moves to amend H.F. No. 710, the first engrossment, as follows:

Page 21, after line 5, insert:

"Subd. 10. Disparities

(a) A recipient of money appropriated in this section must include in the accomplishment plan a reasonable estimate of whether the project will increase or decrease disparities.

A final report submitted by the recipient must include a narrative describing whether the investments made had the effect of increasing or decreasing disparities and any data available to assess the impact.

(b) The commissioner of natural resources, in consultation with the Lessard-Sams Outdoor Heritage Council, must assess the information on disparities required under paragraph (a), to determine whether the appropriations under this section have had an effect of increasing or decreasing disparities and any data gaps that impair the commissioner's ability to assess the appropriations' impact. The commissioner must submit a report to the Lessard-Sams Outdoor Heritage Council and the chairs and ranking minority members of the house of representatives and senate committees and divisions with jurisdiction over the outdoor
heritage fund with the results of this assessment by December 15, each year until the last final report is submitted.

(c) For purposes of this subdivision, "disparities" means differences in economic, employment, health, education, or public safety outcomes between the state population as a whole and subgroups of the population defined by socioeconomic status, race, gender, and geography,"
