

1.1 moves to amend H.F. No. 3429 as follows:

1.2 Page 2, after line 2, insert:

1.3 "Sec. 2. Minnesota Statutes 2008, section 216H.01, subdivision 2, is amended to read:

1.4 Subd. 2. **Statewide greenhouse gas emissions.** "Statewide greenhouse
1.5 gas emissions" include emissions of carbon dioxide, methane, nitrous oxide,
1.6 hydrofluorocarbons, perfluorocarbons, and sulfur hexafluoride emitted by anthropogenic
1.7 sources within the state ~~and from the generation of electricity imported from outside~~
1.8 ~~the state and consumed in Minnesota.~~ Carbon dioxide that is injected into geological
1.9 formations to prevent its release to the atmosphere in compliance with applicable laws,
1.10 and carbon dioxide associated with the combustion of fuels other than coal, petroleum,
1.11 and natural gas are not counted as contributing to statewide greenhouse gas emissions.

1.12 **EFFECTIVE DATE.** This section is effective the day following final enactment.

1.13 Sec. 3. Minnesota Statutes 2008, section 216H.03, subdivision 2, is amended to read:

1.14 Subd. 2. **Definition; statewide power sector carbon dioxide emissions.** For the
1.15 purpose of this section, "statewide power sector carbon dioxide emissions" means the total
1.16 annual emissions of carbon dioxide from the generation of electricity within the state
1.17 ~~and all emissions of carbon dioxide from the generation of electricity imported from~~
1.18 ~~outside the state and consumed in Minnesota.~~ Emissions of carbon dioxide associated
1.19 with transmission and distribution line losses are included in this definition. Carbon
1.20 dioxide that is injected into geological formations to prevent its release to the atmosphere
1.21 in compliance with applicable laws, and emissions of carbon dioxide associated with
1.22 the combustion of biomass, as defined in section 216B.2411, subdivision 2, paragraph
1.23 (c), clauses (1) to (4), are not counted as contributing to statewide power sector carbon
1.24 dioxide emissions.

1.25 **EFFECTIVE DATE.** This section is effective the day following final enactment.

2.1 Sec. 4. Minnesota Statutes 2008, section 216H.03, subdivision 3, is amended to read:

2.2 Subd. 3. **Long-term increased emissions from power plants prohibited.** Unless
2.3 preempted by federal law, until a comprehensive and enforceable state law or rule
2.4 pertaining to greenhouse gases that directly limits and substantially reduces, over time,
2.5 statewide power sector carbon dioxide emissions is enacted and in effect, and except as
2.6 allowed in subdivisions 4 to 7, on and after August 1, 2009, no person shall:

2.7 (1) construct within the state a new large energy facility that would contribute to
2.8 statewide power sector carbon dioxide emissions; or

2.9 ~~(2) import or commit to import from outside the state power from a new large energy~~
2.10 ~~facility that would contribute to statewide power sector carbon dioxide emissions; or~~

2.11 ~~(3)~~ (2) enter into a new long-term power purchase agreement that would increase
2.12 statewide power sector carbon dioxide emissions. For purposes of this section, a long-term
2.13 power purchase agreement means an agreement to purchase 50 megawatts of capacity
2.14 or more for a term exceeding five years.

2.15 **EFFECTIVE DATE.** This section is effective the day following final enactment."

2.16 Amend the title accordingly
