Re: HF 2768: State employee contracts summary

Background
This bill ratifies labor contracts and compensation plans for state employees in the Executive Branch. If legislation to ratify these contracts and plans is not adopted, the terms and conditions provided in these contracts and plans will be voided.

These contracts and plans are for the FY 20-21 biennium and are effective retroactively to July 1, 2019. Minnesota Management and Budget (MMB) estimates that the increased costs of all collective bargaining agreements and plans will be 4.8% in this biennium, with an impact of 8.17% on the next biennium. A spreadsheet showing the costs of each agreement and plan is attached.

Insurance Benefits
The health, dental, life, and disability benefits provisions for these contracts and plans are initially bargained through a coalition that includes exclusive representatives from all of the state’s unions. Final bargaining is completed between the state and the exclusive representatives for AFSCME and MAPE. As a result, the insurance provisions themselves are generally consistent from contract to contract. However, some minimal changes for financial and benefit issues (like eligibility and modifications to state contributions) may be bargained from contract to contract.

The Legislature reviews proposed changes to benefits provisions as part of its overall review of proposed collective bargaining agreements. Because benefits are a term and condition of employment bargained in these agreements, the Legislature does not separately review the benefits program.

Insurance changes are generally effective January 1, 2020. MMB and the employee representatives negotiated the following with regard to insurance:

- No changes to the underlying medical plan design.
• Out of pocket costs for the medical plan, including first dollar deductibles, office and prescription co-pays and co-insurance are all increased.
• In 2021, the $5 reduction in the office visit copay is replaced by a $70 credit to the individual deductible for employees completing qualified activities in the Wellbeing program.

Salary increases
The collective bargaining agreements have consistent provisions regarding salary increases:
• 2.25% increase in salaries effective July 1, 2019.
• 2.5% increase in salaries effective July 1, 2020.
• Annual merit-based increases for eligible employees that generally vary between 2.75% and 3.5%. On average, about half of the employees are eligible for these increases.

Other
Contracts and plans include provisions that authorize employees to use paid leave to vote in tribal elections.
