The following communications were received:

The Honorable Kurt Daudt
Speaker of the House of Representatives
The State of Minnesota

Dear Speaker Daudt:

I have vetoed and am returning H. F. No. 330, Chapter No. 49, a bill relating to local government, requiring a two-thirds vote to impose an interim ordinance.

This legislation represents a step forward in providing notice and a voice for those potentially affected by an interim ordinance regulating a housing proposal. However, the requirement for a two-thirds vote of the City Council members present and voting on an interim ordinance related to housing proposals is an unnecessary exception to the general requirement for a majority vote. The provision weakens local control and the rights of local community members.

Should a subsequent bill provide for a majority vote instead of two-thirds, I would reconsider this legislation.

Sincerely,

MARK DAYTON
Governor

The Honorable Kurt Daudt
Speaker of the House of Representatives
The State of Minnesota

Dear Speaker Daudt:

I have vetoed and am returning H. F. No. 861, Chapter No. 62, a bill related to transportation finance.

For the past three years, I have proposed a detailed transportation proposal to adequately fund roads, bridges, and transit. We all agree Minnesota's transportation system needs significant new funding beyond exiting revenues:
• **An additional $400 million per year** in ongoing, dedicated funding just to maintain our state’s highways, roads, and bridges in their current conditions;

• **Another $200 million per year** in ongoing, dedicated funding in order to make the critical improvements and expansions on our state highways, interstates, and bridges, which will be crucial to our continuing economic and social vitality; and

• **An additional $300 million per year** in ongoing, dedicated funding in order to maintain our current transit and bus systems, and to invest in transit expansions across the state necessary to reduce highway congestion and accommodate population growth.

I found the bill for roads, bridges, and transit disheartening and wholly inadequate. Based on this bill, despite rhetoric to the contrary, transportation does not appear to be one of the top priorities for Republicans.

**Roads and Bridges**

This bill fails to provide long-term, sustainable, and dedicated funding for the state and local transportation systems. Twenty-five states, including our Republican governed neighbors, are creating more economically sound transportation infrastructure using increases in the gas tax. Despite my willingness to compromise and accept a transportation bill without the gas tax increase, this bill completely lacks a new funding source that is long-term and constitutionally dedicated for roads and bridges. That is unfortunate for our cities, counties, township and states that rely on dedicated funding to maintain and build our infrastructure.

This bill anticipates using speculative future general funds to make significant trunk highway bond payments over the next 20 years, which sets up an untenable budget situation. Issuing $600 million in trunk highway bonds without new, constitutionally dedicated revenue to pay off the bonds will undoubtedly force MnDOT to reduce future road and bridge construction to pay for more debt if the general fund transfers are discontinued or reduced in the future. In fact, as your conference committee progressed, you already demonstrated the folly of relying on general funds for roads and bridges by shifting funds from the sales tax on auto parts away from roads and bridges to other uses in the bill.

Furthermore, the amount of funding in the bill for trunk highways provides only a small fraction of what is needed to preserve, let alone expand the system. My funding proposal provides $600 million per year in new funding, whereas, your bill allocates only $75 million per year in new, general fund revenue for state roads and bridges this biennium. This would only be enough to reconstruct 37.5 miles of pavement in greater Minnesota.

The needs of our infrastructure system to keep the state economically competitive demand that we invest additional resources just to maintain our system. And while I am willing to compromise and accept some use of the general fund for transportation, I insist constitutionally dedicated sources of revenue must be part of the transportation bill.

**Transit**

This bill seriously underfunds Metro Transit services and cuts Greater Minnesota transit. The bill leaves Metro Transit with a $17.5 million deficit in fiscal year 2018-2019 that would require a reduction of bus service at a time when the population of the metro region and the need for efficient transit is growing. Because the funding increase in the bill is one-time only, Metro Transit is left with a $110 million structural deficit in the next biennium. The bill also fails to address the rising costs of Metro Mobility, a program that is already stretched and will continue to see growing demand as our population ages.

I will not accept a transportation bill that results in cuts to Metro Transit services. Our transit system is vital to the economic health and competitiveness of the metro region and the state as a whole. My proposal for transit included a half-cent sales tax in the seven-county metropolitan area that would have raised $3 billion over the next 10 years. It would have eliminated the need for future general fund appropriations for transit expansion and operations, including bus services.
Since the legislature is unwilling to consider my long-term plan for a stable, dedicated funding source for the metro area transit system, at a minimum I insist that the transportation bill include $85 million in additional base funding for Metro Transit to avoid any reduction in service. 80 percent of metro area transit rides are taken by Minnesotans going to and from work and school. Your failure to adequately fund our transit system will have real life consequences for our seniors, students, low-income individuals, and individuals with disabilities.

Rail
This bill does not provide adequate funding for the MnDOT Freight Rail Office, which would severely limit, and potentially eliminate, the state's ability to administer key rail safety programs statewide, including identifying and upgrading high-risk grade crossings. I encourage you to fully fund these key functions within MnDOT.

By ignoring my request for additional rail inspectors, you are perpetuating a lack of adequate oversight that can have a serious impact on the safety of our communities along the freight lines. These rail inspectors are paid for by the rail industry through an assessment to ensure compliance with federal rail safety standards. In 2016, federal and state inspectors found over 12,068 defects, compared with 4,873 in 2015, an increase of almost 250%. My proposal included 6 inspectors to bring our numbers in line with other participating states.

Another key way of improving safety in my budget proposal was to fund small grade crossing improvements at over 4,500 state and local road crossings in Minnesota. I appreciate that your proposal includes some money for rail grade crossing safety, but my proposal deployed non general fund money that is currently collected from highway patrol fees and allocated the full amount to rail grade crossing safety at $7.4 million.

Eliminating the passenger rail office, as your bill does, puts Minnesota behind other states in the region that continue to invest in passenger rail planning and implementation. Cities like St. Cloud, Duluth, Red Wing and Winona will be precluded from the economic benefits of expanded passenger rail service by completely eliminating the office. In the spirit of compromise, I would support a status quo option for this office at $500,000 annually. I also encourage you to support my proposal to provide funding for an intercity passenger rail demonstration to St. Cloud and a full study of a Northstar expansion.

MNLARS
The Minnesota Licensing and Registration System (MNLARS) needs a stable and ongoing funding source to maintain the system when it goes live later this year. This bill does not re-institute a $1 transaction fee that I included in my budget, which would establish an ongoing funding source for this critical backbone of the driver licenses, identification cards, and motor vehicle registrations system. This bill only funds MNLARS operations for one biennium from the driver and vehicle services special revenue accounts. In addition, there are other budget, policy provisions, and REAL ID proposals that may impact this account. I urge you to re-institute the $1 transaction fee.

Met Council Governance Change
The bill proposes an ill-advised Metropolitan Council governance change that includes a 28-member Council composed of county commissioners and local elected officials. This governance change proposal was not part of the House or Senate Omnibus Transportation bills. This drastic governance change would create a chaotic structure with conflicts of interest. The offices of Metropolitan Council member and municipal elected official are inherently incompatible because the Council serves both as a regulator and distributor of funds to local governments. Eliminating the Transportation Advisory Board (TAB) and changing the composition of the Council jeopardizes federal funds currently allocated by the Metropolitan Council and will trigger a Federal Metropolitan Planning Organization (MPO) re-designation process. I appreciate the Legislature's interest in Metropolitan Council governance reform, but I will not sign a transportation finance bill that includes such a drastic change. I encourage the Legislature to propose a change that includes input from and is overwhelmingly supported by a majority of the entities impacted by any change to the Met Council.
Other Policies
I am disappointed to see that this bill includes numerous policy proposals that are: 1) detrimental to the state's economy, 2) obstruct the metro area's ability to build a strong transit system that benefits all Minnesotans, and 3) are harmful to our state's infrastructure. I find the following policy provisions troublesome and they need to be removed before I consider the next transportation bill.

- Increasing truck weights for milk and construction materials would create more damage to roadways when the system is already struggling with maintenance.
- Setting a $7 million cap on the local bridge funding program, which is unfair to local governments absent another program to fund these large, expensive bridges.
- Historically, tolling has been viewed unfavorably by Minnesotans and this study is unlikely to provide any additional information to make tolling more acceptable. Studying it is simply a waste of money.
- Prohibiting MnDOT legal counsel from performing activities related to data practices requests.
- Establishing requirements for the deposit and appropriation of Clean Air Act Settlement money, which does not belong in a transportation bill.
- I-35 Weigh Station construction moratorium, which will add cost and has no value.
- MN Valley Regional Rail Loan to grant conversion that sets a bad precedent.
- The trunk highway appeal process language does not reflect an agreement MnDOT reached last year on this provision, and as written, it challenges the ability of MnDOT to control access to trunk highways which is key to traffic safety. The language originally in the bill was passed twice on the floor of the House and once in the Senate. This language was never discussed, heard or voted on any committee or legislative body outside the conference committee.
- Snow and ice contingency language restricting the hiring of plow drivers or buying snow plows and other equipment to keep our roads safe during hazardous winters.
- Requiring the codification of the project selection process in law, which will create inefficiency and will not allow for flexibility to adjust to changing circumstances.
- Requiring a larger portion of MVST revenue to be allocated to opt-out bus service providers at the expense of Metro Transit service.
- Requiring the Council to grant financial assistance to Excelsior for replacement bus service.
- Prohibiting the Metropolitan Council from issuing any obligations backed by motor vehicle sales tax revenue, restricting the tools available to the Council to efficiently manage its capital and operating budget.
- Requiring a duplicative alternatives and benefits analysis prior to engineering a light rail project, and applying new requirements to projects already underway that have not yet formally entered the engineering phase of the FTA's New Starts program.
- Eliminating the state's 50 percent share of net operating costs for light rail lines not already in revenue operations.
- Allowing an administrative law judge to consider the reasonableness of a metropolitan system plan or part of a plan if a municipality challenges its system statement.
- Requiring the Metropolitan Council to pay for a vibration susceptibility study for Calhoun Isles by an engineering firm selected by the condo owners association.
- A Metro Mobility Task Force composition that includes providers and members with no experience with or knowledge of paratransit.

This transportation bill is a short-term strategy centered on the Republicans approach to "starve the general fund" by siphoning resources away from other priorities in the state budget. And yet, the dollar amounts in the bill do little to address the growing gap between resources and transportation system needs, including metro area bus service. I expect the next transportation bill to be sincere in what is described as "new" funding for roads and bridges as not to mislead the public.
I remain insistent that we take a long-term approach for transportation funding. I expect the next transportation bill to include constitutionally dedicated resources for roads and bridges, $85 million for transit, and all the operating adjustment funding included in my budget from the trunk highway fund. I also insist that no extraneous policy provisions be inserted into this funding bill.

This transportation bill shortchanges Minnesotans and I find it deplorable. Thus, I am vetoing this bill.

Sincerely,

MARK DAYTON

The Honorable Kurt Daudt
Speaker of the House of Representatives
The State of Minnesota

Dear Speaker Daudt:

I have vetoed and am returning H. F. No. 4, Chapter No. 66, a bill relating to the omnibus tax bill.

When I took office in 2011, Minnesota faced a $6.2 billion budget deficit. Now, after six years of making tough, responsible choices, Minnesota is finally on sound fiscal footing. Our state has $1.5 billion on its bottom line and nearly $2 billion in reserves to protect Minnesota from future economic downturns. This bill prioritizes unsustainable tax cuts now and into the future over investments in prekindergarten, higher education and economic development that will grow opportunities for hard working Minnesotans in our state.

This bill will cost the state $1.1 billion this biennium and $1.4 billion in the next and grow in the future, setting the state up for fiscal uncertainty. That is because items like eliminating the inflator on the state general levy and the indexing on tobacco taxes grow significantly beyond what you have shown on the bill’s spreadsheet. The levy freeze will cost over $1 billion over 10 years. The tobacco tax cuts will cost nearly $300 million over ten years.

In addition to the irresponsible size of the tax bill, the composition represents misplaced priorities. The bill prioritizes tax relief to some of the most fortunate in our state, large businesses, and special interests while ignoring those in Minnesota who have not yet benefitted from the recovery and those who rely on essential government services.

Education tax credit provisions
The education foundation tax credit will provide those who can afford to make significant donations to foundations with tax credits on top of the existing tax deduction for charitable donations. Individuals are free, of course, to provide donations to charities of their choosing – many provide significant public good. But this provision provides additional significant incentives to a select group of foundations, while other worthy charities across Minnesota are not provided with this same significant treatment.
I have repeatedly stated my intention to veto any bill that provides public funds to private education in the form of vouchers or other mechanism. Expansion of existing education subtraction, expansion of the existing education credits to include tuition, and creation of a new credit for contributions to foundations related to scholarships, will divert public resources to private schools. As I have made clear, I intend to veto any bill that includes vouchers.

My budget prioritized Minnesota's students by investing in our public schools. It would expand voluntary pre-K by doubling the enrollees from 3,300 to 8,300 in FY 18, invest over $600 million more dollars to provide better schools for students and families everywhere in Minnesota, and as part of that increase our investment in special education by $40 million as well as many other investments that will improve education in Minnesota.

**Estate tax cut**
The estate tax cut, which costs $162 million in FY 18-19, will mean that nearly all of the wealthiest 1,000 estates in Minnesota each year will no longer pay any estate tax, significantly reducing the work we have done in Minnesota to make our tax system more progressive. It will do nothing to help family farms and business, because they are already exempt from the estate tax up to $5 million when they pass on their businesses to their heirs. It will only help the super wealthy to avoid paying their fair share of taxes.

**Cigarette tax reductions**
Among the most egregious provisions in the tax bill is the elimination of the inflator on cigarette taxes. The purpose of the cigarette tax increase and inflator in 2013 was to make strategic investments in health care, education and jobs, and to reduce smoking in Minnesota, in particular among its youth. Each year, more than 6,300 Minnesotans die from smoking-related illnesses, and smoking costs Minnesotans more than $3 billion in excess health care cost. Since the increase took effect, smoking has declined, most notably among high school students.

Eliminating the inflator on these taxes will make cigarettes and moist snuff more affordable for our youth, who are more price sensitive, years down the road. Removing the inflator will lower the cost of cigarettes and snuff over time in real dollars.

Furthermore, without any public testimony in conference committee and in the dark of the night, the tax conference committee snuck in a new premium cigar tax cut for the tobacco industry that puts their profits ahead of people's health.

The legislature should look at ways to prevent youth from smoking and help current smokers quit, not ways to make tobacco products more affordable to hook the state's next generation to these dangerous products.

The cost of this proposal is a significant concern as well. It will cost $10 million in this biennium but grow to $36 million in the FY20-21 biennium, and will continue to grow more after that. For these reasons, I have criticized this proposal in the past and continue to oppose it.

**Business tax cuts**
Of the over $1.1 billion spent in this bill, the business and estate tax cuts in this bill total over $500 million in FY18-19, primarily benefitting the largest corporations in the state. In the near term, the C/I levy changes will allow all businesses to reduce their property taxes with the exclusion of the first $150,000 of value.

But the freeze to the levy amount, over time, will disproportionately benefit large building owners like the IDS and the Mall of America. These two tax cuts alone will cost the state's budget over $1.7 billion over the next ten years. The changes to section 179 expensing and R&D credit expansion will cost an additional $190 million in the next biennium.
These business tax cuts undermine our state's long-term economic well-being. Instead of providing needed investments in E-12 and higher education across the state, this bill funds the priorities of powerful special interest groups. These tax cuts are short changing the long term prosperity of Minnesota by failing to fund our state's future workforce. As we face a workforce shortage, businesses most pressing issue is finding and retaining skilled workers. We need to invest in more opportunities to create the workforce of the future, not fewer.

Social Security
The concern around the Social Security provisions relate to their cost and who benefits from them. This expensive item needs to be evaluated in light of the fact that in 2014, only 35 percent of social security benefits received by Minnesotans were taxable. Nearly half of all Minnesota households with Social Security income paid no tax on any of that income and would receive no benefit from this proposal. In addition, other seniors who have teachers, police, or nurse pensions would not have the same benefits available. Large tax cuts will disproportionately shift the costs of government to young families and the next generation.

Higher education
H. F. 4 also creates a credit for taxpayers paying back students loans and a credit and subtraction for contributions to 529 college savings plans. Ensuring that Minnesotans can afford to go to college and don't graduate with significant debt is important, but this credit isn't the best solution to that problem, nor is a non-refundable tax credit with a maximum of $500 likely to attract recent graduates to move to Minnesota. The money for these provisions would be better utilized on the front end by helping students avoid taking on the debt for which these credits are meant. Bigger investments in need based aid such as the State Grant program would have a more significant impact. That would also help ensure that the benefit from the state was going to those that truly needed it, rather than taxpayers who are already investing in 529 college savings plans.

Private Letter rulings and assessment limitations
The provisions in article 8 on private letter rulings and assessment limitations will have significant effects on how the Department of Revenue currently works with customers. Instead of the Department's focus on providing all taxpayers with the information and tools they need to comply with their obligations under Minnesota law, this bill would create a specialized guidance program – at a significant cost to the state – that only serves those who can afford it. It will increase burdens during audit and result in longer audits, more document reviews, and more auditors in more business locations disrupting the ongoing business activities. It creates unfairness by treating those who file and pay on time the same as those who file and pay late.

Failing to help Minnesota families and communities
H. F. 4 provides significant benefits to the wealthiest in Minnesota, businesses and special interests while leaving behind those that need relief most – families across the state working hard and struggling to pay the rent, buy groceries and raise their kids. It is unfortunate that this bill ignores the expansion of the Working Family Credit I proposed in January. This credit helps working families across Minnesota pay for basic needs and is a proven tool to fight poverty. This credit has enjoyed bipartisan support at the federal level and in Minnesota since studies have shown it is one of our most effective methods of reducing poverty and improving outcomes for families. Children who grow up in homes with more economic stability do better in school. Minnesota's economy depends on its most valuable asset – our people – we need to invest in all of them across all areas of the state to ensure our future prosperity.

Taconite Production Tax
H. F. 4 includes language adjusting the distribution of taconite production tax revenues that was inserted in the tax bill without receiving a public hearing. The language will cause instability in the distribution of revenues and increase funding to the taconite industry at the expense of economic development in the region.

Instead of providing funding for essential government services provided by cities and counties, the bill micromanages local decision making. Local government aid and county program aid provide stable funding sources for first responders, roads, street maintenance, plowing and essential services. We need to fund local government aid and include ongoing funding to provide stability for local governments.
Counties also need resources to help implement the state's buffer law. The Riparian Aid provided in my tax bill will ensure they have needed resources. It is also unfortunate that a program to smooth the transition for the buffer requirements in current law – buffer compensation payments for farmers – was not included.

Rather than funding local government work, this bill contains several proposals taking decision making power away from local governments, or penalizing them based on how they choose to spend their money. These provisions place limitations on the local budgeting decisions of cities, counties, and the Destination Medical Center, creating a potential barrier to infrastructure and job growth. This includes prohibiting imposing fees or taxes on merchant-provided bags, disallowing any public money for a zip rail project between Rochester and the Twin Cities, and reducing LGA for cities that allow for defendants to enter into diversion programs for minor offenses.

This bill targets the city of Minneapolis by cutting library debt service aid, reneging on a deal made by the state in 2013. This bill unnecessarily micromanages local governments and takes decisions out of their hands.

There are a number of additional provisions contained in the bill and provisions that are missing from it that are of great concern to me. The Commissioner's testimony and letters dated March 29, 2017, and April 4, 2017, have identified many of them. Ultimately, the priorities in the tax bill need to be measured against other components of the overall GOP budget. The GOP budget cuts $768 million in taxes for businesses over four years, almost three times the GOP investment in E-12 education. Instead of putting any funding in voluntary pre-kindergarten, the GOP budget cuts $53 million in taxes for the tobacco industry. The childcare assistance program receives minimal funding while the GOP budget cuts taxes for airplane fuel by $11 million. Giving an $8 million tax cut for products sold in vending machines is a larger priority in the GOP budget than increasing funding for child protection services. The GOP budget spends $65 million more on estate tax cuts for the wealthiest Minnesotans than on needed additional investments to the engines of our state, Minnesota State and the University of Minnesota.

The cost of this bill, over $1.1 billion dollars in the next biennium and $1.4 billion in the following biennium, represent a return to the irresponsible budgeting of Minnesota's past. I will not compromise on the state's hard-earned fiscal stability. I am vetoing this bill because of the bill's costs and because of the misguided represented by the provisions in this bill and the important provisions for families from my tax bill that are missing from it. I hope we can work toward a tax bill, as a component of the overall state budget that serves Minnesota families.

Sincerely,

MARK DAYTON
Governor

The Honorable Kurt L. Daudt  
Speaker of the House of Representatives

The Honorable Michelle L. Fischbach  
President of the Senate

We, the undersigned conferees for H. F. No. 140 report that we have agreed upon the items in dispute and recommend as follows:

That the Senate recede from its amendments and that H. F. No. 140 be further amended as follows:

Delete everything after the enacting clause and insert:

"ARTICLE 1
PROFESSIONAL EDUCATOR LICENSING AND STANDARDS BOARD

Section 1. Minnesota Statutes 2016, section 122A.06, is amended to read:

122A.06 DEFINITIONS.

Subdivision 1. Scope. For the purpose of sections 122A.05 to 122A.09, the terms defined in this section have the meanings given them, unless another meaning is clearly indicated.

Subd. 2. Teacher. "Teacher" means a classroom teacher or other similar professional employee required to hold a license from the Professional Educator Licensing and Standards Board of Teaching.

Subd. 3. Board. "Board" means the Professional Educator Licensing and Standards Board of Teaching.

Subd. 4. Comprehensive, scientifically based reading instruction. (a) "Comprehensive, scientifically based reading instruction" includes a program or collection of instructional practices that is based on valid, replicable evidence showing that when these programs or practices are used, students can be expected to achieve, at a minimum, satisfactory reading progress. The program or collection of practices must include, at a minimum, effective, balanced instruction in all five areas of reading: phonemic awareness, phonics, fluency, vocabulary development, and reading comprehension.

Comprehensive, scientifically based reading instruction also includes and integrates instructional strategies for continuously assessing, evaluating, and communicating the student's reading progress and needs in order to design and implement ongoing interventions so that students of all ages and proficiency levels can read and comprehend text, write, and apply higher level thinking skills. For English learners developing literacy skills, districts are encouraged to use strategies that teach reading and writing in the students' native language and English at the same time.
(b) "Fluency" is the ability of students to read text with speed, accuracy, and proper expression.

(c) "Phonemic awareness" is the ability of students to notice, think about, and manipulate individual sounds in spoken syllables and words.

(d) "Phonics" is the understanding that there are systematic and predictable relationships between written letters and spoken words. Phonics instruction is a way of teaching reading that stresses learning how letters correspond to sounds and how to apply this knowledge in reading and spelling.

(e) "Reading comprehension" is an active process that requires intentional thinking during which meaning is constructed through interactions between text and reader. Comprehension skills are taught explicitly by demonstrating, explaining, modeling, and implementing specific cognitive strategies to help beginning readers derive meaning through intentional, problem-solving thinking processes.

(f) "Vocabulary development" is the process of teaching vocabulary both directly and indirectly, with repetition and multiple exposures to vocabulary items. Learning in rich contexts, incidental learning, and use of computer technology enhance the acquiring of vocabulary.

(g) Nothing in this subdivision limits the authority of a school district to select a school's reading program or curriculum.

Subd. 5. **Field.** A "field" or "subject area" means the content area in which a teacher may become licensed to teach.

Subd. 6. **Shortage area.** "Shortage area" means:

1. licensure fields and economic development regions reported by the commissioner of education or the Professional Educator Licensing and Standards Board as experiencing a teacher shortage; and

2. economic development regions where there is a shortage of licensed teachers who reflect the racial or ethnic diversity of students in the region.

Subd. 7. **Teacher preparation program.** "Teacher preparation program" means a program approved by the Professional Educator Licensing and Standards Board for the purpose of preparing individuals for a specific teacher licensure field in Minnesota. Teacher preparation programs include traditional programs delivered by postsecondary institutions, alternative teacher preparation programs, and nonconventional teacher preparation programs.

Subd. 8. **Teacher preparation program provider.** "Teacher preparation program provider" or "unit" means an entity that has primary responsibility for overseeing and delivering a teacher preparation program.

**EFFECTIVE DATE.** This section is effective January 1, 2018.

Sec. 7. Minnesota Statutes 2016, section 122A.09, subdivision 4, is amended to read:

Subd. 4. **License and rules Licensing.** (a) The Professional Educator Licensing and Standards Board must adopt rules to license public school teachers and interns subject to chapter 14, license teachers, as defined in section 122A.15, subdivision 1, except for supervisory personnel, as defined in section 122A.15, subdivision 2. The board must not delegate its authority to make all licensing decisions with respect to candidates for teacher licensure. The board must evaluate candidates for compliance with statutory or rule requirements for licensure and develop licensure verification requirements.

(b) The board must require all candidates for teacher licensure to demonstrate a passing score on a board adopted skills examination in reading, writing, and mathematics, as a requirement for an initial professional five-year teaching license, except that the board may issue up to four initial professional one-year teaching licenses to an otherwise qualified candidate who has not yet passed the board adopted skills exam. The board must require colleges and universities offering a board approved teacher preparation program to provide remedial assistance to persons who did not achieve a qualifying score on the board adopted skills examination, including those for whom English is a second language. The requirement to pass a board adopted reading, writing, and mathematics skills examination does not apply to nonnative English speakers, as verified by qualified Minnesota school district personnel or Minnesota higher education faculty, who, after meeting the content and pedagogy requirements under this subdivision, apply for a teaching license to provide direct instruction in their native language or world language instruction under section 120B.022, subdivision 1. The Board of Teaching and the entity administering the content, pedagogy, and skills examinations must allow any individual who produces documentation of a disability in the form of an evaluation, 504 plan, or individual education program (IEP) to receive the same testing accommodations on the content, pedagogy, and skills examinations that the applicant received during their secondary or postsecondary education.

(c) The board must adopt rules to approve teacher preparation programs. The board, upon the request of a postsecondary student preparing for teacher licensure or a licensed graduate of a teacher preparation program, shall assist in resolving a dispute between the person and a postsecondary institution providing a teacher preparation program when the dispute involves an institution's recommendation for licensure affecting the person or the person's credentials. At the board's discretion, assistance may include the application of chapter 14.
(d) The board must provide the leadership and adopt rules for the redesign of teacher education programs to implement a research-based, results-oriented curriculum that focuses on the skills teachers need in order to be effective. Among other components, teacher preparation programs may use the Minnesota State Colleges and Universities program model to provide a school year-long student teaching program that combines clinical opportunities with academic coursework and in-depth student teaching experiences to offer students ongoing mentorship, coaching, and assessment help to prepare a professional development plan, and structured learning experiences. The board shall implement new systems of teacher preparation program evaluation to assure program effectiveness based on proficiency of graduates in demonstrating attainment of program outcomes. Teacher preparation programs including alternative teacher preparation programs under section 122A.245, among other programs, must include a content specific, board-approved, performance-based assessment that measures teacher candidates in three areas: planning for instruction and assessment; engaging students and supporting learning; and assessing student learning. The board's redesign rules must include creating flexible, specialized teaching licenses, credentials, and other endorsement forms to increase students' participation in language immersion programs, world language instruction, career development opportunities, work-based learning, early college courses and careers, career and technical programs, Montessori schools, and project and place-based learning, among other career and college ready learning offerings.

(e) The board must adopt rules requiring candidates for professional five-year teaching licenses to pass an examination of general pedagogical knowledge and examinations of licensure-specific teaching skills. The rules shall be effective by September 1, 2001. The rules under this paragraph also must require candidates for initial licenses to teach prekindergarten or elementary students to pass, as part of the examination of licensure-specific teaching skills, test items assessing the candidates' knowledge, skill, and ability in comprehensive, scientifically based reading instruction under section 122A.06, subdivision 4, and their knowledge and understanding of the foundations of reading development, the development of reading comprehension, and reading assessment and instruction, and their ability to integrate that knowledge and understanding.

(f) The board must adopt rules requiring teacher educators to work directly with elementary or secondary school teachers in elementary or secondary schools to obtain periodic exposure to the elementary or secondary teaching environment.

(g) The board must grant licenses to interns and to candidates for professional five-year teaching licenses based on appropriate professional competencies that are aligned with the board's licensing system and students' diverse learning needs. All teacher candidates must have preparation in English language development and content instruction for English learners in order to be able to effectively instruct the English learners in their classrooms. The board must include these licenses in a statewide differentiated licensing system that creates new leadership roles for successful experienced teachers premised on a collaborative professional culture dedicated to meeting students' diverse learning needs in the 21st century, recognizes the importance of cultural and linguistic competencies, including the ability to teach and communicate in culturally competent and aware ways, and formalizes mentoring and induction for newly licensed teachers provided through a teacher support framework.

(h) The board must design and implement an assessment system which requires a candidate for an initial license and first continuing license to demonstrate the abilities necessary to perform selected, representative teaching tasks at appropriate levels.

(i) The board must receive recommendations from local committees as established by the board for the renewal of teaching licenses. The board must require a licensed teacher who is renewing a professional five-year teaching license to include in the renewal requirements further preparation in English language development and specially designed content instruction in English for English learners.
The board must grant life licenses to those who qualify according to requirements established by the board, and suspend or revoke licenses pursuant to sections 122A.20 and 214.10. The board must not establish any expiration date for application for life licenses.

The board must adopt rules that require all licensed teachers who are renewing their professional five-year teaching licenses to include in their renewal requirements further preparation in the areas of using positive behavior interventions and in accommodating, modifying, and adapting curricula, materials, and strategies to appropriately meet the needs of individual students and ensure adequate progress toward the state’s graduation rule.

In adopting rules to license public school teachers who provide health-related services for disabled children, the board shall adopt rules consistent with license or registration requirements of the commissioner of health and the health-related boards who license personnel who perform similar services outside of the school.

The board must adopt rules that require all licensed teachers who are renewing their professional five-year teaching licenses to include in their renewal requirements further reading preparation, consistent with section 122A.06, subdivision 4. The rules do not take effect until they are approved by law. Teachers who do not provide direct instruction including, at least, counselors, school psychologists, school nurses, school social workers, audiovisual directors and coordinators, and recreation personnel are exempt from this section.

The board must adopt rules that require all licensed teachers who are renewing their professional five-year teaching licenses to include in their renewal requirements at least one hour of suicide prevention best practices in each licensure renewal period that are based on nationally recognized evidence-based programs and practices, among the continuing education credits required to renew a license under this paragraph, and further preparation, first, in understanding the key warning signs of early-onset mental illness in children and adolescents and then, during subsequent licensure renewal periods, preparation may include providing a more in-depth understanding of students’ mental illness trauma, accommodations for students’ mental illness, parents’ role in addressing students’ mental illness, Fetal Alcohol Spectrum Disorders, autism, the requirements of section 125A.0942 governing restrictive procedures, and de-escalation methods, among other similar topics.

The board must adopt rules by January 1, 2016, to license applicants under sections 122A.23 and 122A.245. The rules must permit applicants to demonstrate their qualifications through the board’s recognition of a teaching license from another state in a similar content field, completion of a state-approved teacher preparation program, teaching experience as the teacher of record in a similar licensure field, depth of content knowledge, depth of content methods or general pedagogy, subject-specific professional development and contribution to the field, or classroom performance as determined by documented student growth on normed assessments or documented effectiveness on evaluations. Sec. 3. Minnesota Statutes 2016, section 122A.18, subdivision 2, is amended to read:

Subd. 2. **Teacher and Support personnel qualifications.** (a) The Professional Educator Licensing and Standards Board of Teaching must issue licenses and credentials under its jurisdiction to persons the board finds to be qualified and competent for their respective positions, including those meeting the standards adopted under section 122A.09, subdivision 4, paragraph (a) support personnel positions in accordance with section 120B.36.

(b) The board must require a candidate for teacher licensure to demonstrate a passing score on a board adopted examination of skills in reading, writing, and mathematics, before being granted a professional five year teaching license to provide direct instruction to pupils in prekindergarten, elementary, secondary, or special education programs, except that the board may issue up to four temporary, one year teaching licenses to an otherwise qualified candidate who has not yet passed a board adopted skills exam. At the request of the employing school district or charter school, the Board of Teaching may issue an initial professional one year teaching license to an otherwise qualified teacher not passing or demonstrating a passing score on a board adopted skills examination in reading, writing, and mathematics. For purposes of this section, the initial professional one year teaching license issued by the board is limited to the current subject or content matter the teacher is employed to teach and limited to the district or charter school requesting the initial professional one year teaching license. If the board denies the request, it must provide a detailed response to the school administrator as to the reasons for the denial. The board must require colleges and universities offering a board approved teacher preparation program to make available upon request remedial assistance that includes a formal diagnostic component to those persons employed by the district who did not achieve a qualifying score on a board adopted skills examination, including those for whom English is a second language. The colleges and universities must make available assistance in the specific academic areas of candidates’ deficiency. School districts may make available upon request similar, appropriate, and timely remedial assistance that includes a formal diagnostic component to those persons employed by the district who completed their teacher education program, who did not achieve a qualifying score on a board adopted skills examination, and who received an initial professional one year teaching license to teach in Minnesota. The Board of Teaching shall report annually to the education committees of the legislature on the total number of teacher candidates during the most recent school year taking a board adopted skills examination, the number who achieve a qualifying score on the examination, the number who do not achieve a qualifying score on the examination, and the candidates who have not passed a content or pedagogy exam, disaggregated by categories of race, ethnicity, and eligibility for financial aid. (c) The Board of Teaching must grant professional five year teaching licenses only to those persons who have met board criteria for that license, which includes passing a board adopted skills examination in reading, writing, and mathematics, and the exceptions in section 122A.09, subdivision 4, paragraph (b), that are consistent with this paragraph. The requirement to pass a board adopted reading, writing, and mathematics skills examination, does not apply to nonnative English speakers, as verified by qualified Minnesota school district personnel or Minnesota higher education faculty, who, after meeting the content and pedagogy requirements under this subdivision, apply for a professional five year teaching license to provide direct instruction in their native language or world language instruction under section 120B.022, subdivision 1.

(d) All colleges and universities approved by the board of teaching to prepare persons for teacher licensure must include in their teacher preparation programs a common core of teaching knowledge and skills to be acquired by all persons recommended for teacher licensure. Among other requirements, teacher candidates must demonstrate the
knowledge and skills needed to provide appropriate instruction to English learners to support and accelerate their academic literacy, including oral academic language, and achievement in content areas in a regular classroom setting. This common core shall meet the standards developed by the interstate new teacher assessment and support consortium in its 1992 “model standards for beginning teacher licensing and development.” Amendments to standards adopted under this paragraph are covered by chapter 14. The board of teaching shall report annually to the education committees of the legislature on the performance of teacher candidates on common core assessments of knowledge and skills under this paragraph during the most recent school year.

Subd. 3. **Appeal.** A candidate whose application for license or license renewal has been denied under subdivisions 1 and 2 may appeal the decision by filing a written request with the Professional Educator Licensing and Standards Board within 30 days of notice that the board has affirmed the denial of license. (b) Programs that prepare English as a second language teachers must provide instruction in implementing research-based practices designed specifically for English learners. The programs must focus on developing English learners' academic language proficiency in English, including oral academic language, giving English learners
meaningful access to the full school curriculum, developing culturally relevant teaching practices appropriate for immigrant students, and providing more intensive instruction and resources to English learners with lower levels of academic English proficiency and varied needs, consistent with section 124D.59, subdivisions 2 and 2a.

Subd. 5. Persons eligible for employment. Sec. 17. Minnesota Statutes 2016, section 122A.20, is amended to read:

122A.20 SUSPENSION OR REVOCATION OF LICENSES.

Subdivision 1. Grounds for revocation, suspension, or denial. (a) The Professional Educator Licensing and Standards Board or Board of School Administrators, whichever has jurisdiction over a teacher's licensure, may, on the written complaint of the school board employing a teacher, a teacher organization, or any other interested person, refuse to issue, refuse to renew, suspend, or revoke a teacher's license to teach for any of the following causes:

(1) immoral character or conduct;

(2) failure, without justifiable cause, to teach for the term of the teacher's contract;

(3) gross inefficiency or willful neglect of duty;

(4) failure to meet licensure requirements; or

(5) fraud or misrepresentation in obtaining a license.

The written complaint must specify the nature and character of the charges.

(b) The Professional Educator Licensing and Standards Board or Board of School Administrators, whichever has jurisdiction over a teacher's licensure, shall refuse to issue, refuse to renew, or automatically revoke a teacher's license to teach without the right to a hearing upon receiving a certified copy of a conviction showing that the teacher has been convicted of child abuse, as defined in section 609.185, sex trafficking in the first degree under section 609.322, subdivision 1, sex trafficking in the second degree under section 609.322, subdivision 1a, engaging in hiring, or agreeing to hire a minor to engage in prostitution under section 609.324, subdivision 1, sexual abuse under section 609.342, 609.343, 609.344, 609.345, 609.3451, subdivision 3, or 617.23, subdivision 3, solicitation of children to engage in sexual conduct or communication of sexually explicit materials to children under section 609.352, interference with privacy under section 609.746 or stalking under section 609.746 or stalking under section 609.746 and the victim was a minor, using minors in a sexual performance under section 617.246, possessing pornographic works involving a
minor under section 617.247, or any other offense not listed in this paragraph that requires the person to register as a predatory offender under section 243.166, or a crime under a similar law of another state or the United States. The board shall send notice of this licensing action to the district in which the teacher is currently employed.

(c) A person whose license to teach has been revoked, not issued, or not renewed under paragraph (b), may petition the board to reconsider the licensing action if the person's conviction for child abuse or sexual abuse is reversed by a final decision of the Court of Appeals or the Supreme Court or if the person has received a pardon for the offense. The petitioner shall attach a certified copy of the appellate court's final decision or the pardon to the petition. Upon receiving the petition and its attachment, the board shall schedule and hold a disciplinary hearing on the matter under section 214.10, subdivision 2, unless the petitioner waives the right to a hearing. If the board finds that, notwithstanding the reversal of the petitioner's criminal conviction or the issuance of a pardon, the petitioner is disqualified from teaching under paragraph (a), clause (1), the board shall affirm its previous licensing action. If the board finds that the petitioner is not disqualified from teaching under paragraph (a), clause (1), it shall reverse its previous licensing action.

(d) For purposes of this subdivision, the Professional Educator Licensing and Standards Board of Teaching is delegated the authority to suspend or revoke coaching licenses.

Subd. 2. Mandatory reporting. (a) A school board must report to the Professional Educator Licensing and Standards Board of Teaching, the Board of School Administrators, or the Board of Trustees of the Minnesota State Colleges and Universities, whichever has jurisdiction over the teacher's or administrator's license, when its teacher or administrator is discharged or resigns from employment after a charge is filed with the school board under section 122A.41, subdivisions 6, clauses (1), (2), and (3), and 7, or after charges are filed that are grounds for discharge under section 122A.40, subdivision 13, paragraph (a), clauses (1) to (5), or when a teacher or administrator is suspended or resigns while an investigation is pending under section 122A.40, subdivision 13, paragraph (a) clauses (1) to (5); 122A.41, subdivisions 6, clauses (1), (2), and (3), and 7; or 626.556, or when a teacher or administrator is suspended without an investigation under section 122A.41, subdivisions 6, paragraph (a), clauses (1), (2), and (3), and 7; or 626.556. The report must be made to the appropriate licensing board within ten days after the discharge, suspension, or resignation has occurred. The licensing board to which the report is made must investigate the report for violation of subdivision 1 and the reporting board must cooperate in the investigation. Notwithstanding any provision in chapter 13 or any law to the contrary, upon written request from the licensing board having jurisdiction over the license, a board or school superintendent shall provide the licensing board with information about the teacher or administrator from the district's files, any termination or disciplinary proceeding, any settlement or compromise, or any investigative file. Upon written request from the appropriate licensing board, a board or school superintendent may, at the discretion of the board or school superintendent, solicit the written consent of a student and the student's parent to provide the licensing board with information that may aid the licensing board in its investigation and license proceedings. The licensing board's request need not identify a student or parent by name. The consent of the student and the student's parent must meet the requirements of chapter 13 and Code of Federal Regulations, title 34, section 99.30. The licensing board may provide a consent form to the district. Any data transmitted to any board under this section is private data under section 13.02, subdivision 12, notwithstanding any other classification of the data when it was in the possession of any other agency.

(b) The licensing board to which a report is made must transmit to the Attorney General's Office any record or data it receives under this subdivision for the sole purpose of having the Attorney General's Office assist that board in its investigation. When the Attorney General's Office has informed an employee of the appropriate licensing board in writing that grounds exist to suspend or revoke a teacher's license to teach, that licensing board must consider suspending or revoking or decline to suspend or revoke the teacher's or administrator's license within 45 days of receiving a stipulation executed by the teacher or administrator under investigation or a recommendation from an administrative law judge that disciplinary action be taken.
(c) The Professional Educator Licensing and Standards Board and Board of School Administrators must report to the appropriate law enforcement authorities a revocation, suspension, or agreement involving a loss of license, relating to a teacher or administrator's inappropriate sexual conduct with a minor. For purposes of this section, "law enforcement authority" means a police department, county sheriff, or tribal police department. A report by the Professional Educator Licensing and Standards Board to appropriate law enforcement authorities does not diminish, modify, or otherwise affect the responsibilities of a school board or any person mandated to report abuse under section 626.556.

Subd. 3. Immunity from liability. A school board, its members in their official capacity, and employees of the district run by the board are immune from civil or criminal liability for reporting or cooperating as required under subdivision 2, if their actions required under subdivision 2 are done in good faith and with due care.

The board must enter into these interstate agreements only after determining that the rigor of the teacher licensure or certification requirements in the adjoining state is commensurate with the rigor of Minnesota's teacher licensure requirements. The board may limit an interstate agreement to particular content fields or grade levels based on established priorities or identified shortages. This subdivision does not apply to out-of-state applicants holding only a provisional teaching license.

(b) The Professional Educator Licensing and Standards Board of Teaching must work with designated authorities in adjoining states to establish interstate teacher licensure agreements under this section.

Subd. 7. Program disapproval, suspension. If the board determines that a teacher preparation provider or licensure program fails to meet or is deficient in any of the requirements of subdivision 5, it may suspend or revoke the approval of the provider or program after it notifies the provider of the deficiencies and gives the provider an opportunity to remedy the deficiencies.
