

Dear Chair Richardson and Committee Members,

My name is Ashley Meek and I am writing to you from Elko, MN to request your support for House File 965/Senate File 1210 in support of recovery education for students who have disabilities.

Our school district sent a tablet home for virtual learning and sent some supplies home to do work with parents, but that was all. Distance learning did not really work for our family.

In order to make up for what was lost our child would need more 1:1 time in person more often than two 3 hour days.

Thank you for your leadership, and please support House File 965/Senate File 1210.

Sincerely,

Ashley Meek
Lakeville
