Sec. 26. BOND SALE SCHEDULE.

The commissioner of management and budget shall schedule the sale of state general obligation bonds so that, during the biennium ending June 30, 2019, no more than $1,142,817,000 will need to be transferred from the general fund to the state bond fund to pay principal and interest due and to become due on outstanding state general obligation bonds. During the biennium, before each sale of state general obligation bonds, the commissioner of management and budget shall calculate the amount of debt service payments needed on bonds previously issued and shall estimate the amount of debt service payments that will be needed on the bonds scheduled to be sold. The commissioner shall adjust the amount of bonds scheduled to be sold so as to remain within the limit set by this section. The amount needed to make the debt service payments is appropriated from the general fund as provided in Minnesota Statutes, section 16A.641.

Sec. 27. EFFECTIVE DATE.

Except as otherwise provided, this article is effective the day following final enactment.

ARTICLE 2
MISCELLANEOUS

Section 1. Minnesota Statutes 2016, section 16A.967, is amended to read:

16A.967 LEWIS AND CLARK APPROPRIATION BONDS.

Subdivision 1. Definitions. (a) The definitions in this subdivision apply to this section.

(b) "Appropriation bond" or "bond" means a bond, note, or other similar instrument of the state payable during a biennium from one or more of the following sources:

1. money appropriated by law from the general fund in any biennium for debt service due with respect to obligations described in subdivision 2, paragraph (e) subdivisions 2a and 2b;
(2) proceeds of the sale of obligations described in subdivision 2, paragraph (c) subdivisions 2a and 2b:

(3) payments received for that purpose under agreements and ancillary arrangements described in subdivision 2, paragraph (e) (d): and

(4) investment earnings on amounts in clauses (1) to (3).

(c) "Debt service" means the amount payable in any biennium of principal, premium, if any, and interest on appropriation bonds.

Subd. 2. Authorization to issue appropriation bonds.  (a) Subject to the limitations of this subdivision, the commissioner may sell and issue appropriation bonds of the state under this section for public purposes as provided by law, including, in particular, the financing of the land acquisition, design, engineering, and construction of facilities and infrastructure necessary to complete the next phase of the Lewis and Clark Regional Water System project, including completion of the pipeline to Magnolia, extension of the project to the Lincoln Pipestone Rural Water System connection near Adrian, and engineering, design, and easement acquisition for the final phase of the project to Worthington. No bonds shall be sold until the commissioner determines that a nonstate match of at least $9,000,000 is committed to this project phase. Grant agreements entered into under this section must provide for reimbursement to the state from any federal money provided for the project, consistent with the Lewis and Clark Regional Water System, Inc., agreement.

(b) The appropriation bonds may be issued and sold only after the commissioner determines that the construction and administration for work done on the project will comply with (1) all federal requirements and regulations associated with the Lewis and Clark Rural Water System Act of 2000, and (2) the cooperative agreement between the United States Department of the Interior and the Lewis and Clark Regional Water System, Inc. Proceeds of the appropriation bonds must be credited to a special appropriation Lewis and Clark bond proceeds fund in the state treasury. All income from investment of the bond proceeds, as estimated by the commissioner, is appropriated to the commissioner for the payment of principal and interest on the appropriation bonds.

(e) Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money, not to exceed $19,000,000 net of costs of issuance, for the purposes as provided under paragraph (a), and pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under paragraph (e).

(d) Appropriation bonds may be issued in one or more issues or series on the terms and conditions the commissioner determines to be in the best interests of the state, but the term on any series of appropriation bonds may not exceed 25 years. The appropriation bonds of each issue and series thereof shall be dated and bear interest, and may be includable in or excludable from the gross income of the owners for federal income tax purposes.

(d) At the time of, or in anticipation of, issuing the appropriation bonds, and at any time thereafter, so long as the appropriation bonds are outstanding, the commissioner may enter into agreements and ancillary arrangements relating to the appropriation bonds, including but not limited to trust indentures, grant agreements, lease or use agreements, operating agreements, management agreements, liquidity facilities, remarketing or dealer agreements, letter of credit agreements, insurance policies, guaranty agreements, reimbursement agreements, indexing agreements, or interest exchange agreements. Any payments made or received according to the agreement or ancillary arrangement shall be made from or deposited as provided in the agreement or ancillary arrangement. The determination of the commissioner included in an interest exchange agreement that the agreement relates to an appropriation bond shall be conclusive.
The commissioner may enter into written agreements or contracts relating to the continuing disclosure of information necessary to comply with or facilitate the issuance of appropriation bonds in accordance with federal securities laws, rules, and regulations, including Securities and Exchange Commission rules and regulations in Code of Federal Regulations, title 17, section 240.15c 2-12. An agreement may be in the form of covenants with purchasers and holders of appropriation bonds set forth in the order or resolution authorizing the issuance of the appropriation bonds, or a separate document authorized by the order or resolution.

The appropriation bonds are not subject to chapter 16C.

Subd. 2a. Project authorization. Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money to the Public Facilities Authority under subdivision 7, paragraph (a), not to exceed $19,000,000 net of costs of issuance, for the purposes as provided under this subdivision, and pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under subdivision 2, paragraph (d). The bonds authorized by this subdivision are for the purposes of financing the land acquisition, design, engineering, and construction of facilities and infrastructure necessary to complete Phase 2 of the Lewis and Clark Regional Water System project, including completion of the pipeline to Magnolia; extension of the project to the Lincoln-Pipestone Rural Water System connection near Adrian; engineering, design, and easement acquisition for the final phase of the project to Worthington; and to begin and proceed with Phase 3, described in subdivision 2b. No bonds shall be sold under this subdivision until the commissioner determines that a nonstate match of at least $9,000,000 is committed to this project phase. Upon certification by the Lewis and Clark Joint Powers Board that the bond sale authorization provided by this subdivision has fully met the needs of Phase 2 of the project, and to the extent there is additional authorization remaining, this authorization is also available for the purposes of and on the same conditions as subdivision 2b.

Subd. 2b. Additional project authorization. Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money to the Public Facilities Authority under subdivision 7, paragraph (b), not to exceed $3,500,000 net of costs of issuance, for the purposes as provided under this subdivision, and pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under subdivision 2, paragraph (d). The bonds authorized by this subdivision are for the purposes of financing the land acquisition, design, engineering, and construction of facilities and infrastructure necessary to complete Phase 3 of the Lewis and Clark Regional Water System project, including extension of the project from the Lincoln-Pipestone Rural Water System connection near Adrian to Worthington, construction of a reservoir in Nobles County and a meter building in Worthington, and acquisition and installation of a supervisory control and data acquisition (SCADA) system. No bonds shall be sold under this subdivision until the commissioner determines that a nonstate match of at least $9,000,000 is committed to the final phase of the project.

Subd. 3. Form; procedure. (a) Appropriation bonds may be issued in the form of bonds, notes, or other similar instruments, and in the manner provided in section 16A.672. In the event that any provision of section 16A.672 conflicts with this section, this section shall control.

(b) Every appropriation bond shall include a conspicuous statement of the limitation established in subdivision 6.

(c) Appropriation bonds may be sold at either public or private sale upon such terms as the commissioner shall determine are not inconsistent with this section and may be sold at any price or percentage of par value. Any bid received may be rejected.

(d) Appropriation bonds must bear interest at a fixed or variable rate.

(e) Notwithstanding any other law, appropriation bonds issued under this section shall be fully negotiable.
Subd. 4. **Refunding bonds.** The commissioner may issue appropriation bonds for the purpose of refunding any appropriation bonds then outstanding, including the payment of any redemption premiums on the bonds, any interest accrued or to accrue to the redemption date, and costs related to the issuance and sale of the refunding bonds. The proceeds of any refunding bonds may, in the discretion of the commissioner, be applied to the purchase or payment at maturity of the appropriation bonds to be refunded, to the redemption of the outstanding appropriation bonds on any redemption date, or to pay interest on the refunding bonds and may, pending application, be placed in escrow to be applied to the purchase, payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under section 11A.24. The income earned or realized on the investment may also be applied to the payment of the appropriation bonds to be refunded or interest or premiums on the refunded appropriation bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been fully satisfied, any balance of the proceeds and any investment income may be returned to the general fund or, if applicable, the special appropriation Lewis and Clark bond proceeds fund for use in any lawful manner. All refunding bonds issued under this subdivision must be prepared, executed, delivered, and secured by appropriations in the same manner as the appropriation bonds to be refunded.

Subd. 5. **Appropriation bonds as legal investments.** Any of the following entities may legally invest any sinking funds, money, or other funds belonging to them or under their control in any appropriation bonds issued under this section:

1. the state, the investment board, public officers, municipal corporations, political subdivisions, and public bodies;

2. banks and bankers, savings and loan associations, credit unions, trust companies, savings banks and institutions, investment companies, insurance companies, insurance associations, and other persons carrying on a banking or insurance business; and

3. personal representatives, guardians, trustees, and other fiduciaries.

Subd. 6. **No full faith and credit; state not required to make appropriations.** The appropriation bonds are not public debt of the state, and the full faith, credit, and taxing powers of the state are not pledged to the payment of the appropriation bonds or to any payment that the state agrees to make under this section. Appropriation bonds shall not be obligations paid directly, in whole or in part, from a tax of statewide application on any class of property, income, transaction, or privilege. Appropriation bonds shall be payable in each fiscal year only from amounts that the legislature may appropriate for debt service for any fiscal year, provided that nothing in this section shall be construed to require the state to appropriate money sufficient to make debt service payments with respect to the appropriation bonds in any fiscal year. Appropriation bonds shall be canceled and shall no longer be outstanding on the earlier of (1) the first day of a fiscal year for which the legislature shall not have appropriated amounts sufficient for debt service, or (2) the date of final payment of the principal of and interest on the appropriation bonds.

Subd. 7. **Appropriation of proceeds.** (a) The proceeds of appropriation bonds issued under subdivision 2a and interest credited to the special appropriation Lewis and Clark bond proceeds fund are appropriated as follows:

1. to the commissioner for a grant to the Lewis and Clark Joint Powers Board for payment of capital expenses for the purposes provided by subdivision 2, paragraph (a), 2a, and

2. to the commissioner for debt service on the bonds including capitalized interest, nonsalary costs of issuance of the bonds, costs of credit enhancement of the bonds and payments under any agreements entered into under subdivision 2, paragraph (a) (d), each as permitted by state and federal law, and such proceeds may be granted, loaned, or otherwise provided for the public purposes provided by subdivision 2, paragraph (a).
(b) The proceeds of appropriation bonds issued under subdivision 2b and interest credited to the special appropriation Lewis and Clark bond proceeds fund are appropriated as follows:

(1) to the Public Facilities Authority for a grant to the Lewis and Clark Joint Powers Board for payment of capital expenses as specified in subdivision 2b; and

(2) to the commissioner for debt service on the bonds including capitalized interest, nonsalary costs of issuance of the bonds, costs of credit enhancement of the bonds, and payments under any agreements entered into under subdivision 2, paragraph (d), each as permitted by state and federal law.

Subd. 8. Appropriation for debt service and other purposes. (a) An amount, up to $1,351,000 needed to pay principal and interest on appropriation bonds issued under this section subdivision 2a is appropriated each fiscal year from the general fund to the commissioner, subject to repeal, unallotment under section 16A.152, or cancellation, otherwise pursuant to subdivision 6, for deposit into the bond payments account established for such purpose in the special Lewis and Clark appropriation bond proceeds fund. The appropriation is available beginning in fiscal year 2017 and through fiscal year 2038.

(b) An amount up to $265,000 needed to pay principal and interest on appropriation bonds issued under subdivision 2b is appropriated each fiscal year from the general fund to the commissioner, subject to repeal, unallotment under section 16A.152, or cancellation, otherwise pursuant to subdivision 6, for deposit into the bond payments account established for such purpose in the special Lewis and Clark appropriation bond proceeds fund. The appropriation is available beginning in fiscal year 2018 and through fiscal year 2039.

Subd. 9. Waiver of immunity. The waiver of immunity by the state provided for by section 3.751, subdivision 1, shall be applicable to the appropriation bonds and any ancillary contracts to which the commissioner is a party.

Sec. 2. [16C.054] ACCOMMODATION FOR HARD-OF-HEARING IN STATE-FUNDED CAPITAL PROJECTS.

Subdivision 1. Definition. For purposes of this section, "public gathering space" means a space that is constructed or renovated as part of the project: (1) that accommodates and is intended to be used for gatherings of 15 or more people; and (2) in which audible communications are integral to a use of the space.

Subd. 2. Accommodation for hard-of-hearing in state-funded capital projects. No commissioner or agency head may approve a contract or grant state funds for a capital improvement project to construct or renovate a public gathering space in a building unless:

(1) the project includes equpping the public gathering space, if the public gathering space has or will have a permanent audio-amplification system, with audio-induction loops to provide an electromagnetic signal for hearing aids and cochlear implants; and

(2) the project includes meeting the American National Standards Institute Acoustical Performance Criteria, Design Requirements and Guidelines for Schools on maximum background noise level and reverberation times in the public gathering space.

Subd. 3. Exemption. A commissioner or agency head may approve a contract or grant state funds for a capital improvement project to construct or renovate a building that does not meet a requirement of subdivision 2, when the commissioner or agency head determines that meeting that requirement is not feasible, is in conflict with other requirements in law, is in conflict with other project requirements, or that costs outweigh the benefits. The commissioner must consult with the Commission of Deaf, Deafblind, and Hard-of-Hearing Minnesotans before making the determination.
Subd. 4. Exemption reports. A commissioner or agency head who determines a contract is exempt under subdivision 3 must report the exemption to the Commission of Deaf, Deafblind, and Hard-of-Hearing Minnesotans within three months of making the determination. The chair of the Commission of Deaf, Deafblind, and Hard-of-Hearing Minnesotans shall submit a report to the chairs and ranking minority members of the committees in the house of representatives and senate with jurisdiction over state contracting by January 30 of even-numbered years beginning in 2020 identifying each exemption reported in the previous two calendar years.

EFFECTIVE DATE. (a) This section is effective the day following final enactment, and, except as provided in paragraph (b), applies to any project funded with an appropriation enacted after January 1, 2017.

(b) This section does not apply to a project that has completed schematic design on the effective date of this section, but the commissioner and agency heads are encouraged to comply with it.

Sec. 3. Minnesota Statutes 2016, section 84.946, subdivision 2, is amended to read:

Subd. 2. Standards. (a) An appropriation for asset preservation may be used only for a capital expenditure on a capital asset previously owned by the state, within the meaning of generally accepted accounting principles as applied to public expenditures. The commissioner of natural resources will consult with the commissioner of management and budget to the extent necessary to ensure this and will furnish the commissioner of management and budget a list of projects to be financed from the account in order of their priority. The legislature assumes that many projects for preservation and replacement of portions of existing capital assets will constitute betterments and capital improvements within the meaning of the Constitution and capital expenditures under generally accepted accounting principles, and will be financed more efficiently and economically under this section than by direct appropriations for specific projects.

(b) An appropriation for asset preservation must not be used to acquire land or to acquire or construct buildings or other facilities.

(c) Capital budget expenditures for natural resource asset preservation and replacement projects must be for one or more of the following types of capital projects that support the existing programmatic mission of the department: code compliance including health and safety, Americans with Disabilities Act requirements, hazardous material abatement, access improvement, or air quality improvement; building energy efficiency improvements using current best practices; building or infrastructure repairs necessary to preserve the interior and exterior of existing buildings; projects to remove life safety hazards such as building code violations or structural defects; or renovation of other existing improvements to land, including but not limited to trails and bridges.

(d) Up to ten percent of an appropriation awarded under this section may be used for design costs for projects eligible to be funded from this account in anticipation of future funding from the account.

Sec. 4. Minnesota Statutes 2016, section 85.34, subdivision 1, is amended to read:

Subdivision 1. Upper bluff; lease terms. The commissioner of natural resources with the approval of the Executive Council may lease for purposes of restoration, preservation, historical, recreational, educational, and commercial use and development, that portion of Fort Snelling State Park known as the upper bluff consisting of officer's row, area J, the polo grounds, the adjacent golf course, and all buildings and improvements located thereon, all lying within an area bounded by Minneapolis-St. Paul International Airport, Trunk Highways numbered 5 and 55, and Bloomington Road. The lease or leases shall be in a form approved by the attorney general and for a term of not to exceed 99 years. The lease or leases may provide for the provision of capital improvements or other performance by the tenant or tenants in lieu of all or some of the payments of rent that would otherwise be required. Notwithstanding the continuing ownership of the upper bluff by the state, any lease of one or more buildings improved with state general obligation bond proceeds that exceeds 50 years shall be treated as a sale of the buildings
for purposes of section 16A.695, subdivision 3. Any disposition proceeds payable to the commissioner upon execution of a lease relating to state-bond-financed buildings at the upper bluff shall be applied according to section 16A.695, subdivision 3, and used to pay, redeem, or defease state general obligation bonds issued for purposes of improving those buildings. Any lease revenues paid to the commissioner subsequent to the payment, redemption, or defeasance of state general obligation bonds shall be used by the commissioner as further described in this section.

Sec. 5. Minnesota Statutes 2016, section 174.50, subdivision 5, is amended to read:

Subd. 5. Certification and disbursal for project of political subdivision. Before disbursement of an appropriation made from the fund to the commissioner of transportation for grants to subdivisions of the state, the commissioner shall certify that:

(1) that the project for which the grant is made has been reviewed as provided in subdivision 4;

(2) that the project conforms to the program authorized by the appropriation law and rules adopted by the Department of Transportation consistent therewith; and

(3) that the financing of any estimated cost of the project in excess of the amount of the grant is assured by the appropriation of the proceeds of bonds or other funds of the subdivision, or by a grant from an agency of the federal government, within the amount of funds then appropriated to that agency and allocated by it to projects within the state, and by an irrevocable undertaking, in a resolution of the governing body of the subdivision, to use all funds so made available exclusively for the project, and to pay any additional amount by which the cost exceeds the estimate through appropriation to the construction fund of additional funds or the proceeds of additional bonds to be issued by the subdivision.

Sec. 6. Minnesota Statutes 2016, section 174.50, subdivision 6b, is amended to read:

Subd. 6b. Bridge costs in smaller cities. (a) The commissioner may make grants from the state transportation fund to a home rule or statutory city with a population of 5,000 or less for design, engineering, and construction of bridges on city streets.

(b) Grants under this subdivision are subject to the procedures and criteria established under subdivisions 5, 6, and 7.

(3) Grants may be used for:

(1) 100 percent of the design and engineering costs that are in excess of $10,000;

(2) 100 percent of the bridge approach work costs that are in excess of $10,000; and

(3) 100 percent of the bridge construction work costs.

Sec. 7. Minnesota Statutes 2016, section 174.50, subdivision 6c, is amended to read:

Subd. 6c. Fracture-critical bridges. (a) The commissioner may make a grant to any political subdivision for replacement or rehabilitation of a fracture-critical bridge. To be eligible for a grant under this subdivision, the project must produce a bridge structure:

(1) that is no longer classified as fracture critical, by having alternate load paths; and

(2) whose failure of a main component will not result in the collapse of the bridge.

(b) A grant under this subdivision is subject to the procedures and criteria established under subdivisions 5 and 6.
Sec. 8. Minnesota Statutes 2016, section 174.50, subdivision 7, is amended to read:

Subd. 7. Bridge grant program; rulemaking. (a) The commissioner of transportation shall develop rules, procedures for application for grants, conditions of grant administration, standards, and criteria as provided under subdivision 6, including bridge specifications, in cooperation with road authorities of political subdivisions, for use in the administration of funds appropriated to the commissioner and for the administration of grants to subdivisions. Grants under this section are subject to the procedures and criteria established in this subdivision and in subdivisions 5 and 6.

(b) The maximum use of standardized bridges is encouraged. Regardless of the size of the existing bridge, a bridge or replacement bridge is eligible for assistance from the state transportation fund if a hydrological survey indicates that the bridge or replacement bridge must be ten feet or more in length.

(c) As part of the standards or rules, the commissioner shall, in consultation with local road authorities, establish a minimum distance between any two bridges that cross over the same river, stream, or waterway, so that only one of the bridges is eligible for a grant under this section. As appropriate, the commissioner may establish exceptions from the minimum distance requirement or procedures for obtaining a variance.

(d) Political subdivisions may use grants made under this section to construct or reconstruct bridges, including but not limited to:

(1) matching federal aid grants to construct or reconstruct key bridges;

(2) paying the costs to abandon an existing bridge that is deficient and in need of replacement but where no replacement will be made; and

(3) paying the costs to construct a road or street to facilitate the abandonment of an existing bridge if the commissioner determines that the bridge is deficient, and that construction of the road or street is more economical than replacement of the existing bridge.

(e) Funds appropriated to the commissioner from the Minnesota state transportation fund shall be segregated from the highway tax user distribution fund and other funds created by article XIV of the Minnesota Constitution.

(f) The commissioner is prohibited from awarding a grant under this section for a local bridge replacement or rehabilitation project with a total project cost estimate of $7,000,000 or more.

(g) Notwithstanding paragraph (f), the commissioner may award a grant under this section for a portion of a local bridge replacement or rehabilitation project with a total project cost estimate of $7,000,000 or more if every other local bridge replacement or rehabilitation project on the commissioner's priority list with a total project cost estimate of less than $7,000,000 has been fully funded.

Sec. 9. [219.016] HAZARDOUS MATERIALS RAIL SAFETY.

Subdivision 1. Program established. A hazardous materials rail safety program is established for the purpose of reducing the risks associated with the transportation of oil, ethanol, and other hazardous material by rail.

Subd. 2. Accounts established. Two hazardous materials rail safety program accounts are created, one in the special revenue fund and one in the bond proceeds fund. The account in the special revenue fund consists of money as provided by law, and any other money donated, allotted, transferred, or otherwise provided to the account. Money in each account is appropriated to the commissioner of transportation to make grants as provided in this section. Money in the accounts is available until spent, notwithstanding section 16A.28 or 16A.642.
Subd. 3. Eligible applicant. A county, statutory or home rule charter city, or town that is responsible for establishing and maintaining public highway-rail grade crossings on rail corridors transporting crude oil and other hazardous materials may apply to the commissioner for financial assistance under this section.

Subd. 4. Eligible project. (a) A project is eligible for a grant from the account in the bond proceeds fund if the project is for the acquisition or betterment of public land, buildings, and other public improvements of a capital nature within the meaning of the Minnesota Constitution, article XI, section 5, clause (a) or (i), including capital costs associated with hazardous materials rail safety projects on public highway-rail grade crossings. Qualifying capital costs include but are not limited to upgrades to existing protection systems, the closing of crossings and necessary roadwork, and reconstruction of at-grade crossings to full grade separations.

(b) A project is eligible for a grant from the account in the special revenue fund if it is for purposes described in paragraph (a) or other capital facility improvement purposes that support the purposes for which this grant program is established, including capital costs associated with planning, engineering, administration, and construction of public highway-rail grade crossing improvements on rail corridors transporting crude oil and other hazardous materials. Improvements may include upgrades to existing protection systems, the closing of crossings and necessary roadwork, and reconstruction of at-grade crossings to full grade separations.

Subd. 5. Grants; criteria for grant award. The commissioner must consider the following criteria to evaluate applications for a grant award under this section:

1. whether the crossing was identified as a potential candidate for grade separation in the Department of Transportation's crude by rail grade crossing study (Improvements to Highway Grade Crossings and Rail Safety, December 2014);
2. roadway traffic volumes and speeds;
3. train volumes and speeds;
4. adjacent land use;
5. crash history;
6. use of the crossing by emergency vehicles;
7. use of the crossing by vehicles carrying hazardous materials; and
8. local financial contributions to the project.

Subd. 6. Process. The commissioner must develop forms and procedures for soliciting and reviewing applications for grants under this section. An applicant must apply for a grant in the manner and at the times determined by the commissioner. The grant agreement must be approved by the commissioner of management and budget and is subject to cancellation under subdivision 7.

Subd. 7. Grant cancellation. If the commissioner determines that a grantee is unable to proceed with an approved project or has not expended or obligated the grant money within four years of entering into the grant agreement with the commissioner, the commissioner must cancel the grant. Money canceled under this subdivision is available for the commissioner to make other grants under this section.
Sec. 10. Minnesota Statutes 2016, section 446A.072, is amended to read:

446A.072 WASTEWATER WATER INFRASTRUCTURE FUNDING PROGRAM.

Subdivision 1. Establishment of program. The authority will establish a wastewater water infrastructure funding program to provide supplemental assistance to governmental units receiving funding through the clean water revolving fund program, the drinking water revolving fund program, or the United States Department of Agriculture Rural Economic and Community Development's (USDA/RECD) Water and Waste Disposal Loans and Grants program for the predesign, design, and construction of municipal wastewater treatment and drinking water systems, including purchase of land and easements. The purpose of the program is to assist governmental units demonstrating financial need to build cost-effective projects to address existing environmental or public health problems. To implement the program, the authority shall establish a wastewater water infrastructure fund to provide grants and loans for the purposes authorized under title VI of the Federal Water Pollution Control Act and the federal Safe Drinking Water Act. The fund shall be credited with all investment income from the fund and all repayments of loans, grants, and penalties.

Subd. 3. Program administration. (a) The authority shall provide supplemental assistance, as provided in subdivision 5a to governmental units:

1. whose projects are listed on the Pollution Control Agency's project priority list or the Department of Health's project priority list;

2. that demonstrate their projects are a cost-effective solution to an existing environmental or public health problem; and

3. whose projects are approved by the USDA/RECD or certified by the commissioner of the Pollution Control Agency or the Department of Health.

(b) For a governmental unit receiving grant funding from the USDA/RECD, applications must be made to the USDA/RECD with additional information submitted to the authority as required by the authority. Eligible project costs and affordability criteria shall be determined by the USDA/RECD.

(c) For a governmental unit not receiving grant funding from the USDA/RECD, application must be made to the authority on forms prescribed by the authority for the clean water revolving fund program or the drinking water revolving fund program with additional information as required by the authority. In accordance with section 116.182, the Pollution Control Agency or Department of Health shall:

1. calculate the essential project component percentage based on the portion of project costs necessary to convey or treat the existing wastewater flows and loadings or, for drinking water projects, to provide safe drinking water to meet existing needs, which must be multiplied by the total project cost to determine the eligible project cost for the program under this section; and

2. review and certify approved projects to the authority.

(d) Each fiscal year the authority shall make funds available for projects based on their ranking on the Pollution Control Agency's project priority list or the Department of Health's project priority list. The authority shall reserve funds for a project when the applicant receives a funding commitment from the United States Department of Agriculture Rural Development (USDA/RECD) or submits plans and specifications to the project is certified by the Pollution Control Agency or Department of Health. Funds must be reserved in an amount based on the project cost estimate submitted to the authority prior to the appropriation of the funds and awarded based on the lesser of that amount or the as-bid cost when the project is certified or the as-bid cost, whichever is less.
Subd. 5a. **Type and amount of assistance.** (a) For a governmental unit receiving grant funding from the USDA/RECD, the authority may provide assistance in the form of a grant of up to 65 percent of the eligible grant need determined by USDA/RECD. A governmental unit may not receive a grant under this paragraph for more than $4,000,000 per project or $5,000,000 per existing connection, whichever is less, unless specifically approved by law.

(b) For a governmental unit receiving a loan from the clean water revolving fund under section 446A.07, the authority may provide assistance under this section in the form of a grant if the average annual residential wastewater system cost after completion of the project would otherwise exceed 1.4 percent of the median household income of the project service area. In determining whether the average annual residential wastewater system cost would exceed 1.4 percent, the authority must consider the total costs associated with building, operating, and maintaining the wastewater system, including existing wastewater debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the clean water revolving fund loan under section 446A.07, subdivision 7. The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential wastewater system cost to 1.4 percent of median household income in the project service area, to a maximum of $4,000,000 per project or $5,000,000 per existing connection, whichever is less, unless specifically approved by law.

(c) For a governmental unit receiving a loan from the drinking water revolving fund under section 446A.081, the authority may provide assistance under this section in the form of a grant if the average annual residential drinking water system cost after completion of the project would otherwise exceed 1.2 percent of the median household income of the project service area. In determining whether the average annual residential drinking water system cost would exceed 1.2 percent, the authority must consider the total costs associated with building, operating, and maintaining the drinking water system, including existing drinking water debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the drinking water revolving fund loan under section 446A.081, subdivision 8, paragraph (c). The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential drinking water system cost to 1.2 percent of median household income in the project service area, to a maximum of $5,000,000 per project or $20,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

(d) Notwithstanding the limits in paragraphs (a) and (b), for a governmental unit receiving supplemental assistance under this section after January 1, 2002, if the authority determines that the governmental unit's construction and installation costs are significantly increased due to geological conditions of crystalline bedrock or karst areas and discharge limits that are more stringent than secondary treatment, the maximum award under this section shall not be more than $25,000 per existing connection.

Subd. 5b. **Special assessment deferral.** A governmental unit receiving a loan under subdivision 5a that levies special assessments to repay the loan under subdivision 5a or section 446A.07 may defer payment of such assessments under the provisions of sections 435.193 to 435.195.

Subd. 6. **Disbursements.** Disbursements of grants or loans awarded under this section by the authority to recipients must be made for eligible project costs as incurred by the recipients, and must be made by the authority in accordance with the project financing agreement and applicable state and federal laws and rules governing the payments.
Subd. 7. Loan repayments. Notwithstanding the limitations set forth in section 475.54, subdivision 1, this subdivision shall govern the maturities and mandatory sinking fund redemptions of the loans under this section. A governmental unit receiving a loan under this section shall repay the loan in semiannual payment amounts determined by the authority. The payment amount must be based on the average payments on the governmental unit’s clean water revolving fund loan or, if greater, the minimum amount required to fully repay the loan by the maturity date. Payments must begin within one year of the date of the governmental unit’s final payment on the clean water revolving fund loan. The final maturity date of the loan under this section must be no later than 20 years from the date of the first payment on the loan under this section and no later than 40 years from the date of the first payment on the clean water revolving fund loan.

Subd. 8. Eligibility. A governmental unit is eligible for assistance under this section only after applying for grant funding from other sources and funding has been obtained, rejected, or the authority has determined that the potential funding is unlikely.

Subd. 9. Funding limitation. Supplemental assistance may not be used to reduce the sewer service charges of a significant wastewater contributor, industrial user that has a separate service charge agreement with the recipient, or a single user that has caused the need for the project or whose current or projected flow and load exceed usage one-half of the current wastewater treatment plant or drinking water system capacity.

Subd. 11. Report on needs. By February 1 of each even-numbered year, the authority, in conjunction with the Pollution Control Agency and the Department of Health, shall prepare a report to the Finance Division of the Senate Environment and Natural Resources Committee and the House of Representatives Environment and Natural Resources Finance Committee on wastewater and drinking water funding assistance needs of governmental units under this section.

Subd. 12. System replacement fund. Each governmental unit receiving a loan or grant under this section shall establish a system replacement fund and shall annually deposit a minimum of $.50 per 1,000 gallons of flow for major rehabilitation or expansion of the treatment wastewater or drinking water system or replacement of the treatment system at the end of its useful life. Money must remain in the account for the life of the corresponding project loan from the authority or USDA/RECD, unless use of the fund is approved in writing by the authority for major rehabilitation, expansion, or replacement of the treatment wastewater or drinking water system. By March 1 each year during the life of the loan, each recipient shall submit a report to the authority regarding the amount deposited and the fund balance for the prior calendar year. A recipient is not required to maintain a fund balance greater than the amount of the grant received. Failure to comply with the requirements of this subdivision shall result in the authority assessing a penalty fee to the recipient equal to one percent of the supplemental assistance amount for each year of noncompliance. Failure to make the required deposit or pay the penalty fee as required constitutes a default on the loan.

Subd. 14. Consistency with land use plans. A governmental unit applying for a project in an unsewered area shall include in its application to the authority a certification from the county in which the project is located that:

1. the project is consistent with the county comprehensive land use plan, if the county has adopted one;

2. the project is consistent with the county water plan, if the county has adopted one; and

3. the county has adopted specific land use ordinances or controls so as to meet or exceed the requirements of Minnesota Rules, part 7082.0050.

Subd. 2. **Grant application.** Application for a grant must be made to the authority on forms prescribed by the authority, for the total maximum daily load grant program, with additional information as required by the authority, including a project schedule and cost estimate for the work necessary to comply with the point source wasteload allocation requirements listed in subdivision 1. The Pollution Control Agency shall:

1. in accordance with section 116.182, calculate the essential project component percentage, which must be multiplied by the total project cost to determine the eligible project cost; and
2. review and certify to the authority those projects that have plans and specifications approved under section 115.03, subdivision 1, paragraph (f).

Subd. 3. **Project priorities.** When money is appropriated for grants under this program, the authority shall accept applications under this program during the month of July and. Sec. 12. Minnesota Statutes 2016, section 237.163, subdivision 2, is amended to read:

Subd. 2. **Generally.** (a) Subject to this section, a telecommunications right-of-way user authorized to do business under the laws of this state or by license of the Federal Communications Commission may construct, maintain, and operate small wireless facilities, conduit, cable, switches, and related appurtenances and facilities along, across, upon, above, and under any public right-of-way.

(b) Subject to this section, a local government unit has the authority to manage its public rights-of-way and to recover its rights-of-way management costs. Except as provided in subdivisions 3a, 3b, and 3c, the authority defined in this section may be exercised at the option of the local government unit. The exercise of this authority and is not mandated under this section. A local government unit may, by ordinance:

(1) require a telecommunications right-of-way user seeking to excavate or obstruct a public right-of-way for the purpose of providing telecommunications services to obtain a right-of-way permit to do so and to impose permit conditions consistent with the local government unit's management of the right-of-way;

(2) require a telecommunications right-of-way user using, occupying, or seeking to use or occupy a public right-of-way for the purpose of providing telecommunications services to register with the local government unit by providing the local government unit with the following information:

(i) the applicant's name, gopher state one-call registration number under section 216D.03, address, and telephone and facsimile numbers;

(ii) the name, address, and telephone and facsimile numbers of the applicant's local representative;

(iii) proof of adequate insurance; and

(iv) other information deemed reasonably necessary by the local government unit for the efficient administration of the public right-of-way; and

(3) require telecommunications right-of-way users to submit to the local government unit plans for construction and major maintenance that provide reasonable notice to the local government unit of projects that the telecommunications right-of-way user expects to undertake that may require excavation and obstruction of public rights-of-way.

(c) A local government unit may also require a telecommunications right-of-way user that is registered with the local government unit pursuant to paragraph (b), clause (2), to periodically update the information in its registration application.

(d) Notwithstanding sections 394.34 and 462.355, or any other law, a local government unit must not establish a moratorium with respect to:

(1) filing, receiving, or processing applications for right-of-way or small wireless facility permits; or
(2) issuing or approving right-of-way or small wireless facility permits.

(e) A telecommunications right-of-way user may place a new wireless support structure or collocate small wireless facilities on wireless support structures located within a public right-of-way, subject to the approval procedures under this section and, for collocation on wireless support structures owned by a local government unit, the reasonable terms, conditions, and rates set forth under this section. A local government unit may prohibit, regulate, or charge a fee to install wireless support structures or to collocate small wireless facilities only as provided in this section.

(f) The placement of wireless support structures and small wireless facilities is a permitted use in a public right-of-way, except that a local government unit may require a person to obtain a special or conditional land use permit to install a new wireless support structure for the siting of a small wireless facility on property zoned and used exclusively for single-family residential use or within a historic district established by state law or city ordinance as of the date of application for a small wireless facility permit. This paragraph does not apply to areas outside a public right-of-way that are zoned and used exclusively for single-family residential use.

EFFECTIVE DATE. This section is effective the day following final enactment.

Sec. 13. Minnesota Statutes 2016, section 237.163, is amended by adding a subdivision to read:

Subd. 3a. Small wireless facility permits; general. (a) A local government unit:

(1) may require a telecommunications right-of-way user to obtain a permit or permits under this section to place a new wireless support structure or collocate a small wireless facility in a public right-of-way managed by the local government unit;

(2) must not require an applicant for a small wireless facility permit to provide any information that:

(i) has previously been provided to the local government unit by the applicant in an application for a small wireless permit; and

(ii) is discriminatory in terms of the type of information the local government unit requires from a provider of nonwireless telecommunications services, except for information related to demonstrating compliance with applicable Federal Communications Commission regulations governing radio frequency exposure, or other information required by this section;

(3) must ensure that any application for a small wireless facility permit is processed on a nondiscriminatory basis; and

(4) must specify that the term of a small wireless facility permit is equal to the length of time that the small wireless facility is in use, unless the permit is revoked under this section.

(b) An applicant may file a consolidated permit application to collocate up to 15 small wireless facilities, or a greater number if agreed to by a local government unit, provided that all the small wireless facilities in the application:

(1) are located within a two-mile radius;

(2) consist of substantially similar equipment; and

(3) are to be placed on similar types of wireless support structures.
In rendering a decision on a consolidated permit application, a local government unit may approve a permit for some small wireless facilities and deny a permit for others, but may not use denial of one or more permits as a basis to deny all the small wireless facilities in the application.

(c) If a local government unit receives applications within a single seven-day period from one or more applicants seeking approval of permits for more than 30 small wireless facilities, the local government unit may extend the 90-day deadline imposed in subdivision 3c by an additional 30 days. If a local government unit elects to invoke this extension, it must inform in writing any applicant to whom the extension will be applied.

(d) A local government unit is prohibited from requiring a person to pay a fee, obtain a small wireless facility permit, or enter into a small wireless facility collocation agreement solely in order to conduct any of the following activities:

(1) routine maintenance of a small wireless facility;

(2) replacement of a small wireless facility with a new facility that is substantially similar or smaller in size, weight, height, and wind or structural loading than the small wireless facility being replaced; or

(3) installation, placement, maintenance, operation, or replacement of micro wireless facilities that are suspended on cables strung between existing utility poles in compliance with national safety codes.

A local government unit may require advance notification of these activities if the work will obstruct a public right-of-way.

(e) Nothing in this subdivision affects the need for an entity seeking to place a small wireless facility on a wireless support structure that is not owned by a local government unit to obtain from the owner of the wireless support structure any necessary authority to place the small wireless facility, nor shall any provision of this chapter be deemed to affect the rates, terms, and conditions for access to or placement of a small wireless facility or a wireless support structure not owned by a local government unit. This subdivision does not affect any existing agreement between a local government unit and an entity concerning the placement of small wireless facilities on local government unit-owned wireless support structures.

(f) No later than six months after the effective date of this act or three months after receiving a small wireless facility permit application from a wireless service provider, a local government unit that has elected to set forth terms and conditions of collocation in a standard small wireless facility collocation agreement shall develop and make available an agreement that complies with the requirements of this section and section 237.162. A standard small wireless facility collocation agreement shall be written to be substantially complete so that a wireless service provider may accept it with little substantive negotiation. Notwithstanding any law to the contrary, the parties to a small wireless facility collocation agreement may incorporate additional terms and conditions mutually agreed upon into a small wireless facility collocation agreement. A small wireless facility collocation agreement between a local government unit and a wireless service provider is considered public data not on individuals and is accessible to the public under section 13.03.

(g) An approval of a small wireless facility permit under this section authorizes the installation, placement, maintenance, or operation of a small wireless facility to provide wireless service and shall not be construed to confer authorization to (1) provide any service other than a wireless service, or (2) install, place, maintain, or operate a wireline backhaul facility in the right-of-way.

(h) The terms and conditions of collocation under this subdivision:
(1) may be set forth in a small wireless facility collocation agreement, if a local government unit elects to utilize such an agreement;

(2) must be nondiscriminatory, competitively neutral, and commercially reasonable; and

(3) must comply with this section and section 237.162.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 14. Minnesota Statutes 2016, section 237.163, is amended by adding a subdivision to read:

Subd. 3b. **Small wireless facility permits; placement.** (a) A local government unit may not require the placement of small wireless facilities on any specific wireless support structure other than the wireless support structure proposed in the permit application.

(b) A local government unit must not limit the placement of small wireless facilities, either by minimum separation distances between small wireless facilities or maximum height limitations, except that each wireless support structure installed in the right-of-way after the effective date of this act shall not exceed 50 feet above ground level, unless the local government unit agrees to a greater height.

(c) Notwithstanding paragraph (b), a wireless support structure that replaces an existing wireless support structure that is higher than 50 feet above ground level may be placed at the height of the existing wireless support structure, unless the local government unit agrees to a greater height.

(d) Wireless facilities constructed in the right-of-way after the effective date of this act may not extend more than ten feet above an existing wireless support structure in place as of the effective date of this act.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 15. Minnesota Statutes 2016, section 237.163, is amended by adding a subdivision to read:

Subd. 3c. **Small wireless facility permits; approval.** (a) Except as provided in subdivision 4, a local government unit shall issue a small wireless facility permit to a telecommunications right-of-way user seeking to install a new or replacement wireless support structure for a small wireless facility, or to collocate a small wireless facility on a wireless support structure in a public right-of-way. In processing and approving a small wireless facility permit, a local government unit may condition its approval on compliance with:

(1) generally applicable and reasonable health, safety, and welfare regulations consistent with the local government unit’s public right-of-way management;

(2) reasonable accommodations for decorative utility poles or signs; and

(3) any reasonable restocking, replacement, or relocation requirements when a new wireless support structure is placed in a public right-of-way.

(b) A local government unit has 90 days after the date a small wireless facility permit application is filed to issue or deny the permit, or the permit is automatically issued. To toll the 90-day clock, the local government unit must provide a written notice of incompleteness to the applicant within 30 days of receipt of the application, clearly and specifically delineating all missing documents or information. Information delineated in the notice is limited to documents or information publicly required as of the date of application and reasonably related to a local government unit’s determination whether the proposed equipment falls within the definition of a small wireless
facility and whether the proposed deployment satisfies all health, safety, and welfare regulations applicable to the small wireless facility permit request. Upon an applicant's submittal of additional documents or information in response to a notice of incompleteness, the local government unit has ten days to notify the applicant in writing of any information requested in the initial notice of incompleteness that is still missing. Second or subsequent notices of incompleteness may not specify documents or information that were not delineated in the original notice of incompleteness. Requests for information not requested in the initial notice of incompleteness do not toll the 90-day clock. Parties can mutually agree in writing to toll the 90-day clock at any time. Section 15.99 does not apply to this paragraph or paragraph (c).

For the purposes of this subdivision, "toll the 90-day clock" means to halt the progression of days that count towards the 90-day deadline.

(c) Except as provided in subdivision 3a, paragraph (c), a small wireless facility permit and any associated encroachment or building permit required by a local government unit, are deemed approved if the local government unit fails to approve or deny the application within 90 days after the permit application has been filed, unless the applicant and the local government unit have mutually agreed in writing to extend the 90-day deadline.

(d) Nothing in this subdivision precludes a local government unit from applying generally applicable and reasonable health, safety, and welfare regulations when evaluating and deciding to approve or deny a small wireless facility permit.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 16. Minnesota Statutes 2016, section 237.163, subdivision 4, is amended to read:

*Subd. 4. Permit denial or revocation.* (a) A local government unit may deny any application for a right-of-way or small wireless facility permit if the telecommunications right-of-way user does not comply with a provision of this section.

(b) A local government unit may deny an application for a right-of-way permit if the local government unit determines that the denial is necessary to protect the health, safety, and welfare or when necessary to protect the public right-of-way and its current use.

(c) A local government unit may revoke a right-of-way or small wireless facility permit granted to a telecommunications right-of-way user, with or without fee refund, in the event of a substantial breach of the terms and conditions of statute, ordinance, rule, or regulation or any material condition of the permit. A substantial breach by a permittee includes, but is not limited to, the following:

1. a material violation of a provision of the right-of-way or small wireless facility permit;
2. an evasion or attempt to evade any material provision of the right-of-way or small wireless facility permit, or the perpetration or attempt to perpetrate any fraud or deceit upon the local government unit or its citizens;
3. a material misrepresentation of fact in the right-of-way or small wireless facility permit application;
4. a failure to complete work in a timely manner, unless a permit extension is obtained or unless the failure to complete work is due to reasons beyond the permittee's control; and
5. a failure to correct, in a timely manner, work that does not conform to applicable standards, conditions, or codes, upon inspection and notification by the local government unit of the faulty condition.
(d) Subject to this subdivision, a local government unit may not deny an application for a right-of-way or small wireless facility permit for failure to include a project in a plan submitted to the local government unit under subdivision 2, paragraph (b), clause (3), when the telecommunications right-of-way user has used commercially reasonable efforts to anticipate and plan for the project.

(e) In no event may a local government unit unreasonably withhold approval of an application for a right-of-way or small wireless facility permit, or unreasonably revoke a permit.

(f) Any denial or revocation of a right-of-way or small wireless facility permit must be made in writing and must document the basis for the denial. The local government unit must notify the telecommunications right-of-way user in writing within three business days of the decision to deny or revoke a permit. If a permit application is denied, the telecommunications right-of-way user may cure the deficiencies identified by the local government unit and resubmit its application. If the telecommunications right-of-way user resubmits the application within 30 days of receiving written notice of the denial, it may not be charged an additional filing or processing fee. The local government unit must approve or deny the revised application within 30 days after the revised application is submitted.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 17. Minnesota Statutes 2016, section 237.163, subdivision 6, is amended to read:

Subd. 6. Fees. (a) A local government unit may recover its right-of-way management costs by imposing a fee for registration, a fee for each right-of-way or small wireless facility permit, or, when appropriate, a fee applicable to a particular telecommunications right-of-way user when that user causes the local government unit to incur costs as a result of actions or inactions of that user. A local government unit may not recover costs from a telecommunications right-of-way user or an owner of a cable communications system awarded a franchise under chapter 238 caused by another entity's activity in the right-of-way.

(b) Fees, or other right-of-way obligations, imposed by a local government unit on telecommunications right-of-way users under this section must be:

(1) based on the actual costs incurred by the local government unit in managing the public right-of-way;

(2) based on an allocation among all users of the public right-of-way, including the local government unit itself, which shall reflect the proportionate costs imposed on the local government unit by each of the various types of uses of the public rights-of-way;

(3) imposed on a competitively neutral basis; and

(4) imposed in a manner so that aboveground uses of public rights-of-way do not bear costs incurred by the local government unit to regulate underground uses of public rights-of-way.

(c) The rights, duties, and obligations regarding the use of the public right-of-way imposed under this section must be applied to all users of the public right-of-way, including the local government unit while recognizing regulation must reflect the distinct engineering, construction, operation, maintenance and public and worker safety requirements, and standards applicable to various users of the public rights-of-way. For users subject to the franchising authority of a local government unit, to the extent those rights, duties, and obligations are addressed in the terms of an applicable franchise agreement, the terms of the franchise shall prevail over any conflicting provision in an ordinance.
(d) A wireless service provider may collocate small wireless facilities on wireless support structures owned or controlled by a local government unit and located within the public roads or rights-of-way without being required to apply for or enter into any individual license, franchise, or other agreement with the local government unit or any other entity, other than a standard small wireless facility collocation agreement under subdivision 3a, paragraph (f), if the local unit of government elects to utilize such an agreement.

(e) Any initial engineering survey and preparatory construction work associated with collocation must be paid by the cost causer in the form of a onetime, nonrecurring, commercially reasonable, nondiscriminatory, and competitively neutral charge to recover the costs associated with a proposed attachment.

(f) Total application fees for a small wireless facility permit must comply with this subdivision with respect to costs related to the permit.

(g) A local government unit may elect to charge each small wireless facility attached to a wireless support structure owned by the local government unit a fee, in addition to other fees or charges allowed under this subdivision, consisting of:

1. up to $125 per year for rent to occupy space on a wireless support structure;
2. up to $25 per year for maintenance associated with the space occupied on a wireless support structure; and
3. a flat monthly fee for electricity costs incurred by the local government unit related to a small wireless facility at the rate of:
   i. $73 per radio node under 100 max watts; or
   ii. $182 per radio node over 100 max watts.

**EFFECTIVE DATE.** This section is effective the day following final enactment.

Sec. 18. Minnesota Statutes 2016, section 237.163, subdivision 7, is amended to read:

Subd. 7. **Additional right-of-way provisions.** (a) In managing the public rights-of-way and in imposing fees under this section, no local government unit may:

1. unlawfully discriminate among telecommunications right-of-way users;
2. grant a preference to any telecommunications right-of-way user;
3. create or erect any unreasonable requirement for entry to the public rights-of-way by telecommunications right-of-way users; or

(e) A license issued to an applicant age 65 or over must be plainly marked "senior" if requested by the applicant.

(e) Except for an enhanced driver's license or a noncompliant license, a license must bear a distinguishing indicator for compliance with requirements of the REAL ID Act.

(g) A license issued to a person with temporary lawful status must be marked "temporary" on the face and in the machine-readable portion.

(h) A license must display the licensee's full name or no fewer than 39 characters of the name. Any necessary truncation must begin with the last character of the middle name and proceed through the second letter of the middle name, followed by the last character of the first name and proceeding through the second letter of the first name.

Sec. 14. Minnesota Statutes 2016, section 171.07, subdivision 3, is amended to read:

Subd. 3. Identification card; content and design; fee. (a) Upon payment of the required fee, the department shall issue to every qualifying applicant a Minnesota identification card. The department may not issue a Minnesota identification card to an individual who has a driver's license, other than a limited license. The department may not issue an enhanced identification card to an individual who is under 16 years of age, not a resident of this state, or not a citizen of the United States of America. The card must bear: (1) a distinguishing number assigned to the applicant; (2) a colored photograph or an electronically produced image of the applicant; (3) the applicant's full name and date of birth; (4) either (i) the licensee's residence address, or (2) (ii) the designated address under section 5B.05; (5) a description of the applicant in the manner as the commissioner deems necessary; and (6) the usual signature of the applicant; and (7) designations and markings provided under this section.

(b) If the United States Postal Service will not deliver mail to the applicant's residence address as listed on the Minnesota identification card, then the applicant shall provide verification from the United States Postal Service that mail will not be delivered to the applicant's residence address and that mail will be delivered to a specified alternate mailing address. When an applicant provides an alternate mailing address under this subdivision, the commissioner shall use the alternate mailing address in lieu of the applicant's residence address for all notices and mailings to the applicant.
(c) Each identification card issued to an applicant under the age of 21 must be of a distinguishing color and plainly marked "Under-21."

(d) Each Minnesota identification card must be plainly marked "Minnesota identification card - not a driver's license."

(e) Except for an enhanced identification card or a noncompliant identification card, a Minnesota identification card must bear a distinguishing indicator for compliance with requirements of the REAL ID Act.

(f) A noncompliant identification card must:

(1) be marked "not for federal identification" on the face and in the machine-readable portion; and

(2) have a unique design or color indicator.

(g) A Minnesota identification card issued to a person with temporary lawful status must be marked "temporary" on the face and in the machine-readable portion.

(h) A Minnesota identification card must display the cardholder's full name or no fewer than 39 characters of the name. Any necessary truncation must begin with the last character of the middle name and proceed through the second letter of the middle name, followed by the last character of the first name and proceeding through the second letter of the first name.

(i) The fee for a Minnesota identification card is 50 cents when issued to a person who is developmentally disabled, as defined in section 252A.02, subdivision 2; a physically disabled person, as defined in section 169.345, subdivision 2; or, a person with mental illness, as described in section 245.462, subdivision 20, paragraph (c).

Sec. 15. Minnesota Statutes 2016, section 171.07, subdivision 4, is amended to read:

(b) A Minnesota identification card issued to an applicant age 65 or older shall be:

(1) the expiration date of a Minnesota identification card is the birthday of the applicant in the eighth year following the date of issuance of the card; or

(2) a noncompliant identification card is valid for the lifetime of the applicant, except that,

(c) For the purposes of this paragraph (b), "Minnesota identification card" does not include an enhanced identification card issued to an applicant age 65 or older.

(d) The expiration date for an Under-21 identification card is the cardholder's 21st birthday. The commissioner shall issue an identification card to a holder of an Under-21 identification card who applies for the card, pays the required fee, and presents proof of identity and age, unless the commissioner determines that the applicant is not qualified for the identification card.

(e) Notwithstanding paragraphs (a) to (d), the expiration date for an identification card issued to a person with temporary lawful status is the last day of the person's legal stay in the United States, or one year after issuance if the last day of the person's legal stay is not identified.
Sec. 16. Minnesota Statutes 2016, section 171.07, subdivision 9a, is amended to read:

Subd. 9a. **Security for enhanced driver's license and identification card features.** An enhanced (a) driver's license or enhanced identification card must include reasonable security measures to: prevent forgery, alteration, reproduction, and counterfeiting; facilitate detection of fraud; prohibit the ability to superimpose a photograph or electronically produced image; and to protect against unauthorized disclosure of personal information regarding residents of this state that is contained in the enhanced driver's license or enhanced identification card. The enhanced license must include the best available anticounterfeit laminate technology.

(b) An enhanced driver's license or enhanced identification card may include radio frequency identification technology that is limited to a randomly assigned number, which must be encrypted if agreed to by the United States Department of Homeland Security and does not include biometric data or any information other than the citizenship status of the license holder or cardholder. The commissioner shall ensure that the radio frequency identification technology is secure from unauthorized data access. An applicant must sign an acknowledgment of understanding of the radio frequency identification technology and its use for the sole purpose of verifying United States citizenship before being issued an enhanced driver's license or an enhanced identification card.

Sec. 17. Minnesota Statutes 2016, section 171.071, subdivision 3, is amended to read:

Subd. 3. **Exception Limitations.** Subdivision 1 applies only to a noncompliant license or identification card. Subdivisions 1 and 2 do not apply to the commissioner's requirements pertaining to a photograph or electronically produced image on an enhanced driver's license or an enhanced identification card.

Sec. 18. Minnesota Statutes 2016, section 171.072, is amended to read:

**171.072 TRIBAL IDENTIFICATION CARD.**

(a) If a Minnesota identification card is deemed an acceptable form of identification in Minnesota Statutes or Rules, a tribal identification card is also an acceptable form of identification. A tribal identification card is a primary document for purposes of Minnesota Rules, part 7410.0400, and successor rules, when an applicant applies for a noncompliant license or identification card.

(b) For purposes of this section, "tribal identification card" means an unexpired identification card issued by a Minnesota tribal government of a tribe recognized by the Bureau of Indian Affairs, United States Department of the Interior, that contains the legal name, date of birth, signature, and picture of the enrolled tribal member.

(c) The tribal identification card must contain security features that make it as impervious to alteration as is reasonably practicable in its design and quality of material and technology. The security features must use materials that are not readily available to the general public. The tribal identification card must not be susceptible to reproduction by photocopying or simulation and must be highly resistant to data or photograph substitution and other tampering.

(d) The requirements of this section do not apply to: (1) except as provided in paragraph (a), to an application for a driver's license or Minnesota identification card under this chapter; or (2) to tribal identification cards used to prove an individual's residence for purposes of section 201.061, subdivision 3.

Sec. 19. Minnesota Statutes 2016, section 171.12, is amended by adding a subdivision to read:

Subd. 1a. **Driver and vehicle services information system; security and auditing.** (a) The commissioner must establish written procedures to ensure that only individuals authorized by law may enter, update, or access not public data collected, created, or maintained by the driver and vehicle services information system. An authorized
individual's ability to enter, update, or access data in the system must correspond to the official duties or training level of the individual and to the statutory authorization granting access for that purpose. All queries and responses, and all actions in which data are entered, updated, accessed, shared, or disseminated, must be recorded in a data audit trail. Data contained in the audit trail are public to the extent the data are not otherwise classified by law.

(b) The commissioner must immediately and permanently revoke the authorization of any individual who willfully entered, updated, accessed, shared, or disseminated data in violation of state or federal law. If an individual willfully gained access to data without authorization by law, the commissioner must forward the matter to the appropriate prosecuting authority for prosecution.

(c) The commissioner must arrange for an independent biennial audit of the driver and vehicle services information system to determine whether data currently in the system are classified correctly, how the data are used, and to verify compliance with this subdivision. The results of the audit are public. No later than 30 days following completion of the audit, the commissioner must provide a report summarizing the audit results to the commissioner of administration; the chairs and ranking minority members of the committees of the house of representatives and the senate with jurisdiction over transportation policy and finance, public safety, and data practices; and the Legislative Commission on Data Practices and Personal Data Privacy. The report must be submitted as required under section 3.195, except that printed copies are not required.

EFFECTIVE DATE. This section is effective on the date of implementation of the driver's license portion of the Minnesota licensing and registration system. The commissioner shall notify the revisor of statutes on the date of implementation.

Sec. 20. Minnesota Statutes 2016, section 171.12, is amended by adding a subdivision to read:

Subd. 3c. Record retention; birth certificates. (a) If the procedures established by the commissioner for driver's license or Minnesota identification card records include retention of a physical copy or digital image of a birth certificate, the commissioner must:

(1) notify a driver's license or identification card applicant of the retention procedure; and

(2) allow the applicant, licensee, or identification cardholder to designate that the applicant, licensee, or identification cardholder's birth certificate physical copy or digital image must not be retained.

(b) The commissioner must not retain a birth certificate if directed by an applicant, licensee, or identification cardholder under paragraph (a), clause (2), but must record and retain data on the birth certificate required under Code of Federal Regulations, title 6, section 37.31(c).

Sec. 21. Minnesota Statutes 2016, section 171.12, is amended by adding a subdivision to read:

Subd. 7b. Data privacy; noncompliant license or identification card. (a) With respect to noncompliant licenses or identification cards, the commissioner is prohibited from:

(1) electronically disseminating outside the state data that is not disseminated as of the effective date of this act; or

(2) utilizing any electronic validation or verification system accessible from or maintained outside of the state that is not in use as of the effective date of this act.

(b) The limitations in paragraph (a) do not apply to the extent necessary to maintain compliance with the driver's license compact under section 171.50 and applicable federal law governing commercial driver's licenses.
(c) For purposes of this subdivision, "outside the state" includes federal agencies, states other than Minnesota, organizations operating under agreement among the states, and private entities.

Sec. 22. Minnesota Statutes 2016, section 171.12, is amended by adding a subdivision to read:

Subd. 7c. Other data provisions. (a) The commissioner must not share any data the department maintains under section 171.07, subdivision 13, with any federal agency, federal department, or federal entity for a use that would otherwise be permissible under United States Code, title 18, section 2721, or other law.

(b) Data collected by government entities under sections 624.712 to 624.719 are classified under section 13.87, subdivision 2.

Sec. 23. Minnesota Statutes 2016, section 171.27, is amended to read:

171.27 EXPIRATION OF LICENSE; MILITARY EXCEPTION.

(a) Except as otherwise provided in this section, the expiration date for each driver's license, other than under-21 licenses, is the birthday of the driver in the fourth year following the date of issuance of the license. The birthday of the driver shall be as indicated on the application for a driver's license. A license may be renewed on or before expiration or within one year after expiration upon application, payment of the required fee, and passing the examination required of all drivers for renewal. Driving privileges shall be extended or renewed on or preceding the expiration date of an existing driver's license unless the commissioner believes that the licensee is no longer qualified as a driver.

(b) The expiration date for each under-21 license shall be the 21st birthday of the licensee. Upon the licensee attaining the age of 21 and upon the application, payment of the required fee, and passing the examination required of all drivers for renewal, a driver's license shall be issued unless the commissioner determines that the licensee is no longer qualified as a driver.

(c) The expiration date for each provisional license is two years after the date of application for the provisional license.

(d) Notwithstanding paragraphs (a) to (c), the expiration date for a license issued to a person with temporary lawful status is the last day of the person's legal stay in the United States, or one year after issuance if the last day of the person's legal stay is not identified.

(e) Any valid Minnesota driver's license issued to a person then or subsequently serving outside Minnesota in active military service, as defined in section 190.05, subdivision 5, in any branch or unit of the armed forces of the United States, or the person's spouse, shall continue in full force and effect without requirement for renewal until the date one year following the service member's separation or discharge from active military service, and until the license holder's birthday in the fourth full year following the person's most recent license renewal or, in the case of a provisional license, until the person's birthday in the third full year following the renewal.

Sec. 24. REAL ID ACT IMPLEMENTATION.

Subdivision 1. Definition. For purposes of this section, "REAL ID Act" means the REAL ID Act of 2005, Public Law 109-13, Division B.

Subd. 2. Implementation; deadline. The commissioner of public safety must begin issuing driver's licenses and Minnesota identification cards that fully comply with the REAL ID Act no later than October 1, 2018. The commissioner must notify the following individuals and entities of the specific full compliance implementation date:
the chairs and ranking minority members of the legislative committees with jurisdiction over transportation policy and finance, public safety, and data practices; the revisor of statutes; and the Legislative Commission on Data Practices and Personal Data Privacy.

Subd. 3. Mandatory reissuance prohibition. When implementing the REAL ID Act requirements as provided in this act, the commissioner of public safety is prohibited from requiring renewal or reissuance of a driver's license or Minnesota identification card earlier than required under the regular issuance time period. Nothing in this subdivision prevents suspension, cancellation, or revocation as provided in Minnesota Statutes, chapter 171.

Subd. 4. Early renewal and expiration date extension. (a) For purposes of this subdivision, "federal full compliance date" means the date when full compliance with the REAL ID Act is federally required and no extensions are in effect for federal acceptance of Minnesota-issued licenses and identification cards for official purposes, as most recently specified by the United States Department of Homeland Security under Code of Federal Regulations, title 6, part 37.

(b) For purposes of this subdivision, "eligible applicant" means an applicant for a REAL ID compliant driver's license or identification card who:

(1) holds a valid Minnesota driver's license or Minnesota identification card that:

(i) was issued prior to the date Minnesota commenced issuing REAL ID compliant licenses and Minnesota identification cards; and

(ii) either (A) has an expiration date that is after the federal full compliance date; or (B) does not have an expiration date as provided under Minnesota Statutes, section 171.07, subdivision 4;

(2) submits the license or identification card application no later than one year following the federal full compliance date; and

(3) is otherwise eligible to obtain the license or identification card under Minnesota Statutes, chapter 171.

(c) For the first instance of issuing a REAL ID compliant driver's license, the expiration date is the birthday of the applicant in the fourth year following the date that the driver's license would otherwise expire absent this subdivision, notwithstanding the requirements of Minnesota Statutes, section 171.27, paragraph (a).

(d) For the first instance of issuing a REAL ID compliant identification card, the expiration date is the birthday of the applicant in the fourth year following the date that the identification card would otherwise expire absent this subdivision, notwithstanding the requirements of Minnesota Statutes, section 171.07, subdivision 4, paragraph (a).

(e) A surcharge is imposed for early renewal under this subdivision. The surcharge is in addition to the fees and surcharges under Minnesota Statutes, sections 171.06, subdivision 2; 171.061, subdivision 4; and 171.07, subdivisions 3 and 3a; or other law. The surcharge is calculated based on the length of time otherwise remaining absent this subdivision until expiration of the driver's license or identification card, as follows:

(1) $2 for a current expiration date of no more than 17 months from the date of application under this subdivision;

(2) $4 for a current expiration date of 18 months to no more than 29 months; and

(3) $6 for a current expiration date of more than 29 months.
(f) This subdivision does not apply to:

(1) issuance of a new driver's license or Minnesota identification card;

(2) issuance or renewal of a noncompliant license or identification card, as defined in Minnesota Statutes, section 171.01, subdivision 41a;

(3) issuance or renewal of an enhanced driver's license or enhanced identification card;

(4) reinstatement of a canceled, suspended, or revoked license;

(5) a driver's license subject to expiration under Minnesota Statutes, section 171.27, paragraphs (b) to (d); or

(6) a Minnesota identification card subject to expiration under Minnesota Statutes, section 171.07, subdivision 4, paragraphs (b) to (e).

Sec. 25. **REVISOR'S INSTRUCTION.**

The revisor of statutes shall renumber Minnesota Statutes, section 171.06, subdivision 3, paragraphs (d) and (e), as Minnesota Statutes, section 171.06, subdivision 3b, paragraphs (d) and (e). The revisor shall also make any necessary cross-reference changes consistent with the renumbering.

Sec. 26. **APPROPRIATION.**

$3,270,000 in fiscal year 2019 is appropriated from the driver services operating account in the special revenue fund to the commissioner of public safety for implementation and conformity with the requirements of the REAL ID Act of 2005, Public Law 109-13, Division B, as provided under this act. This is a onetime appropriation.

Sec. 27. **CONTINGENT REPEALER.**

If the Federal REAL ID Act, Public Law 109-13, Division B, is repealed or if the definition of "official purpose" in Code of Federal Regulations, title 6, part 37, is amended, the provisions of this act become null and void on June 30 of the following year. On June 30 in the year after the repeal or amendment, the commissioner of the Department of Public Safety must stop issuing REAL ID compliant driver's licenses and identification cards. Within 90 days of the federal repeal or amendment, the commissioner must submit a report, including proposed legislative changes, to repeal all aspects of this act to the chairs and ranking minority members of the legislative committees with jurisdiction over transportation policy and finance, public safety, and data practices; the revisor of statutes; and the Legislative Commission on Data Practices and Personal Data Privacy.

Sec. 28. **REPEALER.**

Laws 2009, chapter 92, section 1, as amended by Laws 2016, chapter 83, section 1, is repealed.

Sec. 29. **EFFECTIVE DATE.**

Except as specifically provided otherwise, this act is effective the day following final enactment. Sections 1 to 24 apply for application and issuance of driver's licenses and Minnesota identification cards on and after the full compliance implementation date under section 24, subdivision 2."

**ARTICLE 2**

**MISCELLANEOUS**

Section 1. Minnesota Statutes 2016, section 16A.967, is amended to read:

**16A.967 LEWIS AND CLARK APPROPRIATION BONDS.**

Subdivision 1. **Definitions.** (a) The definitions in this subdivision apply to this section.

(b) "Appropriation bond" or "bond" means a bond, note, or other similar instrument of the state payable during a biennium from one or more of the following sources:

(1) money appropriated by law from the general fund in any biennium for debt service due with respect to obligations described in subdivision 2, paragraph (c) subdivisions 2a and 2b:
(2) proceeds of the sale of obligations described in subdivision 2, paragraph (e) subdivisions 2a and 2b;

(4) investment earnings on amounts in clauses (1) to (3).

(c) "Debt service" means the amount payable in any biennium of principal, premium, if any, and interest on appropriation bonds.

Subd. 2. Authorization to issue appropriation bonds. (a) Subject to the limitations of this subdivision, the commissioner may sell and issue appropriation bonds of the state under this section for public purposes as provided by law, including, in particular, the financing of the land acquisition, design, engineering, and construction of facilities and infrastructure necessary to complete the next phase of the Lewis and Clark Regional Water System project, including completion of the pipeline to Magnolia, extension of the project to the Lincoln Pipestone Rural Water System connection near Adrian, and engineering, design, and easement acquisition for the final phase of the project to Worthington. No bonds shall be sold until the commissioner determines that a nonstate match of at least $9,000,000 is committed to this project phase. Grant agreements entered into under this section must provide for reimbursement to the state from any federal money provided for the project, consistent with the Lewis and Clark Regional Water System, Inc., agreement.

(b) The appropriation bonds may be issued and sold only after the commissioner determines that the construction and administration for work done on the project will comply with (1) all federal requirements and regulations associated with the Lewis and Clark Rural Water System Act of 2000, and (2) the cooperative agreement between the United States Department of the Interior and the Lewis and Clark Regional Water System, Inc. Proceeds of the appropriation bonds must be credited to a special appropriation Lewis and Clark bond proceeds fund in the state treasury. All income from investment of the bond proceeds, as estimated by the commissioner, is appropriated to the commissioner for the payment of principal and interest on the appropriation bonds.

(c) Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money, not to exceed $19,000,000 net of costs of issuance, for the purposes as provided under paragraph (a), and pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under paragraph (e).

(d) Appropriation bonds may be issued in one or more issues or series on the terms and conditions the commissioner determines to be in the best interests of the state, but the term on any series of appropriation bonds may not exceed 25 years. The appropriation bonds of each issue and series thereof shall be dated and bear interest, and may be includable in or excludable from the gross income of the owners for federal income tax purposes.

(e) At the time of, or in anticipation of, issuing the appropriation bonds, and at any time thereafter, so long as the appropriation bonds are outstanding, the commissioner may enter into agreements and ancillary arrangements relating to the appropriation bonds, including but not limited to trust indentures, grant agreements, lease or use agreements, operating agreements, management agreements, liquidity facilities, remarketing or dealer agreements, letter of credit agreements, insurance policies, guaranty agreements, reimbursement agreements, indexing agreements, or interest exchange agreements. Any payments made or received according to the agreement or ancillary arrangement shall be made from or deposited as provided in the agreement or ancillary arrangement. The determination of the commissioner included in an interest exchange agreement that the agreement relates to an appropriation bond shall be conclusive.

(f) The commissioner may enter into written agreements or contracts relating to the continuing disclosure of information necessary to comply with or facilitate the issuance of appropriation bonds in accordance with federal securities laws, rules, and regulations, including Securities and Exchange Commission rules and regulations in Code
of Federal Regulations, title 17, section 240.15c 2-12. An agreement may be in the form of covenants with purchasers and holders of appropriation bonds set forth in the order or resolution authorizing the issuance of the appropriation bonds, or a separate document authorized by the order or resolution.

Subd. 2a. **Project authorization.** Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money to the Public Facilities Authority under subdivision 7, paragraph (a), not to exceed $19,000,000 net of costs of issuance, for the purposes as provided under this subdivision, and pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under subdivision 2, paragraph (d). The bonds authorized by this subdivision are for the purposes of financing the land acquisition, design, engineering, and construction of facilities and infrastructure necessary to complete Phase 2 of the Lewis and Clark Regional Water System project, including completion of the pipeline to Magnolia; extension of the project to the Lincoln-Pipestone Rural Water System connection near Adrian; engineering, design, and easement acquisition for the final phase of the project to Worthington; and to begin and proceed with Phase 3, described in subdivision 2b. No bonds shall be sold under this subdivision until the commissioner determines that a nonstate match of at least $9,000,000 is committed to this project phase. Upon certification by the Lewis and Clark Joint Powers Board that the bond sale authorization provided by this subdivision has fully met the needs of Phase 2 of the project, and to the extent there is additional authorization remaining, this authorization is also available for the purposes of and on the same conditions as subdivision 2b.

Subd. 2b. **Additional project authorization.** Appropriation bonds may be sold and issued in amounts that, in the opinion of the commissioner, are necessary to provide sufficient money to the Public Facilities Authority under subdivision 7, paragraph (b), not to exceed $3,500,000 net of costs of issuance, for the purposes as provided under this subdivision, and pay debt service including capitalized interest, costs of issuance, costs of credit enhancement, or make payments under other agreements entered into under subdivision 2, paragraph (d). The bonds authorized by this subdivision are for the purposes of financing the land acquisition, design, engineering, and construction of facilities and infrastructure necessary to complete Phase 3 of the Lewis and Clark Regional Water System project, including extension of the project from the Lincoln-Pipestone Rural Water System connection near Adrian to Worthington, construction of a reservoir in Nobles County and a meter building in Worthington, and acquisition and installation of a supervisory control and data acquisition (SCADA) system. No bonds shall be sold under this subdivision until the commissioner determines that a nonstate match of at least $9,000,000 is committed to the final phase of the project.

Subd. 3. **Form; procedure.** (a) Appropriation bonds may be issued in the form of bonds, notes, or other similar instruments, and in the manner provided in section 16A.672. In the event that any provision of section 16A.672 conflicts with this section, this section shall control.

(b) Every appropriation bond shall include a conspicuous statement of the limitation established in subdivision 6.

(c) Appropriation bonds may be sold at either public or private sale upon such terms as the commissioner shall determine are not inconsistent with this section and may be sold at any price or percentage of par value. Any bid received may be rejected.

(d) Appropriation bonds must bear interest at a fixed or variable rate.

(e) Notwithstanding any other law, appropriation bonds issued under this section shall be fully negotiable.

Subd. 4. **Refunding bonds.** The commissioner may issue appropriation bonds for the purpose of refunding any appropriation bonds then outstanding, including the payment of any redemption premiums on the bonds, any interest accrued or to accrue to the redemption date, and costs related to the issuance and sale of the refunding bonds. The
proceeds of any refunding bonds may, in the discretion of the commissioner, be applied to the purchase or payment at maturity of the appropriation bonds to be refunded, to the redemption of the outstanding appropriation bonds on any redemption date, or to pay interest on the refunding bonds and may, pending application, be placed in escrow to be applied to the purchase, payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under section 11A.24. The income earned or realized on the investment may also be applied to the payment of the appropriation bonds to be refunded or interest or premiums on the refunded appropriation bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been fully satisfied, any balance of the proceeds and any investment income may be returned to the general fund or, if applicable, the special appropriation Lewis and Clark bond proceeds fund for use in any lawful manner. All refunding bonds issued under this subdivision must be prepared, executed, delivered, and secured by appropriations in the same manner as the appropriation bonds to be refunded.

Subd. 5. **Appropriation bonds as legal investments.** Any of the following entities may legally invest any sinking funds, money, or other funds belonging to them or under their control in any appropriation bonds issued under this section:

(1) the state, the investment board, public officers, municipal corporations, political subdivisions, and public bodies;

(2) banks and bankers, savings and loan associations, credit unions, trust companies, savings banks and institutions, investment companies, insurance companies, insurance associations, and other persons carrying on a banking or insurance business; and

(3) personal representatives, guardians, trustees, and other fiduciaries.

Subd. 6. **No full faith and credit; state not required to make appropriations.** The appropriation bonds are not public debt of the state, and the full faith, credit, and taxing powers of the state are not pledged to the payment of the appropriation bonds or to any payment that the state agrees to make under this section. Appropriation bonds shall not be obligations paid directly, in whole or in part, from a tax of statewide application on any class of property, income, transaction, or privilege. Appropriation bonds shall be payable in each fiscal year only from amounts that the legislature may appropriate for debt service for any fiscal year, provided that nothing in this section shall be construed to require the state to appropriate money sufficient to make debt service payments with respect to the appropriation bonds in any fiscal year. Appropriation bonds shall be canceled and shall no longer be outstanding on the earlier of (1) the first day of a fiscal year for which the legislature shall not have appropriated amounts sufficient for debt service, or (2) the date of final payment of the principal of and interest on the appropriation bonds.

Subd. 7. **Appropriation of proceeds.** (a) The proceeds of appropriation bonds issued under subdivision 2a and interest credited to the special appropriation Lewis and Clark bond proceeds fund are appropriated as follows:

(1) to the commissioner Public Facilities Authority for a grant to the Lewis and Clark Joint Powers Board for payment of capital expenses for the purposes provided by as specified in subdivision 2, paragraph (a), 2a; and

(b) The proceeds of appropriation bonds issued under subdivision 2b and interest credited to the special appropriation Lewis and Clark bond proceeds fund are appropriated as follows:
(1) to the Public Facilities Authority for a grant to the Lewis and Clark Joint Powers Board for payment of capital expenses as specified in subdivision 2b; and

(2) to the commissioner for debt service on the bonds including capitalized interest, nonsalary costs of issuance of the bonds, costs of credit enhancement of the bonds, and payments under any agreements entered into under subdivision 2, paragraph (d), each as permitted by state and federal law.

Subd. 8. Appropriation for debt service and other purposes. (a) An amount, up to $1,351,000 needed to pay principal and interest on appropriation bonds issued under this section subdivision 2a is appropriated each fiscal year from the general fund to the commissioner, subject to repeal, unallotment under section 16A.152, or cancellation, otherwise pursuant to subdivision 6, for deposit into the bond payments account established for such purpose in the special Lewis and Clark appropriation bond proceeds fund. The appropriation is available beginning in fiscal year 2017 and through fiscal year 2038.

(b) An amount up to $265,000 needed to pay principal and interest on appropriation bonds issued under subdivision 2b is appropriated each fiscal year from the general fund to the commissioner, subject to repeal, unallotment under section 16A.152, or cancellation, otherwise pursuant to subdivision 6, for deposit into the bond payments account established for such purpose in the special Lewis and Clark appropriation bond proceeds fund. The appropriation is available beginning in fiscal year 2018 and through fiscal year 2039.

Subdivision 1. Definition. For purposes of this section, "public gathering space" means a space that is constructed or renovated as part of the project: (1) that accommodates and is intended to be used for gatherings of 15 or more people; and (2) in which audible communications are integral to a use of the space.

Subd. 2. Accommodation for hard-of-hearing in state-funded capital projects. No commissioner or agency head may approve a contract or grant state funds for a capital improvement project to construct or renovate a public gathering space in a building unless:

(1) the project includes equipping the public gathering space, if the public gathering space has or will have a permanent audio-amplification system, with audio-induction loops to provide an electromagnetic signal for hearing aids and cochlear implants; and

(2) the project includes meeting the American National Standards Institute Acoustical Performance Criteria, Design Requirements and Guidelines for Schools on maximum background noise level and reverberation times in the public gathering space.

Subd. 3. Exemption. A commissioner or agency head may approve a contract or grant state funds for a capital improvement project to construct or renovate a building that does not meet a requirement of subdivision 2, when the commissioner or agency head determines that meeting that requirement is not feasible, is in conflict with other requirements in law, is in conflict with other project requirements, or that costs outweigh the benefits. The commissioner must consult with the Commission of Deaf, Deafblind, and Hard-of-Hearing Minnesotans before making the determination.

Subd. 4. Exemption reports. A commissioner or agency head who determines a contract is exempt under subdivision 3 must report the exemption to the Commission of Deaf, Deafblind, and Hard-of-Hearing Minnesotans within three months of making the determination. The chair of the Commission of Deaf, Deafblind, and Hard-of-Hearing
Minnesotans shall submit a report to the chairs and ranking minority members of the committees in the house of representatives and senate with jurisdiction over state contracting by January 30 of even-numbered years beginning in 2020 identifying each exemption reported in the previous two calendar years.

(b) This section does not apply to a project that has completed schematic design on the effective date of this section, but the commissioner and agency heads are encouraged to comply with it.

Sec. 3. Minnesota Statutes 2016, section 84.946, subdivision 2, is amended to read:

Subd. 2. Standards. (a) An appropriation for asset preservation may be used only for a capital expenditure on a capital asset previously owned by the state, within the meaning of generally accepted accounting principles as applied to public expenditures. The commissioner of natural resources will consult with the commissioner of management and budget to the extent necessary to ensure this and will furnish the commissioner of management and budget a list of projects to be financed from the account in order of their priority. The legislature assumes that many projects for preservation and replacement of portions of existing capital assets will constitute betterments and capital improvements within the meaning of the Constitution and capital expenditures under generally accepted accounting principles, and will be financed more efficiently and economically under this section than by direct appropriations for specific projects.

(b) An appropriation for asset preservation must not be used to acquire land or to acquire or construct buildings or other facilities.

(c) Capital budget expenditures for natural resource asset preservation and replacement projects must be for one or more of the following types of capital projects that support the existing programmatic mission of the department: code compliance including health and safety, Americans with Disabilities Act requirements, hazardous material abatement, access improvement, or air quality improvement; building energy efficiency improvements using current best practices; building or infrastructure repairs necessary to preserve the interior and exterior of existing buildings; projects to remove life safety hazards such as building code violations or structural defects; or renovation of other existing improvements to land, including but not limited to trails and bridges.

(d) Up to ten percent of an appropriation awarded under this section may be used for design costs for projects eligible to be funded from this account in anticipation of future funding from the account.

Sec. 4. Minnesota Statutes 2016, section 85.34, subdivision 1, is amended to read:

Subdivision 1. Upper bluff; lease terms. The commissioner of natural resources with the approval of the Executive Council may lease for purposes of restoration, preservation, historical, recreational, educational, and commercial use and development, that portion of Fort Snelling State Park known as the upper bluff consisting of officer's row, area J, the polo grounds, the adjacent golf course, and all buildings and improvements located thereon, all lying within an area bounded by Minneapolis-St. Paul International Airport, Trunk Highways numbered 5 and 55, and Bloomington Road. The lease or leases shall be in a form approved by the attorney general and for a term of not to exceed 99 years. The lease or leases may provide for the provision of capital improvements or other performance by the tenant or tenants in lieu of all or some of the payments of rent that would otherwise be required. Notwithstanding the continuing ownership of the upper bluff by the state, any lease of one or more buildings improved with state general obligation bond proceeds that exceeds 50 years shall be treated as a sale of the buildings for purposes of section 16A.695, subdivision 3. Any disposition proceeds payable to the commissioner upon execution of a lease relating to state-bond-financed buildings at the upper bluff shall be applied according to section
16A.695, subdivision 3, and used to pay, redeem, or defease state general obligation bonds issued for purposes of improving those buildings. Any lease revenues paid to the commissioner subsequent to the payment, redemption, or defeasance of state general obligation bonds shall be used by the commissioner as further described in this section.

Sec. 5. Minnesota Statutes 2016, section 174.50, subdivision 5, is amended to read:

Subd. 5. Certification and disbursal for project of political subdivision. Before disbursement of an appropriation made from the fund to the commissioner of transportation for grants to subdivisions of the state, the commissioner shall certify that:

(1) that the project for which the grant is made has been reviewed as provided in subdivision 4;

(2) that the project conforms to the program authorized by the appropriation law and rules adopted by the Department of Transportation consistent therewith; and

(3) that the financing of any estimated cost of the project in excess of the amount of the grant is assured by the appropriation of the proceeds of bonds or other funds of the subdivision, or by a grant from an agency of the federal government, within the amount of funds then appropriated to that agency and allocated by it to projects within the state, and by an irrevocable undertaking, in a resolution of the governing body of the subdivision, to use all funds so made available exclusively for the project, and to pay any additional amount by which the cost exceeds the estimate through appropriation to the construction fund of additional funds or the proceeds of additional bonds to be issued by the subdivision.

Sec. 6. Minnesota Statutes 2016, section 174.50, subdivision 6b, is amended to read:

Subd. 6b. Bridge costs in smaller cities. (a) The commissioner may make grants from the state transportation fund to a home rule or statutory city with a population of 5,000 or less for design, engineering, and construction of bridges on city streets.

(b) Grants under this subdivision are subject to the procedures and criteria established under subdivisions 5, 6, and 7.

(1) Grants may be used for:

(1) 100 percent of the design and engineering costs that are in excess of $10,000;

(2) 100 percent of the bridge approach work costs that are in excess of $10,000; and

(3) 100 percent of the bridge construction work costs.

Subd. 6c. Fracture-critical bridges. (a) The commissioner may make a grant to any political subdivision for replacement or rehabilitation of a fracture-critical bridge. To be eligible for a grant under this subdivision, the project must produce a bridge structure:

(1) that is no longer classified as fracture critical, by having alternate load paths; and

(2) whose failure of a main component will not result in the collapse of the bridge.

(b) A grant under this subdivision is subject to the procedures and criteria established under subdivisions 5 and 6.
Sec. 8. Minnesota Statutes 2016, section 174.50, subdivision 7, is amended to read:

Subd. 7. **Bridge grant program; rulemaking.** (a) The commissioner of transportation shall develop rules, procedures for application for grants, conditions of grant administration, standards, and criteria as provided under subdivision 6, including bridge specifications, in cooperation with road authorities of political subdivisions, for use in the administration of funds appropriated to the commissioner and for the administration of grants to subdivisions. Grants under this section are subject to the procedures and criteria established in this subdivision and in subdivisions 5 and 6.

(b) The maximum use of standardized bridges is encouraged. Regardless of the size of the existing bridge, a bridge or replacement bridge is eligible for assistance from the state transportation fund if a hydrological survey indicates that the bridge or replacement bridge must be ten feet or more in length.

(c) As part of the standards or rules, the commissioner shall, in consultation with local road authorities, establish a minimum distance between any two bridges that cross over the same river, stream, or waterway, so that only one of the bridges is eligible for a grant under this section. As appropriate, the commissioner may establish exceptions from the minimum distance requirement or procedures for obtaining a variance.

(d) Political subdivisions may use grants made under this section to construct or reconstruct bridges, including but not limited to:

1. matching federal aid grants to construct or reconstruct key bridges;
2. paying the costs to abandon an existing bridge that is deficient and in need of replacement but where no replacement will be made; and
3. paying the costs to construct a road or street to facilitate the abandonment of an existing bridge if the commissioner determines that the bridge is deficient, and that construction of the road or street is more economical than replacement of the existing bridge.

(e) Funds appropriated to the commissioner from the Minnesota state transportation fund shall be segregated from the highway tax user distribution fund and other funds created by article XIV of the Minnesota Constitution.

(f) The commissioner is prohibited from awarding a grant under this section for a local bridge replacement or rehabilitation project with a total project cost estimate of $7,000,000 or more.

(g) Notwithstanding paragraph (f), the commissioner may award a grant under this section for a portion of a local bridge replacement or rehabilitation project with a total project cost estimate of $7,000,000 or more if every other local bridge replacement or rehabilitation project on the commissioner's priority list with a total project cost estimate of less than $7,000,000 has been fully funded.

Sec. 9. **[219.016] HAZARDOUS MATERIALS RAIL SAFETY.**

Subdivision 1. **Program established.** A hazardous materials rail safety program is established for the purpose of reducing the risks associated with the transportation of oil, ethanol, and other hazardous material by rail.

Subd. 2. **Accounts established.** Two hazardous materials rail safety program accounts are created, one in the special revenue fund and one in the bond proceeds fund. The account in the special revenue fund consists of money as provided by law, and any other money donated, allotted, transferred, or otherwise provided to the account. Money in each account is appropriated to the commissioner of transportation to make grants as provided in this section. Money in the accounts is available until spent, notwithstanding section 16A.28 or 16A.642.
Subd. 3. **Eligible applicant.** A county, statutory or home rule charter city, or town that is responsible for establishing and maintaining public highway-rail grade crossings on rail corridors transporting crude oil and other hazardous materials may apply to the commissioner for financial assistance under this section.

Subd. 4. **Eligible project.** (a) A project is eligible for a grant from the account in the bond proceeds fund if the project is for the acquisition or betterment of public land, buildings, and other public improvements of a capital nature within the meaning of the Minnesota Constitution, article XI, section 5, clause (a) or (i), including capital costs associated with hazardous materials rail safety projects on public highway-rail grade crossings. Qualifying capital costs include but are not limited to upgrades to existing protection systems, the closing of crossings and necessary roadwork, and reconstruction of at-grade crossings to full grade separations.

(b) A project is eligible for a grant from the account in the special revenue fund if it is for purposes described in paragraph (a) or other capital facility improvement purposes that support the purposes for which this grant program is established, including capital costs associated with planning, engineering, administration, and construction of public highway-rail grade crossing improvements on rail corridors transporting crude oil and other hazardous materials. Improvements may include upgrades to existing protection systems, the closing of crossings and necessary roadwork, and reconstruction of at-grade crossings to full grade separations.

Subd. 5. **Grants; criteria for grant award.** The commissioner must consider the following criteria to evaluate applications for a grant award under this section:

1. whether the crossing was identified as a potential candidate for grade separation in the Department of Transportation's crude by rail grade crossing study (Improvements to Highway Grade Crossings and Rail Safety, December 2014);

2. roadway traffic volumes and speeds;

3. train volumes and speeds;

4. adjacent land use;

5. crash history;

6. use of the crossing by emergency vehicles;

7. use of the crossing by vehicles carrying hazardous materials; and

8. local financial contributions to the project.

Subd. 6. **Process.** The commissioner must develop forms and procedures for soliciting and reviewing applications for grants under this section. An applicant must apply for a grant in the manner and at the times determined by the commissioner. The grant agreement must be approved by the commissioner of management and budget and is subject to cancellation under subdivision 7.

Subd. 7. **Grant cancellation.** If the commissioner determines that a grantee is unable to proceed with an approved project or has not expended or obligated the grant money within four years of entering into the grant agreement with the commissioner, the commissioner must cancel the grant. Money canceled under this subdivision is available for the commissioner to make other grants under this section.
Sec. 10. Minnesota Statutes 2016, section 446A.072, is amended to read:

446A.072 WASTEWATER WATER INFRASTRUCTURE FUNDING PROGRAM.

Subdivision 1. Establishment of program. The authority will establish a wastewater water infrastructure funding program to provide supplemental assistance to governmental units receiving funding through the clean water revolving fund program, the drinking water revolving fund program, or the United States Department of Agriculture Rural Economic and Community Development’s (USDA/RECD) Water and Waste Disposal Loans and Grants program for the predesign, design, and construction of municipal wastewater treatment and drinking water systems, including purchase of land and easements. The purpose of the program is to assist governmental units demonstrating financial need to build cost-effective projects to address existing environmental or public health problems. To implement the program, the authority shall establish a wastewater water infrastructure fund to provide grants and loans for the purposes authorized under title VI of the Federal Water Pollution Control Act and the federal Safe Drinking Water Act. The fund shall be credited with all investment income from the fund and all repayments of loans, grants, and penalties.

Subd. 3. Program administration. (a) The authority shall provide supplemental assistance, as provided in subdivision 5a to governmental units:

(1) whose projects are listed on the Pollution Control Agency’s project priority list or the Department of Health’s project priority list;

(2) that demonstrate their projects are a cost-effective solution to an existing environmental or public health problem; and

(3) whose projects are approved by the USDA/RECD or certified by the commissioner of the Pollution Control Agency or the Department of Health.

(b) For a governmental unit receiving grant funding from the USDA/RECD, applications must be made to the USDA/RECD with additional information submitted to the authority as required by the authority. Eligible project costs and affordability criteria shall be determined by the USDA/RECD.

(c) For a governmental unit not receiving grant funding from the USDA/RECD, application must be made to the authority on forms prescribed by the authority for the clean water revolving fund program or the drinking water revolving fund program with additional information as required by the authority. In accordance with section 116.182, the Pollution Control Agency or Department of Health shall:

(1) calculate the essential project component percentage based on the portion of project costs necessary to convey or treat the existing wastewater flows and loadings or, for drinking water projects, to provide safe drinking water to meet existing needs, which must be multiplied by the total project cost to determine the eligible project cost for the program under this section; and

(2) review and certify approved projects to the authority.

(d) Each fiscal year the authority shall make funds available for projects based on their ranking on the Pollution Control Agency’s project priority list or the Department of Health’s project priority list. The authority shall reserve funds for a project when the applicant receives a funding commitment from the United States Department of Agriculture Rural Development (USDA/RECD) or submits plans and specifications to the project is certified by the Pollution Control Agency or Department of Health. Funds must be reserved in an amount based on the project cost estimate submitted to the authority prior to the appropriation of the funds and awarded based on the lesser of that amount or the as-bid cost when the project is certified or the as-bid cost, whichever is less.
Subd. 5a. **Type and amount of assistance.** (a) For a governmental unit receiving grant funding from the USDA/RECD, the authority may provide assistance in the form of a grant of up to 65 percent of the eligible grant need determined by USDA/RECD. A governmental unit may not receive a grant under this paragraph for more than $4,000,000 per project or $15,000 per existing connection, whichever is less, unless specifically approved by law.

(b) For a governmental unit receiving a loan from the clean water revolving fund under section 446A.07, the authority may provide assistance under this section in the form of a grant if the average annual residential wastewater system cost after completion of the project would otherwise exceed 1.4 percent of the median household income of the project service area. In determining whether the average annual residential wastewater system cost would exceed 1.4 percent, the authority must consider the total costs associated with building, operating, and maintaining the wastewater system, including existing wastewater debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the clean water revolving fund loan under section 446A.07, subdivision 7. The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential wastewater system cost to 1.4 percent of median household income in the project service area, to a maximum of $4,000,000 per project or $15,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

(c) For a governmental unit receiving a loan from the drinking water revolving fund under section 446A.081, the authority may provide assistance under this section in the form of a grant if the average annual residential drinking water system cost after completion of the project would otherwise exceed 1.2 percent of the median household income of the project service area. In determining whether the average annual residential drinking water system cost would exceed 1.2 percent, the authority must consider the total costs associated with building, operating, and maintaining the drinking water system, including existing drinking water debt service, debt service on the eligible project cost, and operation and maintenance costs. Debt service costs for the proposed project are calculated based on the maximum loan term permitted for the drinking water revolving fund loan under section 446A.081, subdivision 8, paragraph (c). The amount of the grant is equal to 80 percent of the amount needed to reduce the average annual residential drinking water system cost to 1.2 percent of median household income in the project service area, to a maximum of $5,000,000 per project or $20,000 per existing connection, whichever is less, unless specifically approved by law. The eligible project cost is determined by multiplying the total project costs minus any other grants by the essential project component percentage calculated under subdivision 3, paragraph (c), clause (1). In no case may the amount of the grant exceed 80 percent of the eligible project cost.

(d) Notwithstanding the limits in paragraphs (a) and (b), and (c), for a governmental unit receiving supplemental assistance under this section after January 1, 2002, if the authority determines that the governmental unit's construction and installation costs are significantly increased due to geological conditions of crystalline bedrock or karst areas and discharge limits that are more stringent than secondary treatment, the maximum award under this section shall not be more than $25,000 per existing connection.

Subd. 5b. **Special assessment deferral.** A governmental unit receiving a loan under subdivision 5a that levies special assessments to repay the loan under subdivision 5a or section 446A.07 may defer payment of such assessments under the provisions of sections 435.193 to 435.195.

Subd. 6. **Disbursements.** Disbursements of grants or loans awarded under this section by the authority to recipients must be made for eligible project costs as incurred by the recipients, and must be made by the authority in accordance with the project financing agreement and applicable state and federal laws and rules governing the payments.
Subd. 7. Loan repayments. Notwithstanding the limitations set forth in section 475.54, subdivision 1, this subdivision shall govern the maturities and mandatory sinking fund redemptions of the loans under this section. A governmental unit receiving a loan under this section shall repay the loan in semiannual payment amounts determined by the authority. The payment amount must be based on the average payments on the governmental unit’s clean water revolving fund loan or, if greater, the minimum amount required to fully repay the loan by the maturity date. Payments must begin within one year of the date of the governmental unit’s final payment on the clean water revolving fund loan. The final maturity date of the loan under this section must be no later than 20 years from the date of the first payment on the loan under this section and no later than 40 years from the date of the first payment on the clean water revolving fund loan.

Subd. 8. Eligibility. A governmental unit is eligible for assistance under this section only after applying for grant funding from other sources and funding has been obtained, rejected, or the authority has determined that the potential funding is unlikely.

Subd. 9. Funding limitation. Supplemental assistance may not be used to reduce the sewer service charges of a significant wastewater contributor, industrial user that has a separate service charge agreement with the recipient, or a single user that has caused the need for the project or whose current or projected flow and load exceed usage exceeds one-half of the current wastewater treatment plant or drinking water system capacity.

Subd. 11. Report on needs. By February 1 of each even-numbered year, the authority, in conjunction with the Pollution Control Agency and the Department of Health, shall prepare a report to the Finance Division of the senate Environment and Natural Resources Committee and the house of representatives Environment and Natural Resources Finance Committee on wastewater and drinking water funding assistance needs of governmental units under this section.

Subd. 12. System replacement fund. Each governmental unit receiving a loan or grant under this section shall establish a system replacement fund and shall annually deposit a minimum of $.50 per 1,000 gallons of flow for major rehabilitation or expansion, or replacement of the treatment wastewater or drinking water system, or replacement of the treatment system at the end of its useful life. Money must remain in the account for the life of the corresponding project loan from the authority or USDA/RECD, unless use of the fund is approved in writing by the authority for major rehabilitation, expansion, or replacement of the treatment wastewater or drinking water system. By March 1 each year during the life of the loan, each recipient shall submit a report to the authority regarding the amount deposited and the fund balance for the prior calendar year. A recipient is not required to maintain a fund balance greater than the amount of the grant received. Failure to comply with the requirements of this subdivision shall result in the authority assessing a penalty fee to the recipient equal to one percent of the supplemental assistance amount for each year of noncompliance. Failure to make the required deposit or pay the penalty fee as required constitutes a default on the loan.

Subd. 14. Consistency with land use plans. A governmental unit applying for a project in an unsewered area shall include in its application to the authority a certification from the county in which the project is located that:

1. the project is consistent with the county comprehensive land use plan, if the county has adopted one;

2. the project is consistent with the county water plan, if the county has adopted one; and

3. the county has adopted specific land use ordinances or controls so as to meet or exceed the requirements of Minnesota Rules, part 7082.0050.
Sec. 11. Minnesota Statutes 2016, section 446A.073, is amended to read:

(1) in accordance with section 116.182, calculate the essential project component percentage, which must be multiplied by the total project cost to determine the eligible project cost; and

(2) review and certify to the authority those projects that have plans and specifications approved under section 115.03, subdivision 1, paragraph (f).

Subd. 3. Project priorities. When money is appropriated for grants under this program, The authority shall accept applications under this program during the month of July and. When a project is certified by the Pollution Control Agency the authority shall reserve money for projects expected to proceed with construction by the end of the fiscal year the project in the order listed on the Pollution Control Agency’s project priority list and in an amount based on the cost estimate submitted to the authority in the grant application when the project is certified or the as-bid costs, whichever is less.
