(2) for a vehicle initially registered in Minnesota on or after the effective date of this section, 1.28 percent of the manufacturer's suggested retail price of the vehicle, subject to the adjustments in paragraphs (f) and (g).

(b) Subject to the classification provisions herein, "Base value" means the manufacturer's suggested retail price of the vehicle including destination charge using list price information published by the manufacturer or determined by the registrar if no suggested retail price exists, and shall The registration tax calculation must not include the cost of each accessory or item of optional equipment separately added to the vehicle and the manufacturer's suggested retail price. The registration tax calculation must not include a destination charge, except for a vehicle previously registered in Minnesota prior to the effective date of this section.

(c) In the case of the first registration of a new vehicle sold or leased by a licensed dealer, the dealer may elect to individually determine the base value of registration tax on the vehicle using manufacturer's suggested retail price information provided by the manufacturer. The registrar must use the base value determined by the dealer to properly classify the vehicle. The registrar must use the manufacturer's suggested retail price determined by the dealer as provided in paragraph (d). A dealer that elects to make the determination must retain a copy of the manufacturer's suggested retail price label or other supporting documentation with the vehicle transaction records maintained under Minnesota Rules, part 7400.5200.

(e) The registrar shall classify every vehicle in its proper base value class as follows:

<table>
<thead>
<tr>
<th>FROM</th>

<tr>
<td>$200</td>
<td>$999.99</td>

(f) The base value for purposes of this section shall be the middle point between the extremes of its class.

(g) The registrar shall establish the base value, when new, of every passenger automobile and hearse registered prior to the effective date of Extra Session Laws 1971, chapter 31, must determine the manufacturer's suggested retail price:

1. using list price information published by the manufacturer or any nationally recognized firm or association compiling such data for the automotive industry;

2. if the list price information is unavailable, then using the amount determined by a licensed dealer under paragraph (c);

3. if a dealer does not determine the amount, then using the retail price label as provided by the manufacturer under United States Code, title 15, section 1232; or

4. if the retail price label is not available, then using the actual sales price of the vehicle.

If the registrar is unable to ascertain the base value manufacturer's suggested retail price of any registered vehicle in the foregoing manner, the registrar may use any other available source or method.

(e) The registrar shall calculate the registration tax using base value information available to dealers and deputy registrars at the time the initial application for registration is submitted. The tax on all previously registered vehicles shall be computed upon the base value thus determined taking into account the depreciation provisions of paragraph (h).

(h) The annual additional tax amount under paragraph (a), clauses (1) and (2), must be computed upon calculated based on a percentage of the base value manufacturer's suggested retail price, as follows: during the first year of vehicle life, upon 100 percent of the base value price; for the second year, 90 percent of the base value price; for the third year, 80 percent of the base value price; for the fourth year, 70 percent of the base value price; for the fifth year, 60 percent of the base value price; for the sixth year, 50 percent of the base value price; for the seventh year, 40 percent of the base value price; for the eighth year, 30 percent of the base value price; for the ninth year, 20 percent of the base value price; and for the tenth year, ten percent of the base value price.

(i) In no event shall the annual additional tax be less than $25.
(h) Except as provided in subdivision 23, for any vehicle previously registered in Minnesota and regardless of prior ownership, the total amount due under this subdivision and subdivision 1m must not exceed the smallest total amount previously paid or due on the vehicle.

**EFFECTIVE DATE.** Paragraphs (a) to (g) are effective January 1, 2021, or upon deployment of the necessary changes to the replacement motor vehicle title and registration information system, whichever is earlier, and apply to taxes payable for a registration period starting on or after that date. Subd. 23. **Adjustments to registration tax.** (a) Except as provided in this subdivision, the commissioner must not adjust the manufacturer's suggested retail price or destination charge for any vehicle in a subsequent registration period following initial registration in Minnesota.

(b) The commissioner must adjust the registration tax amount of any vehicle to correct an error or omission that was made in determining or entering the registration tax amount or the destination charge amount. For a vehicle with a registration tax determined based on the actual sales price, the commissioner must adjust the registration tax within two years of the initial registration using one of the methods described in subdivision 1a, paragraph (d), clauses (1) to (3). The adjusted registration tax amount is effective starting with the vehicle's next registration period. The commissioner must not collect any amount that would have been paid but for the error or omission.

(c) When the commissioner makes an adjustment to the registration tax amount pursuant to this subdivision, the commissioner must mail written notice to the owner of the vehicle stating that an adjustment was made to the registration tax amount, the reason for the adjustment, and contact information so that the owner may call to ask questions.
