Districts, charter schools, and nonpublic schools that receive services or aid under sections 123B.40 to 123B.48 must make reasonable efforts to determine the district, the charter school, or the nonpublic school in which a transferring student is next enrolling in order to comply with this subdivision.

(b) A closed charter school must transfer the student's educational records, within ten business days of the school's closure, to the student's school district of residence where the records must be retained unless the records are otherwise transferred under this subdivision.

(c) A school district, a charter school, or a nonpublic school that receives services or aid under sections 123B.40 to 123B.48 that transmits a student's educational records to another school district or other educational entity, charter school, or nonpublic school to which the student is transferring must include in the transmitted records information about any formal suspension, expulsion, and exclusion disciplinary action or pupil withdrawal under sections 121A.40 to 121A.56. The transmitted records must include services a pupil needs. The district, the charter school, or the nonpublic school that receives services or aid under sections 123B.40 to 123B.48 must provide notice to a student and the student's parent or guardian that formal disciplinary records will be transferred as part of the student's educational record, in accordance with data practices under chapter 13 and the Family Educational Rights and Privacy Act of 1974, United States Code, title 20, section 1232(g).

(d) Notwithstanding section 138.17, a principal or chief administrative officer must remove from a student's educational record and destroy a probable cause notice received under section 260B.171, subdivision 5, or paragraph (e), if one year has elapsed since the date of the notice and the principal or chief administrative officer has not received a disposition or court order related to the offense described in the notice. Sec. 2. Minnesota Statutes 2016, section 120A.22, subdivision 12, is amended to read:

Subd. 12. Legitimate exemptions. (a) A parent, guardian, or other person having control
of a child may apply to a school district to have the child excused from attendance for the
whole or any part of the time school is in session during any school year. Application may
be made to any member of the board, a truant officer, a principal, or the superintendent.
The school district may state in its school attendance policy that it may ask the student's
parent or legal guardian to verify in writing the reason for the child's absence from school.
A note from a physician or a licensed mental health professional stating that the child cannot
attend school is a valid excuse. The board of the district in which the child resides may
approve the application upon the following being demonstrated to the satisfaction of that
board:

(1) that the child's physical or mental health is such as to prevent attendance at school
or application to study for the period required, which includes:

(i) child illness, medical, dental, orthodontic, or counseling appointments;

(ii) family emergencies;

(iii) the death or serious illness or funeral of an immediate family member;

(iv) active duty in any military branch of the United States;

(v) the child has a condition that requires ongoing treatment for a mental health diagnosis;

or

(vi) other exemptions included in the district's school attendance policy;

(2) that the child is participating in any activity necessary for the child to join any branch
of the United States armed forces and may be excused for up to three days for such purpose;

(3) that the child has already completed state and district standards required for
graduation from high school; or

(4) that it is the wish of the parent, guardian, or other person having control of the
child, that the child attend for a period or periods not exceeding in the aggregate three hours
in any week, a school for religious instruction conducted and maintained by some church,
or association of churches, or any Sunday school association incorporated under the laws
of this state, or any auxiliary thereof. This school for religious instruction must be conducted
and maintained in a place other than a public school building, and it must not, in whole or
in part, be conducted and maintained at public expense. However, a child may be absent
from school on such days as the child attends upon instruction according to the ordinances
of some church.

(b) Notwithstanding subdivision 6, paragraph (a), a parent may withdraw a child from
an all-day, every day kindergarten program and put their child in a half-day program, if
offered, or an alternate-day program without being truant. A school board must excuse a
kindergarten child from a part of a school day at the request of the child's parent.

**EFFECTIVE DATE.** This section is effective for the 2018-2019 school year and later.

individualized education program team that makes this determination must establish
alternative standards.
(c) The department must adopt the most recent SHAPE America (Society of Health and Physical Educators) kindergarten through grade 12 standards and benchmarks for physical education as the required physical education academic standards. The department may modify and adapt the national standards to accommodate state interest. The modification and adaptations must maintain the purpose and integrity of the national standards. The department must make available sample assessments, which school districts may use as an alternative to local assessments, to assess students' mastery of the physical education standards beginning in the 2018-2019 school year.

(d) A school district may include child sexual abuse and sexual exploitation prevention instruction in a health curriculum, consistent with paragraph (a), clause (6). Child sexual abuse and sexual exploitation prevention instruction may include age-appropriate instruction on recognizing sexual abuse and assault, and sexual exploitation; boundary violations; and ways offenders identify, groom, or desensitize victims, as well as strategies to promote disclosure, reduce self-blame, and mobilize bystanders. A school district may consult with other federal, state, or local agencies and community-based organizations to identify research-based tools, curricula, and programs to prevent child sexual abuse and sexual exploitation. best workforce goals under paragraph (b).

Sec. 10. Minnesota Statutes 2016, section 120B.12, as amended by Laws 2017, First
Special Session chapter 5, article 2, sections 5, 6, and 7, is amended to read:

120B.12 READING PROFICIENTLY NO LATER THAN THE END OF GRADE
3.

above grade level no later than the end of grade 3, including English learners, and that
teachers provide comprehensive, scientifically based reading instruction consistent with
section 122A.06, subdivision 4.

Subd. 2. Identification; report. (a) Each school district shall identify before the
end of kindergarten, grade 1, and grade 2 students who are not reading at grade level before
the end of the current school year and shall identify students in grade 3 or higher who
demonstrate a reading difficulty to a classroom teacher. A school district must screen for
dyslexia:

(1) all students in kindergarten, grade 1, and grade 2 who are not reading at grade level;
and
(2) any student in grade 3 or higher who demonstrates a reading difficulty.

(b) Reading assessments in English, and in the predominant languages of district students

where practicable, must identify and evaluate students' areas of academic need related to

literacy. The district also must monitor the progress and provide reading instruction

appropriate to the specific needs of English learners. The district must use a locally adopted,

developmentally appropriate, and culturally responsive assessment and annually report

summary assessment results to the commissioner by July 1.

(c) The district also must annually report to the commissioner by July 1 a summary of

the district's efforts to screen and identify students with:

the parent of each student who is not reading at or above grade level timely information

about:

(1) the student's reading proficiency as measured by a locally adopted assessment;

(2) reading-related services currently being provided to the student and the student's

progress; and

(3) strategies for parents to use at home in helping their student succeed in becoming

grade-level proficient in reading in English and in their native language.

evaluation.

Subd. 3. Intervention. (a) For each student identified under subdivision 2, the district

shall provide reading intervention to accelerate student growth and reach the goal of

reading at or above grade level by the end of the current grade and school year. If a student

does not read at or above grade level by the end of grade 3, the district must continue to

provide reading intervention until the student reads at grade level. District intervention

methods shall encourage family engagement and, where possible, collaboration with

appropriate school and community programs. Intervention methods may include, but are

not limited to, requiring attendance in summer school, intensified reading instruction that
may require that the student be removed from the regular classroom for part of the school day, extended-day programs, or programs that strengthen students' cultural connections.

(b) A school district or charter school is strongly encouraged to provide a personal learning plan for a student who is unable to demonstrate grade-level proficiency, as measured by the statewide reading assessment in grade 3. The district or charter school must determine the format of the personal learning plan in collaboration with the student's educators and other appropriate professionals. The school must develop the learning plan in consultation with the student's parent or guardian. The personal learning plan must address knowledge gaps and skill deficiencies through strategies such as specific exercises and practices during and outside of the regular school day, periodic assessments, and reasonable timelines. The personal learning plan may include grade retention, if it is in the student's best interest. A school must maintain and regularly update and modify the personal learning plan until the student reads at grade level. This paragraph does not apply to a student under an individualized education program.

Subd. 4. **Staff development.** (a) Each district shall use the data under subdivision 2 to identify the staff development needs so that:

1. elementary teachers are able to implement comprehensive, scientifically based reading and oral language instruction in the five reading areas of phonemic awareness, phonics, fluency, vocabulary, and comprehension as defined in section 122A.06, subdivision 4, and other literacy-related areas including writing until the student achieves grade-level reading proficiency;

2. elementary teachers have sufficient training to provide comprehensive, scientifically based reading and oral language instruction that meets students' developmental, linguistic, and literacy needs using the intervention methods or programs selected by the district for the identified students;

3. licensed teachers employed by the district have regular opportunities to improve reading and writing instruction, including screenings, intervention strategies, and accommodations for students showing characteristics associated with dyslexia;

4. licensed teachers recognize students' diverse needs in cross-cultural settings and are able to serve the oral language and linguistic needs of students who are English learners by maximizing strengths in their native languages in order to cultivate students' English language development, including oral academic language development, and build academic literacy; and
(5) licensed teachers are well trained in culturally responsive pedagogy that enables students to master content, develop skills to access content, and build relationships.

(b) A school district may use its literacy incentive aid under section 124D.98 for the staff development purposes of this subdivision.

Subd. 4a. Local literacy plan. (a) Consistent with this section, a school district must adopt a local literacy plan to have every child reading at or above grade level no later than the end of grade 3, including English learners. The plan must be consistent with section 122A.06, subdivision 4, and include the following:

(1) a process to assess students' level of reading proficiency and data to support the effectiveness of an assessment used to screen and identify a student's level of reading proficiency;

(2) a process to notify and involve parents;

(3) a description of how schools in the district will determine the proper reading intervention strategy for a student and the process for intensifying or modifying the reading strategy in order to obtain measurable reading progress;

(4) evidence-based intervention methods for students who are not reading at or above grade level and progress monitoring to provide information on the effectiveness of the intervention; and

(5) identification of staff development needs, including a program to meet those needs.

(b) The district must post its literacy plan on the official school district Web site.

Subd. 5. Commissioner. The commissioner shall must recommend to districts multiple assessment tools to assist districts and teachers with identifying students under subdivision 2. The commissioner shall must also make available examples of nationally recognized and research-based instructional methods or programs to districts to provide comprehensive, scientifically based reading instruction and intervention under this section.

EFFECTIVE DATE. Subdivision 2 is effective July 1, 2019. Subdivisions 3 to 5 are effective for revenue for fiscal year 2019 and later.

Sec. 11. Minnesota Statutes 2017 Supplement, section 120B.122, subdivision 1, is amended to read:

Subd. 1. Purpose Duties. (a) The department must employ a dyslexia specialist to provide technical assistance for dyslexia and related disorders and to serve as the primary
source of information and support for schools in addressing the needs of students with
dyslexia and related disorders.

(b) The dyslexia specialist shall also must act to increase professional awareness and
instructional competencies to meet the educational needs of students with dyslexia or
identified with risk characteristics associated with dyslexia and shall must develop
implementation guidance and make recommendations to the commissioner consistent with
section 122A.06, subdivision 4, to be used to assist general education teachers and special
education teachers to recognize educational needs and to improve literacy outcomes for
students with dyslexia or identified with risk characteristics associated with dyslexia,
including recommendations related to increasing the availability of online and asynchronous
professional development programs and materials.

(c) The dyslexia specialist must provide guidance to school districts and charter schools
on how to:

(1) access tools to screen and identify students showing characteristics associated with
dyslexia in accordance with section 120B.12, subdivision 2, paragraph (a);

(2) implement screening for characteristics associated with dyslexia in accordance with
section 120B.12, subdivision 2, paragraph (a), and in coordination with other early childhood
screenings; and

accommodations for students with dyslexia or characteristics associated with dyslexia.

(d) The dyslexia specialist must provide guidance to the Professional Educator Licensing
and Standards Board on developing licensing renewal requirements under section 122A.187,
subdivision 5, on understanding dyslexia, recognizing dyslexia characteristics in students,
and using evidence-based dyslexia best practices.

Sec. 12. Minnesota Statutes 2017 Supplement, section 120B.125, is amended to read:

in the 2013-2014 school year, must assist all students by no later than grade 9 to explore
their educational, college, and career interests, aptitudes, and aspirations and develop a plan
for a smooth and successful transition to postsecondary education or employment. All students' plans must:

1. provide a comprehensive plan to prepare for and complete a career and college ready curriculum by meeting state and local academic standards and developing career and employment-related skills such as teamwork, collaboration, creativity, communication, critical thinking, and good work habits;

2. emphasize academic rigor and high expectations and inform the student, and the student's parent or guardian if the student is a minor, of the student's achievement level score on the Minnesota Comprehensive Assessments that are administered during high school;

3. help students identify interests, aptitudes, aspirations, and personal learning styles that may affect their career and college ready goals and postsecondary education and employment choices;

4. set appropriate career and college ready goals with timelines that identify effective means for achieving those goals;

5. help students access education and career options, including armed forces career options;

6. integrate strong academic content into career-focused courses and applied and experiential learning opportunities and integrate relevant career-focused courses and applied and experiential learning opportunities into strong academic content;

7. help identify and access appropriate counseling and other supports and assistance that enable students to complete required coursework, prepare for postsecondary education and careers, and obtain information about postsecondary education costs and eligibility for financial aid and scholarship;

8. help identify collaborative partnerships among prekindergarten through grade 12 schools, postsecondary institutions, economic development agencies, and local and regional employers that support students' transition to postsecondary education and employment and provide students with applied and experiential learning opportunities; and

9. be reviewed and revised at least annually by the student, the student's parent or guardian, and the school or district to ensure that the student's course-taking schedule keeps the student making adequate progress to meet state and local academic standards and high school graduation requirements and with a reasonable chance to succeed with employment or postsecondary education without the need to first complete remedial course work.
(b) A school district may develop grade-level curricula or provide instruction that introduces students to various careers, but must not require any curriculum, instruction, or employment-related activity that obligates an elementary or secondary student to involuntarily select or pursue a career, career interest, employment goals, or related job training.

(c) Educators must possess the knowledge and skills to effectively teach all English learners in their classrooms. School districts must provide appropriate curriculum, targeted materials, professional development opportunities for educators, and sufficient resources to enable English learners to become career and college ready.

(d) When assisting students in developing a plan for a smooth and successful transition to postsecondary education and employment, districts must recognize the unique possibilities of each student and ensure that the contents of each student's plan reflect the student's unique talents, skills, and abilities as the student grows, develops, and learns.

(e) If a student with a disability has an individualized education program (IEP) or standardized written plan that meets the plan components of this section, the IEP satisfies the requirement and no additional transition plan is needed.

(f) Students who do not meet or exceed Minnesota academic standards, as measured by the Minnesota Comprehensive Assessments that are administered during high school, shall be informed that admission to a public school is free and available to any resident under 21 years of age or who meets the requirements of section 120A.20, subdivision 1, paragraph (c). (a) This section may be cited as "Jake's Law."

(b) School districts and charter schools are encouraged to provide substance misuse prevention instruction for students in grades 5 through 12 integrated into existing programs, curriculum, or the general school environment of a district or charter school. The
Commissioner of Education, in consultation with the director of the Alcohol and Other Drug Abuse Section under section 254A.03 and substance misuse prevention and treatment organizations, must, upon request, provide districts and charter schools with:

**EFFECTIVE DATE.** This section is effective July 1, 2018.

Sec. 14. Minnesota Statutes 2016, section 120B.299, subdivision 10, is amended to read:

Subd. 10. **Proficiency.** "Proficiency" for purposes of reporting growth on school performance report cards under section 120B.36, subdivision 1, means those students who, in the previous school year, scored at or above "meets standards" on the statewide assessments under section 120B.30. Each year, school performance report cards must separately display: (1) the numbers and percentages of students who achieved low growth, medium growth, and high growth and achieved proficiency in the previous school year; and (2) the numbers and percentages of students who achieved low growth, medium growth, and high growth and did not achieve proficiency in the previous school year.

Sec. 15. Minnesota Statutes 2017 Supplement, section 120B.30, subdivision 1, is amended to read:

Subdivision 1. **Statewide testing.** (a) The commissioner, with advice from experts with appropriate technical qualifications and experience and stakeholders, consistent with subdivision 1a, shall include in the comprehensive assessment system, for each grade level to be tested, state-constructed tests developed as computer-adaptive reading and mathematics assessments for students that are aligned with the state's required academic standards under section 120B.021, include multiple choice questions, and are administered annually to all students in grades 3 through 8. State-developed high school tests aligned with the state's required academic standards under section 120B.021 and administered to all high school students in a subject other than writing must include multiple choice questions. The commissioner shall establish one or more months during which schools shall administer the tests to students a testing period as late as possible each school year during which schools must administer the Minnesota Comprehensive Assessments to students. The commissioner must publish the testing schedule at least two years before the beginning of the testing period.
(1) Students enrolled in grade 8 through the 2009-2010 school year are eligible to be assessed under (i) the graduation-required assessment for diploma in reading, mathematics, or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1, paragraphs (c), clauses (1) and (2), and (d), (ii) the WorkKeys job skills assessment, (iii) the Compass college placement test, (iv) the ACT assessment for college admission, (v) a nationally recognized armed services vocational aptitude test.

(2) Students enrolled in grade 8 in the 2010-2011 or 2011-2012 school year are eligible to be assessed under (i) the graduation-required assessment for diploma in reading, mathematics, or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1, paragraph (c), clauses (1) and (2), (ii) the WorkKeys job skills assessment, (iii) the Compass college placement test, (iv) the ACT assessment for college admission, (v) a nationally recognized armed services vocational aptitude test.

(3) For students under clause (1) or (2), a school district may substitute a score from an alternative, equivalent assessment to satisfy the requirements of this paragraph.

(b) The state assessment system must be aligned to the most recent revision of academic standards as described in section 120B.023 in the following manner:

(1) mathematics;

(i) grades 3 through 8 beginning in the 2010-2011 school year; and

(ii) high school level beginning in the 2013-2014 school year;

(2) science; grades 5 and 8 and at the high school level beginning in the 2011-2012 school year; and

(3) language arts and reading; grades 3 through 8 and high school level beginning in the 2012-2013 school year.

(c) For students enrolled in grade 8 in the 2012-2013 school year and later, students' state graduation requirements, based on a longitudinal, systematic approach to student education and career planning, assessment, instructional support, and evaluation, include the following:

(1) achievement and career and college readiness in mathematics, reading, and writing, consistent with paragraph (k) and to the extent available, to monitor students' continuous development of and growth in requisite knowledge and skills; analyze students' progress and performance levels, identifying students' academic strengths and diagnosing areas where students require curriculum or instructional adjustments, targeted interventions, or remediation; and, based on analysis of students' progress and performance data, determine
students' learning and instructional needs and the instructional tools and best practices that support academic rigor for the student; and

(2) consistent with this paragraph and section 120B.125, age-appropriate exploration and planning activities and career assessments to encourage students to identify personally relevant career interests and aptitudes and help students and their families develop a regularly reexamined transition plan for postsecondary education or employment without need for postsecondary remediation.

Based on appropriate state guidelines, students with an individualized education program may satisfy state graduation requirements by achieving an individual score on the state-identified alternative assessments.

(d) Expectations of schools, districts, and the state for career or college readiness under this subdivision must be comparable in rigor, clarity of purpose, and rates of student completion.

A student under paragraph (c), clause (1), must receive targeted, relevant, academically rigorous, and resourced instruction, which may include a targeted instruction and intervention plan focused on improving the student's knowledge and skills in core subjects so that the student has a reasonable chance to succeed in a career or college without need for postsecondary remediation. Consistent with sections 120B.13, 124D.09, 124D.091, 124D.49, and related sections, an enrolling school or district must actively encourage a student in grade 11 or 12 who is identified as academically ready for a career or college to participate in courses and programs awarding college credit to high school students. Students are not required to achieve a specified score or level of proficiency on an assessment under this subdivision to graduate from high school.

(e) Though not a high school graduation requirement, students are encouraged to participate in a nationally recognized college entrance exam. To the extent state funding for college entrance exam fees is available, a district must pay the cost, one time, for an interested student in grade 11 or 12 who is eligible for a free or reduced-price meal, to take a nationally recognized college entrance exam before graduating. A student must be able to take the exam under this paragraph at the student's high school during the school day and at any one of the multiple exam administrations available to students in the district. A district may administer the ACT or SAT or both the ACT and SAT to comply with this paragraph. If the district administers only one of these two tests and a free or reduced-price meal eligible student opts not to take that test and chooses instead to take the other of the two tests, the student may take the other test at a different time or location and remains eligible for the
examination fee reimbursement. Notwithstanding sections 123B.34 to 123B.39, a school
district may require a student that is not eligible for a free or reduced-price meal to pay the
cost of taking a nationally recognized college entrance exam. The district must waive the
cost for a student unable to pay.

(f) The commissioner and the chancellor of the Minnesota State Colleges and Universities
must collaborate in aligning instruction and assessments for adult basic education students
and English learners to provide the students with diagnostic information about any targeted
interventions, accommodations, modifications, and supports they need so that assessments
and other performance measures are accessible to them and they may seek postsecondary
education or employment without need for postsecondary remediation. When administering
formative or summative assessments used to measure the academic progress, including the
oral academic development, of English learners and inform their instruction, schools must
ensure that the assessments are accessible to the students and students have the modifications
and supports they need to sufficiently understand the assessments.

(g) Districts and schools, on an annual basis, must use career exploration elements to
help students, beginning no later than grade 9, and their families explore and plan for
postsecondary education or careers based on the students' interests, aptitudes, and aspirations.
Districts and schools must use timely regional labor market information and partnerships,
among other resources, to help students and their families successfully develop, pursue,
review, and revise an individualized plan for postsecondary education or a career. This
process must help increase students' engagement in and connection to school, improve
students' knowledge and skills, and deepen students' understanding of career pathways as
a sequence of academic and career courses that lead to an industry-recognized credential,
an associate's degree, or a bachelor's degree and are available to all students, whatever their
interests and career goals.

(h) A student who demonstrates attainment of required state academic standards, which
include career and college readiness benchmarks, on high school assessments under
subdivision 1a is academically ready for a career or college and is encouraged to participate
in courses awarding college credit to high school students. Such courses and programs may
include sequential courses of study within broad career areas and technical skill assessments
that extend beyond course grades.

(i) As appropriate, students through grade 12 must continue to participate in targeted
instruction, intervention, or remediation and be encouraged to participate in courses awarding
college credit to high school students.
(j) In developing, supporting, and improving students' academic readiness for a career or college, schools, districts, and the state must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without need for postsecondary remediation. The commissioner, in consultation with local school officials and educators, and Minnesota's public postsecondary institutions must ensure that the foundational knowledge and skills for students' successful performance in postsecondary employment or education and an articulated series of possible targeted interventions are clearly identified and satisfy Minnesota's postsecondary admissions requirements.

(k) For students in grade 8 in the 2012-2013 school year and later, a school, district, or charter school must record on the high school transcript a student's progress toward career and college readiness, and for other students as soon as practicable.

(l) The school board granting students their diplomas may formally decide to include a notation of high achievement on the high school diplomas of those graduating seniors who, according to established school board criteria, demonstrate exemplary academic achievement during high school.

(m) The 3rd through 8th grade computer-adaptive assessment results and high school test results shall be available to districts for diagnostic purposes affecting student learning and district instruction and curriculum, and for establishing educational accountability. The commissioner must establish empirically derived benchmarks on adaptive assessments in grades 3 through 8. The commissioner, in consultation with the chancellor of the Minnesota State Colleges and Universities, must establish empirically derived benchmarks on the high school tests that reveal a trajectory toward career and college readiness consistent with section 136F.302, subdivision 1a. The commissioner must disseminate to the public the computer-adaptive assessments and high school test results upon receiving those results.

(n) The grades 3 through 8 computer-adaptive assessments and high school tests must be aligned with state academic standards. The commissioner must determine the testing process and the order of administration. The statewide results must be aggregated at the site and district level, consistent with subdivision 1a.

(o) The commissioner must include the following components in the statewide public reporting system:
(1) uniform statewide computer-adaptive assessments of all students in grades 3 through 8 and testing at the high school levels that provides appropriate, technically sound accommodations or alternate assessments;

(2) educational indicators that can be aggregated and compared across school districts and across time on a statewide basis, including average daily attendance, high school graduation rates, and high school drop-out rates by age and grade level;

(3) state results on the American College Test; and

(4) state results from participation in the National Assessment of Educational Progress so that the state can benchmark its performance against the nation and other states, and, where possible, against other countries, and contribute to the national effort to monitor achievement.

(p) For purposes of statewide accountability, "career and college ready" means a high school graduate has the knowledge, skills, and competencies to successfully pursue a career pathway, including postsecondary credit leading to a degree, diploma, certificate, or industry-recognized credential and employment. Students who are career and college ready are able to successfully complete credit-bearing coursework at a two- or four-year college or university or other credit-bearing postsecondary program without need for remediation.

(q) For purposes of statewide accountability, "cultural competence," "cultural competency," or "culturally competent" means the ability of families and educators to interact effectively with people of different cultures, native languages, and socioeconomic backgrounds.

**EFFECTIVE DATE.** This section is effective for testing calendars in the 2020-2021 school year and later.

Sec. 16. Minnesota Statutes 2016, section 120B.30, subdivision 1a, is amended to read:

Subd. 1a. **Statewide and local assessments; results.** (a) For purposes of this section, the following definitions have the meanings given them.

(1) "Computer-adaptive assessments" means fully adaptive assessments.

(2) "Fully adaptive assessments" include test items that are on-grade level and items that may be above or below a student's grade level.

(3) "On-grade level" test items contain subject area content that is aligned to state academic standards for the grade level of the student taking the assessment.
(4) "Above-grade level" test items contain subject area content that is above the grade level of the student taking the assessment and is considered aligned with state academic standards to the extent it is aligned with content represented in state academic standards above the grade level of the student taking the assessment. Notwithstanding the student's grade level, administering above-grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.

(5) "Below-grade level" test items contain subject area content that is below the grade level of the student taking the test and is considered aligned with state academic standards to the extent it is aligned with content represented in state academic standards below the student's current grade level. Notwithstanding the student's grade level, administering below-grade level test items to a student does not violate the requirement that state assessments must be aligned with state standards.

(b) The commissioner must use fully adaptive mathematics and reading assessments for grades 3 through 8.

(c) For purposes of conforming with existing federal educational accountability requirements, the commissioner must develop and implement computer-adaptive reading and mathematics assessments for grades 3 through 8, state-developed high school reading and mathematics tests aligned with state academic standards, a high school writing test aligned with state standards when it becomes available, and science assessments under clause (2) that districts and sites must use to monitor student growth toward achieving those standards. The commissioner must not develop statewide assessments for academic standards in social studies, health and physical education, and the arts. The commissioner must require:

(1) annual computer-adaptive reading and mathematics assessments in grades 3 through 8, and high school reading, writing, and mathematics tests; and

(2) annual science assessments in one grade in the grades 3 through 5 span, the grades 6 through 8 span, and a life sciences assessment in the grades 9 through 12 span, and the commissioner must not require students to achieve a passing score on high school science assessments as a condition of receiving a high school diploma.

(d) The commissioner must ensure that for annual computer-adaptive assessments:

(1) individual student performance data and achievement reports are available to school districts and teachers within three school days of when students take an assessment except in a year when an assessment reflects new performance standards;
(2) growth information is available for each student from the student's first assessment to each proximate assessment using a constant measurement scale;

(3) parents, teachers, and school administrators are able to use elementary and middle school student performance data to project students' secondary and postsecondary achievement; and

(4) useful diagnostic information about areas of students' academic strengths and weaknesses is available to teachers and school administrators for improving student instruction and indicating the specific skills and concepts that should be introduced and developed for students at given performance levels, organized by strands within subject areas, and aligned to state academic standards.

(e) The commissioner must ensure that all state tests administered to elementary and secondary students measure students' academic knowledge and skills and not students' values, attitudes, and beliefs.

(f) Reporting of state assessment results must:

(1) provide timely, useful, and understandable information on the performance of individual students, schools, school districts, and the state;

(2) include a growth indicator of student achievement; and

(3) determine whether students have met the state's academic standards.

(g) Consistent with applicable federal law, the commissioner must include appropriate, technically sound accommodations or alternative assessments for the very few students with disabilities for whom statewide assessments are inappropriate and for English learners.

(h) A school, school district, and charter school must administer statewide assessments under this section, as the assessments become available, to evaluate student progress toward career and college readiness in the context of the state's academic standards. A school, school district, or charter school may use a student's performance on a statewide assessment as one of multiple criteria to determine grade promotion or retention. A school, school district, or charter school may use a high school student's performance on a statewide assessment as a percentage of the student's final grade in a course, or place a student's assessment score on the student's transcript.

**EFFECTIVE DATE.** This section is effective for the 2018-2019 school year and later.
Sec. 17. Minnesota Statutes 2016, section 120B.30, subdivision 3, is amended to read:

Subd. 3. Reporting. (a) The commissioner must report test results publicly and to stakeholders, including the performance achievement levels developed from students' unweighted test scores in each tested subject and a listing of demographic factors that strongly correlate with student performance, including student homelessness, as data are available, among other factors. The test results must not include personally identifiable information as defined in Code of Federal Regulations, title 34, section 99.3. The commissioner shall also report data that compares performance results among school sites, school districts, Minnesota and other states, and Minnesota and other nations.

(b) The commissioner shall disseminate to schools and school districts a more comprehensive report containing testing information that meets local needs for evaluating instruction and curriculum. The commissioner shall disseminate to charter school authorizers a more comprehensive report containing testing information that contains anonymized data where cell count data are sufficient to protect student identity and that meets the authorizer's needs in fulfilling its obligations under chapter 124E.

(c) A school district must disseminate the individual student performance data and achievement report required under section 120B.30, subdivision 1a, paragraph (d), clause (1), to the parent and teacher of each student no more than 30 days after the district has administered the test to a student. The district must notify the parent and teacher that the data and report are preliminary and subject to validation.

(d) A school district must disseminate a testing report to the teacher and to the parent of each student before the beginning of the following school year. The testing report must:

(1) identify the student's achievement level in each content area; and

(2) track the student's performance history.

EFFECTIVE DATE. Paragraphs (a), (b), and (c) are effective for the 2018-2019 school year and later. Paragraph (d) is effective for the 2019-2020 school year and later.

Sec. 18. Minnesota Statutes 2017 Supplement, section 120B.35, subdivision 3, is amended to read:

Subd. 3. State growth target; other state measures. (a)(1) The state's educational assessment system measuring individual students' educational growth is based on indicators of achievement growth that show an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments.
(2) For purposes of paragraphs (b), (c), and (d), the commissioner must analyze and report separate categories of information using the student categories identified under the federal Elementary and Secondary Education Act, as most recently reauthorized, and, in addition to "other" for each race and ethnicity, and the Karen community, seven of the most populous Asian and Pacific Islander groups, three of the most populous Native groups, seven of the most populous Hispanic/Latino groups, and five of the most populous Black and African Heritage groups as determined by the total Minnesota population based on the most recent American Community Survey; English learners under section 124D.59; home language; free or reduced-price lunch; and all students enrolled in a Minnesota public school who are currently or were previously in foster care, except that such disaggregation and cross tabulation is not required if the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student.

(b) The commissioner, in consultation with a stakeholder group that includes assessment and evaluation directors, district staff, experts in culturally responsive teaching, and researchers, must implement a model that uses a value-added growth indicator and includes criteria for identifying schools and school districts that demonstrate medium and high growth under section 120B.299, subdivisions 8 and 9, and may recommend other value-added measures under section 120B.299, subdivision 3. The model may be used to advance educators' professional development and replicate programs that succeed in meeting students' diverse learning needs. Data on individual teachers generated under the model are personnel data under section 13.43. The model must allow users to:

(1) report student the academic growth consistent with this paragraph rates, as defined in the state plan under section 120B.11, subdivision 1; and

(2) for all student categories, report and compare aggregated and disaggregated state student growth and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data using the student categories identified under the federal Elementary and Secondary Education Act, as most recently reauthorized, and other student categories under paragraph (a), clause (2).

The commissioner must report measures of student growth and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data, consistent with this paragraph, including the English language development, academic progress, and oral academic development of English learners and their native language development if the native language is used as a language of instruction, and include data on all pupils enrolled in a Minnesota school.
public school course or program who are currently or were previously counted as an English learner under section 124D.59.

(c) When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2011, must report two core measures indicating the extent to which current high school graduates are being prepared for postsecondary academic and career opportunities:

(1) a preparation measure indicating the number and percentage of high school graduates in the most recent school year who completed course work important to preparing them for postsecondary academic and career opportunities, consistent with the core academic subjects required for admission to Minnesota's public colleges and universities as determined by the Office of Higher Education under chapter 136A; and

(2) a rigorous coursework measure indicating the number and percentage of high school graduates in the most recent school year who successfully completed one or more college-level advanced placement, international baccalaureate, postsecondary enrollment options including concurrent enrollment, other rigorous courses of study under section 120B.021, subdivision 1a, or industry certification courses or programs.

When reporting the core measures under clauses (1) and (2), the commissioner must also analyze and report separate categories of information using the student categories identified under the federal Elementary and Secondary Education Act, as most recently reauthorized, and other student categories under paragraph (a), clause (2).

(d) When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2014, must report summary data on school safety and students' engagement and connection at school, consistent with the student categories identified under paragraph (a), clause (2). The summary data under this paragraph are separate from and must not be used for any purpose related to measuring or evaluating the performance of classroom teachers. The commissioner, in consultation with qualified experts on student engagement and connection and classroom teachers, must identify highly reliable variables that generate summary data under this paragraph. The summary data may be used at school, district, and state levels only. Any data on individuals received, collected, or created that are used to generate the summary data under this paragraph are nonpublic data under section 13.02, subdivision 9.

(e) For purposes of statewide educational accountability, the commissioner must identify and report measures that demonstrate the success of learning year program providers under sections 123A.05 and 124D.68, among other such providers, in improving students'
graduation outcomes. The commissioner, beginning July 1, 2015, must annually report
summary data on:

(1) the four- and six-year graduation rates of students under this paragraph;
(2) the percent of students under this paragraph whose progress and performance levels
are meeting career and college readiness benchmarks under section 120B.30, subdivision
1; and
(3) the success that learning year program providers experience in:

(i) identifying at-risk and off-track student populations by grade;
(ii) providing successful prevention and intervention strategies for at-risk students;
(iii) providing successful recuperative and recovery or reenrollment strategies for off-track
students; and
(iv) improving the graduation outcomes of at-risk and off-track students.

The commissioner may include in the annual report summary data on other education
providers serving a majority of students eligible to participate in a learning year program.

(f) The commissioner, in consultation with recognized experts with knowledge and
experience in assessing the language proficiency and academic performance of all English
learners enrolled in a Minnesota public school course or program who are currently or were
previously counted as an English learner under section 124D.59, must identify and report
appropriate and effective measures to improve current categories of language difficulty and
assessments, and monitor and report data on students’ English proficiency levels, program
placement, and academic language development, including oral academic language.

(g) When reporting four- and six-year graduation rates, including four-year graduation
rates, the commissioner or school district must disaggregate the data by student categories
according to paragraph (a), clause (2).

(h) A school district must inform parents and guardians that volunteering information
on student categories not required by the most recent reauthorization of the Elementary and
Secondary Education Act is optional and will not violate the privacy of students or their
families, parents, or guardians. The notice must state the purpose for collecting the student
data.
Sec. 19. [120B.355] ACADEMIC ACHIEVEMENT RATING SYSTEM.

Subdivision 1. Rating system. (a) The commissioner of education must develop an academic achievement rating system consistent with this section to provide parents and students with a brief overview of student performance and growth in districts, school sites, and charter schools across the state.

(b) Each district, school site, and charter school must be assigned a summative rating based on a score on a scale of zero to 100.

c) The summative rating must be based on the accountability indicators used in the state plan to identify schools for support and improvement. "State plan" as used in this section means the plan submitted by the commissioner in accordance with the Elementary and Secondary Education Act, as most recently authorized, and approved by the United States Department of Education, including state goals.

(d) The summative rating and score of each district, school site, and charter school must be reported on the Department of Education's Web site as part of the commissioner's school performance reports pursuant to section 120B.36 by September 1, 2020, and annually thereafter.

e) The commissioner must examine how revisions to statewide assessments under section 120B.30 impact school and district ratings under this section. The commissioner may adjust district, school site, and charter school ratings accordingly to maintain consistency in reporting.

Subd. 2. Report. The commissioner must report on progress toward developing the rating system required under subdivision 1 to the chairs and ranking minority members of the legislative committees with jurisdiction over kindergarten through grade 12 education in accordance with section 3.195 no later than February 1, 2020.

Sec. 20. Minnesota Statutes 2017 Supplement, section 120B.36, subdivision 1, is amended to read:

Subdivision 1. School performance reports and public reporting. (a) The commissioner shall must report:

1) student academic performance data under section 120B.35, subdivisions 2 and 3;

2) district, school site, and charter school ratings under section 120B.355;

e) A school or district may appeal its results in a form and manner determined by the commissioner and consistent with federal law. The commissioner's decision to uphold or deny an appeal is final.

f) School performance data are nonpublic data under section 13.02, subdivision 9, until the commissioner publicly releases the data. The commissioner shall must annually post school performance reports to the department's public Web site no later than September 1, except that in years when the reports reflect new performance standards, the commissioner shall must post the school performance reports no later than October 1.

Sec. 21. Minnesota Statutes 2016, section 120B.36, subdivision 2, is amended to read:

Subd. 2. Student progress and other data. (a) All data the department receives, collects, or creates under section 120B.11, governing the world's best workforce, or uses to determine federal and state goals for expectations under the most recently reauthorized Elementary and Secondary Education Act, set state growth targets, and to determine student academic growth, learning, and outcomes under section 120B.35 are nonpublic data under section 13.02, subdivision 9, until the commissioner publicly releases the data.

(b) Districts must provide parents sufficiently detailed summary data to permit parents to appeal under the most recently reauthorized federal Elementary and Secondary Education Act. The commissioner shall must annually post federal expectations, state goals and state student growth, learning, and outcome data to the department's public Web site no later than September 1, except that in years when data or federal expectations, state goals reflect new performance standards, the commissioner shall must post data on federal expectations, state goals and state student growth data no later than October 1.
Sec. 22. [121A.12] NATIONAL MOTTO.

(a) To the extent funds or in-kind contributions are available under paragraph (b), a school board or charter school may prominently display in a conspicuous place in each school an easily readable durable poster, framed copy, or mounted plaque of the national motto of the United States, "In God We Trust."

(b) A school board or charter school may accept nonpublic funds or in-kind contributions to implement this section.

Sec. 23. Minnesota Statutes 2016, section 121A.22, subdivision 1, is amended to read:

Subdivision 1. Applicability. (a) This section applies only:

(1) when the parent of a pupil requests school personnel to administer drugs or medicine to the pupil; or

(2) when administration is allowed by the individualized education program of a child with a disability.

The request of a parent may be oral or in writing. An oral request must be reduced to writing within two school days, provided that the district may rely on an oral request until a written request is received.

(b) If the administration of a drug or medication described in paragraph (a) requires the school to store the drugs or medication, the parent or legal guardian must inform the school if the drug or medication is a controlled substance. (e) "Investigation" means fact gathering related to the current safety of a child and the risk of subsequent maltreatment that determines whether child maltreatment occurred and whether child protective services are needed. An investigation must be used when reports involve sexual abuse or substantial child endangerment, and for reports of maltreatment in facilities required to be licensed or certified under chapter 245A, 245D, or 245H; under sections 144.50 to 144.58 and 241.021; in a school as defined in section 120A.05,

clauses (1) to (9), other than by accidental means:

(1) failure by a person responsible for a child's care to supply a child with necessary
food, clothing, shelter, health, medical, or other care required for the child's physical or
mental health when reasonably able to do so;

(2) failure to protect a child from conditions or actions that seriously endanger the child's
physical or mental health when reasonably able to do so, including a growth delay, which
may be referred to as a failure to thrive, that has been diagnosed by a physician and is due
to parental neglect;

(3) failure to provide for necessary supervision or child care arrangements appropriate
for a child after considering factors as the child's age, mental ability, physical condition,

child with sympathomimetic medications, consistent with section 125A.091, subdivision
5;

(5) nothing in this section shall be construed to mean that a child is neglected solely
because the child's parent, guardian, or other person responsible for the child's care in good
faith selects and depends upon spiritual means or prayer for treatment or care of disease or
remedial care of the child in lieu of medical care; except that a parent, guardian, or caretaker,
or a person mandated to report pursuant to subdivision 3, has a duty to report if a lack of
medical care may cause serious danger to the child's health. This section does not impose
upon persons, not otherwise legally responsible for providing a child with necessary food,
clothing, shelter, education, or medical care, a duty to provide that care;

(6) prenatal exposure to a controlled substance, as defined in section 253B.02, subdivision
2, used by the mother for a nonmedical purpose, as evidenced by withdrawal symptoms in
the child at birth, results of a toxicology test performed on the mother at delivery or the

fetal alcohol spectrum disorder;

(7) "medical neglect" as defined in section 260C.007, subdivision 6, clause (5);

(8) chronic and severe use of alcohol or a controlled substance by a parent or person
responsible for the care of the child that adversely affects the child's basic needs and safety;
or

(9) emotional harm from a pattern of behavior which contributes to impaired emotional
functioning of the child which may be demonstrated by a substantial and observable effect
in the child's behavior, emotional response, or cognition that is not within the normal range
for the child's age and stage of development, with due regard to the child's culture.

providing services were both in compliance with all licensing requirements relevant to the
incident.

This definition only applies to child care centers licensed under Minnesota Rules, chapter

nonmaltreatment mistake was made by the individual.
