

Revisor No. 15-4508 – BONDING BILL (First Special Session)

Author: Senator LeRoy A. Stumpf
Prepared by: Stephanie James, Senate Counsel (651/296-0103)
Date: June 11, 2015

There are four changes to the bonding bill, as posted on the Senate Web site June 10, 2015, compared to the bonding bill discussed in the joint House of Representatives Ways and Means and Senate Finance Committee meeting on June 5, 2015.

- 1) Page 4, lines 1-13 – For the Canby and Jackson campus projects for MnSCU, the amount specified on line 4.3 is for both projects. The earlier draft specified a specific amount for each, but the amounts specified were transposed from the amounts needed for each project. The total appropriated for the two projects remains the same.
- 2) Page 16, lines 11-16 – The description for the Fort Snelling project under the Minnesota Historical Society is changed to just “predesign” (from “predesign and design”), because the amount appropriated will only pay for predesign.
- 3) Page 22, lines 9, 10, and 12 – corrects errant cross-section references.
- 4) Page 44, lines 13-21 – corrects the name of the closed lock, changing it to “St. Anthony Falls Lock” from “Lock and Dam No. 1.”
