RE: Written Testimony regarding HF 874

Dear House Education Policy Committee:

I am writing to express my concern and opposition for HF 874.

This bill represents an unnecessary and dangerous overreach of the judicial branch of the Minnesota state government.

Parents know their children most thoroughly and must remain the principal arbiters of what is best for their education not judges.

I urge you to drop the pursuit of this amendment for the well-being of Minnesota's children.

Thank you,

Cheryl Perry
Rogers, MN
