Representative Dan Wolgamott

The purpose of this letter is to thank you for championing HF610 relating to Heroes Helping Heroes. With your support, we can continue to grow and help even more first responders across the state. Not only will this allow us to have a positive impact in the lives of our first responders, but also the lives of their families and the communities in which they are a part of and serve.

The comradery and bond that the injured participants of this program establish is truly amazing. Not only does this experience enable many law enforcement and first responders to return to work, it has also undoubtedly saved lives. Receiving this type of help will allow first responders to continue to do a profession they love and to continue to serve communities across the state who are seeing violent crime at an unprecedented level.

To help get this out-of-control crime back under control, we need Law Enforcement professionals to be mentally fit and able to tackle this problem head on. This is why I am respectfully asking for the support of not only this Committee but the support of the entire House to approve funding for Heroes Helping Heroes.

Respectfully,

A handwritten signature in blue ink that reads 'Chris Steward'.
