Dear Chair Long,

I am writing to you on behalf of Universal Renewable Products regarding the Future Fuels Act.

The Future Fuels Act was developed by a strong coalition of organizations and demonstrates broad support of a technology-neutral portfolio approach to decarbonize transportation fuels in Minnesota. Beyond lowering the carbon emissions in transportation fuels, it will boost the state's economy and improve public health, especially for historically disadvantaged populations such as low-income and people of color. This policy is a win-win-win for the economy, the environment, and the people of Minnesota.

Specifically, my organization supports the Future Fuels Act bill because:

1. **It will reduce Minnesota's dependance on fossil fuels and**
2. **Provide long term jobs in Minnesota that are focused on the future**

Sincerely,

Tony Rohs
