Reported the same back with the following amendments:

Delete everything after the enacting clause and insert:

"Section 1. Minnesota Statutes 2010, section 2.731, is amended to read:

2.731 NUMBER OF DISTRICTS.

(a) The state of Minnesota is divided into eight congressional districts, each of which is entitled to elect one representative to the Congress of the United States of America.

(b) Congressional redistricting plan C1101-0, on file with the Geographic Information Services Office of the Legislative Coordinating Commission and published on its Web site on May 9, 2011, is adopted and describes the congressional districts within this state.

Sec. 2. Minnesota Statutes 2010, section 2.91, subdivision 1, is amended to read:

Subdivision 1. Distribution. Upon enactment of a redistricting plan for the legislature or for Congress, the Legislative Coordinating Commission shall deposit the plan with the secretary of state. The secretary of state shall provide copies of the relevant portions of the redistricting plan to each county auditor, who shall provide a copy of the relevant portions of the plan to each municipal clerk within the county. The secretary of state, with the cooperation of the commissioner of administration, shall make copies of the plan file, maps, and tables available to the public for the cost of publication. The revisor of statutes shall code a metes and bounds description of the districts, as established pursuant to legislative enactment or court order, in Minnesota Statutes no later than the date of the state primary in the year ending in two.

Sec. 3. DISTRICTING PRINCIPLES.

Subdivision 1. Applicability. The principles in this section apply to legislative and congressional districts.

Subd. 2. Nesting. A representative district may not be divided in the formation of a senate district.

Subd. 3. Equal population. (a) Legislative districts must be substantially equal in population. The population of a legislative district must not deviate from the ideal by more than one percent, plus or minus.

(b) Congressional districts must be as nearly equal in population as practicable.
Subd. 4. **Contiguity: compactness.** The districts must be composed of convenient contiguous territory. To the extent consistent with the other principles in this section, districts should be compact. Contiguity by water is sufficient if the water is not a serious obstacle to travel within the district. Point contiguity is not sufficient.

Subd. 5. **Numbering.** (a) Legislative districts must be numbered in a regular series, beginning with house district 1A in the northwest corner of the state and proceeding across the state from west to east, north to south, but bypassing the 11-county metropolitan area until the southeast corner has been reached; then to the 11-county metropolitan area outside the cities of Minneapolis and St. Paul; then in Minneapolis and St. Paul.

(b) Congressional district numbers must begin with district one in the southeast corner of the state and end with district eight in the northeast corner of the state.

Subd. 6. **Minority representation.** (a) The dilution of racial or ethnic minority voting strength is contrary to the laws of the United States and the state of Minnesota. These principles must not be construed to supersede any provision of the Voting Rights Act of 1965, as amended.

(b) A redistricting plan must not have the intent or effect of dispersing or concentrating minority population in a manner that prevents minority communities from electing their candidates of choice.

Subd. 7. **Minor civil divisions.** (a) A county, city, or town must not be unduly divided unless required to meet equal population requirements or to form districts composed of convenient, contiguous territory.

(b) A county, city, or town is not unduly divided in the formation of a legislative or congressional district if:

(1) the division occurs because a portion of a city or town is noncontiguous with another portion of the same city or town; or

(2) despite the division, the known population of any affected county, city, or town remains wholly located within a single district.

Subd. 8. **Preserving communities of interest.** (a) Districts should attempt to preserve identifiable communities of interest where that can be done in compliance with the preceding principles.

(b) For purposes of this subdivision, "communities of interest" means recognizable areas with similarities of interests, including but not limited to racial, ethnic, geographic, social, or cultural interests.

Subd. 9. **Data to be used.** The geographic areas and population counts used in maps, tables, and legal descriptions of the districts must be those used by the Geographic Information Services Office of the Legislative Coordinating Commission. The population counts will be the 2010 block population counts provided to the state under Public Law 94-171, subject to correction of any errors acknowledged by the United States Census Bureau.

Subd. 10. **Consideration of plans.** A redistricting plan must not be considered for adoption by the senate or house of representatives until a block equivalency file showing the district to which each census block has been assigned, in a form prescribed by the director of the Geographic Information Services Office, has been filed with the director.

Subd. 11. **Priority of principles.** Where it is not possible to fully comply with the principles contained in subdivisions 1 to 8, a redistricting plan must give priority to those principles in the order in which they are listed in this section, except to the extent that doing so would violate federal or state law.
EFFECTIVE DATE; EXPIRATION. This section is effective the day following final enactment and applies to any plan for districts enacted or established for use at the state primary in 2012 and thereafter. This section expires June 1, 2012.

Sec. 4. REPEALER.

Minnesota Statutes 2010, section 2.031, subdivision 2, is repealed.

Sec. 5. EFFECTIVE DATE.

Except where otherwise provided, this act is effective for the state primary election in 2012 and thereafter.

Amend the title as follows:

Page 1, line 3, after "thereafter;" insert "adopting districting principles for legislative and congressional districts;"

With the recommendation that when so amended the bill pass and be re-referred to the Committee on Rules and Legislative Administration.

The report was adopted.

Subd. 7. **Other exemptions.** The prohibitions in subdivision 3 do not apply to:

(1) a new large energy facility under consideration by the Public Utilities Commission pursuant to proposals or applications filed with the Public Utilities Commission before April 1, 2007, or to any power purchase agreement related to a facility described in this clause. The exclusion of pending proposals and applications from the prohibitions in subdivision 3 does not limit the applicability of any other law and is not an expression of legislative intent regarding whether any pending proposal or application should be approved or denied;

(2) a contract not subject to commission approval that was entered into prior to April 1, 2007, to purchase power from a new large energy facility that was approved by a comparable authority in another state prior to that date, for which municipal or public power district bonds have been issued, and on which construction has begun; or

(3) a new large energy facility or a power purchase agreement between a Minnesota utility and a new large energy facility located outside Minnesota that the Public Utilities Commission has determined is essential to ensure the long-term reliability of Minnesota's electric system, to allow electric service for increased industrial demand, or to avoid placing a substantial financial burden on Minnesota ratepayers. An order of the commission granting an exemption under this clause is stayed until the June 1 following the next regular or annual session of the legislature that begins after the date of the commission's final order; or

(4) 2,500 megawatts of electric generating capacity, in aggregate, from new large energy facilities or power purchase agreements with new large energy facilities that:

(i) are fueled by feedstock coal that on a moist, mineral-matter-free basis has a calorific value averaging less than 8,500 Btus per pound, or beneficiated coal derived from such coal; and

(ii) began construction after April 1, 2007.
Projects will receive priority for exemption under this clause based on the shortest amount of time after April 1, 2007 and the date construction of a new large energy facility begins or a power purchase agreement with a new large energy facility is signed, as applicable, until the 2,500 megawatt aggregate capacity limit is reached.
