4

WHAT:
Treats, Trades
& Tours after
school career club

WHO:
6-8th Graders

WHY:
Exposure to
industries in the
career wheel prior
to high school
registration.

Middle School Career Exploration Club

More than 20 middle school students from Lakeville Area Schools are learning about careers and trades they can go into in their futures with a new club called **Treats, Trades & Tours**. The club is offered through Community Education. Students listen to speakers from local businesses and go on tours to learn about their trades. On Thursday, February 24, the students learned about the construction process of the new pool at Century Middle School from builders with **Loeffler Construction**. The middle school students have also learned about the automotive industry with **ProTech Automotive** (pictured here), how **Safety Signs** plans and designs solutions for all traffic control related aspects of a project or event, medical careers through a visit with **Northfield Hospital Clinic** in Lakeville and how to manage finances with curriculum by **Wings Financial**.

5

WHAT:
Wings Financial
Reality Fair

WHO:
