St. Paul, MN 55155

Chair Carla Nelson  
Senate Tax Committee  
3235 Minnesota Senate Building  
St. Paul, MN 55155

Chair Marquart, Chair Nelson and Members of the Tax Conference Committee,

On behalf of the Greater Minneapolis Hotel Association, I urge your support of the Tourism Improvement District (TID) enabling legislation included in the House Omnibus Tax Bill. This legislation authorizes local governments to create a "Tourism Improvement District (TID)" through a local ordinance process. The tourism and hospitality industry was, and continues to be, one of the hardest hit industries during the COVID-19 pandemic. It will likely be one of the last to recover. This legislation is crucial to the economic recovery of this important industry in Minnesota.

Tourism improvement districts have been established by almost 200 cities in 19 states across the country. TID legislation recently passed in Massachusetts, Louisiana, Virginia, and Utah. The states of Iowa, Illinois, and Indiana have pending TID legislation in 2022. This initiative would generate significant revenue to aid in the economic recovery of this industry, at no cost to the State.

The activities that any Tourism Improvement District would support must be focused on marketing, promotion, and other activities to benefit the lodging businesses directly. These activities would be focused on increasing occupancy at hotels and lodging businesses across the state resulting in putting people back to work, supporting local restaurants and bars, supporting tourist attractions, and increase local and state tax revenues.

Again, thank you for your consideration of the Tourism Improvement District enabling legislation. We ask that this proposal be included in a final tax bill this session.

Sincerely,

John Yeadon  
GMHA President  
General Manager – Hyatt Regency Minneapolis
