

Description

Baseline: Preliminary Pay 2023

Alternative: Preliminary Pay 2023 under H.F. 1504

This report compares preliminary property taxes payable in 2023 under current law to preliminary property taxes in 2023 under H.F. 1504. The bill would increase the value thresholds and the maximum exclusion amount for the homestead market value exclusion.

Key Points

- **Statewide, \$11.4 million in net tax would shift away from homesteads onto other types of property.** This includes \$10.8 million shifted away from residential homesteads and \$0.6 million shifted away from the portion of agricultural homesteads consisting of the house, garage, and surrounding one acre of land (HGA).
- **Most of tax would be shifted onto commercial-industrial, residential non-homestead, and apartment property.** About \$4.5 million in net tax would be shifted onto commercial-industrial property, \$2.2 million would be shifted onto non-homestead residential property, and \$1.8 would be shifted onto apartments.

The simulations are estimates only. House Research strives to make property tax simulations accurate, but simulations are only approximations of reality. Generally the results are most accurate on a statewide level, and tend to be less accurate as the jurisdiction under scrutiny gets smaller.

Baseline: Preliminary Pay 2023

- **Market Values** (taxable market values) are actual values reported by the county assessors to the Department of Revenue.
- **Local government levies** are the preliminary levies that were certified by local taxing jurisdictions to county auditors, and then reported to the Department of Revenue.
- **Property tax credits** are calculated within the simulation model.

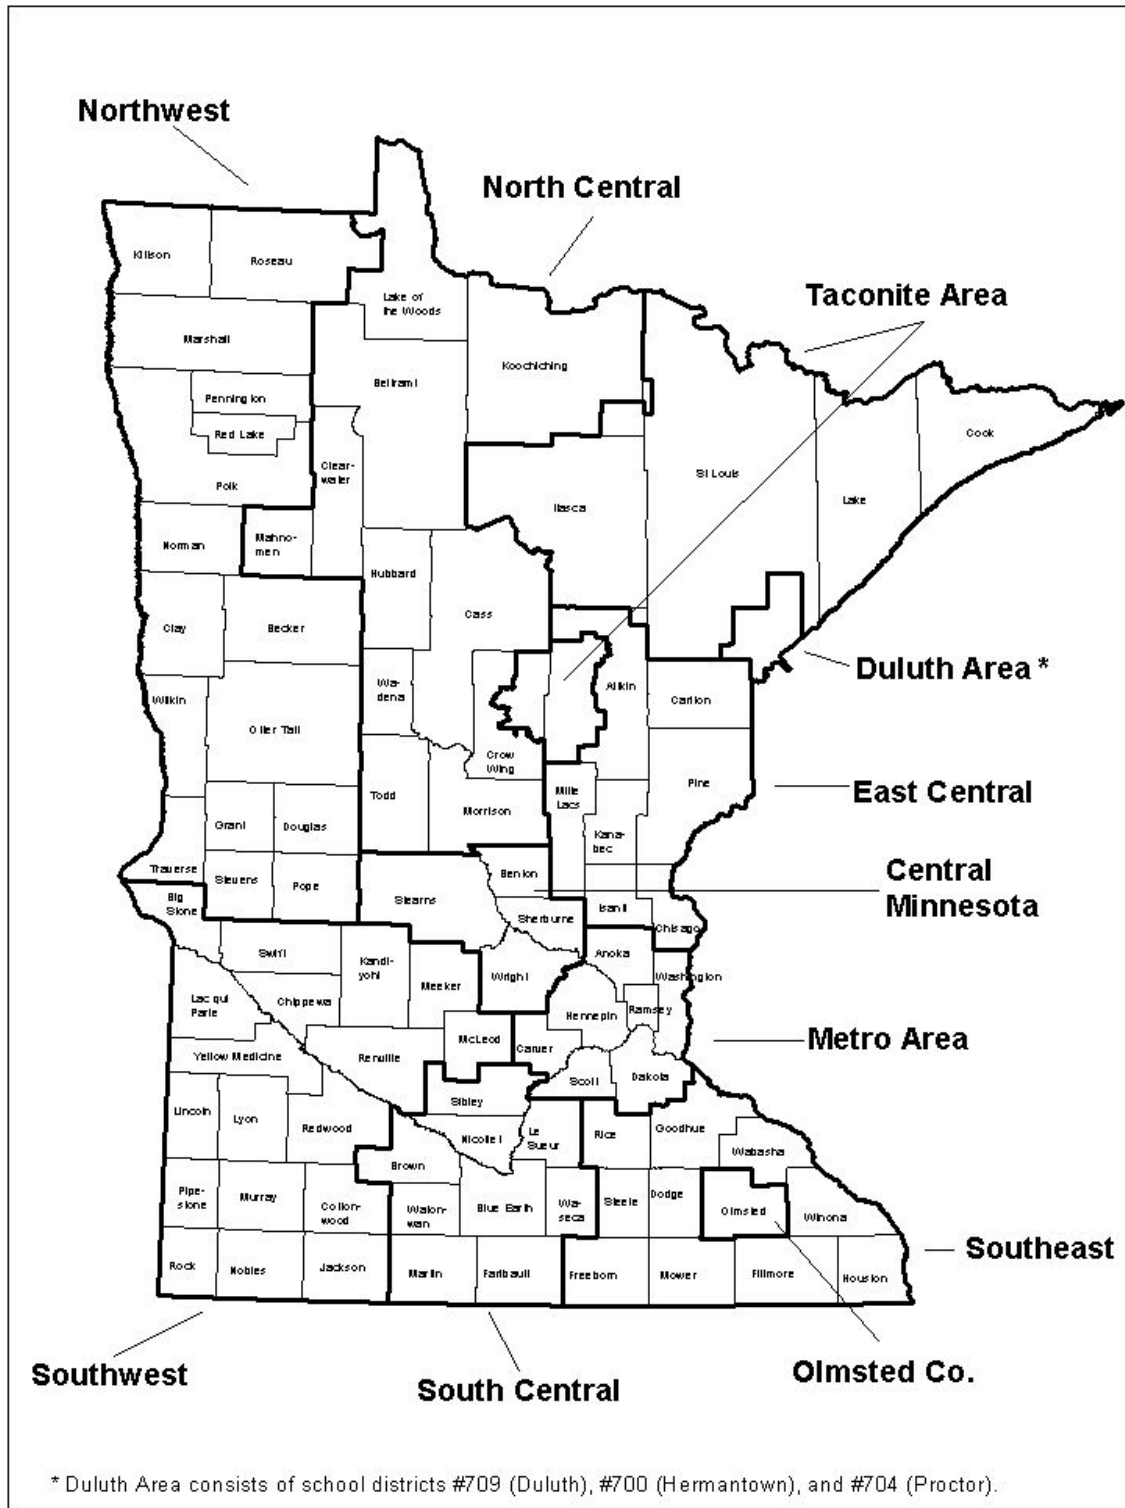

Alternative: Preliminary Pay 2023 under H.F. 1504

- **Market Values** (taxable market values) are actual values reported by the county assessors to the Department of Revenue. These values are adjusted to reflect the changes to the homestead market value exclusion in the bill.
- **Local government levies** are the preliminary levies that were certified by local taxing jurisdictions to county auditors, and then reported to the Department of Revenue.
- **Property tax credits** are calculated within the simulation model.
