

Protecting, Maintaining and Improving the Health of All Minnesotans

Minnesota Department of Health Statement on inclusion in the Task Force on Shelter Resident Rights and Shelter Provider Practices (HF 900)

The Minnesota Department of Health (MDH) Senior Advisor on Health, Homelessness, and Housing serves as a public health expert on the intersections of health and housing.

Over the past year, the Senior Advisor has led the state health department's COVID-19 homeless and sheltered response, engaging in daily conversations with homeless service providers across the state. They've also engaged in different forums with people directly impacted by homelessness, and have strong relationships with community groups led by people experiencing homelessness.

The Senior Advisor on Health, Homelessness, and Housing would provide valuable expertise and insight into conducting research and reviewing data as a member of this task force.
