

1.1 moves to amend H.F. No. 222, the delete everything amendment
1.2 (H0222DE7), as follows:

1.3 Page 5, after line 16, insert:

1.4 "(d) For storage of automated license plate reader data, the use of a third party
1.5 or hosted network, or system environment or equipment, not directly owned by a law
1.6 enforcement agency is prohibited. The automated license plate reader data environment
1.7 must be physically and logically isolated on a dedicated network and on dedicated systems
1.8 that are not shared with a data environment that is not related to automated license plate
1.9 readers. This paragraph applies to purchases of automated license plate reader systems on
1.10 or after January 1, 2016."
