Subd. 4. Refunding bonds. The commissioner may issue appropriation bonds for the purpose of refunding any appropriation bonds then outstanding, including the payment of any redemption premiums on the bonds, any interest accrued or to accrue to the redemption date, and costs related to the issuance and sale of the refunding bonds. The proceeds of any refunding bonds may, at the discretion of the commissioner, be applied to the purchase or payment at maturity of the appropriation bonds to be refunded, to the redemption of the outstanding appropriation bonds on any redemption date, or to pay interest on the refunding bonds and may, pending application, be placed in escrow to be applied to the purchase, payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be invested and reinvested in obligations that are authorized investments under section 11A.24. The income earned or realized on the investment may also be applied to the payment of the appropriation bonds to be refunded or interest or premiums on the refunded appropriation bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been fully satisfied, any balance of the proceeds and any investment income may be returned to the general fund or, if applicable, the special appropriation public television equipment bond proceeds fund for use in any lawful manner. All refunding bonds issued under this subdivision must be prepared, executed, delivered, and secured by appropriations in the same manner as the appropriation bonds to be refunded.

Subd. 5. Appropriation bonds as legal investments. Any of the following entities may legally invest any sinking funds, money, or other funds belonging to them or under their control in any appropriation bonds issued under this section:

(1) the state, the investment board, public officers, municipal corporations, political subdivisions, and public bodies;
banks and bankers, savings and loan associations, credit unions, trust companies, savings banks and institutions, investment companies, insurance companies, insurance associations, and other persons carrying on a banking or insurance business; and
(3) personal representatives, guardians, trustees, and other fiduciaries.

Subd. 6. No full faith and credit; state not required to make appropriations. The appropriation bonds are not public debt of the state, and the full faith, credit, and taxing powers of the state are not pledged to the payment of the appropriation bonds or to any payment that the state agrees to make under this section. Appropriation bonds shall not be obligations paid directly, in whole or in part, from a tax of statewide application on any class of property, income, transaction, or privilege. Appropriation bonds shall be payable in each fiscal year only from amounts that the legislature may appropriate for debt service for any fiscal year, provided that nothing in this section shall be construed to require the state to appropriate money sufficient to make debt service payments with respect to the appropriation bonds in any fiscal year. Appropriation bonds shall be canceled and shall no longer be outstanding on the earlier of (1) the first day of a fiscal year for which the legislature shall not have appropriated amounts sufficient for debt service, or (2) the date of final payment of the principal of and interest on the appropriation bonds.

Subd. 7. Appropriation of proceeds. The proceeds of appropriation bonds issued under subdivision 2, paragraph (a), and interest credited to the special appropriation public television equipment bond proceeds fund are appropriated as follows:

Subd. 8. Appropriation for debt service and other purposes. An amount needed to pay principal and interest on appropriation bonds issued under subdivision 2, paragraph (a), is appropriated each fiscal year from the general fund to the commissioner, subject to repeal, unallotment under section 16A.152, or cancellation, otherwise pursuant to subdivision 6,
for deposit into the bond payments account established for such purpose in the special
appropriation public television equipment bond proceeds fund. The appropriation is available
beginning in fiscal year 2021 and remains available through fiscal year 2042.

Subd. 9. Waiver of immunity. The waiver of immunity by the state provided for by
section 3.751, subdivision 1, shall be applicable to the appropriation bonds and any ancillary
contracts to which the commissioner is a party.

Sec. 3. [16A.966] RESPONSE TO RELEASES APPROPRIATION BONDS.

Subdivision 1. Definitions. (a) The definitions in this subdivision apply to this section.
(b) "Appropriation bond" or "bond" means a bond, note, or other similar instrument of
the state payable during a biennium from one or more of the following sources:
(1) money appropriated by law from the general fund in any biennium for debt service
due with respect to obligations described in subdivision 2, paragraph (a);
(2) proceeds of the sale of obligations described in subdivision 2, paragraph (a);

described in subdivision 2, paragraph (d); and

(c) "Debt service" means the amount payable in any biennium of principal, premium, if
any, and interest on appropriation bonds, and the fees, charges, and expenses related to the

Subd. 2. Authorization to issue appropriation bonds. (a) Subject to the limitations of
this subdivision, the commissioner may sell and issue appropriation bonds of the state under
this section for public purposes as provided by law, including for the purposes of financing
the cost of implementing removal or remedial actions permitted under section 115B.17 and
further subject to the conditions in chapter 115B to address risks to human health and the
environment at contaminated sites. Appropriation bonds may be sold and issued in amounts
that, in the opinion of the commissioner, are necessary to provide sufficient money to the
commissioner of the Pollution Control Agency under subdivision 7, not to exceed
$22,900,000 net of costs of issuance, for the purposes as provided under this subdivision,
and to pay debt service including capitalized interest, costs of issuance, costs of credit
enhancement, or make payments under other agreements entered into under paragraph (d).
Notwithstanding section 115B.17, subdivision 6 or 16, any money recovered in a civil action
or any money received from the disposition of property acquired for a response action and
financed with bonds under this section shall be transferred to the commissioner and applied
toward principal and interest on outstanding bonds.

(b) Proceeds of the appropriation bonds must be credited to a special appropriation state
response to releases bond proceeds fund in the state treasury. All income from investment
of the bond proceeds, as estimated by the commissioner, is appropriated to the commissioner
for the payment of principal and interest on the appropriation bonds.

(c) Appropriation bonds may be issued in one or more issues or series on the terms and
conditions the commissioner determines to be in the best interests of the state, but the term
on any series of appropriation bonds may not exceed 21 years. The appropriation bonds of
each issue and series thereof shall be dated and bear interest, and may be includable in or
excludable from the gross income of the owners for federal income tax purposes.

(d) At the time of, or in anticipation of, issuing the appropriation bonds, and at any time
thereafter, so long as the appropriation bonds are outstanding, the commissioner may enter
into agreements and ancillary arrangements relating to the appropriation bonds, including
but not limited to trust indentures, grant agreements, lease or use agreements, operating
agreements, management agreements, liquidity facilities, remarketing or dealer agreements,
letter of credit agreements, insurance policies, guaranty agreements, reimbursement
agreements, indexing agreements, or interest exchange agreements. Any payments made
or received according to the agreement or ancillary arrangement shall be made from or
deposited as provided in the agreement or ancillary arrangement. The determination of the
commissioner included in an interest exchange agreement that the agreement relates to an
appropriation bond shall be conclusive.

(e) The commissioner may enter into written agreements or contracts relating to the
continuing disclosure of information necessary to comply with or facilitate the issuance of
appropriation bonds in accordance with federal securities laws, rules, and regulations,
including Securities and Exchange Commission rules and regulations in Code of Federal
Regulations, title 17, section 240.15c 2-12. An agreement may be in the form of covenants
with purchasers and holders of appropriation bonds set forth in the order or resolution
authorizing the issuance of the appropriation bonds, or a separate document authorized by
the order or resolution.

(f) The appropriation bonds are not subject to chapter 16C.

Subd. 3. Form; procedure. (a) Appropriation bonds may be issued in the form of bonds,
notes, or other similar instruments, and in the manner provided in section 16A.672. In the
event that any provision of section 16A.672 conflicts with this section, this section shall  
control.

(b) Every appropriation bond shall include a conspicuous statement of the limitation  
established in subdivision 6.

c) Appropriation bonds may be sold at either public or private sale upon such terms as  
the commissioner shall determine are not inconsistent with this section and may be sold at  
any price or percentage of par value. Any bid received may be rejected.

d) Appropriation bonds must bear interest at a fixed or variable rate.

e) Notwithstanding any other law, appropriation bonds issued under this section shall  
be fully negotiable.

Subd. 4. Refunding bonds. The commissioner may issue appropriation bonds for the  
purpose of refunding any appropriation bonds then outstanding, including the payment of  
any redemption premiums on the bonds, any interest accrued or to accrue to the redemption  
date, and costs related to the issuance and sale of the refunding bonds. The proceeds of any  
refunding bonds may, at the discretion of the commissioner, be applied to the purchase or  
payment at maturity of the appropriation bonds to be refunded, to the redemption of the  
outstanding appropriation bonds on any redemption date, or to pay interest on the refunding  
bonds and may, pending application, be placed in escrow to be applied to the purchase,  
payment, retirement, or redemption. Any escrowed proceeds, pending such use, may be  
invested and reinvested in obligations that are authorized investments under section 11A.24.  
The income earned or realized on the investment may also be applied to the payment of the  
appropriation bonds to be refunded or interest or premiums on the refunded appropriation  
bonds, or to pay interest on the refunding bonds. After the terms of the escrow have been  
fully satisfied, any balance of the proceeds and any investment income may be returned to  
the general fund or, if applicable, the special appropriation state response to releases bond  
proceeds fund for use in any lawful manner. All refunding bonds issued under this subdivision  
must be prepared, executed, delivered, and secured by appropriations in the same manner  
as the appropriation bonds to be refunded.

(2) banks and bankers, savings and loan associations, credit unions, trust companies, savings banks and institutions, investment companies, insurance companies, insurance associations, and other persons carrying on a banking or insurance business; and

(3) personal representatives, guardians, trustees, and other fiduciaries.

Subd. 6. No full faith and credit; state not required to make appropriations. The appropriation bonds are not public debt of the state, and the full faith, credit, and taxing powers of the state are not pledged to the payment of the appropriation bonds or to any payment that the state agrees to make under this section. Appropriation bonds shall not be obligations paid directly, in whole or in part, from a tax of statewide application on any class of property, income, transaction, or privilege. Appropriation bonds shall be payable in each fiscal year only from amounts that the legislature may appropriate for debt service for any fiscal year, provided that nothing in this section shall be construed to require the state to appropriate money sufficient to make debt service payments with respect to the appropriation bonds in any fiscal year. Appropriation bonds shall be canceled and shall no longer be outstanding on the earlier of (1) the first day of a fiscal year for which the legislature shall not have appropriated amounts sufficient for debt service, or (2) the date of final payment of the principal of and interest on the appropriation bonds.

Subd. 7. Appropriation of proceeds. The proceeds of appropriation bonds issued under subdivision 2, paragraph (a), and interest credited to the special appropriation state response to releases bond proceeds fund are appropriated as follows:

appropriation state response to releases bond proceeds fund. The appropriation is available
beginning in fiscal year 2021 and remains available through fiscal year 2042.

Subd. 9. Waiver of immunity. The waiver of immunity by the state provided for under
section 3.751, subdivision 1, shall be applicable to the appropriation bonds and any ancillary
contracts to which the commissioner is a party.

Subd. 3. Eligible applicant. (a) A city, county, or school district, or a joint powers board established by two or more cities, counties, or school districts is eligible to apply for and receive a grant from either greater Minnesota child care facility capital grant account established in this section.

(b) A private child care provider licensed as a child care center or to provide in-home family child care is eligible to apply for and receive a grant from the greater Minnesota child care facility capital grant account in the general fund.

(c) An applicant must be located outside of the metropolitan area as defined in section 473.121, subdivision 2.

Subd. 4. Local government authority. A city, county, or school district may own a child care facility and operate a child care facility program that meets the requirements for state licensing under Minnesota Rules, chapter 9503. A city, county, or school district may enter into a lease or management agreement with one or more licensed child care providers to operate a child care program in a facility owned by the city, county, or school district. A lease or management agreement for state bond-financed property is subject to section 16A.695.

Subd. 5. Eligible project. (a) A grant may be used to acquire land or interest in land, predesign, design, renovate, construct, furnish, and equip facilities in which to provide child care or for other child care facility improvements that support the purposes for which this grant program is established. Money from the account in the general fund may also be used to upgrade or expand existing nonprofit child care facilities for purposes of meeting state requirements.

(b) All projects must increase child care capacity in the community that is served by the provider and meet all state requirements for child care facilities or programs.

Subd. 6. Grants. (a) The commissioner shall make grants to eligible applicants to provide up to 50 percent of the capital costs of eligible child care facility capital projects. An eligible applicant receiving a grant must provide for the remainder of the costs of the project, either in cash or in kind. In-kind contributions may include the cost of project elements made before or after the grant award is made.
(b) The commissioner may also distribute money provided by this section through a regional organization within the meaning of section 15.75 to provide grants to eligible applicants based on the manner of application and criteria established by the commissioner.

c) If the commissioner awards a grant for less than 50 percent of the project cost, the commissioner must provide the applicant and the chairs and ranking minority members of the senate and house of representatives committees with jurisdiction over economic development finance a written explanation for awarding less than 50 percent.

Subd. 7. Application; criteria. The commissioner must develop forms and procedures for soliciting and reviewing applications for grants under this section. An applicant shall apply for a grant in the manner and at the times the commissioner shall determine. At a minimum, an application must include:

1. evidence of the need for improved, expanded, or new child care facilities in the area;
2. a description of the new or expanded facility or other improvements to be made;
3. a description of the specific state requirements making improvements necessary, if applicable;
4. estimated costs of the capital project and the sources of funding to complete it;
5. estimated costs of the expanded services and the sources of funding to provide them;
6. the applicant's analysis of the expected economic benefits to the area in which the project would be located;
7. the feasibility study that shows the financial and operational sustainability of the project funded;
8. the average number of children provided care by the applicant during the year prior to the application, if any, and the expected number of children that could be provided child care after the proposed project is completed; and
9. other information that the commissioner determines is necessary or useful in evaluating the impact of the proposed project on the local economy.

Subd. 8. Maximum grant amount. Grants must not be awarded for more than $500,000 per project or more than $2,000,000 in two years to an applicant for one or more projects in the same city or county.

Subd. 9. Cancellation of grant; return of money. If the commissioner determines that a grantee is unable to proceed with an approved project or has not expended or obligated the grant money within five years of entering into the grant agreement with the commissioner,
the commissioner shall cancel the grant and the money is available for the commissioner
to make other grants under this section. Money made available to the commissioner from
a canceled grant is subject to cancellation under section 16A.642 as if it had been appropriated
to the program in the year in which the grant is canceled.

Sec. 9. Minnesota Statutes 2018, section 123B.53, subdivision 1, is amended to read:

Subdivision 1. Definitions. (a) For purposes of this section, the eligible debt service
revenue of a district is defined as follows:

(1) the amount needed to produce between five and six percent in excess of the amount
needed to meet when due the principal and interest payments on the obligations of the district
for eligible projects according to subdivision 2, including the amounts necessary for
repayment of debt service loans, capital loans, and lease purchase payments under section
126C.40, subdivision 2, excluding long-term facilities maintenance levies under section
123B.595, excluding the amounts listed in paragraph (b), minus

(2) the amount of debt service excess levy reduction for that school year calculated
according to the procedure established by the commissioner.

(b) The obligations in this paragraph are excluded from eligible debt service revenue:

(1) obligations under section 123B.61;

(2) the part of debt service principal and interest paid from the taconite environmental
protection fund or Douglas J. Johnson economic protection trust, excluding the portion of
taconite payments from the Iron Range school consolidation and cooperatively operated
school account under section 298.28, subdivision 7a;

(3) obligations issued under Laws 1991, chapter 265, article 5, section 18, as amended
by Laws 1992, chapter 499, article 5, section 24 obligations for long-term facilities
maintenance under section 123B.595;

(4) obligations under section 123B.62; and

(5) obligations equalized under section 123B.535.

(c) For purposes of this section, if a preexisting school district reorganized under sections
123A.35 to 123A.43, 123A.46, and 123A.48 is solely responsible for retirement of the
preexisting district's bonded indebtedness, capital loans, or debt service loans, debt service
equalization aid must be computed separately for each of the preexisting districts.
(d) For purposes of this section, the adjusted net tax capacity determined according to
sections 127A.48 and 273.1325 shall be adjusted to include the tax capacity of property
generally exempted from ad valorem taxes under section 272.02, subdivision 64.

Sec. 10. Minnesota Statutes 2018, section 123B.53, subdivision 4, is amended to read:

Subd. 4. Debt service equalization revenue. (a) The debt service equalization revenue
of a district equals the sum of the first tier debt service equalization revenue and the second
tier debt service equalization revenue.

(b) The first tier debt service equalization revenue of a district equals the greater of zero
or the eligible debt service revenue minus the amount raised by a levy of 15.74 percent
times the adjusted net tax capacity of the district minus the second tier debt service
equalization revenue of the district.

(c) The second tier debt service equalization revenue of a district equals the greater of
zero or the eligible debt service revenue, minus the amount raised by a levy of 26.24 percent
times the adjusted net tax capacity of the district.

(d) Notwithstanding paragraphs (b) and (c), for a district with a capital loan under sections
126C.60 to 126C.72, the first tier debt equalization revenue equals zero, and the second tier
debt equalization revenue equals the portion of the district's eligible debt service levy under
subdivision 2 in excess of the district's maximum effort debt service levy under section
126C.63, subdivision 8.

Sec. 11. Minnesota Statutes 2018, section 126C.63, subdivision 8, is amended to read:

Subd. 8. Maximum effort debt service levy. (a) "Maximum effort debt service levy"
means the lesser of:

(1) a levy in whichever of the following amounts is applicable:

(i) in any district receiving a debt service loan for a debt service levy payable in 2002
and thereafter, or granted a capital loan after January 1, 2002, a levy in total dollar amount
computed at a rate of 33.59 percent of adjusted net tax capacity for taxes payable in 2002
and thereafter; or

(ii) in any district receiving a debt service loan for a debt service levy payable in 2001
or earlier, or granted a capital loan before January 2, 2002, a levy in a total dollar amount
computed at a rate of 29.39 percent of adjusted net tax capacity for taxes payable in 2002
and thereafter; or
(2) a levy in any district for which a capital loan was approved prior to August 1, 1981, a levy in a total dollar amount equal to the sum of the amount of the required debt service levy and an amount which when levied annually will in the opinion of the commissioner be sufficient to retire the remaining interest and principal on any outstanding loans from the state within 30 years of the original date when the capital loan was granted.

(b) The board in any district affected by the provisions of paragraph (a), clause (2), may elect instead to determine the amount of its levy according to the provisions of paragraph (a), clause (1). If a district's capital loan is not paid within 30 years because it elects to determine the amount of its levy according to the provisions of paragraph (a), clause (2), the liability of the district for the amount of the difference between the amount it levied under paragraph (a), clause (2), and the amount it would have levied under paragraph (a), clause (1), and for interest on the amount of that difference, must not be satisfied and discharged pursuant to Minnesota Statutes 1988, or an earlier edition of Minnesota Statutes if applicable, section 124.43, subdivision 4.

(2) the unpaid balance on the district's capital loan after deducting the amount to be paid on the district's capital loan in December of the year in which the levy is certified.

Sec. 12. Minnesota Statutes 2018, section 126C.66, subdivision 3, is amended to read:

Subd. 3. Principal interest Payments. All payments of principal and interest on debt service notes or on capital loan contracts, as received by the commissioner, are appropriated to the loan repayment account.

Sec. 13. Minnesota Statutes 2018, section 126C.69, as amended by Laws 2019, First Special Session chapter 10, article 3, section 40, is amended to read:

126C.69 CAPITAL GRANTS AND LOANS.

Subdivision 1. Capital grant and loan requests and uses. Capital grants and loans are available only to qualifying districts. Capital grants and loans must not be used for the construction of swimming pools, ice arenas, athletic facilities, auditoriums, bus garages, or heating system improvements. Proceeds of the grants and loans may be used only for sites for education facilities and for acquiring, bettering, furnishing, or equipping education facilities. Contracts must be entered into within 18 months after the date on which each grant and loan is granted approved. For purposes of this section, "education facilities" includes space for Head Start programs and social service programs.
Subd. 2. **Capital loans grant and loan eligibility.** Beginning July 1, 1999, a district is not eligible for a capital grant and loan unless the district's estimated net debt tax rate as computed by the commissioner after debt service equalization aid would be more than 41.98 percent of adjusted net tax capacity. The estimate must assume a 20-year maturity schedule for new debt.

Subd. 3. **District request for review and comment.** A district or a joint powers district that intends to apply for a capital grant and loan must submit a proposal to the commissioner for review and comment according to section 123B.71 by July 1 of an odd-numbered year. The commissioner shall prepare a review and comment on the proposed facility, regardless of the amount of the capital expenditure required to construct the facility. In addition to the information provided under section 123B.71, subdivision 9, the commissioner shall require that predesign packages comparable to those required under section 16B.335 be prepared by the applicant school district. The predesign packages must be sufficient to define the scope, cost, and schedule of the project and must demonstrate that the project has been analyzed according to appropriate space needs standards and also consider the following criteria in determining whether to make a positive review and comment.

(a) To grant a positive review and comment the commissioner shall determine that all of the following conditions are met:

(1) the facilities are needed for pupils for whom no adequate facilities exist or will exist;

(2) there is evidence to indicate that the facilities will have a useful public purpose for at least the term of the bonds;

(3) no form of cooperation with another district would provide the necessary facilities;

(4) the facilities are comparable in size and quality to facilities recently constructed in other districts that have similar enrollments;

(5) the facilities are comparable in size and quality to facilities recently constructed in other districts that are financed without a capital loan;

(6) the district is projected to have adequate funds in its general operating budget to support a quality education for its students for at least the next five years;

(7) the current facility poses a threat to the life, health, and safety of pupils, and cannot reasonably be brought into compliance with fire, health, or life safety codes;

(8) the district has made a good faith effort, as evidenced by its maintenance expenditures, to adequately maintain the existing facility during the previous ten years and to comply...
with fire, health, and life safety codes and state and federal requirements for accessibility for people with disabilities;

(9) the district has made a good faith effort to encourage integration of social service programs within the new facility;

(10) evaluations by boards of adjacent districts have been received; and

(11) the proposal includes a comprehensive technology plan that assures information access for the students, parents, and community.

(b) The commissioner may grant a negative review and comment if:

(1) the state demographer has examined the population of the communities to be served by the facility and determined that the communities have not grown during the previous five years;

(2) the state demographer determines that the economic and population bases of the communities to be served by the facility are not likely to grow or to remain at a level sufficient, during the next ten years, to ensure use of the entire facility;

(3) the need for facilities could be met within the district or adjacent districts at a comparable cost by leasing, repairing, remodeling, or sharing existing facilities or by using temporary facilities;

(4) the district plans do not include cooperation and collaboration with health and human services agencies and other political subdivisions; or

(5) if the application is for new construction, an existing facility that would meet the district's needs could be purchased at a comparable cost from any other source within the area.

Subd. 4. **Multiple district proposals; review and comment.** In addition to the requirements of subdivision 3, the commissioner may use additional requirements to determine a positive review and comment on projects that are designed to serve more than one district. These requirements may include:

(1) reducing or increasing the number of districts that plan to use the facility;

(2) location of the facility; and

(3) formation of a joint powers agreement among the participating districts.

Subd. 5. **Adjacent district comments.** The district must present the proposed project to the board of each adjacent district at a public meeting of that district. The board of an
adjacent district must make a written evaluation of how the project will affect the future
education and building needs of the adjacent district. The board must submit the evaluation
to the applying district within 30 days of the meeting.

Subd. 6. District application for capital grant and loan. The school board of a district
desiring a capital grant and loan shall adopt a resolution stating the amount proposed to be
borrowed funded, the purpose for which the debt is to be incurred funding is requested, and
an estimate of the dates when the facilities for which the loan funding is requested will be
contracted for and completed. Applications for grants and loans must be accompanied by
a copy of the adopted board resolution and copies of the adjacent district evaluations. The
commissioner shall retain the evaluation as part of a permanent record of the district
submitting the evaluation.

Applications must be in the form and accompanied by the additional data required by
the commissioner. Applications must be received by the commissioner by September 1 of
an odd-numbered year. A district must resubmit an application each odd-numbered year.
Capital grant and loan applications that do not receive voter approval or are not approved
in law cancel July 1 of the year following application. When an application is received, the
commissioner shall obtain from the commissioner of revenue the information in the Revenue
Department's official records that is required to be used in computing the debt limit of the
district under section 475.53, subdivision 4.

Subd. 7. Commissioner review; district proposals. By November 1 of each
odd-numbered year, the commissioner must review all applications for capital grants and
loans that have received a positive review and comment. When reviewing applications, the
commissioner must consider whether the criteria in subdivision 3 have been met. The
commissioner may not approve an application if all of the required deadlines have not been
met. The commissioner may either approve or reject an application for a capital grant and
loan.

Subd. 8. Commissioner recommendations. The commissioner shall examine and
consider applications for capital grants and loans that have been approved and promptly
notify any district rejected of the decision.

The commissioner shall report each capital grant and loan that has been approved by
the commissioner and that has received voter approval to the education committees of the
legislature by January 1 of each even-numbered year. The commissioner must not report a
capital grant and loan that has not received voter approval. The commissioner shall also
Subd. 9. **Grant and loan amount limits.** (a) A grant and loan must not be recommended for approval for a district exceeding an amount computed as follows:

1. the amount requested by the district under subdivision 6;
2. plus the aggregate principal amount of general obligation bonds of the district outstanding on June 30 of the year following the year the application was received, not exceeding the limitation on net debt of the district in section 475.53, subdivision 4, or 637 percent of its adjusted net tax capacity as most recently determined, whichever is less;
3. less the maximum net debt permissible for the district on December 1 of the year the application is received, under the limitation in section 475.53, subdivision 4, or 637 percent of its adjusted net tax capacity as most recently determined, whichever is less;
4. less any amount by which the amount voted exceeds the total cost of the facilities for which the grant and loan is approved.

(b) The grant and loan may be approved in an amount computed as provided in paragraph (a), clauses (1) to (3), subject to later reduction according to paragraph (a), clause (4).

(c) The loan amount equals the lesser of the total grant and loan approved or:

1. the product of the maximum effort tax rate times 50 times the district's most recent adjusted net tax capacity at the time the capital grant and loan is approved under subdivision 10, minus
2. the district's capital loan balance outstanding at the time the capital grant and loan is approved under subdivision 10, minus
3. the district's principal and interest balance outstanding for eligible bonds issued for prior capital projects at the time the capital loan and grant is approved.

(d) The grant amount equals the difference between the total grant and loan approved and the loan amount under paragraph (c).

Subd. 10. **Legislative action.** Each capital grant and loan must be approved in a law. If the aggregate amount of the capital grants and loans exceeds the amount that is or can be made available, the commissioner shall allot the available amount among any number of qualified applicant districts, according to the commissioner's judgment and discretion, based upon the districts' respective needs.
Subd. 11. **District referendum.** After receipt of the review and comment on the project and before January 1 of the even-numbered year, the question authorizing the borrowing of money for the facilities must be submitted by the school board to the voters of the district at a regular or special election. The question submitted must state the total amount to be borrowed from all sources. Approval of a majority of those voting on the question is sufficient to authorize the issuance of the obligations on public sale in accordance with chapter 475. The face of the ballot must include the following statement: "APPROVAL OF THIS QUESTION DOES NOT GUARANTEE THAT THE SCHOOL DISTRICT WILL RECEIVE A CAPITAL GRANT AND LOAN FROM THE STATE. THE GRANT AND LOAN MUST BE APPROVED BY THE STATE LEGISLATURE AND IS DEPENDENT ON AVAILABLE FUNDING." The district must mail to the commissioner a certificate by the clerk showing the vote at the election.

Subd. 12. **Contract.** (a) Each capital grant and loan must be evidenced by a contract between the district and the state acting through the commissioner. The contract must obligate the state to reimburse the district, from the maximum effort school loan fund, for eligible capital expenses for construction of the facility for which the grant and loan is granted approved, an amount computed as provided in subdivision 9. The commissioner must receive from the district a certified resolution of the board estimating the costs of construction and reciting that contracts for construction of the facilities for which the grant and loan is granted approved have been awarded, that bonds of the district have been issued and sold or that other district funds have been set aside in the amount necessary to pay all estimated costs of construction in excess of the amount of the grant and loan, and that all work, when completed, meets or exceeds standards established in the State Building Code. The contract must obligate the district to repay the loan out of the excesses of its maximum effort debt service levy over its required debt service levy, including interest at a rate equal to the weighted average annual rate payable on Minnesota state school loan bonds issued or reissued for the project. Beginning July 1, 2020, no interest assessments shall be made on capital loan balances.

(b) The district must each year, as long as it is indebted to the state, levy for debt service (i) the amount of its maximum effort debt service levy or (ii) the amount of its required debt service levy, whichever is greater, except as the required debt service levy may be reduced by a loan under section 126C.68. The district shall remit payments to the commissioner according to section 126C.71. The actual debt service levy shall be adjusted under section 477A.09.
The commissioner shall supervise the collection of outstanding accounts due the fund and may, by notice to the proper county auditor, require the maximum levy to be made as required in this subdivision. Interest on capital loans must be paid on December 15 of the year after the year the loan is granted and annually in later years. By September 30, the commissioner shall notify the county auditor of each county containing taxable property situated within the district of the amount of the maximum effort debt service levy of the district for that year. The county auditor or auditors shall extend upon the tax rolls an ad valorem tax upon all taxable property within the district in the aggregate amount so certified.

Subd. 13. Loan forgiveness. If any capital loan is not paid within 50 years after it is granted from maximum effort debt service levies in excess of required debt service levies, the liability of the district on the loan is satisfied and discharged and interest on the loan ceases.

Subd. 14. Participation by county auditor; record of contract; payment of loan. The district must file a copy of the capital loan contract with the county auditor of each county in which any part of the district is situated. The county auditor shall enter the capital loan, evidenced by the contract, in the auditor's bond register. The commissioner shall keep a record of each capital grant and loan contract showing the name and address of the district, the date of the contract, and the amount of the grant and loan initially approved. On receipt of the resolution required in subdivision 12 and documentation of expenditures under the contract, the commissioner shall issue payments, which may be dispersed in accordance with the schedule in the contract, on the capital grant and loan account for the amount that may be disbursed under subdivision 1. Interest on each disbursement of the capital loan amount accrues from the date on which the commissioner of management and budget issues the payment.

Subd. 15. Bond sale limitations. (a) A district having an outstanding state loan must not issue and sell any bonds on the public market, except to refund state loans, unless it agrees to make the maximum effort debt service levy in each later year at the higher rate provided in section 126C.63, subdivision 8, and unless it schedules the maturities of the bonds according to section 475.54, subdivision 2. A district that refunds bonds at a lower interest rate may continue to make the maximum effort debt service levy in each later year at the current rate provided in section 126C.63, subdivision 8, if the district can demonstrate to the commissioner's satisfaction that the district's repayments of the state loan will not be reduced below the previous year's level. The district must report each sale to the commissioner.
(b) For a capital loan issued prior to July 1, 2001, after the district's capital loan has been outstanding for 30 years, the district must not issue bonds on the public market except to refund the loan.

(c) For a capital loan issued on or after July 1, 2001, after the district's capital loan has been outstanding for 20 years, the district must not issue bonds on the public market except to refund the loan.

Sec. 14. Minnesota Statutes 2018, section 126C.71, is amended to read:

126C.71 PAYMENT AND APPLICATIONS OF PAYMENT.

Subdivision 1. Payment. (a) On November 20 of each year, each district having an outstanding capital loan or debt service loan shall compute the excess amount in the debt redemption fund. The commissioner shall prescribe the form and calculation to be used in computing the excess amount. A completed copy of this form shall be sent to the commissioner before December 1 of each year. The commissioner may recompute the excess amount and shall promptly notify the district of the recomputed amount.

(b) On December 15 of each year, the district shall remit to the commissioner, at a minimum, an amount equal to the greater of:

(i) the excess amount in the debt redemption fund; or

(ii) the amount by which the maximum effort debt service levy exceeds the required debt service levy for that calendar year.

Any late payments shall be assessed an interest charge using the interest rates specified for the debt service notes and capital loan contracts.

(c) If a payment required under the Maximum Effort School Aid Law paragraph (a) is not made within 30 days, the commissioner may reduce any subsequent payments due the district under this chapter and chapters 120B, 122A, 123A, 123B, 124D, 125A, and 127A by the amount due, after providing written notice to the district.

Subd. 2. Application of payments. The commissioner shall apply payments received under the Maximum Effort School Aid Law and aids withheld according to subdivision 1, paragraph (b), as follows: First, to payment of interest accrued on its notes, if any; second, to interest on its contracts, if any; third, toward principal of its notes, if any; and last, toward the principal of its contracts, if any. While more than one note or more than one contract is held, priority of payment of interest must be given to the one of earliest date, and after interest accrued on all notes is paid, similar priority shall be given in the application of any
remaining amount to the payment of principal. In any year when the receipts from a district are not sufficient to pay the interest accrued on any of its notes or contracts, the deficiency must be added to the principal, and the commissioner shall notify the district and each county auditor concerned of the new amount of principal of the note or contract.

Sec. 15. Minnesota Statutes 2018, section 134.45, subdivision 5, is amended to read:

Subd. 5. Qualification; accessibility grants. A public library jurisdiction may apply for a grant in an amount up to $200,000 or $450,000 or 50 percent of the approved costs of removing architectural barriers from a building or site, whichever is less. Grants may be made only for projects in existing buildings used as a library, or to prepare another existing building for use as a library. Renovation of an existing building may include an addition to the building if the additional space is necessary to provide accessibility or if relocating public spaces to the ground level provides improved overall accessibility. Grants must not be used to pay part of the cost of meeting accessibility requirements in a new building.

Sec. 16. Minnesota Statutes 2018, section 137.61, is amended to read:

137.61 PURPOSE. Sections 137.61 to 137.65 provide for a biomedical science research funding program to further the investment in biomedical science research facilities in Minnesota to benefit the state's economy, advance the biomedical technology industry, benefit human health, and facilitate research collaboration between the University of Minnesota and other private and public institutions in this state. Sections 137.61 to 137.65 also provide funding for design, land acquisition, site preparation, and preconstruction services for the new clinical research facility on the University of Minnesota's Twin Cities campus.

Sec. 17. Minnesota Statutes 2018, section 137.62, subdivision 2, is amended to read:

Subd. 2. Biomedical science research facility. "Biomedical science research facility" means a facility located on the campus of the University of Minnesota to be used as a research facility and laboratory for biomedical science and biomedical technology. A hospital licensed under sections 144.50 to 144.56 is not a biomedical science research facility. Biomedical science research facility includes the clinical research facility defined in this section.
Sec. 18. Minnesota Statutes 2018, section 137.62, is amended by adding a subdivision to read:

Subd. 2a. Clinical research facility. "Clinical research facility" means a facility located on the Twin Cities campus of the University of Minnesota to connect a broad array of clinical research units and activities from across the university, providing a consolidated home for the Clinical Translational Science Institute and related programs that support education, research, clinical training, and patient care.

Sec. 19. Minnesota Statutes 2018, section 137.63, is amended to read:

137.63 BIOMEDICAL SCIENCE RESEARCH FACILITIES FUNDING PROGRAM.

Subdivision 1. Program established. A biomedical science research facilities funding program is established to provide appropriations to the Board of Regents of the University of Minnesota for up to 75 percent of the project costs for each of four projects approved by the Board of Regents under section 137.64, other than the clinical research facility. Appropriations to the Board of Regents for the clinical research facility are for 100 percent of the project costs for design, land acquisition, site preparation, and preconstruction services.

Subd. 2. Project requirements. The Board of Regents of the University of Minnesota, either acting on its own or in collaboration with another private or public entity, must pay at least 25 percent of the project costs for each of four projects, other than the clinical research facility. The board must not use tuition revenue to pay for the university's share of the costs for the projects approved under section 137.64.

Sec. 20. Minnesota Statutes 2018, section 137.64, is amended to read:

137.64 CONDITIONS FOR PAYMENTS TO UNIVERSITY.

Subdivision 1. Certifications. Before the commissioner may make any payments authorized in this section to the Board of Regents for a biomedical science research facility project, the commissioner must certify that the board has, by board resolution, approved the maximum project cost for the project and complied with the requirements of section 137.63, subdivision 2. For each project approved by the board, the board must certify to the commissioner the amount of the annual payments of principal and interest required to service each series of bonds issued by the University of Minnesota for the project, and the actual amount of the state's annual payment to the University of Minnesota under subdivision 2. The annual payment must not exceed the amount required to pay debt service on the bonds issued to finance 75 percent of the project costs of biomedical science research facilities.
authorized before 2019. The annual payment may additionally be for the amount required
to pay debt service on the bonds issued to finance 100 percent of the costs of the clinical
research facility.

Subd. 2. Payments. On July 15 of each year after the certification under subdivision 1,
but no earlier than July 15, 2009, and for so long thereafter as any bonds issued by the board
for the construction of a project, or any refunding bonds issued under subdivision 7, are
outstanding, the state must transfer to the board annual payments as certified under
subdivision 1, up to the maximum amounts in the appropriation schedule under subdivision
3. Payments under this section are to reimburse the Board of Regents for the state's share
of the project costs for the biomedical science research facility projects, provided that the
principal amount of bonds issued by the University of Minnesota to pay the state's share of
the costs must not exceed $219,000,000.

Subd. 3. Appropriations. Annual appropriations are made from the general fund to the
commissioner of management and budget for transfer to the Board of Regents, as follows:

(1) up to $850,000 is appropriated in fiscal year 2010;

These capital building assets include but are not limited to district headquarter buildings, truck stations, salt storage or other unheated storage buildings, deicing and anti-icing facilities, fuel dispensing facilities, highway rest areas, and vehicle weigh and inspection stations.

Subd. 4. Criteria for priorities. When prioritizing funding allocation among projects eligible under subdivision 3, the commissioner must consider:

1. whether a project ensures the effective and efficient condition and operation of the facility;
2. the urgency in ensuring the safe use of existing buildings;
3. the project's total life-cycle cost;
4. additional criteria for priorities otherwise specified in state law, statute, or rule that applies to a category listed in the act making an appropriation for the program; and
