

Education Committee,

Our names are Chris and Jeni Houser from Loretto, Minnesota, where we home educate our five children, ages 6 to 14. We would like to voice our objections to MN House DE Amendment to the Education Policy Omnibus Bill. This bill could provide government officials or other agents with the unconstitutional authority to see private data. It is especially concerning to us that this bill would infringe upon our rights as parents to make educational decisions for our family. We request that you remove the language from this bill that puts additional restrictions and requirements on home educators.

Thank you,

Chris and Jeni Houser
