Application may be made to any member of the board, a truant officer, a principal, or the superintendent. The school district may state in its school attendance policy that it may ask the student's parent or legal guardian to verify in writing the reason for the child's absence from school or not participating in a physical education class. A note from a physician or a licensed mental health professional stating that the child cannot attend school or participate in a physical education class is a valid excuse. The board of the district in which the child resides may approve the application upon the following being demonstrated to the satisfaction of that board:

This school for religious instruction must be conducted and maintained in a place other than a public school building, and it must not, in whole or in part, be conducted and maintained at public expense. However, a child may be absent from school on such days as the child attends upon instruction according to the ordinances of some church.

(b) Notwithstanding subdivision 6, paragraph (a), a parent may withdraw a child from an all-day, every day kindergarten program and put their child in a half-day program, if offered, or an alternate-day program without being truant. A school board must excuse a kindergarten child from a part of a school day at the request of the child's parent.

responsibilities, American history, and American geography, symbols, and holidays.

14.31  Sec. 9. Minnesota Statutes 2014, section 120B.11, subdivision 5, is amended to read:
14.32  Subd. 5. Report. Consistent with requirements for school performance reports
14.33  under section 120B.36, subdivision 1, the school board shall publish a report in the
14.34  local newspaper with the largest circulation in the district, by mail, or by electronic
means on the district Web site. The school board shall hold an annual public meeting
to review, and revise where appropriate, student achievement goals, local assessment
outcomes, plans, strategies, and practices for improving curriculum and instruction
and cultural competency, and efforts to equitably distribute effective, experienced, and
in-field teachers, and to review district success in realizing the previously adopted student
achievement goals and related benchmarks and the improvement plans leading to the
world's best workforce. The school board must transmit an electronic summary of its
report to the commissioner in the form and manner the commissioner determines.

Sec. 10. Minnesota Statutes 2014, section 120B.15, is amended to read:

**120B.15 GIFTED AND TALENTED STUDENTS PROGRAMS.**

(a) School districts may identify students, locally develop programs addressing
instructional and affective needs, provide staff development, and evaluate programs to
provide gifted and talented students with challenging and appropriate educational programs.

(b) School districts must adopt guidelines for assessing and identifying students for
participation in gifted and talented programs consistent with section 120B.11, subdivision
2, clause (2). The guidelines should include the use of:

(1) multiple and objective criteria; and

(2) assessments and procedures that are valid and reliable, fair, and based on current
theory and research. Assessments and procedures should be sensitive to underrepresented
groups, including, but not limited to, low-income, minority, twice-exceptional, and
English learners.

(c) School districts must adopt procedures for the academic acceleration of gifted
and talented students consistent with section 120B.11, subdivision 2, clause (2). These
procedures must include how the district will:

(1) assess a student's readiness and motivation for acceleration; and

(2) match the level, complexity, and pace of the curriculum to a student to achieve
the best type of academic acceleration for that student.

(d) School districts must adopt procedures consistent with section 124D.02,
subdivision 1, for early admission to kindergarten or first grade of gifted and talented
learners consistent with section 120B.11, subdivision 2, clause (2). The procedures must
be sensitive to underrepresented groups.

Sec. 11. Minnesota Statutes 2015 Supplement, section 120B.30, subdivision 1, is
amended to read:

Article 2 Sec. 11.
Subdivision 1. **Statewide testing.** (a) The commissioner, with advice from experts with appropriate technical qualifications and experience and stakeholders, consistent with subdivision 1a, shall include in the comprehensive assessment system, for each grade level to be tested, state-constructed tests developed as computer-adaptive reading and mathematics assessments for students that are aligned with the state's required academic standards under section 120B.021, include multiple choice questions, and are administered annually to all students in grades 3 through 8. State-developed high school tests aligned with the state's required academic standards under section 120B.021 and administered to all high school students in a subject other than writing must include multiple choice questions. The commissioner shall establish one or more months during which schools shall administer the tests to students each school year.

(1) Students enrolled in grade 8 through the 2009-2010 school year are eligible to be assessed under (i) the graduation-required assessment for diploma in reading, mathematics, or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1, paragraphs (c), clauses (1) and (2), and (d), (ii) the WorkKeys job skills assessment, (iii) the Compass college placement test, (iv) the ACT assessment for college admission, (v) a nationally recognized armed services vocational aptitude test.

(2) Students enrolled in grade 8 in the 2010-2011 or 2011-2012 school year are eligible to be assessed under (i) the graduation-required assessment for diploma in reading, mathematics, or writing under Minnesota Statutes 2012, section 120B.30, subdivision 1, paragraph (c), clauses (1) and (2), (ii) the WorkKeys job skills assessment, (iii) the Compass college placement test, (iv) the ACT assessment for college admission, (v) a nationally recognized armed services vocational aptitude test.

(3) For students under clause (1) or (2), a school district may substitute a score from an alternative, equivalent assessment to satisfy the requirements of this paragraph.

(b) The state assessment system must be aligned to the most recent revision of academic standards as described in section 120B.023 in the following manner:

(1) mathematics;

(i) grades 3 through 8 beginning in the 2010-2011 school year; and

(ii) high school level beginning in the 2013-2014 school year;

(2) science; grades 5 and 8 and at the high school level beginning in the 2011-2012 school year; and

(3) language arts and reading; grades 3 through 8 and high school level beginning in the 2012-2013 school year.

(c) For students enrolled in grade 8 in the 2012-2013 school year and later, students' state graduation requirements, based on a longitudinal, systematic approach to student
education and career planning, assessment, instructional support, and evaluation, include
the following:

(1) an opportunity to participate on a nationally normed college entrance exam,
in grade 11 or grade 12;

(2) achievement and career and college readiness in mathematics, reading, and
writing, consistent with paragraph (j) (k) and to the extent available, to monitor students'
continuous development of and growth in requisite knowledge and skills; analyze
students' progress and performance levels, identifying students' academic strengths and
diagnosing areas where students require curriculum or instructional adjustments, targeted
interventions, or remediation; and, based on analysis of students' progress and performance
data, determine students' learning and instructional needs and the instructional tools and
best practices that support academic rigor for the student; and

(3) consistent with this paragraph and section 120B.125, age-appropriate exploration
and planning activities and career assessments to encourage students to identify personally
relevant career interests and aptitudes and help students and their families develop a
regularly reexamined transition plan for postsecondary education or employment without
need for postsecondary remediation.
Based on appropriate state guidelines, students with an individualized education program
may satisfy state graduation requirements by achieving an individual score on the
state-identified alternative assessments.

(d) Expectations of schools, districts, and the state for career or college readiness
under this subdivision must be comparable in rigor, clarity of purpose, and rates of
student completion.

A student under paragraph (c), clause (2), must receive targeted, relevant,
academically rigorous, and resourced instruction, which may include a targeted instruction
and intervention plan focused on improving the student's knowledge and skills in core
subjects so that the student has a reasonable chance to succeed in a career or college
without need for postsecondary remediation. Consistent with sections 120B.13, 124D.09,
124D.091, 124D.49, and related sections, an enrolling school or district must actively
encourage a student in grade 11 or 12 who is identified as academically ready for a career
or college to participate in courses and programs awarding college credit to high school
students. Students are not required to achieve a specified score or level of proficiency on
an assessment under this subdivision to graduate from high school.

(e) Though not a high school graduation requirement, students are encouraged to
participate in a nationally recognized college entrance exam. With funding provided by
the To the extent state funding for college entrance exam fees is available, a district must
pay the cost, one time, for an interested student in grade 11 or 12 to take a nationally recognized college entrance exam before graduating. A student must be able to take the exam under this paragraph at the student's high school during the school day and at any one of the multiple exam administrations available to students in the district.

(f) The commissioner and the chancellor of the Minnesota State Colleges and Universities must collaborate in aligning instruction and assessments for adult basic education students and English learners to provide the students with diagnostic information about any targeted interventions, accommodations, modifications, and supports they need so that assessments and other performance measures are accessible to them and they may seek postsecondary education or employment without need for postsecondary remediation. When administering formative or summative assessments used to measure the academic progress, including the oral academic development, of English learners and inform their instruction, schools must ensure that the assessments are accessible to the students and students have the modifications and supports they need to sufficiently understand the assessments.

(g) Districts and schools, on an annual basis, must use career exploration elements to help students, beginning no later than grade 9, and their families explore and plan for postsecondary education or careers based on the students' interests, aptitudes, and aspirations. Districts and schools must use timely regional labor market information and partnerships, among other resources, to help students and their families successfully develop, pursue, review, and revise an individualized plan for postsecondary education or a career. This process must help increase students' engagement in and connection to school, improve students' knowledge and skills, and deepen students' understanding of career pathways as a sequence of academic and career courses that lead to an industry-recognized credential, an associate's degree, or a bachelor's degree and are available to all students, whatever their interests and career goals.

(h) A student who demonstrates attainment of required state academic standards, which include career and college readiness benchmarks, on high school assessments under subdivision 1a is academically ready for a career or college and is encouraged to participate in courses awarding college credit to high school students. Such courses and programs may include sequential courses of study within broad career areas and technical skill assessments that extend beyond course grades.

(i) As appropriate, students through grade 12 must continue to participate in targeted instruction, intervention, or remediation and be encouraged to participate in courses awarding college credit to high school students.
(j) In developing, supporting, and improving students' academic readiness for a career or college, schools, districts, and the state must have a continuum of empirically derived, clearly defined benchmarks focused on students' attainment of knowledge and skills so that students, their parents, and teachers know how well students must perform to have a reasonable chance to succeed in a career or college without need for postsecondary remediation. The commissioner, in consultation with local school officials and educators, and Minnesota's public postsecondary institutions must ensure that the foundational knowledge and skills for students' successful performance in postsecondary employment or education and an articulated series of possible targeted interventions are clearly identified and satisfy Minnesota's postsecondary admissions requirements.

(k) For students in grade 8 in the 2012-2013 school year and later, a school, district, or charter school must record on the high school transcript a student's progress toward career and college readiness, and for other students as soon as practicable.

(l) The school board granting students their diplomas may formally decide to include a notation of high achievement on the high school diplomas of those graduating seniors who, according to established school board criteria, demonstrate exemplary academic achievement during high school.

(m) The 3rd through 8th grade computer-adaptive assessment results and high school test results shall be available to districts for diagnostic purposes affecting student learning and district instruction and curriculum, and for establishing educational accountability. The commissioner must establish empirically derived benchmarks on adaptive assessments in grades 3 through 8 and the high school tests that reveal a trajectory toward career and college readiness. The chancellor of the Minnesota State Colleges and Universities must review and confirm the benchmarks established by the commissioner show that students are able to successfully complete credit-bearing coursework at a Minnesota state college or university, consistent with paragraph (p). The commissioner must disseminate to the public the computer-adaptive assessments and high school test results upon receiving those results.

(n) The grades 3 through 8 computer-adaptive assessments and high school tests must be aligned with state academic standards. The commissioner shall determine the testing process and the order of administration. The statewide results shall be aggregated at the site and district level, consistent with subdivision 1a.

(o) The commissioner shall include the following components in the statewide public reporting system:

1. uniform statewide computer-adaptive assessments of all students in grades 3 through 8 and testing at the high school levels that provides appropriate, technically sound accommodations or alternate assessments;
(2) educational indicators that can be aggregated and compared across school
districts and across time on a statewide basis, including average daily attendance, high
school graduation rates, and high school drop-out rates by age and grade level;
(3) state results on the American College Test; and
(4) state results from participation in the National Assessment of Educational
Progress so that the state can benchmark its performance against the nation and other
states, and, where possible, against other countries, and contribute to the national effort
to monitor achievement.

(p) For purposes of statewide accountability, "career and college ready" means a
high school graduate has the knowledge, skills, and competencies to successfully pursue a
career pathway, including postsecondary credit leading to a degree, diploma, certificate, or
industry-recognized credential and employment. Students who are career and college ready
are able to successfully complete credit-bearing coursework at a two- or four-year college
or university or other credit-bearing postsecondary program without need for remediation.

(q) For purposes of statewide accountability, "cultural competence," "cultural
competency," or "culturally competent" means the ability and will to interact effectively
with people of different cultures, native languages, and socioeconomic backgrounds.

EFFECTIVE DATE. This section is effective for the 2016-2017 school year and
later.

Sec. 12. Minnesota Statutes 2015 Supplement, section 120B.31, subdivision 4, is
amended to read:

Subd. 4. Student performance data. In developing policies and assessment
processes to hold schools and districts accountable for high levels of academic standards
under section 120B.021, the commissioner shall aggregate and disaggregate student
data over time to report summary student performance and growth levels under
section 120B.11, subdivision 2, clause (2), student learning and outcome data measured
at the school, school district, and statewide level. When collecting and reporting the
performance data, The commissioner shall use the student categories identified under the
federal Elementary and Secondary Education Act, as most recently reauthorized, and
student categories of homelessness, ethnicity, race, home language, immigrant, refugee
status, English language learners under section 124D.59, free or reduced-price lunch,
and other categories designated by federal law to organize and report the data so that
state and local policy makers can understand the educational implications of changes in
districts' demographic profiles over time, including student homelessness, as data are
available, among other demographic factors. Any report the commissioner disseminates
containing summary data on student performance must integrate student performance and
the demographic factors that strongly correlate with that performance.

**EFFECTIVE DATE.** This section is effective for the 2017-2018 school year and
later.

Sec. 13. Minnesota Statutes 2014, section 120B.35, is amended to read:

**120B.35 STUDENT ACADEMIC ACHIEVEMENT AND GROWTH.**

Subdivision 1. **School and Student indicators of growth and achievement.**

The commissioner must develop and implement a system for measuring and reporting
academic achievement and individual student growth, consistent with the statewide
educational accountability and reporting system. The system components must measure
and separately report the adequate yearly progress federal expectations of schools and
the growth of individual students: students' current achievement in schools under
subdivision 2; and individual students' educational growth over time under subdivision
3. The system also must include statewide measures of student academic growth that
identify schools with high levels of growth, and also schools with low levels of growth
that need improvement. **When determining a school's effect, the data must include**
both statewide measures of student achievement and, to the extent annual tests are
administered, indicators of achievement growth that take into account a student's prior
achievement. Indicators of achievement and prior achievement must be based on highly
reliable statewide or districtwide assessments. Indicators that take into account a student's
prior achievement must not be used to disregard a school's low achievement or to exclude
a school from a program to improve low achievement levels.

**Subd. 2. Federal Expectations for student academic achievement.** (a) Each
school year, a school district must determine if the student achievement levels at each
school site meet federal expectations. If student achievement levels at a school site do
not meet federal expectations and the site has not made adequate yearly progress for two
consecutive school years, beginning with the 2001-2002 school year, the district must
work with the school site to adopt a plan to raise student achievement levels to meet
federal expectations. The commissioner of education shall establish student academic
achievement levels to comply with this paragraph.

(b) School sites identified as not meeting federal expectations must develop
continuous improvement plans in order to meet federal expectations for student academic
achievement. The department, at a district's request, must assist the district and the school
site in developing a plan to improve student achievement. The plan must include parental involvement components.

(c) The commissioner must:

(1) assist school sites and districts identified as not meeting federal expectations; and

(2) provide technical assistance to schools that integrate student achievement measures into the school continuous improvement plan.

(d) The commissioner shall establish and maintain a continuous improvement Web site designed to make aggregated and disaggregated student growth and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data on every school and district available to parents, teachers, administrators, community members, and the general public, consistent with this section.

Subd. 3. State growth target; other state measures. (a)(1) The state's educational assessment system measuring individual students' educational growth is based on indicators of achievement growth that show an individual student's prior achievement. Indicators of achievement and prior achievement must be based on highly reliable statewide or districtwide assessments.

(2) For purposes of paragraphs (b), (c), and (d), the commissioner must analyze and report separate categories of information using the student categories identified under the federal Elementary and Secondary Education Act, as most recently reauthorized and, in addition to the Karen community, other student categories as determined by the total Minnesota population at or above the 1,000-person threshold based on the most recent decennial census, including ethnicity; race; refugee status; English language learners under section 124D.59; home language; free or reduced-price lunch; immigrant; and all students enrolled in a Minnesota public school who are currently or were previously in foster care, except that such disaggregation and cross tabulation is not required if the number of students in a category is insufficient to yield statistically reliable information or the results would reveal personally identifiable information about an individual student.

(b) The commissioner, in consultation with a stakeholder group that includes assessment and evaluation directors, district staff, experts in culturally responsive teaching, and researchers, must implement a model that uses a value-added growth indicator and includes criteria for identifying schools and school districts that demonstrate medium and high growth under section 120B.299, subdivisions 8 and 9, and may recommend other value-added measures under section 120B.299, subdivision 3. The model may be used to advance educators' professional development and replicate programs that succeed in meeting students' diverse learning needs. Data on individual teachers generated under the model are personnel data under section 13.43. The model must allow users to:
(1) report student growth consistent with this paragraph; and

(2) for all student categories, report and compare aggregated and disaggregated state student growth and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data using the nine student categories identified under the federal 2001 No Child Left Behind Act and two student gender categories of male and female, respectively, following appropriate reporting practices to protect nonpublic student data. Elementary and Secondary Education Act, as most recently reauthorized, and other student categories under paragraph (a), clause (2).

The commissioner must report measures of student growth and, under section 120B.11, subdivision 2, clause (2), student learning and outcome data, consistent with this paragraph, including the English language development, academic progress, and oral academic development of English learners and their native language development if the native language is used as a language of instruction, and include data on all pupils enrolled in a Minnesota public school course or program who are currently or were previously counted as an English learner under section 124D.59.

(c) When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2011, must report two core measures indicating the extent to which current high school graduates are being prepared for postsecondary academic and career opportunities:

(1) a preparation measure indicating the number and percentage of high school graduates in the most recent school year who completed course work important to preparing them for postsecondary academic and career opportunities, consistent with the core academic subjects required for admission to Minnesota's public colleges and universities as determined by the Office of Higher Education under chapter 136A; and

(2) a rigorous coursework measure indicating the number and percentage of high school graduates in the most recent school year who successfully completed one or more college-level advanced placement, international baccalaureate, postsecondary enrollment options including concurrent enrollment, other rigorous courses of study under section 120B.021, subdivision 1a, or industry certification courses or programs.

When reporting the core measures under clauses (1) and (2), the commissioner must also analyze and report separate categories of information using the nine student categories identified under the federal 2001 No Child Left Behind Act and two student gender categories of male and female, respectively, following appropriate reporting practices to protect nonpublic student data. Elementary and Secondary Education Act, as most recently reauthorized, and other student categories under paragraph (a), clause (2).
(d) When reporting student performance under section 120B.36, subdivision 1, the commissioner annually, beginning July 1, 2014, must report summary data on school safety and students' engagement and connection at school, consistent with the student categories identified under paragraph (a), clause (2). The summary data under this paragraph are separate from and must not be used for any purpose related to measuring or evaluating the performance of classroom teachers. The commissioner, in consultation with qualified experts on student engagement and connection and classroom teachers, must identify highly reliable variables that generate summary data under this paragraph. The summary data may be used at school, district, and state levels only. Any data on individuals received, collected, or created that are used to generate the summary data under this paragraph are nonpublic data under section 13.02, subdivision 9.

(e) For purposes of statewide educational accountability, the commissioner must identify and report measures that demonstrate the success of learning year program providers under sections 123A.05 and 124D.68, among other such providers, in improving students' graduation outcomes. The commissioner, beginning July 1, 2015, must annually report summary data on:

1. the four- and six-year graduation rates of students under this paragraph;
2. the percent of students under this paragraph whose progress and performance levels are meeting career and college readiness benchmarks under section 120B.30, subdivision 1; and
3. the success that learning year program providers experience in:
   (i) identifying at-risk and off-track student populations by grade;
   (ii) providing successful prevention and intervention strategies for at-risk students;
   (iii) providing successful recuperative and recovery or reenrollment strategies for off-track students; and
4. (iv) improving the graduation outcomes of at-risk and off-track students.

The commissioner may include in the annual report summary data on other education providers serving a majority of students eligible to participate in a learning year program.

(f) The commissioner, in consultation with recognized experts with knowledge and experience in assessing the language proficiency and academic performance of English learners enrolled in a Minnesota public school course or program who are currently or were previously counted as an English learner under section 124D.59, must identify and report appropriate and effective measures to improve current categories of language difficulty and assessments, and monitor and report data on students' English proficiency levels, program placement, and academic language development, including oral academic language.
Subd. 4. Improving schools. Consistent with the requirements of this section, beginning June 20, 2012, the commissioner of education must annually report to the public and the legislature best practices implemented in those schools that demonstrate high growth compared to the state growth target and are identified as high performing under federal expectations.

Subd. 5. Improving graduation rates for students with emotional or behavioral disorders. (a) A district must develop strategies in conjunction with parents of students with emotional or behavioral disorders and the county board responsible for implementing sections 245.487 to 245.4889 to keep students with emotional or behavioral disorders in school, when the district has a drop-out rate for students with an emotional or behavioral disorder in grades 9 through 12 exceeding 25 percent.

(b) A district must develop a plan in conjunction with parents of students with emotional or behavioral disorders and the local mental health authority to increase the graduation rates of students with emotional or behavioral disorders. A district with a drop-out rate for children with an emotional or behavioral disturbance in grades 9 through 12 that is in the top 25 percent of all districts shall submit a plan for review and oversight to the commissioner.

EFFECTIVE DATE. This section is effective for the 2016-2017 school year and later.

Sec. 14. Minnesota Statutes 2014, section 120B.36, as amended by Laws 2015, First Special Session chapter 3, article 2, section 8, is amended to read:

currently or were previously counted as English learners under section 124D.59; two
separate student-to-teacher ratios that clearly indicate the definition of teacher consistent
with sections 122A.06 and 122A.15 for purposes of determining these ratios; staff
characteristics excluding salaries; student enrollment demographics; foster care status,
including all students enrolled in a Minnesota public school course or program who are
currently or were previously in foster care, student homelessness, and district mobility;
and extracurricular activities. The report also must indicate a school’s adequate yearly
progress status under applicable federal law, and must not set any designations applicable
to high- and low-performing schools due solely to adequate yearly progress status.

(b) The commissioner shall develop, annually update, and post on the department
Web site school performance reports.

(c) The commissioner must make available performance reports by the beginning
of each school year.

(d) A school or district may appeal its adequate yearly progress status in writing
to the commissioner within 30 days of receiving the notice of its status results in a form
and manner determined by the commissioner and consistent with federal law. The
commissioner's decision to uphold or deny an appeal is final.

(e) School performance data are nonpublic data under section 13.02, subdivision 9,
until the commissioner publicly releases the data. The commissioner shall annually post
school performance reports to the department's public Web site no later than September 1,
except that in years when the reports reflect new performance standards, the commissioner
shall post the school performance reports no later than October 1.

Subd. 2. Adequate yearly Student progress and other data. (a) All data the
department receives, collects, or creates under section 120B.11, governing the world's

and outcomes under section 120B.35 are nonpublic data under section 13.02, subdivision
9, until the commissioner publicly releases the data.

(b) Districts must provide parents sufficiently detailed summary data to permit
parents to appeal under Public Law 107-110, section 1116(b)(2) the most recently
reauthorized federal Elementary and Secondary Education Act. The commissioner shall
annually post federal adequate yearly progress data, expectations and state student growth,
learning, and outcome data to the department's public Web site no later than September 1,
except that in years when adequate yearly progress reflects data or federal expectations reflect new performance standards, the commissioner shall post federal adequate yearly progress data on federal expectations and state student growth data no later than October 1.

Sec. 15. Minnesota Statutes 2014, section 121A.53, is amended to read:

**121A.53 REPORT TO COMMISSIONER OF EDUCATION.**

Subdivision 1. **Exclusions and expulsions; physical assaults.** The school board must report through the department electronic reporting system each exclusion or expulsion and each physical assault of a district employee by a student within 30 days of the effective date of the dismissal action or assault to the commissioner of education.

This report must include a statement of alternative educational services, or other sanction, intervention, or resolution in response to the assault given the pupil and the reason for, the effective date, and the duration of the exclusion or expulsion or other sanction, intervention, or resolution. The report must also include the student's age, grade, race, and special education status.

Subd. 2. **Report.** (a) The school board must include state student identification numbers of affected pupils on all dismissal and other disciplinary reports required by the department. district employees having a legitimate educational interest in knowing about students with
a history of violent behavior, including any documented physical assault of a district
