

Dear Chair Richardson and Committee Members,

My name is Alyssa Horvat and my child attends Hibbing High School.

My child needs to be in person school at least 4 days a week to learn something this year. She cannot go on google meets or do any of her work unless I am home because she can't navigate the iPad in that aspect on her own.

I also work so she misses out on all google meets, and zoom meetings, etc.. that happen during the day. (8-5). The school offered to give her para an iPad and then she and my child can FaceTime from my computer and do work that way but again that can only be done when I am home to assist with technology and making sure she and the para are on the same assignment, etc.. It is very difficult to do distance learning with out proper supports.
