

(b) The commissioner must use fully adaptive assessments to the extent no net loss of federal and state funds occurs as a result of using these assessments. If a net loss of federal and state funds were to occur under this subdivision, then the commissioner must use partially adaptive assessments to meet existing federal educational accountability requirements.

(c) For purposes of conforming with existing federal educational accountability requirements, the commissioner must develop and implement computer-adaptive reading, and mathematics, and science assessments for grades 3 through 8, state-developed high school reading and mathematics tests aligned with state academic standards, and science assessments under clause (2) that districts and sites must use to monitor student growth toward achieving those standards. The commissioner must not develop statewide assessments for academic standards in social studies, health and physical education, and the arts. The commissioner must require:

(1) annual computer-adaptive reading and mathematics assessments in grades 3 through 8, and at the high school level for the 2005-2006 school year and later high school reading and mathematics tests; and

(2) annual science assessments in one grade in the grades 3 through 5 span, the grades 6 through 9 span, and a life sciences assessment in the grades 10 through 12 span for the 2007-2008 school year and later, and the commissioner must not require students to achieve a passing score on high school science assessments as a condition of receiving a high school diploma.

The commissioner must ensure that for annual computer-adaptive assessments:

(i) individual student performance data and achievement and summary reports are available within three school days of when students take an assessment;

(ii) growth information is available for each student from the student's first assessment to each proximate assessment using a constant measurement scale;

(iii) parents, teachers, and school administrators are able to use elementary and middle school student performance data to project student achievement in high school; and

(iv) useful diagnostic information about areas of students' academic strengths and weaknesses is available to teachers and school administrators for purposes of improving student instruction and indicating the specific skills and concepts that should be introduced and developed for students at given score levels, organized by strands within subject areas, and aligned to state academic standards.
When contracting for computer-adaptive assessments under this section, the weighting criteria the commissioner uses to evaluate contract proposals must give preference to vendors prepared to provide statewide computer-adaptive assessments and options for locally selected, locally financed, and locally implemented assessments that are independently aligned to state standards and used to inform curriculum and instruction.

(d) The commissioner must ensure that all statewide tests administered to elementary and secondary students measure students' academic knowledge and skills and not students' values, attitudes, and beliefs.

(e) Reporting of assessment results must:

(1) provide timely, useful, and understandable information on the performance of individual students, schools, school districts, and the state;

(2) include, by no later than the 2008-2009 school year, a value-added component that is in addition to a measure for student achievement growth over time indicator of student achievement under section 120B.35, subdivision 3, paragraph (b); and

(3)(i) for students enrolled in grade 8 before the 2005-2006 school year, determine whether students have met the state's basic skills requirements; and

(ii) for students enrolled in grade 8 in the 2005-2006 school year and later, determine whether students have met the state's academic standards.

(f) Consistent with applicable federal law and subdivision 1, paragraph (d), clause (1), the commissioner must include appropriate, technically sound accommodations or alternative assessments for the very few students with disabilities for whom statewide assessments are inappropriate and for students with limited English proficiency.

(g) A school, school district, and charter school must administer statewide assessments under this section, as the assessments become available, to evaluate student progress in achieving the proficiency in the context of the state's grade level academic standards. If a state assessment is not available, a school, school district, and charter school must determine locally if a student has met the required academic standards. A school, school district, or charter school may use a student's performance on a statewide assessment as one of multiple criteria to determine grade promotion or retention. A school, school district, or charter school may use a high school student's performance on a statewide assessment as a percentage of the student's final grade in a course, or place a student's assessment score on the student's transcript.

(h) For each procurement cycle for computer-adaptive assessments, the commissioner must report to the K-12 education policy and finance committees of the legislature on the costs of implementing computer-adaptive assessments and demonstrate that these assessments both represent the greatest value to the state and local school districts and minimize the need for redundant assessments.

Subd. 2. Department of Education assistance. The Department of Education shall contract for professional and technical services according to competitive bidding procedures under chapter 16C for purposes of this section.

Subd. 3. Reporting. The commissioner shall report test data publicly and to stakeholders, including the performance achievement levels developed from students' unweighted test scores in each tested subject and a listing of demographic factors that strongly correlate with student performance. The commissioner shall also report data that compares performance results among school sites, school districts, Minnesota and other states, and Minnesota and other nations. The commissioner shall disseminate to schools and school districts a more comprehensive report containing testing information that meets local needs for evaluating instruction and curriculum.
Subd. 4. **Access to tests.** The commissioner must adopt and publish a policy to provide public and parental access for review of basic skills tests, Minnesota Comprehensive Assessments, or any other such statewide test and assessment. Upon receiving a written request, the commissioner must make available to parents or guardians a copy of their student's actual responses to the test questions to be reviewed by the parent for their review.

**EFFECTIVE DATE.** This section is effective the day following final enactment. Subdivision 1, paragraph (c), applies to the 2009-2010 through 2013-2014 school years only. Notwithstanding any other law to the contrary, requirements related to the mathematics graduation-required assessment for diploma under this section are repealed June 30, 2014, and the commissioner of education must not implement any alternative to the mathematics graduation-required assessment for diploma without specific legislative authority. Requirements for using computer-adaptive mathematics assessments for grades 3 through 8 apply in the 2010-2011 school year and later and requirements for using computer-adaptive reading assessments for grades 3 through 8 apply in the 2012-2013 school year and later.

Sec. 11. Minnesota Statutes 2008, section 120B.31, is amended to read:

**120B.31 SYSTEM ACCOUNTABILITY AND STATISTICAL ADJUSTMENTS.**

Subdivision 1. **Educational accountability and public reporting.** Consistent with the process direction to adopt a results-oriented graduation rule, statewide academic standards under section 120B.02, the department, in consultation with education and other system stakeholders, must establish a coordinated and comprehensive system of educational accountability and public reporting that promotes higher academic achievement, preparation for higher academic education, preparation for the world of work, citizenship under sections 120B.021, subdivision 1, clause (4), and 120B.024, paragraph (a), clause (4), and the arts.

Subd. 2. **Statewide testing.** Each school year, all school districts shall give a uniform statewide test to students at specified grades to provide information on the status, needs, and performance of Minnesota students.

Subd. 3. **Educational accountability.** (a) The Independent Office of Educational Accountability, as authorized by Laws 1997, First Special Session chapter 4, article 5, section 28, subdivision 2, is established, and shall be funded through the Board of Regents of the University of Minnesota. The office shall advise the education committees of the legislature and the commissioner of education, at least on a biennial basis, on:

1. the degree to which the statewide educational accountability and reporting system includes a comprehensive assessment framework that measures school accountability for students achieving the goals described in the state's results-oriented high school graduation rule;

2. the completeness, integrity, and use of the information provided by the statewide educational accountability and reporting system in the context of enabling legislators and other stakeholders to make fully informed education policy decisions consistent with the best and most current academic research available; and

3. the impact the statewide educational accountability and reporting system has on prekindergarten through grade 12 education policy, effectiveness, resource distribution, and structure;

(b) The office shall determine and annually report to the legislature whether and how effectively:

1. the statewide system of educational accountability utilizes multiple indicators to provide valid and reliable comparative and contextual data on students, schools, districts, and the state, and if not, recommend ways to improve the accountability reporting system;

2. the commissioner makes statistical adjustments when reporting student data over time, consistent with clause (4);
(3) the commissioner uses indicators of student achievement growth, a value-added growth indicator of student achievement over time and a value-added assessment model that estimates the effects of the school and school district on student achievement to measure and measures school performance, consistent with section 120B.36, subdivision 4, 120B.35, subdivision 3, paragraph (b);

(4) the commissioner makes (3) data are available on students who do not pass one or more of the state’s required GRAD tests and do not receive a diploma as a consequence, and categorizes these data are categorized according to gender, race, eligibility for free or reduced lunch, and English language proficiency; and

(5) the commissioner fulfills (4) the requirements under section 127A.095, subdivision 2, are met.

(b) (c) When the office reviews the statewide educational accountability and reporting system, it shall also consider:

(1) the objectivity and neutrality of the state’s educational accountability system; and

(2) the impact of a testing program on school curriculum and student learning.

Subd. 4. Statistical adjustments; student performance data. In developing policies and assessment processes to hold schools and districts accountable for high levels of academic standards under section 120B.021, the commissioner shall aggregate student data over time to report student performance and growth levels measured at the school, school district, regional, or and statewide level. When collecting and reporting the performance data, the commissioner shall: (1) acknowledge the impact of significant demographic factors such as residential instability, the number of single parent families, parents’ level of education, and parents’ income level on school outcomes; and (2) organize and report the data so that state and local policy makers can understand the educational implications of changes in districts’ demographic profiles over time. Any report the commissioner disseminates containing summary data on student performance must integrate student performance and the demographic factors that strongly correlate with that performance.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 12. Minnesota Statutes 2008, section 120B.35, is amended to read:

120B.35 STUDENT ACADEMIC ACHIEVEMENT AND PROGRESS GROWTH.

Subdivision 1. Adequate yearly progress of schools and students School and student indicators of growth and achievement. The commissioner must develop and implement a system for measuring and reporting academic achievement and individual student progress growth, consistent with the statewide educational accountability and reporting system. The system components of the system must measure and separately report the adequate yearly progress of schools and the growth of individual students: students’ current achievement in schools under subdivision 2; and individual students’ educational progress growth over time under subdivision 3. The system also must include statewide measures of student academic achievement growth that identify schools with high levels of achievement growth, and also schools with low levels of achievement growth that need improvement. When determining a school’s effect, the data must include both statewide measures of student achievement and, to the extent annual tests are administered, indicators of achievement growth that take into account a student’s prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments. Indicators that take into account a student’s prior achievement must not be used to disregard a school’s low achievement or to exclude a school from a program to improve low achievement levels. The commissioner by January 15, 2002, must submit a plan for integrating these components to the chairs of the legislative committees having policy and budgetary responsibilities for elementary and secondary education.
Subd. 2. **Federal expectations for student academic achievement.** (a) Each school year, a school district must determine if the student achievement levels at each school site meet state and local federal expectations. If student achievement levels at a school site do not meet state and local federal expectations and the site has not made adequate yearly progress for two consecutive school years, beginning with the 2001-2002 school year, the district must work with the school site to adopt a plan to raise student achievement levels to meet state and local federal expectations. The commissioner of education shall establish student academic achievement levels to comply with this paragraph.

(b) School sites identified as not meeting federal expectations must develop continuous improvement plans in order to meet state and local federal expectations for student academic achievement. The department, at a district's request, must assist the district and the school site in developing a plan to improve student achievement. The plan must include parental involvement components.

(c) The commissioner must:

1. provide assistance to assist school sites and districts identified as not meeting federal expectations; and

2. provide technical assistance to schools that integrate student achievement measures under subdivision 3 into the school continuous improvement plan.

(d) The commissioner shall establish and maintain a continuous improvement Web site designed to make data on every school and district available to parents, teachers, administrators, community members, and the general public.

Subd. 3. **Student progress assessment State growth target; other state measures.** (a) The state's educational assessment system component measuring individual students' educational progress must be based, to the extent annual tests are administered, on indicators of achievement growth that show an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments.

(b) The commissioner, in consultation with a stakeholder group that includes assessment and evaluation directors and staff and researchers must identify effective models for measuring individual student progress that enable a school district or school site to perform gains-based analysis, including evaluating the effects of the teacher, school, and school district on student achievement over time. At least one model must be a "value-added" assessment model that reliably estimates those effects for classroom settings where a single teacher teaches multiple subjects to the same group of students, for team teaching arrangements, and for other teaching circumstances. Implement a model that uses a value-added growth indicator and includes criteria for identifying schools and school districts that demonstrate medium and high growth under section 120B.299, subdivisions 8 and 9, and may recommend other value-added measures under section 120B.299, subdivision 3. The model may be used to advance educators' professional development and replicate programs that succeed in meeting students' diverse learning needs. Data on individual teachers generated under the model are personnel data under section 13.43. The model must allow users to:

1. report student growth consistent with this paragraph; and

2. for all student categories, report and compare aggregated and disaggregated state growth data using the nine student categories identified under the federal 2001 No Child Left Behind Act and two student gender categories of male and female, respectively, following appropriate reporting practices to protect nonpublic student data.

The commissioner must report separate measures of student growth and proficiency, consistent with this paragraph.
(c) If a district has an accountability plan that includes gains-based analysis or “value added” assessment, the commissioner shall, to the extent practicable, incorporate those measures in determining whether the district or school site meets expectations. The department must coordinate with the district in evaluating school sites and continuous improvement plans, consistent with best practices. When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2011, must report two core measures indicating the extent to which current high school graduates are being prepared for postsecondary academic and career opportunities:

(1) a preparation measure indicating the number and percentage of high school graduates in the most recent school year who completed course work important to preparing them for postsecondary academic and career opportunities, consistent with the core academic subjects required for admission to Minnesota's public colleges and universities as determined by the Office of Higher Education under chapter 136A; and

(2) a rigorous coursework measure indicating the number and percentage of high school graduates in the most recent school year who successfully completed one or more college-level advanced placement, international baccalaureate, postsecondary enrollment options including concurrent enrollment, other rigorous courses of study under section 120B.021, subdivision 1a, or industry certification courses or programs.

When reporting the core measures under clauses (1) and (2), the commissioner must also analyze and report separate categories of information using the nine student categories identified under the federal 2001 No Child Left Behind Act and two student gender categories of male and female, respectively following appropriate reporting practices to protect nonpublic student data.

(d) When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2013, must report summary data on school safety and students' engagement and connection at school. The summary data under this paragraph are separate from and must not be used for any purpose related to measuring or evaluating the performance of classroom teachers. The commissioner, in consultation with qualified experts on student engagement and connection and classroom teachers, must identify highly reliable variables that generate summary data under this paragraph. The summary data may be used at school, district, and state levels only. Any data on individuals received, collected, or created that are used to generate the summary data under this paragraph are nonpublic data under section 13.02, subdivision 9.

Subd. 4. Improving schools. Consistent with the requirements of this section, beginning June 20, 2012, the commissioner of education must establish a second achievement benchmark to identify improving schools. The commissioner must recommend to annually report to the public and the legislature by February 15, 2002, indicators in addition to the achievement benchmark for identifying improving schools, including an indicator requiring a school to demonstrate ongoing successful use of best teaching practices, the organizational and curricular practices implemented in those schools that demonstrate medium and high growth compared to the state growth target.

Subd. 5. Improving graduation rates for students with emotional or behavioral disorders. (a) A district must develop strategies in conjunction with parents of students with emotional or behavioral disorders and the county board responsible for implementing sections 245.487 to 245.4889 to keep students with emotional or behavioral disorders in school, when the district has a drop-out rate for students with an emotional or behavioral disorder in grades 9 through 12 exceeding 25 percent.

(b) A district must develop a plan in conjunction with parents of students with emotional or behavioral disorders and the local mental health authority to increase the graduation rates of students with emotional or behavioral disorders. A district with a drop-out rate for children with an emotional or behavioral disturbance in grades 9 through 12 that is in the top 25 percent of all districts shall submit a plan for review and oversight to the commissioner.
**EFFECTIVE DATE.** Subdivision 3, paragraph (b), applies to students in the 2008-2009 school year and later. Subdivision 3, paragraph (c), applies to students in the 2010-2011 school year and later. Subdivision 3, paragraph (d), applies to data that are collected in the 2010-2011 school year and later and reported annually beginning July 1, 2013, consistent with advice the commissioner receives from recognized and qualified experts on student engagement and connection and classroom teachers. Subdivision 4 applies in the 2011-2012 school year and later.

In order for an individual to be eligible for employment or to provide the services, the individual must provide an executed criminal history consent form and a money order or check payable to either the Bureau of Criminal Apprehension or the school hiring authority, at the discretion of the school hiring authority, in an amount equal to the actual cost to the Bureau of Criminal Apprehension and the school district of conducting the criminal history background check. A school hiring authority deciding to receive payment may, at its discretion, accept payment in the form of a negotiable instrument other than a money order or check and shall pay the superintendent of the Bureau of Criminal Apprehension directly to conduct the background check. The superintendent of the Bureau of Criminal Apprehension shall conduct the background check by retrieving criminal history data maintained in the criminal justice information system computers. A school hiring authority, at its discretion, may decide not to request a criminal history background check on an individual who holds an initial entrance license issued by the State Board of Teaching or the commissioner of education within the 12 months preceding an offer of employment.
(b) A school hiring authority may use the results of a criminal background check conducted at the request of another school hiring authority if:

(1) the results of the criminal background check are on file with the other school hiring authority or otherwise accessible;

(2) the other school hiring authority conducted a criminal background check within the previous 12 months;

(3) the individual who is the subject of the criminal background check executes a written consent form giving a school hiring authority access to the results of the check; and

(4) there is no reason to believe that the individual has committed an act subsequent to the check that would disqualify the individual for employment.

(c) A school hiring authority may, at its discretion, request a criminal history background check from the superintendent of the Bureau of Criminal Apprehension on any individual who seeks to enter a school or its grounds for the purpose of serving as a school volunteer or working as an independent contractor or student employee. In order for an individual to enter a school or its grounds under this paragraph when the school hiring authority decides to request a criminal history background check on the individual, the individual first must provide an executed criminal history consent form and a money order, check, or other negotiable instrument payable to the school district in an amount equal to the actual cost to the Bureau of Criminal Apprehension and the school district of conducting the criminal history background check. Notwithstanding section 299C.62, subdivision 1, the cost of the criminal history background check under this paragraph is the responsibility of the individual. A school hiring authority may decide to pay the cost of conducting a background check under this paragraph, in which case the individual who is the subject of the background check need not pay for the background check.

(d) For all nonstate residents who are offered employment in a school, a school hiring authority shall request a criminal history background check on such individuals from the superintendent of the Bureau of Criminal Apprehension and from the government agency performing the same function in the resident state or, if no government entity performs the same function in the resident state, from the Federal Bureau of Investigation. Such individuals must provide an executed criminal history consent form and a money order, check, or other negotiable instrument payable to the school hiring authority in an amount equal to the actual cost to the government agencies and the school district of conducting the criminal history background check. Notwithstanding section 299C.62, subdivision 1, the cost of the criminal history background check under this paragraph is the responsibility of the individual.

(e) At the beginning of each school year or when a student enrolls, a school hiring authority must notify parents and guardians about the school hiring authority's policy requiring a criminal history background check on employees and other individuals who provide services to the school, and identify those positions subject to a background check and the extent of the hiring authority's discretion in requiring a background check. The school hiring authority may include the notice in the student handbook, a school policy guide, or other similar communication. Nothing in this paragraph affects a school hiring authority's ability to request a criminal history background check on an individual under paragraph (c).

(d) Upon approval of the proposal, an agreement between the district and the site council shall be developed identifying the powers and duties delegated to the site and outlining the details of the proposal including the provisions of subdivisions 2, 3, and 5. Any powers or duties not specifically delegated to the school site in the agreement remains with the school board.

June 30 of a school year, for the payment periods occurring after the school ceases serving students, the commissioner shall withhold the estimated state aid owed the school. The charter school board of directors and authorizer must submit to the commissioner a closure plan under chapter 308A or 317A, and financial information about the school’s liabilities and assets. After receiving the closure plan, financial information, an audit of pupil counts, documentation of lease expenditures, and monitoring of special education expenditures, the commissioner may release cash withheld and may continue regular payments up to the current year payment percentages if further amounts are owed. If, based on audits and monitoring, the school received state aid in excess of the amount owed, the commissioner shall retain aid withheld sufficient to eliminate the aid overpayment. For a charter school ceasing operations prior to, or at the end of, a school year, notwithstanding section 127A.45, subdivision 3, preliminary final payments may be made after receiving the closure plan, audit of pupil counts, monitoring of special education expenditures, and documentation of lease expenditures, and school submission of Uniform Financial Accounting and Reporting Standards (UFARS) financial data for the final year of operation. Final payment may be made upon receipt of audited financial statements under section 123B.77, subdivision 3.

An interested state agency, school district, intermediate school district, or education cooperative shall notify the commissioner when a charter school fails to pay an undisputed invoice within 75 business days of when it received the original invoice.

(e) Notwithstanding section 127A.45, subdivision 3, and paragraph (a), 80 percent of the start-up cost aid under subdivision 8 shall be paid within 45 days after the first day of student attendance for that school year.

(f) In order to receive state aid payments under this subdivision, a charter school in its first three years of operation must submit a school calendar in the form and manner requested by the department and a quarterly report to the Department of Education. The report must list each student by grade, show the student’s start and end dates, if any, with the charter school, and for any student participating in a learning year program, the report must list the hours and times of learning year activities. The report must be submitted not more than two weeks after the end of the calendar quarter to the department. The department must develop a Web-based reporting form for charter schools to use when submitting enrollment reports. A charter school in its fourth and subsequent year of operation must submit a school calendar and enrollment information to the department in the form and manner requested by the department.

(4) for pupils generating more than one average daily membership in a given grade, an indication of which objectives were unmet.
The plan may be modified to conform to district schedule changes. The district may not modify the plan if the modification would result in delaying the student's time of graduation.

3. ensure that the program will not increase the total average daily membership generated by the student and that there will be the expectation that the students will be making typical progression towards high school graduation;
maintain a record system that shows when each credit or portion thereof was reported for membership for each pupil; and

report pupil membership consistent with paragraph (b).

(b) The commissioner must develop a formula for reporting pupil membership to compute average daily membership for each registered approved project-based school program. Average daily membership for a pupil in a registered an approved project-based program is the lesser of:

1. 1.0; or

2. the ratio of (i) the number of membership hours generated by project-based credits completed during the school year plus membership hours generated by credits completed in a seat-based setting to (ii) the annual required instructional hours at that grade level. Membership hours for a partially completed project-based credit must be prorated. General education revenue for a pupil in a project-based program must be prorated for a pupil participating for less than a full year, or its equivalent.

(c) For a program that has not been approved by the commissioner for project-based learning but an auditor or other site visit deems that any portion or credits awarded by the school are project-based, student membership must be computed according to paragraph (b).

Sec. 56. Minnesota Statutes 2008, section 126C.10, subdivision 34, is amended to read:

Subd. 34. Basic alternative teacher compensation aid. (a) For fiscal years 2007 and later, 2008, and 2009, the basic alternative teacher compensation aid for a school district with a plan approved under section 122A.414, subdivision 2b, equals 65.731% percent of the alternative teacher compensation revenue under section 122A.415, subdivision 1. The basic alternative teacher compensation aid for an intermediate school district or charter school with a plan approved under section 122A.414, subdivisions 2a and 2b, if the recipient is a charter school, equals $260 times the number of pupils enrolled in the school on October 1 of the previous fiscal year, or on October 1 of the current fiscal year for a charter school in the first year of operation, times the ratio of the sum of the alternative teacher compensation aid and alternative teacher compensation levy for all participating school districts to the maximum alternative teacher compensation revenue for those districts under section 122A.415, subdivision 1.

(b) For fiscal years 2010 and later, the basic alternative teacher compensation aid for a school with a plan approved under section 122A.414, subdivision 2b, equals 65 percent of the alternative teacher compensation revenue under section 122A.415, subdivision 1. The basic alternative teacher compensation aid for an intermediate school district or charter school with a plan approved under section 122A.414, subdivisions 2a and 2b, if the recipient is a charter school, equals $260 times the number of pupils enrolled in the school on October 1 of the previous year, or on October 1 of the current year for a charter school in the first year of operation, times the ratio of the sum of the alternative teacher compensation aid and alternative teacher compensation levy for all participating school districts to the maximum alternative teacher compensation revenue for those districts under section 122A.415, subdivision 1.

Notwithstanding paragraphs (a) and (b) and section 122A.415, subdivision 1, the state total basic alternative teacher compensation aid entitlement must not exceed $75,636,000 for fiscal year 2007 and later. Sec. 62. Minnesota Statutes 2008, section 471.975, is amended to read:

**471.975 MAY PAY DIFFERENTIAL OF RESERVE ON ACTIVE DUTY.**

(a) Except as provided in paragraph (b), a statutory or home rule charter city, county, town, or other political subdivision may pay to each eligible member of the National Guard or other reserve component of the armed forces of the United States an amount equal to the difference between the member's basic active duty military salary and the salary the member would be paid as an active political subdivision employee, including any adjustments the member would have received if not on leave of absence. This payment may be made only to a person whose basic active duty military salary is less than the salary the person would be paid as an active political subdivision employee. Back pay authorized by this section may be paid in a lump sum. Payment under this section must not extend beyond four years from the date the employee reported for active service, plus any additional time the employee may be legally required to serve.

(b) Subject to the limits under paragraph (g), each school district shall pay to each eligible member of the National Guard or other reserve component of the armed forces of the United States an amount equal to the difference between the member's basic active duty military salary and the salary the member would be paid as an active school district employee, including any adjustments the member would have received if not on leave of absence. The pay differential must be based on a comparison between the member's daily rate of active duty pay, calculated by dividing the member's salary by the number of paid days in the month, and the member's daily rate of pay for the member's school district salary, calculated by dividing the member's total school district salary by the number of contract days. The member's salary as a school district employee must include the member's basic salary and any additional salary the member earns from the school district for cocurricular and extracurricular activities. The differential payment under this paragraph must be the difference between the daily rates of military pay times the number of school district contract days the member misses because of military active duty. This payment may be made only to a person whose basic active duty military salary daily rate of active duty pay is less than the salary the person would be paid person's daily rate of pay as an active school district employee. Payments may be made at the intervals at which the member received pay as a school district employee. Payment under this section must not extend beyond four years from the date the employee reported for active service, plus any additional time the employee may be legally required to serve.

(c) An eligible member of the reserve components of the armed forces of the United States is a reservist or National Guard member who was an employee of a political subdivision at the time the member reported for active service on or after May 29, 2003, or who is on active service on May 29, 2003.
(d) Except as provided in paragraph (e) and elsewhere in Minnesota Statutes, a statutory or home rule charter city, county, town, or other political subdivision has total discretion regarding employee benefit continuation for a member who reports for active service and the terms and conditions of any benefit.

(e) A school district must continue the employee's enrollment in health and dental coverage, and the employer contribution toward that coverage, until the employee is covered by health and dental coverage provided by the armed forces. If the employee had elected dependent coverage for health or dental coverage as of the time that the employee reported for active service, a school district must offer the employee the option to continue the dependent coverage at the employee's own expense. A school district must permit the employee to continue participating in any pretax account in which the employee participated when the employee reported for active service, to the extent of employee pay available for that purpose.

(f) For purposes of this section, "active service" has the meaning given in section 190.05, subdivision 5, but excludes service performed exclusively for purposes of:

1. basic combat training, advanced individual training, annual training, and periodic inactive duty training;
2. special training periodically made available to reserve members; and
3. service performed in accordance with section 190.08, subdivision 3.

(g) A school district making payments under paragraph (b) shall place a sum equal to any difference between the amount of salary that would have been paid to the employee who is receiving the payments and the amount of salary being paid to substitutes for that employee into a special fund that must be used to pay or partially pay the deployed employee's payments under paragraph (b). A school district is required to pay only this amount to the deployed school district employee.

**EFFECTIVE DATE.** This section is effective the day following final enactment and applies to members of the National Guard and other reserve components of the United States armed forces serving in active military service on or after that date.

Sec. 63. IMPLEMENTING RIGOROUS COURSEWORK MEASURES RELATED TO STUDENT PERFORMANCE.

To implement the requirements of Minnesota Statutes, section 120B.35, subdivision 3, paragraph (c), clauses (1) and (2), and to help parents and members of the public better understand the reported data, the commissioner of education must convene a group of recognized and qualified experts and interested stakeholders, including parents and teachers among other stakeholders, to develop a model projecting anticipated performance of each high school on preparation and rigorous coursework measures that compares the school with similar schools. The model must use information about entering high school students based on particular background characteristics that are predictive of differing rates of college readiness. These characteristics include grade 8 achievement levels, high school student mobility, high school student attendance, and the size of each entering ninth grade class. The group of experts and stakeholders may examine other characteristics not part of the prediction model including the nine student categories identified under the federal 2001 No Child Left Behind Act, and two student gender categories of male and female, respectively. The commissioner annually must use the predicted level of entering students' performance to provide a context for interpreting graduating students' actual performance. The group convened under this section expires June 30, 2011.

**EFFECTIVE DATE.** This section is effective the day following final enactment and applies to school report cards beginning July 1, 2011.
Sec. 64. IMPLEMENTING MEASURES FOR ASSESSING SCHOOL SAFETY AND STUDENTS’ ENGAGEMENT AND CONNECTION AT SCHOOL.

(1) identify highly reliable variables of student engagement and connection that may include student attendance, home support for learning, and student participation in out-of-school activities, among other variables; and

(2) determine how to report "safety" in order to comply with federal law.

(b) The commissioner must submit a written report and all the group's working papers to the education committees of the house of representatives and senate by February 15, 2010, presenting the group's responses to paragraph (a), clauses (1) and (2). The commissioner must submit a second, related report to the education committees of the legislature by February 15, 2013, indicating the content and analysis of and the format for reporting the data collected in the 2010-2011 and 2011-2012 school years under Minnesota Statutes, section 120B.35, subdivision 3, paragraph (d). The group convened under this section expires December 31, 2013.

EFFECTIVE DATE. This section is effective the day following final enactment and applies to school report cards beginning July 1, 2013.

The advisory group at least must evaluate and make recommendations on:

(1) particular kinds of math and science exams that Minnesota might use as high stakes exams to award or deny students a high school diploma;

(2) appropriate levels of high school math and science proficiency and the educational support to help students achieve those proficiency levels;
(3) the relationship between math and science proficiency levels and state definitions of college and career readiness;

(4) the interrelationship between requiring students to demonstrate math and science proficiency and college or career readiness, and awarding or denying students a high school diploma;

(5) the interrelationship between high stakes testing and other coursework and credits required for graduation or college and career readiness; and

(6) appropriate accommodations for students with individualized education plans and students with limited English proficiency in some circumstances.

(b) The advisory group under paragraph (a) is not subject to Minnesota Statutes, section 15.059. The commissioner must include in the analysis the impact of demographic changes experienced at school sites and school districts involving students of color, students with limited English proficiency, and students who are homeless or highly mobile, as well as changes in immigration patterns and housing patterns experienced by schools and districts, and the availability of and districts' participation in interdistrict integration opportunities. Minnesota Statutes 2008, sections 120B.362; 120B.39; 122A.628; 122A.75; and 124D.091, are repealed.

**ARTICLE 3**

**SPECIAL PROGRAMS**

Section 1. Minnesota Statutes 2008, section 121A.41, subdivision 7, is amended to read:

Subd. 7. **Pupil.** (a) "Pupil" means any student:

(1) without a disability under 21 years of age; or

(2) with a disability until September 1 after the child with a disability becomes 22 years of age who has not received a regular high school diploma or for a child with a disability who becomes 21 years old during the school year but has not received a regular high school diploma, until the end of that school year;

(3) and who remains eligible to attend a public elementary or secondary school.

(b) A "student with a disability" or a "pupil with a disability" has the same meaning as a "child with a disability" under section 125A.02.

Sec. 2. Minnesota Statutes 2008, section 121A.41, subdivision 10, is amended to read:

Subd. 10. **Suspension.** "Suspension" means an action by the school administration, under rules promulgated by the school board, prohibiting a pupil from attending school for a period of no more than ten school days. If a suspension is longer than five days, the suspending administrator must provide the superintendent with a reason for
the longer suspension. This definition does not apply to dismissal from school for one school day or less, except as provided in federal law for a student with a disability. Each suspension action may include a readmission plan. The readmission plan shall include, where appropriate, a provision for implementing alternative educational services upon readmission and may not be used to extend the current suspension. Consistent with section 125A.091, subdivision 5, the readmission plan must not obligate a parent to provide a sympathomimetic medication for the parent’s child as a condition of readmission. The school administration may not impose consecutive suspensions against the same pupil for the same course of conduct, or incident of misconduct, except where the pupil will create an immediate and substantial danger to self or to surrounding persons or property, or where the district is in the process of initiating an expulsion, in which case the school administration may extend the suspension to a total of 15 school days. In the case of a student with a disability, the student’s individual education plan team must meet immediately but not more than ten school days after the date on which the decision to remove the student from the student’s current education placement is made. The individual education plan team and other qualified personnel shall at that meeting: conduct a review of the relationship between the child’s disability and the behavior subject to disciplinary action; and determine the appropriateness of the child’s education plan.

The requirements of the individual education plan team meeting apply when:

1. the parent requests a meeting;
2. the student is removed from the student’s current placement for five or more consecutive days; or
3. the student’s total days of removal from the student’s placement during the school year exceed ten cumulative days in a school year. The school administration shall implement alternative educational services when the suspension exceeds five days. A separate administrative conference is required for each period of suspension.

Sec. 3. Minnesota Statutes 2008, section 121A.43, is amended to read:

121A.43 EXCLUSION AND EXPULSION OF PUPILS WITH A DISABILITY.

(a) Consistent with federal law governing days of removal and section 121A.46, school personnel may suspend a child with a disability. When a child with a disability has been suspended for more than five consecutive school days or ten cumulative school days in the same school year, and that suspension does not involve a recommendation for expulsion or exclusion or other change of placement under federal law, relevant members of the child’s individualized education program team, including at least one of the child’s teachers, shall meet and determine the extent the child needs services in order to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals in the child’s individualized education program. That meeting must occur as soon as possible, but no more than ten days after the sixth consecutive day of suspension or the tenth cumulative day of suspension has elapsed.

(b) A dismissal for one school day or less is a day of suspension if the child with a disability does not receive regular or special education instruction during that dismissal period. The notice requirements under section 121A.46 do not apply to a dismissal of one day or less.

(c) A child with a disability shall be provided alternative educational services to the extent a suspension exceeds five consecutive school days.

(d) Before initiating an expulsion or exclusion under sections 121A.40 to 121A.56, the district, relevant members of the child’s individualized education program team, and the child’s parent shall, consistent with federal law, determine whether the child’s behavior was caused by or had a direct and substantial relationship to the child’s disability and whether the child’s conduct was a direct result of a failure to implement the child’s individualized education program. When a pupil child with a disability who has an individualized education plan
program is excluded or expelled under sections 121A.40 to 121A.56 for misbehavior that is not a manifestation of the pupil's child's disability, the district shall continue to provide special education and related services after a period of suspension, if suspension is imposed. The district shall initiate a review of the pupil's individual education plan and conduct a review of the relationship between the pupil's disability and the behavior subject to disciplinary action and determine the appropriateness of the pupil's education plan before commencing an expulsion or exclusion during the exclusion or expulsion.

Sec. 4. Minnesota Statutes 2008, section 122A.31, subdivision 4, is amended to read:

Subd. 4. Reimbursement. (a) For purposes of revenue under section 125A.78 125A.76, the Department of Education must only reimburse school districts for the services of those interpreters/transliterators who satisfy the standards of competency under this section.

(b) Notwithstanding paragraph (a), a district shall be reimbursed for the services of interpreters with a nonrenewable provisional certificate, interpreters/transliterators employed to mentor the provisional certified interpreters, and persons for whom a time-limited extension has been granted under subdivision 1, paragraph (d), or subdivision 2, paragraph (c).

Sec. 5. Minnesota Statutes 2008, section 125A.02, is amended to read:

125A.02 CHILD WITH A DISABILITY DEFINED.

Subdivision 1. Child with a disability. Every child who has "Child with a disability" means a child identified under federal and state special education law as having a hearing impairment, blindness, visual disability, speech or language impairment, physical disability, other health impairment, mental disability, emotional/behavioral disorder, specific learning disability, autism, traumatic brain injury, multiple disabilities, or deaf/blind disability and who needs special instruction and education and related services, as determined by the standards rules of the commissioner, is a child with a disability. A licensed physician, an advanced practice nurse, or a licensed psychologist is qualified to make a diagnosis and determination of attention deficit disorder or attention deficit hyperactivity disorder for purposes of identifying a child with a disability.

Subd. 1a. Children ages three through seven experiencing developmental delays. In addition, every child under age three, and at local district discretion from age three to age seven, who needs special instruction and services, as determined by the standards rules of the commissioner, because the child has a substantial delay or has an identifiable physical or mental condition known to hinder normal development is a child with a disability.

Subd. 2. Not a child with a disability. A child with a short-term or temporary physical or emotional illness or disability, as determined by the standards rules of the commissioner, is not a child with a disability.

Sec. 6. [125A.031] GENERAL SCHOOL DISTRICT OBLIGATIONS TO CHILDREN WITH DISABILITIES.

(a) Except as specifically provided in other law, the following requirements governing school district obligations to children with disabilities apply.

(b) A resident school district must identify, locate, and evaluate every child with a disability who is in need of special education and related services, including a child from birth to age 3.

(c) A resident school district must make available a free appropriate public education to:

(1) a child with a disability under 21 years old who has not received a regular high school diploma; and
(2) for the duration of the school year, a child with a disability who becomes 21 years old during that school year but has not received a regular high school diploma.

(d) The resident school district must ensure that a child with a disability who is enrolled in a nonpublic school or facility receives special education and related services, consistent with the child's individualized education program, at no cost to the child's parent if the district places the child in the nonpublic school or facility to meet the requirements of this section or applicable federal law.

(e) Consistent with the number of children with disabilities who are enrolled by their parents in a nonpublic school or facility located within a district, the district in which the nonpublic school or facility is located must ensure that those children have an opportunity to participate in special education and related services and that the amount the district spends to provide such services must be at least equal to the proportionate amount of federal funds made available under this chapter.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 7. Minnesota Statutes 2008, section 125A.07, is amended to read:

**125A.07 RULES OF COMMISSIONER RULEMAKING.**

(a) As defined in Consistent with this paragraph section, the commissioner shall adopt new rules and amend existing rules relative to qualifications of essential personnel, courses of study, methods of instruction, pupil eligibility, size of classes, rooms, equipment, supervision, parent consultation, and other necessary rules for instruction of children with a disability. These rules must provide standards and procedures appropriate for the implementation of and within the limitations of sections 125A.08 and 125A.091. These rules must also provide standards for the discipline, control, management, and protection of children with a disability. The commissioner must not adopt rules for pupils served primarily in the regular classroom establishing either case loads or the maximum number of pupils that may be assigned to special education teachers. The commissioner, in consultation with the Departments of Health and Human Services, must adopt permanent rules for instruction and services for children under age five and their families. These rules are binding on state and local education, health, and human services agencies. The commissioner must adopt rules to determine eligibility for special education services. The rules must include procedures and standards by which to grant variances for experimental eligibility criteria. The commissioner must, according to section 14.05, subdivision 4, notify a district applying for a variance from the rules within 45 calendar days of receiving the request whether the request for the variance has been granted or denied. If a request is denied, the commissioner must specify the program standards used to evaluate the request and the reasons for denying the request related to children with disabilities only under specific authority and consistent with the requirements of chapter 14 and paragraph (c).

(b) As provided in this paragraph, the state's regulatory scheme should support schools by assuring that all state special education rules adopted by the commissioner result in one or more of the following outcomes:

(1) increased time available to teachers and, where appropriate, to support staff including school nurses for educating students through direct and indirect instruction;

(2) consistent and uniform access to effective education programs for students with disabilities throughout the state;

(3) reduced inequalities and conflict, appropriate due process hearing procedures and reduced court actions related to the delivery of special education instruction and services for students with disabilities;

(4) clear expectations for service providers and for students with disabilities;
increased accountability for all individuals and agencies that provide instruction and other services to students with disabilities;

(6) greater focus for the state and local resources dedicated to educating students with disabilities; and

(7) clearer standards for evaluating the effectiveness of education and support services for students with disabilities.

c. Subject to chapter 14, the commissioner may adopt, amend, or rescind a rule related to children with disabilities if such action is specifically required by federal law.

Sec. 8. Minnesota Statutes 2008, section 125A.08, is amended to read:

125A.08 SCHOOL DISTRICT OBLIGATIONS INDIVIDUALIZED EDUCATION PROGRAMS.

(a) At the beginning of each school year, each school district shall have in effect, for each child with a disability, an individualized education program.

(b) As defined in this section, every district must ensure the following:

(1) all students with disabilities are provided the special instruction and services which are appropriate to their needs. Where the individual education plan team has determined appropriate goals and objectives based on the student's needs, including the extent to which the student can be included in the least restrictive environment, and where there are essentially equivalent and effective instruction, related services, or assistive technology devices available to meet the student's needs, cost to the district may be among the factors considered by the team in choosing how to provide the appropriate services, instruction, or devices that are to be made part of the student's individual education plan. The individual education plan team shall consider and may authorize services covered by medical assistance according to section 256B.0625, subdivision 26. The student's needs and the special education instruction and services to be provided must be agreed upon through the development of an individual education plan. The plan must address the student's need to develop skills to live and work as independently as possible within the community. The individual education plan team must consider positive behavioral interventions, strategies, and supports that address behavior for children with attention deficit disorder or attention deficit hyperactivity disorder. During grade 9 or age 14, the plan must address the student's needs for transition from secondary services to postsecondary education and training, employment, community participation, recreation, and leisure and home living. In developing the plan, districts must inform parents of the full range of transitional goals and related services that should be considered. The plan must include a statement of the needed transition services, including a statement of the interagency responsibilities or linkages or both before secondary services are concluded;

(2) children with a disability under age five and their families are provided special instruction and services appropriate to the child's level of functioning and needs;

(3) children with a disability and their parents or guardians are guaranteed procedural safeguards and the right to participate in decisions involving identification, assessment including assistive technology assessment, and educational placement of children with a disability;

(4) eligibility and needs of children with a disability are determined by an initial assessment or reassessment, which may be completed using existing data under United States Code, title 20, section 33, et seq.;

(5) to the maximum extent appropriate, children with a disability, including those in public or private institutions or other care facilities, are educated with children who are not disabled, and that special classes, separate schooling, or other removal of children with a disability from the regular educational environment occurs only when and to the extent that the nature or severity of the disability is such that education in regular classes with the use of supplementary services cannot be achieved satisfactorily;
(6) in accordance with recognized professional standards, testing and evaluation materials, and procedures used for the purposes of classification and placement of children with a disability are selected and administered so as not to be racially or culturally discriminatory; and

(7) the rights of the child are protected when the parents or guardians are not known or not available, or the child is a ward of the state.

(b) (c) For paraprofessionals employed to work in programs for students with disabilities, the school board in each district shall ensure that:

(1) before or immediately upon employment, each paraprofessional develops sufficient knowledge and skills in emergency procedures, building orientation, roles and responsibilities, confidentiality, vulnerability, and reportability, among other things, to begin meeting the needs of the students with whom the paraprofessional works;

(2) annual training opportunities are available to enable the paraprofessional to continue to further develop the knowledge and skills that are specific to the students with whom the paraprofessional works, including understanding disabilities, following lesson plans, and implementing follow-up instructional procedures and activities; and

(3) a districtwide process obligates each paraprofessional to work under the ongoing direction of a licensed teacher and, where appropriate and possible, the supervision of a school nurse.

Sec. 9. Minnesota Statutes 2008, section 125A.091, is amended to read:

125A.091 ALTERNATIVE DISPUTE RESOLUTION AND DUE PROCESS HEARINGS.

Subd. 1. District obligation. A school district must use the procedures in federal law and state law and rule to reach decisions about the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability.

Subd. 2. Prior written notice. A parent must receive prior written notice a reasonable time before the district proposes or refuses to initiate or change the identification, evaluation, educational placement, or the provision of a free appropriate public education to a child with a disability.

Subd. 3. Content of notice. The notice under subdivision 2 must:

(1) describe the action the district proposes or refuses;

(2) explain why the district proposes or refuses to take the action;

(3) describe any other option the district considered and the reason why it rejected the option;

(4) describe each evaluation procedure, test, record, or report the district used as a basis for the proposed or refused action;

(5) describe any other factor affecting the proposal or refusal of the district to take the action;

(6) state that the parent of a child with a disability is protected by procedural safeguards and, if this notice is not an initial referral for evaluation, how a parent can get a description of the procedural safeguards; and
identify where a parent can get help in understanding this law.

**Subd. 3a. Additional requirements for prior written notice.** In addition to federal law requirements, a prior written notice shall:

1. inform the parent that except for the initial placement of a child in special education, the school district will proceed with its proposal for the child's placement or for providing special education services unless the child’s parent notifies the district of an objection within 14 days of when the district sends the prior written notice to the parent; and

2. state that a parent who objects to a proposal or refusal in the prior written notice may request a conciliation conference under subdivision 7 or another alternative dispute resolution procedure under subdivision 8 or 9.

**Subd. 4. Understandable notice.** (a) The written notice under subdivision 2 must be understandable to the general public and available in the parent's native language or by another communication form, unless it is clearly not feasible to do so.

(b) If the parent's native language or other communication form is not written, the district must take steps to ensure that:

1. the notice is translated orally or by other means to the parent in the parent's native language or other communication form;

2. the parent understands the notice; and

3. written evidence indicates the requirements in subdivision 2 are met.

**Subd. 5. Initial action; parent consent.** (a) The district must not proceed with the initial evaluation of a child, the initial placement of a child in a special education program, or the initial provision of special education services for a child without the prior written consent of the child’s parent. A district may not override the written refusal of a parent to consent to an initial evaluation or reevaluation.

(b) A parent, after consulting with health care, education, or other professional providers, may agree or disagree to provide the parent's child with sympathomimetic medications unless section 144.344 applies.

**Subd. 6. Dispute resolution processes; generally.** Parties are encouraged to resolve disputes over the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability through conciliation, mediation, facilitated team meetings, or other alternative process. All dispute resolution options are voluntary on the part of the parent and must not be used to deny or delay the right to a due process hearing. All dispute resolution processes under this section are provided at no cost to the parent.

**Subd. 7. Conciliation conference.** A parent must have an opportunity to meet with appropriate district staff in at least one conciliation conference if the parent objects to any proposal of which the parent receives notice under subdivision 2. If the parent refuses district efforts to conciliate the dispute, the conciliation requirement is satisfied. Following a conciliation conference A district must hold a conciliation conference within ten calendar days from the date the district receives a parent's objection to a proposal or refusal in the prior written notice. Except as provided in this section, all discussions held during a conciliation conference are confidential and are not admissible in a due process hearing. Within five school days after the final conciliation conference, the district must prepare and provide to the parent a conciliation conference memorandum that describes the district's final proposed offer of service. This memorandum is admissible in evidence in any subsequent proceeding.
Subd. 8. Voluntary dispute resolution options. In addition to offering at least one conciliation conference, a district must inform a parent of other dispute resolution processes, including at least mediation and facilitated team meetings. The fact that an alternative dispute resolution process was used is admissible in evidence at any subsequent proceeding. State-provided mediators and team meeting facilitators shall not be subpoenaed to testify at a due process hearing or civil action under federal special education law nor are any records of mediators or state-provided team meeting facilitators accessible to the parties.

Subd. 9. Mediation. Mediation is a dispute resolution process that involves a neutral party provided by the state to assist a parent and a district in resolving disputes over the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability. A mediation process is available as an informal alternative to a due process hearing but must not be used to deny or postpone the opportunity of a parent or district to obtain a due process hearing. Mediation is voluntary for all parties. All mediation discussions are confidential and inadmissible in evidence in any subsequent proceeding, unless the:

(1) parties expressly agree otherwise;

(2) evidence is otherwise available; or

(3) evidence is offered to prove bias or prejudice of a witness.

Subd. 10. Mediated agreements. Mediated agreements are not admissible unless the parties agree otherwise or a party to the agreement believes the agreement is not being implemented, in which case the aggrieved party may enter the agreement into evidence at a due process hearing. The parties may request another mediation to resolve a dispute over implementing the mediated agreement. After a due process hearing is requested, a party may request mediation and the commissioner must provide a mediator who conducts a mediation session no later than the third business day after the mediation request is made to the commissioner. If the parties resolve all or a portion of the dispute, or agree to use another procedure to resolve the dispute, the mediator shall ensure that the resolution or agreement is in writing and signed by the parties and each party is given a copy of the document. The written resolution or agreement shall state that all discussions that occurred during mediation are confidential and may not be used as evidence in any hearing or civil proceeding. The resolution or agreement is legally binding upon the parties and is enforceable in the state or federal district court. A party may request another mediation to resolve a dispute over implementing the mediated agreement.

Subd. 11. Facilitated team meeting. A facilitated team meeting is an IEP, IFSP, or IIIP team meeting led by an impartial state-provided facilitator to promote effective communication and assist a team in developing an individualized education plan.

Subd. 12. Impartial due process hearing. (a) A parent or a district is entitled to an impartial due process hearing conducted by the state when a dispute arises over the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability. The hearing must be held in the district responsible for ensuring that a free appropriate public education is provided according to state and federal law. The proceedings must be recorded and preserved, at state expense, pending ultimate disposition of the action. The parent and the district shall receive, at state expense, a copy of the hearing transcript or recording and the hearing officer’s findings of fact, conclusion of law, and decisions.

(b) The due process hearing must be conducted according to the rules of the commissioner and federal law.
Subd. 13. Hearing officer qualifications. The commissioner must appoint an individual who is qualified under this subdivision to serve as a hearing officer. The commissioner shall maintain a list of qualified hearing officers who are not employees of or otherwise under contract with the department or the school district except when under contract with the department as a hearing officer, and who do not have a personal or professional interest that conflicts with their objectivity when serving as hearing officers in hearings under this section. The list shall include a statement of the qualifications of each person listed. A hearing officer must know and understand state and federal special education laws, rules, and regulations, and legal interpretations by federal and state courts. A hearing officer also must have the knowledge and ability to conduct hearings and render and write decisions according to appropriate, standard legal practice. Upon receipt of a written request for a hearing, the commissioner shall appoint a hearing officer from the list. The hearing officer must:

1. be knowledgeable and impartial;
2. have no personal interest in or specific involvement with the student who is a party to the hearing;
3. not have been employed as an administrator by the district that is a party to the hearing;
4. not have been involved in selecting the district administrator who is a party to the hearing;
5. have no personal, economic, or professional interest in the outcome of the hearing other than properly administering federal and state laws, rules, and policies;
6. have no substantial involvement in developing state or local policies or procedures challenged in the hearing;
7. not be a current employee or board member of a Minnesota public school district, education district, intermediate unit or regional education agency, or the department if the department is the service provider; and
8. not be a current employee or board member of a disability advocacy organization or group.

Subd. 14. Request for hearing. A request for a due process hearing must:

1. be in writing;
2. describe the nature of the dispute about providing special education services to the student including facts relating to the dispute; and
3. state, to the extent known, the relief sought.

Any school district administrator receiving a request for a due process hearing must immediately forward the request to the commissioner. Within two business days of receiving a request for a due process hearing, the commissioner must appoint a hearing officer. The commissioner must not deny a request for hearing because the request is incomplete. A party may disqualify a hearing officer only by affirmatively showing prejudice or bias to the commissioner or to the chief administrative law judge if the hearing officer is an administrative law judge. If a party affirmatively shows prejudice against a hearing officer, the commissioner must assign another hearing officer to hear the matter. (a) A parent or a school district may file a written request for a due process hearing regarding a proposal or refusal to initiate or change that child's evaluation, individualized education program, or educational placement, or to provide a free appropriate public education.

(b) The parent shall include in the hearing request the name of the child, the address of the child's residence, the name of the school the child attends, a description of the child's problem relating to the proposed or refused initiation or change, including facts relating to the problem, and a proposed resolution of the problem to the extent known and available to the parents at the time.
(c) A parent or a school district may file a written request for a hearing under United States Code, title 20, section 1415, paragraph (k).

(d) A parent or school district filing a request for a hearing under this subdivision must provide the request to the other party and a copy of the request to the department. Upon receiving a request for a hearing, the department shall give to the child's parent a copy of the procedural safeguards notice available to a parent under federal regulations.

(e)(1) If the parent of a child with a disability files a written request for a hearing, and the school district has not previously sent a written notice to the parent under subdivision 3a, regarding the subject matter of the hearing request, the school district shall, within ten days of receiving the hearing request, send to the child's parent a written explanation of why the school district proposed or refused to take the action raised in the hearing request, a description of other options that the individualized education program team considered and the reason why those options were rejected, a description of each evaluation procedure, assessment, record, or report that the school district used as the basis for the proposed or refused action, and a description of the factors that are relevant to the school district's proposal or refusal. A response by a school district under this subdivision does not preclude the school district from asserting that the parent's request for a hearing is insufficient under clause (2).

(2) A hearing may not occur until the party requesting the hearing files a request that meets the requirements of paragraph (b). The request under paragraph (b) is considered sufficient unless the party receiving the request notifies the hearing officer and the other party in writing within 15 days of receiving the request that the receiving party believes the request does not meet the requirements of paragraph (b). Within five days of receiving a notice under this subdivision, the hearing officer shall determine whether the request meets the requirements under paragraph (b) and notify the parties.

(f) Except as provided in paragraph (e), clause (1), the party receiving a request for a hearing shall send to the party requesting the hearing a written response that addresses the issues raised in the hearing request within ten days of receiving the request.

Subd. 15. Prehearing conference. A prehearing conference must be held within five business days of the date the commissioner appoints the hearing officer. The hearing officer must initiate the prehearing conference which may be conducted in person, at a location within the district, or by telephone. The hearing officer must create a written verbatim record of the prehearing conference which is available to either party upon request. At the prehearing conference, the hearing officer must:

(1) identify the questions that must be answered to resolve the dispute and eliminate claims and complaints that are without merit;

(2) set a scheduling order for the hearing and additional prehearing activities;

(3) determine if the hearing can be disposed of without an evidentiary hearing and, if so, establish the schedule and procedure for doing so; and

(4) establish the management, control, and location of the hearing to ensure its fair, efficient, and effective disposition.

Subd. 16. Burden of proof. The burden of proof at a due process hearing is on the district to demonstrate, by a preponderance of the evidence, that it is complying with the law and offered or provided a free appropriate public education to the child in the least restrictive environment. If the district has not offered or provided a free appropriate public education in the least restrictive environment and the parent wants the district to pay for a private placement, the burden of proof is on the parent to demonstrate, by a preponderance of the evidence, that the private placement is appropriate party seeking relief.
Subd. 17. Admissible evidence. The hearing officer may admit all evidence that possesses probative value, including hearsay, if it is the type of evidence on which reasonable, prudent persons are accustomed to rely in conducting their serious affairs. The hearing officer must give effect to the rules of privilege recognized by law and exclude evidence that is incompetent, irrelevant, immaterial, or unduly repetitious.

Subd. 18. Hearing officer authority. (a) A hearing officer must limit an impartial due process hearing to the time sufficient for each party to present its case.

(b) A hearing officer must establish and maintain control and manage the hearing. This authority includes, but is not limited to:

(1) requiring attorneys representing parties at the hearing, after notice and an opportunity to be heard, to pay court reporting and hearing officer costs, or fines payable to the state, for failing to: (i) obey scheduling or prehearing orders, (ii) appear, (iii) be prepared, or (iv) participate in the hearing process in good faith;

(2) administering oaths and affirmations;

(3) issuing subpoenas;

(4) determining the responsible and providing districts and joining those districts, if not already notified, in the proceedings;

(5) making decisions involving identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability; and

(6) ordering an independent educational evaluation of a child at district expense; and

(7) extending the hearing decision timeline for good cause shown.

(c) Good cause includes, but is not limited to, the time required for mediation or other settlement discussions, independent educational evaluation, complexity and volume of issues, or finding or changing counsel.

Subd. 19. Expedited due process hearings. Consistent with federal law, a parent has the right to or a school district may file a written request for an expedited due process hearing when there is a dispute over a manifestation determination or a proposed or actual placement in an interim alternative educational setting. A district has the right to an expedited due process hearing when proposing or seeking to maintain placement in an interim alternative educational setting. A hearing officer must hold an expedited due process hearing within 20 school days of the date the expedited due process request is filed and must issue a decision within ten calendar school days of after the request for a hearing. A hearing officer may extend by up to five additional calendar days the time for issuing a decision in an expedited due process hearing. All policies in this section apply to expedited due process hearings to the extent they do not conflict with federal law. A resolution meeting must occur within seven days of receiving the request for an expedited due process hearing unless the parent and the school district agree in writing either to waive the resolution meeting or use the mediation process. The expedited due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of receiving the expedited due process hearing request.

Subd. 20. Hearing officer’s decision; time period. (a) The hearing officer must issue a decision within 45 calendar days of the date on which the commissioner receives the request for a due process hearing ensure that not later than 45 days after the 30-day period or the adjusted time periods under federal regulations expire, the hearing officer reaches a final decision in the due process hearing and transmits a copy of the decision to each party. A
hearing officer, at the request of either party, may grant specific extensions of time beyond the 45-day period under subdivision 18. The hearing officer must conduct the oral arguments in a hearing at a time and place that is reasonably convenient to the parents and child involved. A hearing officer is encouraged to accelerate the time line to 30 days for a child under the age of three whose needs change rapidly and who requires quick resolution of a dispute. A hearing officer may not extend the time beyond the 45-day period unless requested by either party for good cause shown on the record. Extensions of time must not exceed a total of 30 calendar days unless both parties and the hearing officer agree or time is needed to complete an independent educational evaluation. Good cause includes, but is not limited to, the time required for mediation or other settlement discussions, independent educational evaluation, complexity and volume of issues, or finding or changing counsel.

(b) The hearing officer's decision must:

(1) be in writing;

(2) state the controlling and material facts upon which the decision is made in order to apprise the reader of the basis and reason for the decision; and

(3) be based on local standards, state statute, the rules of the commissioner, and federal law.

(b) Once the hearing officer has issued a final decision, the hearing officer lacks authority to amend the decision except for clerical or mathematical errors.

(c) Nothing in this subdivision precludes a hearing officer from ordering a school district to comply with federal procedural safeguards under the federal Individuals with Disabilities Education Act.

Subd. 21. Compensatory educational services. The hearing officer may require the resident or responsible district to provide compensatory educational services to the child if the hearing officer finds that the district has not offered or made available to the child a free appropriate public education in the least restrictive environment and the child suffered a loss of educational benefit. Such services take the form of direct and indirect special education and related services designed to address any loss of educational benefit that may have occurred. The hearing officer's finding must be based on a present determination of whether the child has suffered a loss of educational benefit.

Subd. 22. Child's educational placement during due process hearing. (a) Until a due process hearing under this section is completed or the district and the parent agree otherwise, the child must remain in the child's current educational placement and must not be denied initial admission to school.

(b) Until an expedited due process hearing challenging an interim alternative educational placement is completed, the child must remain in the interim alternative educational setting until the decision of the hearing officer or the expiration of the 45 days permitted for an interim alternative educational setting, whichever occurs first, unless the parent and district agree otherwise.

Subd. 23. Implementation of hearing officer order. (a) That portion of a hearing officer's decision granting relief requested by the parent must be implemented upon issuance.

(b) Except as provided under paragraph (a) or the district and parent agree otherwise, following a hearing officer's decision granting relief requested by the district, the child must remain in the current educational placement until the time to request judicial review under subdivision 24 expires or, if judicial review is requested, at the time the Minnesota Court of Appeals or the federal district court issues its decision, whichever is later.

Subd. 24. Review of hearing officer decisions. The parent or district may seek review of the hearing officer's decision in the Minnesota Court of Appeals or in the federal district court, consistent with federal law. A party must appeal to the Minnesota Court of Appeals within 60 days of receiving the hearing officer's decision or must appeal to federal district court within 90 days of receiving the hearing officer's decision.
Subd. 25. **Enforcement of orders.** The commissioner must monitor final hearing officer decisions and ensure enforcement of hearing officer orders.

Subd. 26. **Hearing officer and person conducting alternative dispute resolution are state employees.** A hearing officer or person conducting alternative dispute resolution under this section is an employee of the state under section 3.732 for purposes of section 3.736 only.

Subd. 27. **Hearing officer training.** A hearing officer must participate in training and follow procedures established offered by the commissioner.

Subd. 28. **District liability.** A district is not liable for harmless technical violations of this section or rules implementing this section, federal or state laws, rules, or regulations governing special education if the school district can demonstrate on a case-by-case basis that the violations did not harm a student's educational progress or the parent's right to notice, participation, or due process. This subdivision is applicable to due process hearings and special education complaints filed with the department.

Sec. 10. **[125A.094] RESTRICTIVE PROCEDURES FOR CHILDREN WITH DISABILITIES.**

The use of restrictive procedures for children with disabilities is governed by sections 125A.0941 and 125A.0942.

**EFFECTIVE DATE.** This section is effective August 1, 2011.

Sec. 11. **[125A.0941] DEFINITIONS.**

(a) The following terms have the meanings given them.

(b) "Emergency" means a situation where immediate intervention is needed to protect a child or other individual from physical injury or to prevent serious property damage.

(c) "Physical holding" means physical intervention intended to hold a child immobile or limit a child's movement and where body contact is the only source of physical restraint. The term physical holding does not mean physical contact that:

(1) helps a child respond or complete a task;

(2) assists a child without restricting the child's movement;

(3) is needed to administer an authorized health-related service or procedure; or

(4) is needed to physically escort a child when the child does not resist or the child's resistance is minimal.

(d) "Positive behavioral interventions and supports" means interventions and strategies to improve the school environment and teach children the skills to behave appropriately.

(e) "Restrictive procedures" means the use of physical holding or seclusion in an emergency.

(f) "Seclusion" means confining a child alone in a room from which egress is barred. Removing a child from an activity to a location where the child cannot participate in or observe the activity is not seclusion.

**EFFECTIVE DATE.** This section is effective August 1, 2011.
Sec. 12. [125A.0942] STANDARDS FOR RESTRICTIVE PROCEDURES.

Subdivision 1. Restrictive procedures plan. Schools that intend to use restrictive procedures shall maintain and make publicly accessible a restrictive procedures plan for children that includes at least the following:

(1) the list of restrictive procedures the school intends to use;

(2) how the school will monitor and review the use of restrictive procedures, including conducting post-use debriefings and convening an oversight committee; and

(3) a written description and documentation of the training staff completed under subdivision 5.

Subd. 2. Restrictive procedures. (a) Restrictive procedures may be used only by a licensed special education teacher, school social worker, school psychologist, behavior analyst certified by the National Behavior Analyst Certification Board, a person with a master's degree in behavior analysis, other licensed education professional, paraprofessional under section 120B.363, or mental health professional under section 245.4871, subdivision 27, who has completed the training program under subdivision 5.

(b) A school shall make reasonable efforts to notify the parent on the same day a restrictive procedure is used on the child, or if the school is unable to provide same-day notice, notice is sent within two days by written or electronic means or as otherwise indicated by the child's parent under paragraph (d).

(c) When restrictive procedures are used twice in 30 days or when a pattern emerges and restrictive procedures are not included in a child's individualized education program or behavior intervention plan, the district must hold a meeting of the individualized education plan team, conduct or review a functional behavioral analysis, review data, consider developing additional or revised positive behavioral interventions and supports, consider actions to reduce the use of restrictive procedures, and modify the individualized education plan or behavior intervention plan as appropriate. At the meeting, the team must review any known medical or psychological limitations that contraindicate the use of a restrictive procedure, consider whether to prohibit that restrictive procedure, and document any prohibition in the individualized education program or behavior intervention plan.

(d) An individualized education plan team may plan for using restrictive procedures and may include these procedures in a child's individualized education program or behavior intervention plan; however, the restrictive procedures may be used only in response to behavior that constitutes an emergency, consistent with this section. The individualized education program or behavior intervention plan shall indicate how the parent wants to be notified when a restrictive procedure is used.

Subd. 3. Physical holding or seclusion. Physical holding or seclusion may be used only in an emergency. A school that uses physical holding or seclusion shall meet the following requirements:

(1) the physical holding or seclusion must be the least intrusive intervention that effectively responds to the emergency;

(2) physical holding or seclusion must end when the threat of harm ends and the staff determines that the child can safely return to the classroom or activity;

(3) staff must directly observe the child while physical holding or seclusion is being used;

(4) each time physical holding or seclusion is used, the staff person who implements or oversees the physical holding or seclusion shall document, as soon as possible after the incident concludes, the following information:
(i) a description of the incident that led to the physical holding or seclusion;

(ii) why a less restrictive measure failed or was determined by staff to be inappropriate or impractical;

(iii) the time the physical holding or seclusion began and the time the child was released; and

(iv) a brief record of the child's behavioral and physical status;

(5) the room used for seclusion must:

(i) be at least six feet by five feet;

(ii) be well lit, well ventilated, adequately heated, and clean;

(iii) have a window that allows staff to directly observe a child in seclusion;

(iv) have tamperproof fixtures, electrical switches located immediately outside the door, and secure ceilings;

(v) have doors that open out and are unlocked, locked with keyless locks that have immediate release mechanisms, or locked with locks that have immediate release mechanisms connected with a fire and emergency system; and

(vi) not contain objects that a child may use to injure the child or others; and

(6) before using a room for seclusion, a school must:

(i) receive written notice from local authorities that the room and the locking mechanisms comply with applicable building, fire, and safety codes; and

(ii) register the room with the commissioner, who may view that room.

Subd. 4. **Prohibitions.** The following actions or procedures are prohibited:

(1) engaging in conduct prohibited under section 121A.58;

(2) requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain;

(3) totally or partially restricting a child's senses as punishment;

(4) presenting an intense sound, light, or other sensory stimuli using smell, taste, substance, or spray as punishment;

(5) denying or restricting a child's access to equipment and devices such as walkers, wheelchairs, hearing aids, and communication boards that facilitate the child's functioning, except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible;

(6) interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under section 626.556;
(7) withholding regularly scheduled meals or water;

(8) denying access to bathroom facilities; and

(9) physical holding that restricts or impairs a child's ability to breathe.

Subd. 5. Training for staff. (a) To meet the requirements of subdivision 1, staff who use restrictive procedures shall complete training in the following skills and knowledge areas:

(1) positive behavioral interventions;

(2) communicative intent of behaviors;

(3) relationship building;

(4) alternatives to restrictive procedures, including techniques to identify events and environmental factors that may escalate behavior;

(5) de-escalation methods;

(6) standards for using restrictive procedures;

(7) obtaining emergency medical assistance;

(8) the physiological and psychological impact of physical holding and seclusion;

(9) monitoring and responding to a child's physical signs of distress when physical holding is being used; and

(10) recognizing the symptoms of and interventions that may cause positional asphyxia when physical holding is used.

(b) The commissioner, after consulting with the commissioner of human services, must develop and maintain a list of training programs that satisfy the requirements of paragraph (a). The district shall maintain records of staff who have been trained and the organization or professional that conducted the training. The district may collaborate with children's community mental health providers to coordinate trainings.

Subd. 6. Behavior supports. School districts are encouraged to establish effective schoolwide systems of positive behavior interventions and supports. Nothing in this section or section 125A.0941 precludes the use of reasonable force under sections 121A.582; 609.06, subdivision 1; and 609.379.

EFFECTIVE DATE. This section is effective August 1, 2011.

Sec. 13. Minnesota Statutes 2008, section 125A.15, is amended to read:

125A.15 PLACEMENT IN ANOTHER DISTRICT; RESPONSIBILITY.

The responsibility for special instruction and services for a child with a disability temporarily placed in another district for care and treatment shall be determined in the following manner:

(a) The district of residence of a child shall be the district in which the child's parent resides, if living, or the child's guardian, or the district designated by the commissioner if neither parent nor guardian is living within the state.
(b) If a district other than the resident district places a pupil for care and treatment, the district placing the pupil must notify and give the resident district an opportunity to participate in the placement decision. When an immediate emergency placement of a pupil is necessary and time constraints foreclose a resident district from participating in the emergency placement decision, the district in which the pupil is temporarily placed must notify the resident district of the emergency placement within 15 days. The resident district has up to five business days after receiving notice of the emergency placement to request an opportunity to participate in the placement decision, which the placing district must then provide.

(c) When a child is temporarily placed for care and treatment in a day program located in another district and the child continues to live within the district of residence during the care and treatment, the district of residence is responsible for providing transportation to and from the care and treatment facility program and an appropriate educational program for the child. The resident district may establish reasonable restrictions on transportation, except if a Minnesota court or agency orders the child placed at a day care and treatment program and the resident district receives a copy of the order, then the resident district must provide transportation to and from the program unless the court or agency orders otherwise. Transportation shall only be provided by the resident district during regular operating hours of the resident district. The resident district may provide the educational program at a school within the district of residence, at the child’s residence, or in the district in which the day treatment center is located by paying tuition to that district.

(d) When a child is temporarily placed in a residential program for care and treatment, the nonresident district in which the child is placed is responsible for providing an appropriate educational program for the child and necessary transportation while the child is attending the educational program; and must bill the district of the child’s residence for the actual cost of providing the program, as outlined in section 125A.11, except as provided in paragraph (e). However, the board, lodging, and treatment costs incurred in behalf of a child with a disability placed outside of the school district of residence by the commissioner of human services or the commissioner of corrections or their agents, for reasons other than providing for the child’s special educational needs must not become the responsibility of either the district providing the instruction or the district of the child’s residence. For the purposes of this section, the state correctional facilities operated on a fee-for-service basis are considered to be residential programs for care and treatment.

(e) A privately owned and operated residential facility may enter into a contract to obtain appropriate educational programs for special education children and services with a joint powers entity. The entity with which the private facility contracts for special education services shall be the district responsible for providing students placed in that facility an appropriate educational program in place of the district in which the facility is located. If a privately owned and operated residential facility does not enter into a contract under this paragraph, then paragraph (d) applies.

(f) The district of residence shall pay tuition and other program costs, not including transportation costs, to the district providing the instruction and services. The district of residence may claim general education aid for the child as provided by law. Transportation costs must be paid by the district responsible for providing the transportation and the state must pay transportation aid to that district.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 14. Minnesota Statutes 2008, section 125A.28, is amended to read:

125A.28 STATE INTERAGENCY COORDINATING COUNCIL.

An Interagency Coordinating Council of at least 17, but not more than 25 members is established, in compliance with Public Law 108-446, section 641. The members must be appointed by the governor. Council members must elect the council chair. The representative of the commissioner may not serve as the chair. The council must be
composed of at least five parents, including persons of color, of children with disabilities under age 12, including at least three parents of a child with a disability under age seven, five representatives of public or private providers of services for children with disabilities under age five, including a special education director, county social service director, local Head Start director, and a community health services or public health nursing administrator, one member of the senate, one member of the house of representatives, one representative of teacher preparation programs in early childhood-special education or other preparation programs in early childhood intervention, at least one representative of advocacy organizations for children with disabilities under age five, one physician who cares for young children with special health care needs, one representative each from the commissioners of commerce, education, health, human services, a representative from the state agency responsible for child care, foster care, mental health, homeless coordinator of education of homeless children and youth, and a representative from Indian health services or a tribal council. Section 15.059, subdivisions 2 to 5, apply to the council. The council must meet at least quarterly.

The council must address methods of implementing the state policy of developing and implementing comprehensive, coordinated, multidisciplinary interagency programs of early intervention services for children with disabilities and their families.

The duties of the council include recommending policies to ensure a comprehensive and coordinated system of all state and local agency services for children under age five with disabilities and their families. The policies must address how to incorporate each agency's services into a unified state and local system of multidisciplinary assessment practices, individual intervention plans, comprehensive systems to find children in need of services, methods to improve public awareness, and assistance in determining the role of interagency early intervention committees.

On the date that Minnesota Part C Annual Performance Report is submitted to the federal Office of Special Education, the council must recommend to the governor and the commissioners of education, health, human services, commerce, and employment and economic development policies for a comprehensive and coordinated system.

Notwithstanding any other law to the contrary, the State Interagency Coordinating Council expires on June 30, 2014.

Sec. 15. Minnesota Statutes 2008, section 125A.51, is amended to read:

125A.51 PLACEMENT OF CHILDREN WITHOUT DISABILITIES; EDUCATION AND TRANSPORTATION.

The responsibility for providing instruction and transportation for a pupil without a disability who has a short-term or temporary physical or emotional illness or disability, as determined by the standards of the commissioner, and who is temporarily placed for care and treatment for that illness or disability, must be determined as provided in this section.

(a) The school district of residence of the pupil is the district in which the pupil's parent or guardian resides.

(b) When parental rights have been terminated by court order, the legal residence of a child placed in a residential or foster facility for care and treatment is the district in which the child resides.

(c) Before the placement of a pupil for care and treatment, the district of residence must be notified and provided an opportunity to participate in the placement decision. When an immediate emergency placement is necessary and time does not permit resident district participation in the placement decision, the district in which the pupil is temporarily placed, if different from the district of residence, must notify the district of residence of the emergency
placement within 15 days of the placement. When a nonresident district makes an emergency placement without first consulting with the resident district, the resident district has up to five business days after receiving notice of the emergency placement to request an opportunity to participate in the placement decision, which the placing district must then provide.

(d) When a pupil without a disability is temporarily placed for care and treatment in a day program and the pupil continues to live within the district of residence during the care and treatment, the district of residence must provide instruction and necessary transportation to and from the care and treatment facility program for the pupil. The resident district may establish reasonable restrictions on transportation, except if a Minnesota court or agency orders the child placed at a day care and treatment program and the resident district receives a copy of the order, then the resident district must provide transportation to and from the program unless the court or agency orders otherwise. Transportation shall only be provided by the resident district during regular operating hours of the resident district. The resident district may provide the instruction at a school within the district of residence, at the pupil’s residence, or in the case of a placement outside of the resident district, in the district in which the day treatment program is located by paying tuition to that district. The district of placement may contract with a facility to provide instruction by teachers licensed by the state Board of Teaching.

(e) When a pupil without a disability is temporarily placed in a residential program for care and treatment, the district in which the pupil is placed must provide instruction for the pupil and necessary transportation while the pupil is receiving instruction, and in the case of a placement outside of the district of residence, the nonresident district must bill the district of residence for the actual cost of providing the instruction for the regular school year and for summer school, excluding transportation costs.

(f) Notwithstanding paragraph (e), if the pupil is homeless and placed in a public or private homeless shelter, then the district that enrolls the pupil under section 127A.47, subdivision 2, shall provide the transportation, unless the district that enrolls the pupil and the district in which the pupil is temporarily placed agree that the district in which the pupil is temporarily placed shall provide transportation. When a pupil without a disability is temporarily placed in a residential program outside the district of residence, the administrator of the court placing the pupil must send timely written notice of the placement to the district of residence. The district of placement may contract with a residential facility to provide instruction by teachers licensed by the state Board of Teaching. For purposes of this section, the state correctional facilities operated on a fee-for-service basis are considered to be residential programs for care and treatment.

(g) The district of residence must include the pupil in its residence count of pupil units and pay tuition as provided in section 123A.488 to the district providing the instruction. Transportation costs must be paid by the district providing the transportation and the state must pay transportation aid to that district. For purposes of computing state transportation aid, pupils governed by this subdivision must be included in the disabled transportation category if the pupils cannot be transported on a regular school bus route without special accommodations.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 16. Minnesota Statutes 2008, section 125A.56, is amended to read:

125A.56 ALTERNATE INSTRUCTION REQUIRED BEFORE ASSESSMENT REFERRAL.

Subdivision 1. Requirement. (a) Before a pupil is referred for a special education evaluation, the district must conduct and document at least two scientific, research-based instructional strategies, alternatives, or interventions using a system of scientific, research-based instruction and intervention while the pupil is in the regular classroom. The pupil's teacher must document the results. A special education evaluation team may waive this requirement when it determines the pupil's need for the evaluation is urgent. A district may not use this section to deny a pupil's right to a special education evaluation.
(b) A school district shall use alternative intervention services, including the assurance of mastery program under section 124D.66, the supplemental early education program under section 124D.081, or an early intervening services program under subdivision 2 to serve at-risk pupils who demonstrate a need for alternative instructional strategies, alternatives, or interventions.

Subd. 1a. Definitions. (a) For purposes of this section, the terms defined in this subdivision have the meaning given them.

(b) "Benchmark assessments" means screening that is administered at least three times per year to pupils in kindergarten through grade 8 who are at-risk or in need of early intervening services and may be administered to pupils in grades 9 through 12.

(c) "Early intervening services" means providing additional academic and behavioral support in a general education environment to pupils who have not been identified as needing special education or related services.

(d) "General outcome measures" means valid and reliable measures based on monitoring of pupils' progress, including both general screening of all pupils and more frequent progress monitoring of pupil responses to specific interventions.

(e) "Incidental benefit" means the benefit received by a nondisabled pupil (i) who receives academic or behavioral instruction provided by a special education teacher to a small group of primarily pupils with disabilities to implement their individualized education programs, (ii) who needs the support to succeed in the general education environment, and (iii) for whom no special education staff are added to meet that nondisabled pupil's needs.

(f) "Progress monitoring" means a standardized, scientifically based practice using ongoing assessments that compare expected and actual rates of learning to measure pupils' progress towards meeting a particular goal.

(g) "Scientific, research-based instructional strategies, alternatives, and interventions" means instruction and intervention derived from systematically applying rigorous and objective procedures to obtain valid and reliable knowledge about educational activities and programs.

Subd. 2. Early intervening services program. (a) A district may meet the requirement under subdivision 1 by establishing an early intervening services program that includes:

(1) a system of valid and reliable screening and general outcome measures aligned to state academic standards that is administered at least three times per year to pupils in kindergarten through grade 8 who need additional academic or behavioral support to succeed in the general education environment. The school must provide interim assessments that measure pupils' performance three times per year and implement that use valid and reliable benchmark assessments;

(2) progress monitoring appropriate to the pupil. For purposes of this section, "progress monitoring" means the frequent and continuous measurement of a pupil's performance that includes these three interim assessments and other pupil assessments during the school year. A school, at its discretion, may allow pupils in grades 9 through 12 to participate in interim assessments data that document the effectiveness of specific interventions for each pupil and compare a pupil's performance against general outcome measures;

(2) (3) a system of scientific, research-based instruction and intervention instructional strategies, alternatives, and interventions; and
(4) (4) an organizational plan that allows teachers, paraprofessionals, and volunteers funded through various sources to deliver instruction, work collaboratively as a grade-level team or use another configuration across grades and settings to deliver instruction. The team must be trained, and receive training in scientific, research-based instruction and intervention. Teachers and paraprofessionals at a site operating under this paragraph must work collaboratively with those pupils who need additional academic or behavioral support to succeed in a general education environment.

Subd. 3. Incidental benefit. (b) As an intervention under paragraph (a) subdivision 2, clause (2) (3), staff generating special education aid under section 125A.76 may provide small group instruction to pupils who need additional academic or behavioral support to succeed in the general education environment. Small group instruction that includes pupils with a disability may be provided in the general education environment if:

(1) the needs of the pupils with a disability are met, consistent with their individual education plans, and:

(2) all pupils in the group receive the same level of instruction and make the same progress in the instruction or intervention; and

(3) during each 60-day period that a nondisabled pupil participates in small group instruction under this paragraph, the pupil’s progress monitoring data are examined to determine whether the pupil is making progress and, if the pupil is not making progress, the pupil’s intervention strategies must be changed or the pupil must be referred for a special education evaluation.

Teachers and paraprofessionals must ensure that the needs of pupils with a disability participating in small group instruction under this paragraph remain the focus of the instruction. Expenditures attributable to the time special education staff spends providing instruction to nondisabled pupils in this circumstance is eligible for special education aid under section 125A.76 as an incidental benefit if:

(1) the group consists primarily of disabled pupils;

(2) no special education staff are added to meet nondisabled pupils’ needs; and

(3) the primary purpose of the instruction is to implement the individual education plans of pupils with a disability in this group.

(b) Expenditures attributable to the time special education staff spends providing small group instruction to nondisabled pupils that affords more than an incidental benefit to such pupils is not eligible for special education aid under section 125A.76, except that such expenditures may be included in the alternative delivery initial aid adjustment under section 125A.78 if the district has an approved program under section 125A.50. During each 60-day period that a nondisabled pupil participates in small group instruction under this paragraph, the pupil’s progress monitoring data must be examined to determine whether the pupil is making progress and, if the pupil is not making progress, the pupil’s intervention strategies must be changed or the pupil must be referred for a special education evaluation.

Sec. 17. Minnesota Statutes 2008, section 125A.57, subdivision 2, is amended to read:

Subd. 2. Assistive technology device. "Assistive technology device" means any item, piece of equipment, software, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve functional capabilities of children with disabilities a child with a disability. The term does not include a surgically implanted medical device or a replacement of that device.

EFFECTIVE DATE. This section is effective the day following final enactment.
Sec. 18. Minnesota Statutes 2008, section 125A.63, subdivision 2, is amended to read:

Subd. 2. Programs. The resource centers must offer summer institutes and other training programs throughout the state for deaf or hard of hearing, blind or visually impaired, and multiply disabled pupils. The resource centers must also offer workshops for teachers, and leadership development for teachers.

A program offered through the resource centers must promote and develop education programs offered by school districts or other organizations. The program must assist school districts or other organizations to develop innovative programs.

Such orders must state the consideration, payee, and the fund and the clerk shall take a receipt therefor. Teachers' wages shall have preference in the order in which they become due, and no money applicable for teachers' wages shall be used for any other purpose, nor shall teachers' wages be paid from any fund except that raised or apportioned for that purpose.

(b) Each district shall maintain separate accounts to identify general fund expenditures for each building to the extent provided by the uniform financial accounting and reporting standards for school units. All expenditures for regular instruction, secondary vocational instruction, and school administration must be reported to the department separately for each building. All expenditures for special education instruction, instructional support services, and pupil support services provided within a specific building must be reported to the department separately for each building. Salary expenditures reported by building must reflect actual salaries for staff at the building and must not be based on districtwide averages. All other General fund expenditures not available at the building level through the uniform financial accounting and reporting standards may be reported by building or on a districtwide basis.

(c) The department must annually report information showing school district general fund expenditures per pupil by program category for each building and estimated school district general fund revenue generated by pupils attending each building on its Web site. For purposes of this report:

(1) expenditures not reported by building shall be allocated among buildings on a uniform per pupil basis;

Sec. 5. Minnesota Statutes 2008, section 123B.79, subdivision 7, is amended to read:

Subd. 7. **Account transfer for certain severance pay designated separation and retirement benefits.** A district may separately maintain in a reserve for certain severance pay designated for separation and retirement benefit account not more than 50 percent of the amount necessary to meet the obligations for the portion of severance pay that constitutes compensation for accumulated sick leave to be used for payment of premiums for group insurance provided for former employees by the district separation and retirement benefits, including compensated absences, termination benefits, pension benefits, and other postemployment benefits, not accounted for elsewhere. The amount necessary must be calculated according to standards established by the department.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 6. Minnesota Statutes 2008, section 123B.81, subdivision 3, is amended to read:

Subd. 3. **Debt verification.** The commissioner shall establish a uniform auditing or other verification procedure for districts to determine whether a statutory operating debt exists in any Minnesota school district as of June 30, 1977. This procedure must identify all interfund transfers made during fiscal year 1977 from a fund included in computing statutory operating debt to a fund not included in computing statutory operating debt. The standards for this uniform auditing or verification procedure must be promulgated by the state board pursuant to chapter 14. If a district applies to the commissioner for a statutory operating debt verification or if the unaudited financial statement for the school year ending June 30, 1977 reveals that a statutory operating debt might exist, the commissioner shall require a verification of the amount of the statutory operating debt which actually does exist.

Sec. 7. Minnesota Statutes 2008, section 123B.81, subdivision 4, is amended to read:

Subd. 4. **Debt elimination.** If an audit or other verification procedure conducted pursuant to subdivision 3 determines that a statutory operating debt exists, a district must follow the procedures set forth in this section to eliminate this statutory operating debt.

Sec. 8. Minnesota Statutes 2008, section 123B.81, subdivision 5, is amended to read:

Subd. 5. **Certification of debt.** The commissioner shall certify the amount of statutory operating debt for each district. Prior to June 30, 1979, the commissioner may, on the basis of corrected figures, adjust the total amount of statutory operating debt certified for any district.

Sec. 9. Minnesota Statutes 2008, section 124D.111, subdivision 3, is amended to read:

Subd. 3. **School food service fund.** (a) The expenses described in this subdivision must be recorded as provided in this subdivision.

(b) In each district, the expenses for a school food service program for pupils must be attributed to a school food service fund. Under a food service program, the school food service may prepare or serve milk, meals, or snacks in connection with school or community service activities.

(c) Revenues and expenditures for food service activities must be recorded in the food service fund. The costs of processing applications, accounting for meals, preparing and serving food, providing kitchen custodial services, and other expenses involving the preparing of meals or the kitchen section of the lunchroom may be charged to the food service fund or to the general fund of the district. The costs of lunchroom supervision, lunchroom custodial services, lunchroom utilities, and other administrative costs of the food service program must be charged to the general fund.
That portion of superintendent and fiscal manager costs that can be documented as attributable to the food service program may be charged to the food service fund provided that the school district does not employ or contract with a food service director or other individual who manages the food service program, or food service management company. If the cost of the superintendent or fiscal manager is charged to the food service fund, the charge must be at a wage rate not to exceed the statewide average for food service directors as determined by the department.

(d) Capital expenditures for the purchase of food service equipment must be made from the general fund and not the food service fund, unless two conditions apply:

(1) the unreserved balance in the food service fund at the end of the last fiscal year is greater than the cost of the equipment to be purchased; and

(2) the department has approved the purchase of the equipment.

(e) If the two conditions set out in paragraph (d) apply, the equipment may be purchased from the food service fund.

(f) If a deficit in the food service fund exists at the end of a fiscal year, and the deficit is not eliminated by revenues from food service operations in the next fiscal year, then the deficit must be eliminated by a permanent fund transfer from the general fund at the end of that second fiscal year following the year in which the deficit occurred. However, if a district contracts with a food service management company during the period in which the deficit has accrued, the deficit must be eliminated by a payment from attributed to the food service management company or the district or both.

The amount of the deficit attributable to the district shall be the revenue shortfall caused by the difference between the contractually agreed upon prices for meals, a la carte, vending and catering and the actual prices charged by the district plus the amount of expenditures charged to the food service fund by the district in excess of the contractually agreed upon budget. The remaining amount of the deficit shall be attributable to the food service management company.

The amount of the deficit attributable to the food service management company must be eliminated by a payment to the district by the end of the fiscal year following the year in which the deficit occurred. If the payment is not made by the end of the fiscal year following the year in which the deficit occurred, the food service management company may not bid on any food service management contracts throughout the state until such payment has been made.

(g) Notwithstanding paragraph (f), a district may incur a deficit in the food service fund for up to three years without making the permanent transfer if the district submits to the commissioner by January 1 of the second fiscal year a plan for eliminating that deficit at the end of the third fiscal year.

(h) If a surplus in the food service fund exists at the end of a fiscal year for three successive years, a district may recode for that fiscal year the costs of lunchroom supervision, lunchroom custodial services, lunchroom utilities, and other administrative costs of the food service program charged to the general fund according to paragraph (c) and charge those costs to the food service fund in a total amount not to exceed the amount of surplus in the food service fund.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

For purposes of making the aid adjustments under this section, the amount the district recognizes as revenue for either the prior fiscal year or the current fiscal year pursuant to section 123B.75, subdivision 5, paragraph (b), shall not include any amount levied pursuant to section 124D.86, subdivision 4, for school districts receiving revenue under sections 124D.86, subdivision 3, clauses (1), (2), and (3); 126C.41, subdivisions 1, 2, and 3, paragraphs (b), (c), and (d); 126C.43, subdivision 2; 126C.457; and 126C.48, subdivision 6. The amount paid under this subdivision must not exceed the lesser of:

(1) the difference between 90 percent and the current year payment percentage in subdivision 2, paragraph (d), in the current fiscal year times the sum of the district or charter school’s general education aid plus the aid adjustment in section 127A.50 for the current fiscal year; or

(2) the amount by which the district’s or charter school’s net negative unreserved general fund balance as of June 30 of the prior fiscal year exceeds 2.5 percent of the district or charter school’s expenditures for that fiscal year.

(b) The state total advance final payment under this subdivision for any year must not exceed $7,500,000. If the amount request exceeds $7,500,000, the advance final payment for each eligible district must be reduced proportionately.

Sec. 14. Minnesota Statutes 2008, section 127A.45, subdivision 13, is amended to read:

Subd. 13. Aid payment percentage. Except as provided in subdivisions 11, 12, 12a, and 14, each fiscal year, all education aids and credits in this chapter and chapters 120A, 120B, 121A, 122A, 123A, 123B, 124D, 125A, 125B, 126C, 134, and section 273.1392, shall be paid at the current year aid payment percentage of the estimated entitlement during the fiscal year of the entitlement. For the purposes of this subdivision, a district’s estimated entitlement for special education excess cost aid under section 125A.79 for fiscal year 2006 and later equals 74.0 percent of the district’s entitlement for the current fiscal year. The final adjustment payment, according to subdivision 9, must be the amount of the actual entitlement, after adjustment for actual data, minus the payments made during the fiscal year of the entitlement.

Sec. 18. Minnesota Statutes 2008, section 275.065, subdivision 3, is amended to read:

Subd. 3. Notice of proposed property taxes. (a) The county auditor shall prepare and the county treasurer shall deliver after November 10 and on or before November 24 each year, by first class mail to each taxpayer at the address listed on the county's current year's assessment roll, a notice of proposed property taxes. Upon written request by the taxpayer, the treasurer may send the notice in electronic form or by electronic mail instead of on paper or by ordinary mail.

(b) The commissioner of revenue shall prescribe the form of the notice.
(c) The notice must inform taxpayers that it contains the amount of property taxes each taxing authority proposes to collect for taxes payable the following year. In the case of a town, or in the case of the state general tax, the final tax amount will be its proposed tax. In the case of taxing authorities required to hold a public meeting under subdivision 6, the notice must clearly state that each taxing authority, including regional library districts established under section 134.201, and including the metropolitan taxing districts as defined in paragraph (i), but excluding all other special taxing districts and towns, will hold a public meeting to receive public testimony on the proposed budget and proposed or final property tax levy, or, in case of a school district, on the current budget and proposed property tax levy. The notice must clearly state for each city, county, school district, regional library authority established under section 134.201, and metropolitan taxing districts as defined in paragraph (i), the time and place of the taxing authority's regularly scheduled meetings in which the budget and levy will be discussed and the final budget and levy determined. The taxing authorities must provide the county auditor with the information to be included in the notice. It must clearly state the time and place of each taxing authority's meeting, provide a telephone number for the taxing authority that taxpayers may call if they have questions related to the notice, and an address where comments will be received by mail.

(d) The notice must state for each parcel:

(1) the market value of the property as determined under section 273.11, and used for computing property taxes payable in the following year and for taxes payable in the current year as each appears in the records of the county assessor on November 1 of the current year; and, in the case of residential property, whether the property is classified as homestead or nonhomestead. The notice must clearly inform taxpayers of the years to which the market values apply and that the values are final values;

(2) the items listed below, shown separately by county, city or town, and state general tax, net of the residential and agricultural homestead credit under section 273.1384, voter approved school levy, other local school levy, and the sum of the special taxing districts, and as a total of all taxing authorities:

(i) the actual tax for taxes payable in the current year; and

(ii) the proposed tax amount.

If the county levy under clause (2) includes an amount for a lake improvement district as defined under sections 103B.501 to 103B.581, the amount attributable for that purpose must be separately stated from the remaining county levy amount.

In the case of a town or the state general tax, the final tax shall also be its proposed tax unless the town changes its levy at a special town meeting under section 365.52. If a school district has certified under section 126C.17, subdivision 9, that a referendum will be held in the school district at the November general election, the county auditor must note next to the school district's proposed amount that a referendum is pending and that, if approved by the voters, the tax amount may be higher than shown on the notice. In the case of the city of Minneapolis, the levy for Minneapolis Park and Recreation shall be listed separately from the remaining amount of the city's levy. In the case of the city of St. Paul, the levy for the St. Paul Library Agency must be listed separately from the remaining amount of the city's levy. In the case of Ramsey County, any amount levied under section 134.07 may be listed separately from the remaining amount of the county's levy. In the case of a parcel where tax increment or the fiscal disparities areawide tax under chapter 276A or 473F applies, the proposed tax levy on the captured value or the proposed tax levy on the tax capacity subject to the areawide tax must each be stated separately and not included in the sum of the special taxing districts; and

(3) the increase or decrease between the total taxes payable in the current year and the total proposed taxes, expressed as a percentage.
For purposes of this section, the amount of the tax on homesteads qualifying under the senior citizens' property tax deferral program under chapter 290B is the total amount of property tax before subtraction of the deferred property tax amount.

(e) The notice must clearly state that the proposed or final taxes do not include the following:

(1) special assessments;

(2) levies approved by the voters after the date the proposed taxes are certified, including bond referenda and school district levy referenda;

(3) a levy limit increase approved by the voters by the first Tuesday after the first Monday in November of the levy year as provided under section 275.73;

(4) amounts necessary to pay cleanup or other costs due to a natural disaster occurring after the date the proposed taxes are certified;

(5) amounts necessary to pay tort judgments against the taxing authority that become final after the date the proposed taxes are certified; and

(6) the contamination tax imposed on properties which received market value reductions for contamination.

(f) Except as provided in subdivision 7, failure of the county auditor to prepare or the county treasurer to deliver the notice as required in this section does not invalidate the proposed or final tax levy or the taxes payable pursuant to the tax levy.

(g) If the notice the taxpayer receives under this section lists the property as nonhomestead, and satisfactory documentation is provided to the county assessor by the applicable deadline, and the property qualifies for the homestead classification in that assessment year, the assessor shall reclassify the property to homestead for taxes payable in the following year.

(h) In the case of class 4 residential property used as a residence for lease or rental periods of 30 days or more, the taxpayer must either:

(1) mail or deliver a copy of the notice of proposed property taxes to each tenant, renter, or lessee; or

(2) post a copy of the notice in a conspicuous place on the premises of the property.

The notice must be mailed or posted by the taxpayer by November 27 or within three days of receipt of the notice, whichever is later. A taxpayer may notify the county treasurer of the address of the taxpayer, agent, caretaker, or manager of the premises to which the notice must be mailed in order to fulfill the requirements of this paragraph.

(i) For purposes of this subdivision, subdivisions and subdivision 5a and 6, "metropolitan special taxing districts" means the following taxing districts in the seven-county metropolitan area that levy a property tax for any of the specified purposes listed below:

(1) Metropolitan Council under section 473.132, 473.167, 473.249, 473.325, 473.446, 473.521, 473.547, or 473.834;

(2) Metropolitan Airports Commission under section 473.667, 473.671, or 473.672; and
(3) Metropolitan Mosquito Control Commission under section 473.711.

For purposes of this section, any levies made by the regional rail authorities in the county of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, or Washington under chapter 398A shall be included with the appropriate county's levy and shall be discussed at that county's public hearing.

Sec. 19. Minnesota Statutes 2008, section 275.065, subdivision 6, is amended to read:

Subd. 6. Public hearing; Adoption of budget and levy. (a) For purposes of this section, the following terms shall have the meanings given:

(1) "Initial hearing" means the first and primary hearing held to discuss the taxing authority's proposed budget and proposed property tax levy for taxes payable in the following year, or, for school districts, the current budget and the proposed property tax levy for taxes payable in the following year.

(2) "Continuation hearing" means a hearing held to complete the initial hearing, if the initial hearing is not completed on its scheduled date.

(3) "Subsequent hearing" means the hearing held to adopt the taxing authority's final property tax levy, and, in the case of taxing authorities other than school districts, the final budget, for taxes payable in the following year.

(b) Between November 29 and December 20, the governing bodies of a city that has a population over 500, county, metropolitan special taxing districts as defined in subdivision 3, paragraph (i), and regional library districts shall each hold an initial public hearing to discuss and seek public comment on its final budget and property tax levy for taxes payable in the following year, and the governing body of the school district shall hold an initial public hearing to review its current budget and proposed property tax levy for taxes payable in the following year. The metropolitan special taxing districts shall be required to hold only a single joint initial public hearing, the location of which will be determined by the affected metropolitan agencies. A city, county, metropolitan special taxing district as defined in subdivision 3, paragraph (i), regional library district established under section 134.201, or school district is not required to hold a public hearing under this subdivision unless its proposed property tax levy for taxes
payable in the following year, as certified under subdivision 1, has increased over its final property tax levy for taxes payable in the current year by a percentage that is greater than the percentage increase in the implicit price deflator for government consumption expenditures and gross investment for state and local governments prepared by the Bureau of Economic Analysis of the United States Department of Commerce for the 12-month period ending March 31 of the current year.

(c) The initial hearing must be held after 5:00 p.m. if scheduled on a day other than Saturday. No initial hearing may be held on a Sunday.

(d) At the initial hearing under this subdivision, the percentage increase in property taxes proposed by the taxing authority, if any, and the specific purposes for which property tax revenues are being increased must be discussed. During the discussion, the governing body shall hear comments regarding a proposed increase and explain the reasons for the proposed increase. The public shall be allowed to speak and to ask questions. At the public hearing, the school district must also provide and discuss information on the distribution of its revenues by revenue source, and the distribution of its spending by program area.

(e) If the initial hearing is not completed on its scheduled date, the taxing authority must announce, prior to adjournment of the hearing, the date, time, and place for the continuation of the hearing. The continuation hearing must be held at least five business days, but no more than 14 business days after the initial hearing. A continuation hearing may not be held later than December 20 except as provided in paragraphs (f) and (g). A continuation hearing must be held after 5:00 p.m. if scheduled on a day other than Saturday. No continuation hearing may be held on a Sunday.

(f) The governing body of a county shall hold its initial hearing on the first Thursday in December each year, and may hold additional initial hearings on other dates before December 20 if necessary for the convenience of county residents. If the county needs a continuation of its hearing, the continuation hearing shall be held on the third Tuesday in December. If the third Tuesday in December falls on December 21, the county’s continuation hearing shall be held on Monday, December 20.

(g) The metropolitan special taxing districts shall hold a joint initial public hearing on the first Wednesday of December. A continuation hearing, if necessary, shall be held on the second Wednesday of December even if that second Wednesday is after December 10.

(h) The county auditor shall provide for the coordination of initial and continuation hearing dates for all school districts and cities within the county to prevent conflicts under clauses (i) and (j).

(i) By August 10, each school board and the board of the regional library district shall certify to the county auditors of the counties in which the school district or regional library district is located the dates on which it elects to hold its initial hearing and any continuation hearing. If a school board or regional library district does not certify these dates by August 10, the auditor will assign the initial and continuation hearing dates. The dates elected or assigned must not conflict with the initial and continuation hearing dates of the county or the metropolitan special taxing districts.

(j) By August 20, the county auditor shall notify the clerks of the cities within the county of the dates on which school districts and regional library districts have elected to hold their initial and continuation hearings. At the time a city certifies its proposed levy under subdivision 1 it shall certify the dates on which it elects to hold its initial hearing and any continuation hearing. Until September 15, the first and second Mondays of December are reserved for the use of the cities. If a city does not certify its hearing dates by September 15, the auditor shall assign the initial and continuation hearing dates. The dates elected or assigned for the initial hearing must not conflict with the initial hearing dates of the county, metropolitan special taxing districts, regional library districts, or school districts within which the city is located. To the extent possible, the dates of the city’s continuation hearing should not
conflict with the continuation hearing dates of the county, metropolitan special taxing districts, regional library districts, or school districts within which the city is located. This paragraph does not apply to cities of 500 population or less.

(k) The county initial hearing date and the city, metropolitan special taxing district, regional library district, and school district initial hearing dates must be designated on the notices required under subdivision 3. The continuation hearing dates need not be stated on the notices.

(l) At a subsequent hearing, each county, school district, city over 500 population, and metropolitan special taxing district may amend its proposed property tax levy and must adopt a final property tax levy. Each county, city over 500 population, and metropolitan special taxing district may also amend its proposed budget and must adopt a final budget at the subsequent hearing. The final property tax levy must be adopted prior to adopting the final budget. A school district is not required to adopt its final budget at the subsequent hearing. The subsequent hearing of a taxing authority must be held on a date subsequent to the date of the taxing authority’s initial public hearing. If a continuation hearing is held, the subsequent hearing must be held either immediately following the continuation hearing or on a date subsequent to the continuation hearing. The subsequent hearing may be held at a regularly scheduled board or council meeting or at a special meeting scheduled for the purposes of the subsequent hearing. The subsequent hearing of a taxing authority does not have to be coordinated by the county auditor to prevent a conflict with an initial hearing, a continuation hearing, or a subsequent hearing of any other taxing authority. All subsequent hearings must be held prior to five working days after December 20 of the levy year. The date, time, and place of the subsequent hearing must be announced at the initial public hearing or at the continuation hearing.

(m) (a) The property tax levy certified under section 275.07 by a city of any population, county, metropolitan special taxing district, regional library district, or school district must not exceed the proposed levy determined under subdivision 1, except by an amount up to the sum of the following amounts:

(1) the amount of a school district levy whose voters approved a referendum to increase taxes under section 123B.63, subdivision 3, or 126C.17, subdivision 9, after the proposed levy was certified;

(2) the amount of a city or county levy approved by the voters after the proposed levy was certified;

(3) the amount of a levy to pay principal and interest on bonds approved by the voters under section 475.58 after the proposed levy was certified;

(4) the amount of a levy to pay costs due to a natural disaster occurring after the proposed levy was certified, if that amount is approved by the commissioner of revenue under subdivision 6a;

(5) the amount of a levy to pay tort judgments against a taxing authority that become final after the proposed levy was certified, if the amount is approved by the commissioner of revenue under subdivision 6a;

(6) the amount of an increase in levy limits certified to the taxing authority by the commissioner of education or the commissioner of revenue after the proposed levy was certified; and

(7) the amount required under section 126C.55.

(m) (b) This subdivision does not apply to towns and special taxing districts other than regional library districts and metropolitan special taxing districts.

(m) (c) Notwithstanding the requirements of this section, the employer is required to meet and negotiate over employee compensation as provided for in chapter 179A.

For the purposes of this paragraph, a district may designate a licensed day care facility, school day care facility, respite care facility, the residence of a relative, or the residence of a person chosen by the pupil’s parent or guardian as the home of a pupil for part or all of the day, if requested by the pupil’s parent or guardian, and if that facility or residence is within the attendance area of the school the pupil attends.

(c) Salaries and fringe benefits of the district employees listed in paragraph (b), clauses (1), (2), and (3), who work part time in transportation and part time in other areas must not be included in a district's transportation expenditures unless the district maintains documentation of the employee's time spent on pupil transportation matters in the form and manner prescribed by the department.

(d) Pupil transportation expenditures, excluding expenditures for capital outlay, leased buses, student board and lodging, crossing guards, and aides on buses, must be allocated among transportation categories based on cost-per-mile, cost-per-student, cost-per-hour, or cost-per-route, regardless of whether the transportation services are provided on district-owned or contractor-owned school buses. "Attendance area" means the total surface area of the district, in square miles, divided by the number of high schools in the district. For a district that does not operate a high school and is less than 19.15 miles from the nearest operating high school, the attendance area equals zero.

"Isolation index" for a high school means the square root of 55 percent of the attendance area plus the distance in miles, according to the usually traveled routes, between the high school and the nearest high school. For a district in which there is located land defined in section 84A.01, 84A.20, or 84A.31, the distance in miles is the sum of:

For a district that has more than one elementary school, "average daily membership" for each school means the average daily membership of pupils served in kindergarten through grade 6 multiplied by the ratio of seven to the number of grades in the elementary school.

Sec. 32. [126C.115] INNOVATION REVENUE.

(a) A school district must use its innovation revenue to implement evidence-based innovation premised on research-based curriculum and instruction and other education programs and practices, including best teaching practices, that are known to improve academic performance for diverse groups of students. If a school district’s growth in academic performance, as measured by a growth-based value-added system, is below the established progress levels, the school district must submit a plan to the commissioner, developed in consultation with interested parents, that describes how the district proposes to use its innovation revenue to supplement state reading requirements under section 120B.12, subdivision 1, and state math and science requirements under section 120B.023, subdivision 2, paragraphs (b) and (d), and improve student outcomes. The plan must:

1. identify specific education goals, consistent with this section, and the indicators to demonstrate progress toward achieving those goals, which may include a value-added assessment model under sections 120B.35 and 120B.362;

2. supplement current district initiatives that may transform district programs and practices sufficient to significantly improve student outcomes; and

3. demonstrate how innovation revenue helps narrow and eliminate differences in student academic achievement in reading, math, and science based on student measures of mobility, attendance, race and ethnicity, gender, English language learner status, eligibility for free or reduced price lunch, and special education, among other outcomes.

(b) After transmitting its plan to the commissioner, a district must spend its innovation revenue effectively and efficiently, consistent with its plan. A school district that submits an innovation revenue plan under paragraph (a) must report annually by June 30 to the commissioner and post on the district’s official Web site reliable and accessible information and supporting longitudinal data showing the amount of progress the district made in the immediately preceding school year and previous school years in realizing its innovation revenue goals. The commissioner must analyze the data from the annual district reports and post the analysis on the department’s official Web site.

Sec. 39. Minnesota Statutes 2008, section 126C.40, subdivision 1, is amended to read:

Subdivision 1. **To lease building or land.** (a) When an independent or a special school district or a group of independent or special school districts finds it economically advantageous to rent or lease a building or land for any instructional purpose or administrative purpose, or for school storage or furniture repair, and it determines that the operating capital revenue authorized under section 126C.10, subdivision 13, is insufficient for this purpose, it may apply to the commissioner for permission to make an additional capital expenditure levy for this purpose. An application for permission to levy under this subdivision must contain financial justification for the proposed levy, the terms and conditions of the proposed lease, and a description of the space to be leased and its proposed use.

(b) The criteria for approval of applications to levy under this subdivision must include: the reasonableness of the price, the appropriateness of the space to the proposed activity, the feasibility of transporting pupils to the leased building or land, conformity of the lease to the laws and rules of the state of Minnesota, and the appropriateness of the proposed lease to the space needs and the financial condition of the district. The commissioner must not authorize a levy under this subdivision in an amount greater than the cost to the district of renting or leasing a building or land for approved purposes. The proceeds of this levy must not be used for custodial or other maintenance services. A district may not levy under this subdivision for the purpose of leasing or renting a district-owned building or site to itself.

(c) For agreements finalized after July 1, 1997, a district may not levy under this subdivision for the purpose of leasing: (1) a newly constructed building used primarily for regular kindergarten, elementary, or secondary instruction; or (2) a newly constructed building addition or additions used primarily for regular kindergarten, elementary, or secondary instruction that contains more than 20 percent of the square footage of the previously existing building.

(d) Notwithstanding paragraph (b), a district may levy under this subdivision for the purpose of leasing or renting a district-owned building or site to itself only if the amount is needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, and the levy meets the requirements of paragraph (c). A levy authorized for a district by the commissioner under this paragraph may be in the amount needed by the district to make payments required by a lease purchase agreement, installment purchase agreement, or other deferred payments agreement authorized by law, provided that any agreement include a provision giving the school districts the right to terminate the agreement annually without penalty.
(e) The total levy under this subdivision for a district for any year must not exceed $150 times the resident pupil units for the fiscal year to which the levy is attributable.

(f) For agreements for which a review and comment have been submitted to the Department of Education after April 1, 1998, the term "instructional purpose" as used in this subdivision excludes expenditures on stadiums.

(g) The commissioner of education may authorize a school district to exceed the limit in paragraph (e) if the school district petitions the commissioner for approval. The commissioner shall grant approval to a school district to exceed the limit in paragraph (e) for not more than five years if the district meets the following criteria:

1. the school district has been experiencing pupil enrollment growth in the preceding five years;
2. the purpose of the increased levy is in the long-term public interest;
3. the purpose of the increased levy promotes colocation of government services; and
4. the purpose of the increased levy is in the long-term interest of the district by avoiding over construction of school facilities.

(h) A school district that is a member of an intermediate school district may include in its authority under this section the costs associated with leases of administrative and classroom space for intermediate school district programs. This authority must not exceed $43,500 times the adjusted marginal cost pupil units of the member districts. This authority is in addition to any other authority authorized under this section.

(i) In addition to the allowable capital levies in paragraph (a), a district that is a member of the "Technology and Information Education Systems" data processing joint board, that finds it economically advantageous to enter into a lease purchase agreement for a building for a group of school districts or special school districts for staff development purposes, may levy for its portion of lease costs attributed to the district within the total levy limit in paragraph (e).

Sec. 40. Minnesota Statutes 2008, section 127A.51, is amended to read:

127A.51 STATEWIDE AVERAGE REVENUE.

By October 1 of each year the commissioner must estimate the statewide average adjusted general revenue per adjusted marginal cost pupil unit and the disparity in adjusted general revenue among pupils and districts by computing the ratio of the 95th percentile to the fifth percentile of adjusted general revenue. The commissioner must provide that information to all districts.

If the disparity in adjusted general revenue as measured by the ratio of the 95th percentile to the fifth percentile increases in any year, the commissioner shall recommend to the legislature options for change in the general education formula that will limit the disparity in adjusted general revenue to no more than the disparity for the previous school year. The commissioner must submit the recommended options to the education committees of the legislature by January 15.

For purposes of this section and section 126C.10, adjusted general revenue means:

1. for fiscal year 2002, the sum of basic revenue under section 126C.10, subdivision 2; supplemental revenue under section 126C.10, subdivisions 9 and 12; transition revenue under section 126C.10, subdivision 20; referendum revenue under section 126C.17; and equity revenue under section 126C.10, subdivisions 24a and 24b; and

TECHNICAL CORRECTIONS

Section 1. Minnesota Statutes 2008, section 126C.10, subdivision 24, is amended to read:

Subd. 24. Equity revenue. (a) A school district qualifies for equity revenue if:

(1) the school district's adjusted marginal cost pupil unit amount of basic revenue, supplemental revenue, transition revenue, and referendum revenue is less than the value of the school district at or immediately above the 95th percentile of school districts in its equity region for those revenue categories; and
(2) the school district's administrative offices are not located in a city of the first class on July 1, 1999.

(b) Equity revenue for a qualifying district that receives referendum revenue under section 126C.17, subdivision 4, equals the product of (1) the district's adjusted marginal cost pupil units for that year; times (2) the sum of (i) $13, plus (ii) $75, times the school district's equity index computed under subdivision 27.

(c) Equity revenue for a qualifying district that does not receive referendum revenue under section 126C.17, subdivision 4, equals the product of the district's adjusted marginal cost pupil units for that year times $13.

(d) A school district's equity revenue is increased by the greater of zero or an amount equal to the district's resident marginal cost pupil units times the difference between ten percent of the statewide average amount of referendum revenue per resident marginal cost pupil unit for that year and the district's referendum revenue per resident marginal cost pupil unit. A school district's revenue under this paragraph must not exceed $100,000 for that year.
