Before an out-of-state health care professional begins providing health care services for a health care employer, the health care employer must verify that the out-of-state professional holds an active, unrestricted, relevant credential to practice issued by another state or territory that demonstrates the out-of-state professional has the qualifications to provide the health care services to be provided in Minnesota.

(b) A health care employer must submit a report under this subdivision no later than 30 days after the out-of-state professional began providing services for the health care employer and must submit updated reports to include any additional out-of-state professionals that begin providing services for the employer.

Subd. 4. Credential from another state. The credential held by an out-of-state health care professional providing services under this section has the same force and effect as if issued in Minnesota.

An out-of-state health care professional providing services under this section who would otherwise be required to obtain a license from the Board of Medical Practice to provide those services must submit to the jurisdiction of the Board of Medical Practice. An out-of-state health care professional providing services under this section who would otherwise be required to obtain a license from the Board of Nursing to provide those services must submit to the jurisdiction of the Board of Nursing. Upon a revocation of authorization, the out-of-state health care professional must immediately cease providing health care services in Minnesota.
