

Good Afternoon

I am writing this in support of this bill to increase the funding. I am a first time recipient of a farm to school Grant and can not tell you how much it means to my school districts to have this extra funding, This is so important in the lives of our children. I know the only veggies a lot of our students get are the ones we provide at school. I am so Thankful for our farm to school programs! I am excited to use the funding for our next school year and increase the awareness of the program and what it offers to our students. Thank You!!!
