

Members of the committee,
I am asking your support of Bill HF 363.

I don't believe the state of Minnesota should be acting as a collection agency for any private businesses including hospitals and ambulance services, especially by taking a person's tax return without the due process afforded when using traditional collection services.

There should be no question that this bill should be implemented into state law.

Sincerely,
Rick Rayburn
Willow River Minnesota

Dear: Chair Paul Marquart, Members of the House Taxes Committee,
and Committee Administrator Nathan Jesson,

I am writing in support of HF363. Private corporations should not be able to use the state of Minnesota for cheap labor in collecting their debts. The original use of this Statute was for collecting debt for publicly owned institutions not private corporations that can afford their own debt collectors. HF 363 will rectify this misuse.

Thank you Mr. Jesson for agreeing to supply the committee with copies of my request.
Sincerely,

Sharon Schmidt
Savage, MN
