"Sec. 4 Minnesota Statutes 2020, section 126C.05, subdivision 8, is amended to read:

Subd. 8. **Average daily membership.** (a) Membership for pupils in grades kindergarten through 12 and for prekindergarten pupils with disabilities shall mean the number of pupils on the current roll of the school, counted from the date of entry until withdrawal. For fiscal year 2022 and later, membership includes pupils in kindergarten through grade 12 participating in the opportunity scholarship program under section 2. The date of withdrawal shall mean the day the pupil permanently leaves the school or the date it is officially known that the pupil has left or has been legally excused. However, a pupil, regardless of age, who has been absent from school for 15 consecutive school days during the regular school year or for five consecutive school days during summer school or intersession classes of flexible school year programs without receiving instruction in the home or hospital shall be dropped from the roll and classified as withdrawn. Nothing in this section shall be construed as waiving the compulsory attendance provisions cited in section 120A.22. Average daily membership equals the sum for all pupils of the number of days of the school year each pupil is enrolled in the district's schools divided by the number of days the schools are in session or are providing e-learning days due to inclement weather. Days of summer school or intersession classes of flexible school year programs are only included in the computation of membership for pupils with a disability not appropriately served primarily in the regular classroom. A student must not be counted as more than 1.2 pupils in average daily membership under this section and section 126C.10, subdivision 2a, paragraph (b). When the initial total average daily membership exceeds 1.2 for a pupil enrolled in more than one school district during the fiscal year, each district's average daily membership must be reduced proportionately.

(b) A student must not be counted as more than one pupil in average daily membership except for purposes of section 126C.10, subdivision 2a.

**EFFECTIVE DATE.** This section is effective for the 2022-2023 school year and later."

**Subd. 6. School district program administration.** (a) A school district must annually notify the families of the students enrolled in the school district of their option to participate in the opportunity scholarship program.

(b) The school district must continue to count a student participating in the opportunity scholarship program as an enrolled pupil under section 126C.05 and continue to receive revenue for that student.

(c) On July 1 of each year, the Department of Education must calculate the average general education revenue per pupil unit for that school year, post that amount on the department's website, and notify each school district of the amount. By July 15 of each year, each school district must notify the participating students' families of the per pupil revenue amount for that year.

(d) The amount calculated under paragraph (c) is the maximum amount that the school district must transfer to the student's family for that school year.

(e) The school district must establish a procedure to allow a student's family to submit tuition receipts from a qualifying opportunity scholarship school and receipts for other eligible expenditures for reimbursement. The receipts for tuition may be presented on a monthly basis. The school district must pay the student's family the documented amounts within 30 days of receiving the receipt for tuition expenses from the student's family.

(g) At the conclusion of each school year, the school district must contribute the remaining general education funds attributable to that student, if any, to the student's 529 account according to the provisions of this subdivision.

(h) The school district may retain any other funds attributable to a student participating in the opportunity scholarship program.

**Subd. 7. 529 contributions.** (a) At the conclusion of each school year, at the request of the student's family, the school district must contribute the remaining general education funds attributable to that student, if any, to the student's family for deposit into a qualified tuition plan that meets the requirements of section 529 of the Internal Revenue Code and for which the student is a beneficiary.

(b) Within 60 days of receiving funds under this subdivision, the student's family must submit written documentation to the school district confirming the funds were contributed to a qualified tuition plan. A family that does not submit documentation under this paragraph must repay to the school district the amount received, plus the amount of interest accrued at the rate established under section 270C.40, subdivision 5, within 90 days of receiving the funds.

(c) For a student whose family does not request a funds transfer under paragraph (a) within 90 days of the conclusion of the school year, the school district must:

(1) in consultation with the commissioner of higher education, establish a custodial account for the student as part of the Minnesota college savings plan under chapter 136G; and

(2) deposit any remaining general education funds attributable to the student into a custodial account established for the student under clause (1).

(b) A school district may develop grade-level curricula or provide instruction that introduces students to various careers, but must not require any curriculum, instruction, or employment-related activity that obligates an elementary or secondary student to involuntarily select or pursue a career, career interest, employment goals, or related job training.

School districts must provide appropriate curriculum, targeted materials, professional development opportunities for educators, and sufficient resources to enable English learners to become career and college ready.

(e) If a student with a disability has an individualized education program (IEP) or standardized written plan that meets the plan components of this section, the IEP satisfies the requirement and no additional transition plan is needed.

(f) Students who do not meet or exceed Minnesota academic standards, as measured by the Minnesota Comprehensive Assessments that are administered during high school, shall be informed that admission to a public school is free and available to any resident under 21 years of age or who meets the requirements of section 120A.20, subdivision 1, paragraph (c). (3) a project for which a certificate of need was denied before July 1, 1990, if a timely appeal results in an order reversing the denial;

(4) a project exempted from certificate of need requirements by Laws 1981, chapter 200, section 2;

(5) a project involving consolidation of pediatric specialty hospital services within the Minneapolis-St. Paul metropolitan area that would not result in a net increase in the number of pediatric specialty hospital beds among the hospitals being consolidated;

(6) a project involving the temporary relocation of pediatric-orthopedic hospital beds to an existing licensed hospital that will allow for the reconstruction of a new philanthropic, pediatric-orthopedic hospital on an existing site and that will not result in a net increase in the number of hospital beds. Upon completion of the reconstruction, the licenses of both hospitals must be reinstated at the capacity that existed on each site before the relocation;

(7) the relocation or redistribution of hospital beds within a hospital building or identifiable complex of buildings provided the relocation or redistribution does not result in: (i) an increase in the overall bed capacity at that site; (ii) relocation of hospital beds from one physical site or complex to another; or (iii) redistribution of hospital beds within the state or a region of the state;

(8) relocation or redistribution of hospital beds within a hospital corporate system that involves the transfer of beds from a closed facility site or complex to an existing site or complex provided that: (i) no more than 50 percent of the capacity of the closed facility is transferred; (ii) the capacity of the site or complex to which the beds are transferred does not increase by more than 50 percent; (iii) the beds are not transferred outside of a federal health systems agency boundary in place on July 1, 1983; and (iv) the relocation or redistribution does not involve the construction of a new hospital building;

(11) the relocation of licensed hospital beds from an existing state facility operated by the commissioner of human services to a new or existing facility, building, or complex operated by the commissioner of human services; from one regional treatment center site to another; or from one building or site to a new or existing building or site on the same campus;

(12) the construction or relocation of hospital beds operated by a hospital having a statutory obligation to provide hospital and medical services for the indigent that does not result in a net increase in the number of hospital beds, notwithstanding section 144.552, 27 beds, of which 12 serve mental health needs, may be transferred from Hennepin County Medical Center to Regions Hospital under this clause;

(13) a construction project involving the addition of up to 31 new beds in an existing nonfederal hospital in Beltrami County;

(20) notwithstanding section 144.552, a project for the construction of a new hospital in the city of Maple Grove with a licensed capacity of up to 300 beds provided that:

(v) as of 30 days following submission of a written plan, the commissioner of health has not determined that the hospitals or health systems that will own or control the entity that will hold the new hospital license are unable to meet the criteria of this clause;

(21) a project approved under section 144.553;
