Re: HF3186

April 27, 2020

Madam Chair and Members of the Committee,

My name is Leah Gardner and I am Policy Director at Hunger Solutions Minnesota. Please accept this as my written testimony in support of the measures included in HF3186 to end lunch shaming.

In these times of uncertainty and economic hardship, schools remain a critical access point for families in need of food. This fosters an important sense of community and demonstrates that all aspects of a child’s well-being will be supported at our schools.

When children return to their classrooms, our commitment to their well-being must remain steadfast. This leaves no room for practices that single out or demean a student for having a lunch debt. Unfortunately, documented incidences of lunch shaming have occurred as recently as this past November. As a result, it is necessary that we act now to ensure that in the future all communications regarding school meal balances remain strictly between adults and that all children will be served a nutritious meal regardless of their family’s ability to pay.

Thank you for taking action to make it clear that lunch shaming will no longer be tolerated in Minnesota.

Leah Gardner
