

I have been a Juvenile Probation officer for Hennepin County for over thirty years. I have worked with the High-Fidelity Wraparound Services since the inception of the program. Wraparound has always been there to help service my clients in the community. They have worked with my clients and their families when there is a need for finding new programs and new ways to address problems/crisis. The Wraparound program has made it a safe space for the families and clients to discuss their issues whether it was for mental health, school, chemical dependency, or just being a mentor to my client. The program has gone above and beyond to help my clients and their families in the community. They really are committed to working with the family and completing the process to the very end. It has been and is a pleasure to work with the High-fidelity Wraparound Program.

Juvenile Probation Officer, Calvin Addison
